Re: Freedom of Information Reference No. 14034

Dear Ms. Wall:

This is a response to your June 4, 2013 request, which has been processed under the Port Authority's Freedom of Information Code, (the "Code"), for copies of the following records related to the construction of Terminal B at Newark Liberty International Airport between 1970 through 1975: contracts, bids and specifications, insurance certificates provided by any contractor to the Port Authority, mechanical HVAC Plumbing Specifications, documents identifying the general contractor, and documents identifying all pipe insulator contractors.

Please be advised that we have searched our files and found no documents responsive to the request. The records that may have been responsive to the request, to the extent that they existed, were likely destroyed at The World Trade Center on September 11, 2001.

Very truly yours,

Daniel D. Duffy
