THE WORLD TRADE CENTER - CONCOURSE SPRINKLERIZATION - PROJECT AUTHORIZATION

Although tenant spaces in the World Trade Center Concourse (the "Concourse") are sprinklered, the public areas of the Concourse are not sprinklered, with the exception of three recently completed public corridors. A project is proposed to provide for installation of sprinkler mains, loops, and heads in the remaining Concourse public areas as part of an ongoing effort to implement Concourse life safety improvements. Some ceiling replacement and other structural work will also be performed to provide adequate clearance for sprinklers and to install ceiling isolation joints which would minimize any potential ceiling failure in accordance with current Port Authority standards.

Sprinkler work will be implemented in phases on the Concourse. Construction will begin in early 1998 and will continue through October 1998. Work will not be scheduled in public areas during the retail holiday season, but will resume and be completed in early 1999.

Pursuant to the foregoing report the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that a project to install additional sprinklers throughout the public corridors and service corridors of The World Trade Center Concourse that are not already sprinklered, and to perform related work, at an estimated total project cost of \$9.90 million including administrative, engineering, planning and financial expense, payments to vendors, consultants and contractors, and allowances for net cost work, extra work (if necessary), and a project contingency (if necessary), be and the same is hereby authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to: a) take such actions with respect to the award of purchase and construction contracts and contracts for professional and advisory services for the foregoing project as he deems in the best interest of the Port Authority, including, without limitation, award to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable; rejection of all bids; solicitation of new bids on revised or the same requirements; or negotiation with one or more contractors; b) execute contracts and supplemental agreements with such contractors as he deems in the best interests of the Port Authority and to order extra work (if necessary) and net cost work in connection with each contract and supplemental agreement; and c) enter into such other agreements as may be necessary to effectuate the project; and it is further

RESOLVED, that the form of the contracts and agreements shall be subject to the approval of General Counsel or his authorized representative.

(Board - 8/28/97)

THE WORLD TRADE CENTER - GEORGESON & COMPANY, INC. - LEASE AGREEMENT

It was recommended that the Board authorize the Executive Director to enter into a lease agreement (the "Lease") with Georgeson & Company, Inc. ("Georgeson") covering approximately 59,000 rentable square feet of space at The World Trade Center ("WTC"), consisting of the entire 77th floor and a portion of the 78th floor of Two WTC, for a term expiring approximately sixteen years and nine months from the commencement date of the letting of the portion of the premises located on the 77th floor. It is expected that this will occur on or about January 1, 1998. In order to accommodate Georgeson's tenancy, Fuji Bank & Trust Co., Inc. will be required to surrender approximately 117 rentable square feet of space on the 78th floor.

Georgeson will pay an aggregate basic rental for the premises under the Lease of approximately \$29.2 million, and its proportionate share of any increases in direct operating and maintenance costs over the actual costs and expenses for the 1998 base year as well as increases in payments in lieu of taxes as provided in the Lease. Georgeson will be provided protection from all increases in real estate taxes due to any initial reassessment of the building resulting from a change in the ownership of the WTC during the term of the letting under the Lease, and will pay its proportionate share of increases after such initial reassessment. The Port Authority will provide Georgeson with a construction allowance, and will also grant Georgeson assignment, subletting, expansion, termination, and renewal rights, as specified in the Lease.

The Port Authority will be required to perform demolition and other space preparation work including the installation of sprinkler loops, removal, if necessary, of vinyl asbestos floor tile, asbestos abatement, and re-fireproofing at a cost of approximately \$1.2 million. The Port Authority will also be obligated to maintain and repair the escalators serving the portion of the premises located on the 77th floor of Two WTC. The final terms of the Lease are subject to the approval of the Committee on Operations in the event that they differ substantially from the terms outlined herein.

The Port Authority will pay a brokerage commission to Julien J. Studley, Inc., the broker involved in the transaction.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to: (1) enter into a lease agreement with Georgeson & Company, Inc. covering the letting of space at The World Trade Center substantially in accordance with the terms and conditions outlined above, (2) enter into a brokerage agreement with Julien J. Studley, Inc. in connection with such letting, (3) accept a surrender by Fuji Bank & Trust Co., Inc. of a portion of its premises located on the 78th floor of Two World Trade Center in connection with the letting of space to

Georgeson & Company, Inc., and (4) take such actions with respect to the award of purchase and construction contracts, and contracts for professional and advisory services as he deems to be in the best interest of the Port Authority to meet the commitments undertaken by the Port Authority in the lease agreement with Georgeson & Company, Inc., including entering into agreements for net cost work and additional work, entering into supplemental agreements, and the award of contracts on a sole source basis; the form of the agreements in each instance shall be subject to the approval of General Counsel or his authorized representative; and it is further

RESOLVED, that the Committee on Operations is hereby authorized to approve the final terms of the lease agreement with Georgeson & Company, Inc. in the event that such final terms are not substantially in accordance with the terms and conditions outlined above.

(Board - 8/28/97)

**BROOKLYN - PORT AUTHORITY MARINE TERMINAL - BROOKLYN BRIDGE
PARK COALITION - NEW LEASE**

It was recommended that the Board authorize the Executive Director, for and on behalf of the Port Authority, to enter into a five-year lease, rent free, commencing on or about August 1, 1997 with Brooklyn Bridge Park Coalition, Inc. ("BBPC") covering premises located on Furman Street.

The lease to BBPC would facilitate the discontinuance of an appeal by BBPC of a United States District Court decision in favor of the Port Authority upholding the right of the Port Authority to lease space at Pier 3 to Strober Brothers Building Supply Centers, Inc. ("Strober"). The Port Authority has agreed to indemnify Strober if it is unable to use the space as a result of an adverse decision in the BBPC suit. The building to be let to BBPC has been vacant for several years and its occupancy by BBPC will relieve the Port Authority of certain utility, maintenance and security expenses.

The Port Authority has notified BBPC of the existence of certain conditions in the building including that the building contains vinyl asbestos tiles and asbestos insulation. BBPC is to take the premises in its "as is" condition.

BBPC will be responsible for non-structural maintenance and repairs of the premises.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Brooklyn Bridge Park Coalition, Inc. at the Brooklyn-Port Authority Marine Terminal, substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**PORT NEWARK - CONTINENTAL SALT, INC. - LEASE NO. LPN-233 - NEW LEASE
FOR SHED 145**

It was recommended that the Board authorize the Executive Director, for and on behalf of the Port Authority, to enter into an agreement of lease with Continental Salt, Inc. ("Continental") for the letting of Shed 145 and associated open area at Port Newark.

Continental will make certain leasehold improvements to suit its operation at its own expense. Continental will establish a plan of operation setting forth procedures to be followed by it for the protection of the premises and Port Newark, including the waters at or contiguous thereto, from any and all damage, including any environmental damage, resulting from the presence of salt on the premises.

The lease would be for a term of ten years commencing on October 1, 1997 with occupancy of the premises and rental increasing in stages through May 1, 1998. The rental rate would be fixed initially and subject to annual escalation after the second year of the term. In the event Continental utilizes open area for storage, it would also pay a monthly rental surcharge based on area. In addition to the basic rental payable under the lease, Continental will guarantee an annual throughput of 50,000 tons of salt per year.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement of lease with Continental Salt, Inc. at Port Newark, substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

PORT AUTHORITY BUS TERMINAL - SEHERA ENTERPRISES, INC. - EXPANSION AND LEASE EXTENSION

It was recommended that the Board authorize the Executive Director to enter into an agreement (the "Supplement") with Sehera Enterprises, Inc. ("Deli Plus") covering the letting of approximately 1,750 square feet of space at the Port Authority Bus Terminal in addition to the approximately 1,485 square feet of space currently leased by Deli Plus under Deli Plus' existing lease (the "Lease") covering the operation of a gourmet delicatessen, and extending the term of the letting under the Lease. The additional space will be used for the operation of a food market selling over-the-counter pharmacy and health-related items, and fruits, vegetables, and other grocery items for off-premises consumption.

The principal of Deli Plus is a successful food service entrepreneur who operates seven delicatessens and restaurants in the New York and New Jersey metropolitan area, including a delicatessen in PATH's Journal Square Transportation Center. He is currently in the process of constructing another delicatessen on the PATH mezzanine of The World Trade Center. The existing Deli Plus opened at the Port Authority Bus Terminal in 1995.

The Supplement would extend the term of the letting under the Lease, which currently is scheduled to expire March 31, 2005, for a period expiring on the tenth anniversary of the date payment of rental for the expanded premises commences under the Supplement. Deli Plus will continue to pay the rent provided for in the Lease on the space it originally leased until the date payment of rental for the expanded premises commences. Deli Plus will pay a graduated basic rental for the expanded premises plus a percentage rental. Payment of the rentals for the expanded premises under the Supplement will commence 240 days from the commencement date of the letting of the additional space or the commencement of business operations in the additional space, whichever occurs first. The letting of the additional space will commence on or about October 1, 1997. Deli Plus will install all improvements, fixtures and equipment required for its operations in the additional space, at its sole cost and expense. The extended term of the letting will be subject to termination by the Port Authority, at any time, without cause, on thirty days' notice, in which event Deli Plus would be reimbursed for the unamortized portion of its initial capital investment in the additional space to the extent that such initial capital investment does not exceed \$150,000. This is in addition to the reimbursement of the unamortized portion of Deli Plus' initial capital investment in the space it originally leased as previously authorized by the Board.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Sehera Enterprises, Inc. at the Port Authority Bus Terminal, substantially in accordance with the terms and conditions outlined above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

(Board - 8/28/97)

**SETTLEMENT OF CLAIM - SUSAN STILLMAN AND ANDREW STILLMAN v. THE
PORT AUTHORITY OF NEW YORK AND NEW JERSEY**

It was recommended that the Board authorize General Counsel to settle the pending claim brought by Susan Stillman and Andrew Stillman by paying to them and their attorney the sum of \$190,000. In return, the Port Authority will receive a General Release and Stipulation of Discontinuance, with prejudice, and plaintiffs agree to waive any attorneys' fees, interest, costs and disbursements.

Mrs. Stillman brought this action to recover for a depressed fracture of the forearm and elbow area of the left arm resulting in osteoarthritic changes, and her husband sued for loss of services. These damages arose as a result of an accident that occurred on March 26, 1989 when Mrs. Stillman tripped over an unmarked, raised concrete platform upon which a light pole had formerly been located at an island sidewalk outside the Central Terminal Building at LaGuardia Airport.

A trial was held in the Supreme Court of the State of New York, New York County, resulting in a verdict in plaintiffs' favor in the sum of \$215,000, which, when reduced by the assessed ten percent (10%) comparative negligence, resulted in a net award of \$193,500 to plaintiffs. At a pre-appeal conference, this settlement was achieved.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to settle the pending civil action entitled Susan Stillman and Andrew Stillman v. The Port Authority of New York and New Jersey, by paying \$190,000 to plaintiffs and their attorney in return for a General Release and Stipulation of Discontinuance, with prejudice, and waiver of any attorneys' fees, interest, costs and disbursements that plaintiffs would otherwise be entitled to obtain.

SETTLEMENT OF CLAIM - THE PORT AUTHORITY OF NEW YORK AND NEW JERSEY v. AEROEJECUTIVO, S.A. d/b/a AEROEXO

It was recommended that the Board authorize General Counsel to settle an action entitled The Port Authority of New York and New Jersey v. Aeroejecutivo, S.A. d/b/a Aeroexo to recover approximately \$139,000 in itinerant aircraft fees, for a lump sum payment of \$100,000. In return for this payment, the Port Authority will give the defendant a General Release and a Stipulation of Discontinuance of the action with prejudice.

The Port Authority commenced the action in the Supreme Court of the State of New York, New York County, to recover itinerant aircraft fees, of approximately \$139,000, for use of John F. Kennedy and Newark International Airports (the "airports"). Aeroejecutivo, S.A. d/b/a Aeroexo ("Aeroejecutivo"), which has offices in Mexico and Houston, had combined total monthly billings ranging from a low of \$18,0000 to a high of \$60,000. Aeroejecutivo ceased its use of the airports in December 1995.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to settle an action entitled The Port Authority of New York and New Jersey v. Aeroejecutivo, S.A. d/b/a Aeroexo by accepting a lump sum payment of \$100,000 in return for a General Release and a Stipulation of Discontinue of the action with prejudice.

(Board - 8/28/97)

) **THE PORT AUTHORITY OF NEW YORK AND NEW JERSEY AND PORT
AUTHORITY TRANS-HUDSON CORPORATION v. AFFILIATED FM et al. -
SETTLEMENT WITH FIREMAN'S FUND INDEMNITY**

This item shall not be available for public inspection until otherwise agreed to
by the parties involved.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period June 1, 1997 to June 30, 1997.

(A) Lump Sum

(B) Classified Work

(C) Net Cost - amount in the "Total Authorized" column represents the estimated net cost amount. However, the amount in the "Total Payment" column is the authorized net cost amount.

(D) Extra Work

(E) Premium for furnishing performance and payment bond as provided for in the Contract.

(F) AP 45-1.01.5, classified work may exceed authorized amount limited to 10% or \$250,000 (whichever is less) without further authorization.

(G) AP 45-1.01.5, uncommitted funds in extra work are permitted to be utilized against additional costs in classified work not covered under (F).

(H) The difference between "Total Authorized" and "Total Payment" represents credit change orders in the amount of \$1,149.

(I) Memorandum of Authorization dated 06/06/96, increasing classified work in the amount of \$150,000.

(J) Memorandum of Justification dated 01/26/96, authorizing a Supplemental agreement in the amount of \$250,000.

- (K) Memorandum of Authorization dated 08/16/94, increasing extra work in the amount of \$250,000.
- (L) Memorandum of Justification dated 09/25/95, increasing classified work in the amount of \$73,373.
- (M) Memorandum of Justification dated 09/25/95, increasing extra work in the amount of \$108,000.
- (N) The difference between "Total Authorized" and "Total Payment" represents credit change orders in the amount of \$215,790.
- (O) The difference between "Total Authorized" and "Total Payment" represents a credit change order in the amount of \$11,424.
- (P) Memorandum of Authorization dated 09/06/96, increasing net cost work in the amount of \$60,000.
- (Q) Memorandum of Justification dated 03/19/97, increasing extra work in the amount of \$39,000.
- (R) The difference between "Total Authorized" and "Total Payment" represents a credit change order in the amount of \$700.
- (S) Memorandum of Justification dated 02/04/93, increasing extra work in the amount of \$69,000.
- (T) Memorandum of Justification dated 02/04/93, authorizing a Supplemental Agreement in the amount of \$7,987.

Investments & Deposits

The Committee on Finance reported, for information only, that in accordance with authority granted by the Committee, the Executive Director had authorized the following security transactions, time accounts, interest rate exchange contracts and variable rate master note agreements during the period June 1, 1997 to June 30, 1997.

Purchase of Port Authority Bonds

NEW YORK

Hon. Charles A. Gargano, Vice-Chairman
 Hon. Peter S. Kalikow
 Hon. David S. Mack
 Hon. George D. O'Neill
 Hon. Melvin L. Schweitzer

The public meeting was called to order by Chairman Eisenberg at 2:09 p.m. and ended at 2:16 p.m. The Board also met in executive session prior to the public meeting. In addition to the meeting reflected in the Minutes for August 28, 1997, the Board had also held a planning meeting in executive session on that day.

Action on Minutes

The Secretary submitted for approval Minutes of the meeting of August 28, 1997. He reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. He reported further that the time for action by the Governors of New York and New Jersey has expired.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Audit Committee

The Audit Committee reported, for information, on matters discussed in executive session at its meeting on September 25, 1997, which included discussion of internal audit matters, and the report was received.

Report of Committee on Capital Programs and Port Planning

The Committee on Capital Programs and Port Planning reported, for information, on matters discussed in executive session at its meeting on September 25, 1997, which included a discussion of contract matters and matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with whom we deal, and the report was received.

Report of Committee on Finance

The Committee on Finance reported, for information, of action taken and matters discussed in executive session at its meeting on September 25, 1997, which included a discussion of contract matters and matters related to, or which could impact upon, the issuance, sale, resale, or redemption of Port Authority bonds, notes, or other obligations, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Construction

The Committee on Construction reported, for information, on matters discussed in public session at its meeting on September 25, 1997, which included an update on the status of the Newark International Airport 4L-22R Runway extension project. Following the public session, the Committee met in executive session to discuss lease matters, in addition to matters

filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Operations

The Committee on Operations reported, for information, on matters discussed in executive session at its meeting on September 25, 1997, which included a discussion of lease and real property matters, and the report was received.

PORT AUTHORITY PARTICIPATION IN THE NORTH JERSEY CLEAN CITIES PROGRAM

The Clean Cities Program is a United States Department of Energy (US DOE) public/private initiative designed to expand the awareness and use of alternatives to gasoline and diesel fuel. US DOE's designation of eleven counties in northern New Jersey as a "Clean City" under the Clean Cities program will make it easier for employers in those counties to obtain federal grant monies to facilitate their use of alternative fueled vehicles as mandated by the provisions of the Energy Policy Act of 1992 and the 1990 amendments to the Clean Air Act.

As a result of regulations established pursuant to the Energy Policy Act and the Clean Air Act, states, municipalities, vehicular fleet owners (such as the Port Authority), and utilities will be required to include within their new vehicle purchases a certain percentage of alternative fueled vehicles.

The North Jersey Clean Cities Coalition will be composed of federal, state, municipal and private entities which will seek a "Clean City" designation and which are interested in further promoting the use of alternative fuel vehicles in order to improve air quality and encourage economic growth. Membership does not entail any financial commitments or contractual obligations to the other signatories.

Pursuant to the foregoing report presented by staff, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Janiszewski, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to execute a Memorandum of Understanding with approximately 23 other public and private entities setting forth the terms of participation in the North Jersey Clean Cities Coalition; the form of the documents necessary to effectuate such shall be subject to the approval of General Counsel or his authorized representative.

**AUTHORIZATION FOR THE PORT AUTHORITY TO PROVIDE AIRPORT
ADVISORY SERVICES TO THE AIRIS DEVELOPMENT GROUP ON A
COMMERCIAL CARGO AIRPORT FEASIBILITY STUDY FOR THE
GOVERNMENT OF ST. PETERSBURG, RUSSIA**

Airis Development Group, Inc. (Airis), a United States developer of air cargo facilities, and a team of aviation consultants, have been requested by the Government of the St. Petersburg region (Leningrad Oblast) of Russia to conduct a study to determine the feasibility for the conversion of a former military airport to a commercial cargo airport, Veschevo International Airport (VICA). Airis and its team would like the Port Authority to participate because it believes that the Port Authority's knowledge, experience and reputation as a government entity that develops and operates international aviation and maritime transportation facilities would add a unique perspective to the feasibility study.

VICA would be the first major airport development in Russia since the economic and political reforms of 1991. As a result, it provides the regional government of St. Petersburg with the opportunity for change and adoption of new airport/aviation standards and procedures for commercial airport facilities. Under the current reform system, defunct military transportation facilities, such as airports, have been turned over to regional governments who are turning to the international private sector and government-sponsored development banks to fund, develop and operate these facilities. An essential element of attracting private investors to develop a commercial airport in a country such as Russia is the project's ability to successfully fulfill all requirements regarding international airport certification. It is in this area that Airis and its team is seeking Port Authority advisory assistance.

The Port Authority has a long history of providing advisory assistance on transportation infrastructure and organizational development projects to foreign governments and/or firms working on behalf of such governments. With respect to Russia particularly, business development advisory assistance has been provided in the past to Minsk Airport. In return for providing such assistance, the Port Authority is expected to reap several benefits, including contribution to the development of internationally accepted airport standards which opens the opportunity for New York/New Jersey aviation business; export opportunities for regional firms; the development of contacts for Port Authority business development; and staff exposure to transportation development in emerging markets.

Port Authority Aviation staff will provide advice and guidance with regard to work products, such as governmental and international agreements, proposed airport standards, airport planning issues and bilateral and market analysis, produced by Airis and its team. Port Authority staff participation will involve several review and discussion sessions with Airis, its team and the Government of St. Petersburg region. The total project is expected to take 26 weeks with Port Authority participation on an as-needed basis. The expected completion date of Port Authority participation is February 1998.

Under the proposed agreement between Airis and the Port Authority, Airis will compensate the Port Authority for personal services expenses, the cost of transportation, lodging, meals and other administrative expenses estimated at approximately \$25,000.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Janiszewski, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with the Airis Development Group, Inc., for the Port Authority to provide professional advisory services to Airis for a commercial cargo airport feasibility study for the Government of St. Petersburg, Russia at an estimated compensation of \$25,000; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

NEW YORK/NEW JERSEY AIRPORTS - AUTHORIZATION TO WAIVE FLIGHT FEES FOR ORGANIZATIONS PROVIDING NON-REVENUE, HUMANITARIAN OR CHARITABLE MEDICAL TRANSPORT

It was recommended that the Port Authority Schedule of Charges for Air Terminals be amended to authorize the Executive Director, under appropriate circumstances, to waive flight fees for not-for-profit, charitable organizations utilizing the Port Authority airports to provide free medical service, emergency medical transport of patients and/or organs to and from hospitals, and for other related humanitarian purposes.

The Port Authority periodically receives requests for waivers of flight fees and general terminal charges by charitable organizations (as certified by the Internal Revenue Service under section 501(c)(3) of the Internal Revenue Code) involved in the performance of non-revenue producing, charitable aircraft operations undertaken for a variety of reasons, including humanitarian purposes. These humanitarian flights include those arising out of aircraft operations for the transportation of patients conducted solely for the purpose of facilitating medical care. Such requests have typically been denied in the past because they do not meet the criteria for free use of air terminals as outlined in the Port Authority Schedule of Charges for Air Terminals, i.e. they are not directly related to Port Authority activities. Nonetheless, the Port Authority has, on occasion, made a charitable donation in lieu of waiving the fees.

Several other U.S. airports, including Boston Logan and Baltimore-Washington Airports, currently allow a waiver of fees for this type of aircraft operations. The sponsorship and assistance of the medical flights by eliminating payment of user charges for air terminals, at the discretion of the Executive Director, would benefit and enhance the quality of life in the communities served by the Port Authority while also enhancing the Port Authority's reputation within the community. Based on past experience, the number of qualifying flights is anticipated to be relatively small (less than twenty annually) and is estimated to have negligible revenue implications (less than \$30,000 per annum).

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Janiszewski, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Port Authority Schedule of Charges for Air Terminals be and it hereby is amended to authorize the Executive Director, under appropriate circumstances, to waive flight fees for not-for-profit, charitable organizations utilizing the Port Authority airports to provide free medical service, emergency transport of patients and/or organs to and from hospitals, and for other related humanitarian purposes.

PORT NEWARK - HARBOR FREIGHT TRANSPORT CORP. - SURRENDER OF LEASE EP-160 AND NEW LEASE LPN-239; BANKS SHIP RIGGING CORP. - PARTIAL SURRENDER OF LEASE LNS-660

It was recommended that the Board authorize the Executive Director to enter into the following agreements: (1) surrender by Banks Ship Rigging Corp. of approximately 13,938 square feet of open area at Port Newark on or about November 1, 1997; (2) surrender by Harbor Freight Transport Corp. ("Harbor Freight") of Building No. 1330 and Section D and one-half of Section C of Building No. 1310 and open area at the Elizabeth-Port Authority Marine Terminal in four stages from November 1, 1997 through January 31, 1998; and (3) lease of Building No. 301 and open area at Port Newark by Harbor Freight for a term commencing on November 1, 1997 and expiring on October 31, 2007. The rent for Building No. 301 will phase in during the period from November 1, 1997 through January 31, 1998, will immediately escalate on February 1, 1998, and thereafter will escalate on a fixed schedule. Harbor Freight will pay an additional rent on throughput of oversized cargo above an annual exemption tonnage. Harbor Freight will have the right to terminate the lease effective on October 31, 2002 on one year's prior notice to the Port Authority. If Harbor Freight elects to demolish two unusable building annexes that are part of the premises, the Port Authority will reimburse Harbor Freight for up to \$150,000 of the cost of this work.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Janiszewski, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into agreements with Banks Ship Rigging Corp. and Harbor Freight Transport Corp., substantially in accordance with the terms and conditions set forth above; the form of the agreements shall be subject to the approval of General Counsel or his authorized representative.

(Board - 9/25/97)

**PORT NEWARK - ASA APPLE, INC. - SURRENDER OF ELIZABETH-PORT
AUTHORITY MARINE TERMINAL LEASEHOLD AND SUPPLEMENTAL
LEASE AGREEMENT LPN-242**

It was recommended that the Board authorize the Executive Director to (i) enter into an agreement with ASA Apple, Inc. ("ASA") to surrender its leasehold at Elizabeth-Port Authority Marine Terminal ("PAMT") and (ii) amend Lease Agreement LPN-242 (the "Lease") with ASA at Port Newark to provide additional space under the Lease for the relocation of ASA and extend the letting under the Lease for ten years through January 31, 2010.

The relocation of ASA from space at PAMT to Port Newark includes financial incentives in the form of additional warehouse space at reduced rentals and a one-time rental credit in the amount of \$83,850. The rentals, however, will be subject to escalation at prescribed intervals throughout the extension period of the Lease.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Janiszewski, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a surrender agreement and a supplemental lease agreement with ASA Apple, Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreements shall be subject to the approval of General Counsel or his authorized representative.

AUTO PROCESSOR'S INCENTIVE PROGRAM - LEASE MODIFICATIONS

It was recommended that the Board authorize the Executive Director to enter into supplemental agreements to the respective leases between the Port Authority and its vehicle processing tenants to provide an incentive program for additional vehicles waterborne to or from the Port. The processors are BMW of North America, Inc.; Carco, Inc.; Distribution and Auto Service, Inc.; FAPS, Inc.; and Toyota Motor Sales, U.S.A., Inc. The program will extend for three consecutive years from July 1, 1997 through June 30, 2000. The processor will be entitled to a rent credit in the amount of Three Dollars and No Cents (\$3.00) multiplied by the number of defined vehicles waterborne to or from its premises during each year of the program that are in excess of the greater of (1) the guarantee number of vehicles set forth in its lease for that year, or (2) the number of such defined vehicles waterborne to or from its premises during the preceding year. For the first incentive year, vehicles manufactured by a manufacturer which prior to July 1, 1997 did not import or export vehicles through Port Authority marine terminal facilities will count for the credit provided that the processor exceeds its guarantee number for that year.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Janiszewski, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into supplemental agreements with its vehicle processing tenants, substantially in accordance with the terms and conditions set forth above; the form of the agreements shall be subject to the approval of General Counsel or his authorized representative.

THE WORLD TRADE CENTER - EMPIRE BLUE CROSS BLUE SHIELD - LEASE AGREEMENT

It was recommended that the Board (1) authorize the Executive Director to enter into: (a) a lease agreement with Empire Blue Cross Blue Shield (Empire) covering the letting of approximately 500,000 rentable square feet of office space in One World Trade Center consisting of the entire 15th, 17th, 19th, 20th, 23rd, 24th, 27th, 28th, 29th, 30th and 31st floors for a term of approximately twenty-one (21) years; (b) a brokerage agreement with Insignia/Edward S. Gordon Co., Inc. in connection with the lease agreement providing for the payment of a commission not exceeding an amount calculated in accordance with the rates authorized by the Board at its meeting of August 11, 1977; (c) agreements with existing tenants on the 29th floor to provide for the relocation of their offices or for the surrender of their leases (if more economically feasible); (d) an agreement or agreements with Bank of America providing for (i) an approximate eight (8)-month acceleration of the effective date of Bank of America's earlier exercise of its right to surrender a portion of its 23rd floor space, without additional payment, (ii) the surrender, without payment by Bank of America, of approximately 23,000 rentable square feet of its 14th floor space and (iii) the waiver of a buy-out payment, in an amount not to exceed approximately \$217,000, required to be made by Bank of America in connection with its exercise of a right to surrender one floor of space effective after June 2005, and (e) other agreements as necessary to perform work in connection with the lease; and (2) delegate to the Committee on Operations the authority to approve the final terms of the aforesaid lease, brokerage and other agreements if they are not substantially in accordance with those set forth herein.

Empire will occupy its premises at The World Trade Center on a phased basis and will begin construction in January 1998 after completion of certain work to be performed in the space by the Port Authority.

The aggregate basic rental payable by Empire for the office space over the lease term is approximately \$240 million.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Janiszewski, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Empire Blue Cross Blue Shield, a brokerage agreement with Insignia/Edward S. Gordon Co., Inc. in connection with the lease agreement, relocation or surrender agreements with existing tenants on the 29th floor of One World Trade Center and an agreement or agreements with Bank of America providing for the acceleration of the effective date of an earlier exercise of its surrender right regarding a portion of its 23rd floor space without additional payment, for the surrender of a portion of Bank of America's 14th floor space, without payment, and for a waiver of a buy-out payment, in an amount not to exceed approximately \$217,000, required to be made by Bank of America in connection with its exercise of a right to

surrender one floor of space effective after June 2005, each of such agreements to be in accordance with the terms outlined above; and to take such actions with respect to the award of purchase and construction contracts, and contracts for professional and advisory services as he deems to be in the best interests of the Port Authority to meet the commitments undertaken by the Port Authority in the lease agreement, including entering into agreements for net cost work and additional work, entering into supplemental agreements and the award of contracts on a sole source basis; the form of the agreements in each instance shall be subject to the approval of General Counsel or his authorized representative; and it is further

RESOLVED, that the Committee on Operations be and it hereby is authorized to approve the final terms and conditions of the aforesaid lease, brokerage and other agreements in the event that such terms and conditions are not substantially in accordance with the terms and conditions outlined above.

THE WORLD TRADE CENTER - WMB HOLDINGS, INC. - LEASE AGREEMENT

It was recommended that the Board authorize the Executive Director to enter into a lease agreement with WMB Holdings, Inc. (WMB) covering approximately 22,000 square feet of space on the 87th Floor of Two World Trade Center and in connection therewith to enter into a brokerage agreement with CB Commercial Real Estate Group, Inc. substantially in accordance with the terms and conditions outlined below.

WMB is a privately-held corporation involved in the business of acting as agent for and providing legal and financial services to entities involved in world trade and commerce and to others.

WMB will pay an aggregate basic rental for the premises of approximately \$7.3 million over the approximate 15-year, 3-month term of the lease agreement which will commence on or about January 1, 1998. WMB will take the space in its "as-is" condition except that the Port Authority will perform code-required ADA modifications to the public area bathrooms, demise the premises and refurbish the public corridor. WMB will have the right to terminate the letting under the lease agreement on the day preceding the tenth anniversary of the term subject to the terms and conditions set forth in the lease agreement and will have subleasing and assignment rights as specified in the lease agreement.

The final terms of the lease and brokerage agreements will be subject to the approval of the Committee on Operations in the event that they differ substantially from the terms outlined herein.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Janiszewski, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into (1) a lease agreement with WMB Holdings, Inc. for a term of approximately 15 years and 3 months covering the letting of approximately 22,000 rentable square feet of office space consisting of a portion of the 87th Floor in Two World Trade Center, substantially in accordance with the terms and conditions outlined above; and (2) a brokerage agreement with CB Commercial Real Estate Group, Inc. in connection with such letting; the form of the agreements in each instance shall be subject to the approval of General Counsel or his authorized representative, and it is further

RESOLVED, that the Committee on Operations is hereby authorized to approve the final terms of the lease and brokerage agreements in the event that such final terms are not substantially in accordance with the terms and conditions outlined above.

**THE WORLD TRADE CENTER - NEW YORK STATE DEPARTMENT OF
TAXATION AND FINANCE - LEASE AGREEMENT**

It was recommended that the Board authorize the Executive Director to enter into a lease agreement (the Lease) with New York State (the State), for the use of the Department of Taxation and Finance, covering approximately 75,800 rentable square feet of space at the World Trade Center (WTC), consisting of approximately 70,500 rentable square feet of office space on the 86th and 87th floors of Two WTC, approximately 3,400 rentable square feet of space in the public lobby on the Plaza Level of Five WTC, and approximately 1,900 rentable square feet of subgrade storage space, for a term of approximately ten years from the commencement date of the letting which will occur on or about January 1, 1998.

The State will pay an aggregate basic rental for the premises under the Lease of approximately \$16.1 million. The State will pay its proportionate share of any increases in direct operating and maintenance costs over the actual costs and expenses for the 1998 base year and will pay increases in payments in lieu of taxes as provided in the Lease. The State will assume the first \$1.00 of the increase in real estate taxes resulting from any initial reassessment of the building resulting from a change in the ownership of Two WTC during the term of the letting under the Lease, and will pay its proportionate share of increases after such initial reassessment. The Port Authority will design and construct the office and Plaza level spaces based upon the State's requirements at a cost not to exceed \$1.7 million (\$22.50 per rentable square foot) and will also be required to perform ADA work in the public bathrooms, and to modify the public corridor on the 87th floor to create a multi-tenant floor, at a cost of approximately \$200,000. The Port Authority will grant the State assignment, subletting and renewal rights, as specified in the Lease, and will reserve the right to relocate the State from the Plaza Level space to comparable space at the WTC upon payment of all reasonable relocation costs. The final terms of the Lease will be subject to the approval of the Committee on Operations in the event that they are not substantially in accordance with the terms outlined herein.

The Port Authority will pay a brokerage commission to Insignia/Edward S. Gordon Co., Inc. (Gordon) the broker involved in the transaction.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Janiszewski, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into (1) a lease agreement with New York State covering the letting of space at The World Trade Center for the use of the Department of Taxation and Finance, substantially in accordance with the terms and conditions outlined above; (2) a brokerage agreement with Insignia/Edward S. Gordon Co., Inc. in connection with such letting; and (3) to take such actions with respect to the award of purchase and construction contracts, and contracts for professional and advisory services as he deems to be in the best interest of the Port

Authority to meet the commitments undertaken by the Port Authority in the lease agreement, including entering into agreements for net cost work and additional work (if necessary), entering into supplemental agreements, and the award of contracts on a sole source basis; the form of the agreements in each instance shall be subject to the approval of General Counsel or his authorized representative; and it is further

RESOLVED, that the Committee on Operations is hereby authorized to approve the final terms of the lease agreement with New York State in the event that such final terms are not substantially in accordance with the terms and conditions outlined above.

HOBOKEN SOUTH WATERFRONT DEVELOPMENT - FACILITY CERTIFICATION

Legislation authorizing Port Authority participation in certain mixed-use waterfront development projects was enacted by the States of New York and New Jersey and became law on August 2, 1984. The legislation authorizes the Port Authority to participate in conjunction with affected municipalities in effectuating certain mixed-use waterfront development projects in each of the States, including a site in the City of Hoboken, New Jersey, and a site in the Hunters Point section of Long Island City, Borough of Queens in New York City, New York. The Port Authority may undertake such mixed-use waterfront development projects, including site preparation and other work necessary for the effectuation of the overall development program and to facilitate private sector investment in connection therewith, consistent with agreements with the holders of Consolidated Bonds, including those pertaining to the financing of additional facilities.

The Port Authority and the City of Hoboken (the "City") entered into a Municipal Development Agreement with respect to the redevelopment of the former Hoboken-Port Authority Marine Terminal and certain adjacent areas which may include up to approximately 2.8 million square feet of mixed-use waterfront development in the City, and the Port Authority acquired and leased an approximately seven acre site (within such former marine terminal area) to the City for project purposes.

At its July 13, 1995, meeting the Board authorized land acquisition, infrastructure improvements and related expenditures in connection with a Hoboken South Waterfront Development project (the "Facility") at an estimated cost of approximately \$75 million in addition to developmental expenses and other expenditures already incurred plus an unallocated amount for total potential Port Authority allocations of \$125 million. (This Facility is different from prior authorizations.)

Certification as an additional facility of the Port Authority is required by covenants with the holders of Consolidated Bonds (which includes Consolidated Notes) at the time of issuance of the first Consolidated Bonds for purposes which include capital expenditures in connection with the additional facility. The Hoboken South Waterfront Development project is to be an additional facility of the Port Authority, and, therefore, certification is necessary if any portion of the proceeds of such Consolidated Bonds, the issuance of which in connection with this Facility is expected in the near future, is to be used for purposes of capital expenditures in connection with the Facility.

The Executive Director, Chief Financial Officer or Treasurer would be authorized to reaffirm the certification at the time of issuance of such Consolidated Bonds provided that there is no substantial change in the economic basis for the certification.

The Chief Financial Officer has reviewed the projected overall financial standing and condition of the Port Authority and the economics of the Facility on the basis of the issuance of Consolidated Bonds to provide for the total capital expenditures of or related to the Facility.

The Chief Financial Officer has also reviewed with the Commissioners his formal opinion to them consistent with Section 7 of the resolutions establishing outstanding series of Consolidated Bonds that, as of September 25, 1997, issuance of the first Consolidated Bonds for purposes which include capital expenditures for the Facility, at the time of issuance thereof and subject to further opinion of the Chief Financial Officer at such time, the application of any portion of the proceeds of such Consolidated Bonds in connection with the Facility will not, during the periods 1997 through 2032, reflecting the traditional 35-year term of long-term Consolidated Bonds, and 1997 through 2007, the immediately ensuing ten-year period associated with Consolidated Bonds (including Consolidated Notes) with a maturity of less than ten years, in the light of the Port Authority's estimated expenditures in connection with the Facility and the total anticipated revenues and expenses of the Port Authority during those periods, materially impair the sound credit standing of the Port Authority or the investment status of Consolidated Bonds or the ability of the Port Authority to fulfill its commitments, whether statutory or contractual or reasonably incidental thereto, including its undertakings to the holders of Consolidated Bonds.

In reaching this conclusion, the Chief Financial Officer considered the covenants with holders of Consolidated Bonds including those providing for the Port Authority to establish charges in connection with the Port Authority's facilities to the end that at least sufficient net revenues may be produced therefrom to provide for the debt service on all Consolidated Bonds, including those issued for purposes of capital expenditures in connection with the Facility. This conclusion was also based, in part, on the Chief Financial Officer's consideration of the present financial condition of the Port Authority and its continued ability to conduct its business affairs, and the assumption set forth in the preceding sentence that the Port Authority will, at all times during the ensuing 30-year period, continue to maintain sufficient net revenues to pay such required debt service during such period.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Janiszewski, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; Commissioner Donovan abstaining; none against:

RESOLVED, that certification is hereby made as of September 25, 1997, that, in the opinion of the Port Authority, the issuance of Consolidated Bonds (which includes Consolidated Notes) for purposes which include capital expenditures in connection with the Hoboken South Waterfront Development project (the "Facility") will not, during the periods 1997 through 2032 and 1997 through 2007, in the light of the Port Authority's estimated expenditures in connection with the Facility, and the total anticipated revenues and expenses of the Port Authority during those periods, materially impair the sound credit standing of the Port Authority or the investment status of Consolidated Bonds or the ability of the Port Authority to fulfill its commitments, whether statutory or contractual or reasonably incidental thereto, including its undertakings to the holders of Consolidated Bonds; and it is further

RESOLVED, that the Executive Director, Chief Financial Officer or Treasurer be and each hereby is authorized to reaffirm said certification on behalf of the Port Authority at the time of issuance of the first Consolidated Bonds (which includes Consolidated Notes) for purposes which include capital expenditures in connection with the Facility, provided that there is no substantial change in the economic basis for said certification, in which event said certification shall remain in effect as the opinion of the Port Authority at such time of issuance.

QUEENS WEST WATERFRONT DEVELOPMENT - FACILITY CERTIFICATION

Legislation authorizing Port Authority participation in certain mixed-use waterfront development projects was enacted by the States of New York and New Jersey and became law on August 2, 1984. The legislation authorizes the Port Authority to participate in conjunction with affected municipalities in effectuating certain mixed-use waterfront development projects in each of the States, including a site in the City of Hoboken, New Jersey, and a site in the Hunters Point section of Long Island City, Borough of Queens in New York City, New York. The Port Authority may undertake such mixed-use waterfront development projects, including site preparation and other work necessary for the effectuation of the overall development program and to facilitate private sector investment in connection therewith, consistent with agreements with the holders of Consolidated Bonds, including those pertaining to the financing of additional facilities.

The Port Authority, the Empire State Development Corporation ("ESDC", formally the New York State Urban Development Corporation), and the City of New York, through the New York City Economic Development Corporation ("EDC"), entered into a Municipal Agreement with respect to the development of this project in Hunters Point, effective October 5, 1992. The Port Authority, ESDC, and EDC participate equally on the Queens West Development Corporation ("QWDC") Board, an ESDC subsidiary, to manage the implementation and construction of the project.

At its January 7, 1992, meeting the Port Authority Board authorized land acquisition, infrastructure improvements and related expenditures in connection with the Queens West Waterfront Development project (the "Facility") at an estimated cost of approximately \$125 million. This Port Authority participation includes developmental and other expenditures already incurred.

Certification as an additional facility of the Port Authority is required by covenants with the holders of Consolidated

Bonds (which includes Consolidated Notes) at the time of issuance of the first Consolidated Bonds for purposes which include capital expenditures in connections with the additional facility. The Queens West Waterfront Development project is to be an additional facility of the Port Authority, and, therefore certification is necessary if any portion of the proceeds of such Consolidated Bonds, the issuance of which in connection with this Facility is expected in the near future, is to be used for purposes of capital expenditures in connection with the Facility.

The Executive Director, Chief Financial Officer or Treasurer would be authorized to reaffirm the certification at the time of issuance of such Consolidated Bonds provided there is no substantial change in the economic basis for the certification.

The Chief Financial Officer has reviewed that the projected overall financial standing and condition of the Port Authority and the economics of the Facility on the basis of the issuance of Consolidated Bonds to provide for the total capital expenditures of or related to the Facility.

The Chief Financial Officer has also reviewed with the Commissioners his formal opinion to them consistent with Section 7 of the resolutions establishing outstanding series of Consolidated Bonds that, as of September 25, 1997, issuance of the first Consolidated Bonds for purposes which include capital expenditures for the Facility, at the time of issuance thereof and subject to further opinion of the Chief Financial Officer at such time, the application of any portion of the proceeds of such Consolidated Bonds in connection with the Facility will not, during the periods 1997 through 2032, reflecting the traditional 35-year term of long-term Consolidated Bonds, and 1997 through 2007, the immediately ensuing ten-year period associated with Consolidated Bonds (including Consolidated Notes) with a maturity of less than ten years, in the light of the Port Authority's estimated expenditures in connection with the Facility and the total anticipated revenues and expenses of the Port Authority during those periods, materially impair the sound credit standing of the Port Authority or the investment status of Consolidated Bonds or the ability of the Port Authority to fulfill its commitments, whether statutory or contractual or reasonably incidental thereto, including its undertakings to the holders of Consolidated Bonds.

In reaching this conclusion, the Chief Financial Officer considered the covenants with holders of Consolidated Bonds including those providing for the Port Authority to establish charges in connection with the Port Authority's facilities to the end that at least sufficient net revenues may be produced therefrom to provide for the debt service on all Consolidated Bonds, including those issued for purposes of capital expenditures in connection with the Facility. This conclusion was also based, in part, on the Chief Financial Officer's consideration of the present financial condition of the Port Authority and its continued ability to conduct its business affairs, and the assumption set forth in the preceding sentence, that the Port Authority will at all times during the ensuing 30-year period continue to maintain sufficient net revenues to pay such required debt service during such period.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Janiszewski, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that certification is hereby made as of September 25, 1997, that, in the opinion of the Port Authority, the issuance of Consolidated Bonds (which includes Consolidated Notes) for purposes which include capital expenditures in connection with the Queens West Waterfront Development project (the "Facility") will not, during the periods 1997 through 2032 and 1997 through 2007, in the light of the Port Authority's estimated expenditures in connection with the Facility, and the total anticipated revenues and expenses of the Port Authority during those periods, materially impair the sound credit standing of the Port Authority or the investment status of Consolidated Bonds or the ability of the Port Authority to fulfill its commitments, whether statutory or contractual or reasonably incidental thereto, including its undertakings to the holders of Consolidated Bonds; and it is further

RESOLVED, that the Executive Director, Chief Financial Officer or Treasurer be, and each hereby is, authorized to reaffirm said certification

on behalf of the Port Authority at the time of issuance of the first Consolidated Bonds (which includes Consolidated Notes) for purposes which include capital expenditures in connection with the Facility, provided that there is no substantial change in the economic basis for said certification, in which event said certification shall remain in effect as the opinion of the Port Authority at such time of issuance.

**PORT AUTHORITY INDUSTRIAL PARK AT YONKERS - AUTHORIZATION TO
SELL LAND AND BUILDING NO. 1 TO THE CITY OF YONKERS**

It was recommended that the Board authorize the Executive Director to sell in its "as is" condition to the City of Yonkers a four-story and basement (partly at grade) building presently part of the Port Authority Industrial Park at Yonkers and referred to as "Building No. 1" located at the northwest corner of Dock and Atherton Streets in the City of Yonkers, New York together with land both underlying said building and adjacent on the west thereto at the southeast corner of River Street and Wells Avenue (collectively, "the property"), at a price of \$910,000 to be payable on an "all cash" basis. The Board declared this property surplus at its meeting of June 8, 1995.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Janiszewski, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, in his discretion, for and on behalf of the Port Authority, to sell and convey the property to the City of Yonkers for \$910,000 on an all-cash and "as is" basis and to do all other things necessary or appropriate in implementation or furtherance of the foregoing; and it is further

RESOLVED, that all documents which may be required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

MEMORIAL TO A. GERDES KUHBACK

We note with regret the recent passing of former Executive Director A. Gerdes Kuhbach.

WHEREAS, Gerdes Kuhbach's long and distinguished career with the Port Authority was highlighted by his years as Executive Director from 1973 to 1977, during which he guided the agency through the transition from Austin J. Tobin's 30-year tenure as Executive Director until the announcement of the appointment of Peter C. Goldmark; and

WHEREAS, Mr. Kuhbach, who came to the agency and the Port Authority Trans-Hudson Corporation as Director of Finance in 1962 and was serving in that capacity at the time of his appointment, brought to the position of Executive Director more than 30 years of experience in railroad operations and the administration of capital funds for major public construction projects; and

WHEREAS, he continued to serve the Port Authority and assist Mr. Goldmark and the Board as Senior Financial Advisor until his retirement in 1982; and

WHEREAS, following his retirement from the Port Authority, Mr. Kuhbach continued to serve the public in our region as a member of the Board of the Floating Hospital of New York, a trustee of the Stanley Congregational Church of Chatham and a volunteer at Overlook Hospital.

NOW, THEREFORE, BE IT

RESOLVED, that the Board of Commissioners offers its most sincere condolences to the Kuhbach Family; and it is further

RESOLVED, that this memorial be suitably engraved and presented to the family of A. Gerdes Kuhbach in appreciation of his many years of service to The Port Authority of New York and New Jersey.

CONFIDENTIAL ITEM

This item shall not be available for public inspection until otherwise agreed to by the parties involved.

Investments & Deposits

The Committee on Finance reported, for information only, that in accordance with authority granted by the Committee, the Executive Director had authorized the following security transactions, time accounts, interest rate exchange contracts and variable rate master note agreements during the period July 1, 1997 to July 31, 1997.

Purchase of Port Authority Bonds

(Unless otherwise noted, all Port Authority Bonds are callable at par).

- (A) Lump Sum
- (B) Classified Work
- (C) Net Cost - amount in the "Total Authorized" column represents the estimated net cost amount. However, the amount in the "Total Payment" column is the authorized net cost amount.
- (D) Extra Work
- (E) Memorandum of Authorization dated 03/25/96, authorizing a Supplemental Agreement in the amount of \$100,000.
- (F) Memorandum of Justification dated 06/17/96, authorizing a Supplemental Agreement in the amount of \$750,000.
- (G) Memorandum of Authorization dated 02/10/97, increasing classified work in the amount of \$41,000.
- (H) Per AP 45-1.01.5, classified work may exceed authorized amount limited to 10% or \$250,000 (whichever is less) without further authorization.
- (I) The difference between "Total Authorized" and "Total Payment" represents a credit change order in the amount of \$1,620 for a reduction in the scope of work.
- (J) Memorandum of Authorization dated 05/21/96, increasing extra work in the amount of \$8,000.00.
- (K) The difference between "Total Authorized" and "Total Payment" represents a deduction for deficiencies in asphalt pavement in the amount of \$460.82.
- (L) Memorandum of Justification dated 03/23/95, authorizing Supplemental Agreement in the amount of \$448,000.
- (M) Memorandum of Justification dated 03/23/95, authorizing net cost work in the amount of \$10,000.
- (N) Memorandum of Justification dated 03/23/95, increasing extra work in the amount of \$45,000.

(Board - 9/25/97)

- (O) The difference between "Total Authorized" and "Total Payment" represents a deduction for deficiencies in asphalt pavement in the amount of \$553.
- (P) Memorandum of Authorization dated 12/09/96, increasing extra work in the amount of \$30,000.
- (Q) Memorandum of Authorization dated 09/05/96, increasing classified work in the amount of \$21,419.
- (R) AP 45-1.01.5, uncommitted funds in extra work are permitted to be utilized against additional costs in classified work not covered under (H).
- (S) Memorandum of Justification dated 03/20/95, authorizing a Supplemental Agreement in the amount of \$126,000.
- (T) Memorandum of Justification dated 03/20/95, authorizing a Supplemental Agreement in the amount of \$675,000.
- (U) Premium for furnishing performance and payment bond as provided for in the Contract.
- (V) The difference between "Total Authorized" and "Total Payment" represents liquidated damages for Delay in Time for Completion per Contract in the amount of \$2,000.
- (W) The difference between "Total Authorized" and "Total Payment" represents a credit change order in the amount of \$1,200 for deleted work.

Whereupon, the meeting was adjourned.

 Christopher O. Ward, Director, Port Redevelopment Program, Port Commerce
 Angela F. Wood, Special Assistant to the Executive Director
 Peter Yerkes, Press Secretary
 Peter B. Yunis, Executive Assistant to the Chairman
 Margaret R. Zoch, Director, Budget

Guest

Kevin Corbett, Empire State Development Corporation

NEW YORK

Hon. Charles A. Gargano, Vice-Chairman
 Hon. Peter S. Kalikow
 Hon. David S. Mack
 Hon. George D. O'Neill
 Hon. Melvin L. Schweitzer

(Board - 10/30/97)

The public meeting was called to order by Chairman Eisenberg at 2:31 p.m. and ended at 2:48 p.m. The Board also met in executive session on October 16, 1997 and prior to the public meeting. In addition, the Board also held a planning meeting in executive session on October 16, 1997.

Action on Minutes

The Secretary submitted for approval Minutes of the meeting of September 25, 1997. He reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. He reported further that the time for action by the Governors of New York and New Jersey has expired.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Audit Committee

The Audit Committee reported, for information, on matters discussed in executive session at its meeting on October 30, 1997, which included discussion of internal audit matters, and the report was received.

Report of Committee on Capital Programs and Port Planning

The Committee on Capital Programs and Port Planning reported, for information, on matters discussed in executive session at its meeting on October 30, 1997, which included a discussion of lease matters and matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with whom we deal, and the report was received.

Report of Committee on Finance

The Committee on Finance reported, for information, of action taken and matters discussed in executive session at its meeting on October 30, 1997, which included a discussion of contract matters and matters related to, or which could impact upon, the issuance, sale, resale, or redemption of Port Authority bonds, notes, or other obligations, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Construction

The Committee on Construction reported, for information, on matters discussed in public session at its meeting on October 30, 1997, which included a discussion of customer service and amenity improvements at John F. Kennedy International Airport. Following the public session, the Committee met in executive session to discuss contract matters, in addition

(Board - 10/30/97)

to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Operations

The Committee on Operations reported, for information, on matters discussed in executive session at its meeting on October 30, 1997, which included a discussion of lease matters and matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with whom we deal, and the report was received.

Staff Report

A presentation was made by staff on the results of a customer survey at the Port Authority Bus Terminal.

(Board - 10/30/97)

CONFIDENTIAL ITEM

This item shall not be available for public inspection until otherwise agreed to by the parties involved.

(Board - 10/30/97)

JOHN F. KENNEDY INTERNATIONAL AIRPORT - PRIORITY CUSTOMER SERVICE AND AMENITY IMPROVEMENTS - PROJECT AUTHORIZATION

Various physical improvements at and around John F. Kennedy International Airport (JFK) have been identified by staff and by members of the JFK Service Improvement Task Force as a step towards creating positive customer perception. The proposed improvements include: refurbishing of key public areas of the Howard Beach subway station including a general clean-up and brightening and the installation of JFK signage and graphics; replacement of the airport's perimeter fence in certain areas with a blue vinyl-clad chain link fence, and curb-side edge treatment; landscaping improvements along public thoroughfares through and adjacent to the airport including the route between Federal Circle and Long Term Parking and various airport entrances such as the Van Wyck Expressway, JFK Expressway and Rockaway Boulevard entrances, various areas in the Central Terminal Area and the route from the JFK Expressway to the car rental facilities; refurbishment of the JFK Expressway median with asphalt block pavers; and improvements to other customer amenities.

The project would require agreement with New York State's Metropolitan Transportation Authority covering work to be performed at the Howard Beach subway station and with the City of New York covering work to be performed on City property along Rockaway Boulevard.

Pursuant to the foregoing report presented by staff, the following resolution was adopted with Commissioners Eisenberg, Gargano, Janiszewski, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that a project to implement priority customer service and amenity improvements in visually prominent areas at and around John F. Kennedy International Airport at an estimated total project cost of \$6 million, including payments to contractors, allowances for extra work (if necessary) and net cost work, planning, engineering, administrative and financial expenses and a project contingency (if necessary), be and the same is hereby authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to award Contract JFK-971.903 at an estimated cost of \$4.5 million to provide for all phases of net cost work for the project, and any other contracts required to complete the project, to the lowest bidder(s) qualified by reason of responsibility, experience and capacity at a bid price the Executive Director deems reasonable, or to reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors; and to execute other contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work (if necessary) and net cost work in connection with each contract including supplemental agreements thereto; and to enter into such other agreements as may be necessary to effectuate the project; the

(Board - 10/30/97)

)
form of the contracts and agreements shall be subject to the approval of
General Counsel or his authorized representative.

LAGUARDIA AIRPORT - ASBESTOS ABATEMENT IN STAIRWELLS, LOADING DOCK AND ACCESS RAMP - CONTRACT LGA-215.405 - SETTLEMENT OF CLAIM

At its meeting on April 9, 1992, the Board authorized a project for the Center Section Modernization of the Central Terminal Building at LaGuardia Airport.

On December 5, 1994, the Executive Director authorized the award of publicly advertised Contract LGA-215.405 to Project Development Group, Inc. (PDG), the low bidder, at its bid price in the estimated total amount of \$637,000, an authorization for extra work in the amount of \$64,000 and an allowance for net cost work roughly estimated at \$43,000.

The Work performed under Contract LGA-215.405, one part of a multi-phase asbestos abatement program, is part of the LaGuardia Airport Central Terminal Building Modernization Program. Asbestos abatement in the center section and non-tenant areas was completed under Contract LGA-110.107. The present total authorized amount for Contract LGA-215.405 is \$744,000.

PDG has submitted a claim against the Port Authority in the amount of \$1,066,938 in connection with Contract LGA-215.405. This claim is for additional costs alleged to have been incurred primarily because of denials by the Port Authority of site access to PDG to perform the work as contemplated in the contract documents.

Thorough staff review of the claim followed and various discussions, reviews and negotiations ensued with PDG. In August 1997, it was tentatively agreed that PDG would be paid the sum of \$380,000 in settlement of the claim, subject to approval of the Board.

Total payments to PDG for all contract work, extra work and net cost work (excluding the proposed claim settlement of \$380,000) is estimated at \$723,400.

Although the Law Department has advised that there are legal defenses to this claim, the settlement nevertheless appears equitable under the circumstances.

PDG will sign a release of all claims under the contract prior to receiving the \$380,000 payment.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Janiszewski, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to 1) make a payment of \$380,000 to Project Development Corp., Inc. in full settlement of all claims against the Port Authority in connection with Contract LGA-215.405; and 2) enter into an appropriate agreement to effectuate such settlement; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

(Board - 10/30/97)

PORT AUTHORITY BUS TERMINAL - RAINBOW USA, INC. - LEASE AGREEMENT

It was recommended that the Board authorize the Executive Director to enter into a lease agreement with Rainbow USA, Inc. (Rainbow) covering approximately 2,611 rentable square feet of space at the corner of Eighth Avenue and 40th Street at the Port Authority Bus Terminal (PABT) for the operation of a retail clothing store selling women's, junior, plus sizes and children's clothing, as well as shoes, handbags and related accessories.

Rainbow has been a tenant at the PABT since 1974. They currently occupy 3,140 square feet at the corner of Eighth Avenue and 40th Street as a holdover tenant under a lease which expired in June, 1993. Part of the space which they occupy is required for the new 40th Street entrance to the PABT. Rainbow has agreed to vacate its existing space upon one month's notice, which is anticipated to be given on or about January 1, 1998, and to enter into a new lease agreement covering the construction and operation of a new store upon completion of the 40th Street PABT entrance. The projected completion date of the new entrance project is April, 1999.

The lease agreement would be for a term of approximately eight years and eight months commencing on or about April 1, 1999 and expiring on the day preceding the eighth anniversary of the date payment of rental commences under the lease agreement. The proposed lease agreement provides that payment of rental will commence on the earlier of the commencement of business operations or eight months after the commencement date. Rainbow will pay a graduated basic rental for the premises plus a percentage rental. Rainbow will pay for its electricity consumption and for other required utilities and services. Rainbow will construct a new bathroom, HVAC unit and perform other base building work for the Port Authority and will be reimbursed by the Port Authority in an amount not to exceed \$200,000. Rainbow will be responsible for finishing work in the premises. The term of the letting will be subject to termination by the Port Authority, at any time, without cause, upon 30 days' notice, in which event Rainbow will be reimbursed for the unamortized portion of its initial capital investment in the premises, to the extent specified in the lease agreement. Rainbow will have the right to terminate the lease agreement in the event gross sales are below \$1.5 million during any annual period occurring during the term of the letting, upon 180 days' notice to the Port Authority given during the immediately following annual period, and upon payment of an amount specified in the lease agreement.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Janiszewski, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Rainbow USA, Inc., substantially in accordance with the terms and conditions outlined above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period August 1, 1997 to August 31, 1997.

NEW YORK

Hon. Peter S. Kalikow
 Hon. David S. Mack
 Hon. George D. O'Neill
 Hon. Melvin L. Schweitzer

The meeting was called to order in executive session by Chairman Eisenberg at 9:55 a.m. and ended at 10:25 a.m.

Action on Minutes

The Secretary submitted for approval Minutes of the meeting of October 30, 1997. He reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. He reported further that the time for action by the Governors of New York and New Jersey has expired.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Committee on Operations

The Committee on Operations reported, for information, on action taken and matters discussed in executive session at its meeting on December 4, 1997, which included a discussion of personnel matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Construction

The Committee on Construction reported, for information, on matters discussed in executive session at its meeting on December 4, 1997, which included a discussion of contract and lease matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Finance

The Committee on Finance reported, for information, and the report was received and is included with these minutes.

(Board - 12/4/97)

**JOHN F. KENNEDY INTERNATIONAL AIRPORT - SKYTELLER, L.L.C. -
AUTHORIZATION TO LEASE SPACE IN HANGAR NO. 15 AND RELATED
OUTSIDE AREA**

It was recommended that the Board authorize the Executive Director, for and on behalf of the Port Authority, to enter into an agreement of lease with Skyteller, L.L.C. (Skyteller) covering the letting of approximately 13,900 square feet of warehouse area in Hangar No. 15 and approximately 9,000 square feet of related outside area at John F. Kennedy International Airport.

The lease would be for a term of approximately seven years commencing on or about January 15, 1998. The rental rate would be fixed initially and subject to annual escalation after the second year of the term. Rentals would commence at the earlier of (i) five months from execution of the Lease, or (ii) upon substantial completion of construction, or (iii) upon commencement of operations in any part of the premises.

Skyteller will make certain leasehold improvements to suit its operation at its own expense. The lessee will be responsible for any remediation above the baseline condition of the premises, including without limitation, removal and disposition of debris and materials resulting from construction at the premises, except that the Port Authority shall be responsible for any required removal and disposition of asbestos and lead paint arising out of the lessee's initial construction.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement of lease with Skyteller, L.L.C. at John F. Kennedy International Airport, substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

JOHN F. KENNEDY INTERNATIONAL AIRPORT - TERMINAL ONE GROUP ASSOCIATION, L.P. ("TOGA") - SUPPLEMENT TO LEASE TO PROVIDE REIMBURSEMENT TO TOGA FOR CONSTRUCTION OF PASSENGER WALKWAY CANOPIES

It was recommended that the Board authorize the Executive Director to enter into a supplemental agreement to the Terminal One Lease with Terminal One Group Association, L.P. at John F. Kennedy International Airport covering the design and construction by TOGA of two passenger walkway canopies, for which the Port Authority would reimburse TOGA at an estimated cost not to exceed \$1.4 million.

The two passenger canopies to be designed and constructed by TOGA will provide passengers with protection from the elements during inclement weather, and one would be located between the new Terminal One entrance and parking areas; the other would be located at the public transportation access point.

TOGA will also undertake certain maintenance obligations associated with these canopies.

The Port Authority would reimburse TOGA, subject to a cap of \$1.4 million, on a regular basis for completed design and construction.

Pursuant to the foregoing report the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Haley, Kalikow, Lewis, Mack, O'Neill and Philibosian voting in favor; Commissioner Schweitzer abstaining; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Terminal One Group Association, L.P., amendatory and supplementary to its Terminal One lease at John F. Kennedy International Airport, substantially in accordance with the terms and conditions set forth above; the form of said agreement shall be subject to the approval of General Counsel or his authorized representative.

(Board - 12/4/97)

Confidential Item

This item shall be treated as confidential, and shall not be available for public inspection until the appropriate time.

**PORT NEWARK - VISY PAPER (NY), INC. - LEASE AMENDMENT -
REIMBURSEMENT FOR FIREPROOFING**

It was recommended that the Board authorize the Executive Director to enter into an agreement with Visy Paper (NY), Inc. ("Visy") to provide for the fireproofing of columns of Buildings 291 and 292 leased by Visy at Port Newark. The Port Authority will reimburse Visy for the cost of the work by means of a rent credit not to exceed \$80,000.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Visy Paper (NY), Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

THE WORLD TRADE CENTER - BROWN & WOOD LLP - LEASE RENEWAL AND EXPANSION

It was recommended that the Board authorize the Executive Director to enter into (1) a lease agreement with Brown & Wood LLP ("Brown & Wood") upon the terms set forth below and on such other terms as the Executive Director deems appropriate provided that if the term of the letting or the gross effective rent is not substantially in accordance with that outlined, the final terms of the lease agreement will be subject to the approval of the Committee on Operations, and (2) a brokerage agreement with LaSalle Partners, the broker involved in the lease agreement.

The proposed lease agreement covers the letting of approximately 38,000 rentable square feet (rsf) of expansion office space on floors 54 and 56 of One World Trade Center for an approximate fifteen year term commencing on or about January 1, 1998 and also covers the early renewal of approximately 176,000 rsf of office space located on floors 56 through 59 of One WTC covered under Brown & Wood's current lease which expires on May 31, 2002. The proposed lease agreement will also cover the letting of approximately 20,000 rsf of subgrade storage space.

Brown & Wood will use the premises for its practice of law specializing in complex financial transactions covering a wide range of legal services to financial institutions, corporations and public entities. The aggregate basic rental over the term will be approximately \$95 million with payment of rent commencing on the existing portion of the premises and on the subgrade storage space on or about January 1, 1998 and on the expansion portion of the premises approximately one year after delivery, on or about April 1, 1998, of such portion of the premises. Brown & Wood will pay its proportionate share of increases in operating and maintenance costs over the actual costs for the 1998 base year for the office space and increases based upon increases in the Porters Wage rate over a 1998 base for the storage space; and will pay increases in payments in lieu of taxes as provided in the lease agreement. Brown & Wood will have subleasing, assignment, expansion, contraction and renewal rights as specified in the lease agreement. The Port Authority will provide a construction allowance for both the existing and the new portion of the office space in amounts specified in the lease agreement. The Port Authority will perform or reimburse Brown & Wood for performing specified demolition and base building work in the expansion office space and certain Americans with Disabilities Act ("ADA") and refurbishing work in corridors and bathrooms in all space at a cost estimated at \$1.5 million.

The Port Authority will pay a brokerage commission to LaSalle Partners in connection with this transaction calculated in accordance with the rates authorized by the Board at its meeting of August 11, 1977.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Brown & Wood LLP and a brokerage agreement with LaSalle Partners substantially in accordance with the terms outlined above or on such other terms in the lease agreement as the Executive Director deems appropriate subject to the conditions set forth in the following delegation, the form of the agreement in each instance shall be subject to the approval of General Counsel or his authorized representative; and it is further

RESOLVED, that the Committee on Operations be and it hereby is authorized to approve the final terms and conditions of the lease agreement in the event that the term of the letting or the gross effective rent is not substantially in accordance with the terms outlined above.

THE WORLD TRADE CENTER - CARR FUTURES, INC. - LEASE AGREEMENT

It was recommended that the Board authorize the Executive Director to enter into a lease agreement with Carr Futures, Inc. ("Carr") upon the terms outlined below or on such other terms as the Executive Director deems appropriate, provided that if the term of the letting or the gross effective rent is not substantially in accordance with that outlined, the terms of the lease agreement will be subject to the approval of the Committee on Operations.

The proposed agreement covers approximately 35,000 rentable square feet of office space on the ninety-second floor of One World Trade Center for a term of approximately sixteen years and two months commencing on or about December 15, 1997, at an aggregate basic rental over the full term of approximately \$17 million: Carr will pay its proportional share of increases in operating and maintenance costs over the actual costs for the 1998 base year and will pay increases in payments in lieu of taxes as provided in the lease agreement. Carr will have assignment, subleasing, expansion and renewal rights as set forth in the lease. A commission will be payable to Insignia/Edward S. Gordon Co., Inc. (Gordon), in connection with the lease agreement and in accordance with the terms of the agency agreement with Gordon dated as of March 3, 1995, which is applicable to the space covered by the proposed lease agreement.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Carr Futures, Inc., substantially in accordance with the terms outlined above, or on such other terms as the Executive Director deems appropriate subject to the conditions set forth in the following delegation; the form of the agreement shall be subject to the approval of the General Counsel or his authorized representative; and it is further

RESOLVED, that the Committee on Operations be and it hereby is authorized to approve the final terms and conditions of the lease agreement in the event that the gross effective rent or the term of the letting is not substantially in accordance with the terms outlined above.

THE WORLD TRADE CENTER - KEEFE, BRUYETTE & WOODS, INC. - LEASE RENEWAL, EXPANSION AND RELOCATION

It was recommended that the Board authorize the Executive Director to: (a) enter into a lease agreement with Keefe, Bruyette & Woods, Inc. ("KBW") upon the terms outlined below or on such other terms as the Executive Director deems appropriate, provided that if the term of the letting or the gross effective rent is not substantially in accordance with that outlined, the terms of the lease agreement will be subject to the approval of the Committee on Operations; (b) enter into a brokerage agreement with Insignia/Edward S. Gordon Co., Inc., in connection with the lease agreement; (c) enter into an agreement amending the Raytheon Engineers & Constructors, Inc., lease to provide for the early termination of its 88th floor premises in connection with the KBW lease agreement; and (d) take such actions with respect to the award of purchase and construction contracts, and contracts for professional and advisory services as he deems in the best interest of the Port Authority, including entering into supplemental agreements and agreements for net cost work and additional work and the award of contracts on a sole source basis if necessary to meet commitments in connection with the KBW lease agreement.

KBW has been a tenant of The World Trade Center since 1984, occupying approximately 35,000 rentable square feet (rsf) on the 85th floor of Two World Trade Center under a lease which expires on February 28, 1999. The proposed lease agreement will cover the letting of approximately 49,000 rsf of office space consisting of the entire ninety-third floor of Two World Trade Center for a term of approximately fifteen years. KBW will continue to pay rent on the existing premises as provided in its lease and will surrender its existing premises and the leasehold when it relocates to the new premises. The aggregate basic rental payable during the proposed term of the lease agreement is estimated to be in excess of \$25 million. The Port Authority will perform or reimburse KBW for performing specified demolition and base building work in its new premises as well as specified Americans with Disabilities Act work on the 93rd floor, all at an estimated cost of \$580,000. KBW will pay its proportional share of increases in operating and maintenance costs over the actual costs for the 1998 base year and will pay increases in payments in lieu of taxes as provided in the lease agreement. KBW will have termination, assignment, subleasing, expansion and renewal rights as set forth in the lease.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Keefe, Bruyette & Woods, Inc., a brokerage agreement with Insignia/Edward S. Gordon Co., Inc., and an amendment agreement with Raytheon Engineers & Constructors, Inc., each substantially in accordance with the terms outlined above or, in the case of the lease agreement, on such other terms as the Executive Director deems appropriate subject to the

conditions set forth in the following delegation; and to take such actions with respect to the award of purchase and construction contracts, and contracts for professional and advisory services as he deems in the best interest of the Port Authority; the form of the agreement in each instance shall be subject to the approval of General Counsel or his authorized representative; and it is further

RESOLVED, that the Committee on Operations be and it hereby is authorized to approve the final terms and conditions of the lease agreement in the event that the gross effective rent or the term of the letting of the lease agreement is not substantially in accordance with the terms outlined above.

PORT AUTHORITY BUS TERMINAL - PERSONAL CELLULAR CO., INC. - LEASE AGREEMENT

It was recommended that the Board authorize the Executive Director to enter into (1) a lease agreement with Personal Cellular Co., Inc. ("Omnipoint") covering approximately 1,480 square feet of space toward the rear of the main concourse of the South Wing at the Port Authority Bus Terminal for the operation of a store for the leasing, servicing and sale at retail of cellular phones and other telecommunication equipment, and (2) a brokerage agreement with Wayne H. Rose in connection with the lease agreement.

The principals of Omnipoint currently operate six telecommunication retail stores in the New York City area.

The lease agreement would be for a term commencing on or about November 1, 1998, and expiring approximately nine years and ten months following the close of a free rent period. Omnipoint will pay a graduated basic rental for the premises which will aggregate approximately \$700,000 over the term. Omnipoint will pay for its electricity consumption and for other required utilities and services. Omnipoint will be responsible for finishing work in the premises. The term of the letting will be subject to termination by the Port Authority, at any time, without cause, upon 30 days' notice, in which event Omnipoint will be reimbursed for the unamortized portion of its initial capital investment in the premises, to the extent specified in the lease agreement. The Port Authority will remove and dispose of asbestos contaminated waste at an approximate cost of \$60,000.

The Port Authority will pay a brokerage commission to Wayne H. Rose in connection with the letting.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Personal Cellular Co., Inc. and a brokerage agreement with Wayne H. Rose, substantially in accordance with the terms and conditions outlined above; the form of the agreement in each instance shall be subject to the approval of General Counsel or his authorized representative.

PORT AUTHORITY BUS TERMINAL - VILLA PIZZA ENTERPRISES, INC. - LEASE AMENDMENT

It was recommended that the Board authorize the Executive Director to enter into an agreement with Villa Pizza Enterprises, Inc. ("Villa Pizza") amending its lease to allow Villa Pizza to reconfigure and increase the size of its premises located on the main concourse of the South Wing of the Port Authority Bus Terminal to approximately 2,800 square feet, and to reimburse Villa Pizza for performing certain base building work for the Port Authority in an amount not to exceed \$350,000.

Villa Pizza, a national Italian restaurant chain, operates over 100 fast food restaurants throughout the United States. Villa Pizza entered into a lease agreement with the Port Authority for space at the PABT as authorized by the Board at its meeting of July 11, 1996 and in accordance with a memorandum to the Board dated December 26, 1996. In reviewing Villa Pizza's proposed plans, Port Authority staff realized that the Villa Pizza premises had to be reconfigured in order to retain the line of sight to the commuter ticket windows. The reconfiguration of the premises agreed to by the Port Authority and Villa Pizza requires additional base building work to be performed in the premises.

The proposed lease amendment provides for a term commencing on or about November 1, 1997 and expiring on the day preceding the tenth anniversary of the Premises Availability Date, defined in the lease amendment as (i) the day following the expiration of a one year construction period, or (ii) the commencement of business operations in the premises, whichever occurs first. The term of the letting is subject to earlier termination by Villa Pizza during the fourth annual period measured from the date payment of rental commences if gross receipts do not exceed a designated amount in the third annual period, and in such event, the Port Authority would reimburse Villa Pizza for the unamortized portion of its initial capital investment in certain leasehold improvements installed in the premises to the extent that such initial capital investment does not exceed \$750,000. Villa Pizza will pay a graduated basic rental for the premises plus a percentage rental as provided in the lease amendment. Payment of rental will commence no later than ten months from the Premises Availability Date. Villa Pizza will, on behalf of the Port Authority, bring utilities to the premises, raise the ceiling adjacent to the premises, relocate all of the base building systems in and adjacent to the premises, and construct demising walls in the premises, and will be reimbursed by the Port Authority in an amount not to exceed \$350,000. Villa Pizza will also be responsible for finishing work required by it in the premises. The term of the letting will be subject to termination by the Port Authority, at any time, without cause, upon 30 days' notice, in which event Villa Pizza will be reimbursed for the unamortized portion of its initial capital investment in the premises, to the extent specified in the lease amendment.

The brokerage agreement with First Allied Properties, the broker involved in the lease agreement, will also be amended to reflect the reconfigured space and the other changes but with no change in the amount of the commission payable.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Villa Pizza Enterprises, Inc. amending its lease and a brokerage agreement with First Allied Properties amending the brokerage agreement, substantially in accordance with the terms and conditions outlined above, the form of the agreement in each instance shall be subject to the approval of General Counsel or his authorized representative.

PUBLIC SAFETY DEPARTMENT - 800 MHz TRUNKED RADIO SYSTEM

In 1985, application was made to the Federal Communications Commission ("FCC") for additional radio frequencies, in the 800 MHz band. In 1991, the FCC allocated seven frequencies for police trunked radios and five frequencies for mutual aide conventional radios in the 800 MHz band. A Request for Proposals was issued, and the Port Authority purchased its 800 MHz Radio System (the "System") from Ericsson/G.E. Mobile Communications, Inc. An 800 MHz Radio System backbone was installed providing mobile radio communications to most outside locations throughout the Port District.

It is now proposed to enhance the System to provide reliable and secure radio communication capabilities to in-building, in-tunnel and low-lying topographical areas at John F. Kennedy International Airport, Newark International Airport, LaGuardia Airport, George Washington Bridge, Holland Tunnel, Lincoln Tunnel and PATH. The Port Authority's FCC licenses require construction and equipment installation at the GWB and JFK by November of 1998, and extension of time will not be granted. If installation of equipment is not made in a timely manner, the licenses will be lost and full utilization of the System may not be possible in the future. The proposed enhancement requires the purchase of certain proprietary radio components from the successor company, Ericsson, Inc.

This proposal will include the purchase and installation of 800 MHz radio base stations, radiating cable and antenna systems, simulcast equipment, uninterruptible power supplies, equipment shelters, climate control and communications equipment. To meet FCC deadlines, connections to the System and radio equipment installation work will be performed by Port Authority staff supervised by the manufacturer, as was done in the initial phase of the System installation.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the purchase and installation of 800 MHz Trunked Radio equipment into in-building, subterranean, and other areas which the Port Authority's current system does not service, and the performance of other related work, at an estimated total cost of \$12 million, including staff costs for installation, and allowances for net cost work, extra work (if necessary), and a contingency (if necessary), be and the same is hereby authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to negotiate and enter into a contract with Ericsson Inc. for the purchase of radio equipment necessary for the enhancement of the existing Port Authority 800 MHz Trunked Radio System; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to: a) take such actions with respect to the award of purchase and construction contracts and contracts for professional and advisory services for the foregoing work as he deems in the best interest of the Port Authority including, without limitation, award to the proposer or contractor who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose low bid or proposal price the Executive Director deems reasonable, rejection of all bids or proposals, solicitation of new bids or proposals on revised or the same requirements from one or more contractors, or negotiation with one or more proposers or other contractors; b) execute contracts and supplemental agreements with such contractors as he deems in the best interest of the Port Authority and to order extra work (if necessary) and net cost work in connection with each contract and supplemental agreement; and c) enter into such other agreements as may be necessary to effectuate the installation; and it is further

RESOLVED, that the form of all contracts and agreements shall be subject to the approval of General Counsel or his authorized representative.

SETTLEMENT OF CLAIM - THE PORT AUTHORITY OF NEW YORK AND NEW JERSEY v. RACHEL BRIDGE CORP. AND RACHEL BRIDGE CORP. v. BEAVER CONCRETE BREAKING CO.

It was recommended that the Board authorize General Counsel to settle the action entitled The Port Authority of New York and New Jersey v. Rachel Bridge Corp. and Rachel Bridge Corp. v. Beaver Concrete Breaking Co., by accepting the sum of \$950,000 to settle the claim by The Port Authority of New York and New Jersey against Rachel Bridge and Beaver Concrete. In return the Port Authority will issue a General Release and Stipulation of Discontinuance with prejudice.

The Port Authority brought this lawsuit against Rachel Bridge Corporation seeking to recover the cost of making emergency repairs to a girder providing structural support to one of the apartment buildings over the George Washington Bridge Expressway. On or about March 4, 1989, at the George Washington Bridge Expressway, a crack was discovered on one of the girders supporting the apartment buildings over the expressway. In light of the perceived grave threat to public safety, the Port Authority made emergency repairs to the cracked girder and has sought compensation for the work done from the buildings' owner, Rachel Bridge Corp. Rachel Bridge then brought a third party claim against Beaver Concrete Breaking Co., the contractor performing work on the girder prior to discovery of the crack. American International Group, the Port Authority's comprehensive general liability insurer, has now offered to settle both the Port Authority's and Rachel Bridge's damage claims. The proposed settlement is fair and reasonable.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to settle the pending civil action, entitled The Port Authority of New York and New Jersey v. Rachel Bridge Corp. and Rachel Bridge Corp. v. Beaver Concrete Breaking Co. by accepting the sum of \$950,000 from American International Group, Inc. in return for issuing a General Release and Stipulation of Discontinuance with prejudice.

NEW YORK

Hon. Charles A. Gargano, Vice-Chairman
 Hon. Peter S. Kalikow
 Hon. David S. Mack
 Hon. George D. O'Neill
 Hon. Melvin L. Schweitzer

The public meeting was called to order by Chairman Eisenberg at 2:44 p.m. and ended at 2:56 p.m. The Board also met in executive session on December 4 and prior to the public meeting. In addition, the Board held a planning meeting in executive session on December 4, 1997.

Report of Committee on Operations

The Committee on Operations reported, for information, on action taken and matters discussed in executive session at its meeting on December 18, 1997, which included a discussion of personnel and lease matters and matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with whom we deal, and the report was received.

Report of Committee on Construction

The Committee on Construction reported, for information, on matters discussed at its meeting on December 18, 1997, which included a discussion of George Washington Bridge ramp rehabilitation and a supplemental lease agreement with British Airways at John F. Kennedy International Airport, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Capital Programs and Port Planning

The Committee on Capital Programs and Port Planning reported, for information, on matters discussed in executive session at its meeting on December 18, 1997, which included a discussion of matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with whom we deal, and the report was received.

Report of Audit Committee

The Audit Committee reported, for information, on matters discussed in executive session at its meeting on December 18, 1997, which included discussion of internal audit matters, and the report was received.

Report of Committee on Finance

The Committee on Finance reported, for information, of action taken and matters discussed in executive session at its meeting on December 18, 1997, which included a discussion of contract matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Staff Report

A presentation was made by staff on the progress of various tunnel and bridge construction projects authorized by the Board in the past eighteen months.

Confidential Item

This item shall be treated as confidential, and shall not be available for public inspection until the appropriate time.

**JOHN F. KENNEDY INTERNATIONAL AIRPORT - CITY OF NEW YORK -
MODIFICATION OF RIGHTS IN CONNECTION WITH PROPERTY KNOWN
AS PARCEL 7**

It was recommended that the Board authorize the Executive Director to execute the Thirteenth Supplemental Agreement to the Municipal Air Terminals Agreement with the City of New York dated April 17, 1947. It would modify certain conditions and reservation of rights provided for in the Sixth Supplemental Agreement and thereby allow the City or a successor-in-interest to dispose of a portion of "Parcel 7" (originally part of the letting of John F. Kennedy International Airport but surrendered to the City in 1965) in order that a developer might develop it for the use of the Federal Aviation Administration or other user.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Gargano, Haley, Janiszewski, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized in his discretion, for and on behalf of the Port Authority, to execute the Thirteenth Supplemental Agreement to the Municipal Air Terminals Agreement with the City of New York dated April 17, 1947 in accordance with the terms outlined or referred to above, and to do all other things necessary or appropriate in implementation furtherance thereof; and it is further

RESOLVED, that all documents which may be required to effectuate the foregoing shall be subject to the approval of General counsel or his authorized representative.

**GEORGE WASHINGTON BRIDGE - NEW YORK RAMPS REHABILITATION - PROJECT
AUTHORIZATION AND AUTHORITY TO AWARD CONTRACT GWB-244.020**

The Henry Hudson ramps comprise the elevated and on-grade roadways on the New York side of the George Washington Bridge that connect the upper and lower levels of the bridge with the Henry Hudson Parkway, Riverside Drive and local city streets. Some of the existing ramps were constructed in the 1920s along with the original construction of the George Washington Bridge. As part of the George Washington Bridge lower level expansion project (1958-1962), the original alignment was changed and the remaining ramps were added which constitute the present configuration.

Deterioration to various elements of the ramp structures due to age and exposure to moisture and de-icing chemicals has reached the point where comprehensive rehabilitation and enhancement is needed to restore the roadway to full capacity and to meet current technical and safety standards. Routine structural inspections starting in 1990 revealed that a significant number of structural deficiencies required correction on a priority basis to ensure the integrity of the ramps. The importance of accomplishing the work quickly to meet established time limits prompted the decision to develop a separate contract to correct the structural deficiencies, Contract GWB-381, which was awarded in May 1996 and is scheduled for completion in May 1998. The bulk of the rehabilitation to be accomplished under this project includes civil, electrical, structural, and traffic related refurbishment that will extend the useful life of this interchange and bring it to current state of good repair standards. The work will be staged to minimize impact on facility operations and the traveling public. Work requiring lane closures will be performed during nighttime hours during the week and on weekends when traffic volumes are at reduced levels.

Pursuant to the foregoing report presented by staff, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Janiszewski, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that a project for the rehabilitation of the New York elevated ramps at the George Washington Bridge at an estimated total project cost of \$38.4 million including payments to contractors, allowance for extra work (if necessary) and net cost work, engineering, administration and financial expenses and a project contingency, be and the same is hereby authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to:

a) award Contract GWB-244.020 for the New York Elevated Ramps Rehabilitation at an estimated cost of \$24 million to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work; and whose bid price the Executive Director deems reasonable, and to order extra work up to 6 percent of the bid accepted; and to order net cost work, or to reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors as he deems in the best interest of the Port Authority; and

b) take action with respect to purchase and other construction contracts and agreements for professional and advisory services related to the foregoing project as the Executive Director deems in the best interest of the Port Authority, including, without limitation, award to the lowest bidder, who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable, rejection of all bids, solicitation of new bids on revised or same requirement, or negotiation with one or more bidders or other contractors; and to execute contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work (if necessary) and net cost work in connection with each contract, including supplemental agreements thereto; and to obtain permits and licenses and to enter into such other agreements with Municipal and other entities as may be necessary to effectuate the project; and it is further

RESOLVED, that the form of the agreements necessary to effectuate the project shall be subject to the approval of General Counsel or his authorized representative.

**JOHN F. KENNEDY INTERNATIONAL AIRPORT - BRITISH AIRWAYS, PLC -
LEASE AYB-876 - REVISIONS TO BOARD AUTHORIZATION OF MARCH 20,
1997 FOR PAYMENT FOR ROADWAY/PARKING/TERMINAL
IMPROVEMENTS AND REVISION TO BOARD AUTHORIZATION OF
MAY 9, 1996 FOR LIGHT RAIL SYSTEM EXPENDITURES**

It was recommended that the Board authorize: 1) A revision to increase its May 9, 1996 Board Light Rail System (LRS) expenditure authorization of \$56 million by \$8 million to provide for early action items for project implementation and that said increase of \$8 million be expended for early action items consisting of portions of the LRS project to be designed and constructed by British Airways, PLC; and 2) the Executive Director to include in the previously authorized (March 20, 1997 Board) supplement to the lease agreement with British Airways, PLC (BA) at John F. Kennedy International Airport (JFK) provisions which would: (a) provide for Port Authority reimbursement to BA for the design and construction of various structural elements of the LRS which BA would construct for the Port Authority at an estimated amount not to exceed \$8 million; (b) increase the previously authorized acreage in the March 20, 1997 Board to be added to the BA leasehold from 1.5 acres to up to approximately 3 acres for BA's terminal expansion; and, (c) include the results of the environmental baseline study conducted to identify any pre-existing ground contamination in the additional acreage.

The LRS that is planned for Terminals 5, 6 and 7 is within the construction site limits of the BA project authorized by the Board at its March 20, 1997 meeting. BA's design and construction would also include the design and construction of certain portions of the LRS project within the construction site limits of the BA project, which LRS portions would consist generally of eighteen shared foundations and columns and ten independent LRS foundations and columns, and certain other related work. Since FAA approval of the LRS project is still pending, the Port Authority would reserve the right in the lease supplement to notify BA not to commence its work on the LRS portions or to suspend or discontinue such work.

The Port Authority would reimburse BA for the cost of the LRS portions of the LRS project which BA would design and construct, with such reimbursement to be in an amount not to exceed \$8 million. Such Port Authority reimbursement to BA will be made on a regular basis for completed work on the LRS portions after the same have been reviewed and approved by the Port Authority.

The terminal frontage area to be added to the BA leasehold under the lease supplement will now consist of up to approximately 3 acres. In addition, an area on the parking deck to be constructed by BA consisting of approximately .5 acres will be added to the BA leasehold upon completion of the parking deck. The lease supplement would set forth the additional ground rental applicable to the added new premises.

The lease supplement would include the results of the environmental baseline study conducted to identify any pre-existing ground contamination in the additional acreage of up to approximately 3 acres to be added to the BA leasehold under the supplement. BA would not be responsible for remediation of any such pre-existing ground contamination described in the lease supplement and not caused by BA. Incidental expenses of approximately \$25,000 for

the replacement of monitoring wells and removal of soil will be the responsibility of the Port Authority. The costs of the environmental baseline study, estimated at \$70,000, would be paid by the Port Authority as follows: one-half of such costs would be treated as an eligible expenditure under the \$43 million authorized by the Board for the BA project at its March 20, 1997 meeting, the other half of said costs would be paid separately by the Port Authority.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Janiszewski, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the resolution of the Board adopted at its meeting on May 9, 1996 covering the John F. Kennedy International Airport Access Project for the automated Light Rail Transit (LRS) system is hereby amended and supplemented to provide for an additional amount of \$8 million for the advancement of Port Authority funds for the LRS project (for a total Airport Access project budget of \$64 million) and to provide that said increase of \$8 million to be expended for early action items consisting of certain LRS work needed for those portions of the LRS project to be located in the CTA and which work is to be performed by British Airways, PLC under the supplemental lease agreement authorized by the Board by its resolution adopted at its meeting on March 20, 1997 as supplemented and amended by the resolution hereinbelow set forth; and it is further

RESOLVED, that the resolution of the Board adopted at its meeting on March 20, 1997 covering the proposed supplemental agreement to the lease agreement between the Port Authority and British Airways, PLC. at John F. Kennedy International Airport is hereby amended and supplemented so that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a supplemental agreement with British Airways, PLC, substantially in accordance with the terms and conditions of the March 20, 1997 resolution of the Board as hereby amended and supplemented; the form of said agreement shall be subject to the approval of General Counsel or his authorized representative.

**NEWARK INTERNATIONAL AIRPORT - AIRIS NEWARK, L.L.C. - LEASE
ANA-884 - SUPPLEMENTAL AGREEMENT**

It was recommended that the Board authorize the Executive Director, for and on behalf of the Port Authority, to enter into a supplemental agreement to Lease ANA-884 with Airis Newark, L.L.C., at Newark International Airport (EWR), to add up to approximately 1.76 acres to the premises for the remainder of the Lease's 25-year term at an additional rental of up to \$123,504 per annum, subject to annual CPI and Airport Services adjustments, with the Lessee being solely responsible for any and all environmental conditions, damage, presence of hazardous substances, and remediation of the same.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Janiszewski, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a supplemental agreement to Lease ANA-884 with Airis Newark, L.L.C., substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**ARTHUR KILL CHANNEL - PRECONSTRUCTION ENGINEERING AND DESIGN
COST SHARING AGREEMENT WITH THE UNITED STATES ARMY CORPS
OF ENGINEERS**

The 1996 Federal Water Resources Development Act (WRDA) in Section 301 (b)(11) for a navigation project identified as the "Arthur Kill, New York and New Jersey" project has authorized the Secretary of the Army to carry out deepening to a depth not to exceed 45 feet. However, the conduct of a Preconstruction Engineering and Design (PED) study which in effect is a feasibility study is a prerequisite to the actual design of the project.

The United States Army Corps of Engineers (Corps) estimates the cost for the PED Study to be \$2 million. These costs are shared by the Corps (75 percent) and the Non-Federal Sponsor (25 percent). The standard agreement with the Corps contemplates that excess study costs may occur. In the event that the Government and the Non-Federal Sponsor (the Port Authority) are unable to agree on funding these additional costs, the cost-sharing agreement will be suspended for a period not to exceed six months. If upon the expiration of such period, the parties have not agreed to proceed, the cost-sharing agreement may be terminated by mutual consent.

Entry into this Arthur Kill PED agreement does not obligate any party to implement the 45 foot deepening project. The Study, however, must be completed before the Government can consider actually funding the deepening of Federal channel. The Corps' draft schedule anticipates completing this effort by December 1999. Additionally, Board authorization to sponsor the final design and construction would be sought as the feasibility study nears conclusion.

Deeper channels and associated berths within the Port of New York and New Jersey could result in the recapture of cargo from ports with greater depths (e.g., Nova Scotia and Virginia) as well as increased numbers of containers moving through Port Authority terminals. Deeper channels and berths are needed to enhance the Port's competitiveness and market share, and ensure the safety of vessels transiting the region's waterways.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Janiszewski, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to: (a) enter into an agreement with Department of the Army and sign associated documents to allocate costs for a Preconstruction Engineering and Design (PED) Study for the "Arthur Kill, New York and New Jersey," Navigation Project authorized by the 1996 Water Resources Development Act involving deepening to a depth of not more than 45 feet, estimated to cost \$2 million, the Non-Federal Sponsor's Share, i.e., 25 percent, to be paid by the Port Authority; and (b) in order to fund the Non-Federal Sponsor's share of the Arthur Kill PED Study, pay an amount estimated at \$500,000; and it is further

RESOLVED, that the form of all agreements and documents necessary to effectuate the Arthur Kill PED Study shall be subject to approval of General Counsel or his authorized representative.

**PORT AUTHORITY INDUSTRIAL PARK AT YONKERS - BBA PROJECT, INC. -
SUPPLEMENTAL LEASE AGREEMENT - EXPANSION OF EXISTING SPACE**

It was recommended that the Board authorize the Executive Director to enter into a supplemental lease agreement with BBA Project, Inc. (BBA) covering the expansion of its current space in Building 7 at the Port Authority Industrial Park at Yonkers substantially in accordance with the terms and conditions outlined below or on such other terms as the Executive Director deems appropriate provided that if the term of the letting or the gross effective rent is not substantially in accordance with that outlined below the final terms of the supplemental lease agreement will be subject to the approval of the Committee on Operations.

The proposed supplemental lease agreement will provide for the letting of approximately 9,200 additional rentable square feet for a period expiring on October 31, 2000. BBA will pay an aggregate basic rental for the expansion space over the approximate two-year, eleven-month term of the letting of approximately \$188,000. BBA will pay its pro rata share of common operating and maintenance expenses and will pay annual PILOT of approximately \$9,200.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Janiszewski, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a supplemental lease agreement with BBA Project, Inc. covering the letting of approximately 9,200 rentable square feet of expansion space in Building 7 at the Port Authority Industrial Park at Yonkers substantially in accordance with the terms outlined above or on such other terms as the Executive Director deems appropriate subject to the conditions set forth in the following delegation; the form of such supplemental lease agreement shall be subject to the approval of General Counsel or his authorized representative; and it is further

RESOLVED, that the Committee on Operations be and it hereby is authorized to approve the final terms and conditions of the supplemental lease agreement in the event that the term of the letting or the gross effective rent is not substantially in accordance with that outlined above.

THE WORLD TRADE CENTER - FRED ALGER MANAGEMENT, INC. - LEASE AGREEMENT

It was recommended that the Board authorize the Executive Director to enter into a lease agreement with Fred Alger Management, Inc. (FAM) upon the terms outlined below or on such other terms as the Executive Director deems appropriate, provided that if the term of the letting or the gross effective rent is not substantially in accordance with that outlined, the terms of the lease agreement will be subject to the approval of the Committee on Operations.

The proposed agreement covers approximately 35,000 rentable square feet of office space on the ninety-third floor of One World Trade Center for a term of approximately 16 years and two months commencing on or about March 1, 1998, at an aggregate basic rental over the full term of approximately \$17.3 million, with an option to lease the remainder of that floor upon the same terms and conditions as the original space provided said option is exercised within six months after commencement of the lease agreement. FAM will pay its proportional share of increases in operating and maintenance costs over the actual costs for the 1999 calendar year and will pay increases in payments in lieu of taxes as provided in the lease agreement. FAM will have assignment, subleasing, expansion and renewal rights as set forth in the lease. The lease may reserve a right to relocate FAM at Port Authority expense to similar premises within the top zone of One World Trade Center. A commission will be payable to Insignia/Edward S. Gordon Co., Inc., in connection with the lease agreement and in accordance with the terms of the agency agreement with Gordon dated as of March 3, 1995, which is applicable to the space covered by the proposed lease agreement.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Janiszewski, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Fred Alger Management, Inc., substantially in accordance with the terms outlined above, or on such other terms as the Executive Director deems appropriate subject to the conditions set forth in the following delegation; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative; and it is further

RESOLVED, that the Committee on Operations be and it hereby is authorized to approve the final terms and conditions of the lease agreement in the event that the gross effective rent or the term of the letting is not substantially in accordance with that outlined above.

**JONES LANG WOOTTON - BROKERAGE AGREEMENT - 199 WATER STREET -
SUBLEASE AGREEMENT**

It was recommended that the Board authorize the Executive Director to: 1) enter into an agreement(s) to sublet approximately 30,800 rentable square feet (rsf) of office space at 199 Water Street, New York, New York, and 2) enter into an exclusive brokerage agreement with Jones Lang Wootton (JLW) to act as the Port Authority's real estate broker in connection with the subleasing of such office space, substantially in accordance with the terms set forth below.

In connection with the execution of a lease for office space at The World Trade Center entered into in August 1997 with RMJ Holdings, Inc., a subsidiary of EXCO Plc. (EXCO), EXCO entered into an assignment agreement with the Port Authority under which the Port Authority agreed to assume EXCO's obligations under its lease at 199 Water Street, New York, New York, effective on or after January 1, 1998. The Water Street lease covers approximately 30,800 rsf of office space at an aggregate cost to the Port Authority of approximately \$11.8 million consisting of a fixed rent of approximately \$40 per rsf exclusive of increases in operating and maintenance expenses. In order to effectively market the Water Street space which has a remaining term of less than eight years, it is anticipated that the Port Authority will incur advertising and marketing expenses and will have to provide a subtenant with a work letter and a free rent period.

It is therefore recommended that the Executive Director be authorized to enter into a sublease agreement(s) covering the Water Street space at a gross effective rent of not less than \$11 per rsf including increases in operating and maintenance expenses and taxes.

It is also proposed to retain JLW to act as the Port Authority's exclusive real estate broker for the subleasing of the Water Street office space for a twelve-month period with the Port Authority having options to extend such period for two three-month periods at a commission rate calculated in accordance with the rates authorized by the Board at its meeting of August 11, 1977, if JLW or the Port Authority arrange for the sublease of the space. In the event the office space subleasing is arranged through the efforts of another broker, JLW will receive a total commission equal to 150 percent of the brokerage commission calculated at the said authorized rates and JLW would be responsible to pay such other broker.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Janiszewski, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a sublease agreement(s) covering approximately 30,800 rentable square feet of office space at 199 Water Street, New York, New York, and to enter into an exclusive brokerage agreement with Jones Lang Wootton in connection with the subleasing of this space on behalf of the Port Authority, substantially in accordance with the terms and conditions outlined above; the form of the agreement(s) in each instance shall be subject to the approval of General Counsel or his authorized representative.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period October 1, 1997 to October 31, 1997.

- (A) Lump Sum
(B) Classified Work
(C) Net Cost - amount in the "Total Authorized" column represents the estimated net cost amount. However, the amount in the "Total Payment" column is the authorized net cost amount.
(D) Extra Work
(E) Memorandum of Authorization dated 11/02/95, increasing extra work in the amount of \$250,000.00

- (F) The difference between "Total Authorized" and "Total Payment" represents a credit change order in the amount of \$700.00 for liquidated damages for delay in time for completion.
- (G) Memorandum of Authorization dated 12/02/96, increasing extra work in the amount of \$20,000.00
- (H) Memorandum of Authorization dated 12/02/96, increasing extra work in the amount of \$27,000.00.
- (I) Memorandum of Authorization dated 02/14/96, increasing extra work in the amount of \$250,000.00.
- (J) Memorandum of Authorization dated 03/14/96, increasing extra work in the amount of \$550,000.00; an increase in classified work in the amount of \$220,000.00; and an increase in net cost work in the amount of \$80,000.00
- (K) The difference between "Total Authorized" and "Total Payment" represents a deduction for deficiencies in asphalt pavement density in the amount of \$62,934.40.
- (L) The difference between "Total Authorized" and "Total Payment" represents a credit change order in the amount of \$13,500.00 for deduction for deficiencies in asphalt pavement density.
- (M) Memorandum of Authorization dated 03/28/96, increasing classified work in the amount of \$77,400.00.
- (N) Memorandum of Justification dated 05/07/96, authorizing a supplemental agreement in the amount of \$270,000.00.
- (O) Memorandum of Authorization dated 02/11/97, reallocating monies for extra work in the amount of \$91,168.00; and a decrease in net cost work in the amount of \$15,000.00 and a decrease in Supplemental Work in the amount of \$76,168.00.
- (P) Premium for furnishing performance and payment bond as provided for in the contract.
- (Q) The difference between the "Total Authorized" column and the "Total Payment" column represents backcharges in the amount of \$25,555.50 for the use of containers and elevator hoisting.
- (R) The difference between the "Total Authorized" column and the "Total Payment" column represents backcharges in the amount of \$17,343.00 for the use of containers and elevator hoisting.
- (S) Memorandum of Authorization dated 02/28/97, increasing extra work in the amount of \$6,000.00.
- (T) Per AP 45-1.01.5, classified work may exceed authorization amount limited to 10% or \$250,000.00 (whichever is less) without further authorization.
- (U) The difference between the "Total Authorized" column and the "Total Payment" column represents backcharges in the amount of \$459.00 for the use of containers.
- (V) The difference between the "Total Authorized" column and the "Total Payment" column represents a credit change order in the amount of \$13,200.00 for stainless steel work.
- (W) Memorandum of Authorization dated 03/28/94, authorizing Supplemental Agreement in the amount of \$925,000.00.

Investments & Deposits

The Committee on Finance reported, for information only, that in accordance with authority granted by the Committee, the Executive Director had authorized the following security transactions, time accounts, interest rate exchange contracts and variable rate master note agreements during the period October 1, 1997 to October 31, 1997.

REPORT A:

Purchase of Port Authority Bonds

(Unless otherwise noted, all Port Authority Bonds are callable at par).

NEW YORK

Hon. Charles A. Gargano, Vice-Chairman
 Hon. Peter S. Kalikow
 Hon. David S. Mack
 Hon. George D. O'Neill
 Hon. Melvin L. Schweitzer

(Board - 1/29/98)

The public meeting was called to order by Chairman Eisenberg at 3:55 p.m. and ended at 4:10 p.m. The Board also met in executive session prior to the public meeting. In addition, the Board held a planning meeting in executive session on January 15, 1998.

Action on Minutes

The Secretary submitted for approval Minutes of the meetings of December 4 and December 18, 1997. He reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. He reported further that the time for action by the Governors of New York and New Jersey has expired.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Audit Committee

The Audit Committee reported, for information, on matters discussed in executive session at its meeting on January 29, 1998, which included discussion of internal audit matters, and the report was received.

Report of Committee on Operations

The Committee on Operations reported, for information, on action taken and matters discussed in executive session at its meeting on January 29, 1998, which included a discussion of personnel, lease and contract matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Construction

The Committee on Construction reported, for information, on matters discussed at its meeting on January 29, 1998, which included a discussion of year-end construction results and significant projects completed in 1997, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Capital Programs and Port Planning

The Committee on Capital Programs and Port Planning reported, for information, on matters discussed in executive session at its meeting on January 29, 1998, which included a discussion of matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with whom we deal, and the report was received.

Report of Committee on Finance

The Committee on Finance reported, for information, on matters discussed in executive session at its meeting on January 29, 1998, which included a discussion of matters related to, or which could impact upon, the issuance, sale, resale, or redemption of Port Authority bonds, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

1998 BUDGET

The 1998 Budget for The Port Authority of New York and New Jersey, including the anticipated expenditures of subsidiary corporations, provides for capital and operating expenditures necessary to achieve the Port Authority's goals and objectives.

The Commissioners have established that the Port Authority's mission is to identify and meet the critical transportation infrastructure needs of the bistate region's businesses, residents and visitors by providing the highest quality, most efficient transportation and port commerce facilities and services that move people and goods within the region, provide access to the rest of the nation and to the world, and strengthen the economic competitiveness of the New York-New Jersey metropolitan region.

This mission is supported by goals and objectives that include: improving service quality, implementing new technologies, maintaining and enhancing infrastructure, improving management and delivery of capital programs, increasing agency cost effectiveness, enhancing safety and security, promoting entrepreneurial initiatives, pursuing improvements in regional mobility, and advancing regional economic competitiveness.

The Budget serves as a financial planning tool which outlines estimated expenditures for fulfilling these objectives through programs already authorized or to be considered.

The 1998 Budget, as reflected in the financial plan previously presented to the Commissioners, totals \$3,134 million. It consists of \$1,576 million for operating expenses, \$1,068 million for gross capital expenditures, \$424 million for debt service charged to operations, and \$66 million for other expenditures.

The 1998 Budget reflects continued implementation of a number of cost reduction and productivity measures. It also incorporates continued management delayering and process streamlining and reorganization measures following a significant restructuring effort. These steps serve to maintain the financial capacity needed to achieve the Port Authority's capital and operational objectives. At the same time, the 1998 Budget provides for continued implementation of customer service improvements affecting the Port Authority's aviation, tunnel, bridge, terminal, rail, Port Commerce and World Trade facilities.

1998 capital expenditures will be devoted primarily to projects related to the Port Authority's facilities. They support the agency's mission and contribute to achieving the agency's goals and objectives through significant projects that include improvements to runways and taxiways, landside access and terminal improvements at the airports; dredging and port development projects for the port facilities; ventilation and infrastructure improvements on PATH; and circulation and additional security improvements at the World Trade Center.

The Executive Director would be authorized to take action with respect to professional, technical, or advisory services; contracts for maintenance and services,

construction, commodities (materials, equipment, and supplies) purchases; the purchase of insurance; the settlement of employee and patron claims; and other actions including personnel benefit, classification, range and procedural adjustments, all as provided for in the 1998 Budget.

A provision of \$500,000 is also included to reimburse the States of New York and New Jersey for expenses incurred by both States, including staff costs, in reviewing the Port Authority's annual Budget and any amendments thereto.

Circumstances arose during the year 1997 that were not foreseeable or determinable when the 1997 Budget was prepared that have affected the 1997 Budget. Together with all other expenditures for the Port Authority and its subsidiary corporations for the year 1997, estimated 1997 expenditures will amount to \$162 million less than the total expenditures set forth in the 1997 Budget.

In connection with the effectuation of portions of the Port Authority's capital program from time to time and consistent with the 1998 Budget and capital program projections, it is desirable to establish a maximum amount for 1998 in connection with the Executive Director's authority to apply moneys in the Consolidated Bond Reserve Fund to the Capital Fund, subject to statutory, contractual, and other commitments and financial policies of the Port Authority, of up to \$350 million (after reimbursements for temporary applications) in addition to other capital funds carried into 1998 and the proceeds of Port Authority obligations to be issued.

The Executive Director's authority, pending final adoption and approval of the annual Budget, to make operating expenditures and undertake contractual commitments for continuing operations and services as contained in the financial plan presented to the Commissioners would also be confirmed.

Pursuant to the foregoing report presented by staff, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the 1998 Budget of The Port Authority of New York and New Jersey as set forth below be and the same hereby is approved and adopted, including authority for the Executive Director to (a) take action, in accordance with appropriate procedures, with respect to professional, technical, or advisory services as appropriate; contracts for maintenance and services, construction, and commodity purchases; purchase of insurance; settlement of claims; and other actions, including personnel benefit, classification, range, and procedural adjustments, all as provided for in the Budget; and (b) pending final adoption of the annual Budget, make operating expenditures and undertake contractual commitments for continuing operations and services:

; and it is further

RESOLVED, that, based upon a requisition of the Governor of the State of New York or the Governor of the State of New Jersey, or the duly authorized designee of each, the Port Authority shall pay to the State of New York or the State of New Jersey, or both, upon receipt of an appropriate expenditure plan from said State, an amount not in excess of \$250,000 to each said State to reimburse said State or States for expenses incurred by said State or States, including staff costs, in reviewing the annual Budget of the Port Authority and any amendments thereto; and it is further

RESOLVED, that the provision by the Executive Director of portions of the Port Authority's capital program from time to time, consistent with the 1998 Budget and capital program projections (including the continuing application of the Capital Fund on a temporary basis, subject to reimbursements), by application of moneys in the Consolidated Bond Reserve Fund, including investment earnings attributable to the General Reserve Fund not required for the maintenance of that Fund, to the Capital Fund for capital expenditures for the year 1998 in connection with the Port Authority's facilities shall not, subject to statutory, contractual, and other commitments and financial policies of the Port Authority, exceed \$350 million (after any such reimbursements and in addition to other capital funds carried into 1998 and the proceeds of obligations to be issued).

PROJECT COOPERATION AGREEMENT - KILL VAN KULL, NEWARK BAY AND ELIZABETH CHANNELS 45-FOOT DEEPENING PROJECT

It was recommended that the Board authorize the Executive Director to: negotiate and enter into a Project Cooperation Agreement with the United States Government acting through the Department of the Army for the deepening to 45 feet and selective widening of the Kill Van Kull, Newark Bay and Elizabeth Channels at an estimated cost of \$621.0 million; payment of the local share of \$217.4 million plus \$5.9 million for utility relocations plus interest payments to fund the local non-Federal share; and enter into other related contracts.

The purpose of the Agreement is to enable final design and construction of a 45-foot deep Federal channel in the Kill Van Kull, Newark Bay and Elizabeth Channels to ensure that modern deep draft containerships can safely navigate to the Elizabeth-Port Authority Marine Terminal and portions of Port Newark as well as to the Arthur Kill Channel leading to the Howland Hook Marine Terminal.

In 1996, approximately 90,000 containers were diverted to ports with greater depths such as Halifax, Baltimore and Norfolk. It is estimated that more than 125,000 containers will be diverted elsewhere each year if channel depths are not deepened to facilitate safe navigation of the current generation of deep draft container vessels. The current United States Army Corps of Engineers (Corps) New York/New Jersey Harbor Navigation Feasibility Study and the Port Authority's Comparative Port Development and Investment Options for the Port of New York and New Jersey Study anticipate deepening of the Kill Van Kull, Newark Bay and Elizabeth Channels to 45 feet and are considering 50 foot depths for these channels.

In August 1997, the Corps completed and approved a Limited Re-Evaluation Report (LRR) and Final Environmental Assessment upon which a Finding of No Significant (Environmental) Impact was based for the second phase of channel deepening construction to 45 feet. The LRR estimates that it will take nine years to deepen the Kill Van Kull from 40 to 45 feet and will cost \$621 million. The LRR also indicates that the annual economic benefit of deepening the Channels from 40 feet to 45 feet would be \$615 million yielding a benefit cost ratio of 4.2, well in excess of the Federal requirement (benefit cost ratio greater than 1.0). Similar to the first phase of work to 40 feet, a Project Cooperation Agreement will have to be executed for the second phase.

The Water Resources Development Act (WRDA) of 1986 authorized the deepening of the Kill Van Kull, Newark Bay and Elizabeth Channels to 45 feet at a total cost of \$325 million. An Agreement of Local Cooperation to deepen these channels to 40 feet (Phase I) was executed in 1986 by the Corps and the Port Authority. The Agreement was subsequently amended in 1987 and 1991 and the Channels deepened to 40 feet at a cost of \$270 million. The anticipated Project Cooperation Agreement is a condition precedent to the performance of the deepening work to 45 feet (Phase II) scheduled to commence in late 1998. By entering into this Agreement, the Port Authority will assume not only the legal obligation to provide the local share of the final total cost of the project but also certain legal responsibilities, including providing lands, easements, rights of way and dredge disposal areas

and ensuring that associated berth dredging and bulkheading are performed. Costs for this work at Port Authority facilities have been included in the 1998-2002 Capital Plan.

The 1996 WRDA increased the authorization for the 45 foot channel to \$750 million, which after the application of a 20 percent permitted allowance and the deduction of the \$270 million spent on Phase I, provides up to \$630 million of authorized funding for Phase II. The Corps estimates the cost of Phase II construction at \$621.0 million. As the local non-Federal sponsor, the Port Authority will be responsible for 35 percent of the construction cost, estimated at \$217.4 million.

The Corps estimates a cost of \$268.7 million for the associated work for which the local non-Federal sponsor is responsible, which includes the above mentioned provision of lands easements and rights of way, dredge disposal areas, berth dredging, bulkheading and utility relocations. The estimated cost breakout for the utility relocation is \$5.9 million and can be made part of the Project Cooperation Agreement. Future Board authorizations will be sought for the Port Authority to perform portions of this work as detailed designs and cost estimates are developed.

The Corps has divided the deepening work into eight separate contracts that involve the removal of sediment, clean non-rock and rock material. The cost estimates for dredging and disposal of these materials vary for each contract, but range from \$28 to \$116 per cubic yard depending on the nature of the work. Rock will be disposed of in the ocean at New York and New Jersey artificial reef sites and clean non-rock material will be disposed of in the ocean at the Historic Area Remediation Site. Material not suitable for ocean disposal will be processed at a permitted facility and placed upland for beneficial re-use.

The LRR includes estimates of \$44.5 million annually for channel maintenance dredging, a Federal responsibility, and \$10.5 million for berth dredging, a Port Authority or other owner responsibility. These estimates are based on upland disposal at \$56 per cubic yard.

Project execution is subject to Federal appropriations. Although the Kill Van Kull, Newark Bay, and Elizabeth Channels deepening has been authorized, Congress must appropriate the funds necessary for the Federal share. The Corps anticipates that appropriations would be timed to coincide with its projected nine-year construction schedule. If funds are not appropriated in a given year, it may be necessary for the Port Authority to provide additional funding, subject to reimbursement by the Corps so that construction may continue. In such event, the Board will be informed.

Federal law requires that the local non-Federal sponsor match annual Federal project appropriations. The Port Authority will be responsible for providing 25 percent, or \$155.3 million, of the total Phase II project cost during the nine-year construction period, plus the \$5.9 million for utility relocation. An additional 10 percent, estimated at \$62.1 million, will be paid by the Port Authority after project completion. Specific terms and conditions of the Project Cooperation Agreement will be negotiated.

Pursuant to the foregoing report presented by staff, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to: (1) negotiate and enter into a Project Cooperation Agreement with the United States Army Corps of Engineers to construct a 45-foot deep channel with selective widening in the Kill Van Kull, Newark Bay and Elizabeth Channels as authorized by Congress at an estimated cost of \$621.0 million; (2) pay the United States Government the local share of such construction costs, currently estimated at \$217.4 million plus \$5.9 million for utility relocation plus interest payments to fund the local non-Federal share, and provide an interest-bearing escrow, letter of credit or other funding assurance as required under Federal law to fulfill this funding obligation; and (3) execute agreements, contracts and documents as may be necessary to effectuate the foregoing; and it is further

RESOLVED, that the form of all agreements, contracts and documents necessary to effectuate the foregoing shall be subject to approval by General Counsel or his authorized representative.

ELIZABETH-PORT AUTHORITY MARINE TERMINAL - INCREASE IN PLANNING AUTHORIZATION FOR TERMINAL REDEVELOPMENT AND PROJECT AUTHORIZATION FOR THE RELOCATION OF THE EXPRESSRAIL LEAD TRACK AND BAY AVENUE/McLESTER STREET GRADE SEPARATION

It was recommended that the Board authorize (a) an additional estimated \$11 million for final planning and design work for the Elizabeth-Port Authority Marine Terminal redevelopment program, and (b) a project for the planning, design and construction of a new access railroad track to the ExpressRail Intermodal Facility (ExpressRail) and a grade separation at the intersection of Bay Avenue and McLester Street at the Elizabeth-Port Authority Marine Terminal, at a total estimated project cost of \$42 million.

It was recalled that the Board at its meeting of July 31, 1997 authorized the expenditure of an estimated \$3 million for planning and design work in connection with the development of a new container terminal for Hanjin Shipping Co., Ltd. at the Elizabeth-Port Authority Marine Terminal and the reconfiguration of certain neighboring terminals currently occupied by Maher Terminals, Inc. necessary for the creation of the new terminal. In order to expeditiously move forward with the development of these container terminal facilities following the execution of lease agreements with such terminal operators, final planning and design work must be performed. In conjunction with such planning, it will be necessary to relocate the existing rail access to ExpressRail, which currently bisects the Maher Fleet Street and Bay Avenue terminals and which adversely impacts the operating efficiency and productivity of both terminals, and to construct a grade separation at the McLester Street and Bay Avenue intersection in order to eliminate rail and vehicular traffic conflicts and provide for more efficient intermodal movement of goods through the facility.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that an additional \$11 million for final planning and design work for the redevelopment of the Elizabeth-Port Authority Marine Terminal be and the same is hereby authorized; and it is further

RESOLVED, that a project for the planning, design and construction of a new access railroad track to the ExpressRail Intermodal Facility and a grade separation at the intersection of Bay Avenue and McLester Street at the Elizabeth-Port Authority Marine Terminal at a total estimated project cost of \$42 million, including payments to contractors and consultants, allowances for extra work (if necessary) and net cost work, planning, engineering, administrative and financial expenses and a project contingency (if necessary) be and the same is hereby authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to take action with

respect to purchase and construction contracts and contracts for professional and advisory services related to the foregoing project as he deems in the best interest of the Port Authority to the lowest bidder(s) qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable; or to reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors; and to execute contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work (if necessary) and net cost work in connection with each contract including supplemental agreements thereto; and to enter into other agreements as may be necessary to effectuate the project; and it is further

RESOLVED, that the form of all contracts and agreements in connection with the foregoing shall be subject to the approval of General Counsel or his authorized representative.

**ELIZABETH-PORT AUTHORITY MARINE TERMINAL - SEA-LAND SERVICE,
INC. - LEASE AMENDMENT**

It was recommended that the Board authorize the Executive Director to enter into an agreement with Sea-Land Service, Inc. (Sea-Land) to amend its lease to provide for a one-year exemption amount from rental for dredged material discharged from barges berthing at the premises and to establish a special rental rate for this material. During the period from December 1, 1997 through November 30, 1998, Sea-Land will not pay rental on the first 200,000 cubic yards of such dredged material and will pay at the rate of \$.75 per cubic yard for such dredged material that is in excess of 200,000 cubic yards.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Sea-Land Service, Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**PORT NEWARK - T.R.T. INTERNATIONAL, LTD. - SURRENDER OF LEASE
EP-220 AND NEW LEASE LPN-245**

It was recommended that the Board authorize the Executive Director to (i) enter into an agreement with T.R.T. International, Ltd. (T.R.T.) to surrender its leasehold at Elizabeth-Port Authority Marine Terminal (EPAMT) and (ii) enter into a new lease agreement, commencing on March 1, 1998 and expiring on February 28, 2003, (the "Lease") with T.R.T. at Port Newark to provide space for the relocation of T.R.T.

The rentals will be subject to escalation at prescribed intervals throughout the term of the Lease.

The relocation of T.R.T. from space at EPAMT to Port Newark includes a financial incentive in the form of a one-time rental credit in the amount of \$32,933.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a surrender agreement and a new lease agreement with T.R.T. International, Ltd., substantially in accordance with the terms and conditions set forth above; the form of the agreements shall be subject to the approval of General Counsel or his authorized representative.

**PORT NEWARK - MARCH TRANSFER DISTRIBUTION CO., INC. - SURRENDER
OF LEASE EP-224 AND NEW LEASE LPN-246**

It was recommended that the Board authorize the Executive Director, for and on behalf of the Port Authority, to enter into agreements with March Transfer Distribution Co., Inc., (March) to (i) amend Lease No. EP-224 to allow the surrender of Section C and Section D in Building 2250 and associated open area at the Elizabeth-Port Authority Marine Terminal (EPAMT) and (ii) to enter into new Lease No. LPN-246 for the letting of Sections A and B in Building 199 and the adjoining open area in Port Newark.

The relocation of March from Building 2250 to provide space for terminal redevelopment at the EPAMT includes a financial incentive in the form of a rental credit in the new space equivalent to two months' rent. The new lease would be for a term of approximately five years commencing on March 1, 1998. The rental rate would be fixed initially and subject to escalation after the second year of the term.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to (i) enter into a supplemental agreement with March Transfer Distribution Co., Inc. to allow the surrender of Sections C and D in Building 2250 and (ii) to enter into a new agreement of lease with March for premises at Port Newark, substantially in accordance with the terms and conditions set forth above; the form of the agreements to be subject to the approval of General Counsel or his authorized representative.

**PORT NEWARK - AMERICAN STEVEDORING, INC. - LEASE FOR RED HOOK
BARGE AND BREAKBULK TERMINAL**

It was recommended that the Board authorize the Executive Director to enter into an agreement (the "Supplement") with American Stevedoring, Inc. (ASI) supplementing an existing lease (the "Lease") which will provide for (i) adding to an existing leasehold consisting of approximately 128,300 square feet of building space, approximately nine acres of associated open area, and approximately 840 linear feet of Berths 2 and 4; additional space consisting of approximately 20 acres of open area and approximately 600 linear feet of Berth 6 in Port Newark for a fixed term commencing on or about March 1, 1998 and expiring August 31, 2001, and deleting a 30-day termination right in the Lease; (ii) payment by the Port Authority to ASI of up to \$1.5 million for relocation expenses of ASI's existing barge terminal and for construction of certain barge terminal-related infrastructure as described in the Supplement; (iii) reimbursement by the Port Authority to ASI of up to an average of \$275,000 per month for up to 12 months for interim expenses until a new barge system is delivered and operational; and (iv) reimbursement by the Port Authority to ASI of up to \$750,000 for the demolition of Shed 140 at Port Newark.

ASI will assume all environmental responsibility for the leasehold, except for any contaminants found during the construction and/or demolition work. If any contaminants are found, the Port Authority would reimburse ASI for any remediation, to the extent feasible, for the remediation to be performed and the Port Authority would seek to recoup any expenses from prior occupants.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with American Stevedoring, Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

RED HOOK CONTAINER TERMINAL - AUTHORIZATION TO CONTINUE THE BARGE PROGRAM

The Red Hook Barge Program has been supported in part by the Port Authority since the Gowanus Expressway Reconstruction Program began in 1991. It was designed to maintain then current levels of service and to mitigate adverse impacts of the Gowanus reconstruction to roadside access at the Red Hook Container Terminal by transporting containers between the Red Hook Container Terminal and the New Jersey Marine Terminal via barge. The Barge Program was supported in 1991 by the Board's authorization to expend \$3.1 million in Port Authority funds for operation of the Program. In September 1993, the Board authorized the Port Authority's continued participation in the Barge Program and has continued to authorize expenditures to support the ongoing operations of the Barge Program. The barge is operated by American Import-Export Trucking Company, a subsidiary of American Stevedoring, Inc. (ASI), the lessee of the Red Hook Container Terminal, under an agreement with the Port Authority. ASI has the right to terminate its lease for the Red Hook Container Terminal if the Barge Program is discontinued. \$4.2 million was expended to operate the barge in 1996, and it is anticipated that \$5.5 million will be spent in 1997. Expenses are expected to stabilize as the cost per box decreases with the implementation of a new barge system in the third quarter of 1998.

To date, the Port Authority has authorized \$30.4 million in operating assistance, including New York State Bank I funds of \$2.1 million. In addition, the Port Authority has received New York State Congestion Mitigation and Air Quality Management (CMAQ) funds in the amount of \$2.3 million and New Jersey State CMAQ funds in the amount of \$849,000.

At its March 1997 meeting, the Board authorized expenditure of up to \$18.5 million in operating funds through the year 2001, contingent on annual Board authorization. Together with an earlier Budget authorization of \$1.5 million, \$5.5 million in funding was available for 1997. This funding was expected to last until March 1998. However, due to volume growth at Red Hook, these monies will be spent by year end 1997. Additional funds of \$5.2 million are now required for 1998. The new barge system is expected to be operational no later than the third quarter of 1998. Operating efficiencies with the new barge are expected to reduce the operating cost of the barge. The remaining balance of \$9.3 million, of the \$18.5 million, will be divided equally over the last three years of the Barge Program subject to annual appropriation from the Board.

In addition to the \$5.2 million for 1998, staff is also seeking up to \$3.3 million in operating funds for the interim service in Port Newark. This request is included in a companion January Board Item to enter into a lease agreement with ASI at Port Newark. This funding is above the March 1997 authorization of up to \$18.5 million.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to expend \$5.2 million, of the up to \$18.5 million Port Authority subsidy authorized by the Board in March 1997, for the operation of the Red Hook Barge Program for 1998.

BROOKLYN-PORT AUTHORITY MARINE TERMINAL - AMERICAN STEVEDORING, INC. - NEW AGREEMENT AND LEASE AMENDMENT

It was recommended that the Board authorize the Executive Director to enter into (1) an agreement with American Stevedoring, Inc. (ASI) for the letting of approximately 4.45 acres of open area at the Brooklyn-Port Authority Marine Terminal for the storage of salt in bulk for a term commencing on February 18, 1998 and expiring on August 31, 2001 (the "Storage Lease"); and (2) an agreement amending ASI's lease of the Red Hook Container Terminal (the "Red Hook Lease"). ASI will not pay rental under the Storage Lease, but will be obligated to improve the premises at its own cost to allow for the storage of salt. Under the amended Red Hook Lease, ASI will not be obligated to pay the rental of \$.70 per ton on the first 250,000 tons of salt in bulk discharged from vessels berthing at the premises during each of the annual periods from September 1, 1997 through August 31, 1998 and from September 1, 1998 through August 31, 1999; and will not be obligated to pay such rental on the first 214,285 tons of salt in bulk discharged during the annual period from September 1, 1999 through August 31, 2000 following the first 35,715 tons of salt in bulk so discharged during that annual period. ASI will pay the current \$.70 per ton throughput charge on any salt in bulk discharged in excess of these annual amounts. In no event, however, will these exclusions from rental under the Red Hook Lease exceed the cost incurred by ASI to improve the premises under the Storage Lease. Moreover, if ASI does not complete the improvements to the premises under the Storage Lease within a specified time, the Port Authority will have the right to terminate the Storage Lease and to apply the \$.70 rate per ton retroactively to all salt in bulk discharged from vessels berthing at the premises under the Red Hook Lease on and after September 1, 1997.

In addition, ASI will guarantee a minimum rental at the rate of \$.70 per ton on (a) 35,715 tons of salt in bulk discharged from vessels berthing at the premises under the Red Hook Lease during the annual period from September 1, 1999 through August 31, 2000; and (b) 250,000 tons of salt in bulk so discharged during the annual period from September 1, 2000 through August 31, 2001. Certain of the improvements to be made by ASI to the premises under the Storage Lease involve the removal and disposal of railroad trackage and ancillary equipment abandoned by New York Cross Harbor Railroad (Cross Harbor), a former tenant of space under the Storage Lease. The Port Authority will defend and indemnify ASI from any claims and demands of Cross Harbor for wrongful removal of railroad trackage and equipment arising from the removal and/or disposal of the abandoned railroad trackage and equipment located on Port Authority property.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into agreements with American Stevedoring, Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreements shall be subject to the approval of General Counsel or his authorized representative.

DREDGING - NEWARK BAY CONFINED DISPOSAL FACILITY - SETTLEMENT OF ADMINISTRATIVE PROCEEDING WITH UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

The United States Environmental Protection Agency (EPA) issued four Complaints against the Port Authority as the holder of a Department of the Army Permit issued for the construction of the Newark Bay Confined Disposal Facility (NBCDF) and the ocean disposal of material dredged to construct the NBCDF. The Complaints were for violations committed by the Port Authority's dredging contractor between the period June 16, 1997 and September 26, 1997, involving discharge of dredged material at locations not authorized by the Department of the Army Permit, some within, and some outside of, the Mud Dump Disposal Site (MDDS), off the coast of New Jersey.

The events leading to the Third and Fourth Complaint gave rise to media coverage and the United States Army Corps of Engineers issued an Order directing cessation of further activity under the Permit until the Order was lifted. The Order was rescinded when the Port Authority and its contractor were able to demonstrate corrective measures would be taken.

The EPA proposed a total of \$235,000 in civil penalties. The Code of Federal Regulations containing the Consolidated Rules of Practice Governing the Administrative Assessment of Civil Penalties encourages settlement of a proceeding if the settlement is consistent with the provisions and objectives of the Marine Protection, Research and Sanctuaries Act (Act) and applicable regulations. Staff was able to convince EPA's Office of Regional Counsel and EPA Program staff after a settlement conference that the provisions of the Act warrant a reduction in the amount of the proposed assessment when one takes into account the gravity of the violation, prior violations and the demonstrated good faith of the person charged in attempting to achieve rapid compliance after notification of a violation. EPA Regional Counsel has advised that the contemplated settlement of \$167,000 can include a 60-40 percent split between the sum that would go to the EPA for deposit in the United States Treasury and the sum which could be allocated to a supplemental environmental project (SEP). The details of the SEP will be resolved by EPA and Port Authority staff consistent with EPA's Office of Enforcement and Compliance Assurance Policy. The settlement avoids an adversarial evidentiary Administrative Hearing before an Administrative Law Judge which could result in a decision that a sum higher than the proposed settlement must be paid.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that General Counsel be authorized, for and on behalf of the Port Authority, to enter into a Consent Agreement and Order with the United States Environmental Protection Agency (EPA) in settlement of alleged violations of the Marine Protection, Research and Sanctuaries Act (MPRSA) by the discharge of dredged material into ocean waters in violation of the Department of the Army Permit for the Newark

Bay Confined Disposal Facility providing, among other matters, for the Port Authority's payment of \$167,000; and it is further

RESOLVED, that the form of all documents to effectuate the foregoing settlement shall be subject to approval by General Counsel or his authorized representative.

SETTLEMENT OF CLAIM - THE PORT AUTHORITY OF NEW YORK AND NEW JERSEY v. AMOCO OIL COMPANY

It was recommended that the Board authorize General Counsel to settle the action entitled The Port Authority of New York and New Jersey v. Amoco Oil Company, by accepting the sum of \$425,000 to settle the claim by The Port Authority of New York and New Jersey. In return the Port Authority will issue a General Release and Stipulation of Discontinuance with prejudice.

The Port Authority brought this lawsuit against Amoco seeking to recover the cost of environmental damages to a gasoline station formerly operated by Amoco. The Port Authority has also instituted suit against Chevron (formerly Gulf), another prior operator of the station, and that action remains.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to settle the pending civil action entitled The Port Authority of New York and New Jersey v. Amoco Oil Company by accepting the sum of \$425,000 from Amoco in return for issuing a General Release and Stipulation of Discontinuance with prejudice.

TRIBUTE TO COMMISSIONER JAMES G. HELLMUTH

It is with unmatched pride that we pay tribute to Commissioner James G. Hellmuth as he leaves the Board of Commissioners after 27 outstanding years of service.

WHEREAS, Commissioner Hellmuth was appointed to the Board in April 1970 by Governor Nelson A. Rockefeller and reappointed over the years by Governors Hugh Carey and Mario M. Cuomo; and

WHEREAS, Commissioner Hellmuth's extraordinary tenure saw the conception and realization of some of the Port Authority's most significant projects such as The World Trade Center, New York City Passenger Ship Terminal, Journal Square Transportation Center, North Wing of the Port Authority Bus Terminal, the Teleport, Newark Legal Center, Industrial Park at Elizabeth, and Essex County Resource Recovery Facility; and

WHEREAS, during his 27 years on the Board, Commissioner Hellmuth served with distinction for more than 22 years on the Committee on Operations, 18 of them as Chairman, in which capacity Commissioner Hellmuth was a staunch supporter of the agency's staff who consistently recognized their commitment and praised their contributions; Commissioner Hellmuth also served as a member of the Committees on Construction, Capital Programs & Port Planning, Finance and, most recently, was Chairman of the Audit Committee, and in all these posts Commissioner Hellmuth gave freely and generously of his time and energy, rarely missing a meeting and approaching each new endeavor with enthusiasm and dedication.

NOW, THEREFORE, BE IT

RESOLVED, that the Board of Commissioners extend their most sincere appreciation to Commissioner James G. Hellmuth for his many years of outstanding public service to this agency and the region it serves; and it is

RESOLVED, that the staff of the Port Authority wishes to thank Commissioner Hellmuth for his unstinting support and guidance throughout the 27 years of his service; and it is

RESOLVED, that, in honor of Commissioner Hellmuth and his service to the public, the Executive Director's Unit Citation Award shall be known as the James G. Hellmuth Unit Citation Award; and it is

RESOLVED, that the Commissioners hereby direct that this resolution be suitably engraved and presented to Commissioner James G. Hellmuth as an expression of their heartfelt respect for him as a friend and colleague.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period November 1, 1997 to November 30, 1997.

Business Interruption	51,734 £ (approximately \$85,366) SIR - 250 £ (approximately \$413)	12/07/97 to 12/06/98		

RENEWAL NOTES

- Proposals for the purchase of Automobile Liability Insurance were solicited on a competitive basis from five (5) brokers. Rivera and Kaplan, Inc., provided a proposal from the General Accident Insurance Company of New York for the appropriate coverage at the most cost effective premium. General Accident's premium proposal of \$25,706 reflects a 30% reduction from the expiring premium. In addition, the policy terms and conditions have been enhanced. The coverage provides appropriate financial protection to the Port Authority, as insured, for the use of Port Authority vehicles by designated executive staff.
- Bids for the renewal of our Fidelity Insurance, which covers financial loss resulting from fraudulent or dishonest acts of employees were solicited on a competitive basis from five brokers: Rivera & Kaplan, Inc., Sterling & Sterling, Inc., Marsh & McLennan-Finpro, Cunningham Group (MBE/WBE), and Massey Insurance Agency (MBE/WBE). The proposal submitted by Massey Insurance Agency was judged the most advantageous and cost effective to the Port Authority. The coverage is effective April 1, 1997 for a three-year prepaid premium cost of \$40,000 (\$13,333/year).
- Staff successfully negotiated the extension of Baggage Legal Liability Insurance covering our Legal Liability, as bailee, at the International Arrivals Building at John F. Kennedy International Airport. This coverage was provided by Hartford Fire Insurance Company through the expiring broker Massey Insurance Agency, a MBE/WBE in limits of \$1,000 per bag with a \$200,000 limit any single loss, excess of a \$100 deductible, for a 24 day extension, effective April 19, 1997 at a premium cost of \$1,321. An agreement was reached with LCOR/Schiphol, a joint venture, to operate/lease the International Arrivals Building. The terms and conditions of the agreement require LCOR/Schiphol to procure all insurance including Baggage Legal Liability. The above insurance was extended pending the execution of the agreement. The agreement became effective 12:01 p.m. on May 13, 1997.
- Risk Financing staff arranged for the renewal purchase of a Commercial Insurance package covering the activities of the TransitCenter's satellite office located in Stamford, Connecticut. This package includes Commercial General Liability Insurance, Automobile Liability Insurance, and Personal Property Insurance. TransitCenter, an office within ITD, was awarded a two year federally funded grant in 1996 to establish a satellite office in Stamford, Connecticut to market and sell TransitChek(s) to employers in the state. TransitCenter sales staff, who are temporary employees of the Port Authority, will be using their own personal vehicles to make trips from the sales office to employers' locations throughout Connecticut. In addition, we arranged for the renewal purchase of workers' compensation insurance covering the temporary employees.
- Workers' Compensation insurance covering the Office of the Washington Representative located in the District of Columbia, was renewed for a one-year term effective May 7, 1997 with the Aetna Casualty & Surety Company through the incumbent broker E.G. Bowman Co., Inc., a WBE/MBE, at an estimated annual premium of \$2,640. Since Workers'

Compensation insurance premiums are established by statute in the District of Columbia, there is no rate advantage to the Port Authority in soliciting competitive premium quotations.

- Favorable market conditions allowed us to purchase a new Excess Boiler and Machinery Insurance policy from the Chubb Group of Insurance Companies through broker Massey Insurance Agency, for a one-year term at an annual premium of \$38,000. Proposals were competitively solicited from five brokers. Massey Insurance Agency, a MBE/WBE provided a proposal for the appropriate coverage at the most cost effective premium.
- The Owners', Landlords' and Tenants' Liability, Fire Legal Liability, Movables All Risk, Excess Workers' Compensation and Employer's Liability Insurance Coverages for the Tokyo Business Development Office were renewed directly by personnel from that office. Insurance premiums have been reduced as the result of the reduction in the number of staff and the value of furniture/fixtures after the office relocation.
- With our concurrence, the manager of the Business Development Office located in London arranged for the renewal purchase of a Commercial Combined Policy form through General Accident Insurance Company. The Policy provides Public Liability, Employer's Liability, Contents and Business Interruption coverages.
- Overseas coverages are arranged by the managers in the home countries of those offices in order to provide local defense and response in the event of a loss.

Whereupon, the meeting was adjourned.

NEW YORK

Hon. Charles A. Gargano, Vice-Chairman
 Hon. David S. Mack
 Hon. Melvin L. Schweitzer

The public meeting was called to order by Chairman Eisenberg at 3:18 p.m. and ended at 3:23 p.m. The Board also met in executive session prior to the public meeting. In addition, the Board held a planning meeting in executive session on February 12, 1998.

Action on Minutes

The Secretary submitted for approval Minutes of the meeting of January 29, 1998. He reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. He reported further that the time for action by the Governors of New York and New Jersey has expired.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Audit Committee

The Audit Committee reported, for information, on matters discussed in executive session at its meeting on February 26, 1998, which included discussion of internal audit matters, and the report was received.

Report of Committee on Operations

The Committee on Operations reported, for information, and the report was received and is included with these minutes.

Report of Committee on Construction

The Committee on Construction reported, for information, on matters discussed at its meeting on February 26, 1998, which included a discussion of a project for additional elevators and customer service improvements at the Green Quadrant Parking Garage at John F. Kennedy International Airport and a project to replace the stone pavers on the Austin J. Tobin Plaza at The World Trade Center, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Finance

The Committee on Finance reported, for information, and the report was received and is included with these minutes.

THE WORLD TRADE CENTER - PLAZA STONE AND WATERPROOFING REHABILITATION - PROJECT AUTHORIZATION

It was recommended that the Board authorize a project to replace the stone pavers at The World Trade Center's Austin J. Tobin Plaza (Plaza), and to perform other related repairs, replacements and installations of Plaza infrastructure, at a total estimated project cost of \$23.5 million.

Due to general wear and tear and exposure to the elements over 25 years, there is significant deterioration of the stone pavers on the Plaza. Staff has determined that these pavers must be replaced to prevent further deterioration of the Plaza's substructure layers and waterproofing system, which also serve as the roof for the Concourse and Mall below. The cracked pavers also are potential tripping hazards to pedestrians and diminish the Plaza's appearance.

This project provides for replacement of the existing paradiso marble pavers with granite pavers which are more durable. Approximately 150,000 square feet of pavers, surrounding but not including the Plaza fountain well, will be installed. The existing Plaza paving pattern will be maintained as originally designed. The project would also include the repair of substructure layers which have deteriorated, as well as replacement of certain expansion joints and installation of additional drains, access hatches, and other utilities. Procurement of materials and services and construction activities for this project will proceed on a fast track and expedited basis to complete work as soon as possible.

Pursuant to the foregoing report presented by staff, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Janiszewski, Lewis, Mack, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that a project to replace the stone pavers at The World Trade Center's Austin J. Tobin Plaza, and to perform other related repairs, replacements and installations of Plaza infrastructure, at a total estimated project cost of \$23.5 million, be and the same is hereby authorized; and it is further

RESOLVED, that the Executive Director, be and he hereby is authorized, for and on behalf of the Port Authority, to (1) take such actions with respect to the award of purchase and construction contracts and contracts for professional and advisory services for the project as he deems in the best interest of the Port Authority including, without limitation, award to the contractor who, in his opinion, is qualified by reason of responsibility, experience, and capacity to perform the work and whose proposal price the Executive Director deems reasonable, rejection of all proposals, solicitation of new proposals on revised or the same requirements, or negotiation with one or more proposers or other contractors; (2) execute contracts and supplemental agreements with such contractors as he deems in the best interest of the Port Authority and to

order extra work (if necessary) and net cost work in connection with each project contract and agreement, including supplemental agreements; (3) award Contract WTC-903.072 - "Purchase of the Granite Pavers for Plaza Stone Replacement Project" in the estimated amount of \$2.5 million and Contract WTC-903.073 - "Installation of the Granite Pavers for Plaza Stone Replacement Project" in the estimated amount of \$13.5 million, or a combined purchase and installation contract, to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable, reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more contractors; and (4) enter into such other agreements as may be necessary to effectuate the project; and it is further

RESOLVED, that the form of all contracts and agreements in connection with the foregoing shall be subject to the approval of General Counsel or his authorized representative.

**JOHN F. KENNEDY INTERNATIONAL AIRPORT - PROJECT AUTHORIZATION
FOR ADDITIONAL ELEVATORS AND CUSTOMER SERVICE
IMPROVEMENTS AT THE GREEN QUADRANT PARKING GARAGE**

A project for construction of the Green Quadrant Garage in the Central Terminal Area at John F. Kennedy International Airport was authorized by the Board at its meeting of February 6, 1997, and that construction is now underway. As presently designed, the garage will contain two elevators at each end which will carry passengers to the grade level crosswalks proximate to Terminal 1 and Delta Air Lines' Terminal 3 as well as to roof level pedestrian bridges which will connect to the planned Light Rail System serving these terminals.

The current design does not call for elevator installation proximate to the crosswalk servicing Delta's Terminal 2, a terminal serving approximately 2.7 million annual passengers. The Terminal 2 passengers who utilize the garage will be required to climb stairs or to walk approximately 2/5 of a mile from the elevators at either end of the garage to the Terminal 2 crosswalk. Passengers parking at the midpoint of the garage would have an additional walk of approximately 2/5 of a mile to the elevators at either end.

Construction of two additional elevators and an exterior enclosure along with installation of related security and customer service enhancements will provide an acceptable level of service to those passengers using Terminal 2 and will reduce potential congestion on the elevators servicing the other, heavily utilized terminals.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Janiszewski, Lewis, Mack, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that a project for the design and construction of two additional elevators, a 3-story structure external to the garage to enclose the new elevators, and associated customer service and security related enhancements for the Green Quadrant Garage currently under construction in the Central Terminal Area at John F. Kennedy International Airport (JFK) at an estimated total project cost of \$4.9 million is hereby authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to a) take action with respect to purchase and construction contracts and contracts for professional and advisory services related to the foregoing project as he deems in the best interest of the Port Authority, including, without limitation, award to the lowest bidder, who, in his opinion is qualified by reason of responsibility, experience, and capacity to perform the work and whose bid price the Executive Director deems reasonable; rejection of all bids, solicitation of new bids on revised or the same requirements, or negotiation with one or more bidders or other contractors; b) execute contracts or supplemental agreements with such bidders or contractors as he deems in the best interest

of the Port Authority, and to order extra work, if necessary, and net cost work in connection with each contract, including supplemental agreements thereto; c) award Contract JFK-134.175 for the construction of two additional elevators, an external structure to enclose the elevators, and customer service and security related amenities associated with the new elevators such as public and emergency telephones, closed circuit television monitoring of the elevator cabs, and a guard booth at the entrance to the garage at an estimated cost of \$3.6 million; and d) to enter into such other agreements as may be necessary to effectuate the project; and it is further

RESOLVED, that the form of the contracts and agreements required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

**NEWARK INTERNATIONAL AIRPORT - CONTINENTAL AIRLINES, INC. -
EXTENSION OF LEASE ANA-326 FOR CARGO BUILDING 154**

It was recommended that the Board authorize the Executive Director, for and on behalf of the Port Authority, to enter into a supplemental agreement to Lease ANA-326 with Continental Airlines, Inc. (Continental) covering Cargo Building No. 154 at Newark International Airport, to lease additional space in Cargo Building 154 to Continental for the period March 15, 1998 through December 31, 2003, and to extend the term of the Lease to December 31, 2003 at an annual rental rate, including the additional premises, of \$919,036, including a constant factor which would escalate annually but be adjusted every two years and an airport services factor adjusted annually pursuant to Schedule A of the Lease. Continental would be fully responsible for remediation of environmental damage and associated costs unless Continental can prove it did not itself cause the environmental damage, provided Continental does not construct any additional structures or otherwise cause a disturbance of the soil resulting in the discovery and need for remediation, in any such case Continental would be fully responsible. In addition, Continental would be fully responsible for all third party environmental liability associated with the premises.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Janiszewski, Lewis, Mack, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a supplemental agreement to Lease ANA-326 with Continental Airlines, Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

PORT NEWARK - EXPORT TRANSPORT CO. - NEW LEASE LPN-249

It was recommended that the Board authorize the Executive Director to enter into a ten-year lease with Export Transport Co. covering approximately 42,312 square feet in and around Building 130, 2,185 square feet in and around Building 136 and an additional 45,000 square feet of open area at the Port Newark-Port Authority Marine Terminal. The term will commence on or about April 1, 1998 and terminate on May 31, 2008. Export Transport Co. will relocate from the Elizabeth-Port Authority Marine Terminal and use the premises in connection with its refrigerated warehouse business.

The rental will be a fixed amount for each of the three designated spaces, aggregating \$203,345 annually and commencing June 1, 1998, which shall be adjusted, based upon increases in the consumer price index as specified in the lease, on June 1, 2000 and on every second anniversary of such date.

Export Transport Co.'s lease at Elizabeth will be terminated by the Port Authority in accordance with its terms in order for the company to proceed with its relocation to Port Newark.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Janiszewski, Lewis, Mack, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Export Transport Co., substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

(Board - 2/26/98)

**PORT NEWARK - NAPORANO IRON & METAL CO., INC. - LEASE L-PN-195,
SUPPLEMENT NO. 1 - LEASE REVISION**

It was recommended that the Board authorize the Executive Director to enter into an agreement with Naporano Iron & Metal Co., Inc. ("Naporano") revising its lease for premises at Port Newark to (i) delete the requirement for the Port Authority to perform baseline testing and provide that Naporano will have specified environmental responsibility for the permanent premises during the term of the letting; (ii) modify certain business terms due to the delay in commencement of construction, including extending the lease expiration date, the rental commencement date for the permanent premises, the length of time that the rent for the temporary premises remains in effect and the length of time Naporano would remain in a portion of the temporary premises; and (iii) add approximately 1.61 acres of open area to the temporary premises.

In July 1994, the Board authorized a new lease with Naporano, a processor and shipper of scrap metal, covering Naporano's occupancy of temporary premises and the relocation of Naporano's leasehold to new permanent premises of approximately 19 acres of open area and 900 linear feet of Berths 30/32 upon completion of construction by Naporano of paving and utility work at the permanent premises. The Lease provided that the Port Authority would conduct an environmental baseline survey of the new permanent premises and the lease would be supplemented to incorporate the results. The Port Authority and Naporano could not reach agreement on the environmental terms and conditions to be incorporated into the lease with regard to the permanent premises and the supplement was never executed. Agreement has now been reached on a new environmental arrangement for the permanent premises pursuant to which Naporano will assume specified environmental responsibility for the permanent premises during the term of the letting and will be responsible for returning the permanent premises at the end of the letting thereof to the Port Authority in a "clean" condition as defined in the lease. Since approximately one-third of the permanent premises is not now clean the Port Authority would reimburse Naporano a specified amount for Naporano's clean-up of this portion of the premises upon the surrender thereof and for a clean-up required during the term of the Lease by the New Jersey Department of Environmental Protection (NJDEP) as a result of not having a Declaration of Environmental Restriction (DER) implemented with respect to such portion of the permanent premises. If NJDEP requires such a clean-up, the Port Authority would also reimburse Naporano for its repaving costs and rent would be abated to the extent Naporano did not have use of the premises because of the clean-up. Naporano will be required to provide the Port Authority with a letter of credit as security for Naporano's obligation to surrender the permanent premises to the Port Authority in a clean condition. If Naporano surrenders all of the permanent premises in a clean condition on the surrender date therefor, the Port Authority will pay Naporano a stipulated amount in recognition that it did not have use of the entire premises during the clean-up. If on the other hand, Naporano does not surrender the permanent premises to the Port Authority in a clean condition on the surrender date therefor and the Port Authority permits or requires Naporano to continue to perform the required remediation, Naporano would pay liquidated damages for loss of rental to the Port Authority.

The existing mutual 30 day termination right would be deleted from the Lease and Naporano will have the right to terminate the letting without cause in the last annual period upon 30 days' prior notice and submission of documentation to the Port Authority that the premises is clean. If Naporano terminates the letting during the first four annual periods the payments it will be obligated to pay the Port Authority will be based upon a revised schedule contained in the supplemental agreement. The mutual right to terminate the letting without cause on one year's notice in the 5th, 10th and 15th annual periods will be amended to provide for a mutual termination right on two years' notice in the 11th and 16th annual periods.

Because agreement was not reached on the environmental provisions of the Lease the construction work has not commenced and Naporano has not relocated to its permanent premises. In recognition of this delay, the lease term will be extended to end 21 years after the permanent rental commencement date but not later than February 29, 2020 and, in certain circumstances, not later than February 28, 2021 and the outside date for the commencement of rental for the permanent premises, previously July 1, 1995, will be changed to March 1, 1999 and, in certain circumstances, to March 1, 2000. Naporano will continue to pay rental on the temporary premises at the previously authorized rates until May 15, 1997. Effective May 16, 1997 the rental on the temporary premises will increase.

Additional open area of approximately 1.61 acres will be added to the temporary premises effective March 1, 1998. The term of a portion of the current temporary premises and the term of the new temporary premises would expire on the earliest to occur of February 28, 2001, the completion of a clean up required by NJDEP due to the failure to obtain a DER on the one-third portion of the permanent premises that is not now clean or upon implementation of a DER covering such premises. Naporano and the Port Authority will each have the right to terminate the letting of these temporary premises without cause on thirty days' written notice.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Janiszewski, Lewis, Mack, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a supplemental agreement with Naporano Iron & Metal Co., Inc., substantially in accordance with the terms and conditions set forth above; the form of said agreement shall be subject to the approval of General Counsel or his authorized representative.

ELECTRONIC TOLL COLLECTION - EXTENSION OF ARRANGEMENTS FOR INTERIM CUSTOMER SERVICE CENTER SERVICES

The New Jersey Turnpike Authority, on behalf of the New Jersey Electronic Toll Collection (ETC) Consortium, was to award an ETC contract for the Consortium including the establishment of a Customer Service Center (CSC) which was to service the Port Authority's electronic toll patrons and permit the Port Authority to fully participate in the Consortium's objective of implementing and operating a regional ETC system. The New Jersey Consortium is in the process of finalizing the contract to include the provisions of CSC services, and the CSC is not yet operational. The Port Authority will migrate to the New Jersey Consortium's CSC when it has made a reasonable assessment that the New Jersey Consortium CSC has been successfully tested and is ready for Port Authority migration.

On February 6, 1997, the Board authorized the Executive Director to arrange for interim CSC services for the Port Authority's ETC System for a one year period. It is necessary to extend the arrangement for interim CSC services until the Port Authority can migrate to the New Jersey Consortium CSC. The estimated cost of interim CSC service from April through August 1998 is \$920,000 per month. Beginning in September 1998, because of the consolidation of MTA Bridges and Tunnels and New York State Thruway Authority CSC services, costs for the Port Authority are roughly estimated at \$675,000 monthly, including non-recurring transition and Port Authority specific costs.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Janiszewski, Lewis, Mack, Philibosian and Schweitzer voting in favor; Commissioner Haley abstaining; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to extend arrangements for the furnishing of interim Customer Service Center (CSC) services to the Port Authority in connection with the Port Authority's Electronic Toll Collection (ETC) System until such time as the Port Authority has made a reasonable assessment that the New Jersey Consortium CSC has been successfully tested and is ready for Port Authority migration; and to enter into such agreements as are necessary to effect such extension; and it is further

RESOLVED, that the form of the agreements shall be subject to the approval of General Counsel or his authorized representative.

**STATEN ISLAND RAILROAD - INDEMNIFICATION AGREEMENT - STATE OF
NEW JERSEY**

During the past year, the Port Authority has been cooperating with the New York City Economic Development Corporation, the New Jersey Department of Transportation and the County of Union in the planning and effectuation of renewed rail service between Union County and Staten Island. As part of that process, the Port Authority issued a request for proposals (RFP) from railroads for operation of the proposed rail service. A number of proposals were received and are being evaluated by a Committee which consists of representatives of the Port Authority, State of New Jersey (including Union County) and the New York City Economic Development Corporation.

After the RFP was issued and while the proposals were being evaluated, the Norfolk Southern and CSX railroads announced their plans to acquire Conrail, the dominant rail carrier in our region. This acquisition is currently the subject of a proceeding before the Surface Transportation Board. Since these two major railroads will be operating in the region, a development occurring after the issuance of the RFP, it was considered advisable to accept proposals from the two railroads outside of the ongoing RFP process.

The State of New Jersey has expressed a concern that it would in some way be legally vulnerable because of the acceptance of and the review of any CSX/NS proposal, and along with Union County has refused to either participate in the review process or progress the development of a Memorandum of Agreement between the Port Authority and the State and County. After discussions with representatives of the State, it has been tentatively agreed that the Port Authority would provide to the State of New Jersey and County of Union, an Agreement to defend, indemnify, protect and save harmless those parties from and against any claims which may be made by any proposer which has submitted a proposal in response to the RFP.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Janiszewski, Lewis, Mack, Philiposian and Schweitzer voting in favor; Commissioner Haley abstaining; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority and any subsidiary corporation created by the Port Authority for the purpose of establishing rail service between New York and New Jersey, to enter into an Indemnification Agreement with the State of New Jersey and the County of Union to defend, indemnify, protect and save harmless the State of New Jersey and Union County from claims which may arise from any proposer which has submitted a proposal in response to the request for proposals for a Staten Island Railroad operator, substantially in accordance with the terms outlined above or on such other terms as the Executive Director deems appropriate; the form of such Indemnification Agreement shall be subject to the approval of General Counsel or his authorized representative.

SETTLEMENT WITH THE CAFE MED LESSEES

It was recommended that the Board authorize General Counsel to accept the sum of \$155,000 to be paid in seventeen consecutive monthly installments, plus interest, at an annual rate of 9 percent, in full settlement of the pending civil action, New York Supreme Court, Index No. 400421/97 regarding the Port Authority's claims for a construction advance of \$847,000 and unpaid rent of \$534,000 relating to the Cafe Med lease at The World Trade Center.

Staff has negotiated a settlement in the sum of \$155,000 to be paid by Cafe Med to the Port Authority over a seventeen month period commencing retroactive to January 1, 1998, plus interest at an annual rate of 9 percent. After all payments have been received, the parties will execute a stipulation discontinuing the litigation with prejudice and will exchange releases with respect to claims relating to the Cafe Med lease which includes contract work at the leasehold by Cafe Med valued by the Port Authority at approximately \$1.2 million.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Janiszewski, Lewis, Mack, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that General Counsel be and he is hereby authorized, for and on behalf of the Port Authority, to accept the sum of \$155,000 plus interest in full settlement of the pending civil action Index No. 400421/97, regarding the Port Authority's claims for a construction advance of \$847,000 and unpaid rent of \$534,000 relating to the Cafe Med lease at The World Trade Center, and in full settlement of all claims by all parties relating to the Cafe Med lease, substantially in accordance with the terms and conditions set forth above.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period December 1, 1997 to December 31, 1997.

- (A) Lump Sum
- (B) Classified Work
- (C) Net Cost - amount in the "Total Authorized" column represents the estimated net cost amount. However, the amount in the "Total Payment" column is the authorized net cost amount.
- (D) Extra Work
- (E) The difference between "Total Authorized" and "Total Payment" represents a credit change order in the amount of \$5,500 for a reduction in the scope of work.
- (F) The difference between "Total Authorized" and "Total Payment" represents credit change order in the amount of \$84,443.00 for a reduction in the scope of work.
- (G) The difference between "Total Authorized" and "Total Payment" represents two credit change orders totalling \$18,629.00 for deleted work.
- (H) Memorandum of Authorization dated 1/17/96, increasing extra work in the amount of \$11,000.00.
- (I) The difference between "Total Authorized" and "Total Payment" represents liquidated damages for delay in time of completion per Contract in the amount of \$700.00.
- (J) Premium for furnishing performance and payment bond as provided for in Contract.
- (K) The difference between "Total Authorized" and "Total Payment" represents a credit change order in the amount of \$640.00 for deleted work.
- (L) Memorandum of Authorization dated 10/03/95, increasing classified work in the amount of \$250,000.00
- (M) Memorandum of Authorization dated 2/01/94, authorizing Supplemental Agreement No. 1 in the amount of \$250,000.00.
- (N) Memorandum of Justification dated 9/10/96, authorizing Supplemental Agreement No. 1 in the amount of \$250,000.00 and increasing classified work in the amount of \$183,000.00.
- (O) Per AP 54-1.01.5, classified work may exceed authorization amount limited to 10% or \$250,000.00 (whichever is less) without further authorization.
- (P) Memorandum of Justification dated 9/12/96, authorizing Supplemental Agreement No. 1, in the amount of \$648,000.00.
- (Q) Memorandum of Justification dated 9/12/96, authorizing classified work in the amount of \$112,850.00.

- (R) Memorandum of Justification dated 9/12/96, authorizing net cost work in the amount of \$100,000.00
- (S) Memorandum of Justification dated 9/12/96, increasing extra work in the amount of \$38,000.00.
- (T) Memorandum of Authorization dated 9/27/96, authorizing Supplemental Agreement No. 1 in the amount of \$211,000.
- (U) Memorandum of Authorization dated 9/27/96, increasing extra work in the amount of \$12,660.
- (V) Per AP 45-1.01.5, uncommitted funds in extra work are permitted to be utilized against additional cost in classified work not covered under (O).
- (W) The difference between "Total Authorized" and "Total Payment" represents a credit change order in the amount of \$22,580.00 for deleted work.
- (Y) Memorandum of Authorization dated 6/20/96, increasing classified work in the amount of \$56,000.
- (Z) Memorandum of Authorization dated 6/20/96, increasing extra work in the amount of \$60,000.
- (AA) Memorandum of Authorization dated 6/20/96, increasing net cost work in the amount of \$115,000.
- (AB) Memorandum of Authorization dated 10/17/96, authorizing Supplemental Agreement No. 1 in the amount of \$152,800.
- (AC) Memorandum of Authorization dated 10/17/96, increasing extra work in the amount of \$9,168.
- (AD) Memorandum of Authorization dated 10/17/96, increasing net cost work in the amount of \$10,000.
- (AE) Memorandum of Authorization dated 2/12/97, increasing extra work in the amount of \$19,000.

Investments & Deposits

The Committee on Finance reported, for information only, that in accordance with authority granted by the Committee, the Executive Director had authorized the following security transactions, time accounts, interest rate exchange contracts and variable rate master note agreements during the period December 1, 1997 to December 31, 1997.

REPORT A:

Purchase of Port Authority Bonds

(Unless otherwise noted, all Port Authority Bonds are callable at par).

 William J. Cahill, Principal Information Officer, Office of Corporate Communications
 Richard Codd, Director, Community Relations
 Michael P. DePallo, Director/General Manager, PATH
 Karen E. Eastman, Assistant Secretary
 Linda C. Handel, Senior Administrator, Office of the Secretary
 Mark O. Hatfield, Jr., Director, Office of Corporate Communications
 Howard G. Kadin, Attorney, Law
 Robert J. Kelly, Director, Aviation
 Louis J. LaCapra, Chief of Staff
 Francis J. Lombardi, Chief Engineer
 Raymond P. Mannion, Comptroller
 Christopher W. Mansfield, Executive Assistant to the Deputy Executive Director
 Michael G. Massiah, Director, Office of Business and Job Opportunity
 Charles F. McClafferty, Chief Financial Officer
 Fred V. Morrone, Director, Public Safety
 Anne Marie C. Mulligan, Assistant Treasurer, Treasury
 Catherine F. Pavelec, Executive Assistant to the Secretary
 Michael J. Rienzi, Director, Procurement
 Cruz C. Russell, Director, Office of Corporate Policy and Planning
 Robert E. Van Etten, Inspector General
 Louis P. Venech, Senior Policy Transportation Manager, Office of Corporate Policy and Planning
 Angela F. Wood, Special Assistant to the Executive Director
 Peter Yerkes, Press Secretary
 Peter B. Yunis, Executive Assistant to the Chairman

Guest

Cynthia E. Covie, New Jersey Governor's Authorities Unit

(Board - 3/26/98)

The public meeting was called to order by Chairman Eisenberg at 2:55 p.m. and ended at 3:00 p.m. The Board also met in executive session prior to the public meeting. In addition, the Board held a planning meeting in executive session on March 12, 1998.

Action on Minutes

The Secretary submitted for approval Minutes of the meeting of February 26, 1998. He reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. He reported further that the time for action by the Governors of New York and New Jersey has expired.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Audit Committee

The Audit Committee reported, for information, on matters discussed in executive session at its meeting on March 26, 1998, which included discussion of internal audit matters, and the report was received.

Report of Committee on Operations

The Committee on Operations reported, for information, on matters discussed at its meeting on March 26, 1998, which included a discussion of 1997 M/WBE results. Following the public session, the Committee met in executive session to discuss lease matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Construction

The Committee on Construction reported, for information, on matters discussed at its meeting on March 26, 1998, which included a discussion of a project for wearing course installation on runway decks at LaGuardia Airport. Following the public session, the Committee met in executive session to discuss contract matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Finance

The Committee on Finance reported, for information, and the report was received and is included with these minutes.

Staff Report

A presentation was made by staff on Runway 4L-22R at Newark International Airport.

Chairman Eisenberg welcomed Anastasia M. Song as Commissioner of the Port Authority and expressed the Board's pleasure in having Commissioner Song participate in the work of the Board.

LAGUARDIA AIRPORT - WEARING COURSE INSTALLATION ON RUNWAY DECK - PROJECT AUTHORIZATION

As part of a major expansion program undertaken by the Port Authority in the mid-1960s, Runways 4-22 and 13-31 at LaGuardia Airport (LGA) were extended outward on structural decks over Rikers Island Channel and Flushing Bay. The 4-22 extension is 1,800 feet long and the 13-31 extension is 1,000 feet long, allowing the runway lengths to be extended to 7,000 feet. Both runways are 150 feet wide. The total area of the structural deck is two million square feet.

The Federal Aviation Administration requires that runway surfaces maintain a specific grooving pattern and depth to provide improved water channelization and help prevent hydroplaning. These grooves wear over time and must periodically be re-established. As a result of this periodic regrooving, the concrete on the two extended runways has worn to a point that does not allow further regrooving since there is a possibility of reaching the reinforcing steel imbedded in the concrete. Therefore, it is necessary that a "wearing course" be installed to replace the lost material and restore the reinforcing cover, allowing regrooving.

The proposed wearing course project is a separate and distinct effort from other structural modifications and is required to maintain the surface of the decks in good condition for safe air traffic operations. Other modifications to extend the useful life of the decks are progressing concurrently. After thirty years the decks are showing signs of some deterioration. Detailed investigations were conducted resulting in a multifaceted program in three major areas: a Deck Rehabilitation Program; Protective Measures; and the Runway Deck Wearing Surfaces Project. The Rehabilitation Program will extend the useful life of the decks. Protective Measures will examine, then implement, the latest technologies that will offset and defer repair cost by extending the decks' useful lives.

The wearing course project provides for the installation of an epoxy binder wearing course on each deck portion of Runways 4-22 and 13-31 for the entire 150 foot width. Preparation will include sandblasting/shotblasting to fully clean the surface to allow for the complete bond of the epoxy binder to the concrete deck. The binder and aggregates will be placed in four layers. The deck will be grooved upon completion and appropriate pavement markings applied.

The project for installing the wearing course will require coordination with other scheduled work on the decks including delamination repairs under Contract LGA-606. Construction of the wearing course will be performed during summer, with weekend closures; Runway 4-22 during 1998 and Runway 13-31 during 1999.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Haley, Janiszewski, Lewis, Mack, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that a project for the installation of a wearing course along the deck portion on Runways 4-22 and 13-31 at LaGuardia Airport at a total estimated project cost of \$9.5 million, including payments to

contractors, an allowance for extra work (if necessary) and net cost work, planning and engineering, administrative and financial expenses, and a project contingency, be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to authorize the award of Contract LGA-124.058 for preparation work to include sandblasting/shotblasting to fully clean the surface, the application of an epoxy binder and aggregates in four layers on each deck portion of Runways 4-22 and 13-31 for the entire 150 foot width, and deck grooving, at an estimated cost of \$6.8 million, to the lowest bidder qualified by reason of responsibility, experience and capacity at a bid price the Executive Director deems reasonable, or to reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors; and to execute other contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work (if necessary) and net cost work in connection with the contracts including supplemental agreements thereto; and to enter into such other agreements as may be necessary to effectuate the project; and it is further

RESOLVED, that the form of such agreements and contracts be subject to the approval of General Counsel or his authorized representative.

THE WORLD TRADE CENTER - J & H MARSH & McLENNAN, INC. - NEW LEASE AND PROJECT AUTHORIZATION FOR RELATED ELECTRICAL AND HVAC CAPACITY UPGRADES IN THE THIRD ZONE OF ONE WORLD TRADE CENTER

It was recommended that the Board:

(1) authorize the Executive Director to (a) enter into a lease agreement with J & H Marsh & McLennan, Inc. (J&H Marsh) covering the letting of approximately 361,000 rentable square feet of office space in One World Trade Center consisting of the entire 94th through 100th floors and a portion of the 93rd floor for a term of approximately sixteen years in accordance with the terms outlined below or on such other terms as the Executive Director deems appropriate, provided that if the term of the letting or the gross effective rent is not substantially in accordance with that outlined, the terms of the lease agreement will be subject to the approval of the Committee on Operations; and (b) revise the existing agency agreement with Insignia/Edward S. Gordon Co., Inc. in connection with the lease agreement to provide for acceleration of the payment of the full commission calculated in accordance with said agency agreement (136.5 percent of a full commission); (2) independent of the foregoing lease transaction, authorize a project to increase the electrical capacity, heating, ventilation, and air conditioning (HVAC) capacity and standby power capacity in the upper floors of the third zone of One World Trade Center, at an estimated total project cost of \$20.5 million; and (3) authorize the Executive Director, in connection with the aforesaid, to (a) take such actions with respect to the award of purchase and construction contracts and contracts for professional and advisory services as necessary to perform work in connection with the lease and/or to effectuate the project and as he deems in the best interests of the Port Authority including, without limitation, award to the contractor who, in his opinion, is qualified by reason of responsibility, experience, and capacity to perform the work and whose bid/proposal price the Executive Director deems reasonable, rejection of all bids/proposals, solicitation of new bids/proposals on revised or the same requirements from one or more contractors, or negotiation with one or more bidders/proposers or other contractors; and (b) execute contracts and supplemental agreements with such contractors as he deems in the best interests of the Port Authority and order extra work, if necessary, and net cost work in connection with each contract, including supplemental agreements thereto; and (c) enter into such other agreements on a sole source basis as may be necessary to effectuate the project and/or to meet commitments in connection with the aforesaid lease agreement.

J & H Marsh, an insurance brokerage company, intends to relocate its offices to The World Trade Center. The total aggregate basic rental during the lease term will be approximately \$195 million. Based on forecasted load requirements, the electrical and HVAC capacity in the third zone of One World Trade Center is inadequate to meet the anticipated requirements of Class A tenants, including those of J & H Marsh, and new rooftop uses. It is therefore necessary to accelerate capital investment in electrical and HVAC upgrades for the third zone to meet expected electrical and cooling requirements. Work will also be performed to expand the condenser water system and the standby power system to meet J & H Marsh's immediate and standby power and cooling needs.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Haley, Janiszewski, Lewis, Mack, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with J & H Marsh & McLennan, Inc. substantially in accordance with the terms set forth above, or on such other terms as the Executive Director deems appropriate, subject to the conditions set forth in the following delegation, and to revise the existing agency agreement with Insignia/Edward S. Gordon Co., Inc. in connection with the said lease agreement to provide for acceleration of the payment of the full commission calculated in accordance with the agency agreement (136.5 percent of a full commission), substantially in accordance with the terms and conditions outlined above; and it is further

RESOLVED, that the Committee on Operations be and it hereby is authorized, to approve the final terms and conditions of the aforesaid lease agreement in the event that the gross effective rent or the term of the letting is not substantially in accordance with the terms and conditions outlined above; and it is further

RESOLVED, that independent of the foregoing lease authorization, a project to increase the electrical capacity, heating, ventilation, and air conditioning (HVAC) capacity and standby power capacity in the upper floors of the third zone of One World Trade Center, at an estimated total project cost of \$20.5 million, be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director, in connection with the aforesaid, be and he hereby is authorized, to (i) take such actions with respect to the award of purchase and construction contracts and contracts for professional and advisory services as necessary to perform work in connection with the lease and/or to effectuate the project and as he deems in the best interests of the Port Authority including, without limitation, award to the contractor who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid/proposal price the Executive Director deems reasonable, rejection of all bids/proposals, solicitation of new bids/proposals on revised or the same requirements from one or more contractors or negotiation with one or more bidders/proposers or other contractors; (ii) execute contracts and supplemental agreements with such contractors as he deems in the best interests of the Port Authority and order extra work, if necessary, and net cost work in connection with each contract, including supplemental agreements thereto; and (iii) enter into such other agreements on a sole source basis as may be necessary to effectuate the project and/or to meet commitments in connection with the aforesaid lease agreement; and it is further

(Board - 3/26/98)

RESOLVED, that the form of the lease and revised agency agreements, as well as the contracts and agreements required to effectuate the foregoing, shall be subject to the approval of General Counsel or his authorized representative.

**THE WORLD TRADE CENTER - YAMAICHI INTERNATIONAL (AMERICA), INC. -
LEASE SURRENDER**

It was recommended that the Board (1) authorize the Executive Director to enter into a surrender agreement with Yamaichi International (America), Inc. (Yamaichi) of its entire Two World Trade Center premises consisting of approximately 88,000 rentable square feet (rsf) effective on or about June 30, 1998, for a payment to the Port Authority of \$11.5 million; and (2) delegate to the Chairman of the Port Authority, the Chairman of the Committee on Operations or the Vice-Chairman of the Committee on Operations the authority to approve the final terms of the surrender agreement in the event they are not substantially in accordance with those outlined herein.

Yamaichi currently occupies approximately 88,000 rsf consisting of the entire 98th floor, part of the 95th and 96th floors and mechanical equipment room space on the 110th floor in Two World Trade Center. They have experienced severe financial difficulties and are in the process of closing their business operations. Yamaichi will continue to occupy its premises through June 30, 1998, and will continue to pay for utilities and cleaning services. In addition, Yamaichi will not have any restoration obligations and will leave the premises in its "As-Is" condition.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Haley, Janiszewski, Lewis, Mack, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a surrender agreement with Yamaichi International (America), Inc., substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that the Chairman of the Port Authority, the Chairman of the Committee on Operations or the Vice-Chairman of the Committee on Operations be and each hereby is authorized to approve the final terms and conditions of the surrender agreement in the event they are not substantially in accordance with the terms and conditions outlined above; and it is further

RESOLVED, that the form of the surrender agreement shall be subject to the approval of General Counsel or his authorized representative.

**THE WORLD TRADE CENTER - UNITED STATES FIRE INSURANCE COMPANY
d/b/a CRUM & FORSTER INSURANCE COMPANY - NEW LEASE**

It was recommended that the Board authorize the Executive Director to enter into a lease agreement with United States Fire Insurance Company d/b/a Crum & Forster Insurance Company ("US Fire") covering the letting of approximately 23,000 rentable square feet of office space at Two World Trade Center substantially in accordance with the terms outlined below or on such other terms as the Executive Director deems appropriate, provided that if the term of the letting or the gross effective rent is not substantially in accordance with that outlined, the terms of the lease agreement will be subject to the approval of the Committee on Operations; and, in connection with such lease agreement, to enter into a brokerage agreement with Insignia/Edward S. Gordon Company, Inc.

US Fire is controlled by Crum & Forster Insurance Company, which is a leading national commercial insurance company, and has been in business for over 100 years. US Fire will be relocating from the World Financial Center.

The proposed agreement will provide for an approximately 6-year term to commence upon delivery of the space on or about June 1, 1998. US Fire will have an option to renew the lease for an additional 5-year period at fair market value in 2004 in the event Oppenheimerfunds, Inc. does not exercise its option to expand into the space. The total aggregate basic rental during the initial term will be approximately \$3.3 million. A brokerage commission will be paid to Insignia/Edward S. Gordon Company, Inc. in accordance with the rates authorized by the Board at its August 11, 1977 meeting.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Haley, Janiszewski, Lewis, Mack, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with United States Fire Insurance Company, d/b/a Crum & Forster Insurance Company (US Fire) covering the letting of approximately 23,000 rentable square feet of office space at Two World Trade Center, substantially in accordance with the terms set forth above, or on such other terms as the Executive Director deems appropriate, subject to the conditions set forth in the following delegation; and to enter into a brokerage agreement with Insignia/Edward S. Gordon Company, Inc. in connection with the lease agreement; the form of the agreement in each instance shall be subject to the approval of General Counsel or his authorized representative; and it is further

RESOLVED, that the Committee on Operations be and it hereby is authorized to approve the final terms of the lease agreement in the event the gross effective rent or the term of the letting is not substantially in accordance with that outlined above.

**THE WORLD TRADE CENTER - THACHER PROFFITT & WOOD - ASBESTOS
ABATEMENT**

It was recommended that the Board authorize the Executive Director to enter into an agreement (the New Supplement) amending the recently executed agreement (the Original Supplement) between the Port Authority and Thacher Proffitt & Wood (Thacher) covering an extension of the Port Authority's existing lease agreement (the Lease) with Thacher for approximately 81,000 rentable square feet of space on the 39th and 40th floors of Two World Trade Center for a fifteen year term, and the addition of approximately 17,671 rentable square feet to the premises, substantially in accordance with the terms outlined below.

The Original Supplement permitted Thacher to alter the 39th and 40th floors and provided Thacher with a finishing allowance of approximately \$2 million to cover this work. The Original Supplement provided that if asbestos was discovered during any alteration project on the 39th or 40th floors, the Port Authority would remove the asbestos provided that Thacher had not previously performed more than two other alteration projects on those floors. This provision was designed to allow Thacher, if it chose to do so, to perform alteration work on the 39th and 40th floors in phases so that it could remain in occupancy of those floors while the work was proceeding. Upon reviewing Thacher's plans to upgrade the 40th floor, it was determined that a phased alteration was neither prudent nor practicable. The New Supplement will provide Thacher an additional finishing allowance of \$2 million to cover the reconstruction. This additional cost will be offset by the reduced cost of a single-phase asbestos abatement as opposed to an abatement conducted in phases. This savings amounts to approximately \$1 million to \$1.3 million.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Haley, Janiszewski, Lewis, Mack, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Thacher Proffitt & Wood amending the Port Authority's existing agreement with Thacher Proffitt & Wood covering the letting of space at The World Trade Center, substantially in accordance with the terms and conditions outlined above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**ALL FACILITIES - TELEPORT COMMUNICATIONS GROUP PAYPHONES, INC. -
AT&T COMMUNICATIONS, INC. - PUBLIC TELEPHONE INSTALLATION
AND OPERATION - ASSOCIATED PRESUBSCRIBED LONG DISTANCE
SERVICES**

It was recommended that the Board authorize the Executive Director to (i) enter into a permit agreement with Teleport Communications Group Payphones, Inc. ("TCGP") covering the installation and operation of public telephones at all Port Authority facilities, (ii) extend a permit agreement with AT&T Communications, Inc. ("AT&T") to provide presubscribed long distance services on the public telephones and (iii) settle various claims by the Port Authority against TCGP's corporate parent Teleport Communications Group, Inc. ("TCG").

TCG is the incumbent provider of approximately 4,000 public telephones and associated local telephone service and has provided satisfactory service. AT&T has also provided satisfactory service and continues to have the largest share of the "calling card" market. In addition, AT&T provides approximately 700 public telephones.

These proposed agreements were directly negotiated by staff and will be effective from January 1, 1998 to December 31, 2002. TCGP will pay a minimum annual fee during each year of the permit, and percentage fees only in excess of the minimum annual fee. Percentage fee rates will escalate each year of the agreement for telephones located in New York, and will remain constant for telephones located in New Jersey. Commencing one year after execution, the agreement will be revocable by the Port Authority, without cause, on thirty days' prior written notice with appropriate proration of the minimum annual fee. AT&T will pay a single minimum fee plus an extension bonus, and percentage fees only in excess of the minimum fee at rates which escalate each year of the agreement. The agreement will be revocable by the Port Authority, without cause, on thirty days' prior written notice with appropriate proration of the minimum fee and the extension bonus. Aggregate Port Authority revenue for both agreements is estimated at over \$45 million.

In consideration of the payment of \$400,000 by TCG to the Port Authority, the Port Authority would enter into a settlement agreement with TCG in order to resolve claims by the Port Authority arising out of the expiring public telephone permit regarding: (i) monthly circuit charges, (ii) the use of accrual instead of cash accounting, (iii) the failure by Bell Atlantic Network Services, Inc. (acting as TCG's subcontractor) to include in gross receipts monthly line charges paid by AT&T, and (iv) cash deposited in public telephones.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Haley, Janiszewski, Lewis, Mack, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a permit agreement with Teleport Communications Group Payphones, Inc. and to extend a permit agreement with AT&T Communications, Inc., substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a settlement agreement with Teleport Communications Group, Inc., substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that the form of the agreements in each instance shall be subject to the approval of General Counsel or his authorized representative.

PORT AUTHORITY BUS TERMINAL - DUANE READE - LEASE AMENDMENT

It was recommended that the Board authorize the Executive Director to enter into an agreement (the "Supplement") with the partnership known as Duane Reade, and the partners thereof ("Duane Reade"), amending the Port Authority's existing lease (the "Lease") with Duane Reade covering the operation of a retail drug store in approximately 7,330 square feet of space in the North Wing of the Port Authority Bus Terminal (the "existing space") to provide for the relocation of the premises under the Lease to approximately 7,900 square feet of space in the South Wing of the Port Authority Bus Terminal (the "substitute space") and an extension of the term of the letting under the Lease, because the existing space may be required in connection with the development of the air rights over the North Wing of the Port Authority Bus Terminal (the "Air Rights Project"); provided, that if the term of the letting or the gross effective rent is not substantially in accordance with the terms outlined below, the terms of the agreement will be subject to the approval of the Committee on Operations.

The Supplement would extend the term of the letting under the Lease for a period expiring on the tenth anniversary of the date payment of rental for the substitute space commences, with Duane Reade to have the right to further extend the term of the letting of the substitute space for an additional five year period. Payment of the rentals for the substitute space will commence 240 days from the commencement date of the letting of the substitute space. The letting of the substitute space will commence on or about November 1, 1998. Duane Reade will surrender the existing space approximately 270 days following the commencement date of the letting of the substitute space, with the Port Authority to have the right to extend the effective date of the surrender to a date no later than December 31, 2000. Upon the surrender of the existing space, the Port Authority will reimburse Duane Reade for the unamortized portion of Duane Reade's initial capital investment in the existing space, as previously authorized by the Board. The amount of such reimbursement will not exceed \$160,000. If Duane Reade continues to occupy the existing space for more than 30 days after the commencement date of the letting of the substitute space, Duane Reade will pay an increased basic rental for the existing space until the date such space is surrendered for the Air Rights Project. Duane Reade will install all improvements, fixtures and equipment required for its operations in the substitute space, at its sole cost and expense. The extended term of the letting of the substitute space will be subject to termination by the Port Authority, at any time, without cause, on thirty days' notice, in which event Duane Reade would be reimbursed for the unamortized portion of its initial capital investment in the substitute space to the extent that such initial capital investment does not exceed \$950,000.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Haley, Janiszewski, Lewis, Mack, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with the partnership known as Duane Reade, and the partners thereof, concerning the relocation of its premises at the Port Authority Bus Terminal, substantially in accordance with the terms and conditions outlined

above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative; and it is further

RESOLVED, that the Committee on Operations be and it hereby is authorized to approve the final terms and conditions of the agreement in the event that the gross effective rent or the term of the letting is not substantially in accordance with that outlined above.

**PORT AUTHORITY BUS TERMINAL - MARRELLA HAIR STYLISTS, INC. - LEASE
EXTENSION AND RELOCATION OF PREMISES**

It was recommended that the Board authorize the Executive Director to enter into an agreement (the "Supplement") with Marrella Hair Stylists, Inc. ("Marrella") to amend its lease for retail space at the Port Authority Bus Terminal ("PABT") to extend the term of the letting and relocate its premises, provided that if the term of the letting or the gross effective rent is not substantially in accordance with the terms outlined below, the terms of the agreement will be subject to the approval of the Committee on Operations.

Marrella's current premises is required as part of a reallocation of retail space in the North Wing of the PABT to provide for the Air Rights development project.

The terms of the lease would be revised by the Supplement as follows: the Supplement would provide for an extended term of approximately ten years commencing on or about June 1, 1998, the anticipated date of occupancy of the new premises, and expiring on the day preceding the tenth anniversary of the Rent Commencement Date, defined in the Supplement as (i) the 240th day following the Commencement Date of the new premises, or (ii) the commencement of business operations in the new premises, whichever occurs first. Marrella will pay a graduated basic rental for its new premises as provided in the Supplement. Marrella will, on behalf of the Port Authority, demolish the new premises, bring utilities to the new premises, relocate all of the base building systems, and construct demising walls and a ceiling in the new premises, and will be reimbursed by the Port Authority for such work in an amount not to exceed \$160,000. Marrella will also be responsible for finishing work in the new premises. The term of the letting will be subject to termination by the Port Authority, at any time, without cause, upon 30 days' notice without any reimbursement obligations.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Haley, Janiszewski, Lewis, Mack, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Marrella Hair Stylists, Inc., substantially in accordance with the terms and conditions outlined above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative; and it is further

RESOLVED, that the Committee on Operations be and it hereby is authorized to approve the final terms and conditions of the agreement in the event that the gross effective rent or the term of the letting is not substantially in accordance with that outlined above.

THE PORT AUTHORITY INDUSTRIAL PARK AT YONKERS - WILMON INDUSTRIAL SUPPLY CORP. - LEASE AGREEMENT

It was recommended that the Board authorize the Executive Director to enter into a lease agreement with Wilmon Industrial Supply Corp. ("WISC") upon the terms outlined below or on such other terms as the Executive Director deems appropriate, provided that if the term of the letting or the gross effective rent is not substantially in accordance with that outlined below, the terms of the lease agreement will be subject to the approval of the Committee on Operations.

The proposed agreement covers approximately 13,500 rentable square feet of industrial space at the Port Authority Industrial Park at Yonkers for a term of approximately five years commencing on or about April 1, 1998, at an aggregate basic rental over the full term of approximately \$400,000, with WISC having the right to terminate the letting at the end of the third rent-paying year. WISC will pay its proportional share of increases in common area operating and maintenance expenses over the actual costs for the 1998 calendar year and will pay increases in payments in lieu of taxes as provided in the lease agreement.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Haley, Janiszewski, Lewis, Mack, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Wilmon Industrial Supply Corp., substantially in accordance with the terms outlined above, or on such other terms as the Executive Director deems appropriate subject to the conditions set forth in the following delegation; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative; and it is further

RESOLVED, that the Committee on Operations be and it hereby is authorized to approve the final terms and conditions of the lease agreement in the event that the gross effective rent or the term of the letting is not substantially in accordance with that outlined above.

THE TELEPORT - AUTHORIZATION TO ENTER INTO A SUPPLEMENTAL AGREEMENT WITH THE CITY OF NEW YORK

It was recommended that the Board authorize the Executive Director to enter into a supplemental agreement to the Teleport lease to provide for payment of \$2,000,000 to the City of New York (the City) for supplemental rent interest charges. In 1984, the Port Authority signed a 40-year ground lease with the City for the leasing of the Teleport facility. From 1993 through 1996, the Port Authority received retroactive supplemental rent bills from the City for the period 1986 through 1996. Supplemental rent represents a payment in lieu of taxes (PILOT) charged by the City for the operation and maintenance of common use infrastructure and improvements at the Teleport. In addition to the principal amount of \$3,300,000, the City charged interest totaling \$3,200,000.

In 1996, the Port Authority paid the supplemental rent principal but refused to pay the interest claimed by the City. Staff believes that the assessment method used economically disadvantages the Teleport. The property was assessed as a special purpose property as opposed to market value, with increases calculated using a construction index rather than increases in market value. Moreover, staff believes that the Statute of Limitations may bar the City from seeking payment beyond the applicable time limit and further believes, based on the ground lease language, receipt of an invoice starts the Port Authority's obligation to pay supplemental rent.

A payment of \$2,000,000 by the Port Authority will settle the claim of the City for supplemental rent interest at the Teleport. The City has also conducted a reassessment of the property, which for the Tax Year commencing July 1, 1998 will be 43 percent less on the Port Authority-owned Telecenter Building and 50 percent less on the balance of the facility as compared to the prior assessment.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Haley, Janiszewski, Lewis, Mack, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with the City of New York amending the Teleport lease, substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**PORT AUTHORITY BUS TERMINAL - ADIRONDACK TRANSIT LINES, INC.
AND PINE-HILL KINGSTON BUS CORPORATION - AMENDMENT OF
LICENSE AGREEMENTS**

It was recommended that the Board authorize the Executive Director to enter into an agreement (the Payback Agreement) with Adirondack Transit Lines, Inc. (Adirondack) to provide for the payment by Adirondack of arrearages accumulated by Adirondack and its subsidiary Pine-Hill Kingston Bus Corporation (Pine-Hill) under their respective license agreements covering their operations at the Port Authority Bus Terminal.

Adirondack has been a licensee at the Port Authority Bus Terminal since 1963, and Pine Hill has been a licensee since 1966. The carriers have accumulated an arrearage totaling \$2,236,000, representing unpaid ticket sales fees owed by Adirondack for the period from March 1996 through December 1997 and by Pine Hill for the period from November 1995 through December 1997. Both carriers have been current since January 1998. The Payback Agreement will provide for repayment of the debt by Adirondack through graduated payments over a nine year period commencing January 1, 2002, without interest.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Haley, Janiszewski, Lewis, Mack, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Adirondack Transit Lines, Inc. at the Port Authority Bus Terminal, substantially in accordance with the terms and conditions outlined above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**SETTLEMENT OF CLAIM - KORISHA SANTORO v. THE PORT AUTHORITY OF
NEW YORK AND NEW JERSEY**

It was recommended that the Board authorize General Counsel to settle a pending action brought by Korisha Santoro by paying her and her attorney the sum of \$112,500, inclusive of attorney's fees, interest, costs and disbursements. In return, the Port Authority will receive a General Release and Stipulation of Discontinuance with prejudice.

Plaintiff is a 43 year old woman who purportedly injured her back and had to have arthroscopic surgery allegedly due to her falling into a hole in the flooring a few feet from the escalators leading from the PATH platform level to the concourse level of The World Trade Center.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Haley, Janiszewski, Lewis, Mack, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to settle the pending civil action entitled Korisha Santoro v. The Port Authority of New York and New Jersey by paying to Korisha Santoro and her attorney the sum of \$112,500, in return for a General Release from liability and Stipulation of Discontinuance of the action with prejudice.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period January 1, 1998 to January 31, 1998.

John F. Kennedy International Airport - Airport Access Project - Authority to Award Contracts LRS-100.001, LRS-100.002 and LRS-100.003 for the Design, Construction, Operation and Maintenance of Jamaica-JFK with Howard Beach Light Rail System	174

MINUTES of a special meeting of The Port Authority of New York and New Jersey held Thursday, April 16, 1998, at One World Trade Center, City, County and State of New York.

PRESENT:

NEW JERSEY

Hon. Lewis M. Eisenberg, Chairman
 Hon. Kathleen A. Donovan
 Hon. John J. Haley, Jr.
 Hon. Aubrey C. Lewis
 Hon. Alan G. Philibosian

NEW YORK

Hon. Charles A. Gargano, Vice-Chairman
 Hon. Peter S. Kalikow
 Hon. George D. O'Neill
 Hon. Melvin L. Schweitzer
 Hon. Anastasia M. Song

Robert E. Boyle, Executive Director
 Richard J. Lobron, Deputy Executive Director
 Jeffrey S. Green, General Counsel
 Daniel D. Bergstein, Secretary

Karen A. Antion, Chief Technology Officer
 Lillian C. Borrone, Director, Port Commerce
 Darrell B. Buchbinder, Chief, Public Securities Law Division, Law
 Robert E. Catlin, Director, World Trade
 Anthony G. Cracchiolo, Program Director, New York Airport Access, Office of Chief Technology Officer
 Karen E. Eastman, Assistant Secretary
 Linda C. Handel, Senior Administrator, Office of the Secretary
 Mark O. Hatfield, Jr., Director, Office of Corporate Communications
 Robert J. Kelly, Director, Aviation
 Louis J. LaCapra, Chief of Staff
 Jack Leibler, Chief, Construction Contracts Division, Law
 Francis J. Lombardi, Chief Engineer
 Christopher W. Mansfield, Executive Assistant to the Deputy Executive Director
 Charles F. McClafferty, Chief Financial Officer
 Cruz C. Russell, Director, Office of Corporate Policy and Planning
 Douglas L. Smith, Manager, Business Planning, Budget
 Christopher O. Ward, Director, Port Redevelopment Program, Port Commerce
 Peter B. Yunis, Executive Assistant to the Chairman

The Secretary reported that the meeting was duly called in accordance with the By-Laws.

The meeting was called to order in executive session by the Chairman at 12:35 p.m. and ended at 1:13 p.m.

(Board - 4/16/98)

**JOHN F. KENNEDY INTERNATIONAL AIRPORT - AIRPORT ACCESS PROJECT -
AUTHORITY TO AWARD CONTRACTS LRS-100.001, LRS-100.002 AND LRS-
100.003 FOR THE DESIGN, CONSTRUCTION, OPERATION AND
MAINTENANCE OF JAMAICA - JFK WITH HOWARD BEACH LIGHT RAIL
SYSTEM**

On May 9, 1996, the Board authorized a project for the implementation of an automated Light Rail System ("LRS") between Jamaica and John F. Kennedy International Airport ("JFK"), a link between Howard Beach and JFK, and an LRS circulating within the Central Terminal Area at a total estimated project cost of \$1.268 billion, excluding interest on bonded debt.

JFK suffers from a lack of public transportation options for access to the facility. In addition, the existing roadway system is unable to adequately address the need for on-airport circulation. The LRS project will provide connections to regional transportation hubs at the Long Island Railroad station in Jamaica as well as the New York City Transit station in Howard Beach. The LRS will also provide stations on-airport, at Federal Circle, the Employee Parking Lot, and at the unit terminals for intra-airport transportation of airport customers and employees.

The Board at its meeting on May 9, 1996 also authorized the Executive Director to apply to the Federal Aviation Administration ("FAA") for additional Passenger Facility Charge ("PFC") collection authority of \$823 million and additional PFC use authority of \$1.248 billion.

An application was submitted to the FAA for the use of PFC funds on July 21, 1997. A Record of Decision for the use of these funds in the amount of \$1.148 billion was received on February 9, 1998. An application for the \$100 million in PFCs which expired on October 1, 1997, due to the FAA's failure to act by the application's expiration date, will be resubmitted to the FAA. In addition to the \$14 million previously approved by the FAA for planning costs for the JFK LRS, an amendment to recover an additional \$38 Million in planning and preliminary engineering costs (\$36 million for JFK LRS, \$2 million for EWR Monorail Extension) will be submitted at the same time. An addendum will also be submitted to the PFC application to permit the Port Authority to reallocate certain Port Authority Capital funds (up to \$300 million) to project elements the FAA deems ineligible for PFC funding and to allocate PFCs to other eligible items. The total amount of PFC funds expected to be approved for the project is \$1.598 billion including interest on bonded debt.

Proposals for the design, construction, operation and maintenance of the LRS were solicited from a list of five joint venture firms developed from a publicly advertised Request for Qualifications. All of the prequalified firms submitted proposals which were reviewed and rated by an interdepartmental Evaluation Committee and Selection Committee.

Competitive ranges established pursuant to the terms and conditions of the Request for Proposals resulted ultimately in the elimination of three proposers from further consideration.

Based on analysis of utilization of existing technology, design, scheduling, staffing, prior experience, cost, and the financial capabilities of the two remaining proposers, the proposal submitted by the Air Rail Transit Consortium (a joint venture of Bombardier Transit Corporation, Slattery/Skanska Inc., Perini Corporation and Karl Koch Erecting Co., Inc.) was considered superior to the other proposal and provided the best value to the Port Authority.

Contract LRS-100.001 provides for the design and construction of an LRS system at JFK. This fully automated system provides for circulation within the Central Terminal Area, a connection to the New York City Transit station at Howard Beach, and a connection to the regional transportation hub located at the Long Island Railroad station in Jamaica.

Contract LRS-100.002 provides for the construction of early action items associated with the LRS, including an underpass under Taxiways A & B, the relocation of an underpass under a portion of the on-airport Van Wyck Expressway and North Service Road and the relocation of certain utilities.

Contract LRS-100.003 provides for the maintenance and operation of the LRS for an initial five-year period. The Port Authority will have the option of extending this contract for two additional five-year periods.

The Air Rail Transit Consortium will be required to provide a corporate guarantee from Skanska AB and Bombardier Inc. which will guaranty the performance of the Air Rail Transit Consortium under Contracts LRS-100.001, LRS-100.002 and LRS-100.003.

Pursuant to the foregoing report presented by staff, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to award to the Air Rail Transit Consortium (a) Contract LRS-100.001 at a contract price of \$829.9 million; and to order extra work for changes in the scope of work up to \$35.7 million; (b) Contract LRS-100.002 at a contract price of \$99.9 million; and to order extra work for changes in the scope of work up to \$4.3 million; and (c) Contract LRS-100.003 at a contract price of \$105 million, subject to escalation for a five-year period and to exercise options to extend the term of Contract LRS-100.003 for up to two additional five-year periods on the same terms and conditions except for the contract price which will be subject to adjustment as provided for in Contract LRS-100.003; and to order extra work up to \$8.4 million; and for Contracts LRS-100.001 and LRS-100.002 to order contingency work for up to \$129 million; and it is further

RESOLVED, that the form of the foregoing contracts shall be subject to the approval of General Counsel or his authorized representative.

Whereupon, the meeting was adjourned.

(Board - 4/30/98)

The public meeting was called to order by Chairman Eisenberg at 2:45 p.m. and ended at 3:15 p.m. The Board also met in executive session prior to the public meeting. In addition, the Board held a planning meeting in executive session on April 16, 1998.

Action on Minutes

The Secretary submitted for approval Minutes of the meeting of March 26, 1998. He reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. He reported further that the time for action by the Governors of New York and New Jersey has expired.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Audit Committee

The Audit Committee reported, for information, on matters discussed in executive session at its meeting on April 30, 1998, which included discussion of internal audit matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Finance

The Committee on Finance reported, for information, on matters discussed in executive session at its meeting on April 30, 1998, which included a discussion of matters related to, or which could impact upon, the issuance, sale, resale, or redemption of Port Authority bonds, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Capital Programs and Port Planning

The Committee on Capital Programs and Port Planning reported, for information, on matters discussed in executive session at its meeting on April 30, 1998, which included a discussion of matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with which we deal, and the report was received.

Report of Committee on Operations

The Committee on Operations reported, for information, on matters discussed in executive session at its meeting on April 30, 1998, which included a discussion of contract matters and matters which could affect the competitive economic position of the Port Authority, the Port District, and businesses with which we deal, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

(Board - 4/30/98)

Report of Committee on Construction

The Committee on Construction reported, for information, on matters discussed at its meeting on April 30, 1998, which included a discussion of a cooperation agreement with the United States Government for a project to deepen the Arthur Kill Channel and a discussion of airport parking improvements at John F. Kennedy and Newark International and LaGuardia Airports. Following the public session, the Committee met in executive session to discuss contract matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Nominating Committee

During the course of the meeting, the Nominating Committee submitted its report, and the report was received and is included with these minutes.

Staff Report

A presentation was made by staff on Airport Parking and Airport Customer Service Initiatives.

(Board - 4/30/98)

AUDIT COMMITTEE ANNUAL REPORT

Commissioner Philibosian submitted the following report:

In accordance with Port Authority By-Laws, the Chair of the Audit Committee reports periodically on the activities of the Audit Committee.

Since the last report, the Audit Committee has met nine times. Our Committee meetings are regularly attended by the Chief Financial Officer, General Counsel, the Chief Technology Officer, the Director of the Audit Department, the Inspector General, the Treasurer, and the Comptroller.

Representatives of Deloitte & Touche LLP, the Port Authority's independent accountants, have attended three of our meetings. At those meetings, we held sessions with only the outside accountants present, which is consistent with our policy that the outside accountants and members of the Audit Committee have direct and unrestricted access to each other.

The Audit Committee keeps informed of relevant matters through quarterly reports prepared by the Director of the Audit Department, the Inspector General and the Treasurer. In addition to these reports, Charles McClafferty, the Chief Financial Officer, and John Brill, the Director of the Audit Department, have kept me informed of special situations, audits and investigations as appropriate. Robert Van Etten has done the same as Inspector General.

Each quarter, the Committee reviews and discusses the detailed reports of audit results prepared by the Audit Department. The Audit Department conducts audits in accordance with an Annual Plan submitted to the Audit Committee. The Annual Audit Plan is based on a schedule of specific audits established after performing a risk assessment, taking into consideration the potential for financial loss, major changes in operations or programs, and the dates and results of previous audits. The Audit Plan is reviewed with the Committee and includes the input of Port Authority senior management and our independent accountants.

The Committee also discusses the quarterly report of the Inspector General with respect to investigations undertaken by that Office. The major function of the Inspector General's Office is to investigate situations or allegations of improper, unethical or illegal activities of individuals within the Port Authority or persons with whom the Port Authority has a business relationship.

On a quarterly basis, the Audit Committee reviews the status of the Port Authority's accounts receivable and discusses the quarterly reports prepared by the Treasurer, Bruce Bohlen. The Committee monitors staff efforts to collect revenues due to the Authority, and also discusses problem accounts and reviews the trends in receivable collections. Over the past year, the ratio of receivables to billings has improved and is well within target.

The Audit Committee has also, during the past year, requested staff presentations on key areas of business risk. For example, we reviewed the Agency's plans for ensuring that all critical computer systems are Year 2000 compliant. We also reviewed controls over the procurement function.

Our Committee continued its practice of reviewing, in detail, the Authority's audited financial statements prior to their release. We are concerned not only with the control systems which assure the accuracy and completeness of the statements, but also with the presentation, the format, and, in the context of full and fair disclosure, the substance and language of the footnotes.

In the opinion of the independent accountants, the 1997 financial statements present fairly, in all material respects, the combined financial position of the Port Authority and the combined results of its operations in conformity with generally accepted accounting principles. We were pleased to learn that the Government Finance Officers Association recognized the Port Authority's 1996 Comprehensive Annual Financial Report with its Certificate of Excellence in Financial Reporting, an award that the Port Authority has received for each of the past thirteen years. This is a significant achievement for staff of the Comptroller's Department.

Finally, as the Chair of the Audit Committee, I review the expense reports of the Executive Director and members of the Board.

This annual report to the Board provides the Audit Committee with the opportunity to acknowledge the dedication and professionalism of our staff. The Committee recognizes the strengths, talent and commitment of our financial professionals, all of whom make an important contribution to the Authority and also to the Region.

The Committee believes that reasonable controls and procedures are in place, and that there is a reasonable basis for this Board to have a high level of confidence in the professional and ethical conduct of our personnel.

RETENTION OF INDEPENDENT AUDITORS

Under the By-Laws, the Audit Committee has the responsibility to recommend retention of independent auditors for designation by the Board to audit the accounts and financial statements of the Port Authority and its subsidiaries. The Audit Committee monitors the independent auditing function and decides annually the question of which firm to recommend to the Board for retention by the Port Authority and for what period of time in light of then-current circumstances.

Consistent with long-standing policy and after a full review and discussion of the performance of Deloitte & Touche LLP, the Audit Committee recommended that the Board designate Deloitte & Touche LLP as independent auditors to audit the accounts and financial statements of the Port Authority and its wholly-owned subsidiaries for the year ending December 31, 1998, to perform an evaluation of the system of internal accounting controls, to perform a review of the Passenger Facility Charge Program, to provide other audit services, to conduct an actuarial evaluation of non-pension post-retirement benefits for active and retired employees, and to provide services requested in the disclosure process in connection with the issuance from time to time of Port Authority obligations.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Janiszewski, Kalikow, Mack, O'Neill, Philibosian and Song voting in favor; none against:

RESOLVED, that Deloitte & Touche LLP be and it hereby is designated as independent auditors to audit the accounts and financial statements of The Port Authority of New York and New Jersey and its wholly-owned subsidiaries for the year ending December 31, 1998; and it is further

RESOLVED, that, for the year ending December 31, 1998, Deloitte & Touche LLP be and it hereby is designated to perform an evaluation of the system of internal accounting controls, and to provide other audit services, including a review of revenue and cost computations relating to and under the terms of the various lease agreements, such as those with the cities of New York and Newark, financial and statistical data reports submitted to the Federal Transit Administration, field work and financial disclosure requirements of the Single Audit Act of 1984 for recipients of Federal financial assistance, and to participate as requested in the disclosure process in connection with the issuance from time to time of Port Authority obligations; and it is further

RESOLVED, that, for the year ending December 31, 1998, Deloitte & Touche LLP be and it hereby is designated to perform a review of the Passenger Facility Charge Program pursuant to the Aviation Safety and Capacity Expansion Act of 1990; and it is further

RESOLVED, that Deloitte & Touche LLP be and it hereby is designated to conduct an actuarial evaluation regarding non-pension post-retirement benefits for active and retired employees of The Port Authority of New York and New Jersey and its wholly-owned subsidiaries, in accordance with the criteria outlined in the Governmental Accounting Standards Board Statement No. 12, and in connection therewith to estimate future potential non-pension post-retirement liabilities, provide methodology for periodically updating the results of the evaluation, and provide a written report detailing the results of the evaluation; and it is further

RESOLVED, that, in accordance with the By-Laws of the Port Authority, the matters of arranging for such services by the above-designated auditors and for monitoring the auditors' performance be and each hereby is referred to the Audit Committee.

ELECTION OF OFFICERS

Chairman Eisenberg announced that in accordance with the provisions of the By-Laws, the election of officers was in order.

Commissioner O'Neill, as Chair of the Nominating Committee, submitted the following report:

"On behalf of the Nominating Committee, I desire to report that at its meeting held earlier today, in accordance with the provisions of Article XIa. of the By-Laws, the Committee, by unanimous action, submits the nomination for election to the offices of Chairman and Vice-Chairman of The Port Authority of New York and New Jersey of Commissioners Lewis M. Eisenberg and Charles A. Gargano, respectively. By unanimous action, the Committee also submits the nomination of Robert E. Boyle as Executive Director of the Port Authority and of Jeffrey S. Green as General Counsel of the Port Authority. By unanimous action, the Committee also submits the nominations of Daniel D. Bergstein as Secretary, Charles F. McClafferty as Director of Finance, Margaret R. Zoch as Comptroller, Bruce D. Bohlen as Treasurer and John D. Brill as Director of the Audit Department."

Pursuant to the foregoing report, Commissioners Donovan, Eisenberg, Haley, Janiszewski, Kalikow, Mack, O'Neill, Philibosian and Song voting in favor, the following were unanimously elected as officers of the Port Authority: Commissioner Lewis M. Eisenberg as Chairman, Commissioner Charles A. Gargano as Vice-Chairman, Robert E. Boyle as Executive Director, Jeffrey S. Green as General Counsel, Daniel D. Bergstein as Secretary, Charles F. McClafferty as Director of Finance, Margaret R. Zoch as Comptroller, Bruce D. Bohlen as Treasurer and John D. Brill as Director of the Audit Department.

**JOHN F. KENNEDY INTERNATIONAL AIRPORT - EAST PARKING GARAGE
VERTICAL CIRCULATION AND EXTERIOR FACADE IMPROVEMENTS -
PROJECT AUTHORIZATION**

Passengers at the East Parking Garage ("Garage") in the Central Terminal Area at John F. Kennedy International Airport are currently served by two freight elevators which were originally designed to service a future hotel on top of the Garage. Redevelopment of the new Terminal 4, consolidation of Trans World Airlines, Inc. into Terminal 5, new airline tenancies in Terminal 6 and greater usage of baggage carts due to the recently implemented complimentary baggage cart program will increase demand on the Garage's elevators to levels which cannot be accommodated. Moreover, these elevators do not provide direct access to street level, thereby requiring passengers to use access ramps. To enhance customer service, this project will provide for the removal of these elevators from passenger use, the installation of four new elevators on the west face of the Garage with direct access to street level and the construction of an appropriate enclosure and canopy to connect the elevators with the street level walkway to Terminal 4. Also included in this project is an electrical substation to power the elevators, public and emergency phones, closed-circuit television cameras, a variable message signing system indicating the availability of parking on each level, flight information display monitors in the ground floor lobby area, and an architectural facade to be placed on the Garage building's exterior.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Janiszewski, Kalikow, Mack, O'Neill, Philiposian and Song voting in favor; none against:

RESOLVED, that a project for the design and construction of four new elevators, an architectural building facade and other improvements at the East Parking Garage (Garage) in the Central Terminal Area at John F. Kennedy International Airport at an estimated total project cost of \$20.5 million including payments to contractors, allowance for extra work (if necessary) and net cost work, planning and engineering, administrative and financial expenses, and a project contingency be and the same is hereby authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to: a) award Contract JFK-134.174 for the construction of four Garage elevators, the external structures to enclose the elevators, public and emergency phones, closed circuit television cameras in the elevator cabs, a variable message signing system, flight information display monitors, an electrical substation to power the elevators, a canopy at the ground floor Garage lobby area, and an architectural facade for the Garage building's exterior, at an estimated contract cost of \$13.1 million, to the lowest bidder qualified by reason of responsibility, experience, and capacity and whose bid price the Executive Director deems reasonable, and to order extra work (if necessary) up to six percent of the contract price, order net cost work, reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors as the Executive Director deems in the best interest of the Port

Authority; and b) take action with respect to such other purchase and construction contracts and agreements for professional and advisory services related to the foregoing project as the Executive Director deems in the best interest of the Port Authority, including, without limitation, award to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience, and capacity to perform the work and whose bid price he deems reasonable; reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors; execute contracts and supplemental agreements thereto; and enter into such other agreements as may be necessary to effectuate the project; and it is further

RESOLVED, that the form of all contracts and agreements in connection with the foregoing shall be subject to the approval of General Counsel or his authorized representative.

LAGUARDIA AIRPORT - TAXIWAY DECK STRENGTHENING AND GENERAL TAXIWAY MODIFICATIONS - PROJECT AUTHORIZATION

In February of 1997, Boeing Aircraft Corporation ("Boeing") presented to the Port Authority, a plan for finalizing the development and commencing production of the new B767-400 aircraft. Due to the B767-400's general arrangement, weight and landing gear configuration, Boeing requested that the Port Authority initiate an effort to analyze these characteristics in terms of operations at LaGuardia Airport ("LGA"). The Port Authority has worked closely with Boeing in conducting the required geometric and structural analysis. Concurrently, the Port Authority, Boeing and the Federal Aviation Administration ("FAA") formed a Task Force to review the need for and the type of possible non-deck modifications and any related waivers necessary for the ultimate approval of B767-400 operations at LGA.

As part of the structural analysis, Boeing and Port Authority engineering staff studied the effects of the B767-400's wheel configuration on the concrete decks. The analysis showed that the taxiway portions of the deck structures would require strengthening. In response, Boeing generated a structural plan for replacing existing girders under the deck taxiways with larger, heavier steel girders. The plan was deemed unacceptable by the Port Authority, since steel girders in the salt water environment posed a maintenance concern and the installation of the girders might preclude future, potential strengthening of the decks by the Port Authority. This plan also negatively impacted the allowed take-off weights of some aircraft currently operating at LGA. Therefore, the Port Authority developed and Boeing has accepted a proposal for the addition of concrete girders, pile caps and piles for strengthening the taxiway.

The Port Authority, Boeing and FAA Task Force has addressed non-deck related issues raised by B767-400 operations at LGA. These issues involve the clearances between taxiways, taxiways and the service road, and taxiways and the blast fences, as well as the need for expansion of certain fillet (taxiway edge) areas. Some of these issues will be addressed through physical modifications such as widening of the fillets. The Task Force also recommended that the FAA grant waivers involving the clearance issues discussed above. At LGA these clearances currently do not meet FAA standards and these waivers would continue this practice, which is dictated by the airport's physical constraints. It is expected that the FAA will approve the waivers.

The proposed taxiway deck strengthening and general taxiway modification project provides for cutting holes through taxiway areas of the concrete decks, to enable the installation of steel piles to be concrete filled and the construction and installation of pile caps and girders. Various modifications will also be made to expand the taxiway fillet areas at a number of locations. The contracts for conducting the deck taxiway strengthening will require coordination with other scheduled work on the decks, including delamination repairs under Contract LGA-606 and the installation of an epoxy-binder wearing course along each runway portion of the concrete decks.

Construction for the deck taxiway strengthening started in April, 1998 with a contract to install four to five holes with steel covers as a test effort. The holes are required for the installation of piles. Work for the holes and pile installation is scheduled to be conducted during the summer months along Taxiways "R" and "U" (adjacent to Runway 4-22) in 1998 and

along Taxiways "P" and "G" (adjacent to Runway 13-31) in 1999. The installation of pile caps and girders will follow the pile installation along each taxiway, respectively. It is anticipated that the construction along Taxiways "P" and "G" will be completed by March, 2000 while Taxiways "R" and "U" will be completed by June of 2000. The construction of asphalt fillets along various taxiways is anticipated to be constructed in the Summer of 1999.

A study conducted as part of the physical modification investigation found that there would be no negative noise impacts from the operation of the B767-400 out of LGA. In addition, the B767-400 will replace older aircraft that, in comparison, generate higher noise levels.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Haley, Janiszewski, Kalikow, Mack, O'Neill, Philibosian and Song voting in favor; none against:

RESOLVED, that a project for the planning, design, and construction improvements to the taxiway portions of the LaGuardia Airport (LGA) concrete deck areas and other related areas which are necessary for the operation of the Boeing 767-400ER (767-400) aircraft at an estimated project cost of \$44.5 million, including payments to contractors, allowances for extra work (if necessary), net cost work, planning, engineering and administrative and financial expenses, and a project contingency, be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with the Boeing Aircraft Corporation (Boeing) under which the Port Authority will plan, design and construct necessary improvements to the taxiway portions of the runway decks and at other non-deck areas for the safe operation of the Boeing 767-400ER; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to award Port Authority Contracts LGA-124.066 (estimated at \$3 million), LGA-124.067 (estimated at \$12 million), and LGA-124.068 (estimated at \$12 million) required to complete the project, including award to the lowest bidder qualified by reason of responsibility, experience and capacity and at a bid price the Executive Director deems reasonable, or to reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors; and to execute other contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work (if necessary) and net cost work in connection with the contracts including supplemental agreements thereto; and to enter into such other agreements as may be necessary to effectuate the project; and it is further

RESOLVED, that the Chief Engineer be and he hereby is authorized to award Supplemental Agreement No. 2 to Contract LGA-220.047A (estimated at \$200,000) for necessary test work; and it is further

RESOLVED, that the form of the agreements and contracts required for the above-described project shall be subject to the approval of General Counsel or his authorized representative.

**LAGUARDIA AIRPORT - CENTRAL TERMINAL BUILDING GARAGE
IMPROVEMENT PROGRAM - PROJECT AUTHORIZATION**

The LaGuardia Airport Central Terminal Building ("CTB") Garage Improvement Program ("Program") is considered an extension of the overall LaGuardia Airport redevelopment effort and part of a continued commitment to provide better airport services. The Program focuses on modernizing and upgrading the almost 25-year old CTB Parking Garage (Garage) and the terminal connectors in a manner consistent with the CTB's modernization, while improving the level of service to passengers and meeters/greeters who drive to the airport. This project will include lighting, painting and signage improvements to all levels of the Garage, the enclosure of the third floor elevator lobbies and the modernizing of the terminal connectors' architectural finishes to match the surrounding CTB redevelopment.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Janiszewski, Kalikow, Mack, O'Neill, Philibosian and Song voting in favor; none against:

RESOLVED, that a project for improvements to the LaGuardia Airport Central Terminal Building Parking Garage (Garage) including lighting, painting, signage, enclosing the third floor elevator lobbies and modernizing the terminal connectors' architectural finishes, at a total estimated project cost of \$32.0 million including payments to contractors, allowance for extra work (if necessary) and net cost work, planning and engineering, administrative and financial expenses, and a project contingency be and the same is hereby authorized; and it is further

RESOLVED, that the Executive Director be, and he hereby is authorized, for and on behalf of the Port Authority, to: a) award Contract LGA 124.069 for the modernization of the terminal connectors' architectural finishes in the estimated amount of \$8.5 million, Contract LGA 124.071 for the Garage's lighting and painting in the estimated amount of \$8.3 million, and Contract LGA 124.081 for the Garage's signage improvements in the estimated amount of \$2.9 million, to the lowest respective bidder qualified by reason of responsibility, experience and capacity and whose bid price the Executive Director deems reasonable, and to order extra work (if necessary) up to eight percent of each contract price, order net cost work, reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors; and to execute other contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority; and b) take action with respect to such other purchase and construction contracts and agreements for professional and advisory services related to the foregoing project as he deems in the best interest of the Port Authority including, without limitation, award to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price he deems reasonable; reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors as he deems in the best interest of the Port

Authority, and to order extra work (if necessary) and net cost work in connection with each contract including supplemental agreements thereto; and to enter into such other agreements as may be necessary to effectuate the project; and it is further

RESOLVED, that the form of all contracts and agreements in connection with the foregoing shall be subject to the approval of General Counsel or his authorized representative.

LAGUARDIA AIRPORT - FOAM ARRESTOR BED INSTALLATIONS - PROJECT AUTHORIZATION

Current Federal Aviation Administration ("FAA") criteria for the construction and design of airports calls for a 1,000-foot runway safety overrun area. However, United States airports already constructed at the time that this standard was developed, including John F. Kennedy International, Newark International and LaGuardia Airports, are permitted to maintain safety overrun areas of less than 1,000 feet. The safety overrun area requirement was put into effect by the FAA in order to create an extra margin of safety for landing or departing aircraft in the event an aircraft cannot be brought to a complete stop within the available runway length. Overrun incidents are the most common form of serious aircraft operational mishaps.

The Port Authority has been working with the FAA and the aviation industry since 1985 on arrestor bed technology. The information gathered during the design, installation and operation of the arrestor bed at John F. Kennedy International Airport, installed in 1996, was used in the preparation of an FAA Standard for Soft Ground Arresting Systems for airports nationwide. This standard is currently out in draft form for industry comments. Based on the success of the installation at John F. Kennedy International Airport and a similar arrestor bed at the FAA Technical Center, it is appropriate to move forward with installations at all Port Authority airport runways that do not have the traditional 1,000 foot overrun. LaGuardia Airport has been chosen for the first installations. However, arrestor beds for the decks at LaGuardia are not included in the proposed project since a detailed feasibility study is first required to be performed.

It is therefore recommended that the Board authorize a project for the design, construction and installation of two foam arrestor beds at LaGuardia Airport on Runways 4 and 31 at a total cost not to exceed \$9.8 million and authorize the Executive Director to award a contract to Engineered Systems Inc. and Edwards & Kelcey, Inc., a joint venture, for \$7,101,380, exclusive of up to 6 percent for extra work (if necessary). Engineered Systems Inc. is the only company approved for such work by the FAA, is the world leader in active aircraft arresting systems and is the firm that designed, built, and installed the only existing foam arrestor beds at the FAA Technical Center and John F. Kennedy International Airport. Edwards & Kelcey, Inc. will serve as the Engineer of Record for the work in a joint venture with Engineered Systems Inc. The proposed arrestor beds will be placed within existing overrun areas. Contract duration is presently estimated from mid-May to the beginning of December, 1998. This work will be conducted during runway closures planned for other work. All costs for the work are fully recoverable through Airport Improvement Program funding and the flight fee formula.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Janiszewski, Kalikow, Mack, O'Neill, Philibosian and Song voting in favor; none against:

RESOLVED, that a project for the design, construction and installation of two Foam Arrestor Beds at LaGuardia Airport on Runways 4 and 31 at a total project cost not to exceed \$9.8 million, including payments to contractors, allowances for extra work (if necessary), net cost work, planning,

engineering and administrative and financial expenses, and a project contingency, be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to award a contract for the design, construction and installation of the two foam arrestor beds to Engineered Systems Inc. and Edwards & Kelcey, Inc., a joint venture, in the amount of \$7,101,380, exclusive of up to 6 percent for extra work (if necessary); and it is further

RESOLVED, that the form of the contracts for the foregoing project shall be subject to the approval of General Counsel or his authorized representative.

PROJECT COOPERATION AGREEMENT - ARTHUR KILL CHANNEL 41/40-FOOT DEEPENING PROJECT

Staff recommended that the Board authorize the Executive Director to negotiate and enter into a Project Cooperation Agreement ("PCA") with the United States Government acting through the Department of the Army for the deepening and selective widening of the Arthur Kill Channel. This PCA will enable final design and construction of a Federal channel to a depth of 41/40 feet in the Arthur Kill to allow modern deep draft containerships safe access to the Howland Hook Marine Terminal as well as petroleum facilities located on the Arthur Kill.

Section 202(b) of the 1986 Water Resources Development Act ("WRDA") authorized deepening of the Arthur Kill Channel to 41 feet from its confluence with the Kill Van Kull Channel to the Howland Hook Marine Terminal and to 40 feet from the Howland Hook Marine Terminal to the Tosco and Petroport facilities.

The United States Army Corps of Engineers ("Corps") completed a final Limited Re-Evaluation Report ("LRR") and Draft Supplemental Environmental Impact Statement verifying that the construction to 41/40 feet is still appropriate. The LRR also indicates the annual economic benefit of deepening the Channel from 35 feet to 41/40 feet would be \$67.8 million yielding a benefit cost ratio of 2.3, well in excess of the federal requirement (benefit cost ratio greater than 1.0).

The Corps estimates the cost of construction at \$253.5 million. The Corps is conducting a value engineering exercise which is expected to identify measures that could significantly reduce the cost and construction schedule. As the local sponsor, the Port Authority will be responsible for 35 percent of this amount, estimated at \$88.7 million. In addition, the local sponsor is responsible for ensuring that associated berth dredging, bulkheading and utility relocation work are performed as well as providing lands, easements, rights of way and dredge disposal areas. The Corps estimates the cost for this work is \$45.6 million. This amount includes work that will not be the responsibility of the Port Authority. Utility relocations, estimated at \$8.5 million, can be made part of the Project Cooperation Agreement. Specific terms and conditions of the Project Cooperation Agreement have yet to be negotiated.

The Corps has divided the deepening work into four separate contracts that involve the removal of sediment, clean non-rock and rock material. Rock will be disposed of in the ocean at the New York, New Jersey artificial reef site and clean non-rock material will be disposed of in the ocean at the Historic Area Remediation Site. Material not suitable for ocean disposal will be processed at a permitted facility and placed upland for beneficial re-use.

The current Corps New York/New Jersey Harbor Navigation Feasibility Study and the Port Authority's Comparative Port Development and Investment Options for the Port of New York and New Jersey study anticipate deepening of the Arthur Kill Channel to 41/40 feet and are considering deeper depths for this channel.

Project execution is subject to Federal reauthorization and appropriations. Because the estimated cost of this work exceeds the current authorization, Congress must authorize an increase in the project cost. The Corps anticipates that reauthorization would be part

of a 1998 WRDA and that appropriations would be timed to coincide with its projected construction schedule. If funds are not appropriated in a given year, it may be necessary for the Port Authority to provide additional funding, subject to reimbursement by the Corps, to cover the Federal share for a portion of the work in order for construction to continue.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Janiszewski, Kalikow, Mack, O'Neill, Philiposian and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to:

(a) negotiate and enter into a Project Cooperation Agreement (PCA) with the United States Department of the Army to construct a 41/40-foot deep channel with selective widening in the Arthur Kill Channel authorized by Congress at an estimated cost of \$253.5 million excluding interest, and to sign associated agreements, contracts and documents to fulfill the Port Authority's responsibilities under the PCA;

(b) pay the United States Government, in order to fund the Non-Federal Sponsor's share, the local share of such construction costs currently estimated at \$88.7 million plus \$8.5 million for utility relocation; and

(c) provide an interest bearing escrow, letter of credit or other funding assurance as required under Federal law to fulfill this funding obligation; and it is further

RESOLVED, that the form of all agreements, contracts and documents necessary to implement the PCA shall be subject to approval by General Counsel or his authorized representative.

HOLLAND TUNNEL - ELECTRICAL AND MECHANICAL REHABILITATION OF VENTILATION SYSTEM EQUIPMENT - PROJECT AUTHORIZATION

The Holland Tunnel ventilation fan system, installed in 1927, requires rehabilitation to ensure the continued safety of the traveling public. The work, which is expected to begin in August 1999 and be completed in January 2003, will include the design and construction of the following elements: replacement of all 84 supply and exhaust fans with new, higher performance units complete with diagnostic capability; replacement of all high and low voltage electrical switchgears, conduits, and cabling; replacement of all fan motors and drives with new, high efficiency motors and adjustable speed drives; installation of an automated ventilation control system and an automatic fire detection system; modernization and upgrade of the original 1927 ventilation building elevators, and removal of incidental asbestos and lead-based paint. No impacts to customers are anticipated as all work will be performed within the ventilation buildings.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Haley, Janiszewski, Kalikow, Mack, O'Neill, Philibosian and Song voting in favor; none against:

RESOLVED, that a project for the rehabilitation of the electrical, mechanical and ancillary components of the Holland Tunnel ventilation system at an estimated total project cost of \$85.6 million including payments to contractors, allowance for extra work (if necessary) and net cost work, engineering, administrative and financial expenses, and a project contingency be and the same is hereby authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to a) award Contract HT-224.008, a contract to rehabilitate the electrical, mechanical and ancillary components of the Holland Tunnel ventilation system, in the estimated amount of \$53 million, and Contract HT-224.008M, a contract for three year maintenance of the automated fan control system, in the estimated amount of \$750,000, to the lowest bidder on the combined contracts qualified by reason of responsibility, experience, and capacity and whose bid price the Executive Director deems reasonable and to order extra work (if necessary) up to six percent of the contract price of Contract HT-224.008 and up to six percent annually of the annual maintenance price of Contract HT-224.008M, order net cost work, reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors as he deems in the best interest of the Port Authority; and b) take action with respect to such other purchase and construction contracts and agreements for professional and advisory services related to the foregoing project as he deems in the best interest of the Port Authority, including without limitation, award to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price he deems reasonable; reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or others contractors; and to execute

contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work (if necessary) and net cost work in connection with each contract including supplemental agreements thereto; and to enter into such other agreements as may be necessary to effectuate the project; and it is further

RESOLVED, that the form of all contracts and agreements in connection with the foregoing shall be subject to the approval of General Counsel or his authorized representative.

QUEENS WEST WATERFRONT DEVELOPMENT - INCREASE IN AUTHORIZATION FOR THE RECONSTRUCTION OF THE EAST RIVER WHARF AND AUTHORIZATION FOR ADDITIONAL STAFF COSTS/CHARGES

At its meeting of January 7, 1992, the Board authorized the Queens West Waterfront Development project and further authorized the Executive Director to enter into a Municipal Agreement with the City of New York/New York City Economic Development Corporation and the New York State Urban Development Corporation ("UDC") (now known as the Empire State Development Corporation) providing for, among other things, the effectuation of the project through the Queens West Development Corporation ("QWDC"), a subsidiary of UDC, with two Port Authority nominated directors to serve on its board. The Municipal Agreement further provided for a Port Authority project investment of \$125 million including up to \$250,000 for Port Authority staff charges incurred in the rendering of advice and counsel to the Port Authority nominated directors of QWDC (Board Advice). The funding for Board Advice has been exhausted and an allowance to expend additional funds under the Municipal Agreement for Board Advice is necessary.

The East River wharf will become part of the Queens-side landing of the New York Waterway ferry which commenced operations in 1994. At its meeting of November 18, 1993, the Board authorized a \$1.5 million expenditure for emergency-related costs associated with the demolition of the deteriorated wharf structure following a partial wharf collapse. The Board also authorized the receipt of a Federal grant, thereafter awarded at \$2.32 million, for wharf reconstruction work. At its meeting of July 11, 1996, the Board authorized an additional \$2.85 million expenditure to expand the wharf reconstruction scope, increasing the total authorized expenditure, exclusive of the grant, to \$4.35 million from the Port Authority's \$125 million project commitment. The reconstruction work has been underway since early 1997 under construction Contract QW-417.057 and professional services Agreement No. 415-95-90, and staff has determined that an additional \$1 million for work and services and associated project costs is necessary to complete the wharf reconstruction work.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Janiszewski, Kalikow, Mack, O'Neill, Philiposian and Song voting in favor; none against:

RESOLVED, that an additional \$250,000 allowance, from the Port Authority's Queens West Waterfront Development project commitment of \$125 million, for staff costs incurred in the rendering of advice and counsel to the Port Authority nominated directors of the Queens West Development Corporation, be and the same is hereby authorized; and it is further

RESOLVED, that an additional \$1 million to the previously authorized \$4.35 million, from the Port Authority's Queens West Waterfront Development project commitment of \$125 million, to complete the East River Wharf reconstruction be and the same is hereby authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, from the above-authorized \$1 million, to: a) increase the extra work authorization under Contract QW-417.057 with Ribar Contracting, Inc. from \$492,000 to \$900,000 for a total estimated contract cost of \$4.7 million, and b) increase the compensation for expert professional services under Agreement No. 415-95-90 with URS Consultants, Inc. from \$475,750 to \$675,750; and it is further

RESOLVED, that the form of all contracts and agreements in connection with the foregoing shall be subject to the approval of General Counsel or his authorized representative.

AUTHORIZATION FOR PORT AUTHORITY STAFF TO PROVIDE PORT RELATED ADVISORY SERVICES TO THE GOVERNMENT OF CAPE VERDE, AFRICA AS PART OF A CONSORTIUM WITH THE SKAARUP GROUP AND LOUIS BERGER INTERNATIONAL, INC.

As a corollary to the Port Authority's expanding international trade interaction with an ever increasing number of economically interdependent nations, widespread awareness of the Port Authority's professional skills, knowledge and ability in the fields of international trade/travel has also grown substantially. As a result, the Port Authority increasingly has been called on in recent years to offer expert advice, consultation or assistance to such nations or political jurisdictions of these nations.

A consortium ("Consortium") composed of Shipbuilding Ventures, Inc., a wholly-owned affiliate of the Skaarup Group, Louis Berger International, Inc. and Coudert Brothers has been requested by the government of Cape Verde to develop a total transportation plan for Cape Verde. The centerpiece and first stage of the project will be to determine Cape Verde's potential to be a maritime transshipment hub for cargo between Africa and North/South America, Europe and Asia. The project will also involve the development of a plan and an institutional vehicle to implement the plan. The plan and implementation process will provide the Cape Verde government with a systematized approach for the development and privatization of its internationally related transportation facilities.

The Consortium would like the Port Authority to participate in this project because it can utilize its experience in a diverse array of transportation facilities, its particular experience in the port business and its organizational framework and functions to advise on the development of an institutional vehicle with oversight for transportation infrastructure development and operational privatization.

Participation in this initiative provides the Port Authority with an opportunity to establish contacts for business development, assists in the development of Cape Verde as a maritime transshipment hub for West Africa, provides the Port Authority with exposure to new business for the Port of New York and New Jersey, and provides opportunities for regional stevedores, terminal operators, engineering and design firms and exporters.

Under the proposed agreement between the Consortium and the Port Authority and the Consortium and the Cape Verde government, the Port Authority will provide one or more Port Authority staff to advise on the development of an institutional framework to oversee the development and privatization of maritime infrastructure and facilities, the functional and contractual relationships between the proposed institution and the private sector and the integration of the various ports in Cape Verde as an integrated port system. The Port Authority will be compensated for staff services, expenses and the cost of transportation, lodging and meals. Staff members may be requested to travel to Cape Verde periodically during the term of the project. Staff anticipates that the project will take approximately 14 months to complete, with estimated compensation to the Port Authority of \$65,000.

(Board - 4/30/98)

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Janiszewski, Kalikow, Mack, O'Neill, Philibosian and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to (i) enter into an agreement with a consortium composed of Shipbuilding Ventures, Inc., a wholly-owned affiliate of the Skaarup Group, Louis Berger International, Inc. and Coudert Brothers, for the Port Authority to provide professional advisory services for the development of Cape Verde, Africa as a transshipment hub; and (ii) enter into such other agreements as may be necessary to effectuate the provision of advisory services substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that the form of the agreements required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

AUTHORIZATION FOR PORT AUTHORITY STAFF TO PROVIDE ADVISORY SERVICES TO A CONSORTIUM LED BY LURIE YATES PARTNERSHIP OF SOUTH AFRICA TO EXPAND AND UPGRADE THE CAPE TOWN INTERNATIONAL AIRPORT

It was recommended that the Board authorize the Executive Director to enter into an agreement with a consortium (Project Management Consortium - Lurie Yates) led by Lurie Yates Partnership ("Lurie Yates"), a South African development management firm, for the Port Authority to provide professional advisory services for the expansion and upgrade of Cape Town International Airport in South Africa at an estimated compensation of \$300,000. The provision of such services will be contingent upon acceptance of the consortium's bid submitted to Airports Company South Africa.

The objective of the Port Authority is to promote the development of the New York and New Jersey region. In keeping with that objective, it is appropriate that the Port Authority assist in strengthening the network of facilities and services which expedite trade, commerce and transportation within an increasingly globalized environment by participating in foreign/overseas trade and business development projects. In that regard, foreign municipalities and states around the world have expressed interest in obtaining assistance from Port Authorities in the United States in general, and from The Port Authority of New York and New Jersey, in particular, to provide technical, business and financial expertise for the improvement of terminals and other trade-related business ventures.

South Africa will be the air and maritime transportation hub for the Southern Africa region. It is currently the central point for the development of the Maputo transportation corridor, a multimodal transportation network, which will extend throughout Southern Africa with connection to inland countries. Cape Town is one of the main commercial cities in South Africa.

A consortium led by Lurie Yates and composed of South African and United States firms is submitting a bid to the Airports Company South Africa, which oversees nine major South African airports, to upgrade and expand Cape Town International Airport in line with its 1997 Master Plan. The expansion will be performed on the International Terminal Building to handle the forecasted growth to the year 2001. This initial expansion will provide the platform for incremental capacity expansion to 2015.

Lurie Yates and its consortium members would like the Port Authority to participate with them in this endeavor because of its experience in the development of a diverse array of transportation facilities and its particular experience in developing and managing several airports. This initiative will provide the Port Authority with an opportunity to establish contacts for aviation business development, establish the potential for new aviation business for the Port Authority, provide access opportunities for regional exporters of services and goods, and provide Port Authority staff with exposure to aviation infrastructure development in growing world markets.

Under the proposed agreement between Project Management Consortium - Lurie Yates and the Port Authority, the Port Authority will provide one or more Port Authority staff

members to advise on the identification of overall planning, construction, operational and customer service issues. Staff advisors will provide value-added assistance thereby limiting the amount of time required of Port Authority staff. The project will take approximately 30 months beginning in May 1998. Staff may be requested to travel to South Africa for a short period during the term of the initiative. Compensation to the Port Authority for staff services, expenses and the cost of transportation, lodging and meals is estimated at \$300,000.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Janiszewski, Kalikow, Mack, O'Neill, Philibosian and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to (i) enter into an agreement with a consortium led by Lurie Yates Partnership, a South African development management firm, for the Port Authority to provide professional advisory services for the expansion and upgrade of Cape Town International Airport in South Africa; and (ii) enter into such other agreements as may be necessary to effectuate the provision of advisory services substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that the form of the agreements required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

**GEORGE WASHINGTON BRIDGE BUS STATION - S&R CONFECTIONS, INC. -
LEASE AMENDMENT**

It was recommended that the Board authorize the Executive Director to enter into an agreement (the "Supplement") with S&R Confections, Inc. ("S&R") to amend its lease ("Lease") for retail space at the George Washington Bridge Bus Station ("GWBBS") to extend the term of the letting and relocate its premises, substantially in accordance with the terms and conditions outlined below or such other terms as the Executive Director deems appropriate, provided that if the term of the letting or the gross effective rent is not substantially in accordance with that established for this transaction, the terms of the agreement will be subject to the approval of the Committee on Operations.

S&R has operated a retail food stand at the GWBBS since January 1, 1988. Under the Supplement, S&R will operate a larger grocery/convenience store.

The terms of the Lease would be revised by the Supplement as follows: the Supplement would provide for an extended term of approximately ten years commencing on or about June 1, 1998, and expiring on the day preceding the tenth anniversary of the Rent Commencement Date, defined in the Supplement as (i) the 240th day following the Commencement Date of the new premises, or (ii) the commencement of business operations in the new premises, whichever occurs first. S&R will pay a graduated basic rental for its new premises as provided in the Supplement. S&R will be responsible for finishing work in the new premises. The term of the letting will be subject to termination by the Port Authority, at any time, without cause, upon 30 days' notice, in which event S&R will be reimbursed for the unamortized portion of its initial capital investment in the premises, to the extent specified in the Supplement.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Janiszewski, Kalikow, Mack, O'Neill, Philiposian and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with S&R Confections, Inc., substantially in accordance with the terms and conditions outlined above, or such other terms as the Executive Director deems appropriate, subject to the conditions set forth in the following delegation; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative; and it is further

RESOLVED, that the Committee on Operations be and it hereby is authorized to approve the final terms and conditions of the agreement in the event that the gross effective rent or the term of the letting is not substantially in accordance with that established for this transaction.

**ELIZABETH-PORT AUTHORITY MARINE TERMINAL - SEA-LAND SERVICE, INC.
- GENERAL OFFICE BUILDING - CONSENT TO SUBLEASE WITH U.S.
GENERAL SERVICES ADMINISTRATION (GSA) AND LEASE WITH GSA
FOR U.S. CUSTOMS**

It was recommended that the Board authorize the Executive Director to (1) enter into an arrangement with Sea-Land Service, Inc. ("Sea-Land") and the United States General Services Administration ("GSA"), acting on behalf of the United States Customs Service ("Customs"), to provide for the letting to GSA of approximately 11,765 square feet of office space in Building 1210 ("the Building") now leased by Sea-Land at the Elizabeth-Port Authority Marine Terminal for an initial term of ten years with the option for GSA to extend for two additional five-year periods, with Customs to be Sea-Land's tenant under a sublease until the end of Sea-Land's lease and the Port Authority's tenant for the remainder of the letting; and (2) provide for a payment structure for the expense associated with renovating the space to GSA's specifications, estimated at \$502,000.

The term of the letting to GSA will commence on or about August 1, 1998, when it is estimated that Customs will occupy the space, and will expire on July 31, 2008 under a form of GSA Lease which will contain provisions mandated by law in United States Government leases. The rent will commence at the annual base rate of \$21.75 per square foot during the first five years of the term and at the annual base rate of \$24.75 per square foot during the second five years of the term. GSA will have the right to extend the term for two five-year periods, with the rent to be at the annual base rate of \$29.75 per square foot during the option period or periods. Sea-Land will provide full building services and maintenance, including structural repair and replacement, to GSA during Sea-Land's lease for the Building at an estimated cost of \$7.40 per square foot during the first year of GSA's letting, with this cost to be included in the rent. This component of the rent will be subject to an annual CPI adjustment during the term of the letting and for any option period or periods after the initial term. The service and maintenance obligations will be assumed by the Port Authority at the end of Sea-Land's lease for the Building. Sea-Land will perform all necessary upfitting construction prior to Customs's occupying the premises. Sea-Land will be reimbursed up to \$502,000 by the Port Authority for all costs approved by GSA. Sea-Land will pay two additional rentals, one on account of up to an estimated \$264,000 of the reimbursement and the other on account of up to an estimated \$238,000 of the reimbursement. The \$238,000 component will be fully recovered by the Port Authority from Sea-Land over the remaining term of its lease and the \$264,000 component will be partially recovered by the Port Authority from Sea-Land during that period, with the remainder to be recovered from GSA thereafter through the end of its ten-year lease term. GSA will have the right to terminate the lease during any option period on 120 days' notice to the Port Authority.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Janiszewski, Kalikow, Mack, O'Neill, Philibosian and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into agreements with the United States General Services Administration and Sea-Land Service, Inc., substantially in accordance with the terms and conditions set forth above;

the form of the agreements shall be subject to the approval of General Counsel or his authorized representative.

**ELIZABETH-PORT AUTHORITY MARINE TERMINAL - SEA-LAND SERVICE, INC.
- GENERAL OFFICE BUILDING - CONSENT TO SUBLEASE WITH U.S.
GENERAL SERVICES ADMINISTRATION (GSA) AND LEASE WITH GSA
FOR U.S. DEPARTMENT OF THE INTERIOR, FISH AND WILDLIFE
SERVICE**

It was recommended that the Board authorize the Executive Director to (1) enter into an arrangement with Sea-Land Service, Inc. ("Sea-Land") and the United States General Services Administration ("GSA"), acting on behalf of the United States Department of the Interior, Fish and Wildlife Service ("Interior"), to provide for the letting to GSA of approximately 7,216 square feet of office space in Building 1210 ("the Building") now leased by Sea-Land at the Elizabeth Port Authority Marine Terminal for an initial term of ten years with the option for GSA to extend for two additional five-year periods, with Interior to be Sea-Land's tenant under a sublease until the end of Sea-Land's lease and the Port Authority's tenant for the remainder of the letting; and (2) provide for a payment structure for the expense associated with renovating the space to GSA's specifications, estimated at \$308,300.

The term of the letting to GSA will commence on or about August 1, 1998, when it is estimated that Interior will occupy the space, and will expire on July 31, 2008 under a form of GSA Lease which will contain provisions mandated by law in United States Government leases. The rent will commence at the annual base rate of \$21.75 per square foot during the first five years of the term and at the annual base rate of \$24.75 per square foot during the second five years of the term. GSA will have the right to extend the term for two five-year periods, with the rent to be at the annual base rate of \$29.75 per square foot during the option period or periods. Sea-Land will provide full building services and maintenance, including structural repair and replacement, to GSA during Sea-Land's lease for the Building at an estimated cost of \$7.40 per square foot during the first year of GSA's letting, with this cost to be included in the rent. This component of the rent will be subject to an annual CPI adjustment during the term of the letting and for any option period or periods after the initial term. The service and maintenance obligations will be assumed by the Port Authority at the end of Sea-Land's lease for the Building. Sea-Land will perform all necessary upfitting construction prior to Interior's occupying the premises. Sea-Land will be reimbursed up to \$308,300 by the Port Authority for all costs approved by GSA. Sea-Land will pay two additional rentals, one on account of up to an estimated \$162,100 of the reimbursement and the other on account of up to an estimated \$146,200 of the reimbursement. The \$146,200 component will be fully recovered by the Port Authority from Sea-Land over the remaining term of its lease and the \$162,100 component will be partially recovered by the Port Authority from Sea-Land during that period, with the remainder to be recovered from GSA thereafter through the end of its ten-year lease term. GSA will have the right to terminate the lease during any option period on 120 days' notice to the Port Authority.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Janiszewski, Kalikow, Mack, O'Neill, Philibosian and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into agreements with the United States General Services Administration and Sea-Land Service,

Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreements shall be subject to the approval of General Counsel or his authorized representative.

BATHGATE INDUSTRIAL PARK - AVNE SYSTEMS, LTD. - LEASE SUPPLEMENT

It was recommended that the Board approve the action of the Executive Director in authorizing execution of a lease supplement (the "lease supplement") with Avne Systems, Ltd. ("Avne") which has been executed subject to Board approval and under which the Port Authority grants to Avne the right to terminate its letting of approximately 68,100 square feet of space at the Bathgate Industrial Park.

The lease supplement will allow the Port Authority to recover an appropriate termination payment which represents past and future deferred rents in addition to compensation for potential downtime of the building if Avne decides to leave the Bronx.

On December 17, 1996, Avne filed a petition in Bankruptcy Court seeking reorganization under Chapter 11 of the Federal Bankruptcy Code. Subsequent to filing, Avne was sold and the new buyer agreed to enter into a restructured lease with the Port Authority.

On September 27, 1997, Avne emerged from Chapter 11, assuming a modified lease with the Port Authority which provided for repayment of certain pre- and post-petition rental arrearages. Subsequently, the new buyer alleged financial problems and requested that its lease be modified to include a right to terminate, which the Port Authority rejected.

On January 6, 1998, Port Authority staff met with the principals of International Service Group Holdings, Inc. ("ISG") a new investor interested in purchasing Avne. As part of its proposal, ISG expressed an interest in remaining in the Bronx until August-September 1998 while it analyzed the business and the Bronx location. As a part of the plan ISG and Port Authority staff agreed to an exit strategy that would provide the Port Authority with payments that represented past and future deferred rent as well as compensation for downtime of the building if they decide to leave the Bronx.

The lease supplement provides, among other things, that Avne will have the right to terminate its lease within 183 days following written notice to the Port Authority. The notice must be given no later than the later of April 30, 1998 or one month after the statutory review period for this action by the Board has expired. Avne paid \$50,000 on February 4, 1998 for this right and will be required to pay an additional \$75,000 upon giving notice and \$60,000 upon vacating the premises. In the event of termination, Avne may also be required to make monthly payments starting October 1, 1999 ranging from \$4,000 to \$5,000 per month depending upon the rentals for the premises at that time. This proposal represents the recovery of the deferred rents and four to six months of downtime for the building. The obligations of ISG under the agreement are guaranteed by International Services Group Holdings, Inc., LLC.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Janiszewski, Kalikow, Mack, O'Neill, Philibosian and Song voting in favor, none against:

RESOLVED, that the action of the Executive Director in authorizing execution of the lease supplement with Avne Systems, Ltd. (Avne) under which the Port Authority grants Avne the right to terminate its letting of

) approximately 68,100 square feet of space at the Bathgate Industrial Park in accordance with the above-described terms and the guaranty of International Services Group Holdings, Inc., LLC, is hereby approved.

**LAGUARDIA AIRPORT - CENTRAL TERMINAL BUILDING ASBESTOS
ABATEMENT - CONTRACT LGA-110.107 - SETTLEMENT OF CLAIM**

At its meeting on April 9, 1992, the Board authorized a project for the Center Section Modernization of the Central Terminal Building at LaGuardia Airport.

On December 4, 1992, the Executive Director authorized the award of publicly advertised Contract LGA-110.107 to National Surface Cleaning, Inc. ("NSC"), the low bidder, at its bid price in the estimated total amount of \$2,298,715, an authorization for Extra Work in the amount of \$230,000 and an allowance for Net Cost Work, roughly estimated at \$250,000.

On March 10, 1994 the Director of Aviation authorized an increase in Extra Work for Contract LGA-110.107 from \$230,000 to \$430,000, an increase of \$200,000. The present total authorized amount for Contract LGA-110.107 is \$2,978,715.

NSC has submitted a claim against the Port Authority in connection with Contract LGA-110.107 in the amount of \$3,232,162.97. This claim is for additional costs alleged to have been incurred primarily because of a denial by the Port Authority of site access to NSC to perform the work as contemplated in the contract documents due to operational constraints and ongoing work of other contractors.

Thorough staff review of the claim followed and various discussions, reviews and negotiations ensued with NSC. In March 1998, it was tentatively agreed that NSC would be paid the sum of \$847,000 in settlement of the claim subject to approval of the Board.

Total authorized payments to NSC for all contract work, extra work and net cost work (excluding the proposed claim settlement of \$847,000) is forecast to be approximately \$2,978,715.

Although the Law Department has advised that there are legal defenses to this claim, the settlement nevertheless appears equitable under the circumstances.

NSC will sign a release of all claims under Contract LGA-110.107 prior to receiving the \$847,000 payment.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Janiszewski, Kalikow, Mack, O'Neill, Philibosian and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to 1) make a payment of \$847,000 to National Surface Cleaning, Inc. in full settlement of all claims against the Port Authority in connection with Contract LGA-110.107; and 2) enter into an appropriate agreement to effectuate such settlement; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**SETTLEMENT OF CLAIM - ALFRED T. HOFSTADTER v. THE PORT AUTHORITY
OF NEW YORK AND NEW JERSEY, et al.**

It was recommended that General Counsel be authorized to enter into a settlement with Alfred T. Hofstadter (plaintiff), and his attorneys, in the amount of \$600,000, in exchange for a general release and a dismissal of the lawsuit.

Mr. Hofstadter was seriously injured when he was struck by a vehicle while standing behind his disabled vehicle on the George Washington Bridge.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Haley, Janiszewski, Kalikow, Mack, O'Neill, Philibosian and Song voting in favor; none against:

RESOLVED, that General Counsel be and hereby is authorized, for and on behalf of the Port Authority, to settle the claim entitled Alfred T. Hofstadter v. The Port Authority of New York and New Jersey for \$600,000 in exchange for a general release and a dismissal of this lawsuit.

CONFIDENTIAL ITEM

This item shall not be available for public inspection until otherwise agreed to by the parties involved.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period February 1, 1998 to February 28, 1998.

Margaret R. Zoch, Comptroller

The public meeting was called to order by Chairman Eisenberg at 2:45 p.m. and ended at 2:56 p.m. The Board also met in executive session prior to the public meeting (Vice-Chairman Gargano left the meeting during this executive session). In addition, the Board held a planning meeting in executive session on May 13, 1998.

Action on Minutes

The Secretary reported that the Minutes of April 16, 1998 contained a typographical error on page 174. The last sentence of the fourth paragraph should include, after the word "is", "\$1.298 billion; together with \$300 million in Port Authority Capital the total available funds for this project cost is".

The Secretary submitted for approval Minutes of the meeting of April 30, 1998. He reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. He reported further that the time for action by the Governors of New York and New Jersey has expired.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Audit Committee

The Audit Committee reported, for information, on matters discussed in executive session at its meeting on May 28, 1998, which included discussion of internal audit matters, and the report was received.

Report of Committee on Finance

The Committee on Finance reported, for information, on action taken and matters discussed in executive session at its meeting on May 28, 1998, which included a discussion of contract matters; matters related to, or which could impact upon, the issuance, sale, resale, or redemption of Port Authority bonds, notes or other obligations; and matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with which we deal, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Capital Programs and Port Planning

The Committee on Capital Programs and Port Planning reported, for information, on matters discussed in executive session at its meeting on May 28, 1998, which included a discussion of matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with which we deal, and the report was received.

(Board – 5/28/98)

Report of Committee on Operations

The Committee on Operations reported, for information, on matters discussed in executive session at its meeting on May 28, 1998, which included a discussion of contract matters and matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with which we deal, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Construction

The Committee on Construction reported, for information, on matters discussed in executive session at its meeting on May 28, 1998, which included a discussion of contract matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Staff Report

Presentations were made by staff on Terminal One at John F. Kennedy International Airport and a pavement project at the Outerbridge Crossing.

**NEWARK INTERNATIONAL AIRPORT - EVA AIRWAYS CORPORATION - CARGO
BUILDING 156 - LEASE ANA-721 - SURRENDER AGREEMENT**

It was recommended that the Board authorize the Executive Director to enter into a surrender agreement with EVA Airways Corporation ("EVA") at Newark International Airport for the surrender of its premises in Cargo Building 156 effective June 30, 1998. This would enable EVA to relocate its premises at the Airport for the operation of an all-freighter service business at the Airis International Air Cargo Center ("Building 360") which can accommodate this new service.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a surrender agreement with EVA Airways Corporation, substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**NEWARK INTERNATIONAL AIRPORT - UNITED AIR LINES, INC. - HANGAR 14,
EXTENSION OF LEASE AN-896**

It was recommended that the Board authorize the Executive Director to enter into a supplemental agreement with United Air Lines, Inc. (UAL) at Newark International Airport which agreement would extend the term of the UAL lease for Hangar 14 for 20 years commencing April 1, 1998 and expiring March 31, 2018. The supplemental agreement would also provide for the construction by UAL of a new cargo building and a new general service equipment facility on the premises and also for certain renovation work by UAL of Hangar 14. To accommodate UAL's plans, the supplement would also provide for the addition of approximately 1/2 acre to the premises under the lease.

Under the supplement, the Port Authority would provide construction payments for UAL's cost of construction in an amount not to exceed \$15 million, which would be the basis for an additional, financially self-sustaining rental.

The supplement would also include payment by UAL of building rent for the Hangar and land rent subject to annual escalation, and the Airport Services Factor adjusted annually in accordance with the lease.

Under the supplement, UAL will be required to commit to make good faith efforts to reach goals of 17 percent M/WBE participation in purchasing, subcontracting and services associated with construction in the premises under the lease.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with United Air Lines, Inc., amendatory and supplementary to its hangar lease at Newark International Airport, substantially in accordance with the terms and conditions set forth above; the form of said agreement shall be subject to the approval of General Counsel or his authorized representative.

THE WORLD TRADE CENTER - EXCLUSIVE REAL ESTATE BROKERAGE SERVICES - AGREEMENT WITH INSIGNIA/ESG, INC.

It was recommended that the Board authorize the Executive Director to enter into an agreement (which may be incorporated as an amendment to an existing agreement) with Insignia/ESG, Inc. ("ESG"), appointing it as an agent of the Port Authority for the specific purpose of engaging in negotiations with Dean Witter Reynolds Inc. ("Dean Witter"), in connection with an early renewal and restructuring of Dean Witter's lease of space in Two World Trade Center ("WTC"), to be compensated as outlined to the Board in the event such negotiations result in a lease renewal.

Discussions with Dean Witter regarding a renewal of its leasehold at Two WTC have reached an impasse. The retention of ESG as special agent would allow these discussions to continue and could result in a lease renewal with the largest tenant at the WTC and resolution of certain legal matters. The agreement with ESG will be in effect for a period expiring on June 30, 1999, with the Port Authority having the option to extend the agreement for two additional six-month periods.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Kalikow, Lewis, O'Neill, Schweitzer and Song voting in favor; Commissioner Philibosian abstaining; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Insignia/ESG, Inc. for the provision of exclusive real estate brokerage services in accordance with the terms outlined above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

THE WORLD TRADE CENTER - OHRENSTEIN & BROWN, LLP - NEW LEASE

It was recommended that the Board authorize the Executive Director to enter into a lease agreement with Ohrenstein & Brown, LLP (O&B), upon the terms outlined below or on such other terms as the Executive Director deems appropriate, provided that if the term of the letting or the gross effective rent is not substantially in accordance with that outlined to the Board, the terms of the lease agreement will be subject to the approval of the Committee on Operations. It was also recommended that the Board authorize the Executive Director to enter into a brokerage agreement with Parker Madison Partners, Inc., in connection with the lease agreement, providing for the payment of a commission not exceeding an amount calculated in accordance with the rates authorized by the Board at its meeting of August 11, 1977.

The proposed lease covers approximately 33,000 rentable square feet of office space on the eighty-fifth floor of One World Trade Center for a term of approximately 15 years and eleven months commencing on or about September 1, 1998, at an aggregate basic rental over the full term of approximately \$18 million in addition to operating and maintenance cost escalation and increases in payments in lieu of taxes as provided in the lease agreement. O&B will have assignment, subleasing, expansion and renewal rights as set forth in the lease.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Ohrenstein & Brown, LLP, substantially in accordance with the terms outlined above, or on such other terms as the Executive Director deems appropriate subject to the conditions set forth in the following delegation; and a brokerage agreement with Parker Madison Partners, Inc., substantially in accordance with the terms outlined above, the form of the agreement in each case shall be subject to the approval of General Counsel or his authorized representative; and it is further

RESOLVED, that the Committee on Operations be and it hereby is authorized to approve the final terms and conditions of the lease agreement in the event that the gross effective rent or the term of the letting is not substantially in accordance with that outlined above.

THE WORLD TRADE CENTER - HOKKAIDO TAKUSHOKU BANK, LTD. - LEASE SURRENDER

It was recommended that the Board authorize the Executive Director to enter into a surrender agreement with Hokkaido Takushoku Bank, Ltd. ("Hokkaido") providing for the surrender of Hokkaido's One World Trade Center premises consisting of approximately 4,000 rentable square feet of space, effective March 31, 1998, for a total consideration to the Port Authority in the amount of approximately \$89,000.

Hokkaido, a Japanese bank, has ceased all operations. Hokkaido's lease, scheduled to expire on November 30, 2000, has a present value of approximately \$250,000 for the period April 1, 1998 through November 30, 2000. The surrender amount consists of a payment by Hokkaido to the Port Authority of \$50,274 (six months' rent) and a waiver by Hokkaido of payment by the Port Authority of \$38,670 that Hokkaido was entitled to receive as a construction allowance. Hokkaido has already vacated its premises in finished condition and will not have any restoration obligation.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a surrender agreement with Hokkaido Takushoku Bank, Ltd., substantially in accordance with the terms and conditions set forth above; the form of such surrender agreement shall be subject to the approval of General Counsel or his authorized representative.

**THE WORLD TRADE CENTER - KANKAKU SECURITIES (AMERICA) INC. -
LEASE SURRENDER**

It was recommended that the Board authorize the Executive Director to enter into a surrender agreement with Kankaku Securities (America) Inc. ("Kankaku") providing for the surrender of Kankaku's One World Trade Center premises consisting of approximately 9,500 rentable square feet of space, effective June 30, 1998, for a payment to the Port Authority in the amount of approximately \$1 million.

Kankaku, a Japanese securities firm, will cease all operations in the United States by June 30, 1998. Kankaku's lease, scheduled to expire on August 25, 2006, provides for a termination right, effective August 25, 2001, conditioned upon payment to the Port Authority of \$510,300. Kankaku's rental obligation through August 25, 2001, combined with the fixed termination buy-out payment, has a present value of approximately \$1.35 million. A surrender payment in the amount of \$1 million has been negotiated, representing the amount of the termination buy-out payment and more than 50 percent of the rental obligation. Kankaku will not have a restoration obligation.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a surrender agreement with Kankaku Securities (America) Inc., substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that the Chairman of the Board of Commissioners, the Chairman of the Operations Committee or the Vice-Chairman of the Operations Committee be delegated the authority to approve the final terms and conditions of the surrender agreement in the event they are not substantially in accordance with the terms and conditions outlined above; and it is further

RESOLVED, that the form of the surrender agreement shall be subject to the approval of General Counsel or his authorized representative.

PORT AUTHORITY INDUSTRIAL PARK AT YONKERS - KAWASAKI RAIL CAR, INC. - LEASE SUPPLEMENT

It was recommended that the Board authorize the Executive Director to enter into a supplemental lease agreement with Kawasaki Rail Car, Inc. ("Kawasaki") covering the expansion of its current space at the Port Authority Industrial Park at Yonkers substantially in accordance with the terms and conditions outlined below.

The proposed supplemental lease agreement will provide for the letting of approximately 8,200 additional rentable square feet for a period expiring on May 31, 1999. Kawasaki will pay an aggregate basic rental for the added space over the two-year term of approximately \$131,000. Payments in lieu of taxes (PILOTS) and common operating and maintenance expenses are included in the rent.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a supplemental lease agreement with Kawasaki Rail Car, Inc. covering the letting of approximately 8,200 rentable square feet of expansion space at the Port Authority Industrial Park at Yonkers, substantially in accordance with the terms outlined above; the form of such supplemental lease agreement shall be subject to the approval of General Counsel or his authorized representative.

CONSTRUCTION OF OFFICE SPACE AND TRAINING FACILITIES AT PORT AUTHORITY TECHNICAL CENTER (PATC) FOR PUBLIC SAFETY DEPARTMENT AND PORT AUTHORITY POLICE HEADQUARTERS - PROJECT AUTHORIZATION

The Public Safety Department's management staff currently occupies the 2nd and 3rd floors of the Journal Square Transportation Center ("JSTC"), portions of the 2nd and 3rd floors of the Port Authority Technical Center ("PATC", a privately-owned building in which the Port Authority leases space), and an office on the 84th floor of One World Trade Center. During the past few years, the Public Safety Department ("Department") has been searching for a location to consolidate headquarters staff, the Police Academy and the facility units to provide greater efficiency, promote improved communications and provide for the future needs of the Port Authority police force.

Several locations were identified to accommodate the needs of the Department including vacant floors at JSTC, a vacant warehouse structure at Port Newark, and PATC. A careful assessment of the costs and feasibility associated with each of these locations resulted in the selection of PATC as the best overall location.

Under the proposed project, current Port Authority units occupying the 3rd floor of PATC (Risk Management, Maintenance Engineering and Design Division, Central Surveys, Reproduction) would be relocated to locations on the 2nd floor of PATC and elsewhere and new office and training accommodations for the Department would be constructed on the 3rd floor of PATC, which already contains the Police Firearms Training Center.

The relocation of Department staff from JSTC and The World Trade Center to PATC will provide two full floors of rentable space at JSTC along with a number of vacated parking spaces in the Public Parking Garage currently required for police use under agreements with various police unions, as well as one large tenant area on the 84th floor of One World Trade Center. In addition, the consolidation of the Department's Headquarters on the 3rd floor of PATC will provide the necessary space to construct dormitory facilities for the Police Academy's new In-Residency Training Program and reserve space necessary for the implementation of a New Jersey-based Emergency Operations Center for the Port Authority as part of a Business Resumption Planning initiative. Construction is planned to commence in June 1998 and to be completed by December 1998.

The terms of the Port Authority's PATC lease provide that the construction must be performed by Trends Urban Renewal Associates, the Landlord, at a cost agreed upon by the Port Authority.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that a project for the construction of office space and training facilities at the Port Authority Technical Center (PATC) for the Public Safety Department and Port Authority Police Headquarters at a total estimated project cost of \$13.8 million including payments to the contractor,

allowances for extra work (if necessary) and net cost work, engineering, administrative and financial expenses, and a project contingency, be and the same is hereby authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a contract with Trends Urban Renewal Associates (the PATC Landlord) for the construction of classrooms, office space, police recruit dormitories, and employee shower and locker rooms, in connection with the relocation of the Public Safety Department's offices from the Journal Square Transportation Center and The World Trade Center to the Port Authority Technical Center, Jersey City, New Jersey at a total estimated cost of \$11,645,000; the form of the contract shall be subject to the approval of General Counsel or his authorized representative.

NEW YORK STATE LINKED DEPOSIT PROGRAM - PORT AUTHORITY PARTICIPATION

It was recommended that the Board authorize the Executive Director to: (1) make available up to an additional \$8,000,000 to support loans for Port Authority certified minority, women-owned and small businesses; (2) enter into agreements with Empire State Development, the New York State Department of Taxation and Finance and/or other appropriate public entities in connection with the New York State Linked Deposit Program ("LDP") (the Port Authority shall not make, guarantee or collateralize any loan and a default by the borrower on a LDP loan will in no way affect the linked deposit agreement between the LDP and the Port Authority); and (3) enter into agreements with financial institutions as appropriate.

In 1996, the Board authorized participation in a separate program for up to \$2,000,000 to support loans only available for Port Authority certified minority, women-owned and small businesses that are awarded Port Authority contracts. This program for \$8,000,000 is similar to, although distinct from, the earlier program in that these funds are not restricted to businesses awarded Port Authority contracts.

The LDP, managed by Empire State Development, was established by the New York State Legislature to encourage and assist small businesses within New York State to enable them to gain access to affordable capital, make investments in their business, and undertake projects that will contribute to improving their productivity, performance and competitiveness. Since 1994, the LDP has assisted 418 firms, resulting in the creation of 3,868 new jobs and the retention of 10,040 jobs in New York State. Based on the size of the contracts and contract awards, it is projected that each loan would be in the range of \$200,000 - \$250,000 (with a maximum loan amount of \$500,000) and not be outstanding for more than two years.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Kalikow, Lewis, O'Neill, Philiposian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to: (1) make available up to an additional \$8,000,000 to support loans for Port Authority certified minority, women-owned and small businesses in connection with the New York State Linked Deposit Program ("LDP"); (2) enter into agreements with Empire State Development, the New York State Department of Taxation and Finance and/or other appropriate public entities in connection with the LDP (the Port Authority shall not make, guarantee or collateralize any loan and a default by the borrower on a LDP loan will in no way affect the linked deposit agreement between the LDP and the Port Authority); and (3) enter into agreements with financial institutions as appropriate; in each case, the form of such agreements shall be subject to the approval of General Counsel or his authorized representative.

SETTLEMENT OF CLAIM - PUBLIC SAFETY DEPARTMENT COMPUTERIZED ARREST PROCESSING SYSTEM (CAPS) - NORTH WINDS, INC. AND RANDOLPH KROFICK

In 1992-93, staff decided to pursue the development of a computerized system to expedite the completion of the various forms required to process an arrest. Because some information, such as the name of the arrestee, is the same on each of the several forms required for a single arrest, staff hoped that a computerized system could speed the completion of arrest forms, thereby creating substantial savings in police staff costs.

In December 1993, following a publicly advertised Request For Proposals process, the Port Authority entered into an agreement with North Winds Partnership ("North Winds") to provide for the development and installation of a computerized arrest processing system; North Winds, Inc. and Randolph Krofick are the successors to North Winds Partnership. The development and installation were to be done in two phases. In the first phase, North Winds would develop, install, and test a pilot system at Newark International Airport ("EWR"), and in the second phase, North Winds would expand the system to Port Authority police commands at New York facilities. The total amount of the original agreement was \$644,764. In 1997, the Port Authority requested extra work to be done at the end of Phase I and before Phase II at an additional cost of \$89,000, for a total anticipated contract cost of \$733,764.

Total payments to North Winds to date under the agreement are \$423,501.86. Beside the contract costs, staff originally estimated incurring recurring costs of approximately \$200,000 annually for the support and administration of the Computerized Arrest Processing System ("CAPS") project. At this time, staff estimates that completion of the CAPS project would take at least two to three more years. Further, during Phase I of the CAPS project, staff determined that the system was more complex than anticipated and would not provide the anticipated net savings in the time it takes to process arrests. Also, staff learned that maintenance of the system would be more costly than originally anticipated. Staff now estimates that administrative costs after completion of the development and installation would be at least \$250,000 annually in complementary software licensing fees, hardware maintenance, and Port Authority staff costs. Staff, therefore, decided that the CAPS project should be ended because it would not provide operational improvements sufficient to warrant the increased costs, and on August 25, 1997, staff informed North Winds, Inc. by letter that the Port Authority had elected not to pursue Phase II of the CAPS project.

North Winds, Inc. and its President, Randolph Krofick, have submitted a claim against the Port Authority for \$306,257.30 for profits it anticipated would have been earned had the Port Authority not ended the agreement and for extra work. Thorough staff review of the claim followed and various discussions, reviews, and negotiations ensued with North Winds, Inc. and Mr. Krofick after which it was tentatively agreed that the Port Authority would pay North Winds, Inc. and Mr. Krofick \$225,000 in settlement of all claims, subject to Board approval. This settlement is considered fair and reasonable to the contractor and the Port Authority. Total payments under the contract, including the settlement, would total \$648,501.86.

The hardware equipment that had been purchased in Phase I comprises eleven personal computers and four printers. This equipment is being used at the EWR police desk and for police administrative functions.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to a) make a payment of \$225,000 to North Winds, Inc. and Randolph Krofick, in full settlement of a claim against the Port Authority for terminating its agreement with North Winds, Inc. and Mr. Krofick for the development of a Computerized Arrest Processing System and for compensation for extra work; and b) enter into appropriate agreements to effectuate the settlement of the claim, the form of the agreements shall be subject to the approval of General Counsel or his authorized representative.

- (A) Lump Sum
- (B) Classified Work
- (C) Net Cost - amount in the "Total Authorized" column represents the estimated net cost amount. However, the amount in the "Total Payment" column is the authorized net cost amount.
- (D) Extra Work
- (E) Memorandum of Authorization dated 08/17/95, increasing extra work in the amount of \$250.00.
- (F) The difference between "Total Authorized" and "Total Payments" represents credit change orders in the amount of \$144,113 for deleted work.
- (G) Memorandum of Justification dated 10/27/93, increasing net cost work in the amount of \$900,000.
- (H) Memorandum of Justification dated 02/28/95, increasing net cost work in the amount of \$875,000.
- (I) Premium for furnishing performance and payment bond as provided for in the Contract.
- (J) The difference between "Total Authorized" and "Total Payments" represents a credit change order in the amount of \$19,000 for deleted work and a deduction from compensation in the amount of \$328,932 for deficiencies in asphalt pavement density.
- (K) Memorandum of Justification dated 02/03/97, increasing extra work in the amount of \$44,000.

- (L) The difference between "Total Authorized" and "Total Payments" represents a deduction from compensation in the amount of \$20,289 for deficiencies in asphalt pavement density.
- (M) Per AP 45-1.01.5, classified work may exceed authorization amount limited to 10%, or \$250,000 (whichever is less) without further authorization.
- (N) Per AP 45-1.01.5, uncommitted funds in extra work are permitted to be utilized against additional cost in classified work not covered under (M).
- (O) Memorandum of Justification dated 10/07/96, increasing extra work in the amount of \$53,000.
- (P) The difference between "Total Authorized" and "Total Payments" represents a credit change order in the amount of \$3,600 for a reduction in the scope of work.
- (Q) Memorandum of Authorization dated 06/21/96, increasing net cost work in the amount of \$25,000.
- (R) Memorandum of Authorization dated 09/25/95, increasing classified work in the amount of \$128,000.
- (S) Memorandum of Authorization dated 09/25/95, increasing extra work in the amount of \$122,000.
- (T) The Port Authority elected to cancel the Contract prior to the performance of any work and will determine an alternate method to accomplish the work.
- (U) Memorandum of Justification dated 03/01/95, authorizing Supplemental Agreement No. 1 in the amount of \$221,400 for lump sum work.
- (V) Memorandum of Justification dated 03/01/95, authorizing Supplemental Agreement No. 1 in the amount of \$126,000 for classified work.
- (W) Memorandum of Authorization dated 10/07/96, authorizing Supplemental Agreement No. 2 in the amount of \$167,000.
- (X) Contract mutually terminated prior to completion of work.

MINUTES OF SPECIAL BOARD MEETING

Thursday, June 11, 1998

	Page
Hoboken South Waterfront Development - Approval of Expenditures Relating to the Development of Hoboken South Waterfront Block "A"	317

MINUTES of a special meeting of The Port Authority of New York and New Jersey held Thursday, June 11, 1998, at One World Trade Center, City, County and State of New York.

PRESENT:

NEW JERSEY

Hon. Lewis M. Eisenberg, Chairman
Hon. Kathleen A. Donovan
Hon. Aubrey C. Lewis
Hon. Alan G. Philibosian

Robert E. Boyle, Executive Director
Jeffrey S. Green, General Counsel
Daniel D. Bergstein, Secretary

Lillian C. Borrone, Director, Port Commerce
Karen E. Eastman, Assistant Secretary
Christopher O. Ward, Chief, Corporate Planning and External Affairs

NEW YORK

Hon. Charles A. Gargano, Vice-Chairman
Hon. Peter S. Kalikow
Hon. George D. O'Neill
Hon. Melvin L. Schweitzer
Hon. Anastasia M. Song

The Secretary reported that the meeting was duly called in accordance with the By-Laws.

The meeting was called to order in executive session by the Chairman at 12:05 p.m. and ended at 12:17 p.m.

HOBOKEN SOUTH WATERFRONT DEVELOPMENT - APPROVAL OF EXPENDITURES RELATING TO THE DEVELOPMENT OF HOBOKEN SOUTH WATERFRONT BLOCK "A"

It was recommended that the Board authorize the Committee on Operations to authorize the Executive Director to provide an amount (the Additional Port Authority Investment), in addition to the \$75 million currently authorized for the Hoboken South Waterfront Development Project (the "Project"), which will assure adequate public parking for the Block A portion of the Project and will also assure continuation of public parking in the immediate vicinity of the Hoboken PATH Station. It was also recommended, at the request of the City of Hoboken (the "City"), that the Board authorize the Committee on Operations to authorize, subject to the prior execution by the City, the Port Authority and SJP Properties, of a pre-development agreement with agreed upon forms of lease attached as exhibits thereto, the Executive Director to accelerate a payment (the "Additional Payment") to the City which is provided for in the Municipal Development Agreement ("MDA") between the City and the Port Authority, but would otherwise not be due under the MDA until a lease or lease agreements for all of Block "A" have been entered into.

The pre-development agreement shall contain provisions to (i) make non-refundable SJP's entire \$750,000 deposit; (ii) require SJP to provide a least 490 parking spaces to tenants of Block "A" and (iii) provide an appropriate indemnity to the City and the Port Authority for its right of entry during the pre-development period.

On July 13, 1995, the Board authorized the Port Authority's participation in the Project and the execution of the MDA with the City. The Board further authorized the Executive Director to expend up to \$75 million in land payments and infrastructure costs for the Project, with such expenditures to be recovered in the form of ground lease payments from private sector developers. The additional Port Authority Investment will be allocated against the Port Authority's \$125 million commitment to waterfront development in New Jersey.

On November 6, 1996, the City, the Port Authority and SJP Properties ("SJP"), the designated developer of Block A, executed a Pre-Development Agreement for the development of 1.1 million square feet of commercial space on Block "A".

The provision of the Additional Port Authority Investment is necessitated by the need for more off-site parking than was envisioned and at a greater cost and by the desirability of assuring continuation of public parking in the immediate vicinity of the Hoboken PATH Station. This payment will be required when, and only if, SJP closes on the ground lease for the Block "A" building(s) and will be recovered from increased ground rents and other payments to the Port Authority. The developer is purchasing a garage adjacent to Block "A" from the City of Hoboken Parking Authority. SJP and the City have agreed that the deed covering the sale of Garage B to SJP will contain appropriate provisions restricting future use of the Garage B site to public parking. The provision of the Additional Port Authority Investment will not serve to restrict SJP's ability to design, build, operate or market the Block A development.

The acceleration of the "Additional Payment" to the City (which completes payments in connection with Port Authority property purchases) is at the request of the City. At the time of execution of the initial Pre-Development Agreement with SJP in November 1996, it was the

expectation of the City that the milestone for this payment would have been met: however, it has not been met.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Eisenberg, Gargano, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Song voting in favor; Commissioner Donovan abstaining; none against:

RESOLVED, that the Committee on Operations be and it hereby is authorized to authorize the Executive Director, for and on behalf of the Port Authority, to (i) provide an amount (the Additional Port Authority Investment) at the time of a closing on a lease agreement among the City of Hoboken, the Port Authority and SJP Properties with respect to Hoboken South Waterfront Block A, the Additional Port Authority Investment to be used to assure the provision of the off-site parking as described above and to be recovered from ground rents and other payments to the Port Authority; and (ii) accelerate, subject to the prior execution by the City, the Port Authority and SJP Properties, of a pre-development agreement containing the provisions described above with agreed upon forms of lease attached as exhibits thereto, the Additional Payment provided for in the Municipal Development Agreement between the City of Hoboken and the Port Authority as described above; and it is further

RESOLVED, that the Committee on Operations be and it hereby is authorized to authorize the Executive Director, for and on behalf of the Port Authority, to take such actions and enter into such agreements as may be necessary or desirable, including arranging for the acquisition by the Port Authority of any interest in real property, to effectuate the Additional Port Authority Investment and to accelerate the Additional Payment; the form of such agreements shall be subject to the approval of General Counsel or his authorized representative.

Whereupon, the meeting was adjourned.

Secretary

Special, Interim Meeting of the Committee on Operations	319

(Board – 6/25/98)

Special, Interim Meeting of the Committee on Operations

In view of the likelihood that there would be no quorum for the Board meeting scheduled for June 25, 1998, the Board and Committee meetings (other than that of the Committee on Operations) were cancelled. Pursuant to the notice for the June 25, 1998, Board meeting sent to all Commissioners, and consistent with the Board's resolution of December 15, 1994, a special, interim meeting of the Committee on Operations was held. At the meeting, the Committee acted for and on behalf of the Board on certain contract and lease items included in the agenda for the cancelled Board meeting, in light of the need for timely action with respect thereto. A copy of the minutes of the special, interim meeting of the Committee on Operations, held on June 25, 1998, is included with these minutes.

PRESENT:

Hon. Lewis M. Eisenberg
Hon. George D. O'Neill
Hon. Melvin L. Schweitzer
Committee Members

Robert E. Boyle, Executive Director
Jeffrey S. Green, General Counsel
Karen E. Eastman, Assistant Secretary
Lillian C. Borrone, Director, Port Commerce

In view of the likelihood that there would be no quorum for the Board meeting scheduled for Thursday, June 25, 1998, the Board and Committee meetings (other than the Committee on Operations) were cancelled. The Assistant Secretary reported that, pursuant to the notice for the June 25, 1998, Board meeting sent to all Commissioners, and consistent with the Board's resolution of December 15, 1994, a special, interim meeting of the Committee on Operations was called to permit the Committee to act for and on behalf of the Board on certain contract and lease items included in the agenda for the cancelled Board meeting, in light of the need for timely action with respect thereto.

The meeting was called to order in executive session by the Chairman of the Port Authority at 11:05 a.m. and ended at 11:10 a.m.

NEWARK INTERNATIONAL AIRPORT - TERMINALS A AND B - LEASE AGREEMENT WITH BAA NEWARK, INC. FOR THE DEVELOPMENT AND SUBLEASING OF RETAIL SPACE

It was recommended that the Board authorize the Executive Director to enter into an approximately fifteen-year lease with BAA Newark, Inc. ("BAA") for the design, construction, subleasing and management of certain retail areas in Terminals A and B at Newark International Airport. Such lease would become effective only when the lessee airlines in Terminals A and B execute supplements to their leases relinquishing certain space on the concourse level which will constitute a portion of the space being leased to BAA, and the lease would expire on December 31, 2013. The leased premises approximate 95,000 square feet (which includes space under existing retail agreements which will be assigned to BAA) and the lease provides mechanisms and circumstances for other retail space to be added or removed during the lease term.

The Port Authority will have the right to terminate the lease without cause at any time upon thirty (30) days' written notice and, in such event, it would be obligated to reimburse BAA its unamortized capital investment up to \$10 million and if the Port Authority does not assume BAA's subleases, the Port Authority would additionally be responsible for subtenants' unamortized capital investment up to \$10 million. If the Port Authority revokes its consent to subleases without cause, the Port Authority will allow BAA to deduct, through the pass-through mechanism used to calculate net project income ("NPI"), an amount which represents subtenants' unamortized capital investment, up to \$10 million (the same single \$10 million aggregate applicable to subleases upon termination by the Port Authority without cause).

BAA may terminate the lease without cause after the expiration of the third lease year upon at least eighteen months' prior written notice, in which event BAA shall pay to the Port Authority any shortfall in its required minimum capital investment and the Port Authority shall not be obligated to pay BAA for any portion of its unamortized capital investment.

The lease provides for BAA to pay base and variable rentals. The base rental is a minimum annual guarantee equal to \$0.65 per enplaning passenger, which will be reduced proportionately if enplanements at Terminals A and B decline from their 1997 levels. The variable rental will be paid when greater than the base rental and will be based on NPI, which is gross revenues less certain agreed-upon pass-through items which include interest and other finance charges, utility charges, common area maintenance charges, distribution charges and promotion fees, with certain limitations being placed on each of these items. The variable rental payable to the Port Authority will equal 66 percent of NPI up to \$9 million and 85 percent of NPI over \$9 million, with such \$9 million being periodically adjusted by the Consumer Price Index in accordance with the lease.

In addition, if BAA achieves a 65 percent rating on Port Authority-sponsored customer service surveys, it will be entitled to a credit of 0.5 percent of NPI for every 1 percent customer satisfaction improvement over 65 percent as indicated by such surveys, with a 10 percent credit cap. BAA's share, however, will be decreased by an amount equal to 0.5 percent of NPI for each 1 percent shortfall from the highest customer satisfaction rating previously achieved by BAA, except that this decrease shall not apply (1) if the rating in the

relevant lease year exceeds 65 percent or (2) unless the rating shortfall in the relevant lease year exceeds 6 percent. Credits and decreases will not be calculated before the second lease year and this mechanism of incentives and disincentives may be eliminated under certain circumstances.

BAA would be obligated to make a required minimum capital investment of \$7 million. BAA would be obligated to require its subtenants to make minimum capital investments based on their type of retail activity and the size of their subleased premises.

Pursuant to the foregoing report, the Committee on Operations, acting for and on behalf of the Board pursuant to delegated authority, adopted the following resolution in executive session with Commissioners Eisenberg, O'Neill and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with BAA Newark, Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

LAGUARDIA AIRPORT - DOBBS INTERNATIONAL SERVICES, INC. - INFLIGHT MEAL KITCHEN LEASE AGA-475

It was recommended that the Board authorize the Executive Director to enter into a Lease with Dobbs International Services, Inc. ("Dobbs") covering the use and occupancy of the approximately 45,000 square-foot Inflight Meal Kitchen building and related outside areas located on an approximately three-acre site at the west end of LaGuardia Airport (the "Airport") for a ten-year fixed term commencing on or about July 15, 1998, with an option by Dobbs to extend the Lease for an additional term of approximately seven and one-half years.

Under the Lease, Dobbs will prepare in-flight meals for delivery to aircraft operators at the Airport. Dobbs will also be permitted, as an incidental use, to prepare and deliver meals for non-aviation, off-airport purposes.

The Lease will allow Dobbs at its election and expense to perform renovation and construction work to the inflight meal kitchen premises. Dobbs' costs for such work during the first two years of the Lease would be credited against the basic rental payable under the Lease during the first five years of the term, subject to a total rental credit of \$1 million, and also subject to recalculation and adjustment of the amount of said rental credits in the event the Lease is terminated prior to the expiration of the original ten-year term.

In addition to a basic rental which would be increased annually by the Consumer Price Index with an annual cap of 3 percent, Dobbs will also pay a percentage rental under the Lease. Payments of monthly installments of the basic rental in the first year would be deferred until Dobbs submits its first statement of its construction costs within the first year.

Dobbs would be responsible for the operation and maintenance of the premises.

Under the Lease, Dobbs will be required to commit to make good faith efforts to reach goals of 17 percent total participation by minority and women-owned business enterprises, of which 12 percent would be by minority-owned business enterprises, in purchasing, subcontracting and services associated with the construction or renovation of the premises.

Pursuant to the foregoing report, the Committee on Operations, acting for and on behalf of the Board pursuant to delegated authority, adopted the following resolution in executive session with Commissioners Eisenberg, O'Neill and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement of lease with Dobbs International Services, Inc. at LaGuardia Airport, substantially in accordance with the terms and conditions set forth above; the form of said agreement shall be subject to the approval of General Counsel or his authorized representative.

NEW YORK AIRPORT ACCESS PROGRAM - AUTHORIZATION TO LEASE AND RENOVATE SPACE FOR JAMAICA OUTREACH PROGRAM FIELD OFFICE

It was recommended that the Board authorize the Executive Director to (i) enter into a lease agreement with 92-18 149th Street Realty Corp. for a term of approximately four years at a basic aggregate rental for the initial four-year term of approximately \$221,000, with three one-year options, covering the letting of approximately 9,900 square feet of office and storefront space in Jamaica, New York, to establish a Community Outreach Center and Project Field Office for the New York Airport Access Program in the community impacted by the construction of the Light Rail System (“LRS”) between Jamaica and John F. Kennedy International Airport (“JFK”), and (ii) solicit bids for Contract CA39-274.400 JFK-LRS - Field Office Renovation, for the renovation of the office space located at 148-15 Archer Avenue, consisting of approximately 3,500 square feet on the first floor and up to 6,400 square feet on the second floor in "as-is" condition, at a total estimated cost of \$912,000 and to (a) award the contract to the lowest bidder qualified by reason of responsibility, experience and capacity and whose bid price the Executive Director deems reasonable; (b) reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors; (c) execute contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority; (d) order extra work and net cost work in connection with the contract, including supplemental agreements thereto; and (e) enter into such other agreements as may be necessary to effectuate the project.

Based on recent designs and construction of projects similar to the JFK Light Rail System in various parts of the nation, it has become evident that project mitigation strategies such as community outreach programs are essential. The Field Office project is consistent with the Port Authority's efforts to provide the local community with information regarding the LRS and opportunities for local business participation and economic development.

Pursuant to the foregoing report, the Committee on Operations, acting for and on behalf of the Board pursuant to delegated authority, adopted the following resolution in executive session with Commissioners Eisenberg, O'Neill and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with 92-18 149th Street Realty Corp., substantially in accordance with the terms outlined or referred to above; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to solicit bids for Contract CA39-274.400 JFK-LRS - Field Office Renovation, for the renovation of the office space located at 148-15 Archer Avenue consisting of approximately 3,500 square feet on the first floor and up to 6,400 square feet on the second floor in "as-is" condition, and to (a) award the contract to the lowest bidder qualified by reason of responsibility, experience and capacity and whose bid price the Executive Director deems reasonable; (b) reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors; (c) execute contracts and supplemental

(Operations – 6/25/98)

agreements with such bidders or contractors as he deems in the best interest of the Port Authority; (d) order extra work and net cost work in connection with the contract, including supplemental agreements thereto; and (e) enter into such other agreements as may be necessary to effectuate the project; and it is further

RESOLVED, that all documents which may be required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

LINCOLN TUNNEL - SALE OF LAND TO 42ND STREET DEVELOPMENT CORPORATION

It was recommended that the Board declare as surplus and authorize the Executive Director, on behalf of the Port Authority, to convey to the 42nd Street Development Corporation (FSDC) in its "as is" condition approximately 12,488 square feet of unimproved land on the northeast corner of Dyer Avenue and West 41st Street in Manhattan, such land being further described as a portion of Lot 29, Block 1051 in New York County, with final terms to be subject to the approval of the Chairman. The sale price of the property would be \$1.5 million upon closing plus a sharing of the proceeds for the air rights development, to be negotiated with the FSDC. FSDC will have a maximum of twelve months to complete the air rights transaction. If the air rights transaction is not completed within twelve months, the Port Authority will have the option to return the \$1.5 million to FSDC and the ownership of the property will revert back to the Port Authority.

The purchaser will release the Port Authority from all obligations with respect to the environmental condition of the property. In addition, the purchaser will release, hold harmless, defend, and indemnify the Port Authority from and against any environmental claims.

It was reported that the property to be sold is no longer required either for the purpose for which it was acquired or for any other Port Authority purpose, and that its sale would enable the Port Authority to reduce future expenditures and operating costs at the site, while serving as a catalyst for the development of the area west of Ninth Avenue in the vicinity of 42nd Street in Manhattan.

Pursuant to the foregoing report, the Committee on Operations, acting for and on behalf of the Board pursuant to delegated authority, adopted the following resolution in executive session with Commissioners Eisenberg, O'Neill and Schweitzer voting in favor; none against:

RESOLVED, that it is hereby found and determined, effective upon delivery of the deed, that the real property described below, being located on the northeast corner of Dyer Avenue and West 41st Street in Manhattan is no longer required for the purpose for which it was acquired:

All that certain lot, piece or parcel of land in the Borough of Manhattan, City, County and State of New York, bounded and described as follows:

BEGINNING at a point in the easterly line of Dyer Avenue, a private street under the jurisdiction of the Port Authority of New York and New Jersey, said point being distant 325 feet 0 inches westerly as measured at right angles from the westerly line of Ninth Avenue and 98 feet 9 inches southerly as measured at right angles from the southerly line of West 42nd Street, and running:

1. Easterly and parallel with the southerly line of West 42nd Street 225 feet 0 inches to a point; thence

2. Southerly and parallel with the easterly line of Dyer Avenue 55 feet 6 inches to a point on the northerly line of West 41st Street; thence

3. Westerly along the northerly line of West 41st Street 225 feet 0 inches to a point on the easterly line of Dyer Avenue; thence

4. Northerly along the easterly line of Dyer Avenue 55 feet 6 inches to the point and place of BEGINNING; and it is further

RESOLVED, that (a) a map of the property be prepared; and (b) at the appropriate time, at the request of General Counsel or his authorized representative, the Chief Engineer will execute a certificate to be annexed to said map stating that the real property shown on said map is no longer required for the purpose for which it was acquired, such map to be filed in the Office of the Secretary of the Port Authority; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized in his discretion, for and on behalf of the Port Authority, to sell property in its "as is" condition to the 42nd Street Development Corporation, in accordance with the terms outlined or referred to above, with the final terms to be subject to the approval of the Chairman, and to do all other things necessary or appropriate in furtherance thereof; and it is further

RESOLVED, that the Executive Director is authorized in his discretion to convey property with different metes and bounds, provided the location and square footage are substantially similar to those described above; if the Executive Director so exercises his discretion, he shall report to the Board that he has so decided; and it is further

RESOLVED, that all documents which may be required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

Whereupon, the meeting was adjourned.

Assistant Secretary

The public meeting was called to order by Chairman Eisenberg at 2:45 p.m. and ended at 2:52 p.m. The Board also met in executive session prior to the public meeting (Vice-Chairman Gargano was present during executive session). In addition, the Board held a planning meeting in executive session on June 11, 1998.

Action on Minutes

The Secretary submitted for approval Minutes of the meeting of May 28, 1998. He reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. He reported further that the time for action by the Governors of New York and New Jersey has expired. He further reported concerning a Special, Interim Meeting of the Committee on Operations of June 25, 1998.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Audit Committee

The Audit Committee reported, for information, on matters discussed in executive session at its meeting on July 30, 1998 which included discussion of internal audit matters, and the report was received.

Report of Committee on Finance

The Committee on Finance reported, for information, on matters discussed in executive session at its meeting on July 30, 1998, which included a discussion of contract matters and matters related to, or which could impact upon, the issuance, sale, resale, or redemption of Port Authority bonds, notes or other obligations, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Capital Programs and Port Planning

The Committee on Capital Programs and Port Planning reported, for information, on action taken and matters discussed in executive session at its meeting on July 30, 1998, which included a discussion of matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with which we deal, and the report was received.

Report of Committee on Operations

The Committee on Operations reported, for information, on action taken and matters discussed in executive session at its meetings on June 25, July 23, and July 30, 1998, which included discussion of contract, lease and personnel matters, matters related to the purchase, sale, or lease of real property and matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with which we deal, and the report was received.

Report of Committee on Construction

The Committee on Construction reported, for information, on matters discussed at its meeting on July 30, 1998, which included a discussion of a project for the rehabilitation of the Bayonne Bridge deck, plaza pavement and structural steel and a project for the extension of taxiways 'PA' and 'P' and construction of an aircraft parking area at Newark International Airport. Following the public session, the Committee met in executive session to discuss contract matters. The Committee also met in executive session on July 15, 1998 to discuss contract matters. This report is in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

**JOHN F. KENNEDY INTERNATIONAL AIRPORT - KOREAN AIR LINES CO., LTD. -
AGREEMENT AYC-646 - SURRENDER OF A PORTION OF LEASEHOLD**

It was recommended that the Board authorize the Executive Director to enter into an agreement with Korean Air Lines Co., Ltd. ("KAL") covering the surrender of a portion of KAL's leasehold at the Hangars 9 and 9A Redevelopment at John F. Kennedy International Airport.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Kalikow, Lewis, Mack, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an Agreement with Korean Air Lines Co., Ltd. at John F. Kennedy International Airport, substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**JOHN F. KENNEDY INTERNATIONAL AIRPORT - BULK FUEL FARM -
INSTALLATION OF NEW FUEL TANK ROOFS AND BOTTOMS - PROJECT
AUTHORIZATION**

On a typical day, the Bulk Fuel Farm at John F. Kennedy International Airport stores 21.4 million gallons of Jet A fuel in sixty-two aboveground storage tanks. The Dewey Lease Agreement, between the Port Authority and the airlines, requires the Port Authority to maintain adequate and safe storage of aviation fuel. This project would modernize the oldest Bulk Fuel Farm tanks by retrofitting forty-six tanks with aluminum geodesic roofs, which will prevent rain water from entering the tanks, and would also provide thirty-six new tank bottoms. The new bottoms will comply with all tank bottom leak detection and cathodic protection requirements of the American Petroleum Institute.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Kalikow, Lewis, Mack, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that a project to install new roofs on forty-six aboveground fuel storage tanks and to replace thirty-six aboveground fuel storage tank bottoms at the Bulk Fuel Farm at John F. Kennedy International Airport at a total estimated project cost of \$10.2 million, including payments to contractors, allowance for extra work (if necessary) and net cost work, administrative, engineering and financial expenses and a project contingency (if necessary), be and the same is hereby authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to a) take such action with respect to purchase and construction contracts and contracts for professional and advisory services related to the foregoing project as he deems in the best interest of the Port Authority, including, without limitation, award of Contract JFK-134.197, "Bulk Fuel Farm, Install New Fuel Tank Roofs and Bottoms", in the estimated amount of \$7.7 million, and award of such other contracts as he deems appropriate, to the lowest bidder(s) qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable; or to reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors; b) execute such other contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and order extra work (if necessary) and net cost work in connection with each contract, including supplemental agreements thereto; and c) enter into such other agreements as may be necessary to effectuate the project; and it is further

RESOLVED, that the form of all contracts and agreements in connection with the foregoing shall be subject to the approval of General Counsel or his authorized representative.

**LAGUARDIA AIRPORT - CENTRAL TERMINAL BUILDING EAST WING -
AMENDMENT(S) TO LEASE AG-417 WITH CONTINENTAL AIRLINES, INC.**

It was recommended that the Board authorize the Executive Director to enter into a supplemental agreement to Lease AG-417 with Continental Airlines, Inc. ("Continental") at LaGuardia Airport pursuant to which Continental would modernize its Central Terminal Building ("CTB") premises at its own cost with, among other things, improvements to its ticket counters, baggage claim area, first class club (currently covered in agreement AG-778), and Concourse A, and, for and on behalf of the Port Authority, modernize certain other areas in the CTB, including airline ticketing and baggage facilities and certain customer service improvements in the common areas of the East Wing of the CTB, for which the Port Authority would reimburse Continental in an amount not to exceed \$8 million for the ticketing and baggage facilities and \$4 million for the customer service improvements, with the Port Authority obligated to reimburse Continental all or a portion of its unamortized investment over a fifteen-year life in an amount not to exceed a total of \$13 million in the event the Port Authority terminates Continental's lease or a portion thereof other than for cause or does not offer to extend the term of the letting. During construction, Continental would use certain staging facilities and pay a rental including the Port Authority's investment in said facilities, which space would be surrendered upon completion of construction, with Continental paying rental for both said facilities and its permanent premises if said construction is not completed within eighteen months of the start of asbestos abatement. Should the lease be terminated without cause by the lessee or with cause by the Port Authority prior to completion of the reimbursable work, Continental would pay the Port Authority for all additional costs incurred by it in connection therewith due to such termination.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Kalikow, Lewis, Mack, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a Supplemental Agreement with Continental Airlines, Inc. at LaGuardia Airport, substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**LAGUARDIA AIRPORT - AMOCO OIL COMPANY - LEASE AGREEMENT FOR THE
CONSTRUCTION AND OPERATION OF A MULTI-FUEL SERVICE STATION
AND CONVENIENCE STORE**

It was recommended that the Board authorize the Executive Director to enter into an agreement of lease with Amoco Oil Company ("AMOCO") for the construction and operation of a multi-fuel service station and convenience store at LaGuardia Airport.

The service station, which will be located on the west end of the Airport, will provide gasoline as well as compressed natural gas to the growing number of vehicles using this alternate clean burning fuel. The lease would be for a fifteen-year term commencing on or about September 1, 1998. A \$450,000 Federal Government grant obtained by the Port Authority will be made available to AMOCO to help pay for the cost of constructing the compressed natural gas component of the station. AMOCO will pay to the Port Authority an annual fixed rental, based on the number of gallons of gasoline sold, which is subject to a minimum amount and will be adjusted in years six and eleven. In addition, AMOCO will pay an additional variable rental based on the number of gallons of compressed natural gas sold as well as separate percentage rentals based on the gross receipts of AMOCO arising from sales in the convenience store and from maintenance and repair service operations.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Kalikow, Lewis, Mack, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement of lease with Amoco Oil Company at LaGuardia Airport, substantially in accordance with the terms and conditions set forth above; the form of such agreement shall be subject to the approval of General Counsel or his authorized representative.

NEW YORK AIRPORTS - ON-AIRPORT BUS SERVICE IMPROVEMENTS - HUDSON GENERAL LLC, CONTRACT AGA 244 - CARAVAN TRANSPORTATION, INC., CONTRACT AYC 115

It was recommended that the Board authorize the Executive Director to enter into agreements with Hudson General LLC ("Hudson") at LaGuardia Airport ("LGA"), and Caravan Transportation, Inc. ("Caravan") at John F. Kennedy International Airport ("JFK"), as follows:

1. Amend and supplement the existing ground transportation service contract at LGA, Contract AGA 244, to require Hudson:

- a. to sell the existing fleet of four New Flyer Industries Limited low floor buses at LGA to Caravan at JFK for the unamortized value of Hudson's remaining investment in such existing fleet;
- b. to provide six 30-foot low floor buses at a total cost of approximately \$1,080,000 which will be paid to Hudson by the Port Authority in monthly installments based on a 108 month straight-line amortization plus interest on the unamortized balance; with the Port Authority to be obligated to purchase the buses from Hudson for their unamortized value at the end of the contract period;
- c. to increase the number of bus hours of the new 30-foot low floor buses by approximately 100 percent over the existing bus schedule and apply the existing hourly rates plus any CPI escalations specified in the contract for all hours of service provided;
- d. to provide eight twenty-two passenger "cutaway" style small buses at an estimated cost of \$16,000 per month plus an hourly operating cost of \$32.93 per bus hour plus a fuel component as specified in the contract for an estimated 3,550 hours of operation per month for approximately eight months until the six new 30-foot buses referred to above are placed in service; and
- e. to provide, for the new low floor buses, a bus annunciator system and a global positioning tracking system to monitor all buses which will be paid for by and be the property of the Port Authority.

Authorize the Director of Aviation to authorize extra work under the contract up to 6 percent of the total contract cost.

2. Amend and supplement the existing ground transportation service contract at JFK, Contract AYC 115, to require Caravan:

- a. to add the four New Flyer Industries Limited low floor buses purchased from Hudson to Caravan's existing airport fleet subject to all the terms of the contract, with the Port Authority to reimburse Caravan for its purchase price in monthly payments based on a straight-line amortization plus interest or the unamortized balance over the portion remaining of a 108-month amortization period since their original purchase by Hudson;
- b. to increase the number of bus hours of the New Flyer Industries Limited low floor buses by approximately 25 percent over existing schedules;

- c. to provide fourteen Metrotrans Classic II mini-buses at an estimated annual cost of \$435,000 and operate an intra-parking lot shuttle service which includes the Blue Parking Garage and Terminals 4,5,6 and 7, estimated to require 25,000 hours of mini-bus operating hours annually at the hourly rate including a fuel component provided for the New Flyer Buses in the contract;
- d. to increase the hours of the Bus Passenger Agents (BPAs) from the current 5 hours to 10 hours daily on Long Term Parking and Airline Connection buses; and
- e. to refurbish the interior of the New Flyer bus fleet, now over six years old, and heavily used by passengers, at an estimated one time cost of \$550,000 to be reimbursed by the Port Authority.

The LGA Contract (AGA-244) with Hudson as amended and supplemented above will call for an annual expenditure estimated to be \$2,890,000 for the period August 1, 1998 through July 31, 1999 including an amount of \$1,040,000 for the purchase by the Port Authority of the six new low floor buses from Hudson upon expiration or earlier termination of the agreement. For the following two optional annual extension periods under the contract the annual expenditures, without the increased level of operations set forth above, are estimated to be \$750,000 and \$800,000 respectively.

The JFK Contract (AYC-115) with Caravan as amended and supplemented above will call for an annual expenditure estimated to be \$8,530,400 for the period from February 15, 1998 to February 14, 1999; and \$7,913,750 for the period from February 15, 1999 to February 14, 2000. For the period from February 15, 2000 to February 14, 2001 the estimated expenditure is \$5,760,510 which does not include amounts for the increased levels of operations set forth above. All of the foregoing are subject to annual escalation as provided in the contract, and do not include extra work and the reimbursement to Caravan for the refurbishment of the existing New Flyer bus fleet. In addition, it was recommended that the Executive Director be authorized to exercise the option to purchase the New Flyer Bus Fleet from Caravan upon expiration or termination of the contract for its unamortized value which is presently \$2,335,000.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Kalikow, Lewis, Mack, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement or agreements with Hudson General LLC, and to enter into an agreement or agreements with Caravan Transportation, Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreement or agreements in each case shall be subject to the approval of General Counsel or his authorized representative; and it is further

RESOLVED, that the Executive Director be authorized, at his discretion, to exercise the option to purchase the New Flyer Bus Fleet from Caravan Transportation, Inc. upon expiration or earlier termination of its agreement at John F. Kennedy International Airport at a cost not to exceed \$2,335,000.

NEWARK INTERNATIONAL AIRPORT - TAXIWAY 'PA' EXTENSION, TAXIWAY 'P' EXTENSION, AND AIRCRAFT PARKING FACILITIES - PROJECT AUTHORIZATION

It was recommended that the Board authorize a project to extend Taxiways 'PA' and 'P' and construct an aircraft parking area adjacent to Taxiway 'PA' at Newark International Airport ("EWR"), rehabilitate a portion of existing Taxiway 'PA', and authorize the Executive Director to award the necessary contracts to perform the work at a total estimated project cost of \$37.2 million.

Cargo Building No. 156 at EWR was constructed with an aeronautical apron adjacent to it and a taxiway stub intended for access to a taxiway to be constructed at a later date. The impending occupation of that building by a tenant with aeronautical access requirements creates the need for the further construction of Taxiway 'PA' at this time.

The 1800 foot extension to the south of Runway 4L-22R presently under construction is scheduled for completion later this year. In order to realize the full utilization of the extended runway and associated taxiways, and reduce aircraft delays at EWR, it was recommended by Leigh-Fisher Associates, a Port Authority aeronautical planning consultant, that Taxiway 'P' also be extended 1800 feet to the south.

Further, the tremendous increase in aircraft operations at EWR has created a demand for additional hardstand parking. A site adjacent to Taxiway 'PA' has been identified as appropriate for this use. It is prudent to construct this hardstand, which will provide parking for three narrow-body aircraft or two wide-body aircraft, under the recommended project, to eliminate the need for future taxiway closures to accommodate the construction. The new aircraft parking facility would necessitate rehabilitating a portion of existing Taxiway 'PA'.

The project provides for extending Taxiway 'PA' approximately 1200 feet to the south, the extension of Taxiway 'P' approximately 1800 feet to the south, the construction of an aircraft parking area between Taxiways 'D' and 'PA', and rehabilitating an 1800 foot portion of existing Taxiway 'PA' necessitated by the operations related to the new aircraft parking facility. The work will include paving, surcharge removal, drainage, aeronautical lighting, signage, and replacement and relocation of Federal Aviation Administration (FAA) equipment. Provisions regarding the construction of these taxiways have been included in earlier contracts so that impact on airport operations will be minimal. The construction work will be eligible for Federal aid through the FAA's Airport Improvement Program.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Kalikow, Lewis, Mack, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that a project for the extension of Taxiway 'PA' approximately 1200 feet in the southerly direction, the extension of Taxiway 'P' approximately 1800 feet in the southerly direction, the construction of an aircraft hardstand parking area adjacent to Taxiway 'PA', and the rehabilitation of an 1800 foot portion of existing Taxiway 'PA', at a total estimated project cost of \$37.2 million, including payments to contractors, allowances for extra

work (if necessary) and net cost work, planning, engineering, administrative and financial expenses and a project contingency (if necessary), be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, in connection with the said project, to award Port Authority contracts to the lowest bidders qualified by reason of responsibility, experience and capacity at a bid price the Executive Director deems reasonable, or to reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors; and to execute other contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work (if necessary) and net cost work in connection with each contract including supplemental agreements thereto; and to enter into such other agreements as may be necessary to effectuate the project; and it is further

RESOLVED, that the form of the contracts and agreements in connection with the foregoing shall be subject to the approval of General Counsel or his authorized representative.

**NEWARK INTERNATIONAL AIRPORT - REDUNDANT DOMESTIC WATER LINE -
PROJECT AUTHORIZATION**

The existing single water main serving the Central Terminal Area and South Area of Newark International Airport was installed approximately thirty years ago. A failure of the main would interrupt water service to these areas thereby compromising fire protection capabilities and adversely impacting customer service. This project would provide redundancy in the event of such failure by constructing an additional water main from the City of Newark's 30-inch transmission main to Building 42 and to the Central Terminal Area distribution main.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Kalikow, Lewis, Mack, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that a project for the design and construction of an additional water main serving the Central Terminal Area and South Area of Newark International Airport at an estimated total project cost of \$3.7 million, including payments to contractors, allowance for extra work (if necessary) and net cost work, administrative, engineering and financial expenses and a project contingency (if necessary) be and the same is hereby authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to (a) take such action with respect to purchase and construction contracts and contracts for professional and advisory services related to the foregoing project as he deems in the best interest of the Port Authority including, without limitation, award of Contract EWR 154.093, "Redundant Domestic Water Line", in the estimated amount of \$2.3 million, and award of such other contracts as he deems appropriate, to the lowest bidder(s) qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable; or to reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors; and (b) execute such other contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and order extra work (if necessary) and net cost work in connection with each contract, including supplemental agreements thereto; and (c) enter into such other agreements as may be necessary to effectuate the project; and it is further

RESOLVED, that the form of all contracts and agreements in connection with the foregoing shall be subject to the approval of General Counsel or his authorized representative.

NEWARK INTERNATIONAL AIRPORT - TERMINAL A - SUPPLEMENTS TO MASTER AIRLINE LEASES WITH UNITED AIR LINES, INC., USAIRWAYS, INC., AND TRANS WORLD AIRLINES, INC. - NEW MASTER LEASE WITH AIR CANADA AND RESTATED MASTER LEASE WITH CONTINENTAL AIRLINES, INC.

It was recommended that the Board authorize the Executive Director to enter into lease supplements and other agreements that would be effective on or about January 1, 1999 with: 1) United Air Lines, Inc. for the surrender of seven aircraft gate positions and related building space in Terminal A-2 under Lease AN-535; 2) USAirways, Inc. for the surrender of two aircraft gate positions and related building space in Terminal A-2, the leasing of four aircraft gate positions and related building space in Terminal A-3, and the refurbishment of its new A-3 leasehold under Lease AN-537, at an annual rental for the A-3 leasehold consisting of a constant amount equal to \$1 million per gate, escalated at 4 percent per year and adjusted every five years, and a variable amount to be escalated annually via Schedule A of the lease, and repayment to the Port Authority of construction advances in an amount not to exceed \$7.5 million in the form of additional rental; 3) Trans World Airlines, Inc. for the surrender of one aircraft gate position and related building space in Terminal A-3 and the leasing of one aircraft gate position and related building space in Terminal A-2 under Lease AN-538 at its current rental rate; 4) Continental Airlines, Inc. for the surrender of three aircraft gate positions and related building space in Terminal A-3, the leasing of five aircraft gate positions and related building space in Terminal A-2 at an annual rental for the A-2 leasehold consisting of a constant amount of \$1.2 million per gate, escalated at 4 percent per year and adjusted every five years, and a variable amount escalated annually via Schedule A of the lease, and the refurbishment of its A-2 leasehold including ramp refurbishment, new or refurbished loading bridges, hold room, support space, ticket counter renovation, lounge renovation and baggage system improvements under amended and restated Lease ANB-056; and 5) Air Canada for the leasing of three aircraft gate positions and related building space in Terminal A-2 under new Master Airline Lease ANB-057 for a term of five years at a monthly rental rate for the A-2 leasehold consisting of a constant amount based on an annual rate of \$1.5 million per gate, escalated at 4 percent per year and adjusted every five years, and a variable amount escalated annually via Schedule A of the lease.

It was also recommended that the Board authorize the Executive Director to provide for a Port Authority expenditure of up to \$60 million toward the refurbishment of the exclusive and common areas of Terminal A, including the construction of a first class lounge to support three gates to be retained by the Port Authority and leased to Air Canada, offices and concessions, the refurbishment of existing ticket counters and support space, the relocation of offices and the construction of new ticket counters in their place, and the installation of a new outbound baggage system. This work may be performed by the airlines or by Continental on behalf of the airlines under their respective leases and reimbursed by the Port Authority up to certain apportioned amounts of the \$60 million for the exclusive areas of each airline and the common areas. Construction advances provided to USAirways, in an amount not to exceed \$7.5 million for its portion of the terminal renovation work, are in addition to the foregoing and will be recovered as additional rental under its lease.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Kalikow, Lewis, Mack, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into lease supplements and other agreements at Newark International Airport with United Air Lines, Inc., USAirways, Inc. and Trans World Airlines, Inc., a new Master Lease with Air Canada, and an amended and restated lease with Continental Airlines, Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreement in each case shall be subject to the approval of General Counsel or his authorized representative.

(Board – 7/30/98)

NEWARK INTERNATIONAL AIRPORT - TERMINAL C - PERMIT WITH WESTFIELD CONCESSION MANAGEMENT, INC. FOR THE DEVELOPMENT AND MANAGEMENT OF RETAIL SPACE AND SUPPLEMENT TO A PRIVILEGE PERMIT FOR CA ONE SERVICES, INC. (FORMERLY CONCESSION AIR CORPORATION) TO SUBLEASE AND OPERATE CONCESSION AREAS

It was recommended that the Board authorize the Executive Director to enter into two agreements relating to consumer service operations at Terminal C at Newark International Airport.

The first agreement would be a privilege permit to be entered into between the Port Authority and Westfield Concession Management, Inc. ("Westfield") and agreed to by Continental Airlines, Inc. ("Airline") to develop, lease, manage and market concession spaces at Terminal C in approximately 56,000 square feet of space (inclusive of CA One Services Inc.'s space). The permit would have a term of approximately 13 years, terminating on August 31, 2010. The Port Authority would have the right to terminate the permit on 30 days' notice without cause, in which event it would be obligated to pay Westfield's unamortized capital investment up to \$1,050,000. Consistent with the terms of a contract entered into between the Airline and Westfield, Westfield would be entitled to receive manager's fees equal to 1 percent of gross receipts up to \$38 million, 1.75 percent of gross receipts between \$38 and \$56.5 million, 4 percent of gross receipts over \$56.5 million and, in addition, 50 percent of rent received from retail merchandising units, with gross receipts being based on revenues actually received from subtenants for purposes both of calculating manager's fees to Westfield and calculating revenues to be distributed to the Port Authority and the Airline. Westfield would collect subtenant rent as part of its management responsibilities and remit the same to the Airline and the Port Authority. Westfield's manager's fees would be paid retroactively from November 1, 1997. Pursuant to the Port Authority permit with Westfield, all subleases between the Airline and subtenants at Terminal C would require the subtenant to enter into an agreement directly with the Port Authority authorizing its operations in Terminal C.

In addition, Westfield may be entitled to reimbursement of up to a total of \$35,000 annually from the Port Authority and/or Airline for third party legal fees actually incurred by it for rent collection activities on their/its behalf. After a stipulated period, Westfield may request this total to be increased to not more than \$50,000 annually which would require Port Authority approval.

Westfield would be obligated to invest a minimum of \$765,000 and a maximum of \$900,000 at Terminal C, excluding architectural and engineering costs. In addition, upon the prior written approval of both the Airline and the Port Authority, Westfield would be entitled to invest an additional \$900,000 in capital improvements for which it would be entitled to be reimbursed (plus interest) over a limited period of time from subtenants' rent at Terminal C. Any responsibility of the Port Authority for Westfield's unamortized capital investment does not apply to this additional, approved amount.

The second agreement would supplement the existing privilege permit with CA One Services, Inc. (formerly Concession Air Corporation), dated as of November 1, 1988, to reduce the scope of its permission from acting as the overall retail developer/operator at Terminal C to instead operating primarily food and beverage operations at Terminal C in approximately 34,000 square feet of space. These modifications are being made in connection with Amendment No. 1 to the Concession Lease and Agreement between the Airline and CA One Services, Inc. ("CA One"). The permit supplement would also extend CA One's period of permission by approximately five years to

August 31, 2008. The guaranteed annual minimum fee of \$0.45 per enplaning passenger could be reduced up to 25 percent during a period through July 31, 2000 based upon decreases in the square footage of concessions operated during this development period. CA One would be obligated to invest additional sums of money at Terminal C. Termination of CA One's permit without cause on 30 days' notice would continue to require the joint subscription of both the Port Authority and the Airline.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Kalikow, Lewis, Mack, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a permit supplement with CA One Services, Inc. to be agreed to by Continental Airlines, Inc. and a privilege permit among Westfield Concession Management, Inc., the Port Authority and Continental Airlines, Inc., substantially in accordance with the terms and conditions set forth above; the forms of the agreements shall be subject to the approval of General Counsel or his authorized representative.

STATEN ISLAND BRIDGES DECK REHABILITATION AND REPLACEMENT PROGRAM - REHABILITATION OF BAYONNE BRIDGE DECK, PLAZA PAVEMENT AND STRUCTURAL STEEL - PROJECT AUTHORIZATION AND AWARD OF CONTRACT AKB-264.024

Construction of the Bayonne Bridge was completed in 1931. The bridge comprises five lane-miles and 270,000 square feet of elevated roadways. Exposure to water and de-icing salts has eroded the concrete deck, support steel and asphalt wearing surface, and the on-grade concrete pavement of the toll plaza. The need for a long-term plan for the rehabilitation of the Bayonne Bridge was identified during an investigation of the physical condition of the structure. In general, the investigation revealed deterioration of the deck's expansion joints (which occur every 75 to 100 feet) and the asphalt roadway pavement. The supporting steel and concrete in the vicinity of the joints, as well as random locations throughout the total area of the decks, were found to contain widespread spalls and rust. Finally, the investigation identified defects in the on-grade concrete pavement at the toll plaza.

The proposed rehabilitation work will include: removal of the existing asphalt pavement; replacement of deteriorated deck concrete; replacement of deck expansion joints; restoration of support steel; sealing of longitudinal joints; waterproofing of the entire concrete deck surface; installation of a new asphalt pavement; and, replacement of the concrete pavement at the toll plaza. During restoration of the support steel, it will be necessary to remove the existing lead-based paint within the limits of each repair area. The contractor will be required to comply with all applicable environmental and OSHA regulations during removal operations. Waste from lead-based paint removal operations will be disposed of in accordance with all applicable regulations.

The work will be staged to minimize impact on facility operations and the traveling public. The staging for deck rehabilitation will consist of 1,000 foot-long work areas, two lanes wide, along the length of the bridge. The work area will occupy two traffic lanes on a continuous basis. Adjacent to the work area, only one of two lanes will be available in each direction. Since the single-lane capacity of the Bayonne Bridge is sufficient to handle traffic levels during all hours, delays are not anticipated. A public outreach and information program will be developed to advise our customers and the surrounding communities of the work.

Pursuant to the foregoing report presented by staff, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Kalikow, Lewis, Mack, Philiposian, Schweitzer and Song voting in favor; none against:

RESOLVED, that a project for the rehabilitation of the Bayonne Bridge deck, plaza pavement and structural steel at an estimated total project cost of \$33 million including payments to contractors, allowance for extra work and net cost work, engineering, administrative and financial expenses and a project contingency, be and the same is hereby authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to:

a) award Contract AKB-264.024 for the Rehabilitation of the Bayonne Bridge Deck, Plaza Pavement And Structural Steel at an estimated cost of \$21.9 million to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work; and whose bid price the Executive Director deems reasonable, and to order extra work, and net cost work, or to reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors as he deems in the best interest of the Port Authority; and

b) take action with respect to purchase and other construction contracts and agreements for professional and advisory services for the foregoing project as the Executive Director deems in the best interest of the Port Authority, including, without limitation, award to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable, rejection of all bids, solicitation of new bids on revised or the same requirements, or negotiation with one or more bidders or other contractors; and to execute contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work and net cost work in connection with each contract, including supplemental agreements thereto; and to obtain permits and licenses and to enter into such other agreements with municipal and other entities as may be appropriate and required to effectuate the project; and it is further

RESOLVED, that the form of the agreements necessary to effectuate the project shall be subject to the approval of General Counsel or his authorized representative.

**BROOKLYN-PORT AUTHORITY MARINE TERMINAL - EXPRESS INDUSTRIES
AND TERMINAL CORPORATION - LEASE BP-268 - AMENDMENT**

It was recommended that the Board authorize the Executive Director to enter into an agreement with Express Industries and Terminal Corporation ("Express") to amend its existing lease and to provide for a surrender of a portion of the leased premises at Pier 1 at the Brooklyn-Port Authority Marine Terminal.

The rental rate for the reduced premises will be increased for the balance of the lease term. In addition, Express will forfeit its right to a rental credit had it performed certain repairs and Express will be obligated to pay to the Port Authority a surrender fee upon execution of the amendment to the lease.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Kalikow, Lewis, Mack, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an amendment of lease with Express Industries and Terminal Corporation, substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

PORT NEWARK - FAPS, INC. - LEASE L-NS-984 SUPPLEMENT NO. 33

It was recommended that the Board authorize the Executive Director to enter into an agreement with FAPS, Inc. ("FAPS") under which FAPS will replace the floor of Building 302 at Port Newark and the Port Authority will reimburse FAPS for the cost of the work in an amount not to exceed \$650,000. In addition, FAPS will have the right, at its sole cost and expense, to install a floor drainage system in connection with the replacement work. FAPS leases Building 302 from the Port Authority and will be entitled to an abatement of rental for loss of use of the space resulting from the performance of the replacement and drainage work in an amount not to exceed \$45,000.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Kalikow, Lewis, Mack, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with FAPS, Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**THE WORLD TRADE CENTER - NATIONAL BROADCASTING COMPANY, INC. -
LEASE AND DTV BROADCAST LICENSE**

It was recommended that the Board authorize the Executive Director to enter into agreements, or supplement existing agreements as appropriate, to (i) grant the National Broadcasting Company, Inc. ("NBC") a license to broadcast digital television ("DTV") from an antenna on the mast atop One World Trade Center ("WTC"); (ii) extend NBC's current space lease and analog television broadcast license; (iii) grant other broadcasters a license to broadcast DTV from the WTC at the same or better rental rates and for terms not to exceed ten years on substantially the terms set forth herein; (iv) provide for the expenditure of up to \$250,000 for expert technical services from D. W. Sargent Broadcast Services Inc. to assist staff in evaluating DTV and other antenna and broadcast transmission related issues; and (v) provide for the expenditure of up to \$50,000 for expert professional services from Gary Schroeder to assist staff in evaluating business strategy in connection with The World Trade Center rooftops.

The Federal Communications Commission ("FCC") has recently granted existing television broadcasters licenses to transmit DTV, which is a television broadcast system that is forecast to eventually supplant the existing analog television broadcast system.

The term of NBC's DTV license would be approximately ten years and its existing analog television broadcast license and transmitter room space lease would be extended so that all will expire on the same date. NBC would be obligated to construct a panel antenna on the WTC mast that will accommodate up to five broadcasters.

D.W. Sargent Broadcast Services ("Sargent") has had an agreement with the Port Authority to provide technical services since 1986. Sargent is considered by staff to be a leading specialist in the field of radio transmission, including the measurement of electromagnetic radiation ("EMR") to determine conformance with the standards adopted by the FCC. Sargent will evaluate methods for maintaining compliance with the FCC's EMR standards under current conditions, with the addition of the proposed panel antenna and under future long-term facilities for DTV proposed by the television broadcasters.

Gary Schroeder is a broadcast specialist who assists property owners in the management of telecommunications facilities, including the Sears Tower in Chicago. Mr. Schroeder will provide advisory services on broadcast and other rooftop telecommunications uses from the perspective of the property owner.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Kalikow, Lewis, Mack, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into agreements with the National Broadcasting Company, Inc. and other television broadcasters on substantially the terms and conditions set forth above; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into agreements with D. W. Sargent Broadcast Services and Gary Schroeder for the provision of expert services in connection with broadcasting and telecommunications uses of The World Trade Center rooftops in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that the form of the agreements in each instance shall be subject to the approval of General Counsel or his authorized representative.

THE WORLD TRADE CENTER - AON RISK SERVICES, INC. OF NEW YORK - LEASE SUPPLEMENT

It was recommended that the Board authorize the Executive Director to enter into a lease supplement with Aon Risk Services, Inc. of New York ("ARS") covering the letting of approximately 24,900 rentable square feet (rsf) of space on the 98th floor of Two World Trade Center for a term of approximately fourteen years and to enter into a brokerage agreement with LaSalle Partners in connection therewith.

ARS currently occupies approximately 400,000 rsf in Two World Trade Center under a lease which expires August 31, 2012. ARS wishes to expand its premises into approximately 24,900 rsf on the 98th floor and to make its existing right under the lease to substitute its 83rd floor space (consisting of 25,163 rsf) for equivalent space applicable to the balance of the 98th floor and to exercise such right. This expansion and relocation will provide ARS with the entire 98th floor in Two World Trade Center consisting of 50,029 rsf. The letting of the 98th floor will be coterminous with that of the existing space.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Kalikow, Lewis, Mack, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease supplement with Aon Risk Services, Inc. of New York, substantially in accordance with the terms and conditions set forth above and to enter into a brokerage agreement with LaSalle Partners in connection therewith; and it is further

RESOLVED, that the Committee on Operations be delegated the authority to approve the final terms and conditions of the lease supplement in the event the gross effective rent or the term of the letting is not substantially in accordance with the terms outlined above; and it is further

RESOLVED, that the form of the lease supplement and brokerage agreement shall be subject to the approval of General Counsel or his authorized representative.

THE WORLD TRADE CENTER - THE SHIGA BANK LIMITED - LEASE SURRENDER

It was recommended that the Board authorize the Executive Director to enter into a surrender agreement with The Shiga Bank Limited ("Shiga"), a Japanese bank, providing for the surrender of Shiga's One World Trade Center premises consisting of approximately 8,600 rentable square feet of space, effective October 31, 1998, for a payment to the Port Authority in the amount of approximately \$550,000.

Shiga's lease is scheduled to expire on July 31, 2000, however, Shiga will cease all operations in the United States and will surrender its premises in its "as is" condition effective October 31, 1998. Shiga will not be required to remove furniture, computer equipment or telecommunications wiring.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Kalikow, Lewis, Mack, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a surrender agreement with The Shiga Bank Limited, substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that the Chairman, the Chair of the Committee on Operations or the Vice-Chair of the Committee on Operations is each authorized to approve the final terms and conditions of the surrender agreement in the event they are not substantially in accordance with the terms and conditions outlined above; and it is further

RESOLVED, that the form of the surrender agreement shall be subject to the approval of General Counsel or his authorized representative.

PORT AUTHORITY BUS TERMINAL - HAREM FOODS P.A., INC. D/B/A KRISPY KREME - NEW LEASE

It was recommended that the Board authorize the Executive Director to enter into a lease agreement (the Lease) with Harem Foods P.A., Inc. ("Harem Foods") covering the construction and operation of a Krispy Kreme doughnut shop in approximately 121 square feet of retail space on the Main Concourse of the South Wing of the Port Authority Bus Terminal, and the letting of 600 square feet of storage and support space on the Second Floor of the South Wing and to enter into a brokerage agreement with Collins Tuttle & Company, Inc. the broker involved in the letting, each agreement to be substantially in accordance with the terms and conditions outlined below.

Krispy Kreme doughnuts have been sold for over sixty years, primarily in the Southeast. The parent company of Harem Foods owns the exclusive Krispy Kreme franchise for the New York and New Jersey regions, and operates six stores in Manhattan, with two additional stores under construction, including one at The World Trade Center.

The Lease would be for a term commencing on or about August 1, 1998 and expiring on the day preceding the tenth anniversary of the date payment of rental commences under the Lease. Harem Foods will pay a graduated basic rental for the premises at an annual rate of \$65,004 for the first five rent paying years of the term, and at an annual rate of \$72,804 thereafter, plus a percentage rental equivalent to a graduated percentage of its annual gross receipts which are in excess of an annual exemption amount as provided in the Lease. Payment of rental under the lease will commence no later than February 1, 1999. If Harem Foods commences business operations in the premises prior to February 1, 1999, it will pay a percentage rental only during the period from the commencement of business operations in the premises to February 1, 1999. Harem Foods will install all improvements, fixtures and equipment required for its operations in the premises at its sole cost and expense. The term of the letting will be subject to termination by the Port Authority, at any time, without cause, on thirty days notice, in which event Harem Foods would be reimbursed for the unamortized portion of its initial capital investment in the premises to the extent that such initial capital investment does not exceed \$150,000.

The final terms of the Lease will be subject to the approval of the Committee on Operations in the event that they are not substantially in accordance with the terms outlined herein.

The Port Authority will pay a brokerage commission to Collins & Tuttle & Company, Inc. in connection with the letting.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Kalikow, Lewis, Mack, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Harem Foods P.A., Inc. at the Port Authority Bus Terminal, and a brokerage agreement with Collins Tuttle & Company, Inc., substantially in accordance with the terms and conditions outlined above; the form of the agreement in each instance shall be subject to the approval of General Counsel or his authorized representative; and it is further

RESOLVED, that the Committee on Operations be and is hereby authorized to approve the final terms of the lease agreement with Harem Foods, P.A., Inc. in the event that such final terms are not substantially in accordance with the terms and conditions outlined above.

**CONSOLIDATED BONDS, ONE HUNDRED SIXTEENTH SERIES THROUGH
CONSOLIDATED BONDS, ONE HUNDRED TWENTY-SECOND SERIES -
AMENDMENT OF CERTAIN RESOLUTIONS AND AUTHORIZATION OF
SALE**

The currently favorable interest rate environment prevailing in the municipal markets, together with the Port Authority's on-going capital program and financial capacity with respect to the issuance of additional Consolidated Bonds would support consideration of the sale of a series of Consolidated Bonds in a principal amount of up to \$500 million to provide for the "advance" refunding of certain currently outstanding Consolidated Bonds which are first callable in 2000 and 2001 and for other presently authorized purposes. Greater transactional efficiencies could be achieved if bonds were sold on a negotiated basis with an underwriter or underwriters to be selected by an Authorized Officer.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Kalikow, Lewis, Mack, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that Section 2 of the resolution adopted December 12, 1996 entitled "Consolidated Bonds, One Hundred Eighth Series through Consolidated Bonds, One Hundred Twenty-second Series - Establishment and Issuance" is amended, solely with respect to Consolidated Bonds, One Hundred Sixteenth Series through Consolidated Bonds, One Hundred Twenty-second Series, to provide that the principal amount which may be issued of one of such series to be selected by an Authorized Officer (as defined in such resolution) be increased from up to \$300 million to up to \$500 million; and it is further

RESOLVED, that Section 2 of the resolution adopted December 12, 1996 entitled "Consolidated Bonds, One Hundred Eighth Series through Consolidated Bonds, One Hundred Twenty-second Series - Sale" is amended, solely with respect to Consolidated Bonds, One Hundred Sixteenth Series through Consolidated Bonds, One Hundred Twenty-second Series, to provide that the principal amount which may be sold of one of such series to be selected by an Authorized Officer (as defined in such resolution) be increased from up to \$300 million to up to \$500 million; and it is further

RESOLVED, that an Authorized Officer (as defined in such resolutions) is authorized to take any and all action which the Committee on Finance of the Authority has been authorized to take under the resolutions adopted by the Authority on December 16, 1996 (as herein amended), entitled "Consolidated Bonds, One Hundred Eighth Series through Consolidated Bonds, One Hundred Twenty-second Series - Establishment and Issuance" and "Consolidated Bonds, One Hundred Eighth Series through Consolidated Bonds, One Hundred Twenty-second Series - Sale", respectively (without further action by the Committee on Finance), pertaining to the issuance and sale or otherwise of up to \$500 million in principal amount of Consolidated Bonds.

**NEW YORK STATE AND LOCAL EMPLOYEES' RETIREMENT SYSTEM -
CHAPTER 47 OF THE LAWS OF NEW YORK, 1998 - ADOPTION OF THE 1998
RETIREMENT INCENTIVE PROGRAM**

In May, legislation was adopted in New York (Chapter 47, Laws of New York, 1998), ("Legislation") enabling employers participating in the New York State and Local Employees' Retirement System ("Retirement System"), including the Port Authority, to adopt at their discretion a Retirement Incentive Program intended to enable the State of New York and other governmental employers to achieve economies, consolidation or abolition of functions, or curtailment of activities, by inducing eligible employees to retire at this time. Under the Legislation, a retirement incentive can be made available to non-police employees continuously employed since February 1, 1998, who are at least 50 years of age and have ten years of credited service (or 70 years of age with five years of service) or who are otherwise currently eligible to retire. This incentive is similar to those authorized and implemented by the Port Authority during 1995, 1996, and 1997. While the additional pension benefits are subject to reductions for those under 55 and to certain tax law restrictions and reductions, eligible employees who voluntarily choose to retire at this time would, generally, receive an additional one month of Retirement System credited service for each year of service up to a maximum additional Retirement System credit of three years. Employees eligible for any other lump sum retirement incentive payments (such as severance allowances) from the Port Authority would not be eligible for this Retirement System incentive unless they waive their eligibility for such lump sum payments.

The Legislation requires either the elimination of a number of positions within eligible titles equal to the number of eligible employees retiring with the incentive or a Port Authority plan showing savings over a two-year period of at least 50 percent of the base salary of each person retiring with the incentive. The Legislation provides that the period in which individual employees may elect to retire with the retirement incentive must be of no less than 30 and no more than 90 days' duration, and must not extend beyond December 31, 1998. Under the Legislation the employer may elect to pay for the costs of this incentive in one installment or in five annual installments to be set by the Retirement System commencing during the Retirement System's fiscal year ending March 31, 2000.

Under the Legislation, targeted positions are those for which the abolition of a specified number of positions in the title would not, in the determination of the chief executive officer (here, the Executive Director),

- " a. Directly result in a reduction of the level of service required or mandated to protect and care for clients of the state or a participating employer or to assure public health and safety;
- b. Endanger the health or safety of employees of the state or a participating employer; or
- c. Clearly result in a loss of significant revenue to the state or a participating employer or result in substantially increased overtime or contractual costs."

Titles may also be considered eligible if employees subject to layoff may be placed therein. Finally, the Executive Director would also have staff prepare a list of eligible titles and positions and a plan of savings, as described above, which might avoid some job eliminations. Staff

will seek to identify eligible job titles and positions meeting the requirements of the Legislation and the Port Authority's goals.

In the interim, the Executive Director recommended that the Port Authority take the formal steps necessary to participate in the 1998 Retirement Incentive Program and that he be authorized to implement such a program, contingent on his determination following compilation of information by staff that such a program would be in the best interests of the Port Authority and achieve appropriate staff reductions, reorganization or economies. To provide for administrative procedures and planning in a timely fashion, the implementation of this program, should the Executive Director decide to pursue it, would be scheduled during the period from December 1, 1998, through December 31, 1998, inclusive. Under the Legislation, an agency's chief executive officer must advise the Retirement System prior to September 3, 1998, of the adoption of a resolution authorizing implementation of the program.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Kalikow, Lewis, Mack, Philiposian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to perform all acts and to make any and all determinations necessary or appropriate in connection with the implementation, effectuation, administration, or any other aspect of a targeted retirement incentive program under Chapter 47 of the Laws of New York, 1998, including, without limitation, determining eligible titles (and the number of positions therein) to be covered by such program and the development of any compensation savings plan in connection therewith and, in this connection, and subject to approval as to form by General Counsel, to file any necessary or appropriate documents, affidavits, certifications and forms; and it is further

RESOLVED, that The Port Authority of New York and New Jersey does hereby elect to provide the benefits of Chapter 47 of the Laws of New York, 1998, commencing on December 1, 1998, for all eligible employees who retire with an effective date of retirement set during the thirty-one day period beginning with and immediately following the commencement date and who are otherwise eligible as specified by Chapter 47.

**SETTLEMENT OF CLAIM - BARBENNA WATSON v. THE PORT AUTHORITY OF
NEW YORK AND NEW JERSEY**

It was recommended that the Board authorize General Counsel to settle the pending action entitled Barbenna Watson v. The Port Authority of New York and New Jersey by paying to plaintiff and his attorneys the sum of \$1,000,000 in exchange for a general release from liability and a discontinuance of the action with prejudice.

Mr. Watson sustained serious injuries at LaGuardia Airport on September 21, 1993, when a security booth in which he was seated was hit by a Port Authority Shoerling Broom truck. As he attempted to escape the breaking glass, plaintiff fell and hit his back and head. Medical testimony was presented during the trial of this action causally relating plaintiff's severe, disabling post-traumatic stress disorder to this accident. Mr. Watson has been unable to return to work since his accident.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Kalikow, Lewis, Mack, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to settle the pending civil action entitled Barbenna Watson v. The Port Authority of New York and New Jersey, by paying \$1,000,000 to plaintiff and his attorneys in return for a General Release and Stipulation of Discontinuance with prejudice.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period April 1, 1998 to May 31, 1998..

Guest

Karen Kennedy, Authorities Unit, Office of the Governor of New Jersey
Kevin Corbett, Empire State Development Corporation

(Board – 9/24/98)

The public meeting was called to order by Chairman Eisenberg at 2:50 p.m. and ended at 3:00 p.m. The Board also met in executive session prior to the public meeting.

Action on Minutes

The Secretary submitted for approval Minutes of the meeting of July 30, 1998. He reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. He reported further that the time for action by the Governors of New York and New Jersey has expired.

The Secretary reported that the Minutes of July 30, 1998 contain a typographical inconsistency on page 346, in the fourth line of the final paragraph. The date of prior Board resolutions entitled "Consolidated Bonds, One Hundred Eighth Series through Consolidated Bonds, One Hundred Twenty-second Series – Establishment and Issuance" and "Consolidated Bonds, One Hundred Eighth Series through Consolidated Bonds, One Hundred Twenty-second Series – Sale" was, in fact, December 12, 1996, as correctly stated in the two paragraphs immediately preceding the final paragraph on the page.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Audit Committee

The Audit Committee reported, for information, on matters discussed in executive session at its meeting on September 24, 1998 which included discussion of internal audit matters, and the report was received.

Report of Committee on Finance

The Committee on Finance reported, for information, on action taken and matters discussed in executive session at its meeting on September 24, 1998, which included a discussion of contract matters and matters related to, or which could impact upon, the issuance, sale, resale, or redemption of Port Authority bonds, notes or other obligations, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Capital Programs and Port Planning

The Committee on Capital Programs and Port Planning reported, for information, on matters discussed in executive session at its meeting on September 24, 1998, which included a discussion of matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with which we deal, and the report was received.

Report of Committee on Operations

The Committee on Operations reported, for information, on action taken and matters discussed in executive session at its meetings on August 10 and September 24, 1998, which included discussion of personnel and lease matters and matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with which we deal, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Construction

The Committee on Construction reported, for information, on matters discussed in executive session at its meeting on September 24, 1998, which included a discussion of contract matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Staff Report

A presentation was made by staff on Regional Funding Under the Transportation Equity Act for the 21st Century.

Chairman Eisenberg welcomed Ronald Shiftan as Deputy Executive Director of the Port Authority.

THE WORLD TRADE CENTER – PROCESS FOR NET LEASE

It was reported that 35 years ago the Port Authority began the development of The World Trade Center to help spur economic growth in Lower Manhattan. In view of the success of The World Trade Center in the economic growth and vitality of Lower Manhattan, the Board feels that it is now time to privatize the operation and management of The World Trade Center and directed staff to explore alternatives for the privatization of the complex.

In April 1996, the Port Authority retained J.P. Morgan & Co. Incorporated, acting through its subsidiary, J.P. Morgan Securities, Inc., Cushman & Wakefield Inc., and Douglas Elliman Realty Investors to assist the Port Authority in effectuating any option decided on by the Board for maximizing the value of The World Trade Center to the Port Authority. These consultants have participated with staff and the Commissioners in the consideration of three specific privatization options – sale of the complex, net lease of the complex and asset management of the complex.

The Board has now decided to begin the process intended to lead to the net leasing of The World Trade Center and provide for the preparation and distribution of documents appropriate at this stage of the transaction, including requests for proposals and/or qualifications, and the review of responses received from prospective net lessees. Additionally, the Board has asked Commissioners Eisenberg, Gargano, Philibosian and Song to participate in this process, provide guidance to staff and the Consultants and review all documents prior to their distribution.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director is directed to take any and all action to provide for the preparation and, after consultation with Commissioners Eisenberg, Gargano, Philibosian and Song, distribution of documents appropriate to the net leasing of The World Trade Center, including requests for proposals and/or qualifications, and the review of responses received from prospective net lessees; and it is further

RESOLVED, that the form of such documents shall be subject to approval as to form by General Counsel or his authorized representative.

(Board - 9/24/98)

JOHN F. KENNEDY INTERNATIONAL AIRPORT - AIRPORT ACCESS PROJECT - PROPERTY ACQUISITION

On May 9, 1996, the Board authorized a project (the "Project") for the implementation of an automated Light Rail System ("LRS") between Jamaica and John F. Kennedy International Airport ("JFK"), a link between Howard Beach and JFK, and an LRS circulating within the Central Terminal Area at a total estimated project cost of \$1.268 billion, excluding interest on bonded debt. JFK suffers from a lack of public transportation options for access to the facility. In addition, the existing roadway system is unable to adequately address the need for on-airport circulation. The Project will provide connections to regional transportation hubs at the Long Island Railroad station in Jamaica as well as the New York City Transit station in Howard Beach. The LRS will also provide stations on-airport, at the rental car facilities at Federal Circle, the Employee Long-Term Parking Lot, and at the unit terminals for intra-airport transportation of airport customers and employees.

In requesting Project Authorization at the Board's May 9, 1996 meeting, staff noted that at the appropriate time, the Board would be asked to make the necessary findings and authorize acquisition of property interests by negotiation or condemnation. In view of the Project schedule, staff recommends authorization of property acquisition by negotiation at this time. If negotiations with private landowners do not lead to reasonable settlements, staff would conduct a public hearing as required by the New York State Eminent Domain Procedure Act before initiating eminent domain proceedings to acquire the property. Subsequent to such a hearing, the Board would be requested to make the necessary findings and determinations to enable acquisition by condemnation. The JFK LRS Right-Of-Way ("ROW") will occupy lands now owned by, among others, the City of New York, the State of New York, the Long Island Railroad, Rock-Arizona Associates (an Amoco gas station), Web Food Products, Inc. (a parking lot) and Andrew Borone, Dominick Borone and Joseph Borone (an auto service station and parking lot). Staff plans to acquire these lands, and possibly others adjacent to the ROW should the need become apparent.

The Board at its meeting on May 9, 1996 also authorized the Executive Director to apply to the Federal Aviation Administration ("FAA") for additional Passenger Facility Charge ("PFC") collection authority of \$823 million and additional PFC use authority of \$1.248 billion. An application was submitted to the FAA for the use of PFC funds on July 21, 1997. A Record of Decision for the use of these funds in the amount of \$1.148 billion was received on February 9, 1998. An application for the \$100 million in PFCs which expired on October 1, 1997, due to the FAA's failure to act by the application's expiration date, will be resubmitted to the FAA. In addition to the \$14 million previously approved by the FAA for planning costs for the JFK LRS, an amendment to recover an additional \$36 million in planning and preliminary engineering costs will be submitted at the same time. An addendum will also be submitted to the PFC application to permit the Port Authority to reallocate certain Port Authority Capital funds (up to \$300 million) to project elements the FAA deems ineligible for PFC funding and to allocate PFCs to other eligible items. The total amount of PFC funds expected to be approved for the project is \$1.298 billion. Together with \$300 million in Port Authority Capital funds, the total available funds for this project is \$1.598 billion, including interest on bonded debt.

Environmental impacts have been and will be assessed and will be taken into consideration in the implementation of the Project and mitigation measures incorporated in the

(Board - 9/24/98)

Project. A Draft Environmental Impact Statement ("EIS"), Written Reevaluation/Technical Report and Final EIS ("FEIS"), were prepared by the FAA along with the New York State Department of Transportation ("NYSDOT") acting as Joint Lead Agency. The FAA prepared Records of Decision approving an amended Airport Layout Plan including the ROW for the LRS and use of PFCs for the Project in compliance with the National Environmental Policy Act. NYSDOT issued a Record of Decision containing Findings in connection with its authorization of property conveyances for the Project in compliance with the New York State Environmental Quality Review Act ("SEQRA"). It is anticipated that the City of New York will also issue Findings in connection with its authorization of City actions in support of the Project which will comply with the City's Environmental Quality Review Regulations which implement SEQRA. Also, it is a condition of FAA Project approval, as noted in NYSDOT's Record of Decision, that the mitigation measures presented in Section 7.0 of the FEIS are the responsibility of the Port Authority. The Port Authority will incorporate the mitigation measures as requirements of the design, construction, and operation contracts or other contracts issued for the Project.

The City of New York (the "City") has advised that it must comply with the provisions of Section 197(c) of the City Charter involving the Uniform Land Use Review Procedure ("ULURP") before it can execute conveyances needed for the Project. The ULURP, entailing Hearings before Community Boards, the Borough Board, the City Planning Commission and possibly the City Council, is expected to take six to nine months to complete. While the Port Authority's ULURP Application is deemed technically complete, pending direction from the City, the Application has not yet been certified as complete so that the ULURP process may begin.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Song voting in favor; Commissioner Mack abstaining; none against:

RESOLVED, that the Executive Director or General Counsel, either one acting individually, is hereby authorized to acquire on behalf of the Port Authority property interests by negotiation for and in connection with the Air Terminal Access Facilities known as the John F. Kennedy International Airport ("JFK") Airport Access Light Rail System ("LRS") Project including a link between Jamaica and JFK, a link between Howard Beach and JFK and an LRS circulating the Central Terminal Area (the "Project"); such property interests being generally located along and adjacent to the alignment shown on the amended JFK Airport Layout Plan approved, or to be approved, by the Federal Aviation Administration ("FAA") including but not limited to fee title to three privately owned parcels of land known as Block 9990, Lot 5, Block 9989, Lot 11, and Block 9989, Lot 17, on the Tax Map of the City of New York, Borough of Queens, and to incur all related costs and expenses, and execute all documents and agreements, including without limitation, agreements and conveyances, involving transfers of property interests to or from the Port Authority, necessary or incidental to such acquisition or the Project; and to conduct a public hearing under New York State's Eminent Domain Procedure Act, at their discretion; and it is further

RESOLVED, that the Executive Director or General Counsel, either one acting individually, is hereby authorized to execute an agreement or agreements supplemental to the Agreement with respect to the Municipal Air Terminals between the City of New York (the "City") and the Port Authority and associated instruments whereby, among other matters, the City would: (a) transfer and release to the Port Authority the City's right, title and interest in the property interests the Port Authority requires for the Project; (b) accept a conveyance of the permanent property interests acquired for the Project; and (c) simultaneously lease such property interests to the Port Authority as part of the Airport Demised Premises; and it is further

RESOLVED, that the form of all documents necessary to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

**THE NEWARK INTERNATIONAL AIRPORT MONORAIL EXTENSION –
NORTHEAST CORRIDOR CONNECTION (NEC) PROJECT - INCREASE IN
AUTHORIZATION**

On June 6, 1996, the Board authorized a project to extend the existing monorail system at Newark International Airport to a rail station located on the Northeast Corridor (the "Monorail-NEC Connection Project") at a total estimated cost of \$250 million. In November 1996, the Federal Aviation Administration ("FAA") approved the Port Authority application to use Passenger Facility Charge ("PFC") revenue for the Monorail-NEC Connection Project in the amount of \$250 million.

Further staff examination subsequent to that time has made it clear that additional customer service-related modifications are necessary to ensure a full service intermodal facility. As a result, the project scope was modified to include: an increase in the number of train sets from two to six; the provision of a climate-controlled full service check-in and baggage handling facility; an expansion of the monorail station platform, the provision of climate control and restrooms in the monorail station and passenger waiting areas on the train platforms; the provision of a full height automatic door system in the monorail station; additional site amenities including signage and landscaping; and additional reimbursements, financial expense, general and administrative overhead and contingency dollars.

The Monorail-NEC Connection Project cost is now estimated at \$415 million and monorail service is now scheduled for the Fourth Quarter of 2001 rather than the original completion date of December 2000. This is due to the process involved in obtaining the City of Newark's consent to property acquisition and execution of a Supplemental Air Terminal Agreement embodying such consent, leading to delays in property acquisition for the Monorail-NEC Connection Project, and additional time to incorporate the revised station design. Climate control, full service check-in and the systems to support these customer service modifications will be incrementally placed in service over the subsequent 15-month period.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, O'Neill, Philibosian, Schweitzer and Song voting in favor; Commissioner Haley abstaining; none against:

RESOLVED, that an increase of \$165 million in project costs for the Monorail-NEC Connection Project resulting in a revised total estimated project cost of \$415 million which includes payments to contractors, allowances for extra work and net cost work, engineering and administration, property acquisition, reimbursement to New Jersey Transit Corporation and a provision for financing and escalation be and the same is hereby authorized.

**NEWARK INTERNATIONAL AIRPORT - TERMINAL A RAMP PAVEMENT
REHABILITATION - PROJECT AUTHORIZATION, AWARD OF CONTRACT
EWR-274.011 AND LEASE SUPPLEMENTS**

It was recommended that the Board authorize a project for the rehabilitation of the Terminal A aircraft ramp pavement at an estimated total project cost of approximately \$15 million; and the Executive Director to award Port Authority Contract EWR-274.011 - "Terminal A Ramp Pavement Rehabilitation", and to enter into lease supplements with American Airlines, Inc., USAirways, Inc., Continental Airlines, Inc., Trans World Airlines, Inc., Air Canada and United Air Lines, Inc. for the recovery of all Port Authority costs for this project in the form of additional rental over the remaining term of the leases on a financially self-sustaining pro rata basis.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that a project for the rehabilitation of the Terminal A aircraft ramp pavement at Newark International Airport at an estimated total project cost of approximately \$15 million, including payments to contractors, allowances for extra work (if necessary) and net cost work, planning, engineering, administrative and financial expenses and a project contingency (if necessary) be and hereby is authorized; and it is further

RESOLVED, that the Executive Director be and hereby is authorized, for and on behalf of the Port Authority, to a) take such action with respect to the award of purchase and construction contracts and contracts for professional and advisory services related to the foregoing project as he deems in the best interest of the Port Authority, including, without limitation, award of Port Authority Contract EWR-274.011 - "Terminal A Ramp Pavement Rehabilitation" at an estimated cost of \$9.5 million, and award of such other contracts as he deems appropriate, to the lowest bidder(s) qualified by reason of responsibility, experience and capacity to perform the work and whose bid price he deems reasonable; or to reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors; and to b) execute such other contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work (if necessary) and net cost work in connection with each contract, including supplemental agreements thereto; and to c) enter into such other agreements as may be necessary to effectuate the project; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into lease supplements with American Airlines, Inc., USAirways, Inc., Continental Airlines, Inc., Trans World Airlines, Inc., Air Canada and United Air Lines, Inc., substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that the form of all contracts and agreements, in each case, shall be subject to the approval of General Counsel or his authorized representative.

(Board - 9/24/98)

TETERBORO AIRPORT - ATLANTIC AVIATION CORPORATION - CONSENT TO AN AGREEMENT EXTENDING USE AND OCCUPANCY AGREEMENT TA-121 AND PROJECT AUTHORIZATION FOR THE PARTIAL RELOCATION OF TAXIWAY "P"

It was recommended that the Board authorize the Executive Director to enter into an agreement granting the Port Authority's consent to an extension of Use and Occupancy Agreement TA-121 between Johnson Controls World Services Inc. ("Johnson Controls") and Atlantic Aviation Corporation ("Atlantic") at Teterboro Airport ("Teterboro"), and assumption of such Agreement by the Port Authority upon the expiration of Johnson Controls' Airport Operating Agreement, providing for a) the extension of Agreement TA-121, for a term to expire twenty years from completion of a replacement Hangar 2, with the space thereunder not to include 68,000 square feet of an off-airport parking area, effective from the earlier to occur of one and one-half years from the execution of the extension agreement or the date of beneficial occupancy of the replacement hangar for Hangar 2 to be constructed as further described below; b) the demolition of Hangar 2, the building rental being abated upon the space being vacated and demolition begun, and construction of a new 30,000 square foot hangar together with adjoining office and shop space of approximately 7,500 square feet, Atlantic making a minimum investment of \$5 million; and the refurbishment of Hangar 3, with Atlantic making a minimum investment of \$500,000; c) subject to relocation of Taxiway P by the Port Authority or Johnson Controls, Atlantic to be obligated to take the land area created by the relocated Taxiway P immediately in front of its present space as additional land under the Agreement, and pave the same to provide for additional aircraft ramp; d) subject to authorization by the Board of the relocation of the administration building adjoining the Atlantic space and the demolition of the existing structure, Atlantic to be obligated to take the additional available land if and as offered by the Port Authority and construct thereon a second hangar of 40,000 square feet; and e) the Port Authority to make construction payments to Atlantic in a total amount not to exceed \$12 million in connection with the construction of the two new hangars and pavement of the incremental ramp area, all to be repaid as additional rental to the Port Authority over the term of the Agreement in addition to an annual rent for 1999 of \$1.03 million which would be increased in 2000 to approximately \$2.34 million and thereafter escalated annually by the higher of the increase in the CPI up to 6 percent or the prior year's rate. If construction is not completed by certain dates, surcharges equal to one-half of certain land rentals would be payable each month until completion.

It was also recommended that the Board authorize a project at Teterboro for the relocation of a section of Taxiway P, between Taxiway G and Taxiway L, at an estimated total project cost of approximately \$7.2 million, the Executive Director to have the option to award the necessary contracts covering such work or to enter into an agreement with Johnson Controls to allow Johnson Controls as airport manager to manage the project, with the Port Authority reimbursing Johnson Controls up to the aforesaid amount for the cost thereof.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement

granting the Port Authority's consent to a twenty-year extension of Use and Occupancy Agreement TA-121 between Johnson Controls World Services Inc. and Atlantic Aviation Corporation at Teterboro Airport substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that a project at Teterboro Airport for the relocation of a section of Taxiway P, between Taxiway G and Taxiway L, at an estimated total project cost of approximately \$7.2 million, including payments to contractors, allowances for extra work (if necessary) and net cost work, planning, engineering, administrative and financial expenses and a project contingency (if necessary) be and hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to a) take such action with respect to the award of purchase and construction contracts and contracts for professional and advisory services related to the foregoing project as he deems in the best interest of the Port Authority, including, without limitation, award of such contracts as he deems appropriate, to the lowest bidder(s) qualified by reason of responsibility, experience and capacity to perform the work and whose bid price he deems reasonable; or to reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors; to b) execute such other contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work (if necessary) and net cost work in connection with each contract, including supplemental agreements thereto; and to c) enter into such other agreements as may be necessary to effectuate the project; or to enter into an agreement with Johnson Controls whereby Johnson Controls would perform such relocation work and the Port Authority would reimburse Johnson Controls for all planning, design, and construction costs, including direct labor costs, associated with the relocation of Taxiway P up to an amount not to exceed \$7.2 million; and it is further

RESOLVED, that the form of all contracts and agreements required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

PORT NEWARK - UNIVERSAL MARITIME SERVICE CORP. - SURRENDER OF PORT AUTHORITY-OWNED CONTAINER CRANES 299 AND 300 AND SEA-LAND SERVICE, INC. PURCHASE OF CONTAINER CRANES 299, 300, 282 AND/OR 569

It was recommended that the Board authorize the Executive Director to (1) accept the surrender of either or both of Paceco Cranes Nos. 299 and 300 ("the UMS Cranes") now leased to Universal Maritime Service Corp. ("UMS") under its lease at Port Newark; (2) declare the UMS Crane(s) surplus; (3) sell the UMS Crane(s) to Sea-Land Service, Inc. ("Sea-Land"); (4) declare either or both of Paceco Cranes Nos. 282 and 569 ("the Maher Cranes") now leased to Maher Terminals, Inc. ("Maher") under its lease at the Elizabeth-Port Authority Marine Terminal surplus; and (5) sell the Maher Crane(s) to Sea-Land. In addition to the foregoing, the Executive Director may purchase spare parts for the UMS Cranes from UMS and sell the parts to Sea-Land in the event that Sea-Land wishes to acquire them. UMS will have its rent abated at the annual rate of \$338,560 if it surrenders UMS Crane No. 300.

Sea-Land will purchase the UMS Crane(s) and/or the Maher Crane(s) and, if it chooses, the spare parts for a price determined by a Port Authority appraisal or by averaging three appraisals. If averaging is necessary, Sea-Land and the Port Authority will each select an appraiser and they or the parties will jointly select a third appraiser. Costs for all appraisal services shall be shared equally between Sea-Land and the Port Authority. If Sea-Land wishes to acquire the spare parts, the Port Authority will pay UMS the appraised value of the spare parts as determined above by means of a rent credit. Additional payments may be made by the Port Authority to UMS as consideration for the UMS Crane(s), with these payments to be reimbursed by Sea-Land to the Port Authority. The UMS Crane(s) and/or the Maher Crane(s) and the spare parts will be sold to Sea-Land in their "as is" condition, and Sea-Land will be responsible for the removal of any of said Cranes from the respective tenants' premises.

Sea-Land intends to transport the cranes that it purchases to Puerto Rico. Sea-Land will be required to keep the cranes in Puerto Rico or relocate them back to the Port of New York and New Jersey. Additionally, Sea-Land will agree not to relocate or sell the CRANES to any competing ports.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into agreements with Universal Maritime Service Corp., Sea-Land Service, Inc. and Maher Terminals, Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreements shall be subject to the approval of General Counsel or his authorized representative.

**PORT NEWARK - FAPS, INC. - LEASE AMENDMENT - LPN-169, SUPPLEMENT
NO. 11**

It was recommended that the Board authorize the Executive Director to enter into an agreement with FAPS, Inc. ("FAPS") to expand its permitted use of part of the premises under Lease No. LPN-169 and to add approximately 1.5 acres of open area to the premises. FAPS now is permitted to use its premises for the storage, preparation and distribution of motor vehicles. Under the agreement, it will be permitted to use up to ten acres of a specified part of its premises for the storage and distribution of waterborne general cargo transported to or from Port Newark by Trailer Bridge, Inc., a coastal barge service. The additional 1.5 acres will constitute a portion of the premises that may be used for general cargo.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with FAPS, Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

PORT NEWARK - AMERICAN STEVEDORING, INC. - LEASE AMENDMENT

It was recommended that the Board authorize the Executive Director to enter into an agreement with American Stevedoring, Inc. ("ASI") to amend its existing lease and to provide for (1) the letting of an additional open area of approximately 4.5 acres and approximately 126 linear feet of berthing area at Port Newark, (2) an increase in construction reimbursement, and (3) the revision of lease commencement, rental start dates and use clause for the use of the berthing area.

ASI will be reimbursed by the Port Authority up to \$3.7 million (an increase of \$1.45 million over the previously authorized amount of \$2.25 million) to cover ASI's relocation expenses, construction of barge terminal-related improvements and the cost to demolish Shed 140. ASI will pay the Port Authority a rental for the additional open space and the berthing area as stipulated in the lease amendment.

The term of the letting is three (3) years and no subsurface investigation will be performed on the demised premises prior to tenant occupancy and/or operations. If any contaminants are found during construction and/or demolition, the Port Authority would reimburse ASI for any cost of remediation to be performed.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an amendment of lease with American Stevedoring, Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**ELIZABETH-PORT AUTHORITY MARINE TERMINAL - EAST COAST
WAREHOUSE & DISTRIBUTION CORP. - LEASE EP-162 - LEASE
AMENDMENT**

It was recommended that the Board authorize the Executive Director to enter into a lease amendment with East Coast Warehouse & Distribution Corp. ("East Coast") to modify the rent and extend the letting of Building 1130 and adjacent open area at the Elizabeth-Port Authority Marine Terminal for a term of fifteen years.

Under the terms of the proposed agreement as outlined to the Board, the rent payable to the Port Authority will increase during the last two years of the existing term and, beginning in November 2003, will be subject to periodic escalation based upon increases in the Consumer Price Index subject to certain minimum and maximum percentages.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an amendment of lease with East Coast Warehouse & Distribution Corp., substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**HOWLAND HOOK MARINE TERMINAL - HOWLAND HOOK CONTAINER
TERMINAL, INC. - LEASE AMENDMENT FOR CAPITAL EXPENDITURES
FOR THE PEINER CONTAINER CRANE**

It was recommended that the Board authorize the Executive Director to enter into an agreement with Howland Hook Container Terminal, Inc. ("HHCT") under which HHCT will refurbish the Peiner container crane located at the Howland Hook Marine Terminal ("Terminal") and will be reimbursed by the Port Authority for the performance of the work in an amount not to exceed \$1.2 million. The work will consist primarily of the replacement of the electrical systems and controls with a state-of-the-art modular computerized electrical operating system and other related modifications. The right of HHCT under its lease of the Terminal to terminate its letting of the Peiner container crane will be cancelled.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Howland Hook Container Terminal, Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

HOBOKEN SOUTH WATERFRONT DEVELOPMENT - APPROVAL OF COVENANT NOT TO CONVEY INTERESTS IN HOBOKEN BLOCK A WITHOUT PRIOR WRITTEN CONSENT OF SJP PROPERTIES COMPANY, THE DESIGNATED BLOCK A DEVELOPER

It was recommended that the Board authorize the Executive Director to represent and covenant to SJP Properties Company ("SJP") of Parsippany, New Jersey, the designated developer of Hoboken South Waterfront Block A, that following SJP's execution of a Block A Lease with the City of Hoboken (the "City") and the Port Authority and for 22 years thereafter, the Port Authority will not sell, assign, transfer or convey its interests in Block A, or any portion thereof, or any permits or approvals affecting Block A, without SJP's written consent.

This action will provide assurance to SJP that the payments in lieu of taxes ("PILOT") arrangement for Block A will not be jeopardized during the first 22 years of the PILOT as a result of any action by the Port Authority to convey its interests in the Block A property.

On June 30, 1998, the Port Authority, the City and SJP executed a revised Pre-Development Agreement ("PDA") for the development of 1.1 million square feet of commercial office and related retail space on Block A. Attached to the PDA and forming a part thereof were forms of lease outlining the prospective obligations of SJP, the City and the Port Authority. A key element of the rental provisions was that SJP would pay PILOTs to the City instead of real estate taxes. A PILOT arrangement for Block A (as well as the other two development blocks), however, is based upon the Port Authority's fee ownership (as a tax-exempt entity) of the property. In negotiations relating to the PILOTs, SJP expressed reluctance to enter into the Block A Lease without an agreement that it would not lose the PILOT benefit, particularly during the first 22-year period, in which SJP receives a more favorable PILOT escalation rate, because of any action by the Port Authority to sell or otherwise convey its property interests. Accordingly, Port Authority staff agreed in the forms of lease to allow SJP to offset against its basic rent to the Port Authority increases created during the 22-year period by SJP having to pay taxes instead of PILOTs as a result of a Port Authority conveyance of the Block A property, or alternatively, to agree that the Port Authority would not convey its interests in the Block A property for the 22-year period without SJP's written consent, provided that SJP's lease is not terminated by reason of SJP's default.

When the Port Authority and the City of Hoboken entered into the Municipal Development Agreement in 1995, it was not contemplated that any such conveyance would occur except for the sale of the property back to the City under the "Conditions Precedent," as defined in the Municipal Development Agreement. The Conditions Precedent include, among other things, provisions for the requisite return on the total amount of Port Authority investment in the project. A sale of the property under the Conditions Precedent would not likely occur for twenty years or more.

(Board – 9/24/98)

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O'Neill, Philiposian, Schweitzer and Song voting in favor; Commissioner Donovan abstaining; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to represent and covenant to SJP Properties Company ("SJP") of Parsippany, New Jersey, the designated developer of Hoboken South Waterfront Block A, that following SJP's execution of a Block A lease with the City of Hoboken and the Port Authority and for 22 years thereafter, the Port Authority will not sell, assign, transfer or convey its interests in Block A, or any portion thereof, or any permits or approvals affecting Block A, without SJP's written consent; the form of such covenant and representation shall be subject to the approval of General Counsel or his authorized representative.

QUEENS WEST WATERFRONT DEVELOPMENT - POWER AUTHORITY OF THE STATE OF NEW YORK - AMENDMENT TO EASEMENT

It was recommended that the Board authorize the Executive Director to relocate a Power Authority of the State of New York ("Power Authority") ten-foot wide easement alignment. This new alignment will correct a technical error that already existed when the Port Authority purchased the property.

The Port Authority had acquired the former Daily News property in Hunters Point, Long Island City, Queens from the News Building Inc. in September 1985 (pursuant to a Board Authorization of August 8, 1985) subject to an existing ten-foot easement on the property in favor of the Power Authority for the installation of 345-kv generator leads and associated facilities and the transmission of electricity. As a result of a recent Power Authority survey, it was found that a certain portion of the underground generator leads was installed outside the existing easement boundaries.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to relocate a Power Authority of the State of New York ten-foot wide easement alignment, as set forth below:

Former Easement Area

Commencing at the corner formed by the intersection of the Northerly side of 54th Avenue and the Westerly side of Second Street, Borough of Queens;

Continuing Northerly along the Westerly side of Second Street a distance of 199.26 feet;

Continuing Westerly at a 90 degree angle to the Westerly side of Second Street, a distance of 110.00 feet to the point or place of beginning of the easement;

Thence Northerly and parallel to the Westerly side of Second Street a distance of 15.00 feet;

Thence Westerly on an interior angle of 90 degrees with the previous course a distance of 83.591 feet;

Thence Westerly on an interior angle of 190 degrees-43'-54" with the previous course a distance of 77.559 feet;

Thence Westerly on an interior angle of 171 degrees-00'-18" with the previous course a distance of 289.175 feet to the Westerly line of a grant of land under water to Jonathan Crane and Charles Ely, dated August 31, 1853;

Thence Southerly along the Westerly line of the aforementioned grant on an interior angle of 97 degrees-07'-16" with the previous course a distance of 15.120 feet;

Thence Easterly on an interior angle of 82 degrees-52'-44" with the previous course, a distance of 289.888 feet;

Thence Easterly on an interior angle of 188 degrees-59'-42" with the previous course, a distance of 77.769 feet;

Thence Easterly on an interior angle of 169 degrees-16'-06" with the previous course, a distance of 85.00 feet to the point or place of beginning.

New Easement Area

A strip of land ten (10) feet in width, the centerline of which is described as follows:

Beginning at a point on the division line between lands now or formerly of The Port Authority of New York & New Jersey (tax block 6, lot 1) on the west and lands now or formerly of the Pennsylvania Tunnel & Terminal Railroad Company (tax block 6, lot 3) on the east, said point being 261.9 feet distant northerly measured at right angles from Station 245+69.2 of the hereinafter described survey baseline;

thence westerly through said lands of The Port Authority of New York & New Jersey the following six (6) courses and distances: 1) on a curve to the right having a radius of 140 feet a distance of 14.6 feet to a point, said point being 262.4 feet distant northerly measured at right angles from Station 245+83.9 of said survey baseline; 2) 19.9 feet to a point, said point being 264.1 feet distant northerly measured at right angles from Station 246+03.7 of said survey baseline; 3) on a curve to the left having a radius of 300 feet a distance of 63.1 feet to a point, said point being 262.9 feet distant northerly measured at right angles from Station 246+66.7 of said survey baseline; 4) 96.6 feet to a point, said point being the center of a manhole located 264.4 feet distant northerly measured at right angles from Station 247+63.3 of said survey baseline; 5) 13.6 feet to a point, said point being the center of a manhole located 264.2 feet distant northerly measured at right angles from Station 247+76.9 of said survey baseline; 6) 242.8 feet to a point on the east line of the East River, also being the exterior line of water grant to Jonathan Crane and Charles Ely, dated Aug. 31, 1853, said point being 240.6 feet distant northerly measured at right angles from Station 250+41.6 of said survey baseline, containing 0.103 acres, more or less; and it is further

RESOLVED, that all documents which may be required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

PIER 40 – SETTLEMENT OF OUTSTANDING LEASE ISSUES WITH THE STATE OF NEW YORK

It was recommended that the Board authorize the Executive Director to enter into an agreement with the State of New York (the “State”) for the Port Authority to provide \$6.9 million for structural and mechanical/electrical repairs at Pier 40 in settlement of outstanding issues concerning a lease between the State and the Port Authority for Pier 40. The lease terminated on December 31, 1996.

The State originally sought \$11.3 million from the Port Authority for immediate and future repairs to restore the pier for various uses, including repairs for the roof, mechanical/electrical systems, piles, and cathodic protection system. The recommended \$6.9 million settlement will accommodate the State for structural and electrical/mechanical repairs immediately necessary for current occupancy. The State will be responsible for the piles and cathodic protection system repairs, as well as all future repairs.

This settlement will end the Port Authority’s involvement with this facility. The agreement will allow the State to bring Pier 40 up to a state of good repair and will enable the pier to be used for more varied activities in addition to its present warehousing/parking functions.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O’Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with the State of New York for the Port Authority to provide \$6.9 million for structural and mechanical/electrical repairs at Pier 40; and it is further

RESOLVED, that all documents which may be required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

**THE WORLD TRADE CENTER - LANDMARK EDUCATION CORPORATION –
LEASE AGREEMENT**

It was recommended that the Board authorize the Executive Director to enter into a lease agreement with Landmark Education Corporation (“LEC”), upon the terms outlined below or on such other terms as the Executive Director deems appropriate, provided that if the term of the letting or the gross effective rent is not substantially in accordance with that outlined to the Board, the terms of the lease agreement will be subject to the approval of the Committee on Operations. It was also recommended that the Board authorize the Executive Director to enter into a brokerage agreement with Grubb & Ellis, Inc., in connection with the lease agreement, providing for the payment of a commission not exceeding an amount calculated in accordance with the rates authorized by the Board at its meeting of August 11, 1977.

The proposed lease covers the letting of approximately 44,400 rentable square feet of office space consisting of the entire fifteenth floor of One World Trade Center and approximately 50 rentable square feet on the seventh floor Mechanical Equipment Room in One World Trade Center for a term of approximately 15 years and seven months commencing on or about October 15, 1998, at an aggregate basic rental over the full term of approximately \$25 million in addition to operating and maintenance cost escalation and increases in payments in lieu of taxes as provided in the lease agreement. LEC may be granted certain renewal rights in the lease agreement.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O’Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into: (i) a lease agreement with Landmark Education Corporation, substantially in accordance with the terms outlined above, or on such other terms as the Executive Director deems appropriate, subject to the conditions set forth in the following delegation; and (ii) a brokerage agreement with Grubb & Ellis, Inc., substantially in accordance with the terms outlined above; the form of the agreement in each case shall be subject to the approval of General Counsel or his authorized representative; and it is further

RESOLVED, that the Committee on Operations be and it hereby is authorized to approve the final terms of the lease agreement in the event that the gross effective rent or the term of the letting is not substantially in accordance with that outlined to the Board.

THE WORLD TRADE CENTER - THE BANK OF YOKOHAMA, LTD. - LEASE SURRENDER

It was recommended that the Board authorize the Executive Director to enter into a lease surrender agreement with The Bank of Yokohama, Ltd. ("Yokohama") providing for the surrender of its One World Trade Center premises consisting of approximately 16,000 rentable square feet of space, effective on or about January 31, 1999, for a payment to the Port Authority in the amount of approximately \$2.25 million.

Yokohama, a Japanese bank, is in occupancy under a lease having a present expiration date of November 20, 2002; however, it will cease all branch banking operations in the United States by January 31, 1999, but will maintain a representative office in The World Trade Center. Yokohama will not have any restoration obligation in the premises but will be required to remove its personal property.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease surrender agreement with The Bank of Yokohama, Ltd., substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that the form of the surrender agreement shall be subject to the approval of General Counsel or his authorized representative.

SETTLEMENT OF CLAIM - THE PORT AUTHORITY OF NEW YORK AND NEW JERSEY v. CHEVRON U.S.A., INC.

It was recommended that the Board authorize General Counsel to settle the action entitled The Port Authority of New York and New Jersey v. Chevron U.S.A., Inc., ("Chevron"), by accepting the sum of \$195,000 to resolve an environmental remediation claim by The Port Authority. In return, the Port Authority will issue a General Release and Stipulation of Discontinuance with prejudice.

The Port Authority brought this lawsuit against Chevron, seeking to recover the cost of environmental damages to a gasoline station located at John F. Kennedy International Airport formerly operated by Gulf Oil Company, Chevron's predecessor. The Port Authority had also filed suit against Amoco Oil Company ("Amoco"), another prior operator of the station, and that action was previously settled.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to settle the pending civil action entitled The Port Authority of New York and New Jersey v. Chevron U.S.A., Inc., by accepting the sum of \$195,000 from Chevron in return for issuing a General Release and Stipulation of Discontinuance with prejudice.

SETTLEMENT OF CLAIMS - RECREATION WORLD, INC. v. THE PORT AUTHORITY OF NEW YORK AND NEW JERSEY AND ROBERT CATLIN; PACIFIC INSURANCE COMPANY, LTD. v. THE PORT AUTHORITY OF NEW YORK AND NEW JERSEY

It was recommended that the Board authorize General Counsel to settle the pending actions entitled Recreation World Inc. v. The Port Authority of New York and New Jersey and Robert Catlin and Pacific Insurance Company, Ltd. v. The Port Authority of New York and New Jersey by paying to Recreation World, Inc. ("Recreation World") the sum of \$450,000, inclusive of attorneys' fees, interest, costs and disbursements, and by discontinuing with prejudice the counterclaim by the Port Authority against Recreation World for \$215,566. In exchange, the Port Authority and Robert Catlin will receive General Releases and Stipulations of Discontinuance with prejudice from Recreation World and Pacific Insurance Company, Ltd.

The Port Authority terminated an agreement, with respect to which numerous disputes had arisen, under which Recreation World built and operated a skating rink on the Austin J. Tobin Plaza (the "Plaza"). Subsequent to the termination, the Port Authority removed the rink from the Plaza.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to settle the pending civil actions entitled Recreation World, Inc. v. The Port Authority of New York and New Jersey and Robert Catlin and Pacific Insurance Company, Ltd. v. The Port Authority of New York and New Jersey by paying to Recreation World, Inc. ("Recreation World"), the sum of \$450,000 inclusive of attorneys' fees, interest, costs and disbursements and by discontinuing with prejudice the counterclaim by the Port Authority against Recreation World for \$215,566. In exchange, the Port Authority and Robert Catlin will receive General Releases and Stipulations of Discontinuance with prejudice from Recreation World and Pacific Insurance Company, Ltd.

SETTLEMENT OF CLAIM - CARLOS MARTINEZ v. JOHN GAYSON AND THE PORT AUTHORITY OF NEW YORK AND NEW JERSEY

It was recommended that General Counsel be authorized to enter into a settlement with Carlos Martinez and his attorney in the amount of \$160,000, inclusive of attorney's fees, interest, costs and disbursements, in exchange for a general release and satisfaction of judgment in favor of the Port Authority and a Port Authority police officer.

The settlement will fully resolve plaintiff's claim for damages arising from an incident on September 22, 1994, at John F. Kennedy International Airport in which plaintiff claims that he was subjected to battery, malicious prosecution and violation of his civil rights due to the action of a Port Authority police officer. The plaintiff was in custody for five hours and was acquitted of criminal charges six months later. During the pendency of the criminal charges, the plaintiff was unemployed; he was not permitted to work as a security guard at John F. Kennedy International Airport.

At the trial of plaintiff's claim, a jury awarded plaintiff \$310,000 in compensatory damages against the Port Authority and the arresting officer. Plaintiff was also awarded \$10,000 in punitive damages against the officer. Upon the motions of the Port Authority and the police officer, the District Court ordered that a new trial be held to determine damages if plaintiff did not consent to accept the entry of a judgment for \$150,000 in compensatory damages, and \$10,000 in punitive damages. Plaintiff has informed the court that he will accept \$160,000 in damages. In addition, the District Court awarded plaintiff \$39,775 in attorney's fees against the police officer. Thus, the total amount of the judgment as modified is \$199,775.

If this action were not settled, and the judgment were affirmed on appeal, the Port Authority would be liable to plaintiff to satisfy the \$150,000 compensatory damages award, and would be obligated to reimburse the police officer for the \$39,775 in attorney's fees already awarded to plaintiff, and any additional attorney's fees awarded because of plaintiff's opposition to the appeal.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to settle the pending action entitled Carlos Martinez v. John Gayson and The Port Authority of New York and New Jersey, for the total amount of \$160,000, inclusive of attorney's fees, interest, costs and disbursements, by payment of said amount to plaintiff and his attorney in exchange for a general release and satisfaction of judgment, in full settlement of the claim, in favor of the Port Authority and the police officer.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period June 1, 1998 to June 30, 1998..

- (A) Lump Sum
 (B) Classified Work
 (C) Net Cost - amount in the "Total Authorized" column represents the estimated net cost amount. However, the amount in the "Total Payments" column is the authorized net cost amount.
 (D) Extra Work
 (E) The difference between "Total Authorized" and "Total Payments" represents a credit change order in the amount of \$86,645.22 for a reduction in the scope of work.
 (F) Memorandum of Justification dated 12/12/97, increasing extra work in the amount of \$35,000.
 (G) The difference between "Total Authorized" and "Total Payments" represents a credit change order in the amount of \$150,000 for deleted work.
 (H) Per AP 45-1.01.5, classified work may exceed authorization amount limited to 10% or \$250,000 (whichever is less) without further authorization.
 (I) Premium for furnishing performance and payment bond as provided for in the contract.
 (J) The difference between "Total Authorized" and "Total Payments" represents credit change orders in the amount of \$5,460 for deleted work.
 (K) Memorandum of Justification dated 6/17/96, increasing lump sum work in the amount of \$294,000.
 (L) Memorandum of Justification dated 6/17/96, increasing net cost work in the amount of \$70,000.
 (M) Per AP 45-1.01.5, uncommitted funds in extra work are permitted to be utilized against additional cost in classified work not covered under (H).
 (N) Memorandum of Justification dated 1/15/97, authorizing Supplemental Agreement No. 1 in the amount of \$552,440 for lump sum work.

- (O) Memorandum of Justification dated 1/15/97, authorizing Supplemental Agreement No. 1 in the amount of \$28,650 for extra work.
- (P) The difference between "Total Authorized" and "Total Payments" represents a credit change order in the amount of \$82,629 for changes in the scope of work.
- (Q) Memorandum of Authorization dated 3/18/98, increasing classified work in the amount of \$195,124.
- (R) Memorandum of Authorization dated 7/2/97, increasing extra work in the amount of \$20,000.
- (S) The difference between "Total Authorized" and "Total Payments" represents a credit change order in the amount of \$75,000.
- (T) Memorandum of Authorization dated 12/02/96, authorizing Supplemental Agreement No.1 in the amount of \$7,500.
- (U) Memorandum of Authorization dated 9/5/97, increasing extra work in the amount of \$16,200.
- (V) Memorandum of Authorization dated 8/17/94, increasing extra work in the amount of \$250,000.
- (W) Memorandum of Justification dated 3/16/95, increasing extra work in the amount of \$550,000.
- (X) Memorandum of Justification dated 5/7/96, authorizing Supplemental Agreement No.1 in the amount of \$1,494,000 for lump sum work.
- (Y) Memorandum of Justification dated 5/7/96, authorizing Supplemental Agreement No.1 in the amount of 100,000 for net cost work.
- (Z) Memorandum of Justification dated 5/7/96, authorizing Supplemental Agreement No.1 in the amount of \$75,000 for extra work.
- (AA) The difference between "Total Authorized" and "Total Payments" represents a credit change order in the amount of \$4,144 for lump sum work.

- (A) Lump Sum
- (B) Classified Work
- (C) Net Cost - amount in the "Total Authorized" column represents the estimated net cost amount. However, the amount in the "Total Payments" column is the authorized net cost amount.
- (D) Extra Work
- (E) The difference between "Total Authorized" and "Total Payments" represents payments as lump sum under Net Cost Provision, clause 2E.C.5 page 17 of the contract specifications.
- (F) Memorandum of Authorization dated 01/10/97, increasing extra work in the amount of \$18,000.
- (G) Memorandum of Authorization dated 10/14/97, increasing classified work in the amount of \$50,000.
- (H) Per AP 45-1.01.5, classified work may exceed authorization amount limited to 10% or \$250,000 (whichever is less) without further authorization.
- (I) Premium for furnishing performance and payment bond as provided for in the contract.
- (J) Memorandum of Authorization dated 9/25/96, increasing classified work in the amount of \$250,000.
- (K) Memorandum of Authorization dated 4/1/97, increasing extra work in the amount of \$10,000.
- (L) Memorandum of Authorization dated 3/4/97, authorizing Supplemental Agreement No. 1 which provides for an increase of \$158,665 for lump sum work.
- (M) Memorandum of Authorization dated 3/4/97, authorizing Supplemental Agreement No. 1 which provides for an increase of \$12,640 for extra work.

(Board - 9/24/98)

Investments & Deposits

The Committee on Finance reported, for information only, that in accordance with authority granted by the Committee, the Executive Director had authorized the following security transactions, time accounts, interest rate exchange contracts and variable rate master note agreements during the period July 1, 1998 through July 31, 1998.

Report A:

Purchase of Port Authority Bonds

(Unless otherwise noted, all Port Authority Bonds are callable at par).

Teterboro Airport - Airport Liability Insurance	\$25M per occurrence SIR - None	01/16/98 to 01/16/99	Paid by Johnson Control World Services	Lloyd's of London

RENEWAL NOTES

- Premium proposals were competitively solicited for Police Professional Liability Insurance from brokers, Meeker Sharkey & MacBean, E.G. Bowman Co., Inc., an MBE and Massey Insurance Agency, an MBE/WBE. Massey Insurance Agency secured a proposal from General Star National Insurance Company, which provided the appropriate coverage at the most cost effective premium. General Star National Insurance Company will provide this coverage, which applies to security operations at the airports, with a limit of \$4 million each occurrence and in the aggregate excess of a \$10,000 deductible, reduced from \$25,000, with a maximum annual deductible limit of \$40,000, for a one-year period commencing January 5, 1998. General Star's premium proposal of \$89,000 reflects a 25% reduction from the expiring premium with policy terms and conditions remaining unchanged. Premiums for the Police Professional Liability Insurance are fully reimbursable from the airlines.
- Risk Financing staff arranged for the renewal purchase of Automobile Liability Insurance for a one-year term effective March 1, 1998, with General Accident Insurance Company of New York through incumbent broker Rivera and Kaplan, Inc., an MBE. General Accident's renewal premium of \$22,468 includes a return premium credit on the expiring policy of \$103 due to policy amendments and reflects a 13% reduction from the expiring premium of \$25,706. This placement was competitively marketed in 1997. The coverage provides appropriate financial protection to the Port Authority, as insured, for the use of Port Authority vehicles by designated executive staff.
- The Commercial Insurance package covering the activities of the TransitCenter's Satellite Office located in Stamford, Connecticut was renewed for a one-year term effective May 1, 1998 with General Accident Insurance Company through the incumbent broker Aon Group, Inc. at an annual premium of \$416.00 unchanged from the previous renewal.

TransitCenter, an office within TB&T, has been awarded a federally funded grant to establish a satellite office in Stamford, Connecticut, to market and sell Transitchek to employers in the state. The original two year grant has been extended for one year. In addition, we arranged for the renewal purchase of workers' compensation insurance covering the temporary sale representative.

- In connection with the Office of the Washington Representative located in the District of Columbia, staff arranged for the renewal purchase of workers' compensation insurance effective May 7, 1997. This coverage was placed with Travelers Casualty & Surety Company for a one-year term through the incumbent broker E.G. Bowman Co., Inc., an MBE/WBE, at an estimated annual premium of \$2,358.00. Since premiums are established by statute in the District of Columbia, there is no rate advantage to the Port Authority in soliciting competitive premium quotations.

- Staff successfully arranged for the renewal purchase of Excess Boiler and Machinery Insurance for a one-year term effective July 1, 1998, with Chubb Group of Insurance Companies through incumbent broker Massey Insurance Agency, an MBE/WBE, at an annual premium of \$40,000. This placement was competitively marketed in 1997. In addition to insurance coverage, the policy will enable the Port Authority and its tenants to continue to obtain on-site inspection and loss prevention services.
- At Teterboro Airport, liability insurance in the amount of \$25 million per occurrence with no deductible was renewed for a one-year term effective January 16, 1998. In addition, the required Property Damage and Boiler and Machinery was renewed for a three-year term effective April 1, 1998. These renewals were accomplished and paid for by Johnson Control World Services Inc., the operator of the airport.

Whereupon, the meeting was adjourned.

NEW YORK

Hon. Charles A. Gargano, Vice-Chairman
 Hon. David S. Mack
 Hon. George D. O'Neill
 Hon. Melvin L. Schweitzer
 Hon. Anastasia M. Song

The public meeting was called to order by Chairman Eisenberg at 2:55 p.m. and ended at 3:13 p.m. The Board also met in executive session prior to the public meeting (Vice-Chairman Gargano was present during executive session and for a portion of the public board meeting).

Action on Minutes

The Secretary submitted for approval Minutes of the meeting of September 24, 1998. He reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. He reported further that the time for action by the Governors of New York and New Jersey has expired.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Audit Committee

The Audit Committee reported, for information, on matters discussed in executive session at its meeting on October 29, 1998, which included discussion of internal audit matters, and the report was received.

Report of Committee on Finance

The Committee on Finance reported, for information, on action taken and matters discussed in executive session at its meeting on October 29, 1998, which included a discussion of contract matters and matters related to, or which could impact upon, the issuance, sale, resale, or redemption of Port Authority bonds, notes or other obligations, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Capital Programs and Port Planning

The Committee on Capital Programs and Port Planning reported, for information, on matters discussed in executive session at its meeting on October 29, 1998, which included a discussion of matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with which we deal, and the report was received.

Report of Committee on Operations

The Committee on Operations reported, for information, on matters discussed in executive session at its meeting on October 29, 1998, which included discussion of contract and lease matters and matters related to the sale of real property, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Construction

The Committee on Construction reported, for information, on matters discussed in executive session at its meeting on October 29, 1998, which included a discussion of contract and lease matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Staff Report

A presentation was made by staff on the Tunnels, Bridges and Terminals Facility Appearance Program.

Chairman Eisenberg noted that the Medal Awards honoring Port Authority employees and others for outstanding service were included in the Consent Calendar and announced the approval of the presentation of the Robert F. Wagner Distinguished Public Service Medal to Louis J. LaCapra, Chief of Staff.

**JOHN F. KENNEDY INTERNATIONAL AIRPORT - EMERGENCY REPLACEMENT
BUS SERVICE AND INTERIM BUS ACQUISITION**

It was recommended that the Board authorize the Executive Director to:

- 1) enter into a negotiated agreement at an estimated cost of \$9.9 million to provide bus service for the Long Term Parking Lot/Howard Beach Subway Station, Central Terminal Airline Connection, Employee Shuttle, Autolink, Affinity, and the Blue Parking Lot Shuttle operation at John F. Kennedy International Airport (“JFK”) for the period December 9, 1998 through October 1, 1999 (the “interim period”);
- 2) purchase the existing fleet of 36 New Flyer buses at JFK from the current bus service provider at their unamortized value not to exceed \$1.8 million;
- 3) authorize payment for rehabilitation work on the said existing fleet of 36 New Flyer buses in an amount not to exceed \$500,000;
- 4) lease or purchase up to eighteen 35-ft. to 40-ft. used buses for the employee shuttle service at JFK, until a new fleet becomes available by the fall of 1999, at an estimated cost of \$900,000;
- 5) lease fourteen cut-away mini-buses, presently being used for the parking lot shuttle service at JFK for continued use in that service during the interim period, at an estimated cost of \$320,000;
- 6) purchase the existing fleet of four New Flyer low-floor buses, now in operation at LaGuardia Airport, from Hudson General LLC, for use at JFK at their unamortized value not to exceed \$270,000, which buses were previously authorized to be purchased directly by the bus service provider at JFK;
- 7) order extra work during the term of the agreement with a new bus contractor at JFK, with additional payments for such extra work not to exceed six percent of the estimated cost of the agreement as set forth in item 1 above; and
- 8) exercise, at his discretion, a month-to-month extension option of the agreement to be negotiated with a new bus contractor at JFK at an estimated cost not to exceed \$1 million per month, for no more than five months beyond the interim period, on the same terms and conditions.

Pursuant to the foregoing report the following resolution was adopted with Commissioners Donovan, Eisenberg, Janiszewski, Lewis, Mack, O’Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into agreements and take other action necessary to effectuate the retention of a new bus operator for an interim period to provide bus service at John F. Kennedy International Airport, substantially in accordance with the terms and

conditions set forth above; the form of the agreements shall be subject to the approval of General Counsel or his designated representative.

JOHN F. KENNEDY INTERNATIONAL AIRPORT - CONSTRUCTION OF TAXILANE "SB" AND INFRASTRUCTURE AT THE FORMER HANGAR 9 AND 9A SITE - PROJECT AUTHORIZATION AND AWARD OF CONTRACT JFK - 134.173

On February 8, 1996, the Board authorized the Executive Director to enter into an agreement with Korean Air Lines Co., Ltd. ("KAL") covering the letting of approximately 21 acres of a 43-acre parcel at the former Hangar 9 and 9A site at John F. Kennedy International Airport ("JFK") for the development of an air cargo facility, which development is in progress. It was contemplated that the balance of the parcel would be subdivided for the development of two additional air cargo leaseholds.

In order to support the site development, it was recommended that the Board authorize a project for the construction of Taxilane "SB," site infrastructure and other improvements necessary to facilitate development of the KAL and other air cargo leaseholds. The construction of Taxilane "SB," which will run from Taxiway "SB" through the development site, will provide large cargo aircraft unrestricted access to all three leaseholds. Taxiway "SB" itself will be reconfigured to improve aeronautical circulation. The site development will also include the construction of an overnight aircraft parking position to replace an existing position located within a planned leasehold and the installation of infrastructure for site utilities. KAL may perform certain portions of the taxilane and infrastructure work on behalf of the Port Authority for which it will be reimbursed by the Port Authority up to \$2 million. It is anticipated that 100 percent of the cost of this project will be recoverable from site lessees and the flight fee formula.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Janiszewski, Lewis, Mack, O'Neill, Philibosian and Song voting in favor; Commissioner Schweitzer abstaining; none against:

RESOLVED, that a project for the construction of Taxilane "SB," site infrastructure and other improvements necessary to support the development of air cargo facilities at the former Hangar 9 and 9A site at John F. Kennedy International Airport at a total estimated project cost of \$15 million, including reimbursement of up to \$2 million to Korean Air Lines Co., Ltd. for work performed on behalf of the Port Authority, payments to contractors, allowance for extra work (if necessary) and net cost work, administrative, engineering and financial expenses and a project contingency (if necessary) be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to:

a) take action with respect to construction contracts and contracts for professional and advisory services related to the foregoing project as he deems in the best interest of the Port Authority, including, without limitation, award of Contract JFK-134.173, "Construction of Taxilane 'SB,'" at an estimated cost of \$11.5 million, and other contracts as appropriate, to the lowest bidder qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems

reasonable; or reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors;

b) execute contracts or supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and order extra work (if necessary) and net cost work in connection with each contract; including supplemental agreements thereto; and

c) enter into such other agreements as may be necessary to effectuate the project; and it is further

RESOLVED, that the form of all contracts and agreements in connection with the foregoing shall be subject to the approval of General Counsel or his authorized representative.

(Board – 10/29/98)

**JOHN F. KENNEDY INTERNATIONAL AIRPORT - DESIGN AND CONSTRUCTION
OF AN AIRCRAFT RESCUE AND FIREFIGHTING FUEL SPILL TRAINER -
CONTRACT JFK-110.115B - SETTLEMENT OF CLAIM**

On May 26, 1994, the Executive Director authorized the award of Contract JFK-110.115B to Grace Industries, Inc./Rugg-Knopp, Inc., a Joint Venture (the "Joint Venture"), the only responsive bidder, at its proposal price in the lump sum amount of \$10,027,793, and the ordering of extra work up to \$1,505,000. This contract provided for the design and construction of a computerized propane firefighting trainer at John F. Kennedy International Airport. During the performance of the contract, the Executive Director authorized a Supplemental Agreement for improvements to the West Hangar Road and Building 213 parking lot in the amount of \$723,000, and an associated increase in the Extra Work authorization from \$1,505,000 to \$1,577,000, and a Supplemental Agreement for removal of unsuitable material, installation of chain link fencing and installation of a pedestrian traffic signal in the amount of \$440,886; the Director of Aviation authorized an increase in the Extra Work authorization from \$1,577,000 to \$1,827,000 to provide for design and construction of a permanent fire protection Deluge System at the propane storage tank at the facility; and the Executive Director authorized an increase in the Extra Work authorization from \$1,827,000 to \$2,327,000 to provide for the modification of the existing heating unit of the Facility's Control Building No. 255. The present total authorized contract expenditure is \$13,518,679.

The Joint Venture has submitted a claim against the Port Authority in the amount of \$4,586,168. This claim is for additional costs alleged to have been incurred by the Contractor primarily because of improvements to the performance of the system ordered by the Port Authority, principally to enhance system safety, beyond the requirements of the design-build contract.

Thorough staff review of the claim followed and various discussions, reviews and negotiations ensued with the Joint Venture. In September 1998, it was tentatively agreed that the Joint Venture would be paid the sum of \$1,950,000 in settlement of the claim, subject to approval of the Board, primarily representing the cost to the Contractor of enhancing certain operational functions of the system and the control area air handling system, for the purpose of improving the integrity and safety of the propane-based system. The computerized propane firefighting trainer is the largest and most sophisticated unit of its type built to date. Total payments to the Joint Venture for all contract work, extra work and net cost work (excluding the proposed claim settlement of \$1,950,000) are forecast to be approximately \$13,500,000.

Although the Law Department has advised that there are legal defenses to this claim, the settlement nevertheless appears equitable under the circumstances. The Joint Venture will sign a release of all claims under the contract prior to receiving the \$1,950,000 payment.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Janiszewski, Lewis, Mack, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to make a payment of \$1,950,000 to Grace Industries, Inc./Rugg-Knopp, Inc., a Joint Venture ("Joint

Venture”), in full settlement of all claims the Joint Venture has against the Port Authority in connection with Contract JFK-110.115B (the “Contract”), conditional upon the execution by the Joint Venture of a release of all claims under the Contract against the Port Authority; the form of the release shall be subject to the approval of General Counsel or his authorized representative.

**HOLLAND TUNNEL - REHABILITATION OF THE 14TH STREET EXIT ROADWAY
AND JERSEY AVENUE - PROJECT AUTHORIZATION AND AWARD OF
CONTRACT HT-224.001**

Fourteenth Street has served as the New Jersey Exit roadway of the Holland Tunnel for 70 years with only minor roadway rehabilitation. The roadway pavement requires constant maintenance due to potholing and poor drainage. Increased traffic volume has prompted the need to replace the wearing course on 14th Street and both the roadway base and wearing course on Jersey Avenue. Both roadways need to be re-contoured to provide better drainage. In addition, more regulatory as well as advisory signs are required throughout 14th Street and Jersey Avenue. The 14th Street traffic signal, signage, and power distribution systems have been in operation since the early 1960s. Due to wear caused by years of use and damage inflicted by moving vehicles, several components of the traffic signal and control system are either in need of replacement or have exceeded their service lives. The design for the rehabilitation of 14th Street and Jersey Avenue is based on the experience gained on the Holland Tunnel 12th Street Traffic Improvement Project, which was completed in 1995 and is consistent with the same design criteria. It will meet current American Association of State Highway and Transportation Officials ("AASHTO") and the Manual for Uniform Traffic Control Devices ("MUTCD") design standards, and Americans with Disabilities Act requirements. This project will provide Port Authority patrons with an improved roadway surface and, in addition, provide redundant power, remove aging structures, and replace outdated signage.

The proposed rehabilitation work will include: repaving and re-contouring of the 14th Street roadway for better drainage; the rehabilitation of the Jersey Avenue roadway base and installation of a new wearing course; enhancing the protection and accessibility for pedestrian traffic by providing sidewalks and safety islands which accommodate wheelchair passage; installation of a new catch basin and lateral piping on Jersey Avenue to eliminate the flooding at the intersection of 14th Street and Jersey Avenue; replacement of traffic signals, roadway lighting, and signage on 14th Street and Jersey Avenue; installation of a temporary roadway lighting and traffic signal system using wooden poles in order for the existing signal and sign structures to be removed; replacement of the existing electrical and communication duct banks located under the sidewalk on 14th Street and Jersey Avenue; replacement of all traffic signals, street standards, signage, and light poles in accordance with the latest traffic standards contained within MUTCD and AASHTO; and, integration of the existing 12th Street and the new 14th Street traffic signal systems.

Staging of the work will be done in order to minimize impacts on the community and commuters. Access to and from all facilities, commercial and residential establishments will be maintained to preclude any adverse impacts. Potential interruptions of water, gas, electrical or telephone services will be staged to ensure that residents and businesses will be without service for the least possible time. The Contractor will be required to supply temporary services to affected residents and businesses, and to limit the amount of noise during the demolition phase of construction to levels conforming to Occupational Safety and Health Administration standards and all applicable Jersey City ordinances.

It will be necessary for some of the signs, signals and standards to be placed on property outside Port Authority jurisdiction. This will require that agreements between the Port

Authority and the City of Jersey City, the New Jersey Department of Transportation, and the New Jersey Turnpike Authority be executed prior to award of the Contract.

Pursuant to the foregoing report presented by staff, the following resolution was adopted with Commissioners Donovan, Eisenberg, Janiszewski, Lewis, Mack, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that a project for the rehabilitation of the roadway, drainage, lighting, and traffic signs and signals on 14th Street from the New Jersey Exit Portal of the Holland Tunnel to Jersey Avenue and on Jersey Avenue between 12th and 14th Streets at an estimated total project cost of \$21.8 million, including payments to contractors, allowance for extra work and net cost work, administrative, engineering and financial expenses and a project contingency, be and the same is hereby authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to:

a) award Contract HT-224.001, in effectuation of the foregoing project for rehabilitation of the roadway, drainage, lighting, traffic signs and signals, at an estimated cost of \$12.9 million, to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work, and whose bid price the Executive Director deems reasonable, and to order extra work and net cost work; or to reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors as he deems in the best interest of the Port Authority; and

b) take action with respect to purchase and other construction contracts and agreements for professional and advisory services for the foregoing project as the Executive Director deems in the best interest of the Port Authority, including, without limitation, award to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable, rejection of all bids, solicitation of new bids on revised or the same requirements, or negotiation with one or more bidders or other contractors; and to execute contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work and net cost work in connection with each contract, including supplemental agreements thereto; and to obtain easements, permits and licenses and to enter into such other agreements with municipal and other entities as may be appropriate and required to effectuate the project, and to incur costs in connection therewith; and it is further

RESOLVED, that the form of the agreements necessary to effectuate the project shall be subject to the approval of General Counsel or his authorized representative.

**AUTHORIZATION FOR THE PORT AUTHORITY TO PARTICIPATE IN
TRANSCOM FOR A FIVE-YEAR PERIOD**

TRANSCOM was originally created in 1986 as a three-year demonstration program of regional transportation agencies focused on enhancing the region's transportation management capabilities. By 1989, TRANSCOM had become a permanent regional institution and was able to attract increases in support from all its members for the continued expansion of its operating programs. In addition to being a signatory to the TRANSCOM Multi-Year Agreement and a contributing member agency, the Port Authority has been the administrative host for TRANSCOM since it was created in 1986.

In 1996, at its Executive Committee's direction, TRANSCOM undertook an evaluation of organizational structure options. The selected option entails incorporating as a non-profit membership corporation to which the TRANSCOM member agencies will belong, and whose Board will consist of the current TRANSCOM Executive Committee members.

Contracts previously made by the Port Authority or other member agencies on behalf of TRANSCOM will be assigned to TRANSCOM Inc. Funds held by the Port Authority for TRANSCOM will be transferred to TRANSCOM Inc. upon its incorporation, and title to personal property bought with TRANSCOM funds by the Port Authority will be transferred to TRANSCOM Inc.

TRANSCOM's activities promote the mobility and safety of the traveling public by mitigating congestion, create scale economies for the member agencies by maximizing their resources, and provide a forum for drawing additional federal funding to the region for transportation management programs.

Authorization for the Port Authority's participation in TRANSCOM Inc. will enable TRANSCOM to continue its regional transportation coordination and technology development programs. A companion item is being submitted to the Port Authority Trans-Hudson Corporation ("PATH") Board to provide for PATH's continued participation in TRANSCOM.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Janiszewski, Lewis, O'Neill, Philibosian, Schweitzer and Song voting in favor; Commissioner Mack abstaining; none against:

RESOLVED, that membership by the Port Authority in TRANSCOM Inc., a non-profit membership corporation, to be organized to undertake regional transportation programs and to include as members the Connecticut Department of Transportation, Metropolitan Transportation Authority, MTA Bridges and Tunnels, MTA New York City Transit, New Jersey Department of Transportation, New Jersey Highway Authority, New Jersey Transit Corporation, New Jersey Turnpike Authority, New York City Department of Transportation, New York State Department of Transportation, New York State Police, New York State Thruway Authority, Palisades Interstate Park Commission, Port Authority Trans-Hudson Corporation and

such other organizations as may request membership and be accepted unanimously by the members, be and it hereby is authorized; and it is further

RESOLVED, that the Director of Tunnels, Bridges and Terminals be and he hereby is authorized, for and on behalf of the Port Authority:

a) to serve on the Board of TRANSCOM Inc. as the Port Authority's representative;

b) to enter into an agreement with TRANSCOM Inc.'s other member agencies for a term of five years beginning January 1, 1999, to provide for the Port Authority's total financial contribution not to exceed \$2 million for the five-year period, with member contributions to be established each year in accordance with the agreement and the By-Laws of TRANSCOM Inc. by unanimous vote of the TRANSCOM Inc. Board; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative; and

c) to provide cash and in-kind advances not to exceed an annual cumulative total of \$1.5 million to TRANSCOM Inc. for a period of three years from January 1, 1999 to facilitate transition to full independence, such advances to be reimbursed by TRANSCOM Inc. in accordance with agreed upon terms and conditions.

**AGREEMENT WITH THE ALLIANCE FOR DOWNTOWN NEW YORK, INC. -
RENEWAL**

The Alliance for Downtown New York, Inc. ("Alliance"), which is the operating entity for the Lower Manhattan Business Improvement District ("BID"), operates under the auspices of New York City and is supported by the owners of over 88 million square feet of space in the downtown area ("Downtown"), in addition to the support of the Battery Park City Authority and the Port Authority. The World Trade Center comprises over ten percent of the BID, and its support is essential for the continued achievement of Alliance objectives.

Over the past four years the Alliance has achieved many significant accomplishments, including passage of the Lower Manhattan Revitalization Plan, the first ever area-wide tax reduction package, which was designed to retain and attract commercial office tenants to Downtown. Other accomplishments include the implementation of supplemental security and sanitation programs, sidewalk lighting and a free downtown jitney that provides much needed east-west transportation services. The Alliance has also instituted several "catch-a-cab" kiosks, with one of the most successful located on Liberty Street at the World Trade Center, and sponsored many successful cultural and entertainment events, including several on the World Trade Center Plaza, raising the level of Downtown's cultural visibility.

On January 19, 1995, the Board authorized the Executive Director to enter into a five-year agreement with the Alliance. It is now proposed to enter into a five-year extension of said agreement, to be effective on January 1, 1999, to provide continued support to the Alliance, which serves to preserve and enhance the value of Downtown property, including the World Trade Center. As part of the extension, the Alliance has agreed to directly support the World Trade Center public events programs.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Janiszewski, Lewis, Mack, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an extension of the agreement with the Alliance for Downtown New York, Inc. ("Alliance"), which is the operating arm of the Downtown Lower Manhattan Business Improvement District, under which the Port Authority would agree to pay the Alliance an amount not to exceed \$5.6 million over a five-year period, the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**PORT AUTHORITY INDUSTRIAL PARK AT YONKERS - DECLARATION OF
REMAINING PROPERTY AS SURPLUS AND SALE TO NATIONAL
RE/SOURCES**

It was recommended that the Board:

- (i) find and declare as surplus the remaining property at the Port Authority Industrial Park at Yonkers (the "Park");
- (ii) authorize the Executive Director to: (a) enter into a contract of sale for certain property, consisting of approximately 20 acres of land and improvements, to National RE/sources Acquisitions, LLC, or its designated affiliate ("National RE/sources") for \$9 million on an "as is" basis; (b) convey the property pursuant to the terms of the contract; and (c) enter into any other agreements with the purchaser and/or third parties that may be necessary to effectuate the transaction; and
- (iii) delegate to the Committee on Operations the authority to approve the final terms of any agreements in the event they are not substantially in accordance with those outlined herein.

The remaining property at the Park being declared surplus and sold consists of Buildings No. 4, 5, 7, & 9, Out Parcel No. 1, the Pier Property at the foot of Wells Avenue and Alexander Street, and streets adjacent to Buildings 1, 2, & 3. Building No. 2 is also being sold, but was previously declared surplus on July 13, 1995.

The sale and disposition of the Port Authority's interests in the Park will eliminate future Port Authority capital expenditures and operating costs at the facility. The property described above will be transferred in its "as is" condition. The implementing documents for the sale will provide for appropriate environmental protections and indemnifications for the benefit of the Port Authority.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Gargano, Janiszewski, Lewis, Mack, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that it is hereby found and determined that the real property described below is no longer required for the purpose for which it was acquired:

All that certain lot, piece or parcel of land in the City of Yonkers, County of Westchester, State of New York, bound and described as follows:

PARCEL A
(Buildings 4, 5, 7, & 9)

BEGINNING at a point formed by the intersection of the southerly line of Ashburton Avenue with the westerly line of Warburton Avenue, running thence:

1. South 08 degrees 14 minutes 44 seconds West 1,477.473 feet along the said westerly line of Warburton Avenue to the northeast corner of a parcel of land conveyed by Otis Elevator Company to The People of the State of New York by deed dated December 22, 1978, recorded March 21, 1979 in the Office of the Clerk of the County of Westchester, Division of Land Records, in Liber 7544, Page 329; thence
2. South 75 degrees 25 minutes 45 seconds West 179.817 feet along the northerly line of said parcel conveyed by Otis Elevator Company to The People of the State of New York and the southerly face of a retaining wall to a point in the easterly line of former Woodworth Avenue (said portion of Woodworth Avenue now discontinued and closed); thence
3. North 08 degrees 19 minutes 14 seconds East 221.473 feet along the easterly line of former Woodworth Avenue to the former northerly line of Wells Avenue; thence
4. North 81°-49'-17" West 430.917 feet along the former northerly line of Wells Avenue to a point in the existing easterly line of Wells Avenue; thence
5. North 81 degrees 50 minutes 49 seconds West 105.012 feet along the northerly line of Wells Avenue to a point in the easterly right of way line of the Penn Central Railroad (formerly the New York Central and Hudson River Railroad); which is 40.00 feet easterly of the monumented line of Penn Central Railroad in accordance with filed map: TC-5A, June 11, 1868; thence
6. North 29 degrees 15 minutes 40 seconds East 393.179 feet along the aforesaid easterly right of way line to a point of curvature; thence
7. On a curve concave to the northwest having a radius of 3134.000 feet, a central angle of 06 degrees 21 minutes 09.9 seconds and an arc length of 347.486 feet along the aforesaid easterly right of way line to a point in the northerly line of former Locust Street (now discontinued and closed); thence
8. North 43 degrees 58 minutes 30 seconds East 3.441 feet to a point; thence
9. North 27 degrees 49 minutes 45 seconds East 24.972 feet to a point; thence
10. North 30 degrees 12 minutes 10 seconds East 73.268 feet to a point; thence
11. South 67 degrees 09 minutes 33 seconds East 18.099 feet to a point; thence
12. North 01 degree 42 minutes 56 seconds West 10.455 feet to a point which is the beginning of a nontangent curve; thence

13. Northerly along said nontangent curve concave to the West having a radius of 3162.348 feet, a central angle of 03 degrees 45 minutes 38.9 seconds and an arc length of 207.572 feet, to which curve a radial line bears South 69 degrees 05 minutes 25 seconds East at its beginning, to a point; thence the following ten (10) courses and distances

14. South 82 degrees 36 minutes 26 seconds East 30.213 feet to a point; thence

15. North 16 degrees 28 minutes 51 seconds East 28.944 feet to a point; thence

16. North 15 degrees 59 minutes 48 seconds East 29.187 feet to a point; thence

17. North 16 degrees 03 minutes 20 seconds East 37.996 feet to a point; thence

18. North 16 degrees 09 minutes 34 seconds East 29.939 feet to a point; thence

19. North 16 degrees 10 minutes 20 seconds East 19.262 feet to a point; thence

20. North 15 degrees 49 minutes 58 seconds East 10.167 feet to a point; thence

21. North 09 degrees 39 minutes 02 seconds East 19.915 feet to a point; thence

22. North 08 degrees 55 minutes 30 seconds East 50.122 feet to a point; thence

23. North 08 degrees 24 minutes 45 seconds East 100.028 feet to a point in the southerly line of Ashburton Avenue; thence

24. South 81 degrees 48 minutes 31 seconds East 94.530 feet along the southerly line of Ashburton Avenue to an angle point therein; thence

25. South 81 degrees 49 minutes 45 seconds East 214.197 feet along the southerly line of Ashburton Avenue to the point and place of beginning.

Being shown and designated as Lot 100 in Block 100, Lots 1, 6, 9, 16, 23 and 26 in Block 2010, Lots 1, 20 and 30 in Block 2009, Lot 1 in Block 2011, a portion of Lot 1 in Block 7000, and Lot 100 in Block 2015 on the Tax Map of the City of Yonkers.

PARCEL B
(Out Parcel No. 1)

BEGINNING at a point on the northerly line of Ashburton Avenue distant westerly 236.964 feet as measured along the northerly line of Ashburton Avenue from the corner formed by the intersection of the northerly line of Ashburton Avenue with the westerly line of Woodworth Avenue and running; thence

1. Along the northerly side of Ashburton Avenue, North 81 degrees 48 minutes 31 seconds West 201.775 feet to the easterly side of Alexander Street (f/k/a Polychrome Place); thence
2. Along the easterly side of Alexander Street, North 8 degrees 11 minutes 29 seconds East 56.435 feet to a point of curvature; thence
3. Northerly on a curve to the left having a radius of 55.00 feet, a central angle of 36 degrees 46 minutes 10 seconds and an arc length of 35.296 feet; thence
4. North 28 degrees 34 minutes 41 seconds West 30.00 feet to a point of curvature; thence
5. Northerly on a curve to the right having a radius of 155.00 feet, a central angle of 25 degrees 41 minutes 13 seconds and an arc length of 69.49 feet, to a point, to which point a radial line bears South 87 degrees 06 minutes 33 seconds West; thence
6. North 08 degrees 11 minutes 29 seconds East 87.94 feet to the southwest corner of a parcel of land designated as Parcel number 26 on Map number 38 of the New York State Department of Transportation, which map was filed in the Office of the County Clerk of Westchester County, Division of Land Records on June 20, 1983 and numbered 21241; running thence along the southerly line of said parcel, the following two (2) courses:
 7. North 44 degrees 44 minutes 17 seconds East 42.320 feet, thence
 8. South 81 degrees 48 minutes 31 seconds East 227.041 feet, to a point of curvature to which point a radial line bears North 87 degrees 36 minutes 14 seconds East; thence
 9. Southerly on a curve to the right having a radius of 370.00 feet, a central angle of 08 degrees 10 minutes 17 seconds, an arc length of 52.768 feet, to a point of compound curvature to which point a radial line bears South 84 degrees 13 minutes 29 seconds East; thence

10. Southerly on a curve to the right having a radius of 3037.00 feet, a central angle of 04 degrees 38 minutes 28 seconds, an arc length of 246.00 feet to the northerly side of Ashburton Avenue, and the point and place of beginning.

Being shown and designated as Lot 1 in Block 2618 on the Tax Map of the City of Yonkers.

PARCEL A-1
(Streets)

BEGINNING at a point in the southerly line of Wells Avenue distant easterly 32.750 feet as measured along the southerly line of Wells Avenue from the intersection of the southerly line of Wells Avenue with the easterly line of River Street and running:

1. South 81°-50'-49" East 120.262 feet along the former southerly line of Wells Avenue to a point in the former westerly line of Atherton Street; thence
2. South 29°-19'-49" West 139.794 feet along the former westerly line of Atherton Street to a point in the existing northerly line of Atherton Street; thence
3. South 60°-40'-11" East 39.00 feet across Atherton Street along said northerly line to a point in the existing easterly line of Atherton Street; thence
4. North 29°-19'-49" East 154.899 feet along the former easterly line of Atherton Street to a point in the former southerly line of Wells Avenue; thence
5. South 81°-48'-29" East 35.398 feet along the former southerly line of Wells Avenue to a point in the former westerly line of Bashford Street; thence
6. South 08°-08'-54" West 144.896 feet along the former westerly line of Bashford Street to a point in the existing northerly line of Bashford Street; thence
7. South 81°-51'-06" East 40.000 feet across Bashford Street along the existing northerly line of Bashford Street to a point in the existing easterly line of Bashford Street; thence
8. North 08°-08'-54" East 144.865 feet along the former easterly line of Bashford Street to the former southerly line of Wells Avenue; thence
9. South 81°-48'-22" East 143.293 feet along the former southerly line of Wells Avenue to the former westerly line of Woodworth Avenue; thence

10. South 08°-17'-20" West 227.558 feet along the former westerly line of Woodworth Avenue to the existing northerly line of Woodworth Avenue; thence

11. South 81°-40'-43" East 50.000 feet across Woodworth Avenue along the existing northerly line of Woodworth Avenue to the former easterly line of Woodworth Avenue; thence

12. North 08°-19'-14" East 287.664 feet along the former easterly line of Woodworth Avenue to the former northerly line of Wells Avenue; thence

13. North 81°-49'-17" West 430.917 feet along the former northerly line of Wells Avenue to a point in the existing easterly line of Wells Avenue; thence

14. South 08°-09'-11" West 60.000 feet across Wells Avenue to the point and place of beginning.

Being shown and designated as part of Lot 100 in Block 2015, Lot 30 in Block 2007 and Lots 30 and 40 in Block 2008 on the Tax Map of the City of Yonkers.

PARCEL A-2
(Pier Property)

BEGINNING at a point on the southerly side of a twenty-five foot right of way known as Wells Avenue where the same is intersected by the westerly side of Alexander Street;

1. Running thence along the westerly side of Alexander Street South 28 degrees 10 minutes 43 seconds West 25.234 feet to a point;

2. Running thence across Alexander Street South 81 degrees 50 minutes 49 seconds East 53.218 feet to a point;

3. Running thence South 28 degrees 10 minutes 43 seconds West 52.784 feet to a point in the southerly line of land granted to James and George Stewart by Letters Patent dated August 5, 1884 recorded in the Office of the Register of the County of Westchester in Liber 2027 of Deeds at page 267 and to Imogen J. Rockwell by Letters Patent dated July 12, 1887 and recorded in the Office of the Register of the County of Westchester in Liber 2027 of Deeds at Page 264;

4. Running thence along said southerly line, North 78 degrees 05 minutes 19 seconds West 331.488 feet to a point;

5. Running thence along a line, North 77 degrees 17 minutes 09 seconds West 590.788 feet to the Pierhead and Bulkhead Line established by the U.S. War Department in 1919;
6. Running thence along said Pierhead and Bulkhead Line North 12 degrees 54 minutes 19 seconds East 75.607 feet to the southerly side of twenty-five foot right of way known as Wells Avenue;
7. Running thence along said line South 77 degrees 17 minutes 09 seconds East 889.744 feet to the westerly side of Alexander Street and the point or place of beginning.

PARCEL A-3
(Pier Property)

BEGINNING at a point formed by the intersection of the northerly line of Wells Avenue (25 feet wide) with the westerly line of Alexander Street and running:

1. North 77 degrees 17 minutes 09 seconds West 668.00 feet along the northerly line of Wells Avenue to a point in the Pier Line established by the Common Council of the City of Yonkers on April 18, 1886; thence
2. South 19 degrees 47 minutes 51 seconds West 25.192 feet along the said Pier Line to a point in the southerly line of Wells Avenue; thence
3. South 77 degrees 17 minutes 09 seconds East 664.190 feet along the southerly line of Wells Avenue to a point in the westerly line of Alexander Street; thence
4. North 28 degrees 10 minutes 43 seconds East 25.939 feet along the westerly line of Alexander Street to the point and place of beginning.

Being shown and designated as Lots 67 and 77 in Block 2600 on the Tax Map of the City of Yonkers; and it is further

RESOLVED, that (a) a map of the property be prepared; and (b) at the appropriate time, at the request of General Counsel or his authorized representative, the Chief Engineer will execute a certificate to be annexed to said map stating that the real property shown on said map is no longer required for the purpose for which it was acquired, such map to be filed in the Office of the Secretary of the Port Authority; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority to: (a) enter into a contract of sale for certain property, consisting of approximately 20 acres of land and improvements, to National RE/sources Acquisitions, LLC, or its designated

affiliate for \$9 million on an "as is" basis; (b) sell and convey the property pursuant to the terms of the contract; and (c) enter into any other agreements with the purchaser and/or third parties that may be necessary to effectuate the transaction. Such property being described as follows: **PARCEL A** (Buildings 4, 5, 7 & 9), **PARCEL B** (Out Parcel No. 1), **PARCEL A-1** (Streets), **PARCEL A-2** (Pier Property), **PARCEL A-3** (Pier Property) all as more particularly described above, and **PARCEL C** (Building No. 2) described below:

BEGINNING at a point formed by the intersection of the westerly side of Bashford Street with the northerly side of Bashford Street and running:

1. North 8°-08'-54" East along the westerly side of former Bashford Street, a distance of 144.896 feet to a point formed by the intersection of the westerly side of former Bashford Street with the southerly side of former Wells Avenue; thence
2. North 81°-48'-29" West along the southerly side of former Wells Avenue, a distance of 35.398 feet to a point formed by the intersection of the southerly side of former Wells Avenue with the easterly side of former Atherton Street; thence
3. South 29°-19'-49" West along the easterly side of former Atherton Street, a distance of 154.899 feet to a point formed by the intersection of the easterly side of former Atherton Street with the northerly side of Atherton Street; thence
4. South 81°-32'-42" East a distance of 91.369 feet to the point and place of beginning.

Reference to named streets or former streets in the above description is for descriptive purposes only and shall not be construed as nor is same intended to be an offer to dedicate any property to public use or to grant any right or interest therein to any party.

Being shown and designated as Lot 1 in Block 2007 on the Tax Map of the City of Yonkers; and it is further

RESOLVED, that the Committee on Operations be and it hereby is authorized on behalf of the Port Authority to approve the final terms of any agreements in the event they are not substantially in accordance with those outlined herein; and it is further

RESOLVED, that all documents which may be required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

**PORT AUTHORITY INDUSTRIAL PARK AT YONKERS - LEASE AGREEMENT
WITH NATIONAL RE/SOURCES**

It was recommended that the Board: (i) authorize the Executive Director to enter into a lease agreement with the proposed purchaser of the remaining property at the Port Authority Industrial Park at Yonkers (the "Park"), National RE/sources Acquisitions, LLC or its designated affiliate ("National RE/sources"), for the rental of approximately 34,048 square feet of industrial/warehouse space in Building No. 4 at the Park for a period of ten years with two five-year renewal options in accordance with the terms outlined to the Board, or on such other terms as the Executive Director deems appropriate, subject to the conditions set forth in the following delegation; and (ii) delegate to the Committee on Operations the authority to approve the final terms of the lease agreement in the event the rental rate or the term of the letting is not substantially in accordance with that outlined to the Board.

The Port Authority has occupied space at the Park as a records center since 1990. This lease will allow for the continued use of the premises for this use after the property is sold to National RE/sources.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Gargano, Janiszewski, Lewis, Mack, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with the proposed purchaser of the remaining property at the Yonkers Industrial Park (the "Park"), National RE/sources Acquisitions, LLC or its designated affiliate ("National RE/sources") for the rental of approximately 34,048 square feet of industrial/warehouse space in Building No. 4 at the Park for a period of ten years with two five-year renewal options in accordance with the terms outlined to the Board, or on such other terms as the Executive Director deems appropriate, subject to the conditions set forth in the following delegation; and it is further

RESOLVED, that the Committee on Operations be and it hereby is authorized, to approve the final terms of the lease agreement in the event the rental rate or the term of the letting is not substantially in accordance with that outlined to the Board; and it is further

RESOLVED, that all documents which may be required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

(Board – 10/29/98)

**PORT AUTHORITY TECHNICAL CENTER - LEASE AGREEMENTS WITH
CATHAY INVESTMENT CORPORATION**

It was recommended that the Board authorize the Executive Director to: (a) enter into a lease agreement with Cathay Investment Corporation for the rental of a parcel of unimproved land at 575 Manila Avenue in Jersey City, New Jersey, to be developed into a parking lot for a period of ten years with two five-year renewals; (b) enter into an agreement for the licensing of an adjacent right-of-way; and (c) execute all documents and agreements necessary to effectuate this lease agreement.

In May 1998, the Board authorized a project for the construction of office space and training facilities at the Port Authority Technical Center ("PATC") to accommodate the relocation of Public Safety Department, Police Headquarters and other Port Authority staff.

Due to the increase in staff at the PATC, there is a corresponding demand for additional parking. The parking area to be leased, which is close to the PATC, will provide approximately 80 new parking spaces. The Port Authority shall be responsible for maintaining the leased areas including snow removal and paving of the surfaces of both the lot and the right-of-way. Cathay shall be responsible for maintenance of lighting fixtures affixed to the adjacent building that illuminates the right-of-way.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Janiszewski, Lewis, Mack, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to: (a) enter into a lease agreement with Cathay Investment Corporation for the rental of a parcel of unimproved land at 575 Manila Avenue in Jersey City, New Jersey, to be developed into a parking lot, for a period of ten years with two five-year renewals; (b) enter into an agreement for the licensing of an adjacent right-of-way; and (c) to execute all documents and agreements necessary to effectuate this lease agreement; and it is further

RESOLVED, that the form all documents which may be required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

(Board – 10/29/98)

AUTHORIZATION FOR THE PORT AUTHORITY TO PROVIDE ADVISORY SERVICES TO FREDRIC R. HARRIS IN A PLANNING STUDY FOR THE CREATION OF A PORT CORPORATION IN LA CRUZ, VENEZUELA

DIT-Harris, the Latin American subsidiary of Fredric R. Harris, in association with Fredric R. Harris, New York, has submitted a proposal for a sole source contract to advise Petrol de Venezuela, S.A. ("PDVSA"), the national holding company for all oil companies in Venezuela, on the development of a port authority/port corporation.

Latin America is a primary and growing market for international businesses which have a business relationship with the Port Authority. Venezuela is a major world supplier of petroleum and petrochemical products and a growing market for consumer and industrial products. The Port of Jose is located on the northern coast of Venezuela and is located within a major off-shore oil complex which is controlled by PDVSA. To accommodate the related processing and manufacturing activities associated with the offshore zone, PDVSA established a 25,000-hectare industrial complex. In addition to various processing and service activities in the industrial complex, a new town is currently under construction to accommodate the rapidly growing population.

The Port of Jose, which serves the offshore fields and the industrial complex, already has extensive marine facilities and is in the process of rapidly expanding to accommodate the growing industrial and service activities and population. In terms of trade and traffic, the Port of Jose is already at the level of a full-fledged international port. To ensure a well-managed and environmentally safe interface in the future between the port, the industrial activities and the population, PDVSA believes that a port authority or port corporation would be the appropriate vehicle to accomplish this.

DIT-Harris/Fredric R. Harris is proposing to address several issues necessary for the establishment of a port corporation, including: what activities should be carried out by a port corporation; what is the functional and legal relationship of the port corporation, the owner (PDSVA), and the enforcement agencies; and what type of organizational structure is required. DIT-Harris/Fredric R. Harris would like the Port Authority to participate as an advisor on the development of the port corporation and have one Port Authority staff member advise on the various issues related to the organization, structure, functions and responsibilities of a port authority corporation.

The project will extend over a five-month timeframe and would require five weeks of staff time -- approximately two weeks for periodic visits to Venezuela and approximately three weeks of staff time in New York. Under the proposed agreement between the Port Authority and Fredric R. Harris, the Port Authority will be compensated for staff services estimated at \$30,000 plus expenses. The cost of transportation, lodging and meals will be paid directly by Fredric R. Harris.

In addition to creating revenue, this initiative will establish contacts for business and trade development with Venezuela, provide opportunities for regional firms to export goods and services and provide staff with exposure to maritime/port development in growing world markets.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Janiszewski, Lewis, Mack, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Fredric R. Harris, a New York-based transportation and economic development consulting firm, under which the Port Authority would provide professional services for the creation of a port authority corporation for the Jose Harbor in La Cruz, Venezuela, provided Fredric R. Harris is successful in obtaining the advisor contract for the project; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

AUTHORIZATION FOR THE PORT AUTHORITY TO PROVIDE ADVISORY SERVICES TO THE GOVERNMENT OF TURKEY ON THE PROPOSED ESTABLISHMENT OF A BRIDGE AUTHORITY, AS PART OF A CONSORTIUM LED BY PARSONS TRANSPORTATION GROUP

The Turkish Government is planning to build two new bridges -- one over the Bosphorus Straits and the other in the Dardanelles. Bridges are an important transportation link in Turkey's international commerce and the cross-border movement of people. The current bridges over the Bosphorus have a high volume of traffic, which is expected to increase substantially over the next decade. As a result of this traffic, the Bosphorus bridges have and are expected to continue to be a source of substantial revenues. The planned Dardanelles crossing is forecast to take several years before revenues will be sufficient to cover construction, operation and maintenance cost.

The Turkish Government had previously put the Dardanelles bridge out to tender on a Build-Operate-Turnover ("BOT") basis; but due to the insufficient revenue flow, it did not attract viable bids.

Given the critical role that bridges play in the Turkish trade and economy, a consortium led by the Parsons Transportation Group has proposed the establishment of an Authority as a means to meet future bridge or crossing requirements. The establishment of an Authority would enable the government to effectively plan, develop and finance future bridge or crossing requirements. The Authority approach would enable the Government of Turkey to retain ownership of all bridge toll earnings; avoid the complex, costly and long process of a pure BOT structure for each new facility; and enable the revenues from the various bridges to be pooled to support the maintenance, operations and enhancement of existing bridges and the construction of new ones. An Authority would also provide a vehicle for the Government to effectively bring the private sector into the development and operations of the crossings.

The Parsons Transportation Group and its consortium would like the Port Authority to participate as an advisor on the development of an Authority in terms of organizational structure, legal and financial capabilities, functional responsibilities and relationship with the Government, and on an enabling process for such an Authority. The Parsons Transportation Group and the consortium participants believe that the unique structure of the Port Authority, the diversity of its business activities, its bridge experience and its bi-state nature would be a perfect model for the Turkish Government.

Parsons has therefore requested the services of one or more Port Authority staff to advise on the development of an institutional framework and functional responsibilities of a Bridge Authority during the period of October 1998 - April 1999. Under the proposed agreement between the Parsons Transportation Group-led consortium and the Port Authority, the Port Authority would be compensated for staff services, expenses and the cost of transportation, lodging and meals. Compensation for staff services is estimated at \$150,000.

In addition to creating revenue, this initiative will establish contacts for business and trade development with Turkey; provide opportunities for regional firms to export goods and services; provide staff with exposure to transportation development in emerging markets; and

enhance the Port Authority's international reputation with the use of the Port Authority as a model for the development of transportation authorities in other countries.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Janiszewski, Lewis, Mack, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with a consortium led by the Parsons Transportation Group to provide professional advisory services for the proposed establishment of a Bridge Authority in Turkey at an estimated compensation of \$150,000; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

AWARD OF MEDAL OF HONOR TO POLICE OFFICER CORVET CURLEY

The Port Authority Medal of Honor, established by the Board of Commissioners on March 2, 1944, is to be awarded to an individual who, in performing a specific act, demonstrated extraordinary bravery in the face of circumstances which would surely have led to grave personal injury or his or her own death should the slightest miscalculation have occurred.

It was recommended that the Medal of Honor be awarded to Police Officer Corvet Curley.

Whereupon, the following resolution was adopted with Commissioners Donovan, Eisenberg, Janiszewski, Lewis, Mack, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

WHEREAS, by resolution adopted by the Board of Commissioners on March 2, 1944 as amended, the Port Authority Medal of Honor award was established, which award is to be given to a Port Authority employee for the performance of outstanding service; and

WHEREAS, in the case of Police Officer Corvet Curley, it is recommended that the Port Authority Medal of Honor be given for his heroic actions.

NOW, THEREFORE, BE IT

RESOLVED, that the Medal of Honor be awarded to Police Officer Corvet Curley for the performance of outstanding service.

(Board – 10/29/98)

AWARD OF THE ROBERT F. WAGNER DISTINGUISHED PUBLIC SERVICE MEDAL

The Robert F. Wagner Distinguished Public Service Medal was established on May 16, 1991, when the Port Authority's Distinguished Service Medal, established on March 2, 1944, was renamed in memory of the Honorable Robert F. Wagner. This Medal is to be awarded to those individuals who have rendered outstanding distinguished public service in their fields of endeavor or in the community, demonstrating an exceptional degree of dedication, good judgment, initiative and competence, and who have sustained this record of service over a number of years. Normally, it is awarded to those who have at least fifteen years of Port Authority service.

It was reported that the Executive Director is to present the Robert F. Wagner Distinguished Public Service Medal to seven individuals. Through their dedication and commitment to public service and the Port Authority, they have brought credit to themselves and the agency.

Police Officer Leon F. Bienkowski
William Czirjak
Peter R. Furkey
Louis J. LaCapra
Anthony P. Marciano
Virginia C. Valenti
Hugh H. Welsh

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Janiszewski, Lewis, Mack, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Robert F. Wagner Distinguished Public Service Medal be awarded to seven individuals who have given truly outstanding service to the Port Authority and the public over many years.

AWARD OF THE POLICE COMMENDATION MEDAL FOR MERITORIOUS SERVICE

The Police Commendation Medal, established by resolution adopted by the Board of Commissioners on May 8, 1952, is to be awarded to police personnel only in those cases where the individual has performed outstanding service or has shown exceptionally meritorious performance in the duty assigned to him or her.

It was reported that the Executive Director is to present the Police Commendation Medal to five individuals who participated in two incidents. These individuals demonstrated heroism, dedication and bravery in the performance of their duties.

Police Officer Reginald L. Bates
Police Officer Richard Delaney
Lieutenant David E. Hanna
Lieutenant William Y. Holder
Police Officer Christopher Romanowski

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Janiszewski, Lewis, Mack, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Police Commendation Medal be awarded to five individuals who have performed outstanding service or exceptionally meritorious performance of their duties.

AWARD OF THE COMMENDATION MEDAL FOR MERITORIOUS SERVICE

The Commendation Medal, established by the Board of Commissioners on May 8, 1952, is to be awarded only for outstanding service or exceptionally meritorious performance.

It was reported that the Executive Director is to present the Commendation Medal to one individual who exhibited dedication and bravery.

Charles S. Hoppe

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Janiszewski, Lewis, Mack, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Commendation Medal be awarded to one individual who has performed outstanding service for the Port Authority and the public.

AWARD OF THE EXECUTIVE DIRECTOR'S AWARD OF ACHIEVEMENT

The Executive Director's Award of Achievement, established in 1961, is awarded to individuals who, in the course of carrying out a project or extended assignment as part of the normal work of their positions, extend themselves beyond required limits and achieve results which are of such a nature that they clearly deserve special recognition. Characteristics of performance which are considered in determining the award include ingenuity, resourcefulness, risk taking in decision making and job performance, unusual insight into problems, exceptional diligence and thoroughness in producing completed staff work, and above-standard degrees of proficiency, craftsmanship or professional competence. Among the kinds of results recognized by the award are improved revenues, better service to or relations with tenants, patrons or the community in general and actions taken on behalf of the Port Authority which are clearly beyond the usual limitations of job responsibility.

It was reported that the Executive Director is to present the Executive Director's Award of Achievement to two individuals.

Arthur P. Berg
Patricia A. Clark

AWARD OF THE JAMES G. HELLMUTH UNIT CITATION

The James G. Hellmuth Unit Citation was established on January 29, 1998, when the Executive Director's Unit Citation, established in 1966, was renamed in honor of Commissioner James G. Hellmuth. This citation is to be awarded to the members of a unit, section, division or special task force whose performance in carrying out a project, extended assignment, or during an unusual operating situation was so outstanding as to warrant special recognition.

It was reported that the Executive Director is to present the James G. Hellmuth Unit Citation to 127 individuals for their work on four teams.

The public meeting was called to order by Chairman Eisenberg at 2:30 p.m. and ended at 2:40 p.m. The Board held a planning session in executive session and also met in executive session prior to the public meeting.

Report of Audit Committee

The Audit Committee reported, for information, on matters discussed in executive session at its meeting on November 19, 1998, which included discussion of internal audit matters, and the report was received.

Report of Committee on Construction

The Committee on Construction reported, for information, and the report was received and is included with these minutes.

Report of Committee on Operations

The Committee on Operations reported, for information, and the report was received and is included with these minutes.

Report of Committee on Finance

The Committee on Finance reported, for information, and the report was received and is included with these minutes.

A presentation was made by staff on the Access to the Region's Core ("ARC") Interagency Agreement among the Port Authority, Metropolitan Transportation Authority ("MTA") and New Jersey Transit Corporation. In a colloquy, involving staff and Commissioners Kalikow and Haley, the view was expressed by Commissioner Kalikow that it would be desirable for the Port Authority, through its participation in ARC, to be involved in the Long Island Rail Road East Side Access project and the MTA's lower Manhattan commuter rail access initiative. Commissioner Haley indicated that the MTA decided the lower Manhattan initiative should be handled on a separate basis, but since the MTA is a member of ARC, coordination and sharing of information will take place.

JOHN F. KENNEDY INTERNATIONAL AIRPORT - AIR CHINA INTERNATIONAL CORPORATION - LEASE AGREEMENT

It was recommended that the Board authorize the Executive Director to enter into a lease agreement for a term of five years commencing on or about December 1, 1998 with Air China International Corporation ("Air China") for space in Building No. 78 and associated outside areas at John F. Kennedy International Airport ("JFK") at a total base rental of approximately \$8.4 million.

The premises under the lease would consist of approximately 76,000 square feet of interior space in the eastern portion of Building 78 and associated outside areas of approximately 6.4 acres. The premises would be used by Air China to conduct its air cargo operations at JFK.

Payment of rentals would commence under the lease on the same day as the commencement of the term of the lease, on or about December 1, 1998. Air China would also pay ten percent on any gross sublease rentals with such percentage subject to change upon written notice from the Port Authority.

Air China will be responsible for operation and maintenance of the leased premises, except that the Port Authority will be responsible for the structural supporting frame, the roof and the exterior walls of Building 78.

The lease will include a baseline environmental report of the Building 78 areas. Air China would be responsible for all environmental remediation of any contamination above the baseline described in the lease. Air China would not be responsible for pre-existing contamination, if any, described in the baseline report.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement of lease with Air China International Corporation at John F. Kennedy International Airport, substantially in accordance with the terms and conditions set forth above; the form of said agreement shall be subject to the approval of General Counsel or his authorized representative.

AUTHORIZATION TO INCREASE FUNDING COMMITMENT AND ENTER
INTO AGREEMENTS (PHASE II)**

It was recommended that the Board authorize: (1) an increase in the Port Authority's contribution to Phase II of the North Avenue East Project in the estimated amount of \$5 million, for the realignment of the North Avenue/McLester Street curve; (2) the Executive Director to enter into an agreement with the New Jersey Department of Transportation ("NJDOT") with respect to additional funding by NJDOT for the North Avenue East Project in an amount to be determined; (3) the Executive Director to arrange for payment of all costs in connection with the condemnation and/or acquisition of property impacted by the roadway realignment; and (4) the Executive Director to enter into agreements with New England Motor Freight, Allied Chemical, Public Service Electric & Gas and others, as may be necessary, to complete the project.

The original North Avenue East widening project budget was established by the Port Authority in collaboration with the State of New Jersey prior to the finalization of all design, construction, utility relocations and property acquisition costs. Funds committed included \$6 million from NJDOT, \$1 million from IKEA Center Urban Renewal, Inc., and up to \$5 million from the Port Authority. To date, approximately \$11 million of the original \$12 million project cost has been spent on Phase I by the parties involved and \$1 million of said project cost has been spent on Phases II and III. Approximately \$5 million in additional funds are required for the Phase II realignment of the North Avenue/McLester Street curve.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; Commissioner Haley abstaining; none against:

RESOLVED, that there be an increase in the Port Authority's contribution to Phase II of the North Avenue East Project ("Project"), in the estimated amount of \$5 million, for the realignment of the North Avenue/McLester Street curve; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with the New Jersey Department of Transportation ("NJDOT") with respect to additional funding by NJDOT for the Project in an amount to be determined; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to arrange for payment of all costs in connection with the condemnation and/or acquisition of property impacted by the roadway realignment; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into agreements

with New England Motor Freight, Allied Chemical, Public Service Electric & Gas and others, as may be necessary, to complete the Project; and it is further

RESOLVED, that all documents which may be required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

PORT NEWARK - CONTINENTAL GYPSUM COMPANY - LEASE AMENDMENT AND SALE OF EQUIPMENT - LPN-213 SUPPLEMENT NO. 1

It was recommended that the Board authorize the Executive Director to enter into a supplemental agreement to the Port Authority's lease with Continental Gypsum Company ("CGC") pursuant to which the Port Authority will sell to CGC certain gypsum wallboard manufacturing equipment, machinery and other related personal property items, including but not limited to the overhead conveyor, for a purchase price of \$1.5 million and, upon the consummation of such sale, the annual rental for the leased premises will be reduced by \$100,000 per year. The sale of such personal property will enable CGC to obtain financing to upgrade the manufacturing processes and expand the production capacity at the facility. As a condition precedent to the sale, CGC will be obligated to deliver acceptable substantiating documentation to the Port Authority as to the availability of financing (equal to a total of \$3 million), CGC's commitments to purchase additional gypsum-related production equipment and CGC's investment plan, and CGC will also be obligated to close its loan for the portion of the financing which will be borrowed. CGC will have removal and restoration responsibilities at the end of the lease term with respect to the wallboard manufacturing equipment and machinery, including the overhead conveyor.

The supplemental agreement will also provide for CGC to lease approximately 26,000 additional square feet of warehouse space and related open area in and around Building 268 and, in addition, 7,245 square feet of additional open area between Buildings 268 and 267, at Port Newark. The Port Authority will give CGC a one-time rental credit of up to \$26,000 to offset third party costs it incurs to both construct a wall in Building 268 and connect Buildings 267 and 268.

Further, the supplemental agreement will clarify CGC's permitted use of the premises by permitting it to use the premises for receipt and storage of products that are incidental and ancillary to CGC's main operations on and at the premises as a gypsum wallboard manufacturer, and the wholesale distribution of these same products. CGC shall be restricted, however, from allowing such incidental and ancillary products to occupy space which exceeds 25 percent of the total covered and open area under its lease.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O'Neill, Philiposian and Schweitzer voting in favor; none against:

RESOLVED, that certain gypsum wallboard manufacturing equipment, machinery and other related personal property including, but not limited to, an overhead conveyor system be and hereby is determined to be surplus and no longer required for Port Authority purposes; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a supplemental agreement to its lease with Continental Gypsum Company at Port Newark, and to execute any additional documents necessary to effectuate the lease amendment and the sale of the above-mentioned surplus equipment and other related items, substantially in accordance with the terms and conditions set forth above; the form of said agreement and documents shall be subject to the approval of General Counsel or his authorized representative.

**HOBOKEN TO BATTERY PARK CITY FERRY SERVICE - FERRY
TRANSPORTATION AGREEMENT - AMENDMENT**

In November 1988, the Port Authority entered into an agreement (the "Agreement") with Arcorp/Hartz Ferry Transportation Joint Venture for the provision of a trans-Hudson ferry service between Hoboken and Battery Park City. NY Waterway has taken over the operation of the service.

Under the terms of the Agreement, the operator was obligated to fund the design, construction, installation and operation of an interim terminal. That terminal, currently in operation at Battery Park City and used by more than 3.4 million passengers a year, is configured solely for end-loading ferries like those used by NY Waterway. The terminal is neither enclosed nor heated. Three of the NY Waterway routes, from Hoboken, Harborside, and Colgate to Battery Park City share the slips at the terminal. The Agreement allows the Port Authority and NY Waterway to grant other operators access to the terminal and further allows NY Waterway to charge reasonable and non-discriminatory fees to other operators using the terminal.

Express Navigation operates two ferry services from Atlantic Highlands, and Highlands, New Jersey to Pier 11 in lower Manhattan, and a service from Brooklyn to Pier 11. It has requested landing rights at Battery Park City, and NY Waterway is willing to grant these. However, the terminal must be modified to accept Express Navigation's side-loading vessels. NY Waterway has asked the Port Authority to provide funding for the modifications. In addition to the modification to permit side-loading, NY Waterway has proposed modifying the terminal waiting area by enclosing the area and adding heating, seating and other passenger amenities as a means of improving passenger services. In addition to Express Navigation, other regional ferry service providers currently use or will in the near future use side-loading vessels. Some of these operators have already requested access to the terminal.

It is therefore proposed to enter into an amendment to the Agreement under which the Port Authority would provide up to \$200,000 to NY Waterway to modify the interim terminal as outlined above. The proposed amendment would also permit the Port Authority to collect the landing fees from new services instead of the operator until the Port Authority is reimbursed for its terminal modification costs.

The Port Authority is obligated to provide a permanent terminal at Battery Park City, and it is currently anticipated that Board authorization to design and construct the permanent terminal will be requested during the first quarter of 1999. Conceptual Design Development has been completed at a cost of \$390,000 and Preliminary Design Development will be starting at an anticipated cost of an additional \$475,000. The Port Authority is currently working with the Battery Park City Authority to finalize a permanent lease and design for that terminal. The permanent Battery Park City terminal anticipated completion date is June 2001. Upon completion of the permanent Battery Park City terminal, the Port Authority will continue to collect landing fees to liquidate any outstanding amounts related to the interim terminal modifications and improvements.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an amendment to the Hoboken-Battery Park City Ferry Transportation Agreement to: a) provide up to \$200,000 to NY Waterway to modify the interim Battery Park City ferry terminal to allow the docking of side-loading vessels and to construct an enclosed, heated and seat- equipped waiting area; and b) permit the Executive Director to set and collect ferry landing fees at Battery Park City in lieu of the ferry operator until the Port Authority is reimbursed for its terminal modification costs; the form of the amendment shall be subject to the approval of General Counsel or his authorized representative.

**THE WORLD TRADE CENTER - CREDIT SUISSE FIRST BOSTON CORPORATION -
LEASE RENEWAL**

It was recommended that the Board authorize the Executive Director to enter into an agreement ("Agreement") extending the Port Authority's existing lease with Credit Suisse First Boston Corporation ("First Boston"), covering approximately 218,000 rentable square feet of space at The World Trade Center ("WTC"), consisting of the entire 7th floor of Five WTC, and portions of the 8th and 9th floors thereof, for a term expiring July 31, 2015, approximately fifteen years from the current expiration date. First Boston will pay an aggregate basic rental for the premises during the term of the extension of approximately \$95 million. First Boston will pay its proportionate share of operating and maintenance costs based upon increases in the Porters Wage rate over a 1999 base year in accordance with a formula specified in the Agreement, and will pay increases in payments in lieu of taxes over the payments in effect for the tax year beginning July 1, 1999 as provided in the Agreement. First Boston will be provided protection from all increases in real estate taxes due to any initial reassessment of the building resulting from the sale, net lease, or any other change in the ownership of Five WTC, and will pay its proportionate share of increases after such initial reassessment. The Port Authority will provide First Boston with a construction allowance, and will also grant First Boston subletting, expansion, termination, and renewal rights, as specified in the Agreement.

The final terms of the Agreement will be subject to the approval of the Committee on Operations in the event that they are not substantially in accordance with the terms outlined herein.

The Port Authority will pay a brokerage commission to Insignia/ESG, Inc., the broker involved in the transaction.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into (1) an agreement with Credit Suisse First Boston Corporation covering the letting of space at The World Trade Center substantially in accordance with the terms and conditions outlined above, and (2) a brokerage agreement with Insignis/ESG, Inc. in connection with such letting, the form of the agreements in each instance shall be subject to the approval of General Counsel or his authorized representative; and it is further

RESOLVED, that the Committee on Operations is hereby authorized to approve the final terms of the lease agreement with Credit Suisse First Boston Corporation in the event that such final terms are not substantially in accordance with the terms and conditions outlined above.

**AMENDMENT OF AGREEMENT WITH THE HACKENSACK MEADOWLANDS
DEVELOPMENT COMMISSION FOR PURCHASE OF WETLAND
MITIGATION CREDITS**

It was recommended that the Board authorize the Executive Director to amend an existing wetlands mitigation agreement with the Hackensack Meadowlands Development Commission ("HMDC") to include the purchase of up to an additional 9.4 acres of wetland mitigation credits at an estimated cost of \$1.5 million dollars.

HMDC is now in the midst of a large wetlands construction project which is serving as mitigation credit for a number of entities. At this time up to 9.4 acres of this wetlands construction project remain available for purchase at a cost of approximately \$150,000 per acre. Purchase of these wetlands credits will allow the Port Authority to obtain wetlands mitigation credits to apply against planned future construction projects which will disturb wetlands at Newark International Airport. New Jersey environmental regulations require appropriate mitigation of wetlands impacts. Obtaining these wetland credits now will assist project development as the timing for creation of future HMDC mitigation sites or other appropriate sites is uncertain.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, Lewis, Mack, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to amend an existing wetlands mitigation agreement with the Hackensack Meadowlands Development Commission to include purchase of up to an additional 9.4 acres of wetland mitigation credits at an estimated cost of \$1.5 million dollars; and it is further

RESOLVED, that all documents which may be required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

**ACCESS TO THE REGION'S CORE - AMENDED INTERAGENCY AGREEMENT
WITH THE METROPOLITAN TRANSPORTATION AUTHORITY AND NEW
JERSEY TRANSIT CORPORATION**

The Access to the Region's Core ("ARC") study is the first comprehensive effort in a generation to provide an interagency, bistate assessment of commuter transportation requirements to and from Midtown Manhattan. The Port Authority catalyzed this partnership with the Metropolitan Transportation Authority ("MTA") and New Jersey Transit Corporation ("NJT") because management of peak period demand on its trans-Hudson transportation facilities increasingly depends on the region's ability to create additional capacity in other services and facilities. Interdependence also is growing among transit providers, as the region's commuter rail facilities and bus corridors approach full utilization during peak commuting hours.

Prior studies by the Port Authority and other agencies pointed toward the potential for expanded commuter rail service to provide an attractive alternative for growing commuter markets from west-of-Hudson areas extending from southern and central New Jersey to Rockland County and beyond. Improvements in NJT direct rail service to Penn Station New York ("PSNY") demonstrate the effectiveness of this mode in providing relief to Port Authority trans-Hudson facilities. The Midtown Direct service not only eliminates a PATH transfer for thousands of NJT rail commuters, but also draws significant numbers of former Lincoln Tunnel motorists and bus commuters.

ARC studied a broad range of potential improvements, including expanded bus connections, rapid transit options, and various alignments for new east-west commuter-rail services. A significant development in the course of the study was the MTA's determination to proceed with the Long Island Rail Road East Side Access project, essentially defining the eastward segment of a commuter-rail expansion strategy, while maintaining a major Long Island Rail Road presence at PSNY as well. While ARC focused on long-term needs, another effort by railroad operators sharing PSNY (the Tri-Venture Study) indicates that growing ridership demand on the passenger rail services that converge on PSNY will overtake the peak period capacity of this facility. Service enhancements are proposed by the Long Island Rail Road, NJT and AMTRAK over the coming years which cannot reach their full ridership potential over the next twenty years without improvements to the network of PSNY tracks, platforms and tunnels.

The results of ARC's Major Investment Study ("ARC/MIS") transportation network assessment and the Tri-Venture Study findings demonstrate the need for a next phase of work (Phase 3) emphasizing the development of strategies to address the short to intermediate term PSNY problems, while also pursuing longer term "build" improvements to address broader regional needs.

It is therefore proposed to amend the existing ARC agreement among the Port Authority, MTA and NJT to provide for carrying out the next phase of work and for maintaining a project staff team and a consultant. Study activities would continue to be directed by a Project Oversight Committee comprised of representatives from each of the cooperating agencies. The Port Authority would provide first instance funding of up to \$3.6 million for staff, office space, and fees for professional services to complete the ARC/MIS. The MTA and NJT would each reimburse the Port Authority for project costs beyond the \$2.1 million Port Authority support for staff salaries, and material and services including consultant fees and rent. The federal

Transportation Equity Act for the 21st Century provides \$5 million over the next six years for the study of trans-Hudson commuter service improvements, from which 80 percent of the Port Authority share could be reimbursed subject to appropriations and Federal Transit Administration approval.

The three sponsor agencies have also determined it is in the best interests of the project to amend the contract of the current consultant, Parsons Brinckerhoff Quade & Douglas, Inc. ("Parsons") to provide for a continuation of professional service. The justification for retaining Parsons as the consultant is maintaining continuity, accountability, time savings and performance. The point of departure for the new, Phase 3 work will be the Phase 2 recommended alternative which the current consultant has defined and analyzed as to physical and operational feasibility in close coordination with the sponsor agencies. The expected duration of the work is December 1998 to December 2000.

Pursuant to the foregoing report presented by staff, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, O'Neill, Philibosian and Schweitzer voting in favor; Commissioners Haley and Mack abstaining; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to: a) execute an amendment to the existing Access to the Core Interagency Agreement among the Port Authority, Metropolitan Transportation Authority and New Jersey Transit Corporation to enable the completion of a joint assessment of potential transit improvements to Midtown Manhattan for which the Port Authority would provide first instance funding up to \$3.6 and the Metropolitan Transportation Authority and New Jersey Transit Corporation would reimburse the Port Authority for project costs beyond the \$2.1 million in Port Authority funds which constitutes the Port Authority's share of the study completion costs, and b) enter into a contract extension for professional services in connection with the aforementioned study on behalf of the sponsoring agencies with Parsons Brinckerhoff Quade & Douglas; the form of the agreements shall be subject to the approval of General Counsel or his authorized representative.

CONFIDENTIAL ITEM

This item shall not be available for public inspection until otherwise agreed to by the parties involved.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period September 1, 1998 to September 30, 1998.

 Hon. David S. Mack
 Hon. George D. O'Neill
 Hon. Melvin L. Schweitzer
 Hon. Anastasia M. Song

The public meeting was called to order by Chairman Eisenberg at 2:40 p.m. and ended at 2:48 p.m. The Board met in executive session prior to the public meeting; Commissioner Philibosian was present only for executive session.

Action on Minutes

The Secretary submitted for approval Minutes of the meetings of October 29, 1998 and November 19, 1998. He reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. He reported further that the time for action by the Governors of New York and New Jersey has expired, except for the industrial development item on pages 594-595 of the November 19, 1998 Port Authority Minutes.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Audit Committee

The Audit Committee reported, for information, on matters discussed in executive session at its meeting on December 17, 1998, which included discussion of internal audit matters, and the report was received.

Report of Committee on Finance

The Committee on Finance reported, for information, on matters discussed in executive session at its meeting on December 17, 1998, which included a discussion of matters related to, or which could impact upon, the issuance, sale, resale, or redemption of Port Authority bonds, notes or other obligations, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Capital Programs and Port Planning

The Committee on Capital Programs and Port Planning reported, for information, on matters discussed in executive session at its meeting on December 17, 1998, which included a discussion of matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with which we deal, and the report was received.

Report of Committee on Operations

The Committee on Operations reported, for information, on matters discussed in executive session at its meeting on December 17, 1998, which included discussion of contract matters and matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with which we deal, and the report was received.

Report of Committee on Construction

The Committee on Construction reported, for information, on matters discussed in executive session at its meeting on December 17, 1998, which included a discussion of contract matters and matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with which we deal, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

**JOHN F. KENNEDY AND NEWARK INTERNATIONAL AIRPORTS - LUGGAGE
CART SERVICES - AWARD OF JFK PERMIT AYC-912 TO SMARTE CARTE
INC. AND AWARD OF EWR PERMIT ANB-073 TO AIRPORT CARTS LLC**

It was recommended that the Board authorize the Executive Director to enter into five-year agreements for luggage cart services at John F. Kennedy (JFK) and Newark (EWR) International Airports, with Smarte Carte, Inc. and Airport Carts LLC, respectively, in order to enhance the level of service provided to airport customers by utilizing new, state-of-the-art luggage carts and associated equipment.

At both JFK and EWR, luggage carts will be provided free of charge to arriving international passengers. Carts are provided on a rental basis to departing international and all domestic passengers.

Smarte Carte, Inc and Airport Carts LLC are required to install, provide and maintain new, state-of-the-art luggage carts and associated equipment for use in and outside the various airline terminals and parking lots. Prior to the commencement of the Light Rail System (LRS) service at JFK, Smarte Carte is also required to replace the fleet of brakeless carts it will provide at the outset of its permit with a fleet of new carts equipped with brakes and to include LRS stations in the areas it services. Smarte Carte will also be provided an annual lump sum reimbursement, after commencement of the LRS service, in the event it incurs unanticipated costs as a result of implementation of the LRS proportional to increased revenues it receives from cart rentals.

Both agreements require the contractor to pay the Port Authority a percentage fee on gross receipts, subject to specified minimums, from the rental of luggage carts to departing international and all domestic passengers, and also provides that the Port Authority pay the contractor a specified price per use of a free luggage cart by arriving international passengers (the Customs Cart Payment). The Customs Cart Payment will be adjusted, under both agreements, on an annual basis based upon changes to the Consumer Price Index. Costs incurred to provide the free luggage cart service will be based on actual usage at each airport, currently estimated to be \$15.5 million at JFK and \$9 million at EWR for the five-year term of each permit. Estimated revenues from the rental cart service for the five-year period are \$1.1 million at JFK and \$1.5 million at EWR.

Both permits are cancelable by the Port Authority without cause on 30-days' notice. In the event a permit is canceled without cause, the Port Authority will reimburse the contractor for its unamortized investment in equipment, not to exceed \$3 million under the JFK agreement and \$1.5 million under the EWR agreement. Ownership of the equipment, which will consist of no less than 6,000 carts at JFK and 3,000 carts at EWR, will transfer to the Port Authority at that time.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, O'Neill, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into agreements

with Smarte Carte, Inc. and Airport Carts LLC to operate a luggage cart dispensing and retrieval service at John F. Kennedy International Airport (JFK) and Newark International Airport (EWR) respectively, both agreements to include providing luggage carts, associated equipment, and maintenance services for a five-year period commencing on or about April 1, 1999 at JFK and May 1, 1999 at EWR; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to approve extra work under each agreement in an amount up to six percent of the cost of the free cart program at the respective airport with such authority to be delegated to the Director of Aviation; and it is further

RESOLVED, that the form of the agreements shall be subject to the approval of General Counsel or his authorized representative.

JOHN F. KENNEDY INTERNATIONAL AIRPORT - AIRIS JFKI, LLC AND AIRIS JFKII, LLC - LEASE AGREEMENTS FOR CARGO DEVELOPMENT SITES

It was recommended that the Board authorize the Executive Director to enter into two separate lease agreements, with approximately 17-year terms, for the development of air cargo facilities at John F. Kennedy International Airport with: (1) Airis JFKI, LLC covering a site of approximately 24 acres and (2) Airis JFKII, LLC covering a site of approximately 18 acres. The term of each lease would be extended ten years to 2025 in the event the City Lease is extended.

The ground rent specified will be subject to escalation at prescribed intervals throughout the term of each lease. The ground rent, however, will be deferred during the 24-month construction period. The deferred rent will accrue interest at the rate of 8.25 percent per annum and be repaid over the initial term of the leases. Provisions for cargo handling and subleasing fees will be included in the leases.

Financing of the tenant's construction may be by means of New York City Industrial Development bonds. If a leasehold mortgage is required with any tenant financing an appropriate additional rent would be required. The Port Authority may also be asked to enter into a Memorandum of Understanding with the tenant and The City of New York in connection with the continuation of the tenant's occupancy in the event the City Lease is not extended.

The Port Authority is constructing a taxilane serving the Korean Air Lines' site and two adjacent Airis sites. The construction cost will be recovered from Korean Air Lines, Airis JFKI, LLC and Airis JFKII, LLC.

Baseline subsurface investigations have been completed for both sites. Airis JFKI, LLC and Airis JFKII, LLC (collectively, Airis) will be responsible for all environmental aspects of both sites above the baselines. In addition, Airis will be responsible for any contamination which is discovered during the performance of any construction or improvement and is not included in the baseline studies unless Airis can prove to the satisfaction of the Port Authority that such contamination existed on the premises prior to the effective date of the leases. In such event, the Port Authority will be responsible for the cost of remediation of such contamination.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, O'Neill, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be, and he hereby is, authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Airis JFKI, LLC, substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Airis JFKII, LLC, substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into all ancillary agreements necessary to facilitate construction of the cargo facilities, substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that the forms of the foregoing agreements shall be subject to the approval of General Counsel or his authorized representative.

NEWARK INTERNATIONAL AIRPORT - NEW LEASE WITH CONTINENTAL AIRLINES, INC. FOR CARGO BUILDING AND PARTIAL LEASE SURRENDERS WITH UNITED AIR LINES, INC., TRANS WORLD AIRLINES, INC., AIR CANADA AND DYNAIR SERVICES

It was recommended that the Board authorize the Executive Director to (1) enter into a 25-year lease with Continental Airlines, Inc. (Continental) for the construction of a new cargo building on a site of approximately six acres at Newark International Airport; (2) enter into lease supplements with United Air Lines, Inc., Trans World Airlines, Inc., Air Canada, and DynAir Services for the partial surrender of ramp space which will become part of the Continental leasehold; (3) provide construction payments to Continental for modification of utilities necessary for the operation of the proposed cargo building in an amount not to exceed \$850,000; and (4) reimburse Continental the cost differential between the disposal of non-hazardous and hazardous soil in an amount not to exceed \$1.6 million.

Continental will pay a ground rent subject to annual Consumer Price Index adjustments capped at 4 percent effective every three years and an Airport Services Factor adjusted annually.

Continental is obligated under the lease to provide interim tenant staging space during the reconstruction of Buildings 151 and 152.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, O'Neill, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Continental Airlines, Inc., enter into partial lease surrender agreements with United Air Lines, Inc., Trans World Airlines, Inc., Air Canada, and DynAir Services, and enter into all agreements and contracts necessary to facilitate construction of a cargo building at Newark International Airport, substantially in accordance with the terms and conditions set forth above; the form of the agreements shall be subject to the approval of General Counsel or his authorized representative.

**TETERBORO AIRPORT - SIGNATURE FLIGHT SUPPORT-NEW JERSEY, INC. -
CONSENT TO AGREEMENT EXTENDING USE AND OCCUPANCY
AGREEMENT TA-059 AND PROJECT AUTHORIZATION FOR THE
CONSTRUCTION OF NEW TAXIWAY Q AND AWARD OF CONTRACT**

It was recommended that the Board authorize the Executive Director to enter into a supplemental agreement to Use and Occupancy Agreement TA-059 (TA-059) between Johnson Controls World Services Inc. (Johnson Controls), the present operator of Teterboro Airport (TEB) under an agreement due to expire on December 31, 1999, and Signature Flight Support-New Jersey, Inc. (Signature) at TEB to provide the Port Authority's consent and agreement to: (a) the extension of TA-059 for a term to expire either twenty years from the date of beneficial occupancy of the last of four new hangars to be constructed by Signature as further described below, but in no event later than December 30, 2025 or on December 30, 2005 if all four hangars have not then been constructed; (b) the construction by Signature of a new hangar of not less than 36,400 square feet to replace Hangar 15, with adjoining office and shop space of not less than 10,000 square feet and a passenger terminal of not less than 9,200 square feet, and two additional new hangars, each consisting of a minimum of 30,000 square feet, with adjoining office and shop space of not less than 9,200 and 8,400 square feet, respectively, to replace Hangars 16 and 17, respectively; (c) subject to the Port Authority and the Federal Aviation Administration (FAA) agreeing on a new location for the FAA divisions currently located in Building 70, Signature to be obligated to demolish Building 70, add the land on the Building 70 site to TA-059, and design and construct an aircraft hangar of approximately 21,000 square feet, with adjoining office and shop space of not less than 12,000 square feet; (d) the addition to TA-059 of the space covered under Agreements TA-140 and TA-264, which latter Agreements would be allowed to expire by their respective terms; (e) subject to the relocation of Taxiway P, Signature to be obligated to take the land area created by the relocation of Taxiway P immediately in front of its space as additional land under TA-059 and pave the same to provide for additional aircraft ramp area; (f) Signature to expend a minimum of \$12.7 million for construction of the four hangars and paving work, and the Port Authority to reimburse Signature in an amount not to exceed \$500,000 for the demolition of Building 70 and advance to Signature an amount not to exceed \$15 million for the construction of the four new hangars and pavement of the above ramp area, to be repaid as additional fees to the Port Authority over the term of TA-059 in addition to annual fees for 1999 of \$904,484 which would be increased in 2000 to approximately \$1,334,270 and thereafter escalated annually by the Consumer Price Index; (g) the building fees to be abated if, as and when the space in existing Hangars 15, 16 and 17 is vacated and demolition of the Hangars begun; and (h) said agreement would continue on substantially the same terms and conditions directly with the Port Authority or such other airport operator operating the Airport in the event the current Operating Agreement with Johnson Controls is terminated or expires.

It was also recommended that the Board authorize a project at TEB for the construction of a new Taxiway Q, from the departure end of Runway 24 to Taxiway L, at an estimated total project cost of approximately \$8 million, the Executive Director to have the option to award the necessary contracts covering such work or to enter into an agreement with Johnson Controls to allow Johnson Controls as airport manager to manage the project, with the Port Authority reimbursing Johnson Controls up to the aforesaid amount for the cost thereof.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, O'Neill, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a supplemental agreement to Use and Occupancy Agreement TA-059 with Johnson Controls World Services Inc. (Johnson Controls) and Signature Flight Support-New Jersey, Inc. at Teterboro Airport, substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that a project at Teterboro Airport for the construction of a new Taxiway Q, from the departure end of Runway 24 to Taxiway L, at an estimated total project cost of approximately \$8 million, including payments to contractors, allowances for extra work (if necessary) and net cost work, planning, engineering, administrative and financial expenses and a project contingency (if necessary), plus up to \$4 million for wetland mitigation, be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to a) take such action with respect to the award of purchase and construction contracts and contracts for professional and advisory services related to the foregoing project as he deems in the best interest of the Port Authority, including, without limitation, award of such contracts as he deems appropriate, to the lowest bidder(s) qualified by reason of responsibility, experience and capacity to perform the work and whose bid price he deems reasonable; or to reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors; and to b) execute such other contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work (if necessary) and net cost work in connection with each contract, including supplemental agreements thereto; and to c) enter into such other agreements as may be necessary to effectuate the project; or to enter into an agreement with Johnson Controls whereby Johnson Controls would perform such relocation work and the Port Authority would reimburse Johnson Controls for all planning, design, and construction costs, including direct labor costs, associated with the construction of a new Taxiway Q up to an amount not to exceed \$8 million; and it is further

RESOLVED, that the form of all contracts and agreements, in each case, shall be subject to the approval of General Counsel or his authorized representative.

NEWARK BAY SUBCHANNEL PLACEMENT CELLS - PROJECT AUTHORIZATION

Anticipating that the Newark Bay Confined Disposal Facility will reach near capacity by year-end 1999, the Port Authority submitted a permit application to the U.S. Army Corps of Engineers in May 1998 to construct a separate 10 million cubic-yard regional disposal facility in Newark Bay composed of a series of Subchannel Placement Cells (SPCs) which would be sequentially constructed and filled with contaminated dredged material. The SPC approach is now being successfully implemented in Boston harbor. Phase I of the project would include design engineering, preparation of an Environmental Impact Statement, and preparation and award of contracts for construction of up to five SPCs with a total estimated capacity of 3 million cubic yards. The estimated cost for the entire project is \$250 million, with Phase I cost estimated at \$81 million. Staff plans to seek additional Board authorization for all costs beyond those applicable to Phase I.

The purpose of the project is to provide an environmentally safe and cost-effective disposal alternative for contaminated material dredged from regional marine facilities and federal channels. Specifically, Phase I of the project will facilitate completion of the Kill Van Kull/Newark Bay deepening project to 45 feet by 2004, and will result in estimated cost savings of approximately \$151 million from the fully funded Kill Van Kull/Newark Bay project cost, thereby reducing the Port Authority's contribution as local project sponsor.

It is anticipated that total Port Authority project costs not allocable to Port Authority use of the facility will be recovered through a disposal tipping fee to be levied on users of the SPCs, the amount of which will be determined based on the actual total project cost. Board authorization will be sought prior to imposition of any such fee.

Construction of the project is contingent upon approval by the United States Environmental Protection Agency for use of red-brown clay which will need to be excavated as part of the project as remediation material at the Historic Area Remediation Site and receipt of permits from the State of New Jersey and the United States Army Corps of Engineers.

Pursuant to the foregoing report presented by staff, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, O'Neill, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Board hereby authorizes:

1. A project for the construction and operation of a regional dredged material disposal facility in Newark Bay consisting of a series of Subchannel Placement Cells (SPCs) with an estimated capacity of 10 million cubic yards of contaminated dredged material at an estimated total project cost of \$250 million, and funding for all costs associated with construction, operation, management and monitoring of the first five SPCs for the disposal of approximately 3 million cubic yards of contaminated material from the Kill Van Kull/Newark Bay deepening project to 45 feet and from maintenance dredging of regional berths and channels at an estimated Phase I project cost of \$81 million including administrative, engineering, planning and financing expenses, payments to contractors and allowances for net cost and extra work,

and a project contingency; the construction of the Subchannel Placement Cells is contingent upon obtaining the necessary permits and use of the cells for dredged material disposal relating to the Kill Van Kull/Newark Bay project is contingent upon appropriate agreements toward that end; and

2. The Executive Director to: a) take such action with respect to purchase and construction contracts and agreements for professional and advisory services for Phase I of the foregoing project and agreements with respect to operation, management and monitoring of the five Phase I SPCs, as he deems in the best interest of the Port Authority, including without limitation, award to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience, and capacity to perform the work and whose bid price the Executive Director deems reasonable, rejection of all bids, solicitation of new bids on revised or the same requirements, or negotiation with one or more bidders or other contractors; b) execute such other contracts and supplemental agreements with such bidders or contractors as he deems is in the best interest of the Port Authority, and to order extra work (if necessary) and net cost work in connection with each contract including supplemental agreements thereto; c) purchase environmental liability insurance to cover the construction, operation, closure and monitoring of the five Phase I SPCs, the cost of which is included in the total estimated Phase I project cost; and d) enter into such other agreements, and execute such documents, including, without limitation, an agreement with the State of New Jersey, acting through the Tidelands Resource Council, for an assignment of management rights over the tidelands where the SPCs would be constructed, as may be necessary to effectuate the project; and it is further

RESOLVED, that the form of the foregoing contracts, agreements and documents shall be subject to the approval of General Counsel or his authorized representative.

PROJECT COOPERATION AGREEMENT - KILL VAN KULL, NEWARK BAY AND ELIZABETH CHANNELS 45-FOOT DEEPENING PROJECT - INCREASE IN AUTHORIZATION

It was recommended that the Board supplement its action of January 29, 1998 authorizing the Executive Director to enter into a Project Cooperation Agreement (PCA) with the United States Government acting through the Department of the Army for the deepening to 45 feet and the selective widening of the Kill Van Kull, Newark Bay and Elizabeth Channels, by authorizing the Executive Director to enter into a PCA providing for an increased total estimated project cost, from \$621 million to \$733 million, and by authorizing payment by the Port Authority of the 35-percent local share which has been revised from \$217 million to \$256.6 million, plus \$5.9 million for utility relocations.

The purpose of the PCA is to enable final design and construction of a 45-foot deep federal channel in the Kill Van Kull, Newark Bay and Elizabeth Channels to ensure that modern deep-draft containerships can safely navigate to the Elizabeth-Port Authority Marine Terminal and portions of Port Newark as well as to the Arthur Kill Channel leading to the Howland Hook Marine Terminal. These 45-foot deep channels are critical to maintaining the competitive advantages of the Port of New York and New Jersey over other ports. The United States Army Corps of Engineers (Corps) is deepening the Kill Van Kull, Newark Bay and Elizabeth Channels to 45 feet in two phases.

Section 202A of the 1986 Water Resources Development Act (WRDA) authorized deepening of the Kill Van Kull, Newark Bay and Elizabeth Federal Channels to 45 feet at a total cost of \$325 million. The Port Authority entered into a Local Cooperation Agreement with the United States Government for the first phase of construction to 40 feet, which has already been completed at a cost of \$270 million. The 1996 WRDA increased the authorization for the 45-foot channel to \$750 million, which provides, after the application of a 20 percent permitted allowance and the deduction of the \$270 million spent on Phase I, up to \$630 million of authorized funding for Phase II.

The Corps is currently completing the design for the second phase of the deepening to 45 feet and is prepared to initiate construction this federal fiscal year with \$30 million already appropriated by Congress. The Port Authority is repeating its role as local project sponsor. Construction commencement, however, is legally contingent upon the signing of the required PCA between the Port Authority and the Corps.

In January 1998, the Board authorized the Executive Director to negotiate and enter into a PCA with the Corps. At the time of the Board authorization, the Corps advised the Port Authority that the estimated cost of the Project was \$621 million, plus interest. The Corps included this estimate in the first draft of the PCA.

In November 1998, the Corps advised the Port Authority for the first time that its engineering regulations now require the Corps to incorporate into the PCA fully funded project estimates, which are total project costs estimated at the mid-term of the project, including the cost of inflation. The fully funded estimate provided by the Corps for the project to the year 2004 is \$733 million, of which \$256.6 million would be required to be provided by the local sponsor.

Staff continues to work with the Corps and the U.S. Environmental Protection Agency (EPA) to resolve a critical issue with respect to the testing of prehistoric red-brown clay, which will need to be excavated as part of the project. The proposed Port Authority construction of Subchannel Placement Cells (SPCs) as part of the project also requires the excavation of red-brown clay. The construction of SPCs is the subject of a separate Board authorization. This material was expected to be deemed exclusionary, i.e., not require sediment testing, as had been the case with the Newark Bay Confined Disposal Facility. The EPA, however, has taken the position that the red-brown clay underlying the silt must undergo full biological testing to determine its suitability to be used as remediation material at the Historic Area Remediation Site ("HARS").

The Port Authority's position is that we should not be required to test the clay because it has not come into contact with contaminants and is consistent with material that was placed at the HARS in past years. If it is determined that the red-brown clay from the Kill Van Kull/Newark Bay/Elizabeth channels deepening project to 45 feet will not be permitted to be disposed in the ocean, the project cost will be significantly increased and the construction of the SPCs could be prolonged, thereby delaying the project beyond the targeted completion date of 2004.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, O'Neill, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to: (1) negotiate and enter into a Project Cooperation Agreement with the Department of the Army to construct a 45-foot deep channel with selective widening in the Kill Van Kull, Newark Bay and Elizabeth Channels as authorized by Congress at an estimated cost of \$733 million; (2) pay the United States Government the local share of such construction costs, 35 percent of the total construction costs, currently estimated at \$256.6 million plus \$5.9 million for utility relocation plus interest payments to fund the local non-federal share, and provide an interest-bearing escrow, letter of credit or other funding assurance as required under federal law to fulfill this funding obligation; and (3) execute agreements, contracts and documents as may be necessary to effectuate the foregoing; and it is further

RESOLVED, that the form of all agreements, contracts and documents necessary to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

THE WORLD TRADE CENTER – PERMANENT SECURITY PROGRAM – PROJECT REAUTHORIZATION

Following the February 1993 bombing, The World Trade Center implemented interim and accelerated security improvements and began development of a World Trade Center security master plan. In July 1996, the Board authorized \$35.4 million for The World Trade Center Permanent Security Program. The key objectives of this program include protection of the perimeter, controlled access to sensitive building areas, centralization of security monitoring and coordination, and balancing World Trade Center security needs with tenant operations. The major components in the Permanent Security Program include lobby access control, a photo ID proximity card badge system, expanded perimeter and Plaza closed-circuit television (CCTV), intrusion detection and alarm activated CCTV at critical building systems and doors, a new Security Control Center and backup facility, and a complete redundant communications highway for all security equipment.

In September 1996, the Executive Director authorized the award of Contract WTC-890.042 for the design, furnishing and installation of an integrated security system for The World Trade Center to EJ Electric Installation Company and Electronic Systems Associates, P.C., a joint venture, at an estimated contract cost of \$24.32 million, inclusive of net cost and extra work.

Much of the equipment installation has been performed. However, there have been schedule delays, particularly in the contractor's completion of the customized software needed to operate the system. The "off-the-shelf" software which the contractor originally specified in its proposal was not able to meet the performance requirements of the contract. The original project plan assumed an aggressive design/build schedule and approach that must now be adjusted to reflect the contractor's ability to perform. Further, during performance of the contract it was necessary to order additional items of work, involving software modifications for improved reporting, improved egress features in the alarm and door lock systems, and integration with the Parking Access Control System.

It was therefore recommended that the Board reauthorize The World Trade Center Permanent Security Program at a total estimated project cost of \$44.4 million, and increase the extra work allowance for Contract WTC-890.042 by \$2.6 million.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, O'Neill, Philibosian, Schweitzer and Song voting in favor; none against:

RESOLVED, that the project to design and install all components of the Permanent Security Program at The World Trade Center, originally authorized by the Board in July 1996 at a total estimated project cost of \$35.4 million, be and it hereby is reauthorized at the total estimated cost of \$44.4 million, including administrative, engineering, planning and financial expense, payments to vendors, consultants and contractors, and allowances for net cost and extra work (if necessary) and a project contingency (if necessary); and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, in connection with project completion, to: a) take such actions with respect to the award of purchase and construction contracts and contracts for professional and advisory services as he deems in the best interest of the Port Authority, including, without limitation, awards to contractors submitting proposals who, in his opinion, are qualified by reason of responsibility, experience and capacity to perform the work and whose proposal price the Executive Director deems reasonable, rejection of all proposals, solicitation of new proposals on revised or the same requirements from one or more contractors, or negotiation with one or more proposers or other contractors; and b) execute contracts and supplemental agreements with such contractors as he deems in the best interest of the Port Authority, and to order extra work (if necessary) and net cost work in connection with each project contract and agreement, including supplemental agreements; the form of the contracts and agreements shall be subject to the approval of General Counsel or his authorized representative; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to increase the allowance for extra work under Contract WTC-890.042 from the estimated amount of \$1.75 million to the estimated amount of \$4.35 million, an increase of \$2.6 million, for design and field changes relating to the existing contract scope of work and for additional items of work.

**THE WORLD TRADE CENTER – EDUCATIONAL BROADCASTING CORPORATION
(WNET) – LEASE AMENDMENT, DTV BROADCAST LICENSE – SERVICE
AGREEMENT**

It was recommended that the Board authorize the Executive Director to enter into an agreement or supplement an existing agreement as appropriate, to (i) grant Educational Broadcasting Corporation (WNET) a license to broadcast digital television (DTV) from an antenna on the mast atop One World Trade Center (WTC); (ii) extend WNET's current analog television broadcast license and (iii) extend and modify WNET's associated space lease; all in order to enable WNET to continue to broadcast from the WTC.

It was further recommended that the Board authorize the Executive Director to enter into an agreement with WNET for Port Authority-related public information and promotional services and announcements.

The agreements will provide for a term of approximately ten years, with WNET to have an option for a ten-year extension.

The Federal Communications Commission has recently granted existing television broadcasters licenses to transmit DTV, which is a television broadcast system that is forecast to eventually supplant the existing analog television broadcast system.

Under a separate agreement previously authorized by the Board, the National Broadcasting Company will design and construct a panel antenna on the mast atop One WTC that will accommodate up to five broadcasters in addition to WNET.

As the flagship station of the Public Broadcasting System in the New York/New Jersey bi-state region, WNET provides educational television programs and services to the public.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, Schweitzer and Song voting in favor; Commissioner O'Neill abstaining; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into agreements with the Educational Broadcasting Corporation on substantially the terms and conditions set forth above; and it is further

RESOLVED, that the Committee on Operations be and it hereby is authorized to approve changes in the final terms and provisions of the agreements in the event they are not substantially in accordance with those set forth above; and it is further

RESOLVED, that the form of the agreements in each instance shall be subject to the approval of General Counsel or his authorized representative.

THE WORLD TRADE CENTER - GEORGESON & COMPANY, INC. - LEASE AGREEMENT

It was recommended that the Board authorize the Executive Director (i) to enter into a lease agreement (the New Lease) with Georgeson & Company, Inc. (Georgeson) covering approximately 25,000 rentable square feet of space at the World Trade Center (WTC), consisting of a portion of the 32nd floor of One WTC, for a term expiring approximately fifteen and one-half years from the commencement date of the letting, which will occur on or about January 1, 1999, and (ii) to enter into a brokerage agreement with Julien J. Studley, Inc., the broker involved in the transaction.

At its meeting on August 28, 1997, the Board authorized the Executive Director to enter into a lease agreement with Georgeson covering approximately 56,000 rentable square feet on the 77th and 78th floors of Two WTC (the Existing Lease). Subsequently, Georgeson sold a portion of its business, and advised that it no longer requires the amount of space covered by the Existing Lease. Georgeson is currently in the process of assigning the Existing Lease to another company in accordance with the terms of the Existing Lease. Georgeson currently requires approximately half the amount of space covered by the Existing Lease, and has agreed to enter into the New Lease covering the space it now requires.

Under the New Lease Georgeson will pay an aggregate basic rental for the premises of approximately \$15.2 million. Georgeson will pay its proportionate share of any increases in direct operating and maintenance costs over the actual costs and expenses for the 1999 base year and will pay increases in payments in lieu of taxes as provided in the New Lease. Georgeson will be provided protection from all increases in real estate taxes due to any initial reassessment of the building resulting from a change in the ownership, or net leasing, of One WTC during the term of the letting under the New Lease, and will pay its proportionate share of increases after such initial reassessment. The Port Authority will provide Georgeson with a construction allowance, and will also grant Georgeson assignment, subletting, expansion, termination, and renewal rights, as specified in the New Lease.

The Port Authority will be required to perform demolition and other space preparation work (including the installation of sprinkler loops, removal, if necessary, of vinyl asbestos floor tile, asbestos abatement, and re-fireproofing) at a cost of approximately \$450,000 and certain Americans with Disabilities Act and refurbishing work in corridors and bathrooms on the 32nd floor of One WTC and on any floor on which expansion space may be located, at a cost of approximately \$25,000 per bathroom. The final terms of the New Lease will be subject to the approval of the Committee on Operations in the event that the gross effective rent or the term of the letting is not substantially in accordance with the terms outlined to the Board.

The Port Authority will pay a brokerage commission to Julien J. Studley, Inc. the broker involved in the transaction.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, O'Neill, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to: (1) enter into a lease agreement with Georgeson & Company, Inc. (Georgeson) covering the letting of space at The World Trade Center substantially in accordance with the terms and conditions outlined above; (2) enter into a brokerage agreement with Julien J. Studley, Inc. in connection with such letting, and (3) take such actions with respect to the award of purchase and construction contracts, and contracts for professional and advisory services as he deems to be in the best interest of the Port Authority to meet the commitments undertaken by the Port Authority in the lease agreement with Georgeson, including entering into agreements for net cost work and additional work, entering into agreements with Georgeson to reimburse Georgeson for the performance of all or a portion of the work which the Port Authority is required to perform for Georgeson pursuant to the lease agreement, entering into supplemental agreements, and the award of contracts on a sole-source basis; the form of the agreements in each instance to be subject to the approval of General Counsel or his authorized representative; and it is further

RESOLVED, that the Committee on Operations be and it is hereby is authorized to approve the final terms of the lease agreement with Georgeson in the event that the gross effective rent or the term of the letting under the lease agreement is not substantially in accordance with those outlined to the Board.

ALL FACILITIES - NYTP, INC. - INSTALLATION AND OPERATION OF A WIRELESS TELECOMMUNICATIONS NETWORK ACCESS SYSTEM

It was recommended that the Board authorize the Executive Director to enter into an exclusive agreement with an entity controlled by the principals of NYTP, Inc. (NYTP) to finance, construct and manage a Wireless Telecommunications Network Access System (the Network) at major Port Authority facilities.

NYTP will construct a shared-use telecommunications platform that will offer all interested wireless telecommunications carriers the ability to provide their customers with radio signal coverage inside major Port Authority facilities. The Network will serve most interior Port Authority public areas with radiating coaxial cable, with selected interior and exterior locations to be served with point source antennas. NYTP will arrange for private project financing from institutional lenders and wireless carriers of the estimated total investment of \$50 million. Subscribing carriers will make minimum payments to NYTP with additional payments to be based on usage volumes. NYTP will contract with qualified telecommunications and engineering firms to implement the Network. Wireless carriers will not be permitted to install individual antenna systems at Port Authority facilities where the Network is installed.

The base term of the agreement with NYTP is 17 years with NYTP having the option to extend the agreement for an additional eight-year term. For each year of the agreement, NYTP will pay the Port Authority a minimum fee, and percentage fees in excess of the minimum fee. In addition, NYTP will pay a share of its revenues from non-exclusive in-building wireless services at The World Trade Center and at possible additional facilities.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, O'Neill, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with an entity controlled by the principals of NYTP, Inc. on substantially the terms and conditions set forth above and into such other related agreements as may be necessary or appropriate to effectuate the transaction described above; and it is further

RESOLVED, that the form of the agreements in each instance shall be subject to the approval of General Counsel or his authorized representative.

FUNDING FOR NEW YORK AND NEW JERSEY AIR SERVICES DEVELOPMENT OFFICES - AGREEMENT WITH THE AVIATION DEVELOPMENT COUNCIL

It was recommended that the Board authorize funding to continue the New York and New Jersey Air Services Development Office (ASDO) programs which serve John F. Kennedy International Airport (JFK), LaGuardia Airport (LGA) and Newark International Airport (EWR), for a two-year period commencing on January 1, 1999 and ending on December 31, 2000, at a total cost not to exceed \$652,000, and authorize the Executive Director to enter into an agreement with the Aviation Development Council (ADC) to manage, procure and administer contract services and to provide advisory and consultation services for these programs at no additional cost to the Port Authority.

ASDO began as a pilot program in 1983 for JFK and LGA and expanded to EWR in 1987. Its mandate is to make the aviation industry more aware of the broad range of goods and services available from local businesses and to familiarize these businesses with opportunities and methods for selling their goods and services to the aviation industry. The programs have promoted the exchange of information between airport tenants and local businesses by a variety of techniques, including the installation of a buyer and seller information system, semi-annual networking events, quarterly newsletters and technical assistance programs. Special efforts have been made by ASDO to involve local minority and women-owned businesses by conducting outreach programs to local economic development corporations and communities to encourage minority and women-owned companies to become certified by the Port Authority. The ASDO program has been directly responsible for 2,202 contract awards totaling approximately \$234 million in New York and for 176 contract awards totaling approximately \$66 million in New Jersey. In addition to ASDO's projected annual budget of \$326,000 for 1999-2000, the Port Authority will continue to provide on-airport space for both the New York and New Jersey ASDO programs at an approximate annual value of \$80,000.

The ADC serves as a mechanism to address a variety of issues of concern to the aviation community, and administers the New York and New Jersey ASDO programs for the Port Authority. Since the ADC's membership includes representatives of the aviation industry, it is an appropriate and effective entity to procure and administer contract services and to provide advisory and consultation services to assist both the New York and New Jersey programs in achieving their goals. There is no cost to the Port Authority for ADC's services to the ASDO programs.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, O'Neill, Schweitzer and Song voting in favor; none against:

RESOLVED, that funding for the Air Services Development Office (ASDO) programs in New York and New Jersey, which serve John F. Kennedy International Airport, LaGuardia Airport and Newark International Airport, be and it hereby is authorized for a two-year period commencing on January 1, 1999 and ending on December 31, 2000, at a total cost not to exceed \$652,000; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with the Aviation Development Council to manage, procure and administer contract services and to provide advisory and consultation services for the ASDO programs at no additional cost to the Port Authority; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**PARTICIPATION IN THE 1999 AMERICAN ASSOCIATION OF PORT
AUTHORITIES CONVENTION**

It was recommended that the Board authorize the Port Authority to expend funds estimated at \$980,000 to host the 1999 American Association of Port Authorities (AAPA) Annual Convention, for which expenditures are anticipated to be fully recovered; any shortfall of recovery amount to be paid by the Port Authority in an amount not expected to exceed \$250,000; and authorize the Executive Director to enter into agreements with the New York Hilton Hotel and other entities necessary for the provision of goods or services required for the planning and effectuation of the Convention.

At the request of the City of New York and the New York Convention and Visitors Bureau, staff submitted a bid at the 1994 AAPA Spring Meeting to host the 1999 AAPA Annual Convention. The last convention held in New York was in 1982 and was hosted by the Port of New York and New Jersey. Competing with three other member ports, the Port of New York and New Jersey was selected as the venue for the 88th Annual AAPA Convention, to be held September 26 through October 1, 1999. AAPA Washington headquarters staff are responsible for the business portion of the program. As host port and lead sponsor of this major gathering, the Port Authority will be responsible for coordinating all logistics, details and events required for the six-day duration of the Convention. Responsibilities will include promotion and advertising of the Convention, arrangements for registration, meeting facilities, food/banquet services, tour programs and solicitation of corporate sponsorships for the event. Approximately 1,000 participants are expected to attend.

The Convention is the highlight of AAPA's annual program and brings together representatives of its 144 member ports throughout the United States, Canada, the Caribbean and Latin America. The program is intended to foster port development activities and showcase our regional trade and transportation assets.

The total cost for the 1999 AAPA Annual Convention is estimated to be \$980,000. Of this amount, approximately \$600,000 is expected to be recovered from Convention registrations and related fees and \$150,000-\$380,000 is expected to be recovered from major corporate sponsors. Any shortfall of recovery, which is not expected to exceed \$250,000, will be paid by the Port Authority.

It is estimated that the Convention will generate \$2.5 million in regional economic activity.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, O'Neill, Schweitzer and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to expend funds estimated at \$980,000 to host the 1999 American Association of Port Authorities (AAPA) Annual Convention; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into agreements with the New York Hilton Hotel and such other entities as may be necessary for the provision of goods or services required for the planning and effectuation of the 1999 AAPA Annual Convention; and it is further

RESOLVED, that all documents required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

**SETTLEMENT OF CLAIM - MARK GALLI v. THE CITY OF NEW YORK AND THE
PORT AUTHORITY OF NEW YORK AND NEW JERSEY**

It was recommended that the Board authorize General Counsel to settle the pending action entitled Mark Galli v. The City of New York and The Port Authority of New York and New Jersey, by paying to plaintiff and his attorney the sum of \$300,000 in exchange for the Port Authority's receipt of a General Release from liability and a Stipulation of Discontinuance of the action, with prejudice.

Mr. Galli sustained serious injuries at Erie Basin when the roof of Building 161 collapsed on him on November 15, 1991, as the result of which Mr. Galli suffers from permanent seizure disorder and memory loss. Mr. Galli has been unable to return to work since his accident, except for a period of two days after which his injuries forced him to leave his job, never to return.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, O'Neill, Schweitzer and Song voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to settle the pending civil action entitled Mark Galli v. The City of New York and The Port Authority of New York and New Jersey, by paying \$300,000 to plaintiff and his attorney in return for the Port Authority's receipt of a General Release from liability and a Stipulation of Discontinuance of the action, with prejudice.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period October 1, 1998 to October 31, 1998.

 Angela F. Wood, Special Assistant to the Executive Director
 Peter Yerkes, Press Secretary
 Margaret R. Zoch, Comptroller

Guests

John G. Donnelly, Authorities Unit, Office of the Governor of New Jersey

The public meeting was called to order by Chairman Eisenberg at 3:10 p.m. and ended at 3:18 p.m. The Board met in executive session prior to the public meeting; Commissioner Philibosian was present only for executive session. The Board also met in executive session on December 17, 1998 and January 28, 1999, and held a planning session in executive session on January 14, 1999.

Action on Minutes

The Secretary submitted for approval Minutes of the meeting of December 17, 1998. He reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. He reported further that the time for action by the Governors of New York and New Jersey has expired; furthermore, the time for action by the Governors has also expired with respect to the industrial development item on pages 594-595 of the November 19, 1998 Minutes.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Audit Committee

The Audit Committee reported, for information, on matters discussed in executive session at its meeting on February 25, 1999, which included discussion of internal audit matters, and the report was received.

Report of Committee on Finance

The Committee on Finance reported, for information, on matters discussed in executive session at its meetings on January 28, 1999 and February 25, 1999, which included a discussion of contract matters and matters related to, or which could impact upon, the issuance, sale, resale, or redemption of Port Authority bonds, notes or other obligations, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Capital Programs and Port Planning

The Committee on Capital Programs and Port Planning reported, for information, on matters discussed in executive session at its meeting on February 25, 1999, which included a discussion of matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with which we deal, and the report was received.

Report of Committee on Operations

The Committee on Operations reported, for information, on action taken and matters discussed in executive session at its meeting on February 25, 1999, which included discussion of contract and lease matters and matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with which we deal, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Construction

The Committee on Construction reported, for information, on matters discussed at its meeting on February 25, 1999, which included a discussion of a project for the rehabilitation of the Outerbridge Crossing deck and structural steel and replacement of the main span sidewalks. Following the public session, the Committee met in executive session to discuss contract matters. This report is in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Chairman Eisenberg welcomed the Honorable William J. Martini as Commissioner of the Port Authority and expressed the Board's pleasure in having Commissioner Martini participate in the work of the Board.

STATEN ISLAND BRIDGES DECK REHABILITATION AND REPLACEMENT PROGRAM - REHABILITATION OF OUTERBRIDGE CROSSING DECK AND STRUCTURAL STEEL, AND REPLACEMENT OF SIDEWALKS - PROJECT AUTHORIZATION AND AWARD OF CONTRACT AKO-284.031

Construction of the Outerbridge Crossing (OBX), which comprises seven lane-miles and 511,000 square feet of elevated roadways, was completed in 1928. In 1997, traffic volume at the OBX totaled approximately 28 million vehicles. Exposure to water and de-icing salts has eroded the concrete deck, support steel, and asphalt wearing surface. The rehabilitation of the OBX is the culmination of a program to investigate the physical condition of the structure, identify deficiencies, and evaluate the optimum staging requirements to minimize adverse impacts on facility use and operations. The investigation revealed deterioration of the deck's expansion joints (which occur every 300 to 400 feet) and the asphalt roadway pavement. The supporting steel and concrete in the vicinity of the joints, as well as at random locations throughout the total area of the deck, were found to contain widespread spalls and rust. The level of degradation at the sidewalk has reached the point where complete replacement is necessary.

This project, which is part of the Staten Island Bridges Rehabilitation and Replacement Program, will extend the service life of the bridge deck and sidewalks and will include the following work: removal of the existing asphalt pavement; full and partial depth replacement of deteriorated deck concrete at expansion joints and isolated locations; rehabilitation/replacement of deck expansion joints; restoration of support steel; sealing of longitudinal joints at the curb line and parapets; waterproofing of the entire concrete deck surface; installation of new asphalt pavement; and replacement of the two main span concrete sidewalks.

The work will be staged to minimize adverse impacts on facility operations and the traveling public. The staging for deck rehabilitation will involve the diversion of all westbound traffic to the Goethals Bridge on a nightly basis to permit the closure of two lanes at the OBX. All lanes will be restored to full service in time for the morning peak period. In order to open the roadway each morning, it will be necessary to install temporary steel plating and provide asphalt concrete ramps to transition traffic through the work zone. A public outreach and information program will be developed to advise our customers and the surrounding communities of the work.

Pursuant to the foregoing report presented by staff, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, Martini, O'Neill, Schweitzer, and Song voting in favor; none against:

RESOLVED, that a project for the rehabilitation of the Outerbridge Crossing deck and structural steel, and replacement of the main span sidewalks, at a total estimated project cost of \$52.9 million, including payments to contractors, allowances for extra work (if necessary) and net cost work, engineering, administrative and financial expenses, and a project contingency (if necessary) be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to: (1) take action with respect to purchase and construction contracts and agreements for professional and advisory services for the foregoing project as he deems in the best interest of the Port Authority, including, without limitation, the award of Contract AK0-284.031 at an estimated cost of \$34.4 million for rehabilitation of the deck and structural steel and replacement of the sidewalks at the Outerbridge Crossing, to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience, and capacity to perform the work and whose bid price the Executive Director deems reasonable; (2) reject all bids, solicit new bids on revised or the same requirements or negotiate with one or more bidders or other contractors; (3) execute contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority and order extra work (if necessary) and net cost work in connection with each contract, including supplemental agreements thereto; and (4) obtain permits and licenses and enter into such other agreements with municipal and other entities as may be appropriate or required to effectuate the project; and it is further

RESOLVED, that the form of all agreements in connection with the foregoing shall be subject to the approval of General Counsel or his authorized representative.

**LAGUARDIA AIRPORT - CONTINENTAL AIRLINES, INC. - AMENDMENTS TO
BASIC LEASE AG-417 FOR THE PROVISION OF CONSTRUCTION FUNDS**

It was recommended that the Board authorize the Executive Director to enter into a supplemental agreement to Basic Lease AG-417 with Continental Airlines, Inc. (Continental) covering capital improvements to its Central Terminal Building premises at LaGuardia Airport in a total amount not to exceed \$15 million, with Continental to pay an additional rental in connection with such improvements over a 15-year period calculated on the basis of the Revenue Bond Index plus 150 basis points. Should Continental terminate the lease or the Port Authority terminate the lease for cause, Continental would be required to pay the remaining principal portion of said additional rental. Should the Port Authority terminate the lease without cause, or not offer to extend the term of the lease, Continental would be released from its obligation to repay the remaining principal portion of said additional rental except for the remaining principal portion of additional rental in connection with certain improvements on the first floor of Concourse A. The cost of the Concourse A improvements is estimated to be \$2 million.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, Martini, O'Neill, Schweitzer, and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a Supplemental Agreement to Basic Lease AG-417 with Continental Airlines, Inc. at LaGuardia Airport, substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

TETERBORO AIRPORT - AMERICAN INTERNATIONAL AVIATION CORPORATION - CONSENT TO AN AGREEMENT EXTENDING USE AND OCCUPANCY AGREEMENT TA-173

It was recommended that the Board authorize the Executive Director to enter into a Consent Agreement granting the Port Authority's consent to an agreement supplemental to Use and Occupancy Agreement TA-173 (TA-173) between Johnson Controls World Services Inc. (Johnson Controls), the present operator of Teterboro Airport (TEB) under an agreement due to expire on December 31, 1999, and American International Aviation Corporation (AIAC) at TEB: (a) extending TA-173 for a twenty-year term for Hangar Site 107; (b) adding ramp area to the space covered by TA-173 for use as taxiway and transition area and the construction of a new hangar lean-to expansion within one year of Port Authority approval of the construction plans and specifications or by June 1, 2000, whichever comes first (AIAC to pay a surcharge equal to 1/2 of the monthly land rental fee for each month until completion upon failure to construct within such period); and (c) including environmental language through which AIAC shall assume responsibility for all environmental damages and requirements, including any removal and remediation which may be required, and indemnify Johnson Controls and the Port Authority with respect to third-party claims. A minimum investment of \$750,000 is required for the addition of the lean-to and paving of the additional ramp area, provided, in the event a certain proposed parallel taxiway is constructed, the Port Authority shall reserve the right to regain possession of the new ramp area and reimburse AIAC its unamortized portion of the cost of ramp construction, on a straight-line basis over fifteen years.

Use and Occupancy Agreement TA-173, as amended, would continue on substantially the same terms and conditions directly with the Port Authority or such other airport operator then operating TEB in the event the current Operating Agreement with Johnson Controls is terminated or expires.

Effective January 1, 2000, and remaining fixed until December 31, 2004, AIAC shall pay a monthly building rental (for the existing hangar and lean-to, but not for the new lean-to to be constructed) of approximately \$58,454, to be escalated annually by the change in the Consumer Price Index (CPI) up to a maximum of six percent per year. Building rent would commence for the new lean-to 15 years after completion of construction at the then prevailing AIAC building rental rate. Effective January 1, 2000, AIAC shall pay a land rental at a square foot rate of \$1.05 per square foot, plus the change in the CPI from December 1998 to December 1999. Effective January 2001 and annually thereafter, the land rates shall be escalated by the change in the CPI up to a maximum increase of six percent per year.

The Agreement would provide that, in the event AIAC is granted the right to permit the sub-use of space, AIAC shall pay to the Airport Operator 50 percent of the fees received from the sub-user(s) in excess of the rental paid by AIAC to the Airport Operator net of agreed-upon expenses deemed attributable to the sub-used space, with AIAC paying a minimum of 10 percent of the total fees paid by the sub-user(s).

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, Martini, O'Neill, Schweitzer, and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a Consent Agreement containing provisions and granting the Port Authority's consent to an agreement supplemental to Use and Occupancy Agreement TA-173 between Johnson Controls World Services Inc. and American International Aviation Corporation at Teterboro Airport, substantially in accordance with the terms and conditions outline to the Board; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**NEW JERSEY MARINE TERMINALS - MODIFICATION OF THE BOUNDARY OF
FOREIGN TRADE ZONE NO. 49**

The Port Authority, as grantee of Foreign-Trade Zone No. 49 (Zone) has determined that customers of the Port of New York and New Jersey seeking zone status have been unable to find suitable space within the existing boundaries of the Zone. This situation has arisen because, among other reasons, a number of buildings within the existing Zone boundaries at the Port Authority Marine Terminals are scheduled for demolition. Also, buildings within the Zone at the Industrial Park at Elizabeth have been sold and are now used for retail purposes.

If the boundaries of the Zone are expanded within the Port District, companies seeking to participate in the Zone will have less difficulty finding suitable business sites. This will help retain companies in the Port District and their international cargo business at Port Authority seaports and/or airports. Expansion, will also help the Zone maintain its premier status in the United States and will enable companies in this region to remain competitive in the global and domestic marketplace.

Any company participating in the zone program is required to enter into an operating agreement with the Port Authority assuring that there will be no cost or undue risk of loss to the Port Authority as a result of the expansion of the Zone.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, Martini, O'Neill, Schweitzer, and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to submit an application with the Foreign Trade Zones Board of the United States Department of Commerce to modify the boundaries of Foreign Trade Zone No. 49 within the Port District; the form of the documents in connection with this application shall be subject to the approval of General Counsel or his authorized representative.

**THE WORLD TRADE CENTER - COMMODITIES EXCHANGE CENTER, INC. -
LEASE SUPPLEMENT**

It was recommended that the Board authorize the Executive Director to enter into a lease supplement with Commodities Exchange Center, Inc. (CEC) covering the letting of approximately 25,440 rentable square feet (rsf) of space in Four World Trade Center for a term of approximately 13 years and to enter into a brokerage agreement with Julien J. Studley, Inc. in connection therewith.

CEC currently leases approximately 148,000 rsf in Four World Trade Center and subleases its premises to the New York Cotton Exchange and the Coffee, Sugar and Cocoa Exchange which operate jointly as the Board of Trade of the City of New York, Inc. CEC is consolidating and relocating some of its functions, and following the completion of the proposed transaction, CEC will occupy approximately 130,000 rsf for a term expiring in 2012. The aggregate basic rental over the term will be approximately \$11 million.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, Martini, O'Neill, Schweitzer, and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease supplement with Commodities Exchange Center, Inc., substantially in accordance with the terms and conditions outlined to the Board and to enter into a brokerage agreement with Julien J. Studley, Inc. in connection therewith; and it is further

RESOLVED, that the Committee on Operations be and it is hereby authorized to approve the final terms and conditions of the lease supplement in the event that the gross effective rent or the term of the letting is not substantially in accordance with the terms outlined to the Board; and it is further

RESOLVED, that the form of the lease supplement and brokerage agreement shall be subject to the approval of General Counsel or his authorized representative.

**BATHGATE INDUSTRIAL PARK - KLEENER KING OF BATHGATE, INC. - LEASE
SUPPLEMENT**

It was recommended that the Board authorize the Executive Director to enter into a lease supplement with Kleener King of Bathgate, Inc. (Kleener King), providing for an increase in the construction advance available under Kleener King's existing lease from \$2.25 million to \$2.60 million, to enable it to complete the construction of its dry cleaning facility at Bathgate Industrial Park. An additional \$350,000 is necessary for the completion of the building as a result of delays, inflation and unanticipated field conditions. To enable the Port Authority to recover its additional investment on a financially self-sustaining basis, Kleener King will pay an additional facility rental at the initial annual rate of \$1.01 per rentable square foot, escalating each year at a fixed compounded rate of approximately 4.2 percent per year over the approximate 21 1/2 year period facility rental is payable.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, Martini, O'Neill, Schweitzer, and Song voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease supplement with Kleener King of Bathgate, Inc. (Kleener King), providing for an increase of \$350,000 in the construction advance available under Kleener King's existing lease in accordance with the terms outlined above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

SETTLEMENT OF CLAIM - JOSEPH BRESNAN v. THE PORT AUTHORITY OF NEW YORK AND NEW JERSEY

It was recommended that the Board authorize General Counsel to settle the pending action entitled Joseph Bresnan v. The Port Authority of New York and New Jersey by paying to plaintiff and his attorney the sum of \$425,000 in exchange for the Port Authority's receipt of a General Release from liability and a stipulation discontinuing the action with prejudice.

Mr. Bresnan sustained serious injuries in front of the Port Authority Vent Building at 41st Street & 9th Avenue on January 16, 1995 when he slipped on temporary repairs to Port Authority tree planters. Mr. Bresnan suffers a permanent disability as a result of serious fractures of his lower left leg and has difficulty walking.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, Martini, O'Neill, Schweitzer, and Song voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to settle the pending civil action entitled Joseph Bresnan v. The Port Authority of New York and New Jersey by paying \$425,000 to plaintiff and his attorney in return for the Port Authority's receipt of a General Release from liability and a stipulation discontinuing the action with prejudice.

CONFIDENTIAL ITEM

This item shall not be available for public inspection until otherwise agreed to by the parties involved.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period November 1, 1998 to November 30, 1998.

INVESTMENTS, DEPOSITS, INTEREST RATE EXCHANGE CONTRACTS AND VARIABLE RATE MASTER NOTE PLACEMENTS

REPORT C: In addition to the transactions described in Report A and B, the Executive Director also reports the following transactions during the period December 1, 1998 and December 31, 1998 pertaining to the execution or cancellation of Interest Rate Exchange Contracts pursuant to the guidelines established by the Board of Commissioners on December 10, 1992.

Interest Rate Exchange Contracts

<u>Date</u>	<u>Counterparty</u>	<u>Notional Amount</u>	<u>Start Date</u>	<u>Termination Date</u>	<u>Fixed Interest Rate Paid</u>	<u>Variable Interest Rate Received</u>
-------------	---------------------	------------------------	-------------------	-------------------------	---------------------------------	--

No new transactions this period.

As of December 31, 1998, the Port Authority has interest rate exchange contracts in place on notional amounts totaling \$879 million, including \$484 million pertaining to refundings and \$110 million of reversals.

REPORT D: In addition to the transactions described in Report A, B and C, the Executive Director also reports the following transactions during the period December 1, 1998 and December 31, 1998 under the Variable Rate Master Note Program as amended and supplemented through October 13, 1994.

Variable Rate Master Note Placements

<u>Date of Issuance</u>	<u>Amount</u>	<u>Purchaser</u>	<u>Term</u>	<u>Variable Rate Index</u>
-------------------------	---------------	------------------	-------------	----------------------------

No new transactions this period.

(Board - 2/25/99)

Report E: In addition to the transactions described in Report A, B, C, and D, the Executive Director also reports the following activity under the Futures Program authorized by the Board of Commissioners on December 10, 1987, during the period October 1, 1998 through December 31, 1998 involving the use of the Municipal Bond Futures Contracts (Muni) and the United States Treasury Bond Futures Contracts (T-Bonds) traded on the Chicago Board of Trade to manage the interest rate exposure on the future issuance of Consolidated Bonds and Notes.

Hedge for Consolidated Bonds:

<u>Date</u>	<u>Action</u>	<u>Number of Contracts</u>	<u>Short Position</u>	<u>Gains/(Losses) on Series Hedge*</u>	<u>Amount of Prospective Port Authority Debt Hedged</u>	<u>Estimated (Increase)/Decrease in Borrowing Costs on Portion of Debt Hedged</u>
-------------	---------------	--------------------------------	---------------------------	--	---	---

No outstanding Hedge during the 4th Quarter 1998.

Contract Authorizations and Amendments - Quarterly Report

In accordance with the By-Laws, the Executive Director reports actions taken under Article XII, paragraphs (d) and (e) of the By-Laws, for the period October 1, 1998 to December 31, 1998.

Commercial General Union Insurance Company
Umbrella Liability Insurance	\$6 million per occurrence	12/08/98 to 12/08/99		

RENEWAL NOTES

- Premium proposals were competitively solicited for Police Professional Liability Insurance from brokers, Meeker Sharkey & MacBean, E.G. Bowman Co., Inc., an MBE and Massey Insurance Agency, an MBE/WBE. Massey Insurance Agency secured a proposal from General Star National Insurance Company, which provided the appropriate coverage at the most cost effective premium. General Star National Insurance Company provides coverage, which applies to security operations at the airports, with a limit of \$4 million each occurrence and in the aggregate, excess of a \$10,000 deductible each claim, reduced from \$25,000, with a maximum annual deductible limit of \$40,000, for a one-year period commencing January 5, 1998. General Star's premium proposal of \$89,000 reflects a 25% reduction from the expiring premium with policy terms and conditions remaining unchanged. Premiums for the Police Professional Liability Insurance are fully reimbursable from the airlines.
- Risk Financing staff arranged for the renewal purchase of Automobile Liability Insurance for a one-year term effective March 1, 1998, with General Accident Insurance Company of New York through incumbent broker Rivera and Kaplan, Inc., an MBE. General Accident's renewal premium of \$22,468 includes a return premium credit on the expiring policy of \$103 due to policy amendments and reflects a 13% reduction from the expiring premium of \$25,706. This placement was competitively marketed in 1997. The coverage provides appropriate financial protection to the Port Authority, as insured, for the use of Port Authority vehicles by designated executive staff.
- The Commercial Insurance package covering the activities of the TransitCenter's Satellite Office located in Stamford, Connecticut was renewed for a one-year term effective May 1, 1998 with General Accident Insurance Company through the incumbent broker AON Group, Inc. at an annual premium of \$416.00, unchanged from the previous renewal.

TransitCenter, an office within TB&T, has been awarded a federally funded grant to establish a satellite office in Stamford, Connecticut, to market and sell Transitchek to employers in the state. The original two year grant has been extended for one year. In addition, we arranged for the renewal purchase of workers' compensation insurance covering the temporary sales representative.

- In connection with the Office of the Washington Representative located in the District of Columbia, staff arranged for the renewal purchase of workers' compensation insurance effective May 7, 1998. This coverage was placed with Travelers Casualty & Surety Company for a one-year term through the incumbent broker E.G. Bowman Co., Inc., an MBE/WBE, at an estimated annual premium of \$2,358. Since premiums are established by statute in the District of Columbia, there is no rate advantage to the Port Authority in soliciting competitive premium quotations.

- Staff successfully arranged for the renewal purchase of Excess Boiler and Machinery Insurance for a one-year term effective July 1, 1998, with Chubb Group of Insurance Companies through incumbent broker Massey Insurance Agency, an MBE/WBE, at an annual premium of \$40,000. This placement was competitively marketed in 1997. In addition to insurance coverage, the policy will enable the Port Authority and its tenants to continue to obtain on-site inspection and loss prevention services.
- At Teterboro Airport, liability insurance in the amount of \$25 million per occurrence with no deductible was renewed for a one-year term effective January 16, 1998. In addition, the required Property Damage and Boiler and Machinery coverage was renewed for a three-year term effective April 1, 1998. These renewals were accomplished and paid for by Johnson Control World Services Inc., the operator of the airport.
- The local managers of the Business Development offices renewed their respective insurance coverages. These overseas coverages are arranged by the managers of the London and Tokyo offices in order to provide local defense and response in the event of a loss. Insurance premiums for the Tokyo Business Development Office have increased as the result of the new computer equipment scheduled to be installed.
- Pursuant to a lease agreement executed between the Port Authority and the New York State Department of Taxation and Finance, which took effect on December 8, 1998, the Port Authority is responsible for procuring the insurance for the tenant. Staff requested Massey Insurance Agency, an MBE/WBE to solicit proposals from the insurance market. Massey secured a proposal from Commercial General Union Insurance Company which provided the appropriate coverage at the most cost-effective premium. The cost of insurance \$38,693 is fully reimbursable from the tenant in the form of additional monthly rental.

Whereupon, the meeting was adjourned.

Secretary

NEW YORK

Hon. Peter S. Kalikow
 Hon. David S. Mack
 Hon. Melvin L. Schweitzer
 Hon. Anastasia M. Song

The public meeting was called to order by Chairman Eisenberg at 3:30 p.m. and ended at 3:55 p.m. The Board met in executive session prior to the public meeting; Commissioner Martini was present only for executive session. The Board also met in executive session on March 25, 1999 and April 22, 1999.

Action on Minutes

The Secretary submitted for approval Minutes of action taken at the Board's meeting of February 25, 1999. He reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. He reported further that the time for action by the Governors of New York and New Jersey has expired.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Audit Committee

The Audit Committee reported, for information, on matters discussed in executive session at its meetings on April 29, 1999 and May 27, 1999, which included discussion of internal audit matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received.

Report of Committee on Finance

The Committee on Finance reported, for information, on matters discussed in executive session at its meeting on May 27, 1999, which included discussion of contract matters and matters related to, or which could impact upon, the issuance, sale, resale, or redemption of Port Authority bonds, notes or other obligations, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Capital Programs and Port Planning

The Committee on Capital Programs and Port Planning reported, for information, on matters discussed in executive session at its meeting on May 27, 1999, which included discussion of matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with which we deal, and the report was received.

Report of Committee on Construction

The Committee on Construction reported, for information, on matters discussed at its meeting on May 27, 1999, which included a discussion of project authorization for the deployment of an intelligent transportation system at the Lincoln and Holland Tunnels, and a project cooperation agreement with the United States Army Corps of Engineers for the deepening of the Arthur Kill Channel to 41/40 feet. Following its public session, the Committee met in executive session to discuss contract matters. This report is in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Operations

The Committee on Operations reported, for information, on matters discussed in executive session at its meeting on May 27, 1999, which included discussion of contract and lease matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Nominating Committee

During the course of the meeting, the Nominating Committee submitted its report, and the report was received and is included with these minutes.

Chairman Eisenberg welcomed the new Commissioners of the Port Authority who have joined the Board since February 25, 1999; Honorable Michael J. Chasanoff, Honorable Anthony J. Sartor and Honorable James Weinstein. The Chairman expressed the Board's pleasure in having Commissioners Chasanoff, Sartor and Weinstein participate in the work of the Board.

AUDIT COMMITTEE ANNUAL REPORT

Commissioner Donovan submitted the following report:

In accordance with the Port Authority by-laws, the Chair of the Audit Committee reports periodically on the activities of the Audit Committee.

Since the last report, the Audit Committee has met nine times. Our Committee meetings are regularly attended by the Chief Financial Officer, General Counsel, the Chief Technology Officer, the Director of Audit, the Treasurer, the Comptroller and the Inspector General.

Representatives of Deloitte & Touche LLP, the Port Authority's independent auditors, have attended three of our meetings. At those meetings, we held executive sessions with only the outside auditors present, which is consistent with our policy that the outside accountants and members of the Audit Committee have direct and unrestricted access to each other.

The Audit Committee keeps informed of relevant matters through quarterly reports prepared by the Director of Audit, the Treasurer and the Inspector General. In addition to these reports, Charles McClafferty, the Chief Financial Officer, and John Brill, the Director of Audit, have kept me informed of special situations, audits and investigations, as appropriate. Robert Van Etten has done the same as Inspector General.

Each quarter the Committee discusses the detailed reports of completed audits prepared by the Audit Department. The Audit Department conducts its audits in accordance with an Annual Plan submitted to the Audit Committee. The Annual Audit Plan is based on a schedule of specific audits established after performing a risk assessment, taking into consideration the potential for financial loss, major changes in operations or programs, and the dates and results of previous audits. The Audit Plan includes the input of Port Authority senior management and our independent accountants, and is reviewed with the Committee.

The Committee also discusses the quarterly report of the Inspector General with respect to investigations undertaken by that Office. The major function of the Inspector General's Office is to investigate situations or allegations of improper, unethical or illegal activities involving individuals within the Port Authority and persons with whom the Port Authority has a business relationship.

On a quarterly basis, the Audit Committee reviews the status of Port Authority accounts receivable and discusses the quarterly reports prepared by the Treasurer, Bruce Bohlen. The Committee monitors staff efforts to collect revenues due to

the Authority, and also discusses problem accounts and reviews the trends in receivable collections.

The Audit Committee has also, during the past year, requested staff presentations on key areas of business risk. For example, we are monitoring the Agency's Year 2000 plans for ensuring that all critical computer systems are replaced or remediated and tested. Staff has made regular, periodic presentations on the Agency's Year 2000 Plan to the Committee. Further, in response to Committee inquiries, Deloitte and Touche has told us that they have reviewed the Port Authority's approach to resolving Y2K issues and have made certain recommendations which were reflected in the Agency's Plan. Deloitte and Touche believe that the approach is reasonable. Deloitte & Touche has not advised us of any additional steps they believe should be undertaken.

Our Committee continued its practice of reviewing, in detail, the Authority's audited financial statements prior to their release. We are concerned not only with the control systems which assure the accuracy and completeness of the statements, but also with the presentation, the format, and, in the context of full and fair disclosure, the substance and language of the footnotes.

In the opinion of our independent accountants, the 1998 financial statements present fairly, in all material respects, the combined financial position of the Port Authority and the combined results of its operations in conformity with generally accepted accounting principles. We were pleased to hear that the Government Finance Officers Association recognized the Port Authority's 1997 Comprehensive Annual Financial Report with its Certificate of Excellence in Financial Reporting, an award that the Port Authority has received for each of the past fourteen years. This is a remarkable achievement for staff of the Comptroller's Department, which is headed by Margaret Zoch, Comptroller.

Finally, as the Chair of the Audit Committee, I review the expense reports of the Executive Director and, if any, members of the Board.

This annual report to the Board provides the Audit Committee with the opportunity to acknowledge the dedication and professionalism of our staff. The Committee recognizes the strengths, talent and commitment of our financial professionals, all of whom make an important contribution to the Authority and also to the Region.

The Audit Committee believes that reasonable controls and procedures are in place, and that there is a reasonable basis for this Board to have a high level of confidence in the professional and ethical conduct of our personnel.

ELECTION OF OFFICERS

Chairman Eisenberg announced that in accordance with the provisions of the By-Laws, the election of officers was in order.

Commissioner Schweitzer, as Chair of the Nominating Committee, submitted the following report:

"On behalf of the Nominating Committee, I desire to report that at its meeting held earlier today, in accordance with the provisions of Article XIa. of the By-Laws, the Committee, by unanimous action, submits the nomination for election to the offices of Chairman and Vice-Chairman of The Port Authority of New York and New Jersey of Commissioners Lewis M. Eisenberg and Charles A. Gargano, respectively. By unanimous action, the Committee also submits the nomination of Robert E. Boyle as Executive Director of the Port Authority and of Jeffrey S. Green as General Counsel of the Port Authority. By unanimous action, the Committee also submits the nominations of Daniel D. Bergstein as Secretary, Charles F. McClafferty as Director of Finance, Margaret R. Zoch as Comptroller, Bruce D. Bohlen as Treasurer and John D. Brill as Director of the Audit Department."

Pursuant to the foregoing report, Commissioners Donovan, Eisenberg, Kalikow, Mack, Philibosian, Sartor, Schweitzer, Song and Weinstein voting in favor, the following were unanimously elected as officers of the Port Authority: Commissioner Lewis M. Eisenberg as Chairman, Commissioner Charles A. Gargano as Vice-Chairman, Robert E. Boyle as Executive Director, Jeffrey S. Green as General Counsel, Daniel D. Bergstein as Secretary, Charles F. McClafferty as Director of Finance, Margaret R. Zoch as Comptroller, Bruce D. Bohlen as Treasurer and John D. Brill as Director of the Audit Department.

1999 BUDGET

The 1999 Budget for The Port Authority of New York and New Jersey, including the anticipated expenditures of subsidiary corporations, provides for capital and operating expenditures necessary to fulfill the agency's mission and achieve its goals and objectives through authorized programs.

The Commissioners have established that the Port Authority's mission is to identify and meet the critical transportation needs of the bistate region's businesses, residents and visitors by providing the highest quality, most efficient transportation and port commerce facilities and services that move people and goods within the region, provide access to the rest of the nation and to the world, and strengthen the economic competitiveness of the New York-New Jersey metropolitan region.

This mission is supported by goals and objectives that include: improving service quality, implementing new technologies, maintaining and enhancing infrastructure, improving management and delivery of capital programs, increasing agency cost-effectiveness, enhancing safety and security, promoting entrepreneurial initiatives, pursuing improvements in regional mobility, and advancing regional economic competitiveness.

The Budget serves as a financial planning tool which outlines estimated expenditures for fulfilling these objectives through programs already authorized or to be considered.

The 1999 Budget totals \$3,571 million. It consists of \$1,677 million for operating expenses, \$1,338 million for gross capital expenditures, \$472 million for debt service charged to operations, and \$84 million for other expenditures.

The 1999 Budget reflects continued implementation of customer service improvements affecting the Port Authority's airport, tunnel, bridge, terminal, rail, Port Commerce and World Trade facilities.

The 1999 Budget capital expenditures are devoted primarily to projects related to the Port Authority's Aviation, Interstate Transportation, PATH, Port Commerce and World Trade facilities. These expenditures will renew and maintain existing Port Authority facilities, enhance the capability of Port Authority assets to achieve overall operational performance levels, and provide a platform for expanding capacity in the future. Significant projects include improvements to runways and taxiways, landside access and terminals at the airports, dredging and port development projects for the port facilities, an initial new railcar purchase and various infrastructure improvements on PATH and electrical and security improvements at The World Trade Center.

The Executive Director would be authorized to take action with respect to professional, technical, or advisory services; contracts for maintenance and services, construction, commodities (materials, equipment, and supplies) purchases; the purchase of insurance; the settlement of employee and patron claims; and other actions, including personnel benefit, classification, range and procedural adjustments, as provided in the 1999 Budget.

The benefit, classification, range and procedural adjustments provided for in the Budget include those previously authorized for employees represented by unions. As contemplated in the 1999

Budget, and in light of developments affecting subordinate employee groups and recent salary and wage trends, salary ranges and adjustments for staff not represented for purposes of collective negotiations or bargaining include, effective December 27, 1998, and consistent with the Compensation Resolution, a 2.5 percent salary range increase with an additional 1.0 percent of payroll for administration of the 1999 Pay for Performance program for non-represented staff. And, in view of volatility in the benefit and insurance industry, continuing changes in provider offerings or financing methods may occur; consistent with prior delegations, the Executive Director would implement or approve such changes as he finds necessary or appropriate from time to time.

A provision of \$500,000 is also included to reimburse the States of New York and New Jersey for expenses incurred by both States, including staff costs, in reviewing the Port Authority's annual Budget and any amendments thereto.

Circumstances arose during the year 1998 that were not foreseeable or determinable when the 1998 Budget was prepared. The circumstances affecting the 1998 Budget and the resulting net changes are set forth below. Together with all other expenditures for the Port Authority and its subsidiary corporations for the year 1998, 1998 expenditures amount to \$132 million less than the total expenditures set forth in the 1998 Budget.

In connection with the effectuation of portions of the Port Authority's capital program from time to time and consistent with the 1999 Budget and capital program projections, it is desirable to establish a maximum amount for 1999 in connection with the Executive Director's authority to apply moneys in the Consolidated Bond Reserve Fund to the Capital Fund, subject to statutory, contractual, and other commitments and financial policies of the Port Authority, of up to \$350 million (after reimbursements for temporary applications) in addition to other capital funds carried into 1999 and the proceeds of Port Authority obligations to be issued.

The Executive Director's authority, pending final adoption and approval of the annual Budget, to make operating expenditures and undertake contractual commitments for continuing operations and professional services as contained in the financial plan presented to the Commissioners would also be confirmed.

Pursuant to the foregoing report presented by staff, the following resolution was adopted with Commissioners Donovan, Eisenberg, Kalikow, Mack, Philibosian, Sartor, Schweitzer, Song and Weinstein voting in favor; none against:

RESOLVED, that the 1999 Budget of The Port Authority of New York and New Jersey, as set forth below, be and the same hereby is approved and adopted, including authority for the Executive Director to (a) take action, in accordance with appropriate procedures, with respect to professional, technical, or advisory services as appropriate; contracts for maintenance and services, construction, and commodity purchases; purchase of insurance; settlement of claims; and other actions, including personnel benefit, classification, range, and procedural adjustments; and (b) pending final adoption of the annual Budget, make operating expenditures and undertake contractual commitments for continuing operations and services:

RESOLVED, that revisions to the Budget for the year 1998 be and the same hereby are approved:

**THE PORT AUTHORITY OF NY & NJ
Including Subsidiary Corporations
1998 BUDGET AND 1998 ACTUAL
(Thousands of Dollars)**

	<u>1998 BUDGET</u>	<u>1998 ACTUAL</u>	<u>CHANGE</u>
Capital Expenditures	\$1,067,694	\$ 869,159	(\$ 198,535)
Operating Expenses	1,576,653	1,640,186	63,533
Debt Service Charged to Operations	424,025	434,259	10,234
Deferred Expenses and Expenditures Supported by Non-operating Revenues	<u>65,948</u>	<u>58,684</u>	<u>(7,264)</u>
Total Port Authority Budget	<u>\$ 3,134,320</u>	<u>\$ 3,002,288</u>	<u>(\$ 132,032)</u>

; and it is further

RESOLVED, that, based upon a requisition of the Governor of the State of New York or the Governor of the State of New Jersey, or the duly authorized designee of each, the Port Authority shall pay to the State of New York or the State of New Jersey, or both, upon receipt of an appropriate expenditure plan from said State, an amount not in excess of \$250,000 to each said State to reimburse said State or States for expenses incurred by said State or States, including staff costs, in reviewing the annual Budget of the Port Authority and any amendments thereto; and it is further

RESOLVED, that the provision by the Executive Director of portions of the Port Authority's capital program from time to time, consistent with the 1999 Budget and capital program projections (including the continuing application of the Capital Fund on a temporary basis, subject to reimbursements), by application of moneys in the Consolidated Bond Reserve Fund, including investment earnings attributable to the General Reserve Fund not required for the maintenance of that

Fund, to the Capital Fund for capital expenditures for the year 1999 in connection with the Port Authority's facilities shall not, subject to statutory, contractual, and other commitments and financial policies of the Port Authority, exceed \$350 million (after any such reimbursements and in addition to other capital funds carried into 1999 and the proceeds of obligations to be issued).

**JOHN F. KENNEDY INTERNATIONAL AIRPORT - REHABILITATION OF
RUNWAY 4L-22R - PROJECT AUTHORIZATION AND AWARD OF
CONTRACT JFK-847**

Runway 4L-22R (Runway) is one of John F. Kennedy International Airport's primary departure runways, accounting for approximately 25 percent of departing air traffic in recent years. The Runway was last rehabilitated in 1986. Recent surface condition evaluations have revealed extensive pavement cracking, which, if left untreated, will result in further pavement deterioration requiring major reconstruction. This project, which would correct such condition, extend the Runway's useful life and otherwise improve the Runway, includes the following work: rehabilitation (asphalt overlay) of Runway pavement; installation of touch down zone lights at the approach end of 4L; drainage modifications; and, Runway upgrades associated with New Large Aircraft operations, including relocating the Runway edge lights, extending the erosion pavement and modifying the taxiway intersection fillets. Costs associated with this project are 100 percent recoverable via the Flight Fee Formula and funding under the Federal Aviation Administration's Federal Airport Improvement Program.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Kalikow, Mack, Philibosian, Sartor, Schweitzer, Song and Weinstein voting in favor; none against:

RESOLVED, that a project for the rehabilitation of Runway 4L-22R at John F. Kennedy International Airport at a total estimated project cost of \$23.3 million including payments to contractors, allowances for extra work (if necessary) and net cost work, administrative, engineering and financial expenses and a project contingency (if necessary) be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he is hereby authorized, for and on behalf of the Port Authority, to: 1) take action with respect to construction contracts and contracts for professional and advisory services related to the foregoing project as he deems in the best interest of the Port Authority including, without limitation, award without further authorization of Contract JFK-847, "Rehabilitation of Runway 4L-22R," at a total estimated contract price of \$20 million, to the lowest bidder by reason of responsibility, experience and capacity to perform the work and whose bid price he deems reasonable; or to reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors; 2) execute contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work (if necessary) and net cost work in connection with each contract, including supplemental agreements thereto; and, 3) enter into such other agreements as may be necessary to effectuate the project; and it is further

(Board - 5/27/99)

RESOLVED, that the form of all agreements in connection with the foregoing shall be subject to the approval of General Counsel or his authorized representative.

**JOHN F. KENNEDY INTERNATIONAL AIRPORT - CENTRAL TAXIHOLD
EXPANSION - PROJECT AUTHORIZATION AND AWARD OF CONTRACT
JFK-981.937**

Opened in 1994, the Central Taxihold (CTH) at John F. Kennedy International Airport has dramatically improved taxicab service at each of the JFK's unit terminals and has reduced vehicle traffic in the Central Terminal Area. However, despite the implementation of an overflow lot and queuing procedures, the capacity of the CTH has routinely been exceeded during the evening rush hours, resulting in queuing lines into the CTH and congestion on all immediate roadways which has adversely affected operations in Cargo Area "C". The expansion of the CTH would relieve traffic congestion in the area and reduce delays in taxicab service to each of the unit terminals.

This project for the expansion of the CTH would include the demolition of Building 199 (former Carey Maintenance Garage), the construction of a new Dispatchers' Building, the relocation of entrance/exit plazas, the expansion of the Amenities Building and paving and restriping. It is anticipated that this project would be completed by April 30, 2000. The work would be staged to minimize impacts on the operations of the existing CTH and adjacent roadways and cargo terminals. The cost of this project is partially recoverable from the Flight Fee Formula, and the project is eligible for Airport Federal Aid Funding.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Kalikow, Mack, Philibosian, Sartor, Schweitzer, Song and Weinstein voting in favor; none against:

RESOLVED, that a project for the expansion of the existing Central Taxihold at John F. Kennedy International Airport at a total estimated project cost of \$4.3 million, including payments to contractors, allowances for extra work (if necessary) and net cost work, administrative, engineering and financial expenses and a project contingency (if necessary) be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to: 1) take action with respect to construction contracts and contracts for professional and advisory services related to the foregoing project as he deems in the best interest of the Port Authority, including, without limitation, award without further authorization of Contract JFK-981.937 for the expansion of the Central Taxihold, including the demolition of Building 199, construction of a new Dispatchers' Building, the relocation of entrance/exit plazas, the expansion of the Amenities Building, and paving and restriping, at a total estimated contract price of \$2.6 million, to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price he deems reasonable; or to reject all bids, solicit new bids on revised or same requirements, or negotiate with one or more bidders or contractors; 2) execute contracts and supplemental agreements

with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work (if necessary) and net cost work in connection with each contract, including supplemental agreements thereto; and, 3) enter into such other agreements as may be necessary to effectuate the project; and it is further

RESOLVED, that the form of all contracts and agreements in connection with the foregoing shall be subject to the approval of General Counsel or his authorized representative.

JOHN F. KENNEDY INTERNATIONAL AIRPORT - DO&CO RESTAURANTS & CATERING AG - LEASE AGREEMENT

It was recommended that the Board authorize the Executive Director to enter into an approximately ten-year lease with DO&CO Restaurants & Catering AG covering approximately 32,400 square feet of catering facilities and office area in Building No. 183 and approximately three acres of related outside area at Building 183 at John F. Kennedy International Airport.

The lease would provide a right for the Port Authority to terminate the lease at any time on thirty days' notice without cause, in which event the Port Authority would be obligated to reimburse the lessee its straight-line unamortized capital investment for initial construction costs (inclusive of the costs of any asbestos abatement, removal and disposition but exclusive of the costs of trade fixtures and personal property) up to \$5,000,000. The lessee will be required to make a minimum initial capital investment in and at the premises (exclusive of the cost items identified above) of at least \$3,500,000 which, when considered, would yield an effective rental similar to comparable facilities at the airport.

The rent obligation will be a fixed amount of approximately \$259,000 per year which is subject to annual adjustments, and an amount equal to eight percent of gross receipts generated by airport-related activities. The gross receipts related to the lessee's non-aviation, off-airport catering activities will not be subject to a percentage fee but such non-aviation, off-airport catering activities will be limited to gross receipts that in all events will not exceed twenty-five percent of the lessee's total gross receipts under the lease. The rent commencement date for the fixed-rent obligation shall be the earlier of (1) the 90th day following the date of the lease, (2) the date the lessee's initial construction work is substantially completed, and (3) the date the premises or any portion thereof is occupied by the lessee for a use permitted by the lease. The rent commencement date for the percentage rent obligation will be the date the premises or any portion thereof is occupied by the lessee for a use permitted by the lease.

The lessee will be responsible for any environmental remediation above the baseline condition of the premises, including without limitation removal and disposition of debris and materials resulting from construction at the premises, as well as abatement, removal and disposition of asbestos, if any, arising out of the lessee's construction, and will be responsible for all maintenance, operation and insurance on the premises.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Kalikow, Mack, Philibosian, Sartor, Schweitzer, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with DO&CO Restaurants & Catering AG substantially in accordance with the terms and conditions outlined to the Board; the form of the agreement to be subject to the approval of the General Counsel or his authorized representative.

NEWARK INTERNATIONAL AIRPORT - AUTHORIZATION TO ENTER INTO AGREEMENTS WITH THE FEDERAL AVIATION ADMINISTRATION FOR A NEW AIR TRAFFIC CONTROL TOWER

It was recommended that the Board authorize the Executive Director to enter into a License Agreement (ANB-029) and Agreement for the Operation of Air Traffic Control Tower (ANB-064) with the United States of America, acting by and through the Federal Aviation Administration (FAA) for the construction, use, and operation of a new Control Tower at Newark International Airport and for the demolition of the existing control tower.

The FAA occupies and operates the existing Control Tower that was built by the Port Authority and commissioned on January 18, 1960. The steady growth of EWR has created the need for a modern air traffic control facility to replace the existing tower and to allow for the incorporation of state-of-the-art equipment, remedy sight-line obstructions to aeronautical operational areas, and promote efficiency of operations. Therefore, the FAA has proposed the construction of a new Control Tower on approximately 1.83 acres of land adjacent to the Marriott Hotel. License Agreement ANB-029 will grant the FAA permission to use and occupy that land at EWR for the construction of the new Control Tower. The design, construction and operation costs for the new Control Tower will be funded by the FAA. The FAA has agreed to demolish the current Control Tower, subject to the availability of funds. Currently, however, the FAA has no funds allocated for the demolition, and unless the existing Control Tower is a sufficient obstruction, it is anticipated FAA funds may not be available for its demolition.

The License Agreement will have a 30-year term and allow the FAA or the Port Authority to terminate the Agreement without cause with 120 days' written notice. If the Port Authority terminates the License Agreement without cause it will be obligated to pay the FAA either its unamortized investment calculated on a straight-line basis over a 20-year period if the new tower is not to be demolished or, if the tower is to be demolished, an amount equal to the cost of demolition multiplied by a fraction, the numerator being the number of years left in the term and the denominator being the term of 20 years. It is estimated that the FAA's investment in the new Control Tower will be \$30 million.

The FAA will be responsible for the construction of access roadways between the Control Tower site and existing airport roadways. The Port Authority will be responsible for the maintenance of these access roadways.

The Agreement for Operation of the Air Traffic Control Tower (ANB-064) will obligate the FAA to operate the new Control Tower at its expense and will be coterminous with the License Agreement.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Kalikow, Mack, Philibosian, Sartor, Schweitzer, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into agreements with the United States of America, acting by and through the Federal Aviation Administration, for the construction, use, and operation of a new Air Traffic Control Tower at Newark International Airport and for the demolition of the existing control tower, substantially in accordance with the terms and conditions outlined to the Board; and it is further

RESOLVED, that the form of the agreements in connection with the foregoing shall be subject to the approval of General Counsel or his authorized representative.

NEWARK INTERNATIONAL AIRPORT - NORTH AREA DRAINAGE/TAXIWAY Z RECONSTRUCTION - PROJECT AUTHORIZATION AND AUTHORITY TO AWARD CONTRACT EWR 154.129

The existing drainage system in the North Area of Newark International Airport (Airport) dates from the original construction of the Army Air Corps base (circa 1941) and was not designed to accommodate the present runoff volume. In addition to carrying storm water from the north end of the Airport, a portion of the drainage system also carries combined sewer overflow from the City of Newark Adams District, an area of over one square mile. This overflow passes through the Airport drainage system into Adams Ditch, and then into the Airport Peripheral Ditch. Deficiencies in the drainage network in the North Area are exacerbated by a high water table, which could eventually lead to premature failure of the aeronautical pavement. Accordingly, certain improvements to the existing main trunk drainage system, including the construction of new gravity trunk drains, are required.

The reconstruction of approximately 2,000 feet of Taxiway Z, also in the North Area, would increase the separation between Taxiway Z and Runway 11-29 from the current 350 feet to 400 feet, resulting in increased aircraft maneuverability and additional space for navigational aids.

This project would be managed in two phases. Phase I, which would be performed under Contract EWR 154.129, would include the construction of a 2,900-foot underground drainage culvert on Brewster Road west of D Street; modifications to Peddie Ditch; and, the reconstruction of Brewster Road between D Street and Peddie Ditch. Phase II would include the installation of a 1,700-foot drainage trunk replacement between Taxiway S and the existing culvert at Taxiway U; the reconstruction of approximately 1,400 feet of Brewster Road in the vicinity of Building 70 including the installation of a new 60-inch drain; and aeronautical work consisting of the reconstruction of approximately 2,000 feet of Taxiway Z west of Taxiway S between Taxiways S and U. Elements of this project would require permits from the New Jersey Department of Environmental Protection. Mitigation measures would be required to comply with Wetlands and Stream Encroachment Regulations. If contaminated soil is encountered and disturbed in the Peddie Ditch, the removal and disposal of hazardous materials may also be required. Funds to cover the cost of any such mitigation and removal and disposal are included in the project cost. To the extent work under this project may affect drainage from the City of Newark Adams District, plans and specifications for such work would be reviewed with appropriate representatives of the City of Newark. It is anticipated that the project would commence by May 1999 and be completed by October 2002. Project costs would be fully recoverable through the Airport Services and Flight Fee Formula components of the Airport Master Lease. It is expected that the Phase II Taxiway Z and associated trunk drain work will be eligible for Federal Aviation Administration funds under the Airport Improvement Program.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Kalikow, Mack, Philibosian, Sartor, Schweitzer, Song and Weinstein voting in favor; none against:

RESOLVED, that a project to improve the main trunk drainage system, and to reconstruct approximately 2,000 feet of Taxiway Z west of Taxiway S between Taxiways S and U, in the North Area of Newark International Airport at a total estimated project cost of \$ 67.3 million including payments to contractors, allowances for extra work (if necessary) and net cost work, administrative, engineering, and financial expenses and a project cost contingency (if necessary) be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to: 1) take action with respect to purchase and construction contracts and agreements for professional and advisory services related to the foregoing project as he deems in the best interest of the Port Authority including, without limitation, award without further authorization of Port Authority Contract EWR 154.129, "North Area Drainage Phase I," at a total estimated contract price of \$19.4 million, to the lowest bidder qualified by reason of responsibility, experience and capacity to perform the work and whose bid price he deems reasonable; or to reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors; 2) execute contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work (if necessary) and net cost work in connection with each contract including supplemental agreements thereto; and, 3) enter into such other agreements as may be necessary to effectuate the project; and it is further

RESOLVED, that the form of all agreements in connection with the foregoing shall be subject to the approval of General Counsel or his authorized representative.

ALL AIRPORTS - AIRCRAFT NOISE ABATEMENT PROGRAM - 1999 SCHOOL SOUNDPROOFING PROGRAM

The Port Authority School Soundproofing Program has been in existence since 1983, when the Federal Aviation Administration (FAA) began its program. This authorization will bring the total number of individual schools in the Port Authority's program to 61 (38 in New York and 23 in New Jersey). To date, soundproofing has been completed at 32 schools within the sixty-five decibels day/night average (65 DNL) noise contour. The communities most affected by aircraft noise (in Queens, the Bronx, Newark and Elizabeth) have recognized the positive results of this program. The program significantly reduces perceived noise levels within the instructional areas of the schools.

Including the amount requested in this authorization, approximately \$105 million has been allocated since 1983 for this program. Approximately \$84 million of this amount was provided through federal Airport Improvement Program (AIP) grants while an estimated \$21 million was provided by the Port Authority.

Based on FAA guidelines, the primary eligibility criteria for school soundproofing under AIP is based on schools being located within the 65 DNL contour of the most current airport noise exposure map. Based on this criteria, this authorization will provide funds for the soundproofing of:

- o PS 25-Bronx, NY, Phase I, estimated at \$1.5 million;
- o PS 146Q-Queens, NY, Phase III, estimated at \$1.6 million;
- o PS 195-Queens, NY, Phase II, estimated at \$1.0 million;
- o St. Anselms School-Bronx, NY, Phase I, estimated at \$1.5 million; and
- o Memorial School-South Hackensack, NJ, Phase I, estimated at \$1.4 million.

Also, based on FAA guidelines, there are alternative eligibility noise criteria for schools outside the 65 DNL noise contour using actual measurements of aircraft noise within the school. Based on this criteria, this authorization will also provide funds for soundproofing:

- o St. Stephen's School-Kearny, NJ, Phase I, estimated at \$2.0 million.

The agreements with each school will stipulate that the project is based upon the expectation that federal grant funds and Port Authority funds will be available. In the event the Port Authority fails to obtain sufficient federal funds to complete all of the proposed soundproofing, it may terminate the agreement entirely before construction starts or agree to complete only a Port Authority-defined portion of work for which Port Authority and federal funds are made available.

Although the Port Authority provides the funds to soundproof a school, the responsible school entity assumes all liabilities in connection with the work, retains the consultant and contractor, and assumes responsibility for the supervision and completion of construction.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Kalikow, Mack, Philibosian, Sartor, Schweitzer, Song and Weinstein voting in favor; none against:

RESOLVED, that the 1999 School Soundproofing Program, consisting of six schools in the proximity of Port Authority airports, at a total estimated expenditure of \$9 million, be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into agreements with the responsible school entities to provide funds to reduce the impact of noise levels within these schools; the form of the agreements shall be subject to the approval of General Counsel or his authorized representative.

LINCOLN TUNNEL AND HOLLAND TUNNEL - INTELLIGENT TRANSPORTATION SYSTEMS - PROJECT AUTHORIZATION AND AWARD OF CONTRACTS MFB-204.008, MFB-204.008M AND MFB-204.009

The Intelligent Transportation System (ITS) is a collection of technologies aimed at improving the efficiency of traffic management at vehicular facilities. Deployment of ITS technologies at the Lincoln and Holland Tunnels will provide significant improvements in customer service through congestion management and delay reduction, faster detection, verification and response to incidents and enhanced real-time information to Port Authority customers. Anticipated completion dates are December 2001 for the Holland Tunnel and December 2002 for the Lincoln Tunnel.

The Lincoln and Holland Tunnel ITS project will include the following elements: an automatic incident detection subsystem; installation of over 100 new and replacement variable/changeable message signs; replacement and upgrade of over 150 closed-circuit television cameras with new color cameras; installation of a road weather information system to detect significant weather conditions; replacement of hundreds of non-standard and faded fixed message guidance and regulatory signs, such work to be performed on an expedited basis under a separate contract; installation of a dial-in highway advisory telephone system allowing motorists to obtain real-time travel information; and, installation of a central computer system to provide integrated traffic management from a single workstation. The project will also include modifications to the existing Communications Desks at both Tunnels.

Pursuant to the foregoing report presented by staff, the following resolution was adopted with Commissioners Donovan, Eisenberg, Kalikow, Mack, Philibosian, Sartor, Schweitzer, Song and Weinstein voting in favor; none against:

RESOLVED, that a project for the development and implementation of the Intelligent Transportation System at the Lincoln and Holland Tunnels at a total estimated project cost of \$64.7 million including payments to contractors, allowances for extra work (if necessary) and net cost work, engineering, administration, and financial expenses, and a project contingency (if necessary) be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to: 1) solicit proposals for Contract MFB-204.008 to design, furnish and install the Intelligent Transportation System at the Lincoln and Holland Tunnels at a total estimated contract price of \$39 million combined with Contract MFB-204.008M for four-year maintenance of such Systems at a total estimated contract price of \$1.7 million, and to award such contracts without further authorization to the proposer whose proposal is rated highest based on cost, quality, and such other criteria as are established prior to solicitation of proposals, and to order extra work (if necessary) up to six percent of the contract price of Contract MFB-204.008 and up to six percent

of the annual maintenance price of Contract MFB-204.008M in each contract year, and net cost work in connection with each contract, including supplemental agreements thereto, or to reject all proposals and solicit new proposals on revised or the same requirements as he deems in the best interest of the Port Authority; 2) take action with respect to purchase and construction contracts and agreements for professional and advisory services related to the foregoing project as he deems in the best interest of the Port Authority including, without limitation, award of Contract MFB-204.009 for fixed message sign replacement at a total estimated contract price of \$2.5 million, to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price he deems reasonable; or to reject all bids, solicit new bids on revised or the same requirements or negotiate with one or more bidders or others contractors and to order extra work (if necessary) up to six percent of the contract price of Contract MFB-204.009; 3) execute contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work (if necessary) and net cost work in connection with each contract including supplemental agreements thereto; and, 4) negotiate and enter into such other agreements and acquire such property interests and permits as may be necessary to effectuate the project; and it is further

RESOLVED, that the form of all agreements in connection with the foregoing shall be subject to the approval of General Counsel or his authorized representative.

ESSEX COUNTY RESOURCE RECOVERY FACILITY - AGREEMENT WITH ESSEX COUNTY UTILITIES AUTHORITY

It was recommended that the Board authorize the Executive Director to enter into an agreement with (i) The Essex County Utilities Authority (ECUA) to provide for the guaranteed delivery of waste to The Essex County Resource Recovery Facility (ECRRF) and (ii) the ECUA and the County of Essex (collectively Essex) for the settlement of the Port Authority's damage claims arising out of the Port Authority's original agreement with the County of Essex.

Last year, a New Jersey state court decision ended the authority of Essex to mandate local municipalities to deliver waste to the ECRRF. The court has not decided the Port Authority's counterclaim filed in the case, which seeks monetary damages to satisfy Essex's financial obligations to the Port Authority as provided in the Port Authority's original agreement with the County of Essex.

In order to ensure that waste generated within Essex County will continue to be delivered to the ECRRF and to resolve the litigation concerning Essex's prior financial obligations to the Port Authority, staff has been engaged in discussions with the ECUA and the sides have now reached agreement. The agreement provides for guaranteed delivery of a minimum of 350,000 tons per year at a starting price of \$52.50 per ton, beginning on January 1, 2000 and escalating annually by a CPI-based index throughout the following ten years. In order to ensure that delivery of the waste is consistent with the court decision, the ECUA will enter into agreements with the various Essex County municipalities, under which they will voluntarily deliver their waste to the ECRRF. In addition, the agreement requires the ECUA to pay to the Port Authority an aggregate total of \$26 million in settlement of the Port Authority's damage claims. The agreement also releases all other claims between the parties, except for third-party claims covered by the indemnification provisions in the original agreement with Essex. The Port Authority will receive lump-sum payments totaling \$16.2 million on or about January 1, 2000. The remainder of the total settlement amount would be paid over an 18-year period. The net present value of the settlement is approximately \$22 million.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Kalikow, Mack, Philibosian, Sartor, Schweitzer, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with (i) The Essex County Utilities Authority to provide for the guaranteed delivery of waste to The Essex County Resource Recovery Facility and (ii) The Essex County Utilities Authority and the County of Essex for the settlement of the Port Authority's damage claims arising out of the Port Authority's original agreement with the County of Essex, all substantially in accordance with the terms and conditions outlined to the Board; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

PROJECT COOPERATION AGREEMENT - ARTHUR KILL CHANNEL 41/40-FOOT DEEPENING PROJECT - INCREASE IN AUTHORIZATION

Staff recommended that the Board authorize an amendment to the prior authorization of April 30, 1998 granting authority for the Executive Director to enter into a Project Cooperation Agreement (PCA) with the United States Government for the deepening to 41/40 feet and selective widening of the Arthur Kill Channel to pay 35 percent of the fully-funded project cost which has been revised from an estimated cost of \$253.5 million, plus interest, to an estimated cost of \$288.2 million; increase payment of the estimated local share from \$88.7 million to \$100.9 million; and increase payment for costs associated with utility relocations from \$8.5 million to an estimated \$9.7 million.

The purpose of the PCA is to enable final design and construction of a 41/40-foot deep federal channel in the Arthur Kill to allow modern deep-draft containerships safe access to the Howland Hook Marine Terminal, as well as tanker access to petroleum facilities located along the Arthur Kill.

At the time of the Board authorization in April 1998, the United States Army Corps of Engineers (Corps) advised the Port Authority that the estimated cost of the project was \$253.5 million, plus interest. The Corps included this estimate in the first draft of the PCA. In November 1998, the Corps advised the Port Authority for the first time that its engineering regulations now require the Corps to incorporate into the PCA fully funded project estimates, which are total project costs estimated at the mid-term of the project, including the cost of inflation. The fully funded estimate provided by the Corps for the project is \$288.2 million, of which \$100.9 million would be required to be provided by the local sponsor.

The local sponsor is responsible for ensuring that associated berth improvements and utility relocation work are performed, as well as providing lands, easements, rights-of-way and dredged material disposal areas. Berth dredging and deepening projects related to Port Authority facilities are part of the container terminal redevelopment plan and have been included in the proposed 1999-2003 Capital Plan. Future Board authorizations may be sought for the Port Authority to perform portions of this work as detailed designs and cost estimates are developed.

The Corps estimates that 420,000 cubic yards of rock, 840,000 cubic yards of clean non-rock material and 2.1 million cubic yards of material not suitable for ocean disposal will be dredged. Disposal will occur in permitted aquatic and upland sites.

Although the 1996 Water Resources Development Act (WRDA) authorized \$83 million for the deepening of the Arthur Kill, the current estimated fully funded cost of \$288.2 million, plus \$9.7 million for utility relocations, exceeds that authorization.

The Port Authority is proceeding with this increase in authorization for the Arthur Kill 41/40-foot deepening project in anticipation of Congressional approval under the 1999 WRDA. On March 26, 1999, the States of New York and New Jersey and the Port Authority submitted joint testimony to the Congressional Appropriations Committee requesting

that \$2 million be appropriated in the federal Fiscal Year (FY) 2000 (10/99) budget to commence the deepening. Congress is expected to ratify both the \$2 million appropriations request to advance the project in FY 2000 and increase the current \$83 million funding cap.

If funds are not appropriated, the Port Authority and/or both States may have to consider providing additional funding, subject to reimbursement by Congress, to cover the federal share of the work in order for construction to commence in FY 2000 (which begins in October 1999).

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Kalikow, Mack, Philibosian, Sartor, Schweitzer, Song and Weinstein voting in favor; none against:

RESOLVED, that the Board hereby authorizes an amendment to its authorization of April 30, 1998 relative to a Project Cooperation Agreement (PCA) for the Arthur Kill 41/40-Foot Deepening Project; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to:

1) enter into a PCA with the United States Government to construct a 41/40-foot deep channel with selective widening in the Arthur Kill Channel at an estimated cost of \$288.2 million and to sign associated agreements, contracts and documents to fulfill the Port Authority's responsibilities under the PCA;

2) pay the United States Government, in order to fund the non-Federal Sponsor's Share, the local share of such construction costs, currently estimated at \$100.9 million, plus an estimated \$9.7 million for utility relocation; and

3) provide an interest bearing escrow, letter of credit or other funding assurance as required under federal law to fulfill this funding obligation; and it is further

RESOLVED, that the form of the PCA and all agreements, contracts and documents necessary to implement the PCA shall be subject to the approval of General Counsel or his authorized representative.

BROOKLYN-PORT AUTHORITY MARINE TERMINAL - BUILDING 185 - BRYAN DOESIT, INC. - LEASE BP-297

It was recommended that the Board authorize the Executive Director to enter into an agreement with Bryan Doesit, Inc. (BDI) to provide for the letting of Building No. 185 (the Building) and related open area at the Brooklyn-Port Authority Marine Terminal for a term commencing on April 1, 1999 and expiring on March 31, 2009. The basic rental for the first year of the letting will be at the rate of \$258,248, which will escalate each year thereafter commencing on April 1, 2000 at the rate of 2 percent compounded annually. BDI will have the right to install an office in the Building utilizing an estimated 4,000 square feet. If BDI exercises this right, the total rentable area for the purpose of establishing rental will be reduced by the estimated 4,000 square feet (for a rental reduction of \$1,333.34 per month) for the period from April 1, 1999 through the earlier of May 31, 1999 or the date the office installation is completed.

The Port Authority will have a one-time right to terminate the letting effective March 31, 2004, if the premises are needed for other purposes. The Port Authority will also have the right to terminate the letting, without cause, on 30 days' notice. The 30-day termination right will be deleted from the agreement by supplemental agreement after the finalization of Board authorization. If the Port Authority exercises either of these termination rights, it will pay BDI for the unamortized cost of the office installation, up to an initial total cost of \$50,000.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Kalikow, Mack, Philibosian, Sartor, Schweitzer, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Bryan Doesit, Inc., substantially in accordance with the terms and conditions outlined to the Board; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**PORT NEWARK - MARINE TRANSPORT, INC. - LEASE LPN-241, SUPPLEMENT
NO. 2 - LEASE EXTENSION**

It was recommended that the Board authorize the Executive Director to enter into a supplemental agreement to lease LPN-241 with Marine Transport, Inc., pursuant to which the term of letting would be extended through June 30, 2007 at Building 150 and the related open area, including area for an office trailer, at Port Newark. The lease will be further amended by eliminating the mutual 30-day right to terminate without cause with respect to the open and office trailer areas, but the mutual right to terminate on 30-days notice without cause will remain with respect to the leased space at Building 150.

The annual rental rate for the open area, the leased space at Building 150 and the trailer area, will all be subject to periodic escalation commencing July 1, 1999.

Pursuant to the foregoing report the following resolution was adopted with Commissioners Donovan, Eisenberg, Kalikow, Mack, Philibosian, Sartor, Schweitzer, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a supplemental agreement to lease LPN-241 with Marine Transport, Inc., substantially in accordance with the terms and conditions outlined to the Board; the form of said agreement shall be subject to the approval of General Counsel or his authorized representative.

**PORT NEWARK - CONTINENTAL GYPSUM COMPANY - LEASE LPN-213,
SUPPLEMENT NO. 2 - LEASE AMENDMENT**

It was recommended that the Board authorize the Executive Director to enter into a supplemental agreement to lease LPN-213 with Continental Gypsum Company (CGC), pursuant to which CGC will lease approximately 26,000 additional square feet of warehouse space and related open area in and around Building 268 and, in addition, approximately 7,245 square feet of additional open area between Buildings 268 and 267, at Port Newark. The additional space is to be used in connection with CGC's existing wholesale wallboard manufacturing and distribution operations at Port Newark.

The commencement date under the agreement with respect to such additional area will be July 1, 1999. The annual rental rates for the warehouse and open area, and any applicable abatement rates, will be subject to the same escalation provisions as the existing leasehold space.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Kalikow, Mack, Philibosian, Sartor, Schweitzer, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a supplemental agreement to lease LPN-213 with Continental Gypsum Company at Port Newark, substantially in accordance with the terms and conditions outlined to the Board; the form of said agreement shall be subject to the approval of General Counsel or his authorized representative.

PORT AUTHORITY BUS TERMINAL - PABS 96, INC. D/B/A BROADWAY SNEAKERS - LEASE SUPPLEMENT

It was recommended that the Board authorize the Executive Director to enter into an agreement (the Supplement) amending the Port Authority's existing lease (the Lease) with PABS 96, Inc. d/b/a Broadway Sneakers (Broadway Sneakers) covering the construction and operation of a retail sporting goods shop in approximately 2,695 square feet of retail space on the Main Concourse level of the North Wing of the Port Authority Bus Terminal, and the letting of 1,827 square feet of storage space on the Second Floor of the North Wing for a term of approximately ten years, at a graduated basic rental for the premises at an annual rate ranging from approximately \$170,000 to approximately \$237,000 during the term of the letting, to restructure Broadway Sneakers' rental obligations under the Lease, substantially in accordance with the terms and conditions outlined to the Board.

At its meeting in May 1996, the Board authorized the Port Authority to enter into the Lease with Broadway Sneakers. Soon after Broadway Sneakers commenced public operations under the Lease, in October 1997, its business was impacted as a result of scaffolding erected in March 1998 in connection with the construction of outdoor spectacular signs at the Port Authority Bus Terminal. The resultant lack of visibility and accessibility to the premises have caused a drastic reduction in sales, as evidenced by sales reports submitted by Broadway Sneakers in support of their request for relief.

The Supplement would amend the Lease to provide that for the period from April 1, 1998 through December 31, 1999, in lieu of the basic rental provided for in the Lease, Broadway Sneakers would pay a percentage rental equivalent to ten percent of the gross receipts arising from its operation in the premises during such period. It is estimated that the amendment would result in a monthly rent reduction of approximately \$10,000 during the period.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Kalikow, Mack, Philibosian, Sartor, Schweitzer, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with PABS 96, Inc. d/b/a Broadway Sneakers at the Port Authority Bus Terminal, substantially in accordance with the terms and conditions outlined to the Board; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

ENLARGEMENT OF FOREIGN-TRADE ZONE NO. 49 THROUGH THE ESTABLISHMENT OF A SUBZONE TO INCLUDE THE CLARIANT CORPORATION LOCATED IN SOMERVILLE AND SOMERSET, NEW JERSEY

The Port Authority, as grantee of Foreign-Trade Zone No. 49, has been requested by Clariant Corporation (Clariant) to submit an application to the Foreign-Trade Zone Board of the United States Department of Commerce for the establishment of a subzone at the Clariant facility and warehouse in Somerville and Somerset, New Jersey. With subzone status, Clariant, a manufacturer of speciality chemicals for the electronics industry, will be able to import raw materials at lower duty rates than it now pays, enabling it to maintain its competitive position in the world marketplace. If the subzone is not established, foreign competitors which are now able to import finished specialty chemical products at a lower duty rate than Clariant currently pays on the raw material it imports will continue to enjoy a competitive advantage over Clariant.

Clariant Corporation will enter into an agreement with the Port Authority which will provide for a payment to the Port Authority of an annual fee and appropriate assurance that the subzone will be operated without unusual cost, expense or risk of loss to the Port Authority.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Kalikow, Mack, Philibosian, Sartor, Schweitzer, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to file an application with the Foreign-Trade Zone Board of the United States Department of Commerce for the establishment of a subzone of Foreign Trade Zone No. 49 at the Clariant Corporation (Clariant) facility and warehouse in Somerville and Somerset, New Jersey and to execute appropriate agreements with Clariant; the form of the agreements and documents involved in this application shall be subject to the approval of General Counsel or his authorized representative.

ENLARGEMENT OF FOREIGN-TRADE ZONE NO. 49 THROUGH THE ESTABLISHMENT OF A SUBZONE TO INCLUDE FIRMENICH, INC. LOCATED IN NEWARK AND PLAINSBORO, NEW JERSEY

The Port Authority, as grantee of Foreign-Trade Zone No. 49, has been requested by Firmenich, Inc. (Firmenich) to submit an application to the Foreign Trade Zone Board of the United States Department of Commerce for the establishment of a subzone at its facilities in Newark and Plainsboro, New Jersey. With subzone status, Firmenich, a manufacturer of flavor and fragrance products, will be able to compete more effectively with foreign manufacturers who are able to import finished products at duty rates lower than the duty on raw materials used by Firmenich to manufacture products in the United States. It is expected that subzone status will enhance the company's ability to sell to overseas customers, which will help it to retain and expand the local workforce.

Firmenich will enter into an agreement with the Port Authority which will provide for a payment to the Port Authority of an annual fee and appropriate assurance that the subzone will be operated without unusual cost, expense or risk of loss to the Port Authority.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Kalikow, Mack, Philibosian, Sartor, Schweitzer, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to submit an application with the Foreign Trade Zone Board of the United States Department of Commerce for the establishment of a subzone of Foreign Trade Zone No. 49 at the Firmenich, Inc. (Firmenich) facilities in Newark and Plainsboro, New Jersey and to execute appropriate agreements with Firmenich in connection therewith; the form of the agreements and documents involved in this application shall be subject to the approval of General Counsel or his authorized representative.

ENLARGEMENT OF FOREIGN TRADE ZONE NO. 49 THROUGH THE ESTABLISHMENT OF A SUBZONE TO INCLUDE SHISEIDO AMERICA, INC. LOCATED IN OAKLAND, NEW JERSEY

The Port Authority, as grantee of Foreign-Trade Zone No. 49, has been requested by Shiseido America, Inc. (Shiseido) to submit an application to the Foreign-Trade Zone Board of the United States Department of Commerce for the establishment of a subzone at the Shiseido facility in Oakland, New Jersey. With subzone status, Shiseido, a manufacturer and distributor of cosmetics, perfume and skin care products, will realize savings through duty deferral, the avoidance of duty on exported products and a streamlined distribution system. If subzone status is not established, Shiseido will be at a competitive disadvantage, and may have to relocate, with a resultant loss of jobs in the region.

Shiseido America, Inc. will enter into an agreement with the Port Authority which will provide for a payment to the Port Authority of an annual fee and appropriate assurance that the subzone will be operated without unusual cost, expense or risk of loss to the Port Authority.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Kalikow, Mack, Philibosian, Sartor, Schweitzer, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to file an application with the Foreign-Trade Zone Board of the United States Department of Commerce for the establishment of a subzone of Foreign Trade Zone No. 49 at the Shiseido America, Inc. (Shiseido) facility in Oakland, New Jersey and to execute appropriate agreements with Shiseido in connection therewith; the form of the agreements and documents involved in this application shall be subject to the approval of General Counsel or his authorized representative.

TRIBUTE TO COMMISSIONER JOHN J. HALEY, JR.

The following resolution was unanimously adopted expressing the appreciation of the Members of the Board of Commissioners of The Port Authority of New York and New Jersey to Commissioner John J. Haley, Jr.:

WHEREAS, since his appointment by New Jersey Governor Christine Todd Whitman in 1997, the Honorable John J. Haley, Jr. has served with distinction as a member of the Board of Commissioners; and

WHEREAS, Commissioner Haley has well and diligently served as a member of the Committee on Construction and the Committee on Capital Programs/Port Planning; and

WHEREAS, having served for two years as a member of the agency's senior executive staff prior to his appointment to the Board, John Haley brought vast transportation expertise to his work on both the Committees and the Board as a whole;

NOW, THEREFORE, it is

RESOLVED, that the Commissioners of The Port Authority of New York and New Jersey do hereby express their heartfelt appreciation for John Haley's service to the Port Authority and the people of the Port District; and it is further

RESOLVED, that the Commissioners do hereby direct that this resolution be suitably engraved and presented to Commissioner John J. Haley, Jr. as a memento from his fellow Commissioners.

TRIBUTE TO COMMISSIONER ROBERT C. JANISZEWSKI

The following resolution was unanimously adopted expressing the appreciation of the Members of the Board of Commissioners of The Port Authority of New York and New Jersey to Commissioner Robert C. Janiszewski:

WHEREAS, since his appointment by New Jersey Governor James J. Florio in 1992, the Honorable Robert C. Janiszewski has served with distinction as a member of the Board of Commissioners; and

WHEREAS, Commissioner Janiszewski has well and diligently worked on a number of standing committees of the Board, including his service as a member and the Chair of the Committee on Capital Programs/Construction, as a member and Vice-Chair of the Committee on Port Planning, as a member of the Committee on Capital Programs/Port Planning, and as the Chair of the Committee on Construction; and

WHEREAS, through his distinguished chairmanship of the Committee on Construction, Commissioner Janiszewski was instrumental in furthering the agency's Minority/Women's Business Enterprise goals, initiatives, and programs; and

WHEREAS, during his seven years on the Board, Commissioner Janiszewski has given generously of his time and effort in an endeavor to enhance the economic strength and transportation infrastructure of the Port District and the people it serves;

NOW, THEREFORE, it is

RESOLVED, that the Commissioners of The Port Authority of New York and New Jersey do hereby express their heartfelt appreciation for Robert C. Janiszewski's years of service to the Port Authority and the people of the Port District; and it is further

RESOLVED, that the Commissioners do hereby direct that this resolution be suitably engraved and presented to Commissioner Robert C. Janiszewski as a memento from his fellow Commissioners.

TRIBUTE TO COMMISSIONER AUBREY C. LEWIS

The following resolution was unanimously adopted expressing the appreciation of the Members of the Board of Commissioners of The Port Authority of New York and New Jersey to Commissioner Aubrey C. Lewis:

WHEREAS, since his appointment by New Jersey Governor Christine Todd Whitman in 1997, the Honorable Aubrey C. Lewis has served with distinction as a member of the Board of Commissioners; and

WHEREAS, Commissioner Lewis has well and diligently worked on a number of standing committees of the Board, including his service as a member of the Committees on Finance and Operations and the Audit Committee; and

WHEREAS, always mindful of the responsibilities which accompany membership on the Board, Commissioner Lewis never lost sight of the impact of his decisions on the lives of the citizens of the Port District;

NOW, THEREFORE, it is

RESOLVED, that the Commissioners of The Port Authority of New York and New Jersey do hereby express their heartfelt appreciation to Aubrey C. Lewis for his two years of dedicated service to the Port Authority and the people of the Port District; and it is further

RESOLVED, that the Commissioners do hereby direct that this resolution be suitably engraved and presented to Commissioner Aubrey C. Lewis as a memento from his fellow Commissioners.

TRIBUTE TO COMMISSIONER GEORGE D. O'NEILL

The following resolution was unanimously adopted expressing the appreciation of the Members of the Board of Commissioners of The Port Authority of New York and New Jersey to Commissioner George D. O'Neill:

WHEREAS, since his appointment by New York Governor Mario M. Cuomo in 1991, the Honorable George D. O'Neill has served with distinction as a member of the Board of Commissioners; and

WHEREAS, Commissioner O'Neill has well and diligently worked on a number of standing and ad hoc committees of the Board, including his service as a member, Vice-Chair and Chair of the Committee on Finance and Chair of the Committee on Capital Programs/Port Planning. He was a member and the Vice-Chair of the Committee on Capital Programs/Construction, a member and Chair of the Committee on Art, a member and Vice-Chair of the Audit Committee and a member of the Committee on Construction; and

WHEREAS, Commissioner O'Neill brought to his work on the Board the benefit of his expertise in the worlds of business and finance, as well as his many years of experience as a trustee on numerous public boards and foundations; and

WHEREAS, during his eight years on the Board, Commissioner O'Neill never failed to give generously of his time and effort as he strove to strengthen the economic viability of the Port District and to further the mobility of the region as a whole;

NOW, THEREFORE, it is

RESOLVED, that the Commissioners of The Port Authority of New York and New Jersey do hereby express their heartfelt appreciation to George D. O'Neill for his eight years of dedicated service to the Port Authority and the people of the Port District; and it is further

RESOLVED, that the Commissioners do hereby direct that this resolution be suitably engraved and presented to Commissioner George D. O'Neill as a memento from his fellow Commissioners.

TRIBUTE TO RAYMOND P. MANNION

The following resolution was unanimously adopted expressing the appreciation of the Board of Commissioners to Raymond P. Mannion:

WHEREAS, in the thirty-one years he has been with the Port Authority, Ray Mannion has served with great distinction in a wide range of positions associated with the agency's financial and economic development functions; and

WHEREAS, from his earliest assignment of integrating the PATH financial operation into the Port Authority to his appointment as the agency's Comptroller to his most recent role as Senior Advisor to the Executive Director, Ray Mannion has shown a personal commitment to his work that is virtually unparalleled; and

WHEREAS, throughout his career, Ray Mannion's exemplary performance has often brought honor and recognition to the agency. During his tenure in the Industrial Development Department, his lease administration work with other agencies and municipalities was of such an outstanding caliber that he was invited to serve on the Board of Directors of the New York City Financial Services Corporation;

Now, therefore be it

RESOLVED, that the Commissioners of The Port Authority of New York & New Jersey do hereby express their appreciation to Raymond P. Mannion for his thirty-one years of dedicated service to the agency and the region it serves; and it is

RESOLVED, that the Commissioners do hereby direct that this resolution be suitably engraved and presented to Raymond P. Mannion as a token of their gratitude.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period January 1, 1999 to January 31, 1999.

- (A) Lump Sum
(B) Classified Work
(C) Net Cost - amount in the "Total Authorized" column represents the estimated net cost amount. However, the amount in the "Total Payments" column is the authorized net cost amount.
(D) Extra Work
(E) Memorandum of Justification dated 01/22/96, increasing net cost work in the amount of \$500,000.
(F) Memorandum of Authorization dated 11/07/96, authorizing Supplemental Agreement No. 1 which includes an increase in the amount of \$82,759 for lump sum work.
(G) Memorandum of Authorization dated 11/07/96, authorizing Supplement Agreement No. 1 which includes an increase in the amount of \$50,000 for net cost work.

- (H) Per AP 45-1.01.5, classified work may exceed authorization amount limited to 10% or \$250,000 (whichever is less) without further authorization.
- (I) Premium for furnishing performance and payment bond as provided for in the contract.
- (J) Memorandum of Authorization dated 08/05/97, authorizing Supplemental Agreement No.1 which provides for an increase in the amount of \$250,000 for classified work.
- (K) Memorandum of Authorization dated 03/18/98, authorizing Supplemental Agreement No. 2 which provides for an increase in the amount of \$188,454 for lump sum work.
- (L) Memorandum of Justification dated 12/24/97, increasing net cost work in the amount of \$14,644.
- (M) Memorandum of Justification dated 12/24/97, increasing extra work in the amount of \$6,644.00.
- (N) The difference between "Total Authorized" and "Total Payments" represents a deduction from compensation in the amount of \$59,023 for deficiencies in asphalt pavement density.
- (O) The difference between "Total Authorized" and "Total Payments" represents the fact that the contract was terminated prior to the completion of the work.
- (P) Per AP 45-1.01.5, uncommitted funds in extra work are permitted to be utilized against additional cost in classified work not covered under (H).
- (Q) The difference between "Total Authorized" and "Total Payments" represents credit change orders in the total amount of \$22,300 for changes in the scope of the work.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period February 1, 1999 to February 28, 1999.

Hon. Anastasia M. Song

(Board - 6/24/99)

The public meeting was called to order by Chairman Eisenberg at 3:12 p.m. and ended at 3:25 p.m. The Board met in executive session prior to the public meeting; Commissioner Donovan was present for executive session and for a portion of the public session. Commissioner Sartor was present only for executive session.

Action on Minutes

The Secretary submitted for approval Minutes of action taken at the Board's meeting of May 27, 1999. He reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. He reported further that the time for action by the Governors of New York and New Jersey has expired, except for the industrial development item on page 108 of the May 27, 1999 Port Authority Minutes.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Audit Committee

The Audit Committee reported, for information, on matters discussed in executive session at its meeting on June 24, 1999, which included discussion of internal audit matters, and the report was received.

Report of Committee on Finance

The Committee on Finance reported, for information, on action taken and matters discussed in executive session at its meeting on June 24, 1999, which included discussion of contract matters and matters related to, or which could impact upon, the issuance, sale, resale, or redemption of Port Authority bonds, notes or other obligations, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Capital Programs and Port Planning

The Committee on Capital Programs and Port Planning reported, for information, on matters discussed at its meeting on June 24, 1999, which included an update on Conrail. Following its public session, the Committee met in executive session to discuss matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with which we deal, and the report was received.

Report of Committee on Construction

The Committee on Construction reported, for information, on matters discussed at its meeting on June 24, 1999, which included updates on the 4L-22R Runway Extension

(Board - 6/24/99)

Project at Newark International Airport and the Deck Strengthening Project at LaGuardia Airport. Following its public session, the Committee met in executive session to discuss contract matters. This report is in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Operations

The Committee on Operations reported, for information, on matters discussed in executive session at its meeting on June 24, 1999, which included discussion of contract matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period April 1, 1999 to April 30, 1999.

Whereupon, the meeting was adjourned.

Secretary

THE PORT AUTHORITY OF NEW YORK AND NEW JERSEY

MINUTES OF SPECIAL BOARD MEETING

Monday, June 28, 1999

	Page
John F. Kennedy International Airport – American Airlines, Inc. Redevelopment Program – Project Authorization for Construction of Area 3 Garage and Other Infrastructure Modifications and Authorization of Agreement Covering the Leasing and Redevelopment of Terminals 8 & 9	267
Newark International Airport – Redevelopment and Expansion Program – Project Authorization and Award of Contracts; Continental Airlines, Inc. Terminal C Expansion – Authorization of Supplement to Terminal C Master Lease ANA-170 and Amendment to Leases ANA-040 and ANB-028	270

MINUTES of a special meeting of The Port Authority of New York and New Jersey held Monday, June 28, 1999, at One World Trade Center, City, County and State of New York.

PRESENT:

NEW JERSEY

Hon. Lewis M. Eisenberg, Chairman
 Hon. Kathleen A. Donovan
 Hon. William J. Martini
 Hon. Alan G. Philibosian
 Hon. James Weinstein

NEW YORK

Hon. Charles A. Gargano, Vice-Chairman
 Hon. Michael J. Chasanoff
 Hon. Peter S. Kalikow
 Hon. David S. Mack
 Hon. Melvin L. Schweitzer

Robert E. Boyle, Executive Director
 Jeffrey S. Green, General Counsel
 Daniel D. Bergstein, Secretary

Kayla M. Bergeron, Director, Media Relations
 Gregory G. Burnham, Chief Technology Officer
 William J. Cahill, Principal Information Officer, Office of Corporate Communications
 Karen E. Eastman, Assistant Secretary
 Michael Glassner, Executive Assistant to the Chairman
 Robert J. Kelly, Director, Aviation
 Louis J. LaCapra, Chief of Staff
 Charles F. McClafferty, Chief Financial Officer
 Catherine F. Pavelec, Executive Assistant to the Secretary
 Ronald H. Shiftan, Deputy Executive Director
 Christopher O. Ward, Chief, Corporate Planning and External Affairs
 Angela F. Wood, Special Assistant to the Executive Director

Guest:

John G. Donnelly, Authorities Unit, Office of the Governor of New Jersey

The Secretary reported that the meeting was duly called in accordance with the By-Laws.

The special public meeting was called to order by the Chairman.. The Board met in executive session prior to the public meeting, which commenced at 10:30 a.m.

**JOHN F. KENNEDY INTERNATIONAL AIRPORT - AMERICAN AIRLINES, INC.
REDEVELOPMENT PROGRAM - PROJECT AUTHORIZATION FOR
CONSTRUCTION OF AREA 3 GARAGE AND OTHER INFRASTRUCTURE
MODIFICATIONS AND AUTHORIZATION OF AGREEMENT COVERING
THE LEASING AND REDEVELOPMENT OF TERMINALS 8 & 9**

It was recommended that the Board authorize a project for the design and construction of a parking garage as well as other infrastructure modifications estimated at \$102 million in support of the American Airlines, Inc. (American) redevelopment program at John F. Kennedy International Airport (JFK), including payments to contractors, reimbursements to American and/or payments directly to its contractors, and related costs, including allowances for extra work, net cost, administrative, engineering and financing expenses, and a project contingency (the Project).

It was also recommended that the Board authorize the Executive Director to: (a) enter into an agreement with American covering American's leasing and redevelopment of its passenger terminal facilities at JFK; the phased elimination of existing building rentals for Terminals 8 and 9; an appropriate cost sharing arrangement for costs incurred in integrating AirTrain with American's new passenger facilities; and reimbursement to American or direct payment of its contractors should American design and/or construct the parking garage and/or for American to reimburse the Port Authority if the Port Authority designs and/or constructs the garage; and (b) take such action with respect to the award of purchase and construction contracts and agreements for professional and advisory services related to the Project as he deems is in the best interest of the Port Authority and execute contracts and agreements and order extra work and net cost work in connection with the Project.

American plans to invest approximately \$850 million in the redevelopment of its passenger terminals at JFK. Its redevelopment plans include the demolition of Terminals 8 and 9 and the construction of a new state-of-the-art main terminal and remote concourse with 57 building gates, which may be upgraded to 60; a federal inspection service facility which can handle 2,400 passengers per hour; approximately 100,000 sq. ft. of concessions space; an underground tunnel connecting the main terminal with the remote concourse; and asbestos removal and any subsurface environmental remediation.

In addition, American will contribute approximately one-third of the project cost of design and construction of a new parking garage. It has not yet been determined which party will design and/or construct the garage. The Port Authority may also be required to perform certain infrastructure modifications, such as utility improvements and roadway and exit/entry lane toll plaza relocations. The Port Authority's net financial participation contribution after taking into account American's contribution to the garage, is estimated at \$72 million for the garage and infrastructure modifications.

American will be responsible for all environmental compliance related to its redevelopment program. It will conduct a mutually agreed-upon testing program for Terminal 8 for subsurface contamination and will be responsible for any removal or remediation. American's environmental obligation for Terminal 9, which underwent a testing

(Board - 6/28/99)

program for subsurface contamination that was completed in 1993, will be at least as favorable to the Port Authority as American's existing obligations.

During the construction period, American's existing building rentals will be subject to a reduction based upon a schedule tied to American's level of investment. At the latter to occur of the third anniversary of the Effective Date (the date the agreement is executed, which is expected to be on or around the 4th Quarter 1999) or when American shall have expended one-third of an agreed upon capital investment for the construction work (including soft costs), American's existing building rental will be reduced by one-third. A similar formula will apply on the latter to occur of the fifth anniversary of the Effective Date or when American shall have expended two-thirds of the agreed upon capital investment. Upon date of beneficial occupancy (DBO), building rent will be eliminated until the earlier to occur of 31 years from the Effective Date or 25 years from DBO. At the end of this period, building rental will commence at increasing amounts for the remainder of the term. American will continue to pay ground rent which will be brought to a market rate of \$70,000 per acre as of the Effective Date, and escalated annually at the greater of 4 percent or one-half the Consumer Price Index. If the city lease is extended, and subject to American's having expended an agreed-upon amount on its redevelopment program, American's existing lease term would be extended to the earlier to occur of thirty (30) years from DBO or thirty-six (36) years from the Effective Date.

Pursuant to the foregoing report the following resolutions were adopted with Commissioners Chasanoff, Donovan, Eisenberg, Gargano, Kalikow, Mack, Martini, Philibosian, Schweitzer and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with American Airlines, Inc. (American) covering the leasing and redevelopment of its passenger terminal facilities at John F. Kennedy International Airport (JFK), substantially in accordance with the terms and conditions outlined to the Board; and it is further

RESOLVED, that a project for the design and construction of a parking garage as well as other infrastructure modifications in support of American's redevelopment of its passenger terminal facilities at JFK (the Project), at an estimated total project cost of \$102 million, including payments to contractors, reimbursements to American and/or payments to its contractors, allowances for extra work and net cost work, engineering, administrative and financial expenses, and a project contingency, be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to: (a) take such action with respect to the award of purchase and construction contracts, and agreements for professional and advisory services related to the Project as he deems in the best interest of the Port Authority, including, without

limitation, award to the lowest bidder, qualified by reason of responsibility, experience, and capacity to perform the work and whose bid price he deems reasonable, or reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors; and (b) execute such contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority and order extra work and net cost work in connection with each contract, including supplemental agreements thereto; and (c) enter into such other agreements as may be necessary to effectuate the Project; and it is further

RESOLVED, that the form of all contracts and agreements, in each case, shall be subject to the approval of General Counsel or his authorized representative.

NEWARK INTERNATIONAL AIRPORT - REDEVELOPMENT AND EXPANSION PROGRAM - PROJECT AUTHORIZATION AND AWARD OF CONTRACTS; CONTINENTAL AIRLINES, INC. TERMINAL C EXPANSION - AUTHORIZATION OF SUPPLEMENT TO TERMINAL C MASTER LEASE ANA-170 AND AMENDMENTS TO LEASES ANA-040 AND ANB-028

It was recommended that the Board authorize a project for redevelopment and expansion at Newark International Airport (EWR), including the construction of two parking structures, one in the vicinity of Monorail Station E and the other in Central Terminal Area (CTA) Lot C, the expansion of terminal frontages, the reconfiguration of the landside access roadway system, the expansion of the aeronautical operations area, and the relocation of the Administration Building and Airport Rescue and Fire Fighting (ARFF) facility, at a total estimated project cost of \$780 million; and authorize the Executive Director to award contracts, transfer certain property interests and enter into other agreements necessary to effectuate the project.

It was further recommended that the Board (i) authorize the Executive Director to enter into an agreement with Continental Airlines, Inc. (Continental) modifying its Terminal C lease ANA-170 at EWR to cover the extension of the term of the letting of the Area C-3 portion of the premises of the leasehold to March 31, 2028, the addition of new areas to the leasehold, the construction by Continental of new passenger terminal concourse facilities and new federal inspection facilities and other additions and modifications to the leasehold and including provisions for a monetary cap of \$8 million with respect to certain environmental remediation responsibilities of Continental under the Terminal C lease and (ii) authorize the Executive Director to permit Continental under the terms of the Terminal C lease supplement to grant a leasehold mortgage on the Area C-3 portion of its leasehold under Terminal C lease ANA-170, and under the terms of the supplement to hangar lease ANA-040 to permit Continental to grant a leasehold mortgage on its leasehold under hangar lease ANA-040, and under the terms of its cargo building lease ANB-028 to permit Continental to grant a leasehold mortgage on its leasehold under cargo building lease ANB-028, each such leasehold mortgage to be granted, subject to the consent of the Port Authority, to the trustee appointed by the New Jersey Economic Development Authority in connection with its issuance of bonds the proceeds of which would be used for construction under these leases.

Passenger activity at EWR has grown steadily in recent years and this growth is expected to continue during the foreseeable future, increasing from 31 million passengers in 1997 to a projected 38 million in 2004. To accommodate this growth and improve the quality of customer service, existing land use patterns must be modified to increase the size of the aeronautical operations area and property available for services which must be located near the CTA, and property interests must be acquired in connection therewith. Continental's passenger traffic comprises approximately 58 percent of the EWR total, and Continental foresees growth in both its domestic and international traffic. To accommodate this growth, Continental has proposed enhancements to provide terminal space and support facilities at EWR through its Global Gateway Program. This Program would be coordinated with the Port Authority's plans for this project for redevelopment and expansion at EWR.

The project would provide for the acquisition of property interests, and the reallocation and maximization of land use at EWR, for the following improvements: (a) The CTA roadways would be reconfigured to provide direct access to parking, a separate at-grade commercial roadway, access to an at-grade arrivals level proposed by Continental at Terminal C, and the ability to provide a significant amount of additional terminal frontage as needed; (b) additional and improved access roadways would be provided to permit access from the south similar to that available to the north, the secondary road system would be expanded, and certain entrance and exit bridges would be widened to provide additional exiting capacity to the south; (c) the aeronautical area would be extended into what is now long-term parking Lot E, a substantial portion of which it is anticipated would be leased to Continental to accommodate planned terminal expansion, and, following the construction of a new Control Tower (and the possible demolition of the existing Control Tower by the Port Authority), the existing Administration Building and ARFF facility would be demolished and rebuilt at a new location permitting these sites and Tower Road to become aeronautical space; and (d) a public garage with approximately 3,200 spaces would be constructed in the vicinity of Monorail Station E and a public garage with approximately 3,400 spaces would be built in CTA Lot C to meet increased demand, replace parking lost to other infrastructure improvements and airside expansion, and improve customer service.

This project would require the elimination or filling-in of Adams Ditch and construction over the Peripheral Ditch. Construction associated with Adams Ditch would be undertaken by Continental at its expense in connection with its terminal expansion work. Individual Freshwater Wetland Permits and Stream Encroachment Permits would need to be obtained from the New Jersey Department of Environmental Protection (NJDEP). Approval of the City of Newark would also be required. Mitigation measures would be required by the NJDEP and may include payments to obtain wetlands mitigation credits. Negotiations for the purchase of such credits are currently underway. This project would be subject to environmental review by the Federal Aviation Administration (FAA). The environmental documentation covering the landside access portion of the work (roadways, parking garages, expansion of terminal frontages) has been submitted to the FAA. A determination of the suitability of this analysis is expected shortly. The relocation of the Administration Building, elimination of Adams Ditch and expansion of the aeronautical operations area would be the subject of a separate Environmental Assessment which is currently underway. The FAA review of this analysis could affect the projected construction schedule, especially if further impact analysis is required.

Construction of the initial component of the project, the parking garage in the vicinity of Monorail Station E, is scheduled to commence in the third quarter of 1999 and be completed in the third quarter of 2001. Construction of the other components of the project, including the completion of South Access Roadways and the creation of aircraft parking in the vicinity of the existing Administration Building, is scheduled to commence in the first quarter of 2001 and be completed in the fourth quarter of 2003. The individual components of this project would be staged to minimize the impact of construction on the public and on airport operations. All Port Authority costs for this project would be fully recoverable through EWR Master Lease rates and charges and incremental parking revenues.

Under the Terminal C lease supplement, the Area C-3 portion of the Terminal C leasehold would be expanded to include new areas at the Airport consisting of the existing parking lot E after completion of the new Lot E garage, additional terminal frontage areas, and Adams Ditch. The C-1 and C-2 portion of the Terminal C leasehold may be expanded to include additional ramp area after the concurrence of the Federal Aviation Administration.

The term of the letting of the Area C-3 portion of the Terminal C leasehold, including the new areas, would be extended to March 31, 2028. The expiration date of the term of the letting of the C-1 and C-2 portion of the Terminal C leasehold (March 31, 2013) would not be changed. The rentals for the Area C-3 portion of the Terminal C leasehold would be increased to reflect the additional areas. The rentals for the C-1 and C-2 portion of the Terminal C leasehold would be increased if the additional ramp area is added to this portion of the leasehold.

Continental would invest a minimum of \$400 million to construct in the Terminal C lease premises a 12-gate widebody passenger concourse capable of handling both domestic and international traffic and new federal inspection facilities capable of handling 1,500 passengers per hour. Continental would also construct in the Terminal C lease premises a new baggage handling system and additions and modifications to the airport aviation fuel system, as well as certain aeronautical area improvements including rerouting the flow of, and filling in of, the Adams Ditch area in order to increase the size of the aeronautical area. Continental would be responsible for all costs associated with this work and all costs associated with the rerouting and filling in of Adams Ditch and for obtaining all requisite permits and approvals, including but not limited to those required by the City of Newark, associated with this work.

Under the Terminal C lease ANA-170 supplement the environmental provisions of the lease would be updated and Continental would be responsible for all environmental liability and remediation of contamination arising from its use and occupancy of the premises. Continental would also be responsible for any petroleum hydrocarbons within the entire Terminal C leasehold, including the new areas, and any contaminants present in, and associated with the rerouting of Adams Ditch. Continental would not be responsible for contamination caused by the Port Authority nor would Continental be responsible for remediation of contamination, other than petroleum hydrocarbons, in excess of \$8 million which Continental can demonstrate was caused by a third party. Other environmental obligations of Continental, including costs associated with Adams Ditch, would not be subject to the cap.

The Port Authority would permit Continental to grant a leasehold mortgage with respect to the Area C-3 portion of the Terminal C leasehold, a leasehold mortgage with respect to the premises under hangar lease ANA-040 and a leasehold mortgage with respect to the premises under cargo building lease ANB-028 to the trustee appointed by the New Jersey Economic Development Authority (NJEDA), subject to the consent of the Port Authority, in connection with the NJEDA's issuance of bonds the proceeds of which would be used for construction of new facilities under these leases. The leasehold mortgages would be granted to the trustee to permit the trustee to exercise reletting rights and to bring in a successor lessee,

subject to approval by the Port Authority, for each leasehold covered by the leasehold mortgage(s). The trustee would be allowed a maximum period of 720 days to complete foreclosure proceedings on the leasehold mortgage(s), and in certain events subject to the payment to the Port Authority of fees for the extension(s) of the foreclosure period after the 180th day. The trustee would be required to pay to the Port Authority during the foreclosure period lease rentals and charges, certain activity based fees and charges and certain other costs. The Port Authority would be paid a leasehold mortgage fee either in a lump sum upon the commencement of the reletting of the mortgaged premises or over the term of such reletting with interest.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Gargano, Kalikow, Mack, Martini, Philibosian, Schweitzer and Weinstein voting in favor; none against:

RESOLVED, that a project for redevelopment and expansion at Newark International Airport (EWR), including the construction of two parking structures, one in the vicinity of Monorail Station E and the other in Central Terminal Area Lot C, the expansion of terminal frontages, the reconfiguration of the landside access roadway system, the expansion of the aeronautical operations area, and the relocation of the Administration Building and Airport Rescue and Fire Fighting facility, at a total estimated project cost of \$780 million including payments to contractors, payments for property acquisition and related costs, reimbursement to tenants for work undertaken on behalf of the Port Authority, payments to obtain wetlands mitigation credits, allowances for extra work (if necessary) and net cost work, administrative, engineering, and financial expense and a project contingency (if necessary) be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to: 1) take such action with respect to purchase and construction contracts and contracts for professional and advisory services related to the foregoing project as he deems in the best interest of the Port Authority including, without limitation, the award of Contract EWR 414.018 "Parking Structure in Lot E - Foundations, RSR Bridge and Utilities" at a total estimated contract price of \$20 million, Contract EWR 414.019 "Parking Structure in Lot E - Monorail Station Modifications and Site Work" at a total estimated contract price of \$81 million, Contract EWR 154.206 "Southern Access Roadway Package #1" at a total estimated contract price of \$24 million, Contract EWR 154.211 "Southern Access Roadway Package #2" at a total estimated contract price of \$44 million, Contract EWR 154.212 "Southern Access Roadway Package #3" at a total estimated contract price of \$30 million, and Contract EWR 154.213 "Southern Access Roadway Package #4" at a total estimated contract price of \$8 million, to the lowest bidder(s), qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable; or reject all bids,

solicit new bids on revised or the same requirements, or negotiate with one or more bidders, contractors or other entities including but not limited, to Continental Airlines, Inc.; and execute contracts and supplemental agreements with such bidders, contractors or other entities including but not limited to Continental Airlines, Inc. as the Executive Director deems in the best interest of the Port Authority, and order extra work (if necessary) and net cost work in connection with each contract, including supplemental agreements thereto; and, 2) negotiate and enter into agreements with Federal State, municipal and other public or private entities and execute documents, including without limitation conveyances, as may be needed to effectuate the foregoing project, such agreements to cover, among other things: the relocation of utilities, the transfer of property interests to and from the Port Authority, the financing and construction of, and the allocation of maintenance responsibilities and jurisdiction for, new roadway connections with highways adjacent to EWR, and to make related payments and incur associated costs and expenses; and, 3) enter into a supplemental agreement to the Newark Marine and Air Terminals Agreement with the City of Newark to obtain the City's consent to the Port Authority's acquisition of property interests and to convey to the City of Newark property interests located in the City of Newark which were acquired for Air or Marine Terminal purposes, for lease-back to the Port Authority under the Newark Marine and Air Terminals Agreement; and, 4) enter into supplemental lease agreements with any or all EWR tenants as may be necessary to modify their existing leaseholds incidental to and necessary for the effectuation of the project; and, 5) enter into such other agreements as may be necessary to effectuate the project; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Continental Airlines, Inc. supplementing and amending Terminal C lease ANA-170 at Newark International Airport, substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to permit Continental Airlines, Inc. under the terms of the Terminal C lease ANA-170 supplement to grant a leasehold mortgage with respect to lease ANA-170 (Area C-3 portion), and under the terms of the supplement to lease ANA-040 a leasehold mortgage with respect to lease ANA-040, and under the terms of cargo building lease ANB-028 a leasehold mortgage with respect to lease ANB-028 to the trustee appointed by the New Jersey Economic Development Authority substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that the form of all contracts, agreements and documents in connection with the foregoing shall be subject to the approval of General Counsel or his authorized representative.

Whereupon, the meeting was adjourned.

NEW YORK

Hon. Charles A. Gargano, Vice-Chairman
 Hon. Michael J. Chasanoff
 Hon. Peter S. Kalikow
 Hon. Melvin L. Schweitzer
 Hon. Anastasia M. Song

The public meeting was called to order by Chairman Eisenberg at 2:45 p.m. and ended at 3:03 p.m. The Board met in executive session prior to the public meeting. Commissioners Gargano, Philibosian and Schweitzer were present for executive session.

Report of the Chairman

The Chairman reported that Commissioner Philibosian and Commissioner Weinstein would serve as New Jersey's representatives on the special committee of the Board, which is to consist of two Commissioners from each state, to review issues of equity and fairness between the states. The Committee will explore differences between the States with respect to the Port Authority, analyze the past and future allocation of assets and recommend appropriate solutions. The details of the responsibilities of the Committee would be left to the Chairman and Vice-Chairman. Vice-Chairman Gargano indicated that he would inform the Chairman of the identity of the two New York Commissioners.

Action on Minutes

The Assistant Secretary submitted for approval Minutes of action taken at the Board's meetings of June 24, 1999 and June 28, 1999. She reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. She reported further that the time for action by the Governors of New York and New Jersey has expired.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

The time for action on the industrial development item, appearing on page 108 of the May 27, 1999 Minutes, has also expired.

Report of Audit Committee

The Audit Committee reported, for information, on matters discussed in executive session at its meeting on July 29, 1999, which included discussion of internal audit matters, and the report was received.

Report of Committee on Finance

The Committee on Finance reported, for information, on matters discussed in executive session at its meeting on July 29, 1999, which included discussion of contract matters, matters related to, or which could impact upon, the issuance, sale, resale, or redemption of Port Authority bonds, notes or other obligations, and matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with which we deal, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Capital Programs and Port Planning

The Committee on Capital Programs and Port Planning reported on action taken and matters discussed in executive session at its meeting on July 29, 1999, which included a discussion of matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with which we deal, and the report was received.

Report of Committee on Construction

The Committee on Construction reported, for information, on matters discussed at its meeting on July 29, 1999, which included discussion of a project authorization to replace fire sprinklers, ceilings and lighting in covered parking areas at Terminals A and B at Newark International Airport and construction results for the first half of 1999. Following its public session, the Committee met in executive session to discuss contract matters. This report is in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Operations

The Committee on Operations reported, for information, on matters discussed in executive session at its meeting on July 29, 1999, which included discussion of contract and lease matters and matters related to personnel, and the report was received.

Staff Report

A presentation was made by staff on 1998 Year-End Minority/Women-Owned Business Enterprise Results and 1999 Program Highlights.

NEWARK INTERNATIONAL AIRPORT - REPLACEMENT OF FIRE SPRINKLERS, CEILINGS AND LIGHTING IN COVERED PARKING AREAS AT TERMINALS A AND B - PROJECT AUTHORIZATION AND AWARD OF CONTRACTS EWR-686 AND EWR-717

The existing fire sprinkler systems (Systems) in the covered parking areas under Terminals A and B at Newark International Airport were installed approximately thirty years ago. These Systems have been tested annually based on National Fire Protection Association guidelines. Although the Systems are the dry type, this annual testing periodically introduces water into the piping, which over the years has caused internal corrosion. Since some sections of the Systems can no longer achieve satisfactory flow rates, the sprinklers (piping and heads) must be replaced. To perform this work, the existing suspended ceilings must be removed and asbestos in the area above the ceilings abated before the new sprinklers can be installed. The suspended ceilings are also thirty years old and new ceilings would be installed. These new ceilings together with new lighting would provide the added benefit of doubling the level of illumination in the covered parking areas.

This project would include the following work: the removal of the existing fire sprinklers and suspended ceilings; the abatement of asbestos above the ceilings; the installation of new fire sprinklers and new slotted metal ceilings with improved lighting; and the washing and painting of existing concrete ceilings and columns. Staff anticipates contract award for Terminal B by September 1999 with construction completion in September 2000, and contract award for Terminal A in September 2000 with construction completion in September 2001. The project would be staged to minimize the temporary reduction of parking spaces during the construction period.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Martini, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that a project at Newark International Airport to replace the existing fire sprinklers, ceilings and associated lighting in the covered parking areas at Terminals A and B at a total estimated project cost of \$33.7 million, including payments to contractors, allowances for extra work (if necessary) and net cost work, engineering, administrative and financial expenses, and a project contingency (if necessary) be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to: (1) take action with respect to construction contracts and contracts for professional and advisory services related to the foregoing project as he deems in the best interest of the Port Authority including, without limitation, award of Contract EWR-686 for the replacement of fire sprinklers, ceilings and associated lighting, and for related asbestos abatement, in the covered parking area under Terminal B at a total estimated contract price of \$9.1 million, and

award of Contract EWR-717 for the replacement of fire sprinklers, ceilings and associated lighting, and for related asbestos abatement, in the covered parking area under Terminal A at a total estimated contract price of \$11.7 million, to the lowest bidder(s) qualified by reason of responsibility, experience and capacity to perform the work and whose bid price he deems reasonable; or to reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or contractors; (2) execute contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work (if necessary) and net cost work in connection with each contract, including supplemental agreements thereto; and (3) enter into such other agreements as may be necessary to effectuate the project; and it is further

RESOLVED, that the form of all contracts and agreements in connection with the foregoing shall be subject to the approval of General Counsel or his authorized representative.

NEWARK INTERNATIONAL AIRPORT - AMENDMENT TO PRIOR AUTHORIZATION FOR THE ACQUISITION OF NEW JERSEY TURNPIKE AUTHORITY PARCEL AT THE 13A INTERCHANGE - LEASE AGREEMENT WITH THE CITY OF ELIZABETH, NEW JERSEY AND PROJECT AUTHORIZATION AND AWARD OF CONTRACT FOR PARKING FACILITY CONSTRUCTION

It was recommended that the Board amend a prior authorization which allowed the Executive Director to enter into an agreement with the New Jersey Turnpike Authority (NJTA) for the purchase of land situated immediately off the south end of Newark International Airport (EWR) between the NJTA Interchange 13A toll plaza and North Avenue in the City of Elizabeth (City), to authorize: (1) the Executive Director to enter into a long-term lease agreement for a term of 50 years with an option in favor of the Port Authority for an additional 50 years, for approximately 10.1 acres of said property with the City, with said lease to include appropriate environmental protections and indemnifications for the benefit of the Port Authority, easement rights from the NJTA, the City and/or others for site access and utilities location, and also for a perpetual assumption by NJTA and the City of sole responsibility for the structural maintenance, including repair and replacement, when necessary, of a new road to be built on and over the parcel; (2) a project for construction of a parking lot on said property (including utilities, paving, the necessary roadway access improvements and appropriate rights-of-way) at an estimated total project cost of approximately \$9.9 million, including payments to contractors, allowances for extra work (if necessary) and net cost work, administrative, engineering, and financing expenses and a project contingency (if necessary); and (3) the Executive Director to : (a) without further authorization award Port Authority Contract EWR 154.138, Parking Lot at 13A Interchange, at an estimated cost of \$6.5 million to the lowest bidder(s) qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable and to order extra work (if necessary) and net cost work; or reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors; (b) execute other contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and order extra work (if necessary) and net cost work in connection with each contract, including supplemental agreements thereto, and (c) enter into such other agreements as may be necessary to effectuate the project.

This transaction will increase the land available to Newark International Airport which would be used for the relocation and/or expansion of employee and/or public parking, thus enabling the existing land to be maximized for aeronautical use.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Martini, Sartor and Song voting in favor; Commissioner Weinstein abstaining; none against:

RESOLVED, that the prior authorization which allowed the Executive Director to enter into an agreement with the New Jersey Turnpike Authority (NJTA) for the purchase of land situated immediately off the south

end of Newark International Airport (EWR) between the NJTA Interchange 13A toll plaza and North Avenue in the City of Elizabeth (City) is hereby amended; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a long-term lease agreement for a term of 50 years with an option in favor of the Port Authority for an additional 50 years, for approximately 10.1 acres of said property with the City, with said lease to include appropriate environmental protections and indemnifications for the benefit of the Port Authority, easement rights from the NJTA, the City and/or others for site access and utilities location, and also for a perpetual assumption by NJTA and the City of sole responsibility for the structural maintenance, including repair and replacement, when necessary, of a new road to be built on and over the parcel; and it is further

RESOLVED, that a project for construction of a parking lot on said property (including utilities, paving, the necessary roadway access improvements and appropriate rights-of-way) at an estimated total project cost of approximately \$9.9 million, including payments to contractors, allowances for extra work (if necessary) and net cost work, administrative, engineering, and financing expenses and a project contingency (if necessary) is hereby approved; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority to: (a) without further authorization award Port Authority Contract EWR 154.138, Parking Lot at 13A Interchange, at an estimated cost of \$6.5 million to the lowest bidder(s) qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable, and to order extra work (if necessary) and net cost work, or reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors; (b) execute other contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and order extra work (if necessary) and net cost work in connection with each contract, including supplemental agreements thereto; and (c) enter into such other agreements as may be necessary to effectuate the project; and it is further

RESOLVED, that the form of all documents which may be required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

JOHN F. KENNEDY INTERNATIONAL AIRPORT - TERMINAL ONE GROUP ASSOCIATION, L.P. - LEASE AYC-190 - LEASE AMENDMENT AND AUTHORIZATION OF AGREEMENTS

It was recommended that the Board authorize the Executive Director to enter into an amendment to lease AYC-190 (the lease) and other appropriate agreement(s) with Terminal One Group Association, L.P. (TOGA) which would exempt certain activities (Activities) (consisting of janitorial and building maintenance services, snow removal, security, lost and found baggage, taxi dispatch services, terminal frontage traffic control and handicapped services) performed by TOGA (or through its contractor) at its Terminal One leasehold at John F. Kennedy International Airport under the lease from the assessment of Port Authority handling and subleasing fees.

TOGA, in its capacity of handling airlines, either through itself or its contractor, at the Terminal One leasehold, furnishes a variety of services to its handled airlines as do the other unit terminal operators at the airport. While the payment of Port Authority fees is applicable to all gross receipts from handling and gross sublease rental charges as defined in the lease, subject to specified exclusions and waivers, the Activities which would now be exempted from fee assessment are presently exempt from Port Authority fees for other unit terminal operators at the airport to the extent these activities are separately identified on their invoices. In the event that the exemption for any or all of these activities is withdrawn, it will no longer be applicable to TOGA, as well as the other terminal operators.

Under the terms of the lease amendment and other appropriate agreements with TOGA, the Port Authority would exempt TOGA from remitting fees for the Activities which TOGA provides, either through itself or its contractor, to its handled airlines and that it separately identifies on its invoices and its agreements. The exemptions would become effective on the later of January 1, 2000 or with the submission by TOGA of new executed agreements, or supplements to existing agreements, which separately state the charges for each of the exempt activities.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Martini, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement amending lease AYC-190 and other appropriate agreements with Terminal One Group Association, L.P. at John F. Kennedy International Airport to exempt certain activities from Port Authority fees, substantially in accordance with the terms and conditions set forth above; the form of said agreements shall be subject to the approval of General Counsel or his authorized representative.

ELIZABETH - PORT AUTHORITY MARINE TERMINAL/PORT AUTHORITY INDUSTRIAL PARK AT ELIZABETH - NORTH AVENUE PROJECT - AUTHORIZATION TO INCREASE FUNDING COMMITMENT AND ENTER INTO FUNDING AGREEMENT (PHASE III)

It was recommended that the Board authorize: (1) an increase in the Port Authority's contribution to the North Avenue East Project in the estimated amount of \$3.5 million for roadway and traffic improvements to North Avenue East; (2) the Executive Director to enter into an agreement with the New Jersey Department of Transportation (NJDOT) with respect to additional funding by NJDOT for Phase III of the North Avenue East Project in the amount of \$3.5 million; and (3) the Executive Director to award Contract EP-384.027, at an estimated cost of \$5 million, including extra work and net cost work, for the widening of and related improvements to the North Avenue East eastbound bridges (Phase III) over the New Jersey Turnpike and Consolidated Rail Corporation (Conrail) tracks in the City of Elizabeth, New Jersey, to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work, and whose bid price the Executive Director deems reasonable; or to reject all bids, solicit bids on revised or the same requirements, or negotiate with one or more bidders as he deems in the best interest of the Port Authority.

The original North Avenue East widening project budget was established by the Port Authority in collaboration with NJDOT prior to the finalization of all design, construction, utility relocations and property acquisition costs. Funds committed included \$6 million from NJDOT, \$1 million from IKEA Center Urban Renewal, Inc., and up to \$5 million from the Port Authority. To date, approximately \$11 million of the original \$12 million project cost has been spent on Phase I by the parties involved and \$1 million of said project cost has been spent on Phases II and III. Approximately \$7 million is required for the North Avenue Eastbound Bridge Widening and related improvements (Phase III), in addition to the \$1 million already spent under the original authorization for Phases II and III.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Martini, Sartor and Song voting in favor; Commissioner Weinstein abstaining; none against:

RESOLVED, that there be an increase in the Port Authority's contribution to the North Avenue East Project in the estimated amount of \$3.5 million for roadway and traffic improvements to North Avenue East; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with the New Jersey Department of Transportation (NJDOT) with respect to additional funding by NJDOT for Phase III of the North Avenue East Project in the amount of \$3.5 million; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to award Contract EP-384.027, at an estimated cost of \$5 million including extra work and net cost work, for the widening of related improvements to the North Avenue East eastbound bridges (Phase III) over the New Jersey Turnpike and Consolidated Rail Corporation tracks in the City of Elizabeth, New Jersey, to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work, and whose bid price the Executive Director deems reasonable; or to reject all bids, solicit bids on revised or the same requirements, or negotiate with one or more bidders as he deems in the best interest of the Port Authority; and it is further

RESOLVED, that the form of all documents which may be required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

**ELIZABETH - PORT AUTHORITY MARINE TERMINAL - ACCEPTANCE OF
TITLE TO PORTIONS OF McLESTER STREET AND BAY AVENUE**

It was recommended that the Board authorize the Executive Director to accept title to portions of Bay Avenue and McLester Street vacated by the City of Elizabeth (City) at the Elizabeth-Port Authority Marine Terminal.

This will allow rules and regulations governing operations at Port Authority Marine Terminals to be applied on all portions of McLester Street and Bay Avenue, giving the Port Authority the ability to police and control the activities of the public area within the marine terminals and to develop such roadways as may be necessary for marine terminal uses.

This action by the Board is pursuant to a 1978 agreement between the City and the Port Authority, which called for the City to vacate public right to certain portions of McLester Street and Bay Avenue, subject to City Council approval.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Martini, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to accept title to portions of Bay Avenue and McLester Street vacated by the City of Elizabeth at the Elizabeth-Port Authority Marine Terminal; and it is further

RESOLVED, that the form of all documents which may be required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

MILITARY OCEAN TERMINAL AT BAYONNE - MEMORANDUM OF UNDERSTANDING WITH THE BAYONNE LOCAL REDEVELOPMENT AUTHORITY

It was recommended that the Board authorize the Executive Director to enter into a Memorandum of Understanding (MOU) with the Bayonne Local Redevelopment Authority (BLRA), which formalizes the Port Authority's relationship with the BLRA with regard to the Military Ocean Terminal at Bayonne (MOTBY). Among other provisions, the MOU: (i) commits the Port Authority to provide technical assistance and technical information on port development issues to the BLRA; (ii) commits the BLRA to reserve approximately 200 acres of MOTBY for future maritime uses; and (iii) provides that the Port Authority and BLRA will use best efforts to complete the Scope of Services for the preparation of a joint plan for maritime use at MOTBY in approximately six months from execution of the MOU.

Entering into an MOU would allow the Port Authority and the BLRA to jointly develop plans for a mixed maritime use at the site and to progress towards obtaining the right, but not the obligation, for the Port Authority to lease areas of MOTBY designated by the joint plan for maritime use.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Martini, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a Memorandum of Understanding (MOU) with the Bayonne Local Redevelopment Authority (BLRA), which formalizes the Port Authority's relationship with the BLRA with regard to the Military Ocean Terminal at Bayonne (MOTBY). Among other provisions, the MOU: (i) commits the Port Authority to provide technical assistance and technical information on port development issues to the BLRA; (ii) commits the BLRA to reserve approximately 200 acres of MOTBY for future maritime uses; and (iii) provides that the Port Authority and BLRA will use best efforts to complete the Scope of Services for the preparation of a joint plan for maritime use at MOTBY in approximately six months from execution of the MOU; and it is further

RESOLVED, that the form of all documents which may be required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

RED HOOK CONTAINER TERMINAL - AUTHORIZATION TO CONTINUE THE BARGE PROGRAM

The Red Hook Barge Program (Barge Program) has been supported in part by the Port Authority since the Gowanus Expressway Reconstruction Program began in 1991. It was designed to maintain the current levels of service and to mitigate adverse impacts of the Gowanus reconstruction on roadside access to Red Hook, by transporting containers between the Red Hook Container Terminal and the New Jersey Marine Terminals via barge. The Barge Program was supported in 1991 by the Board's authorization to expend \$3.1 million in Port Authority funds for operation of the Barge Program. In September 1993, the Board authorized the Port Authority's continued participation in the Barge Program and has continued to authorize expenditures to support the ongoing operations of the Barge Program.

At its March 1997 meeting, the Board authorized \$18.5 million in operating funds through the year 2001. Together with an earlier authorization of \$1.5 million, a total of \$20 million in operating funds was made available. \$5.5 million was expended in 1997 and \$5.2 million in 1998 to operate the barge. While container volume on the Red Hook Barge is expected to grow in 1999, the expenses should stabilize as the cost per box decreases with the implementation of a modernized barge system in the third quarter. Port Authority contributions to operating expenses in 1999 are anticipated to be \$3.1 million.

To date, the Port Authority has authorized \$30.4 million in operating assistance, including New York State Bank I funds of \$2.1 million. In addition, the Port Authority has received New York State Congestion Mitigation and Air Quality Management (CMAQ) funds in the amount of \$2.3 million and New Jersey State CMAQ funds in the amount of \$849,000 for operating expenses.

In January 1998, the Board authorized the payment of up to \$3.3 million over twelve months for interim expenses incurred by the barge operator before the new barge was in service. The interim term expired in June 1999 and all but \$465,000 of the \$3.3 million of the interim funding has been spent. The new barge system is expected to be in service in September 1999.

The barge is operated by American Import-Export Trucking Company, a subsidiary of American Stevedoring, Inc. (ASI), the lessee of the Red Hook Container Terminal, under an agreement with the Port Authority. Continued participation in, and funding for, the Barge Program will support the ongoing tenancy of ASI at the Red Hook Container Terminal and assist New York State in realizing its economic development and air quality goals.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Martini, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to: expend \$3.1 million

of Port Authority funds for the operation of the Red Hook Barge Program in 1999; extend the term of the interim expense funding previously authorized by the Board until the authorized amount of \$3.3 million is expended, and; enter into such agreements as he shall deem necessary with American Import-Export Trucking Company, the barge operator, to continue the operation of the Red Hook Barge during 1999; the form of the agreements in connection with the foregoing shall be subject to the approval of General Counsel or his authorized representative.

PORT NEWARK/RED HOOK CONTAINER TERMINAL TRANS-HARBOR FREIGHT SERVICE - PURCHASE OF EQUIPMENT AND ACCEPTANCE OF GRANT FUNDS

Barge service between the Red Hook Container Terminal and the Port Newark/Elizabeth marine terminals began in October 1991 as an effort to arrest a volume decline at the Red Hook terminal attributed to deteriorating landside transportation access due to the Gowanus Expressway reconstruction. Since 1991, the Board has authorized operating funds totaling \$30.4 million. In addition, the Port Authority has received approximately \$3.2 million in Congestion Mitigation and Air Quality (CMAQ) funds from the United States Department of Transportation allocations to the States of New York and New Jersey, as well as \$2.1 million from the Regional Economic Development Program, for operating expenses.

Since 1993, various CMAQ applications have been submitted based on changes in a proposed barge service improvement project's scope and cost. The current estimated total cost, including engineering and overhead, is \$12.8 million. The Port Authority has been granted CMAQ capital funds by the New York State Department of Transportation of \$5,421,600. CMAQ evolved from the Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991. The New Jersey State Department of Transportation is contributing \$1,680,000 from its Transportation Trust Fund. The Port Authority has also obtained federal grants of \$1,600,000 from the Surface Transportation Project (STP) and \$1,874,400 from the Transportation Equity Act for the 21st Century (TEA-21) programs. TEA-21 funds will be reimbursed in annual payments through October 2003. These programs, totaling \$10,576,000, provide sufficient federal and state funding to complete the improvement project, with the required 20 percent local match of \$2,224,000 to be provided by the Port Authority.

In September 1993, the Board authorized \$1.1 million toward our local match, followed by another \$620,000 at the December 1996 Board meeting, based on an estimated total project cost of \$8.6 million. In March 1997, the Board authorized an additional \$1.723 million capital expenditure for the Red Hook Barge in order to assure that the project could be completed if additional funding from CMAQ grant programs was not received above the \$5,156,000 allocated at that time. These three separate actions of the Board brought the total Port Authority authorized capital expenditure to \$3.443 million. The total cost for the new Red Hook Barge system has now increased to \$12.8 million. Federal and state funding has increased to \$10.576 million, requiring only \$2.224 million in Port Authority local match (20 percent) funds. This leaves \$1.219 million from the Port Authority's \$3.443 million authorized capital presently uncommitted.

The barge service is currently operated by American Import-Export Trucking Company, a subsidiary of American Stevedoring, Inc., the lessee of the Red Hook Container Terminal, under an agreement with the Port Authority.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Martini, Sartor and Song voting in favor; Commissioner Weinstein abstaining; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to solicit bids, enter into agreements and award contracts to purchase two container barges and two mobile harbor cranes estimated at \$12.8 million and take such actions with respect to the award of contracts as he deems in the best interest of the Port Authority, including award to the lowest qualified bidder who, in his opinion, is qualified by reason of responsibility, experience and capacity and whose bid price the Executive Director deems reasonable; reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or contractors as deemed in the best interest of the Port Authority; and execute such other contracts and supplemental agreements with such bidders and contractors as he shall deem in the best interest of the Port Authority, and order extra work (if necessary) in connection with each contract and supplemental agreement; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into grant agreements with the New York State Department of Transportation and the New Jersey State Department of Transportation and accept approximately \$10.576 million as reimbursement for the above-described purchases from the New York Congestion Mitigation and Air Quality, New Jersey Transportation Trust Fund, Surface Transportation Project and under the Transportation Equity Act for the 21st Century programs; and it is further

RESOLVED, that the form of the above contracts and agreements shall be subject to the approval of General Counsel or his authorized representative.

**PORT NEWARK AND ELIZABETH-PORT AUTHORITY MARINE TERMINAL -
SEA-LAND SERVICE, INC. AND MAERSK, INC. - NEW MARINE
TERMINAL LEASE**

Presentations have been made to the Board, from time to time, reporting on the progress of a lease agreement with Sea-Land Service, Inc. (Sea-Land) and Maersk, Inc. (Maersk) or a company jointly formed and owned by them, for a marine terminal at Port Elizabeth and surrender agreements with existing lessees at Port Newark and the Elizabeth-Port Authority Marine Terminal, and other contracts and agreements, including the creation of a new ExpressRail facility and other terminal facilities, on such terms as are necessary to effectuate the same, and to authorize a project for infrastructure improvements at the facility in connection therewith.

The proposed lease agreement now under discussion with Sea-Land and Maersk would cover approximately 350 acres, in its final configuration, at the Elizabeth-Port Authority Marine Terminal and would be for a term of approximately thirty years. The lease would contain fixed ground rentals as well as a rental based upon throughput cargo with specified minimums. In addition, the lease would provide for a port-wide cargo guarantee of Sea-Land/Maersk's own cargo, again with specified minimums. Presently under discussion as Port Authority options, in the event these guarantees are not met, are termination and/or increased ground rental. As part of the guarantees, provisions are also under discussion which would limit Sea-Land/Maersk's ability to transfer its interest in the terminal.

The Commissioners of the Port Authority wish to formally recognize the great importance of this project to the transportation needs of the region; to direct Port Authority staff to continue the negotiation and planning with respect to the new Sea-Land/Maersk terminal and other agreements and projects referred to above; and to affirm their intention, upon the completion of such planning and negotiation, to authorize the Executive Director to enter into the leases, contracts and other agreements necessary to their fulfillment.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Chasanoff, Donovan, Eisenberg, Gargano, Kalikow, Martini, Philibosian, Sartor, Schweitzer, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director and staff be and they hereby are directed to proceed with the full negotiation and planning of the foregoing projects and agreements and, when the same are substantially complete, to report and describe the same to the Board for consideration and action with staff, on a current basis, to advise the Chairman and Vice-Chairman on progress and advise them promptly of any obstacles to completion.

PORT NEWARK - BEAZER EAST, INC. - ENVIRONMENTAL REMEDIATION

It was recommended that the Board authorize the Executive Director to enter into an agreement with Beazer East, Inc. (Beazer) and possibly, associated entities, and to execute related documents, including a release or releases, to facilitate the remediation of a contaminated site at Port Newark and return the site to a condition suitable for marine terminal use.

Beazer, formerly Koppers Company, Inc., began operations prior to the Port Authority's lease of Port Newark in 1948 from the City of Newark and ceased operations in 1991. Beazer's operation of a wood treatment plant on approximately eight acres at Port Newark contaminated the site. In 1988, Beazer Materials and Services, Inc. (BMS) sold Koppers Company, Inc. to Pittsburgh Acquisition Company, changing the name to Koppers Industries, Inc. (Koppers). As part of this transaction, the Koppers lease with the Port Authority for the approximately eight-acre site at Port Newark was assigned to the new company and BMS, Inc., now Beazer East, Inc., retained environmental remediation obligations on the site. Under the Environmental Conservation and Recovery Act, BMS, Inc. and Koppers entered into an Administrative Consent Order (ACO) with the New Jersey Department of Environmental Protection (NJDEP) that obligated them in the future to delineate on-site and off-site contamination which may have occurred as a result of discharges on the site and perform the necessary remediation. In 1991, Koppers' lease expired and it ceased operations at the site. However, the Port Authority continued to accrue rent bills for Beazer's account pending the site investigation and development of a remediation plan. To date, approximately \$1.5 million in rental damages has accrued.

It is expected that NJDEP will soon approve a clean-up plan or plans submitted by Beazer for soil treatment to a non-residential standard. NJDEP will incorporate comments of the United States Environmental Protection Agency, which also is exercising oversight of Beazer's remediation under the authority of the Hazardous and Solid Waste Amendments of the Resource Conservation and Recovery Act. As a condition of the use of a non-residential soil remediation standard, involving engineering controls, NJDEP will require that the City of Newark, as owner of the property, consent to the recording of a Deed Notice informing prospective users that contamination exists on the property that statutorily restricts use of the site. This plan calls for remediation of the site, treatment of soils and/or removal of hazardous material, and will require the maintenance of an asphalt cap. Beazer will construct additional improvements to the site necessary to utilize the area for port operations. Beazer will also be obligated to monitor, over a period of time as required by NJDEP, the ground water in the area. Port Authority and City of Newark staff concur that the plan for remediation is acceptable. However, the Newark City Council must adopt an ordinance authorizing an agreement with the Port Authority and City officials to execute the Deed Notice for the Koppers site at Port Newark. Staff intends to brief the City of Newark administration on the proposed agreement with Beazer.

The terms of the proposed agreement with Beazer and possibly, with associated entities, include, among other matters, the following:

- 1) Beazer will perform environmental remediation at and in the vicinity of its former leasehold in accordance with the Remedial Action Work Plan or Plans approved by NJDEP.
- 2) Beazer will construct additional improvements to the site, including installation of asphalt paving, lighting poles and conduits, water lines, fire hydrants, and drainage and storm sewer connections to the existing system and pay the Port Authority \$375,000 in settlement of claims the Port Authority may have for rental damages, and future contaminated soil disposal costs related to site improvements.
- 3) Beazer will agree to be responsible in accordance with applicable law and the ACO for remediation of soil contamination and groundwater contamination, including on-site and off-site contamination, and to assume liability for natural resource damage claims, if any; and nothing in the agreement is intended to be or shall be deemed to be an indemnification by the Port Authority of Beazer for its costs in connection with such matters, which Beazer agrees to be responsible for or assume liability for.
- 4) Under this agreement, the Port Authority will release Beazer from the Port Authority's rental damage claims, and certain other claims which the Port Authority may have against Beazer, e.g., regarding the soil remediation of the premises and premises in the vicinity thereof. Also, the Port Authority will agree with Beazer that the site will remain in non-residential use in accordance with New Jersey statutory restrictions while the Port Authority leases or otherwise controls the site, except that if it is required by law that the site be remediated to a residential standard, Beazer will be fully responsible for all costs thereof.
- 5) The Port Authority will maintain an asphalt cap over the site and accept the risk of excess costs associated with disposal of soil in the future as a result of development.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Martini, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Beazer East, Inc. and possibly, associated entities and execute related documents, including a release or releases, to facilitate the environmental remediation of approximately eight acres of property at Port Newark in accordance with a plan or plans approved by the New Jersey Department of Environmental Protection; and it is further

RESOLVED, that the form of all documents necessary to effectuate the foregoing shall be subject to approval of General Counsel or his authorized representative.

ALL FACILITIES - NYTP, INC. - REVISED AUTHORIZATION - INSTALLATION AND OPERATION OF A WIRELESS TELECOMMUNICATIONS NETWORK ACCESS SYSTEM

It was recommended that the Board amend its prior authorization of December 1998 to authorize the Executive Director to enter into an exclusive fifteen-year agreement with an entity controlled by the principals of NYTP, Inc. (NYTP) to finance, construct and manage a Wireless Telecommunications Network Access System (the Network) at major Port Authority facilities.

In December 1998, the Board authorized the Executive Director to enter into an agreement with NYTP regarding the Network. Following the Board's approval, but prior to consummation of an agreement, reductions in wireless carrier capital budgets and in wireless carrier charges to their customers prompted NYTP to develop a more flexible Network and a less costly fee schedule for subscribing wireless carriers.

NYTP will construct a shared-use telecommunications platform that will offer all interested wireless telecommunications carriers the ability to provide their customers with radio signal coverage inside major Port Authority facilities.

Under the agreement, NYTP will fund the construction of the Network at the Holland and Lincoln Tunnels and at LaGuardia Airport, John F. Kennedy International Airport and Newark International Airport at NYTP's own risk and expense. NYTP will construct the Network at additional Port Authority facilities based on wireless carrier demand. Subscribing wireless carriers will make minimum payments to NYTP with additional payments to be based on usage volumes. NYTP will contract with qualified telecommunications and engineering firms to implement the Network.

The base term of the agreement with NYTP is fifteen years, with NYTP having the option to extend the agreement for an additional ten-year term. During the term of the agreement, NYTP will pay the Port Authority a minimum fee and percentage fees in excess of the minimum fee. In addition, NYTP will pay a share of its revenues from non-exclusive in-building wireless services at the World Trade Center and at possible additional facilities.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Martini, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for on and behalf of the Port Authority, to enter into an agreement with an entity controlled by the principals of NYTP, Inc. on the terms and conditions set forth in its prior authorization of December 1998 and amended and supplemented as outlined to the Board, and to enter into such other related agreements as may be necessary or appropriate to effectuate the transaction described above; and it is further

RESOLVED, that the form of the agreements in each instance shall be subject to the approval of General Counsel or his authorized representative.

**GEORGE WASHINGTON BRIDGE BUS STATION – OPTION/LEASE AGREEMENT
WITH McCANN REAL EQUITIES MANAGEMENT LLC FOR THE
DEVELOPMENT OF A MULTIPLEX MOVIE THEATER ABOVE THE BUS
STATION**

It was recommended that the Board authorize the Executive Director to enter into an option/lease agreement (the Lease) with McCann Real Equities Management LLC (McCann) covering the construction and operation of a multiplex movie theater facility consisting of approximately 54,000 square feet of rooftop space on the rear deck of the George Washington Bridge Bus Station, plus air rights, and approximately 6,000 square feet of space on the street level of the George Washington Bridge physical plant building, on a platform to be constructed over the approach to the George Washington Bridge, substantially in accordance with the terms and conditions outlined to the Board.

Before proceeding with any significant investment, McCann has requested an option period of six months to study the operational and economic feasibility of implementing the project. McCann would pay the Port Authority a basic option fee of \$15,000 for the option period, during which the Port Authority and McCann would negotiate the terms of a proposed lease agreement incorporating the business terms presented to the Board, and the Port Authority would review the proposed design of the facility for structural integrity, safety, code compliance, and compatibility with other operations being conducted at the George Washington Bridge Bus Station. In addition, McCann would pay the Port Authority an additional option fee of \$100,000 which will be refunded to McCann in the event that: (i) the Port Authority should determine that the implementation of the project planned submitted by McCann is technically or operationally not feasible; (ii) McCann submits independent evidence reasonably satisfactory to the Port Authority that the cost of implementing the project will exceed \$20 million; or (iii) McCann executes a lease with the Port Authority covering of the implementation of the project plan and deposits with the Port Authority the security deposit described therein. If, in the opinion of the Port Authority, the project is technically feasible, and final lease terms are agreed to by both parties, the lease would be for a term commencing on or about the expiration of the option period, and expiring on the day preceding the fortieth anniversary of the date payment of rental commences under the lease, with McCann having the right to extend the term for two additional ten-year periods at the greater of then current fair rental value of the premises or 110 percent of the basic rental, and, if applicable, the additional basic rental, payable by McCann at the expiration of the initial term of the letting. McCann will pay a graduated basic rental for the premises during the initial term of the letting at an annual rate which will start at \$350,000 per annum. In the event that the portion of the theater facility constructed over the rear deck of the Bus Station contains more than one story, McCann would pay an additional basic rental. McCann will also pay a percentage rental as provided in the Lease. Payment of rental under the Lease will commence no later than eleven months from the commencement date of the term of the letting under the Lease or upon the commencement of business operations in the premises, whichever occurs first. McCann will install all improvements, fixtures and equipment required for its operations in the premises at its sole cost and expense. McCann will be granted the right to mortgage the leasehold in order to finance the project. The Port Authority will be entitled to a fee of \$100,000 each time McCann refinances its mortgage during the term of the letting for an amount in excess of its initial development costs. McCann will be required to sublet the theater facility to an operator which has national experience in the operation of similar facilities.

A brokerage commission in the amount of \$200,000 will be payable to Robert Greenstone Realty Corporation on account of this transaction, in the event the Lease is entered into.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Martini, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an option/lease agreement with McCann Real Equities Management LLC at the George Washington Bridge Bus Station, substantially in accordance with the terms and conditions outlined to the Board; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

GEORGE WASHINGTON BRIDGE BUS STATION - HEALTH SERVICES ASSOCIATES, INC. - LEASE AGREEMENT

It was recommended that the Board authorize the Executive Director to enter into a lease agreement with Health Services Associates, Inc. (Health Services) covering approximately 3,780 square feet of space at the George Washington Bridge Bus Station (GWBBS) for use as a medical practice facility, substantially in accordance with the terms and conditions outlined to the Board.

One of the principals of Health Services currently operates two multi-specialty health facilities in Brooklyn and one in Manhattan. Health Services will invest more than \$400,000 to improve the space, located in a low-traffic area of the lower level of the GWBBS which has remained vacant for approximately ten years.

The proposed agreement will provide for a 10-year 6-month term to commence upon delivery of the space on or about September 1, 1999. Health Services will have an option to renew the lease for an additional five-year period at fair market value, but not less than 125 percent of the rent paid in the tenth annual period of the original term. The Port Authority will retain the right to terminate the lease at any time on thirty days' notice, and upon the exercise of such right would be obligated to reimburse Health Services for its unamortized initial capital investment to the extent such investment does not exceed \$500,000. The proposed agreement will provide for a 180-day free rent period for construction upon lease commencement and a construction allowance of \$20 per square foot. The aggregate basic rental over the initial ten-year six-month term is approximately \$590,000.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Martini, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Health Services Associates, Inc. covering the letting of approximately 3,780 square feet of space at the George Washington Bridge Bus Station, substantially in accordance with the terms outlined to the Board; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

THE TELEPORT – THE NICOTRA GROUP, LLC – LEASE AGREEMENT AND CONSTRUCTION OF A NEW OFFICE BUILDING

It was recommended that the Board authorize the Executive Director to enter into a lease agreement (the Lease) with The Nicotra Group, LLC (Nicotra) covering the letting of approximately 9.1 acres of vacant land at the Teleport for the construction and operation of an office building containing approximately 160,000 rentable square feet of space, substantially in accordance with the terms and conditions outlined to the Board.

The principal of Nicotra is a major developer of commercial property along South Avenue, the primary access road to the Teleport. Nicotra plans on investing approximately \$25 million to construct a commercial office building at the Teleport which will house approximately 750 employees.

The Lease would be for a term commencing on or about September 1, 1999 and would expire March 30, 2024, with Nicotra to have the right to extend the term of the letting in the event the lease between the Port Authority and the City of New York covering the Teleport is extended. Nicotra will pay a graduated basic rental for the premises aggregating approximately \$9.8 Million over the term of the Lease, plus a percentage rental as provided in the Lease. Payment of rental under the Lease will commence on the second anniversary of the commencement date of the letting. The Lease will permit Nicotra to construct the building in two stages, and in such event the rentals will be adjusted pro rata, and rental as to the first stage will commence on the second anniversary of the commencement date of the letting and rental as to the second stage will commence on the fourth anniversary of the commencement date of the letting. The Tenant will have the right to transfer, assign, and sublet the premises to third parties and to mortgage the leasehold. In the event of an assignment of the Lease, or a refinancing of the leasehold mortgage, Tenant will pay the Port Authority 15 percent of the net proceeds, as defined in the Lease, of the assignment or refinancing. Nicotra will pay its proportionate share of the actual increases of common Teleport operation and maintenance expenses over the base year in which construction of the building, or the first stage thereof, as the case may be, is completed, subject to minimum and maximum limitations on such payments as set forth in the Lease.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Martini, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with The Nicotra Group, LLC at the Teleport, substantially in accordance with the terms and conditions outlined to the Board; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**LINCOLN TUNNEL – PROPERTY EXCHANGE WITH TOWNSHIP OF
WEEHAWKEN, NEW JERSEY**

It was recommended that the Board: (1) find and declare as surplus a portion of a triangular piece of property south of the Lincoln Tunnel Toll Plaza which contains the footprint of the Firehouse Building because it is no longer required by the Port Authority for the purpose for which it was acquired; and (2) authorize the Executive Director to execute and accept deeds and enter into leases and other agreements with the Township of Weehawken, New Jersey (Weehawken), and other third parties, to effectuate: (i) the transfer to Weehawken, at no cost, of the surplus parcel (Firehouse Building Parcel); (ii) the lease from Weehawken of one bay in the Firehouse Building Parcel for the storage of vehicles for the Lincoln Tunnel; (iii) the lease to Weehawken of the area surrounding the Firehouse Building Parcel for use as a parking area for Weehawken employees and as a playground; and (iv) the transfer from Weehawken to the Port Authority, at no cost, of a parcel of land improved by tennis and basketball courts (Tennis Parcel), no longer used by Weehawken, to house the Lincoln Tunnel's emergency generator.

The transfer of properties will enable the respective entities to conduct their operations more efficiently. The Port Authority needs the Tennis Parcel to house and operate the Lincoln Tunnel's emergency generator, which will enhance safe and efficient operation of the Tunnel. Weehawken needs fee ownership of the Firehouse Building Parcel to receive funding and to participate in the North Hudson Regional Fire and Rescue District reorganization, together with the municipalities of North Bergen, West New York, Union City and Guttenberg.

Weehawken will release the Port Authority from any environmental claims and the Port Authority will be indemnified by Weehawken against any environmental claims related to the above sites.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Martini, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that it is hereby found and determined, effective upon delivery of the deed, that the real property described below, being a portion of a triangular parcel of land south of the Lincoln Tunnel Toll Plaza improved by a Firehouse Building located in a portion of Lot 2 in Block 13, is surplus and is no longer required for the purpose for which it was acquired:

Firehouse Building Parcel

Beginning at a point on the northwesterly corner of the face of a firehouse building located on tax block 35, in a portion of lot 2 in the Township of Weehawken, County of Hudson, State of New Jersey, more particularly bounded and described as follows:

1. S 76° - 53' - 10.5" E along the northerly face of said building and parallel to the northerly right of way line of 19th Street 70.08 feet to a point in the northeasterly corner of said building; thence

2. S 31° - 17' - 45.8" E, 3.19 feet in the northeasterly corner and along the face of said building to a point on the easterly side of said building; thence

3. S 13° - 08' - 02.2" W along the easterly face of said building and parallel to the westerly right of way line of Park Avenue 55.20 feet to a point in the southeasterly corner of said building; thence

4. S 56° - 51' - 48" W, 3.13 feet in the southeasterly corner and along the face of said building to a point on the southerly side of said building; thence

5. N 76° - 52' - 53.3" W along the southerly face of said building and parallel to the northerly right of way line of 19th Street 70.08 feet to a point in the southwesterly corner of said building; thence

6. N 31° - 17' - 45.8" W, 3.19 feet in the southwesterly corner and along the face of said building to a point on the westerly side of said building; thence

7. N 13° - 08' - 02.2" E along the westerly face of said building and parallel to the easterly right of way line of Willow Avenue 55.20 feet to a point in the northwesterly corner of said building; thence

8. N 56° - 57' - 19.4" E, 3.13 feet in the northwesterly corner of said building and along the face of said building to the point and place of beginning; and it is further

RESOLVED, that (a) a map of the property be prepared; and (b) at the appropriate time, at the request of General Counsel or his authorized representative, the Chief Engineer will execute a certificate to be annexed to said map stating that the real property shown on said map is no longer required for the purpose for which it was acquired; such map to be filed in the Office of the Secretary of the Port Authority, and it is further

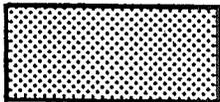

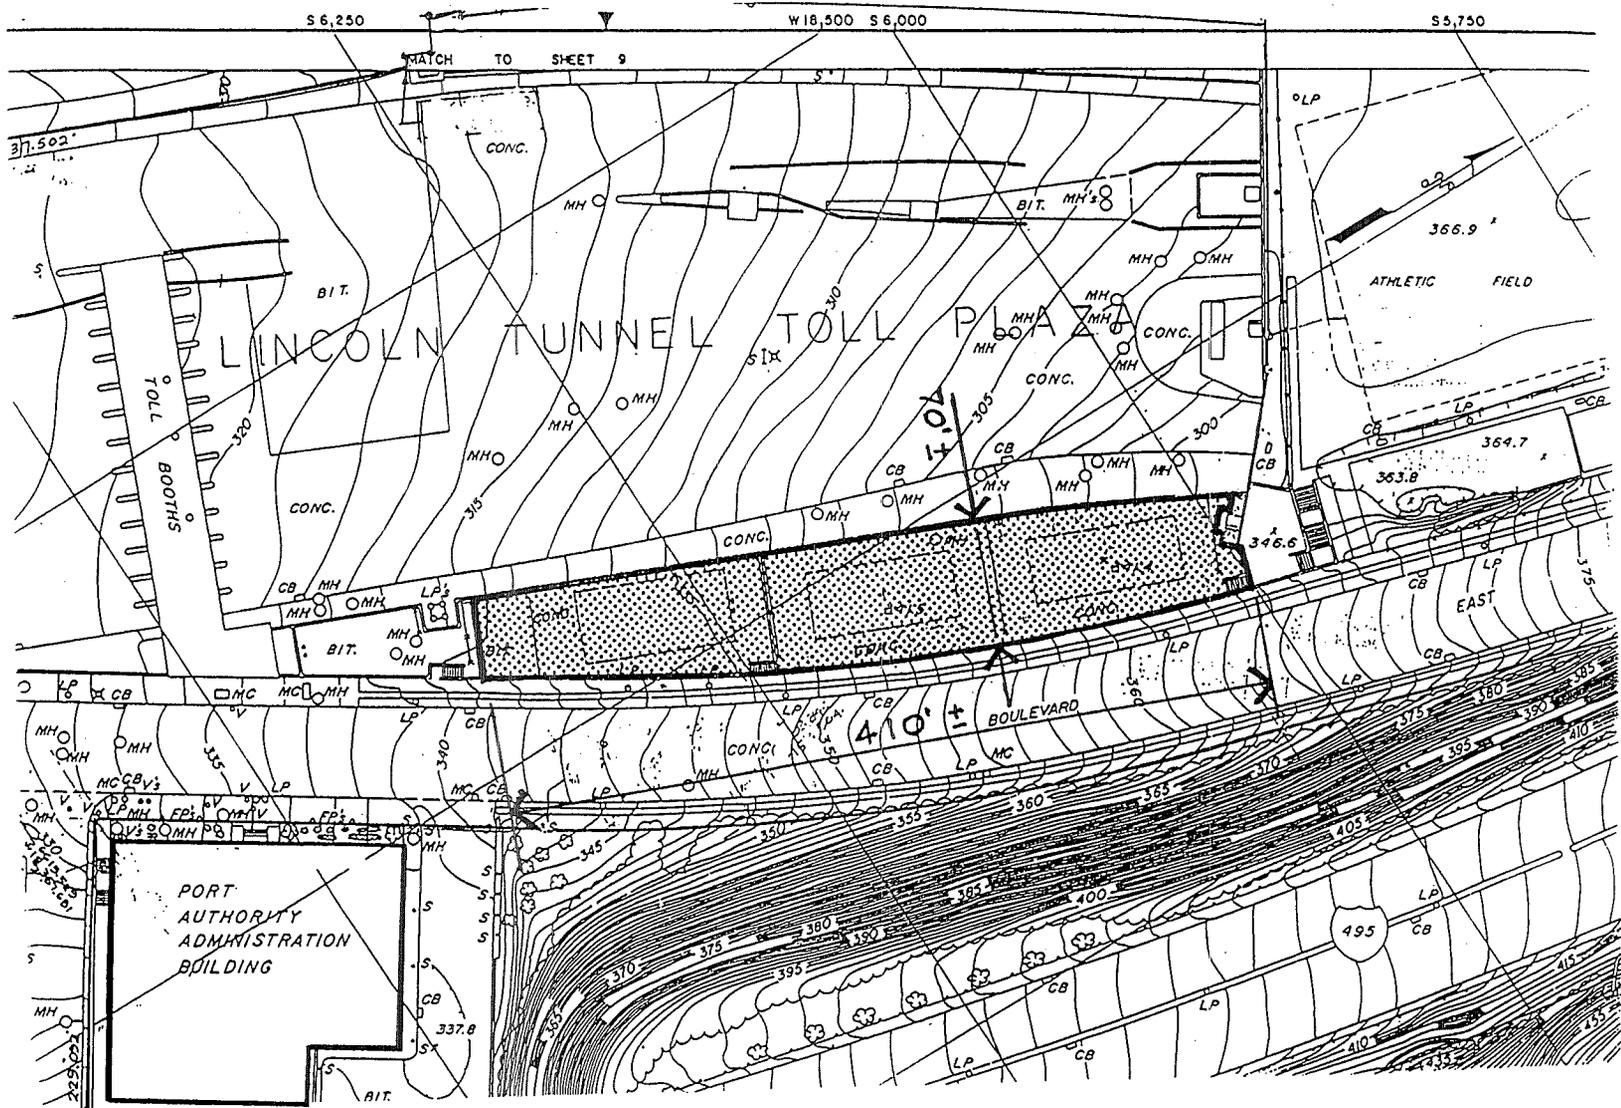

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to execute and accept deeds and enter into leases and other agreements with the Township of Weehawken, New Jersey (Weehawken), and other third parties, to effectuate: (i) the transfer to Weehawken, at no cost, of the surplus parcel

(Firehouse Building Parcel); (ii) the lease from Weehawken of one bay in the Firehouse Building Parcel for the storage of vehicles for the Lincoln Tunnel; (iii) the lease to Weehawken of the area surrounding the Firehouse Building Parcel for use as a parking area for Weehawken employees and as a playground; and (iv) the transfer from Weehawken to the Port Authority, at no cost, of a parcel of land improved by tennis and basketball courts (Tennis Parcel), no longer used by Weehawken, to house the Lincoln Tunnel's emergency generator;

Tennis Parcel

(See attached Exhibit A, as representative of the Tennis Parcel, pending receipt of a survey reflecting actual metes and bounds), substantially in accordance with the terms and conditions outlined to the Board; and it is further

RESOLVED, that all documents which may be required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

**PORT AUTHORITY SUPPORT OF THE NEW JERSEY DEPARTMENT OF
TRANSPORTATION APPLICATION FOR FEDERAL FUNDING FOR
COMMERCIAL VEHICLE INFORMATION SYSTEMS AND NETWORKS
(CVISN) - EXECUTION OF MEMORANDUM OF AGREEMENT**

In the Fall of 1998, the Federal Highway Administration (FHA) granted \$350,000 in Fiscal Year 1999 funds to New Jersey to assist in its Commercial Vehicle Information Systems and Networks (CVISN) efforts. The New Jersey Department of Transportation (NJDOT) is the leader in the development and implementation of CVISN in the State of New Jersey. As such, it assumed primary responsibility to the FHA in assuring that the State's Program is properly planned, organized and implemented. This includes establishing a framework for cooperation among appropriate public agencies and private industry. NJDOT has invited the Port Authority, the New Jersey Transit Corporation, the New Jersey Turnpike Authority, the New Jersey Highway Authority, the South Jersey Transportation Authority, and the New Jersey Department of Law and Public Safety to participate on the New Jersey CVISN Project team. Other public entities, the I-95 Corridor Coalition and TRANSCOM for example, will be kept informed and involved in the Program. Also, NJDOT is establishing cooperative relationships with the motor truck and motor coach industries, which are major stakeholders in the CVISN effort.

NJDOT has submitted an application for continued federal funding, under the Transportation Equity Act for the 21st Century legislation, and anticipates that the FHA will approve as much as \$2.6 million in Fiscal Year 2000 funds for eligible design and deployment activities consistent with CVISN Program requirements and system architecture. As part of the application process, NJDOT must submit to the FHA a Memorandum of Agreement (MOA) signed by participating project team agencies.

The MOA will permit the agencies to work together to establish an organizational framework for cooperative systems development and establish a CVISN system design that can evolve to include new technologies and capabilities and demonstrate safety information exchange, credentials administration and roadside electronic screening. The participants will update the New Jersey Intelligent Transportation Systems/Commercial Vehicle Operations Business Plan and CVISN Project Plan, complete technical training including deployment workshops, and maintain the conformance assurance process for CVISN capabilities and future enhancements as a mechanism to meet the Transportation Equity Act for the 21st Century requirements.

The proposed MOA sets forth a commitment of support and staff participation but does not require a commitment of funds. It is estimated that participation in the New Jersey CVISN Program will result in approximately 1,000 hours of Port Authority staff effort involved in CVISN training, workshops, meetings and design reviews.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Martini, Sartor and Song voting in favor; Commissioner Weinstein abstaining; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority to execute a Memorandum of Agreement with and among the New Jersey Department of Transportation, the New Jersey Transit Corporation, the New Jersey Turnpike Authority, the New Jersey Highway Authority, the South Jersey Transportation Authority, and the New Jersey Department of Law and Public Safety which: a) sets forth a commitment of those public organizations to work together toward improving the safety and productivity of commercial vehicles and drivers and reducing costs associated with commercial vehicle operations in the State of New Jersey, in the context of the Commercial Vehicle Information Systems and Networks (CVISN) component of the Intelligent Transportation Systems Deployment Program of the United States Department of Transportation, the Federal Transit Administration and Federal Highway Administration in accordance with the requirements of the Transportation Equity Act for the 21st Century; and b) sets forth a statement of support for the New Jersey Department of Transportation application for continued Fiscal Year 2000 Federal CVISN funding; and it is further

RESOLVED, that the form of the Memorandum of Agreement shall be subject to the approval of General Counsel or his authorized representative.

**NEW YORK STATE AND LOCAL EMPLOYEES' RETIREMENT SYSTEM –
CHAPTER 70 OF THE LAWS OF NEW YORK, 1999 – ADOPTION OF THE 1999
RETIREMENT INCENTIVE PROGRAM**

In June, legislation was adopted in New York (Chapter 70, Laws of New York, 1999 (the Legislation)) enabling employers participating in the New York State and Local Employees' Retirement System (the Retirement System), including the Port Authority, to adopt at their discretion a Retirement Incentive Program intended to enable the State of New York and other governmental employers to achieve economies, consolidation or abolition of functions, or curtailment of activities, by inducing eligible employees to retire at this time. Under the Legislation, a retirement incentive can be made available to non-police employees continuously employed since February 1, 1999, who are at least 50 years of age and have ten years of credited service (or 55 years of age with five years of service) or who are otherwise currently eligible to retire. This incentive is similar to those authorized and implemented by the Port Authority during 1995, 1996, 1997, and 1998. While the additional pension benefits are subject to reductions for those under 55 and to certain tax law restrictions and reductions, eligible employees who voluntarily choose to retire at this time would, generally, receive an additional one month of Retirement System credited service for each year of service up to a maximum additional Retirement System credit of three years. Employees eligible for any other lump sum retirement incentive payments (such as severance allowances) from the Port Authority would not be eligible for this Retirement System incentive unless they waive their eligibility for such lump sum payments.

The Legislation requires either the elimination of a number of positions within eligible titles equal to the number of eligible employees retiring with the incentive or a Port Authority plan showing savings over a two-year period of at least 50 percent of the base salary of each person retiring with the incentive. The Legislation provides that the period in which individual employees may elect to retire with the retirement incentive must be of no less than 30 and no more than 90 days' duration, and must not extend beyond December 31, 1999. Under the Legislation, the employer may elect to pay for the costs of this incentive in one installment or in five annual installments to be set by the Retirement System commencing during the Retirement System's fiscal year ending March 31, 2001.

Under the Legislation, targeted positions are those for which the abolition of a specified number of positions in the title would not, in the determination of the chief executive officer (here, the Executive Director),

- a. Directly result in a reduction of the level of service required or mandated to protect and care for clients of the state or a participating employer or to assure public health and safety;
- b. Endanger the health or safety of employees of the state or a participating employer; or
- c. Clearly result in a loss of significant revenue to the state or a participating employer or result in substantially increased overtime or contractual costs."

Titles may also be considered eligible if employees subject to layoff may be placed therein. Staff will seek to identify eligible job titles and positions meeting the requirements of the Legislation and the Port Authority's goals. Finally, the Executive Director would also have staff prepare a list of eligible titles and positions and a plan of savings, as described above, which might avoid some job eliminations.

In the interim, the Executive Director recommended that the Port Authority take the formal steps necessary to participate in the 1999 Retirement Incentive Program and that he be authorized to implement such a program, contingent on his determination following compilation of information by staff that such a program would be in the best interests of the Port Authority and achieve appropriate staff reductions, reorganization or economies. To provide for administrative procedures and planning in a timely fashion, the implementation of this program, should the Executive Director decide to pursue it, would be scheduled during the period from December 1, 1999, through December 31, 1999, inclusive. Under the Legislation, an agency's chief executive officer must advise the Retirement System prior to September 15, 1999, of the adoption of a resolution authorizing implementation of the program. Such resolution must be adopted prior to September 3, 1999.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Martini, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to perform all acts and to make any and all determinations necessary or appropriate in connection with the implementation, effectuation, administration, or any other aspect of a targeted retirement incentive program under Chapter 70 of the Laws of New York, 1999, including, without limitation, determining eligible titles (and the number of positions therein) to be covered by such program and the development of any compensation savings plan in connection therewith and, in this connection, and subject to approval as to form by General Counsel, to file any necessary or appropriate documents, affidavits, certifications and forms; and it is further

RESOLVED, that The Port Authority of New York and New Jersey does hereby elect to provide the benefits of Chapter 70 of the Laws of New York, 1999, commencing on December 1, 1999, for all eligible employees who retire with an effective date of retirement set during the thirty-one day period beginning with and immediately following the commencement date and who are otherwise eligible as specified by Chapter 70.

RETENTION OF INDEPENDENT AUDITORS

Under the By-Laws, the Audit Committee has the responsibility to recommend retention of independent auditors for designation by the Board to audit the accounts and financial statements of the Port Authority and its subsidiaries. The Audit Committee monitors the independent auditing function and decides annually the question of which firm to recommend to the Board for retention by the Port Authority and for what period of time in light of then-current circumstances.

Consistent with long-standing policy and after a full review and discussion of the performance of Deloitte & Touche LLP, the Audit Committee recommended that the Board designate Deloitte & Touche LLP as independent auditors to audit the accounts and financial statements of the Port Authority and its wholly owned subsidiaries for the year ending December 31, 1999, to perform an evaluation of the system of internal accounting controls, to perform a review of the Passenger Facility Charge Program and federal award programs, to provide other audit services, and to provide services requested in the disclosure process in connection with the issuance from time to time of Port Authority obligations.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Martini, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that Deloitte & Touche LLP be and it hereby is designated as independent auditors to audit the accounts and financial statements of The Port Authority of New York and New Jersey and its wholly owned subsidiaries for the year ending December 31, 1999; and it is further

RESOLVED, that, for the year ending December 31, 1999, Deloitte & Touche LLP be and it hereby is designated to perform an evaluation of the system of internal accounting controls, and to provide other audit services, including a review of revenue and cost computations relating to and under the terms of various lease agreements, such as those with the cities of New York and Newark, financial and statistical data reports submitted to the Federal Transit Administration, field work and financial disclosure requirements of the Single Audit Act of 1984 for recipients of federal financial assistance, and to participate as requested in the disclosure process in connection with the issuance from time to time of Port Authority obligations; and it is further

RESOLVED, that, for the year ending December 31, 1999, Deloitte & Touche LLP be and it hereby is designated to perform a review of the Passenger Facility Charge Program pursuant to the Aviation Safety and Capacity Expansion Act of 1990; and it is further

RESOLVED, that, in accordance with the By-Laws of the Port Authority, the matters of arranging for such services by the above-designated auditors and for monitoring the auditors' performance be and each hereby is referred to the Audit Committee.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period May 1, 1999 to May 31, 1999.

NEW YORK

Hon. Charles A. Gargano, Vice-Chairman
 Hon. Michael J. Chasanoff
 Hon. Peter S. Kalikow
 Hon. David S. Mack
 Hon. Bradford J. Race, Jr.
 Hon. Anastasia M. Song

The public meeting was called to order by Chairman Eisenberg at 2:29 p.m. and ended at 2:46 p.m. The Board met in executive session on September 30, 1999 and prior to the public meeting. Vice-Chairman Gargano and Commissioner Race were present for today's executive session.

Action on Minutes

The Secretary submitted for approval Minutes of action taken at the Board's meeting of July 29, 1999. He reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. He reported further that the time for action by the Governors of New York and New Jersey has expired.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Audit Committee

The Audit Committee reported, for information, on matters discussed in executive session at its meetings on September 30, 1999 and November 18, 1999, which included discussion of internal audit and contract matters, and the report was received.

Report of Committee on Finance

The Committee on Finance reported, for information, on matters discussed in executive session at its meetings on September 30, 1999 and November 18, 1999, which included discussion of matters related to, or which could impact upon, the issuance, sale, resale, or redemption of Port Authority bonds, notes or other obligations, and matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with which we deal, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Capital Programs and Port Planning

The Committee on Capital Programs and Port Planning reported on matters discussed in executive session at its meetings on September 30, 1999 and November 18, 1999, which included a discussion of lease and contract matters and matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with which we deal, and the report was received.

Report of Committee on Construction

The Committee on Construction reported, for information, on matters discussed at its meetings on September 30, 1999 and November 18, 1999, which included discussion of a project authorization for additional fuel tanks at Newark International Airport, an evaluation

of trial cathodic and material protection systems for the runway deck at LaGuardia Airport and a project authorization for roadway improvements for the east end of LaGuardia Airport. Following its public sessions, the Committee met in executive session to discuss contract matters. This report is in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Operations

The Committee on Operations reported, for information, on matters discussed in executive session at its meetings on September 30, 1999 and November 18, 1999, which included discussion of contract and lease matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Staff Report

A presentation was made by Cruz C. Russell, Director of Corporate Policy and Planning, on meeting future interstate capacity challenges, which included cost and scheduling updates on the Access to the Region's Core and Cross-Harbor Freight projects. The Chairman asked that staff continue to keep the Board apprised on these vital regional issues, as well as to continue to advance the Port Authority's agenda relative to the movement of people and goods.

The Chairman also recognized Robert Kelly, Director of Aviation, for his efforts related to the EgyptAir Flight 990 tragedy. He also noted that Bob was retiring at the end of the year and would be sorely missed.

NEWARK INTERNATIONAL AIRPORT – TERMINAL B ELECTRONIC CUSTOMER INFORMATION SYSTEM – PROJECT AUTHORIZATION AND SUPPLEMENT TO PERMIT NO. ANA/ASD-001 WITH SOCIETE INTERNATIONALE DE TELECOMMUNICATIONS AERONAUTIQUES

It was recommended that the Board authorize: (1) a project at Newark International Airport for the installation at Terminal B of an electronic customer information system, known as the AirportVision System, at an estimated total project cost of \$3.4 million; and (2) the Executive Director to (i) award Port Authority Contract EWR-154.203 for the modification of the infrastructure of Terminal B to accommodate the AirportVision System, and (ii) enter into a five-year supplemental permit agreement with Societe Internationale de Telecommunications Aeronautiques for the installation of equipment and software and the operation and maintenance of the AirportVision System.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that a project at Newark International Airport for the installation at Terminal B of an electronic customer information system, known as the AirportVision System, including the purchase of equipment, cable plant, lighted electronic display (LED) and infrastructure modification, at an estimated total project cost of \$3.4 million, including payments to contractors, allowance for extra work, if necessary, and net cost work, engineering, administrative and financial expenses, and a project contingency, if necessary, be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to: (a) take action with respect to construction contracts and contracts for professional and advisory services related to the foregoing project as he deems in the best interest of the Port Authority, including, without limitation, award of Contract EWR-154.203, for the infrastructure and design changes needed to accommodate the monitors and LED displays, at a total estimated contract price of \$1.2 million, to the lowest bidder qualified by reason of responsibility, experience and capacity to perform the work and whose bid price he deems reasonable; or to reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or contractors; (b) execute contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work, if necessary, and net cost work in connection with the contract, including supplemental agreements thereto; and (c) enter into such other agreements as may be necessary to effectuate the project; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a five-year

supplemental permit agreement with Societe Internationale de Telecommunications Aeronautiques concerning the installation of software, electronic equipment, LED system, and operation and maintenance of the AirportVision System in accordance with the terms and conditions outlined to the Board; and it is further

RESOLVED, that the form of all contracts and agreements, in each case, shall be subject to the approval of General Counsel or his authorized representative.

NEWARK INTERNATIONAL AIRPORT – SOUTH FUEL FARM - ADDITIONAL FUEL TANKS – PROJECT AUTHORIZATION

The South Fuel Farm at Newark International Airport (EWR), which stores aviation fuel to ensure a dependable supply, currently contains twenty-four aviation fuel storage tanks having a total capacity of approximately 10.2 million gallons and a usable capacity of approximately 9.2 million gallons. Based on current patterns of consumption, this capacity equates to approximately three days of aviation fuel inventory. The recent increase in aviation fuel usage at EWR, associated primarily with the growth of long-haul passenger traffic, requires an increase in storage capacity to a volume sufficient for five to seven days of airport operations. This project would accomplish this requirement by providing an additional ten million gallons of aviation fuel storage capacity.

This project would include the staged installation of a total of five, two million-gallon storage tanks and associated support systems including tank foundations, secondary containment dikes, piping for fuel, foam, sump and dike drainage, foam fire-suppression systems, cathodic protection systems, and access roadways and lighting. Certain environmental permits, approvals and certifications would be required. It is anticipated that the installation work would commence in the first quarter of 2000 and be completed in the second quarter of 2002. The cost of this project would be fully recoverable through the Fuel Fee component of the EWR Master Lease.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that a project at Newark International Airport to expand the South Fuel Farm by installing five additional two million-gallon tanks providing an additional ten million gallons of aviation fuel storage, at a total estimated project cost of \$36.8 million including payments to contractors, allowances for extra work (if necessary) and net cost work, engineering, administrative and financial expenses, and a project contingency (if necessary), be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to: (1) take action with respect to construction contracts and contracts for professional and advisory services related to the foregoing project as he deems in the best interest of the Port Authority, including, without limitation, award to the lowest bidder(s) qualified by reason of responsibility, experience and capacity to perform the work and whose bid price he deems reasonable; or to reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or contractors; (2) execute contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work (if necessary) and net cost work in connection with each contract including supplemental agreements thereto; and, (3) enter into other agreements, apply for environmental

permits and approvals, and execute related documents, as may be necessary to effectuate the project; and it is further

RESOLVED, that the form of all contracts and agreements in connection with the foregoing shall be subject to the approval of General Counsel or his authorized representative.

JOHN F. KENNEDY INTERNATIONAL AIRPORT – GLOBAL REMEDIATION COST DISTRIBUTION AUTHORIZATION

It was recommended that the Board authorize the Executive Director to: (1) accept payments from the airlines operating at John F. Kennedy International Airport toward the costs of the current remediation project of, and prior remediation at, the bulk and satellite fuel farms at JFK; and (2) accept payments from Ogden New York Services, Inc. (Ogden) for its negotiated share of the costs of the current remediation project for the bulk and satellite fuel farms at JFK and its negotiated share of the cost of the remediation project at the former International Arrivals Building Ramp (Terminal 4) at JFK.

The Port Authority has been performing, and will be performing, remediation at the bulk and satellite fuel farms at JFK. Cost-sharing settlement discussions were held by the Port Authority with airlines operating at JFK. As a result of these cost-sharing settlement discussions, the airlines operating at JFK will make reimbursement payments to the Port Authority of up to \$28 million toward the costs of the current remediation project at the bulk and satellite fuel farms at JFK and toward the costs of prior remediation performed thereat by the Port Authority. The Port Authority would recover from the airlines operating at JFK the sum of the amounts of (a) plus (b) below for the JFK bulk and satellite fuel farm remediation, which amounts are to be paid through a per-gallon additional charge calculated on the into-plane fuel delivery to the airlines at JFK as follows:

- (a) \$10 million constituting one half of the \$20 million already expended by the Port Authority; plus
- (b) one-half of the current remediation project costs, estimated at \$28 million. However, the airlines would still be liable for 50 percent of any further remediation, currently unknown, that may be required for this project, up to a cap of \$18 million, through 2009.

The into-plane per gallon additional charge is calculated to be \$.00478. This calculation was based on 1999 estimated gallonage of 1.2 billion gallons and a total contribution by the airlines of approximately \$24 million, net of the sale of recovered fuel. The payment period will begin with the November 1, 1999 activity through December 31, 2003. If gallonage decreases, reimbursement by the airlines will be extended through 2004. Conversely, should gallonage increase, the airlines' reimbursement would terminate before December 31, 2003.

The airlines would be advised of this additional into-plane gallonage charge through a JFK Airport Manager's Bulletin. All revenues collected from other potentially responsible parties (with the exception of Ogden) will be shared 50/50 with the airlines (net of the Port Authority's expense). All revenues from the sale of fuel recovered from the current remediation project, if any, will be credited to the total current remediation project cost.

Cost-sharing settlement discussions were also held by the Port Authority with Ogden, the independent contractor which maintains the bulk and satellite fuel farms at JFK under Port Authority contract AY-412 and which operates the JFK fuel system and performs into-plane fuel delivery services at JFK under Port Authority contract AY-342. Ogden would pay to the Port

Authority a negotiated share of the costs of the current remediation project at the bulk and satellite fuel farms as well as a negotiated share of the cost of the remediation at the former International Arrivals Building ramp at JFK. Such contribution by Ogden toward the costs of the current remediation project and the remediation at the former International Arrivals Building Ramp (Terminal 4) will be subject to annual authorization by the Port Authority of contract extensions for AY-342 and AY-412 to be sought at a future date. Such contribution by Ogden would be as follows: (a) \$1 million to be paid by Ogden to the Port Authority in a lump sum upon execution of an extension to the AY-342 into-plane fueling contract; (b) \$200,000 payable to the Port Authority by Ogden on January 1st of each year (beginning in 1999 through January 1, 2003) contingent upon annual renewal of the AY-342 into-plane fueling contract; and (c) \$100,000 payable to the Port Authority by Ogden on January 1st of each year should AY-342 be extended or Ogden continue to provide fueling services from January 1st, 2004 through 2008, contingent upon the annual renewal of the AY-342 into-plane fueling contract.

Pursuant to the foregoing report, the following resolution was adopted with Directors Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to accept payments toward costs of remediation of the bulk and satellite fuel farms at John F. Kennedy International Airport (JFK) from the airlines operating at JFK in accordance with the terms and conditions outlined to the Board; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to accept payments from Ogden New York Services, Inc. for its negotiated share of the costs of current remediation at the bulk and satellite fuel farms at JFK and its negotiated share of remediation costs at the former International Arrivals Building ramp (Terminal 4) at JFK, in accordance with the terms and conditions outlined to the board; and it is further

RESOLVED, that the form of all bulletins, contracts and agreements, in each case, in connection with the foregoing shall be subject to the approval of General Counsel or his authorized representative.

**JOHN F. KENNEDY INTERNATIONAL AIRPORT – AIRPORT ACCESS PROJECT –
PROPERTY ACQUISITION – BY EXERCISE OF THE POWER OF EMINENT
DOMAIN**

On May 9, 1996, the Board authorized a project (Project) for the implementation of an automated Light Rail System (LRS) between Jamaica and John F. Kennedy International Airport (JFK), a link between Howard Beach and JFK, and an LRS circulating within the Central Terminal Area. JFK suffers from a lack of public transportation options for access to the facility. In addition, the existing roadway system is unable to adequately address the need for on-airport circulation. The Project will provide connections to regional transportation hubs at the Long Island Railroad station in Jamaica as well as the New York City Transit Authority (TA) station in Howard Beach. The LRS will also provide stations on-airport, at the rental car facilities at Federal Circle, the Employee Long-term Parking Lot, and at the unit terminals for intra-airport transportation of airport customers and employees.

In requesting Project Authorization at the Board's May 9, 1996 meeting, staff noted that at the appropriate time, the Board would be asked to make the necessary findings and authorize acquisition of property interests by negotiation or condemnation.

The Council of the City of New York on June 7, 1999 passed a resolution authorizing various real estate transactions necessary to effectuate the Project. Additionally, the Federal Aviation Administration (FAA), after a court-ordered comment period as a result of suit brought by the Air Transport Association, on August 16, 1999, reauthorized the collection and use of Passenger Facility Charges for the Project. However, an appeal of the FAA's reauthorization was filed by the Southeast Queens Concerned Neighbors and the Committee for Better Transit, Inc. with the United States Court of Appeals for the Second Circuit. Nevertheless, it is staff's belief that ultimately the FAA's reauthorization will be affirmed. Consequently, in view of the Project schedule, staff is preparing to move the entire Project forward and has requested the Board to make the necessary determinations and findings and authorize acquisition of certain private property interests by negotiation or the exercise of the power of eminent domain.

The Right of Way (ROW) of the Project involves property interests claimed by private property owners, including an automobile service station, an Amoco Fuel station, and a parking lot, in the vicinity of the Jamaica Long Island Railroad Station.

Pursuant to the Board's resolution adopted at its meeting of September 24, 1998, staff has commenced negotiations for the acquisition of the three privately owned parcels of real estate and conducted a public hearing on September 16, 1999 in accordance with the New York State Eminent Domain Procedure Law (EDPL). Additionally, public hearings on the Project have been conducted before Community Boards 9, 10 and 12, the Queens Borough President, the City Planning Commission and the New York City Council. Counsel for the owners are arranging for appraisals to enable serious negotiations to ensue.

In view of the schedule of the Project, staff must prepare to acquire these private property interests by the exercise of the power of eminent domain in the event the property owners do not accept the Port Authority's offer of its highest approved appraisal and make a voluntary conveyance of their property to the Port Authority. The Port Authority is required to

make such offer by the EDPL before it seeks a judicial order, which would result in the vesting of title to the properties.

The EDPL Public Hearing

At the Public Hearing duly held on September 16, 1999 by the Port Authority pursuant to the EDPL, there were ten speakers or statements in favor of the Project, not including a Port Authority representative, and four speakers against. The record was kept open until 4:00 p.m., Monday, September 20, for further statements. For the Project were: Councilman Alfonso Stabile; the Reverend Floyd H. Flake; Betty Braton, Chairperson, Queens Community Board 10; Joseph Addabbo, Chairperson, P.A. Committee-Community Board 10; Robert Olmstead; Carlos Espinosa, Salesman – Clark's Real Estate; Daniel Kulka, KJL Realty; John Steinberg, Vice President, Special Counsel, Greater Jamaica Development Corporation; James Heyliger, President, Association of Minority Enterprises of New York; and Daniel Jennings, President, Sir Speedy (reproduction services). Against the project were: Dorothy Williams Pereira, Membership Chairman, Citizens Action Team; Raphael Smalling, Square Deal Civic Association; Ruth DuBerry, South East Queens Concerned Neighbors; and George Hercules, Van Wyck Block Association.

The following is a summary of various points made at the Hearing. Those in favor of the Project noted, among other things, that the AirTrain will be a vital link not only to and from Manhattan but Long Island as well. New York City Councilman Stabile voiced his support for the Project, which, his statement noted, was "overwhelmingly supported" by his colleagues in the City Council. He noted that the AirTrain will once again show to the country that New York City is one of the leaders in transportation alternatives and travel efficiency. Other speakers: praised the Port Authority in a project of this magnitude for exercising the power of eminent domain only over three commercial non-residential properties and largely utilizing existing transportation rights of way; stated that the Port Authority will have community board support as long as it works with the community board and lives up to the commitments made to community boards; wanted the trains to run on time and the Project to be completed expeditiously; wanted an LRS station to be located at 111th Avenue; said eggs have to be cracked to make an omelet; wanted local groups to be involved in planning of development in the vicinity of the Project in Jamaica as well as local vendors and suppliers to be allowed to participate. Those opposed to the Project: were concerned, among other things, about vibrations from pile driving; were against the fact that the AirTrain is exclusively for airport patrons and employees; were concerned that the Project does not provide a one-seat ride from Manhattan; believed that a preferable alternative would be to re-activate the former Long Island Railroad (LIRR) Rockaway Branch; observed that three City Council members and a City Planning Commission member voted against the Project; and claimed that the Mayor by supporting the LRS AirTrain Project showed that he doesn't care about the community.

Five additional statements in support of the Project received by the Port Authority before 4 p.m., Monday, September 20, 1999 were from: Thomas V. Ognibene, Minority Leader, the Council of the City of New York; Richard T. Anderson, President, New York Building Congress; Francis X. McArdle, Managing Director, the General Contractors Association of New York, Inc.; Archie Spigner, Deputy Majority Leader of the Council of the City of New York and Thomas P. Maguire, President and Business Manager, General Vice President, International Union of Operating Engineers, Local Union 15, 15-A, 15-B, 15-C & 15D.

Background

JFK is approximately 15 miles by highway from the Midtown Central Business District, on Jamaica Bay in the southeastern section of the Borough of Queens. Located on 4,930 acres, including 880 acres in the Central Terminal Area (CTA) alone, JFK has nine airline passenger terminals with 173 aircraft gate positions served by approximately 125 domestic and international carriers. It is a gateway to the United States, providing approximately 208,000 jobs, \$6.6 billion in wages and \$20.4 billion in sales.

Manhattan is the largest air passenger market for JFK. Because most trips between the Central Business District and JFK use the severely congested East River crossings, Long Island Expressway, and Van Wyck Expressway (VWE), travel times are unpredictable and typically 30 to 40 minutes longer than trips between other airports at comparable distances to their central business districts. JFK lacks adequate connections to the region's mass transportation systems. The lack of effective, dedicated ground transit access, as well as the lack of an internal circulation system, is unusual for large American airports and major airports in leading world cities. In recent years, many of these major airports have been making major investments to add to or enhance such access. To date, JFK has lagged behind in this effort. For these reasons, the Port Authority is proposing to create a ROW that will utilize a light rail system or LRS to improve access to JFK.

Establishment of the ROW will necessitate a number of property acquisitions and dispositions, which are the subject of this report. The City will dispose to the Port Authority property interests it owns within the ROW on space in the median, as well as over the VWE, and space over seven City streets that cross the VWE. The New York State Department of Transportation (NYSDOT) will dispose to the Port Authority property interests it believes it holds within the proposed ROW (space in the VWE ROW and other areas).

The Port Authority will acquire permanent property interests, including: the Tri-Bro Auto Service Station, located at 93-50 Sutphin Boulevard (Block 9989, Lot 17); the Web Food Products Parking Lot, located at 144-27 94th Avenue (Block 9989, Lot 11); the Amoco Fuel Station located at 137-10/34 94th Avenue (Block 9990, Lot 5) and property interests owned at Jamaica Station by the LIRR or others on Block 9989, Lots 70, 90 and 95.

The City will acquire from the Port Authority those portions of the various property interests described above which the Port Authority requires permanently for the JFK LRS ROW and subsequently lease those property interests back to the Port Authority as part of the JFK leasehold. It is anticipated that at the appropriate time the Board will be requested to declare as surplus certain areas which were required for the construction of the LRS project but are not required permanently for the LRS ROW.

Upon establishment of the ROW, the Port Authority will construct a LRS which will connect JFK to the LIRR Jamaica Station and the TA Howard Beach Station. The LRS will also connect with the Howard Beach Station via an enclosed connecting mezzanine, escalators and elevators to the platform. At Jamaica Station, a pedestrian bridge will be added above the existing LIRR mezzanine and banks of elevators will connect with the LIRR ticket lobby, subway mezzanine, platforms, and street levels.

The Jamaica Station will provide access to TA E, J, and Z trains, all LIRR branches except the Port Washington Branch, as well as bus lines Q6, Q8, Q9, Q24, Q30, Q31, Q40, Q41, Q43, Q44, Q54, Q56, and Q60. The LRS station located adjacent to the TA Howard Beach Station will provide access to the A train and the Q11 bus. The LRS will include six stations within a loop at the airport around the CTA to serve the passenger terminals. There will be a station located at Federal Circle to serve the rental car complex. There will also be a station located on-airport at Lefferts Boulevard to serve the long-term and employee parking lots.

The Port Authority will construct an automated, steel wheel/steel rail LRS. The system alignment consists of a dual-track guideway, approximately 8.4 miles in length with 10 stations. Between JFK and the LIRR Jamaica Station, the alignment will be primarily in the median of the VWE. Between JFK and the TA Howard Beach Station, the alignment will be primarily on existing Airport property. The guideway is grade-separated from the existing roadway crossings and the stations are elevated stations.

The LRS will provide access on a 24-hour basis to JFK and will be capable of continuous operational headways of 90 seconds. It is anticipated that trains will operate as two car sets. Each car can accommodate 26 seated passengers and approximately 72 standees. Luggage will be accommodated in racks and in baggage carts. Ridership is estimated at 34,000 riders a day or 12.4 million riders annually. The system is designed to operate at speeds up to 60 miles per hour and travel times are proposed to be 8 minutes from Jamaica to the first terminal at JFK, 8 minutes from Howard Beach to the CTA and 8 minutes to loop around the CTA.

For planning purposes the fare was assumed to be \$5 for air passengers using the system at off-airport stations and \$2 for airport employees at these stations. It is also anticipated that no fare would be charged to ride the system on-airport.

Environmental Impact

The LRS Project was reviewed pursuant to the National Environmental Policy Act (NEPA) and State Environmental Quality Review Act (SEQRA), and the SEQRA regulations set forth in Volume 6 of the New York Code of Rules and Regulations, Part 617. The FAA and the NYSDOT acted as co-lead agencies.

The environmental impacts of the JFK LRS Project are relatively discrete, because the proposed alignment primarily traverses disturbed areas and is predominantly located in ROWs currently under public-sector ownership, with the relatively small exception of certain privately owned commercial properties referred to herein. A summary of these impacts by relevant impact category follows.

Land Use

Land use impacts are identified in Sections 2 and 3 of the First Resolution of these Minutes.

Traffic/ Transportation

The estimated 2003 ridership on the LRS is approximately 23,000 on-airport trips and 11,000 off-airport trips daily, entering at Howard Beach and Jamaica. Ridership will consist of air passengers and airport employees. It is estimated that diversion of trips to the LRS from automobiles will remove over 75,000 Vehicle Miles Traveled (VMT) from regional highways on

an average day in 2003. Over 3,000 LRS trips per day will be Central Business District-based; these trips will primarily access the LRS via the LIRR connection between Penn Station in Manhattan and Jamaica Station. The increased taxi, drive-and-drop, and pedestrian activity at Penn Station is projected to be insignificant relative to existing activity at the station and within overall forecasts of activity at the station.

Off-airport trips will access the LRS via stations at Jamaica and Howard Beach (described above). Jamaica Station is expected to capture nearly two-thirds of the off-airport trips. Detailed traffic and transportation impact analysis at Jamaica Station focused on affected intersections, sidewalks and internal station passageways. Analysis of the Project impacts indicates that these elements will operate at acceptable levels of service. The increased vehicular activity at Howard Beach from the Project is below accepted threshold levels for detailed impact analysis.

The operating conditions of the internal roadway system at the Airport will improve with the LRS because buses from the Long-Term and Employee Parking Lots and rental car facilities, operating between terminals, will be replaced by the LRS. The on-airport pedestrian environment will similarly improve.

Project construction effects on traffic will be minimized through adherence to Maintenance and Protection of Traffic plans, which will be agreed to by the NYSDOT and the New York City Department of Transportation (NYCDOT). These conceptual plans have been presented to NYSDOT and NYCDOT and include the following:

- The proposed sequence of construction along the VWE is in two stages. The first stage replaces the existing shoulder and curbs in both directions for the purpose of carrying traffic during construction. Construction within this stage will also include reconstruction of retaining walls north of Liberty Avenue at 101 Avenue. Modification of accel/decel lanes/ramps will also be required. The second stage is the actual construction of the LRS pier footings, piers, and superstructure.
- The increased roadway width provided by enhancing the shoulders in the first stage will maintain three lanes of traffic in each direction during peak hours, and two lanes of traffic in each direction during off-peak periods. This daily change in traffic patterns will require the use of a moveable barrier system. The MPT will also include utilization of the service roads, use of closed-circuit TV cameras, variable message signs and standby towing crews.

Air Quality

The Project is anticipated to have a beneficial effect on regional air quality through emissions reductions from the reduction of approximately 75,000 daily VMT (from vehicular trips diverted to the LRS). Microscale analysis of carbon monoxide at affected intersections indicates no violation of ambient air quality standards. The Project may result in up to four added airplane operations at JFK. The emissions effect of these incremental aircraft operations are below U.S. Environmental Protection Agency (EPA) *de minimis* levels for conformity of general federal actions with the State Implementation Plan. The net effect - vehicular emissions reductions plus aircraft emissions increases - of the project on air quality is beneficial, as the Project will produce a net reduction in pollutant emissions.

Noise

As a steel-wheel-on-steel-rail technology, the LRS will produce operating noise effects. These effects will be imperceptible from ambient noise, within noise impact guidelines for residences and other receptors, and below the Federal Transit Administration threshold for noise abatement.

Other

The Project will be constructed primarily in an environment disturbed by previous urbanization activities, e.g., buildings, pavement and other landscape alteration. An area of wetland and open water at the head of Hawtree Basin near the Howard Beach LRS Station will be affected. However, the LRS will be elevated on columns and avoid the open water area, where possible. Less than one-half acre of wetland filling will be necessary to construct the Howard Beach LRS Station and connecting roadway access to the existing Long-Term Parking Lot. This unavoidable impact has been minimized and is in the process of being mitigated on site, under terms established by wetland permitting agencies.

U.S. Army Corps of Engineers and the New York State Department of Environmental Conservation Permits have been obtained for wetland impacts in the vicinity of the Howard Beach Station.

The Project will be constructed to create a safe environment for users. Based on measurements of electromagnetic fields (EMF) from similar systems, the EMF from the LRS will be well below established exposure thresholds and guidelines for protection of health and safety. Areas of potential waste contamination to be encountered by the Project have been identified; the control of these areas and disposal of waste from these areas during construction will be in accordance with applicable laws and regulations.

The Project will have visual impact on residences along its alignment between Jamaica Station and JFK; however, this impact is not expected to be significant, because the LRS will travel along existing transportation corridors and the Airport, except when the ROW crosses the Amoco Station Parcel at the corner of the VWE Service Road and 94th Street. Visual impact will be mitigated through use of landscaping treatments primarily along the ROW. Within the Airport there may be minor visual impacts to historic structures within the CTA Loop, as discussed below.

The construction of the project will potentially affect the following historic properties: Jamaica Station and the Trans World Airlines (TWA) and Delta (formerly Pan Am) terminals at JFK. The LRS would be located in proximity to all three properties, all of which are eligible for listing on the National Register of Historic Places. The TWA Terminal is also a New York City landmark. The State Historic Preservation Officer (SHPO) has concluded that the Project is conceptually appropriate and will have no adverse effect on historic resources if certain conditions are incorporated into planning documents to minimize physical and visual impacts at the terminals. As part of the Section 106 of the Historic Preservation Act of 1966 consultation process, the FAA forwarded supporting documentation and the SHPO finding to the Advisory Council for Historic Preservation (ACHP), Washington, D.C., for its concurrence. By letter, dated April 22, 1997, the ACHP, pursuant to the Council's regulations (36 C.F.R. 800.5 (d) (2)), agreed with the FAA and SHPO's determination of no adverse effect and advised that no further

steps to comply with the Section 106 process were required, other than to ensure the Project is implemented as proposed and consistent with the conditions reached with the New York SHPO.

The on-airport portions of the proposed Project fall within the federal coastal zone boundary. The Port Authority and the FAA have found the project to be consistent with the policy statements and local policy issues of the coastal zone program which is administered by the New York State Department of State and the New York City Department of City Planning Waterfront Revitalization Program.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Chasanoff, Donovan, Gargano, Eisenberg, Kalikow, Martini, Philibosian, Race, Sartor, Song and Weinstein voting in favor; Commissioner Mack abstaining; none against:

RESOLVED, that the following determination and findings be and are hereby made by The Port Authority of New York and New Jersey (Port Authority) as required by the New York State Eminent Domain Procedure Law (EDPL):

(1) The Public Use, Benefit or Purpose of the Project – The Legislatures of the States of New York and New Jersey as set forth in the Laws of New York, 1971, Chapter 474, Section 1, as amended, (65 McKinney's Unconsol. Laws of N.Y. Section 6651) and the Laws of New Jersey, 1971, Chapter 245, Section 1, as amended (N.J.S.A. 32:1-35.20) have made certain legislative findings and determinations regarding the public use, benefit or purpose to be served by the John F. Kennedy International Airport (JFK) Light Rail System (LRS) Project (Project) air terminal facilities to provide access to JFK, which findings and determinations the Port Authority hereby adopts.

(2) The Approximate Location of the Project – The Project involves the construction of an automated steel wheel/steel rail LRS which will provide access to, from and within JFK for airport patrons and employees. The system will consist of dual-track guideway, approximately 8.4 miles in length with ten stations. The proposed location of the Project not only is within existing JFK boundaries but will also include connections to the New York City Transit Authority (TA) Howard Beach Station and to the Long Island Railroad (LIRR) Jamaica Station and TA Sutphin Boulevard Station. These connections will become part of the JFK premises. The LRS Right of Way (ROW) in part will utilize the ROW of the Van Wyck Expressway (VWE) and will cross over seven City streets which cross the VWE. Turning easterly from the VWE, the LRS will require the acquisition of three privately owned parcels of land in the Borough of Queens, City of New York used for commercial purposes, including: (1) the Amoco Fuel Station located at 137-10/34 94th Avenue (Block 9990, Lot 5); (2) the Web Food Products Parking Lot located at 144-27 94th Avenue (Block 9989, Lot 11), and; (3) the Tri-Bro Auto Service Station, located at 93-50 Sutphin Boulevard (Block 9989, Lot 17), as well as property interests owned at the Jamaica Station and Yards by the LIRR or others on Block 9989, Lots 70, 90 and 95.

(3) The Reasons For the Selection of the Location – The alignment of the LRS was selected for the following reasons. The Project will be located almost exclusively within existing transportation corridors and ROWs. As such, the Project, with the exception of the above-mentioned commercial parcels which are to be acquired, is consistent with existing land use. The Project is also consistent with relevant federal, state and local plans, including highway development plans of the New York State Department of Transportation (NYSDOT). The Project will entail the acquisition of three business properties. All other land acquisitions for the Project involve public ROWs. The Project will not displace any residences or community facilities, nor will it involve the use of parkland. Minor wetland impacts in the vicinity of the TA's Howard Beach Station either have been or will be permitted by federal and state agencies and mitigation measures required. Counsel for Web Food Products, Inc. has brought to the Port Authority's consideration the possible effect the loss of a claimed fifty-two off-street parking spaces on Block 9989, Lot 11 may have on the premises across the street (94th Avenue) known as Block 9993, Lot 3, and suggested that the loss of such dedicated parking may give rise to compensable damages.

(4) The General Effect of the Project On the Environment and Residents of the Locality – A Draft Environmental Impact Statement (DEIS), and Final EIS (FEIS) were prepared by the Federal Aviation Administration (FAA) along with the NYSDOT acting as Joint Lead Agency. The FAA prepared a Written Reevaluation/Technical Report (WR/TR). Similarly, NYSDOT prepared a Reevaluation and Determination Regarding Need to Supplement the FEIS for the Development of the JFK International Airport Light Rail System – Queens County, New York (the NYSDOT Reevaluation and Determination). The FAA prepared Records of Decision approving an amended Airport Layout Plan including the ROW for the LRS and the use of Passenger Facility Charges (PFCs) in compliance with the National Environmental Policy Act (NEPA). The NYSDOT issued a Record of Decision containing Findings in connection with its authorization of property conveyances for the Project in compliance with the New York State Environmental Quality Review Act (SEQRA). The general effect of the JFK LRS Project on the environment and the residents of the locality are: (a) set in the WR/TR, the NYSDOT Reevaluation and Determination, and FEIS which are available public documents and such environmental documents are incorporated herein by reference; and (b) in the Environmental Impact Section of the Report portion of these minutes, which is incorporated in these determinations and findings by reference.

(5) Other Factors Considered Relevant –

(A) Consistent with State Environmental Quality Review standards: (1) as noted by the NYSDOT and the Council of the City of New York in their Record of Decision and Resolution, respectively, the requirements of Article 8 and section 8-0109 of the New York Environmental

Conservation Law and the requirements of 6 NYCRR 617, State Environmental Quality Review have been met; (2) relevant environmental impacts, facts and conclusions disclosed in the FEIS have been considered and will be taken into consideration in the implementation of the Project; (3) relevant environmental impacts have been weighed and balanced with social, economic and other considerations; (4) consistent with social, economic and other essential considerations, from among the reasonable alternatives available, the action is one that avoids or minimizes adverse environmental impacts, including those identified in the relevant FEIS, to the maximum extent practicable, and that adverse environmental impacts, revealed in the environmental impact statement process, will be avoided or minimized to the maximum extent practicable by incorporating as conditions to the approval those mitigative measures that were identified as practicable (It is a condition of FAA Project approval, as noted in NYSDOT's Record of Decision, that the mitigation measures presented in Section 7.0 of the FEIS are the responsibility of the Port Authority. The Port Authority has incorporated the mitigation measures as requirements of the design, construction and operation contracts or other contracts issued for the Project.); (5) these minutes of the Port Authority, together with the Resolution of the Council of the City of New York, Decision of the City Planning Commission, the FEIS, Written Reevaluation/Technical Report of the FAA, the NYSDOT Reevaluation and Determination, and the Records of Decision of the FAA and NYSDOT constitute the written statement of facts and of social, economic and other factors and standards that form the basis or rationale of the decision; and (6) as stated in NYSDOT's Record of Decision and the City Planning Commission's Report, the Project (and the Port Authority's decision) is consistent with applicable policies set forth in 19 NYCRR. Part 600.5 and is consistent to the maximum extent practicable with the policies of the coastal zone program which is administered by the New York State Department of State and the New York City Waterfront Revitalization Program.

(B) The Council of the City of New York, after public hearings required by the Uniform Land Use Review Procedure of the City Charter, on June 7, 1999 passed Resolution No. 863 approving the Decision of the City Planning Commission dated May 3, 1999, and filed with the Council on May 3, 1999, relating to certain real estate transactions associated with the JFK LRS Project.

(C) The Port Authority duly conducted a public hearing on September 16, 1999 in accordance with the EDPL and a record of the hearing has been kept. The record was kept open for receipt of statements until 4 p.m., Monday, September 20, 1999. There were fifteen speakers or statements in favor of the Project, not including a Port Authority representative, and four speakers against; and it is further

(D) The FAA, after a court-ordered comment period as a result of suit brought by the Air Transport Association on August 16, 1999, reauthorized the collection and use of Passenger Facility Charges for the

Project. Subsequently, an appeal of the FAA's reauthorization was filed by the Southeast Queens Concerned Neighbors and the Committee for Better Transit, Inc. with the United States Court of Appeals for the Second Circuit. Nevertheless, it is Port Authority staff's view that ultimately the FAA's reauthorization will be affirmed. Accordingly, in view of the Project schedule, it is deemed prudent to proceed with authorization of eminent domain proceedings at this time; and it is further

RESOLVED that the following determination and findings be and are hereby made by the Port Authority pursuant to applicable bistate legislation authorizing the Port Authority to acquire property for air terminal purposes by negotiation or the exercise of the power of eminent domain:

Having considered the foregoing and in light thereof, it is necessary for public use for air terminal purposes to acquire on behalf of the Port Authority by negotiation or by the exercise of the right or power of eminent domain for and in connection with the Air Terminal Facilities to provide access to JFK, known as the JFK LRS or AirTrain Project, fee title to the three privately owned parcels of land in the Borough of Queens, City of New York, generally identified on the Tax Map of the City of New York, Borough of Queens as: (1) Section 44, Block 9989, Lot 17 (93-50 Sutphin Boulevard) the Tri-Bro Service Station, Record Owner: Andrew Barone, Dominick Barone and Joseph Barone; (2) Section 44, Block 9989, Lot 11 (144-27 94th Avenue), Record Owner: Web Food Products, Inc.; and (3) Section 44, Block 9990, Lot 5 (137-10/34 94th Avenue) the Amoco Service Station, Record Owner: David Oil Corp., it being the intent of the Port Authority to acquire the larger of the areas covered by the tax lot designation, by the deed description, or the surveyed actual area of the parcel in the event there is any discrepancy among the areas; and it is further

RESOLVED, that the Executive Director or General Counsel, either one acting individually, be and they hereby are authorized, for and on behalf of the Port Authority, to acquire on behalf of the Port Authority by negotiation or the exercise of the right or power of eminent domain in accordance with applicable law the three privately owned parcels of land in the Borough of Queens identified above for public use for air terminal purposes, and to incur all related costs and expenses and execute all documents, including without limitation, agreements and conveyances, involving transfers of property interests to or from the Port Authority, necessary or incidental to such acquisition or the Project; and it is further

RESOLVED, that all documents necessary to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

**LAGUARDIA AIRPORT – EAST END ROADWAY IMPROVEMENTS – PROJECT
AUTHORIZATION AND AWARD OF CONTRACTS LGA-124.041 AND
LGA-124.107**

On November 14, 1991, the Board authorized planning, including entering into contracts for the preparation of an Environmental Impact Statement (EIS), for a flyover bridge and related access/egress ramps and roadway improvements at LaGuardia Airport (LGA) at an estimated cost of \$6 million. The recommended project for east end roadway improvements at LGA which resulted from the planning effort includes the construction of new access/egress ramps, two of which would provide direct access to the westbound Grand Central Parkway (GCP) from the airport's east end. Other ramps would provide more direct routing of traffic on and off the airport via the 102nd Street Bridge and along the internal airport roadways. This project would also include the rehabilitation and upgrade of the 102nd Street Bridge to meet current traffic and safety standards and certain measures required by the EIS, including construction of a pedestrian bridge and landscaping. Based on the EIS's determination that the flyover bridge will not be needed until LGA's annual passengers reach 28 million, which staff estimates will be by 2008, the flyover bridge would not be included in this project. Authorization for the construction of the flyover bridge would be sought as that passenger level is approached.

This project would alleviate existing and projected vehicular congestion along the east end roadway system of LGA. Construction of the project is expected to take approximately three years. The airport roadways, 102nd Street Bridge and GCP would remain in operation throughout the construction period. Landscaping would be completed following completion of the various components of the work. Since some construction would take place along the GCP and Ditmars Boulevard, rights of entry onto these properties from the State of New York and the City of New York, respectively, would be required. The cost of this project would be partially recoverable (approximately 65 percent) through the airport flight fee formula. Federal aid under the Airport Improvement Program may be used to fund part of the project to the extent such funds are available.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that a project for east end roadway improvements at LaGuardia Airport at a total estimated project cost of \$78.2 million, including payments to contractors, allowances for extra work (if necessary) and net cost work, engineering, administrative and financial expenses, and a project contingency (if necessary) be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to: a) take action with respect to construction contracts and contracts for professional and advisory services related to the foregoing project as he deems in the best interest of

the Port Authority including, without limitation, award of Contract LGA-124.041 for the construction of new access and egress ramps and a new pedestrian bridge, the rehabilitation of the 102nd Street Bridge, and various related items, at an estimated contract price of \$42.8 million, and the award of Contract LGA-124.107 for landscaping, at an estimated contract price of \$4.6 million, to the lowest bidder(s), qualified by reason of responsibility, experience and capacity to perform the work and whose bid price(s) he deems reasonable; or to reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or contractors; b) execute contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work (if necessary) and net cost work in connection with each contract, including supplemental agreements thereto; c) enter into an agreement with a consultant design firm, to be selected through a Request for Proposals process, to provide Stage III contract documents and Stage IV design and other related project services at a total estimated cost of \$3.7 million; d) enter into agreements with the State of New York and the City of New York for rights of entry in connection with the project; and, e) and enter into such other agreements as may be necessary to effectuate the project; and it is further

RESOLVED, that the form of all contracts and agreements in connection with the foregoing shall be subject to the approval of General Counsel or his authorized representative.

**TETERBORO AIRPORT - GENERAL AVIATION AIRCRAFT SERVICES, INC. -
CONSENT TO AGREEMENTS EXTENDING USE AND OCCUPANCY
AGREEMENTS AT-125 AND TA-051**

It was recommended that the Board authorize the Executive Director to: 1) enter into Consent Agreements granting the Port Authority's consent to an extension of Use and Occupancy Agreements AT-125 and TA-051 between Johnson Controls World Services Inc. (Johnson Controls) and General Aviation Aircraft Services, Inc., doing business as Million Air-Teterboro (Million Air), at Teterboro Airport for a 20-year term commencing after a stated date or the demolition of Hangar 5 and completion of construction of a replacement hangar, whichever first occurs, with Million Air being obligated to make a minimum investment of \$5 million and provide security during construction; 2) provide funding to Million Air in an amount not to exceed said \$5 million in connection with the construction in phases of a new 40,000 square-foot hangar, an adjoining terminal of 15,000 square feet, and shop and office space of 2,000 square feet (all square footage being approximate), with Million Air paying an additional facility fee in connection therewith to the Port Authority based on a 20-year term on a financially self-sustaining basis; 3) subject to the relocation of Taxiway P by the Port Authority and the relocation of the airport maintenance facility, enter into one or more agreements adding a total of up to approximately 1.6 acres to the Million Air space consisting of ramp space to the east of the Million Air space, the former airport maintenance facility space, and the Hangar 14 maintenance yard, all at the then prevailing market rate for unimproved land, with Million Air being obligated to pave said added land as additional aircraft ramp area; and 4) expend an amount not to exceed \$200,000 for the cost of relocation of the airport maintenance facility to an interim location, required by the construction of the new hangar.

The Agreements shall provide that within six months of the date of execution of the Agreements, construction plans and specifications must be submitted to the Port Authority for approval. Following approval by the Port Authority, Million Air must complete construction within one year, assuming the Airport maintenance facility is relocated. In the event the construction is not completed by the end of the 12-month period following Port Authority approval and relocation of said facility, a surcharge equal to one-half of the total monthly land fees would be charged for each month until completion. Building fees and fees for improved and unimproved land would be increased and be subject to escalation by the change in the Consumer Price Index (CPI) from December 1998 to December 1999 effective January 1, 2000, with a maximum increase of 6 percent per year and no decrease below the prior year's rate, the Port Authority having the right to have the space appraised in 2009 with fees adjusted to the greater of the appraised rate or the December 2009 rate as then adjusted by CPI. Upon termination of the use of Hangar 5 by Million-Air in contemplation of demolition or revocation of its right by the Port Authority, the building fees for Hangar 5 would be abated. There would be no building fees on the replacement hangar until the 20th anniversary of the earlier of the completion of the replacement hangar or its use by Million Air, which fees would be based on the then prevailing market rate for similar space. Under the Agreements, Million Air would be responsible for all environmental damages and requirements, both pre-existing and those caused by Million Air, including any and all remediation of hazardous conditions and removal of hazardous substances and compliance with any new environmental

standards, with Million Air indemnifying Johnson Controls and the Port Authority with respect to third-party claims. Upon the expiration of the Airport Operating Agreement with Johnson Controls, the Port Authority or a successor operator of the Airport would assume the Agreements from Johnson Controls.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into agreements granting the Port Authority's consent to an extension of Use and Occupancy Agreements TA-125 and TA-051 between Johnson Controls World Services Inc. (Johnson Controls) and General Aviation Aircraft Services, Inc. at Teterboro Airport and to assume said Agreements upon the expiration of the Airport Operating Agreement with Johnson Controls, substantially in accordance with the terms and conditions outlined to the Board; the form of the agreements, in each case, shall be subject to the approval of General Counsel or his authorized representative.

**THE WORLD TRADE CENTER – SUBGRADE SLAB REHABILITATION PROGRAM
– PHASE 1 – INCREASE IN PROJECT AUTHORIZATION AND AWARD OF
CONTRACT WTC-881.072**

The World Trade Center has over 900,000 square feet of subgrade space on four levels accessible to vehicles, including parking spaces, truck dock loading areas, and associated ramps and roadways. Due to corrosion from de-icing salts tracked in by trucks and other vehicles, as well as general wear and tear over 25 years, there is significant deterioration throughout the depth of the slabs. The top of the slab is the roadbed and the underside is the ceiling of the level below. The slab areas now require rehabilitation to repair the damage and to prevent further deterioration. The Truck Dock slab on the B-1 level, which is essential to the operation of The World Trade Center complex, is now in an advanced state of deterioration, and at the end of its useful life.

In August 1997, the Board authorized \$30.75 million for the first phase of a program to rehabilitate The World Trade Center's subgrade slabs, which included the rehabilitation of the B-1 Truck Dock slab and approximately 33,000 square feet in the B-3 parking area. Due to the high priority of this rehabilitation work, authorization for the project was sought prior to the completion of design development for most of this program. In the course of developing contracts and performing construction to date, staff and consultants have determined that projected costs to complete the program will be greater than initial estimates due to the requirement for full replacement, rather than partial depth replacement, of the B-1 Truck Dock slab. There has also been significant additional work required for necessary asbestos abatement, and utility and other relocations throughout the subgrade, prior to demolishing the B-1 slab.

A contract for the rehabilitation of approximately 33,000 square feet on the B-3 level was awarded in November 1997 and completed in March 1998. Work is currently underway to relocate approximately forty high-voltage electrical feeders serving The World Trade Center complex that are embedded in the B-1 slab, prior to any structural work being performed. Contract WTC-881.072 will complete the first phase of this rehabilitation program.

Contract WTC-881.072 includes replacement of approximately 80,000 square feet of the B-1 Truck Dock slab, and associated relocation of trash compacting equipment, police facilities, and reconstruction of certain ceiling areas. Construction work will occur during both day and evening hours to accelerate completion and to minimize disruption to daily operations. Certain truck delivery and pick-up schedules will be modified or switched to non-peak periods to accommodate the loss of several Truck Dock bays at any point throughout the construction period.

Various relocations and other preparatory work will occur from late 1999 through early 2000. Phased demolition and replacement of the B-1 Truck Dock slab is anticipated to begin by March 2000, and all work is expected to be completed by mid-2001.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that an increase in the total estimated project cost for the first phase of a program to rehabilitate The World Trade Center's subgrade slabs, by an estimated \$6 million, up to a total of \$36.75 million, including administrative, engineering, planning and financial expense, payments to vendors, consultants and contractors and allowances for net cost work, extra work (if necessary), and a project contingency (if necessary) be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to: (a) take such actions with respect to the award of purchase and construction contracts and contracts for professional and advisory services for the foregoing project as he deems in the best interest of the Port Authority, including, without limitation, award of contract WTC-881.072 – Rehabilitation of the B-1 Truck Dock at a total estimated contract price of \$14.5 million, to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable, or to reject all bids, solicit new bids on revised or the same requirements from one or more contractors; or negotiate with one or more bidders or other contractors; (b) execute contracts and supplemental agreements with such contractors as he deems in the best interest of the Port Authority and order extra work and net cost work in connection with each such contract, including supplemental agreements; and, (c) enter into such other agreements as may be necessary to effectuate the project; and it is further

RESOLVED, that the form of all contracts and agreements in connection with the foregoing shall be subject to the approval of General Counsel or his duly authorized representative.

THE WORLD TRADE CENTER - WINSTAR WIRELESS, INC. - LEASE SUPPLEMENT

It was recommended that the Board authorize the Executive Director to enter into a lease supplement with Winstar Wireless, Inc. (Winstar) to provide expanded telecommunications services to World Trade Center (WTC) tenants.

Winstar purchased the telecommunications assets of Local Area Telecommunications, Inc. (a WTC tenant) and is seeking to expand the services provided by its predecessor by offering expanded telephone and Internet services to WTC tenants. Winstar requires additional space and facilities in the WTC for its telecommunications equipment, including antennas and fiber optic cable, and the term of its lease will be extended through November 2009.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philiposian, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease supplement with Winstar Wireless, Inc., substantially in accordance with the terms and conditions outlined to the Board; and it is further

RESOLVED, that the form of the lease supplement shall be subject to the approval of General Counsel or his authorized representative.

PARTICIPATION IN THE 2000 AIRPORTS COUNCIL INTERNATIONAL – NORTH AMERICA REGIONAL CONFERENCE AND EXHIBITION

It was recommended that the Board authorize the Executive Director to: 1) expend funds estimated at \$885,000 to participate in the year 2000 Airports Council International - North America (ACI-NA) Regional Conference and Exhibition, for which expenditures are anticipated to be recovered by corporate sponsorships; with any shortfall of such recovery amount to be paid by the Port Authority in an amount not expected to exceed \$350,000, with any additional expenditures to be provided through offsets in the Budget; and, 2) enter into agreements with entities necessary for the provision of services required for the planning and effectuation of this conference.

The conference in the year 2000 will represent an opportunity to showcase the full range of Port Authority programs and facilities which foster and facilitate airport/airline development activities, international trade, transportation and commerce throughout the region. It also will provide the opportunity to highlight the Port Authority in its many roles and act as a vehicle to bolster tourism in the New York/New Jersey region.

In March 1995, the Port Authority submitted a proposal to host the annual conference of the Airports Council International in New York, and was subsequently selected as the conference destination/host for the year 2000. The Port Authority competed against several other airport authorities to host this special millennium conference. ACI-NA headquarters in Washington, DC will be responsible for the business portion of the program and meeting facilities. As host, the Port Authority will be responsible for producing marketing items, an exhibit booth, host city events, spouse/guest programs, media room (equipment and staff), hospitality events, ground transportation, volunteers, printed material, and mementos.

The Airports Council International – North America Regional Conference and Exhibition will bring together over 2,000 delegates representing 450 member airports throughout the United States and Canada. These airports enplane more than 95 percent of the domestic and virtually all the international airline passenger and cargo traffic in North America.

As the host of the 2000 conference, the Port Authority also was responsible for promoting next year's conference at the 1999 ACI conference held in Las Vegas, Nevada in October of this year.

The total cost of Port Authority efforts for the 2000 conference and promotional activity during the 1999 conference is estimated at \$885,000, which is expected to be recovered through corporate sponsorships. Such sponsorships may be solicited by Port Authority staff from entities in the aviation industry community working through a joint Port Authority- aviation industry conference committee. Any shortfall of recovery amount will be paid by the Port Authority in an amount not expected to exceed \$350,000, with any additional expenditures to be provided through offsets in the Budget. It is estimated the conference will generate approximately \$9.5 million in regional economic activity.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to expend funds estimated at \$885,000 to participate in the year 2000 Airports Council International-North America Regional Conference and Exhibition, for which expenditures are anticipated to be recovered by corporate sponsorships, with any shortfall of such recovery amount to be paid by the Port Authority in an amount not expected to exceed \$350,000, and with any additional expenditures to be provided through offsets in the Budget; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into agreements necessary for the provision of services required for the planning and effectuation of this conference; and it is further

RESOLVED, that the form of such agreements shall be subject to review and approval of General Counsel or his authorized representative.

AGREEMENT WITH THE HUDSON RIVER FOUNDATION FOR PROFESSIONAL SERVICES RELATED TO THE BISTATE DREDGING PROGRAM

In 1996, the U.S. Environmental Protection Agency (EPA) Administrator, the Governor of New York and the Governor of New Jersey signed the Comprehensive Conservation and Management Plan (CCMP) for the New York/New Jersey Harbor Estuary. The CCMP recommended the establishment of a work group consisting of representatives from the States of New York and New Jersey, the Port Authority, the EPA and the Hudson River Foundation (HRF). This voluntary work group has established a program to track toxic contamination in the New York/New Jersey Harbor Estuary and identify methods for reduction of this contamination - the Contamination Assessment and Reduction Project (CARP). This project is a collection of integrated activities designed to establish a scientifically sound basis for taking action to reduce unacceptable chemical contamination in the harbor.

The States of New York and New Jersey have agreed to fund CARP through Port Authority funding and have requested that the funds be provided by the Port Authority from its \$130 million commitment to dredging projects. Given such state funding of the project and the Port Authority's involvement in the CARP, the states have also requested that the Port Authority act on their behalf and enter into an agreement with the HRF for the administration of contracts for quality assurance/quality control and modeling in connection with CARP.

The State of New Jersey, utilizing \$9.5 million from the Port Authority Bistate Dredging Program for CARP, has hired the U.S. Geological Survey to perform sampling of tributary loads for contaminants that may influence sediment toxicity in New Jersey streams. The State of New York, utilizing \$13 million from the Port Authority Bistate Dredging Program for CARP, will perform this work with staff from New York State Department of Environmental Conservation. These two separate efforts will produce a large quantity of data and the members of the CARP work group have agreed that an independent evaluation of this data is required to assure the accuracy of the information. Further, once the data has been validated, numerical modeling will be required to predict the success of any proposed management techniques. The states agreed that due to HRF's current involvement in the CARP project and their demonstrated scientific leadership and ability to bridge jurisdictional issues between the two states, HRF should administer this quality assurance and data validation and modeling program for them.

New York has committed to provide up to \$300,000 from the \$13 million and New Jersey has requested that a total of \$3.06 million from the \$9.5 million be set aside from the Bistate Dredging Fund for this work.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an

agreement on behalf of the States of New York and New Jersey with the Hudson River Foundation to administer contracts for quality assurance/quality control and modeling in connection with the Contamination Assessment and Reduction Project, with funding, estimated at \$3.36 million, to be provided from the Port Authority's \$130 million Bistate Dredging Program commitment; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

HARBOR NAVIGATION STUDY - COMPREHENSIVE PORT IMPROVEMENT PLAN AND ENVIRONMENTAL IMPACT STATEMENT

A 45-foot channel deepening project is underway in the Kill Van Kull and Newark Bay Channels in the Port of New York and New Jersey to meet the immediate demand for improved access to Port Newark and Elizabeth-Port Authority Marine Terminal. Two additional channel improvement projects, the Port Jersey Channel (deepening to 41 feet) and Arthur Kill Channel (deepening to 45 feet), are provided for in the 1999 Water Resources Development Act. Future deepening of existing channels to 50 feet is also being recommended in the United States Army Corps of Engineers (Corps) New York and New Jersey Harbor Navigation Plan (Feasibility Study). While not necessary to justify these channel-deepening actions, further expansion of the Port will enhance the value of these channel improvements and maximize regional economic benefits.

Staff recommends that the Board authorize Port Authority participation in cost sharing agreements with various federal, state, and local entities for the preparation of a Comprehensive Port Improvement Plan (CPIP) and related Environmental Impact Statement (EIS) which will assess capacity enhancement alternatives, and their environmental impacts, to recommend an optimal development plan for benefiting the region.

On July 31, 1997, the Board authorized an analysis of comparative port development and investment options, culminating in development of *A Master Plan for Port Development & Investment for the Port of New York and New Jersey*. Concurrently, the Board authorized the Port Authority to enter into a Department of Army cost-sharing agreement to provide local sponsor funding, along with the States of New York and New Jersey, to conduct the NY-NJ Harbor Navigation Feasibility Study. The Draft Feasibility Study report is currently undergoing public review and indicates that there are sufficient benefits and acceptable environmental impacts to justify deepening existing channels to 50 feet or greater.

According to the Draft Harbor Feasibility Study, projected cargo demand for the metropolitan region in the year 2060 exceeds 19 million twenty-foot equivalent units (TEUs). However, the Corps' plan, based on the capacity of existing port facilities, may only accommodate up to 10 million TEUs. If the Port of New York and New Jersey is not expanded beyond the capacity of its existing facilities, the unsatisfied demand of approximately 9 million TEUs will likely be provided to the region by long distance truck or rail from other ports. This could result in higher costs for regional consumers and lost opportunities for regional economic growth. In order to progress and further evaluate future options for port development, it is necessary to meet state and federal regulatory requirements associated with possible port expansion and site development. The agencies involved have indicated that to obtain the necessary permits for possible port development sites a CPIP and EIS must be completed. The United States Environmental Protection Agency (USEPA) has advised that it considers proposed channel deepenings and projected port facility development projects to be inextricably linked. While it may be possible to evaluate the environmental impacts to the Harbor of channel deepening without considering the future configuration of port facilities, it would be virtually impossible for decision makers to pick which channels to deepen without knowing which port facilities would be expanded to accommodate the deeper draft vessels.

Port development and channel deepening activities rely on each other and, therefore, port facility development must be analyzed in the Harbor Navigation EIS, according to the USEPA.

The CPIP is being formulated as a comprehensive development framework that will view the port as a totally integrated system inclusive of terminal operations, intermodal services, and landside logistical operations. It will also recommend specific water and landside infrastructure improvements believed to be necessary by Port project sponsors to meet the region's unsatisfied capacity demand of 9 million TEUs in 2060.

The EIS will address the environmental issues associated with any recommended port development consistent with the goals of the President's Council on Sustainable Development. These goals are to promote sufficient growth to assure economic prosperity while conserving natural resources and ensuring the benefits of clean air, water, and a healthy environment. Particular attention will be paid to such issues as impact mitigation, harbor restoration, sediment contaminant reduction, public access, proposed fills, and landside traffic congestion.

It is anticipated that the cost-sharing partners will jointly administer the CPIP and that the Corps will be the federal lead agency responsible for preparation of the CPIP EIS.

It is estimated that the CPIP and related EIS will cost \$5 million and \$10 million, respectively. The lead agencies will enter into a separate cost-sharing agreement or agreements after signing an initial Memorandum of Understanding (MOU). It is anticipated that there will also be a regulatory MOU related to the procedures associated with preparation of the EIS. The scope of work and specific details of a cost-sharing agreement or agreements have yet to be defined. The Port Authority's share of the cost will be negotiated but will not exceed \$5 million without additional Board authorization.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into agreements with entities including but not limited to the State of New Jersey, Empire State Development Corporation, New York City Economic Development Corporation and the United States Army Corps of Engineers to arrange for the preparation of a Comprehensive Port Improvement Plan for the Port of New York and New Jersey, presently estimated to cost \$5 million, and of a related Environmental Impact Statement, presently estimated to cost \$10 million, with the Port Authority's share of the costs to be negotiated but not to exceed \$5 million without additional Board authorization; and it is further

RESOLVED, that all documents necessary to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

RED HOOK ANCHORAGE STUDY, NEW YORK HARBOR – COST-SHARING AGREEMENT WITH THE DEPARTMENT OF THE ARMY

The States of New York and New Jersey have requested that the Port Authority serve as the non-federal sponsor and enter into a cost-sharing agreement with the Department of the Army, Corps of Engineers (Corps) for the performance of a feasibility study of the Red Hook Anchorage. They have further requested that the non-federal sponsor's cost contribution be provided from the \$130 million Bistate Dredging Fund authorized by the Board at its meeting of May 9, 1996, with fifty percent of the total contribution being credited to each state.

The purpose of the feasibility study is to identify detailed optimal development alternatives, including possible deepening up to 60-foot depths and selected widening, in the Red Hook Anchorage. Study results will form the basis of a Corps recommendation to Congress for construction project authorization, if appropriate.

Deeper depths and other infrastructure improvements within the Red Hook Anchorage would enable larger, deep-draft vessels to navigate safely within the area and would improve the ability of vessels to off-load cargo to other vessels within the anchorage rather than off-shore where the risk of spills is greater. A vessel whose cargo load has been lightened rides higher in the water than it does when fully loaded and it requires lesser berth and harbor channel depths.

If the feasibility study is not conducted, then the federal government cannot fund future improvements to the Red Hook Anchorage.

As the non-federal sponsor, the Port Authority would be responsible for fifty percent of project costs, a share which is currently estimated at \$755,552. In the event the project exceeds this amount, the Port Authority would be obligated to pay fifty percent of the increased cost. This obligation is subject to the Port Authority's right to terminate on thirty days' notice. The Port Authority would also be responsible for the full cost of any betterments which it requested (i.e., changes in study methodology requested by the Port Authority which are beyond federal norms). The Port Authority, however, would discuss any betterments with the states before requesting that they be incorporated into the study.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a cost-sharing agreement with the Department of the Army, Corps of Engineers for the performance of a feasibility study of the Red Hook Anchorage, with the non-federal sponsor's share of cost (currently estimated at \$755,552) to be drawn from the \$130 million Bistate Dredging Fund authorized by the Board at its meeting of May 9, 1996, with fifty percent of the draw being credited to each State; and it is further

RESOLVED, that the form of the contracts and agreements necessary to effectuate the foregoing shall be subject to the approval of the General Counsel or his authorized representative.

**BROOKLYN-PORT AUTHORITY MARINE TERMINAL - PIERS 1 TO 5 -
MEMORANDUM OF UNDERSTANDING WITH THE DOWNTOWN
BROOKLYN WATERFRONT LOCAL DEVELOPMENT CORPORATION**

It was recommended that the Board authorize the Executive Director to enter into a Memorandum of Understanding and all other necessary agreements with the Downtown Brooklyn Waterfront Local Development Corporation (DBWLDC) to investigate other uses for Piers 1 through 5 at the Brooklyn-Port Authority Marine Terminal and to adopt a policy committing the Port Authority to refrain from selling these piers to a private entity for a period of one year.

This action will allow the Port Authority to investigate other uses for the piers, which the Board declared "surplus" (no longer necessary for the purpose for which acquired) in 1994, by utilizing DBWLDC to assemble a master plan for a mixed-use and park development at the site, and to develop a plan for transferring the piers to a public entity.

DBWLDC is a not-for-profit local development corporation, created by the Brooklyn Borough President's Office for the purpose of redeveloping the downtown Brooklyn Waterfront areas, including developing a Brooklyn Bridge park, based on the guiding principles established by the community and local elected officials.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a Memorandum of Understanding and all other necessary agreements with the Downtown Brooklyn Waterfront Local Development Corporation committing the Port Authority to refrain from selling Piers 1 through 5 at the Brooklyn-Port Authority Marine Terminal to a private entity for a period of one year and providing for the investigation of other uses for these piers; and it is further

RESOLVED, that the form of all contracts and agreements, in each case, in connection with the foregoing shall be subject to the approval of General Counsel or his authorized representative.

PORT AUTHORITY BUS TERMINAL - DUANE READE - LEASE AMENDMENT

It was recommended that the Board authorize the Executive Director to amend the Port Authority's existing agreements (the Existing Supplements) with the partnership known as Duane Reade, and the partners thereof (Duane Reade), covering the relocation of the retail drug store being operated by Duane Reade in the North Wing of the Port Authority Bus Terminal (the existing space) to space in the South Wing of the Port Authority Bus Terminal (the substitute space) and extending the term of the letting under the Lease.

Under the Existing Supplements, the term of the letting under the Lease was to have been extended for a period expiring on the tenth anniversary of the date payment of rental for the substitute space was to have commenced, with Duane Reade to have the right to further extend the term of the letting of the substitute space for an additional five-year period. Payment of the rentals for the substitute space was to have commenced 240 days from the commencement date of the letting of the substitute space. The letting of the substitute space was to have commenced on or about November 1, 1998. Duane Reade would have surrendered the existing space approximately 270 days following the commencement date of the letting of the substitute space, and the Port Authority had the right to extend the effective date of the surrender to a date no later than December 31, 2000. If Duane Reade continued to occupy the existing space for more than 30 days after the commencement date of the letting of the substitute space, Duane Reade was obligated to pay an increased basic rental for the existing space until the date such space was surrendered.

As a result of delays associated with the construction project at the Port Authority Bus Terminal's 40th Street entrance, it is necessary to modify the Existing Supplements to postpone the commencement date of the letting of the substitute space. To minimize the effect of this delay, a tentative agreement has been reached with Duane Reade to commence the letting of the substitute space in two stages. In accordance with the proposed amendment of the Existing Supplements, a portion of the substitute space will be delivered to Duane Reade on or about November 1, 1999, and the balance of the space will be delivered on or about June 1, 2000. The extended term of the letting will expire ten years, eight months from the date that the entire substitute space has been delivered to Duane Reade. The rental rates and charges for all utilities and services remain as set forth in the Existing Supplements; however, prior to the delivery of the entire substitute space to Duane Reade, the rent and other charges for the portions of the substitute space actually occupied by Duane Reade will be prorated. Rental for each portion of the substitute space delivered to Duane Reade will commence 240 days after delivery thereof to Duane Reade. Duane Reade will continue to occupy and pay rent on the existing space through January 31, 2000, and the Port Authority will have the right to extend the effective date of the surrender of the existing space to a date no later than June 30, 2001. If the effective date of the surrender of the existing space occurs subsequent to the delivery of the entire substitute space to Duane Reade, the rental for the existing space will be increased. Finally, Duane Reade has agreed to act as the Port Authority's contractor for the purpose of performing certain construction work in certain common areas and in space occupied by Adirondack Trailways adjacent to the substitute space.

Duane Reade will be reimbursed in an amount not to exceed \$100,000 for its costs incurred in performing this work

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with the partnership known as Duane Reade, and the partners thereof, in connection with the relocation of its premises at the Port Authority Bus Terminal, substantially in accordance with the terms and conditions outlined to the Board; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

THE TELEPORT - TELEPORT COMMUNICATIONS GROUP, INC. - LEASE AGREEMENT

It was recommended that the Board authorize the Executive Director to enter into a lease agreement (the Lease) with Teleport Communications Group, Inc. (TCG) covering the letting of approximately 22,470 rentable square feet of office space, consisting of the entire second floor of the Telecenter Building at The Teleport.

TCG is a wholly owned subsidiary of AT&T and indirectly owns Teleport Communications, the partnership which operates communications facilities at The Teleport and which currently occupies the first floor of the Telecenter Building. Teleport Communications and TCG currently employ approximately 2,100 at the Teleport.

The Lease would be for a term commencing on or about November 1, 1999 and would expire on or about January 31, 2010, with TCG having the right to extend the term of the letting for two additional five-year periods. TCG will pay a graduated basic rental for the premises during the initial term of the letting aggregating approximately \$6.5 million. In the event that TCG exercises its right to extend the term of the letting, TCG will pay a rental during each extension term equivalent to 95 percent of the fair rental value of the premises, as defined in the Lease, for that extension term. Payment of rent under the Lease will commence on or about February 1, 2000. TCG will pay its proportionate share of the actual increases of common Teleport operation and maintenance expenses over common Teleport operation and maintenance expenses for the calendar year 2000. The Port Authority will provide TCG with a construction allowance, and will also grant TCG subletting rights as specified in the Lease. The final terms of the Lease will be subject to the approval of the Committee on Operations in the event that the gross effective rent and/or the term of the letting are not substantially in accordance with the terms outlined to the Board.

The Port Authority will pay a brokerage commission to Cushman & Wakefield, Inc., the broker involved in the transaction.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to: (1) enter into an agreement with Teleport Communications Group, Inc. for the letting of approximately 22,470 rentable square feet of office space at The Teleport, substantially in accordance with the terms and conditions outlined to the Board, and (2) enter into a brokerage agreement with Cushman & Wakefield, Inc. in connection with such letting; the form of the agreement in each instance shall be subject to the approval of General Counsel or his authorized representative; and it is further

RESOLVED, that the Committee on Operations is hereby authorized to approve the final terms of the foregoing lease agreement with Teleport Communications Group, Inc. in the event that the gross effective rent and/or the term of the letting are not substantially in accordance with the terms and conditions outlined to the Board.

THE TELEPORT – TELEPORT COMMUNICATIONS/AT&T – SUPPLEMENT TO LEASE AGREEMENT

It was recommended that the Board authorize the Executive Director to amend the Port Authority's existing lease agreement (the Lease) with Teleport Communications (TC) covering the installation and operation of satellite communication earth stations at the Teleport.

At its meeting on May 12, 1983, the Board authorized the Executive Director to enter into a lease agreement with TC to operate communications facilities at the Teleport. The Lease provides that TC will pay an annual site rental for each earth station located at the site, plus certain additional rentals, including, among others, a percentage rental equal to five percent of TC's Gross Revenue. As defined in the Lease, Gross Revenue is limited to revenues generated from the use of fiber-optic cables owned or operated by TC and which are located within the Port of New York District (Port District). Over the years, TC evolved from being primarily an operator of satellite communication earth stations to being primarily a telecommunications long distance carrier. As a result, a dispute has arisen between the Port Authority and TC concerning the type of revenues to be included in "Gross Revenue" under the Lease for the purpose of calculating the percentage rental payable thereunder. The dispute centers around revenue generated from the use by TC's long distance customers of fiber-optic cables owned or operated by TC which are situated both within and outside of the Port District and which connect telecommunications circuits located both within and outside of the Port District.

To settle this long-standing dispute, a tentative agreement has been reached with TC, pursuant to which the Port Authority will continue to receive five percent of revenues generated from the use of fiber-optic cables owned or operated by TC which are situated wholly within the Port District if such cables connect telecommunications circuits located wholly within the Port District. Revenues generated from the use of fiber-optic cables owned or operated by TC which are located either completely or partially within the Port District and which connect to telecommunications circuits located entirely outside of the Port District will not be includable in Gross Revenue under the Lease for the purpose of calculating the percentage rental payable thereunder. Where fiber-optic cables owned or operated by TC connect one telecommunications circuit located within the Port District to another telecommunications circuit located outside of the Port District, only 51 percent of the revenue generated from the use of such fiber-optic cables will be included in Gross Revenue under the Lease. The Port Authority will continue to receive five percent of those revenues which are includable in Gross Revenue under the Lease. The Port Authority will refund \$1.8 million to TC, representing the excess percentage rental paid by TC since January 1, 1992 on account of revenues generated from fiber-optic cables owned or operated by TC connecting one telecommunications circuit located within the Port District to another telecommunications circuit located outside of the Port District.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Teleport Communications (TC) amending the Port Authority's existing lease agreement with TC at the Teleport to revise the method of determining Gross Revenue, as defined in the lease, substantially in accordance with the terms and conditions outlined to the Board; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

SETTLEMENT OF CLAIM - THE WORLD TRADE CENTER - CONTRACT WTC 347.00A - LOCAL PASSENGER ELEVATOR REHABILITATION - ONE, TWO, FOUR AND FIVE WORLD TRADE CENTER

On May 14, 1992, the Executive Director authorized the Director of the World Trade Department to award Contract WTC 347.00A to National Cab and Door Corporation (National) at its bid price of \$2,793,875 and authorized the ordering of extra work up to \$279,388. The contract required National to replace existing elevator interior finishes with more durable and attractive materials. On February 15, 1994 and March 24, 1995 the Director of the World Trade Department authorized an increase in extra work of \$97,112 and a Supplemental Agreement in the amount of \$46,000, respectively, to provide enhanced life safety systems, minimize disruptions to tenants, and finish revisions and construction of additional cab prototypes.

On July 29, 1997, the Executive Director authorized an increase in extra work authorization from \$376,500 to \$652,000, to compensate for additional costs associated with the resumption of work after a four-year, Port Authority-imposed, stop-work order, including amounts for wage escalation, remobilization, replacement costs for obsolete and damaged inventory and extension of warranties. The resulting agreement between the Port Authority and National expressly excluded the impact costs of the stop-work order, which are the subject of this claim settlement.

National has submitted a claim against the Port Authority in the amount of \$2,305,015 for damages alleged to have been incurred by the contractor primarily because of said four year stop-work order, including a one-and-one-half year standby period ordered by the Port Authority, which National alleged served to diminish the company's demonstrated output efficiency and production capacity.

Thorough staff review of the claim followed and various discussions, reviews and negotiations ensued with National. In July 1999, it was tentatively agreed that, subject to approval of the Board, National would be paid the sum of \$966,000 in settlement of the claim, primarily representing loss to the company as a result of hampering its demonstrated factory efficiency/output. Financial losses peaked during the one-and-one-half year period when a considerable portion of the company's resources were on standby at the request of the Port Authority pending Port Authority approval to resume work. The stop-work order was based upon initial tenant dissatisfaction with the new cab interior finishes. National and staff developed a series of different prototypes during the stop-work period.

Total payments to National for all contract work and extra work (excluding the proposed claim settlement of \$966,000) is forecast to be approximately \$3,483,313.

Although the Law Department has advised that there are legal defenses to this claim, the settlement nevertheless appears equitable under the circumstances. National will sign a release of all claims under the Contract prior to receiving the \$966,000 payment.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to make a payment of \$966,000 to National Cab and Door Corporation (National) in full settlement of all claims National has against the Port Authority in connection with Contract WTC 347.00A; the form of the General Release of all claims to be executed by National prior to payment shall be subject to the approval of General Counsel or his authorized representative.

SETTLEMENT OF CLAIM - LAGUARDIA AIRPORT - CONTRACT LGA-570 - PILE SUPPORTED STRUCTURES - POST-TENSIONED CONCRETE GIRDER REHABILITATION - BEAVER CONCRETE CONSTRUCTION CO., INC.

On September 19, 1995, the Executive Director authorized the Chief Engineer to award Contract LGA-570 to Beaver Concrete Construction Co., Inc. (Beaver), at its bid price in the estimated total amount of \$5,885,000 and authorized the ordering of extra work up to \$470,000. The contract required Beaver to rehabilitate 74 post-tensioned concrete girders and 99 pile caps of the runway and taxiway pile-supported structures at various locations under Runways 13-31 and 4-22, all at LaGuardia Airport. During the performance of the contract, the Chief Engineer authorized the award of a Supplemental Agreement for a priority structural integrity repair to a portion of the concrete deck extension at Taxiway "U" at an estimated amount of \$140,000. Actual expenditures under Supplemental Agreement No. 1 totaled \$129,000. Additionally, the Director of Aviation authorized an increase in extra work authorization from \$470,000 to \$591,000, an increase of \$121,000.

Beaver has submitted a claim against the Port Authority in connection with Contract LGA-570 in the amount of \$960,641 for damages alleged to have been incurred by Beaver primarily due to delays caused by modifications to the girder repair system.

Thorough staff review of the claim followed, and various discussions, reviews and negotiations ensued with Beaver. Subsequently, it was tentatively agreed that Beaver would be paid the sum of \$425,000 in settlement of the claim, primarily representing the unusual difficulty in constructing the girder repair system as specified, subject to approval of the Board. Total payments to Beaver for all contract work and extra work (excluding the proposed claim settlement of \$425,000) are forecast to be approximately \$6,609,000.

Although the Law Department has advised that there are legal defenses to this claim, the settlement nevertheless appears equitable under the circumstances. Beaver will sign a release of all claims under Contract LGA-570 prior to receiving the \$425,000 payment.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philiposian, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to make a payment of \$425,000 to Beaver Concrete Construction Co., Inc. (Beaver) in full settlement of all claims Beaver has against the Port Authority in connection with Contract LGA-570, conditional upon the execution by Beaver of a release of all claims under this contract against the Port Authority; the form of the release shall be subject to the approval of General Counsel or his authorized representative.

SETTLEMENT OF CLAIM – FEDERAL INSURANCE COMPANY AS SUBROGEE OF BANGKOK METROPOLITAN BANK et al. v. THE PORT AUTHORITY OF NEW YORK AND NEW JERSEY – WORLD TRADE CENTER BOMBING LITIGATION

It was recommended that the Board authorize General Counsel to settle the pending action entitled Federal Insurance Company as subrogee of Bangkok Metropolitan Bank et al. v. The Port Authority of New York and New Jersey, by paying to plaintiff and its attorney the sum of \$550,000. In exchange, the Port Authority will receive a General Release and Stipulation of Discontinuance of the action, with prejudice. The settlement is inclusive of any interest, costs, disbursements and attorneys' fees.

Plaintiff Federal Insurance Company paid out certain monies to and on behalf of policy holders who were tenants at The World Trade Center (WTC) resulting from alleged property damage and business interruption arising out of the terrorist bombing at the WTC on February 26, 1993. This lawsuit covered payments made to forty-seven (47) claimants and the suit sought damages in an indeterminate amount in excess of \$5,874,000. (A later review placed the figure at \$7,350,804.35.) Although the Port Authority maintains it has no liability for the terrorist attack, it has attempted to negotiate settlements in response to requests by the presiding judge. This settlement has been negotiated with the input and concurrence of the representatives of the Port Authority's first layer of excess insurance.

Since the Port Authority has exhausted its \$4,000,000 self-insured retention with regard to the bombing, the entire settlement amount herein will be reimbursed to the Port Authority by its excess carriers.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to settle the pending civil action entitled Federal Insurance Company as subrogee of Bangkok Metropolitan Bank, et al. v. The Port Authority of New York and New Jersey, by paying \$550,000 to plaintiff and its attorney. In exchange, the Port Authority will receive a General Release and Stipulation of Discontinuance, with prejudice. The settlement is inclusive of any interest, costs, disbursements an attorneys' fees.

SETTLEMENT OF CLAIM - AIR SOUTH AIRLINES, INC.

It was recommended that General Counsel be authorized to settle claims in the U.S. Bankruptcy Court for the District of South Carolina brought by the trustee for Air South Airlines, Inc. (Air South) in the amount of \$250,000. The settlement of this action will avoid both the cost of litigation as well as the risk of a potentially higher award. In May 1997, the Port Authority contacted Air South regarding arrears in flight fees, rentals, and passenger facility charges at John F. Kennedy and Newark International Airports due the Port Authority in an amount in excess of \$400,000. On August 28, 1997, Air South filed a bankruptcy petition in the U.S. Bankruptcy Court for the District of South Carolina. In November 1998, the Port Authority was contacted by an attorney for the Air South bankruptcy trustee. The trustee alleged that pursuant to Section 547 of the Bankruptcy Code, \$590,640.96 in arrears payments made during the preference period were not in the ordinary course of business. Under the Bankruptcy Code, during the ninety-day period prior to a bankruptcy filing, the estate can require a creditor to return payments received on debts that were not made in the ordinary course of business. Discussions ensued between the Trustee and the Port Authority and an agreement was reached, subject to necessary approvals, for the Port Authority to pay \$250,000 to settle all preference claims. The Port Authority will be released from all "preference claims" in the Air South bankruptcy by payment of this settlement of \$250,000.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to settle the pending action, entitled Ryan W. Hovis, as Trustee for Air South Airlines, Inc. v. the Port Authority of New York and New Jersey, by payment of \$250,000 to the bankruptcy trustee for Air South Airlines, Inc., for which The Port Authority of New York and New Jersey will receive a General Release from the Trustee.

SETTLEMENT OF CLAIM - KIWI INTERNATIONAL HOLDINGS, INC.

It was recommended that General Counsel be authorized to settle claims in the United States Bankruptcy Court for the District of New Jersey brought by the Trustee for Kiwi International Holdings, Inc. (KIH), in a total amount of \$220,000 of the \$480,000 sought. The settlement of this action will avoid both the cost of litigation as well as the risk of a potentially higher award. In March 1999, KIH filed a bankruptcy petition, and the Port Authority was subsequently advised in May by the bankruptcy trustee that the Port Authority owed KIH's estate \$480,000 in "preference payments" which the Port Authority received from KIH during the period December 1998 to March 1999. Under the Bankruptcy Code, during the ninety-day period prior to a bankruptcy filing, the estate can require a creditor to return payments received on debts that were not made in the ordinary course of business. In November 1998, the Port Authority had advised KIH that they were in arrears in the amount of \$687,000 for flight fees, rentals and passenger facility charges. In December 1998, KIH made a payment of \$250,000 toward the arrears and a repayment schedule was agreed to. KIH made payments to the Port Authority in an amount of \$1.3 million from December 1998 to March 1999. The trustee has alleged that arrears payments made during this period pursuant to the December 1998 agreement were not in the ordinary course of business.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to settle preference claims in the United States Bankruptcy Court for the District of New Jersey brought by the Trustee for Kiwi International Holdings, Inc. (KIH), by payment of \$220,000 to the Trustee for KIH.

**SETTLEMENT OF CLAIM – WINSTON BARZEY AND YVONNE BARZEY v. THE
PORT AUTHORITY OF NEW YORK AND NEW JERSEY**

It was recommended that General Counsel be authorized to enter into a settlement with Winston Barzey and Yvonne Barzey, his wife, and their attorney, in the amount of \$700,000, inclusive of attorneys' fees, interest, costs and disbursements, in exchange for a General Release and satisfaction of judgment in favor of the Port Authority.

The settlement will fully resolve plaintiffs' claim for damages arising from an incident on June 22, 1995 at John F. Kennedy International Airport in which plaintiff, Winston Barzey (Barzey), claims he was injured. At the time, Barzey was driving an American Airlines tug on a service road, where signs were posted which directed him into oncoming traffic. Barzey was thrown from his vehicle when it jackknifed as he swerved to avoid an oncoming vehicle. At trial, a jury determined that the jackknife was due, primarily, to the failure of Port Authority staff to use flagmen at the work site on the roadway at the Airport. Barzey sustained a compound fractured leg, requiring four surgeries and the possibility of a future joint replacement.

The matter was tried before a judge and jury, resulting in the entry of a judgment against the Port Authority in the amount of \$913,462.77 as of July 12, 1999. Post-judgment interest is accruing. Various issues have been raised on appeal, and the recommended settlement was arrived at with the assistance of the Appellate Division judge. If this matter were not settled and the judgment was affirmed on appeal, the Port Authority would be liable to plaintiffs to satisfy the \$913,462.77 damages award and would be liable for additional interest from July 12, 1999, plus the costs of the appeal.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that General Counsel be and hereby is authorized, for and on behalf of the Port Authority, to settle the pending action entitled Winston Barzey and Yvonne Barzey v. The Port Authority of New York and New Jersey for the total amount of \$700,000.00 inclusive of attorneys' fees, interest, costs and disbursements by payment of said amount to plaintiffs and their attorney in exchange for a General Release and Satisfaction of Judgment in full settlement of the claim in favor of the Port Authority.

SETTLEMENT OF CLAIM - ANTONETTE SEGEL v. THE PORT AUTHORITY OF NEW YORK AND NEW JERSEY

It was recommended that the Board authorize General Counsel to settle the pending action entitled Antonette Segel v. The Port Authority of New York and New Jersey by paying to plaintiff and her attorneys the sum of \$125,000 in exchange for a General Release from liability and a Stipulation of Discontinuance of the action, with prejudice.

Mrs. Segel sustained serious injuries at John F. Kennedy International Airport on November 8, 1995, when she tripped and fell over a water access valve cover that was upended in a crosswalk in Parking Lot No. 4. Plaintiff suffered tears to her rotator cuff and medial and lateral meniscus and underwent orthoscopic surgery on her knee. Plaintiff claimed that the accident was caused by the Port Authority's failure to maintain the water access valve cover.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to settle the pending civil action entitled Antonette Segel v. The Port Authority of New York and New Jersey, by paying \$125,000 to plaintiff and her attorneys in return for a General Release and Stipulation of Discontinuance with prejudice.

**SETTLEMENT OF CLAIM - JOHN TRIANDAFILLOU v. THE PORT AUTHORITY OF
NEW YORK AND NEW JERSEY AND NEAL M. HALPERN**

It was recommended that the Board authorize General Counsel to settle the pending action entitled, John Triandafillou v. The Port Authority of New York and New Jersey and Neal M. Halpern, by paying to plaintiff and his attorney the sum of \$200,000 in exchange for the Port Authority's receipt of a General Release from liability and a Stipulation Discontinuance of the action, with prejudice.

Mr. Triandafillou sustained serious injuries in front of the Delta Airlines Terminal at John F. Kennedy International Airport on February 26, 1993 when his auto was rear-ended by a Port Authority Police vehicle. Mr. Triandafillou suffered a skull fracture, detached retina, torn knee menisci, cervical herniated disk, right shoulder derangement and Temporo-Mandibular Joint Syndrome. He was disabled from work for six months as a self-employed machinist and has since hired an assistant machinist to do the heavy lifting that he is disabled from doing.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to settle the pending civil action entitled John Triandafillou v. The Port Authority of New York and New Jersey and Neal M. Halpern by paying \$200,000 to plaintiff and his attorney in return for the Port Authority's receipt of a General Release from liability and a Stipulation of Discontinuance of the action, with prejudice.

SETTLEMENT OF CLAIM – BETTY YU LI AND KWANG FU LI v. THE PORT AUTHORITY OF NEW YORK AND NEW JERSEY AND PORT AUTHORITY TRANS-HUDSON CORPORATION

It was recommended that the Board authorize General Counsel to settle the action entitled, Betty Yu Li and Kwang Fu Li v. The Port Authority of New York and New Jersey and Port Authority Trans-Hudson Corporation, by paying to plaintiffs and their attorneys the amount of \$125,000, inclusive of attorneys fees, interest, costs and disbursements, in exchange for a General Release and satisfaction of judgment in favor of The Port Authority of New York and New Jersey (Port Authority) and Port Authority Trans-Hudson Corporation (PATH).

The settlement will fully resolve plaintiffs' claims for damages arising from an incident in which plaintiff Betty Yu Li was severely injured when she fell onto the train tracks at The World Trade Center PATH station and was struck by a train. As a result of the incident, her right leg was amputated above the knee and she is now unable to ambulate without the use of an orthopedic device. In the trial court, she stated that while she remembered walking into the PATH station and taking the escalator down to the track, she had no memory of the incident. Mrs. Li produced an expert who opined that the safety tiles along the edge of the platform were installed in such a manner as to cause someone to stop abruptly and fall, as did Mrs. Li.

The Port Authority and PATH moved for summary judgment in their favor on the ground that there was insufficient evidence of negligence on the part of the Port Authority and PATH. The trial court agreed and granted summary judgment in favor of the Port Authority and PATH.

The plaintiffs filed an appeal and the matter was scheduled for a settlement conference before a special master in the appellate court. There is a very distinct possibility that the appellate court will reverse the entry of judgment in the Port Authority's favor and order a trial to be held in this case. Due to the severe nature of Mrs. Li's injuries, if a jury trial were ordered in this case, the Port Authority's damage exposure would greatly exceed the settlement amount of \$125,000.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of The Port Authority of New York and New Jersey (Port Authority) and Port Authority Trans-Hudson Corporation (PATH), to settle the pending action entitled Betty Yu Li and Kwang Fu Li v. The Port Authority of New York and New Jersey and Port Authority Trans-Hudson Corporation for the total amount of \$125,000, inclusive of attorneys fees, interest, costs and disbursements, by payment of said amount to plaintiffs and their attorney in exchange for a General Release and satisfaction of judgment, in full settlement of the claim, in favor of the Port Authority and PATH.

SETTLEMENT OF CLAIM – SHIRLEY BERNARD v. THE PORT AUTHORITY OF NEW YORK AND NEW JERSEY

It was recommended that the Board authorize General Counsel to settle the pending action entitled, Shirley Bernard v. Port Authority of New York and New Jersey, by paying to the plaintiff and her attorney the sum of \$135,000 in exchange for the Port Authority's receipt of a General Release and Stipulation of Dismissal of this action, with prejudice.

Plaintiff, Shirley Bernard, sustained serious injury while walking to work in The World Trade Center (WTC) on May 8, 1998, when she tripped and fell due to a raised metal stud on the floor of the concourse level of the WTC. Mrs. Bernard was taken to the hospital immediately after the accident, at which time it was determined that she suffered a fractured hip, requiring surgery with insertion of hardware. Due to this injury, Mrs. Bernard's physician has stated that plaintiff will never be able to return to work. As of September 30, 1999, plaintiff has sustained wage losses of approximately \$15,000.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to settle the pending civil action entitled, Shirley Bernard v. Port Authority of New York and New Jersey, by paying \$135,000 to plaintiff and her attorney. In exchange, the Port Authority will receive a General Release and Stipulation of Dismissal of the action, with prejudice.

RESCISSION AND CANCELLATION OF RESOLUTIONS AUTHORIZING CONSOLIDATED BONDS, ONE HUNDRED TWENTIETH SERIES THROUGH CONSOLIDATED BONDS, ONE HUNDRED TWENTY-SECOND SERIES AND CONSOLIDATED NOTES, SERIES TT, SERIES UU, SERIES VV, SERIES WW AND SERIES XX

The Board at its meeting on December 12, 1996, among other matters, established and authorized the issuance of, and authorized the sale of, Consolidated Bonds, One Hundred Twentieth Series through Consolidated Bonds, One Hundred Twenty-second Series and Consolidated Notes, Series TT, Series UU, Series VV, Series WW and Series XX. In place of these series, action with respect to the Authority's continuing plan of financing, consisting in part of Consolidated Bonds and Consolidated Notes is to be considered today by the Board in connection with the anticipated requirements associated with the Authority's capital program projections.

Therefore, it is recommended that prior to the actions to be taken at today's meeting in connection with the Authority's plan of financing, that the Board rescind and cancel certain resolutions solely with respect to the establishment and authorization of the issuance of, and the authorization of the sale of, Consolidated Bonds, One Hundred Twentieth Series through Consolidated Bonds, One Hundred Twenty-second Series and Consolidated Notes, Series TT, Series UU, Series VV, Series WW and Series XX, since these previously authorized series have not as yet been issued.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that the resolutions of the Authority adopted December 12, 1996, entitled "*Consolidated Bonds, One Hundred Eighth Series through Consolidated Bonds, One Hundred Twenty-second Series—Establishment and Issuance*" and "*Consolidated Bonds, One Hundred Eighth Series through Consolidated Bonds, One Hundred Twenty-second Series—Sale*" (appearing, respectively, at pages 655 *et seq.* and pages 666-667 of the Official Minutes of that date), solely with respect to Consolidated Bonds, One Hundred Twentieth Series through Consolidated Bonds, One Hundred Twenty-second Series, are rescinded and cancelled in their entirety; and it is further

RESOLVED, that the resolutions of the Authority adopted December 12, 1996, entitled "*Consolidated Notes, Series TT, Series UU, Series VV, Series WW and Series XX—Establishment and Issuance*" and "*Consolidated Notes, Series TT, Series UU, Series VV, Series WW and Series XX—Sale*" (appearing, respectively, at pages 668 *et seq.* and pages 675-676 of the Official Minutes of that date), are rescinded and cancelled in their entirety.

PORT AUTHORITY PLAN OF FINANCING—REPORT

A flexible plan of financing permits the Authority to access the financial markets at favorable costs through the expeditious issuance of short-term, intermediate-term and long-term debt for authorized purposes.

Recommended actions with respect to this plan of financing would include the authorization of fifteen series of Consolidated Bonds and five series of Consolidated Notes, an increase in the principal amount of Equipment Notes which may be outstanding at any one time from \$100 million to \$250 million and provision of certain technical clarifications to the resolutions with respect to Versatile Structure Obligations, Variable Rate Master Notes, Equipment Notes and Commercial Paper Obligations.

Public Hearings

On October 27, 1999, public hearings in connection with this plan of financing, consistent with, and to the extent provided under, the public approval provisions of Section 147(f) of the Internal Revenue Code of 1986, were conducted by staff of the Authority's Treasury Department at the offices of the Authority located at One World Trade Center and at the Journal Square Transportation Center, pursuant to notices published on October 12, 1999, in *The New York Times*, a newspaper of general circulation in the New York portion of the Port District, and in *The Star-Ledger*, a newspaper of general circulation in the New Jersey portion of the Port District.

In pertinent part, the notices contained the following description of the Authority's proposed plan of financing: "Consolidated Bonds to be denominated as the One Hundred Twentieth Series through the One Hundred Thirty-fourth Series, inclusive; Consolidated Notes to be denominated as Series TT, Series UU, Series VV, Series WW and Series XX; Versatile Structure Obligations issued under a modified Port Authority Versatile Structure Obligations Resolution; Variable Rate Master Notes issued under a modified Port Authority Variable Rate Master Notes Resolution; Commercial Paper Obligations issued under a modified Port Authority Commercial Paper Program; and Equipment Notes issued under a modified Port Authority Equipment Notes Resolution, all to be issued and sold in connection with this plan of financing for authorized purposes, including in connection with certain of the facilities of the Port Authority located in the Port of New York District, to wit: the Holland Tunnel; Lincoln Tunnel; George Washington Bridge; Bayonne Bridge; Goethals Bridge; Outerbridge Crossing; Port Authority Bus Terminal; Hudson Tubes portion of the Port Authority Trans-Hudson System; Trans-Hudson Ferry Service, a facility for the provision of trans-Hudson ferry transportation services between terminal facilities in the vicinity of New Jersey Transit Corporation's rail and bus terminals in Hoboken, N.J., and in the vicinity of Battery Park City in lower Manhattan, N.Y.; LaGuardia Airport; John F. Kennedy International Airport; Newark International Airport; Teterboro Airport; Port Authority-Downtown Manhattan Heliport; Port Newark; Brooklyn-Port Authority Marine Terminal; Elizabeth-Port Authority Marine Terminal; Greenville Yard-Port Authority Marine Terminal; Howland Hook Marine Terminal; Port Authority Auto Marine Terminal, an imported automobile marine terminal facility located in Bayonne and Jersey City,

N.J.; Hoboken South Waterfront Development Facility located in Hoboken, N.J.; Queens West Waterfront Development Facility located in Hunters Point, Queens, N.Y.; Oak Point Rail Freight Link, a rail freight improvement project in The Bronx, N.Y.; World Trade Center, a facility of commerce in Manhattan, N.Y.; Newark Legal and Communications Center, a legal and communications center in Newark, N.J.; Teleport, a satellite communications center at the Staten Island Industrial Park, Staten Island, N.Y.; Bathgate Industrial Park, an industrial park in The Bronx, N.Y.; Port Authority Industrial Park at Elizabeth, an industrial park in Elizabeth, N.J.; Newark South Ward Industrial Park, an industrial park in Newark, N.J.; Essex County Resource Recovery Facility, a mass-burn resource recovery facility in Newark, N.J.; Pre-development Site Acquisition Program, a facility for the acquisition of real property in the New Jersey and New York portions of the Port of New York District; Regional Development Facility, a facility for certain of the economic development and infrastructure renewal projects to be undertaken at the request of the States of New Jersey and New York in the New Jersey and New York portions of the Port of New York District; New Jersey Marine Development Program, a facility for certain fishery, marine or port development projects to be undertaken at the request of the State of New Jersey in the New Jersey portion of the Port of New York District; and Regional Economic Development Program, a facility for certain of the transportation and economic development and infrastructure renewal projects to be undertaken at the request of the States of New Jersey and New York in the New Jersey and New York portions of the Port of New York District. The initial owner, operator or manager of these facilities is or will be the Port Authority or one of its subsidiaries (presently, Port Authority Trans-Hudson Corporation, Newark Legal and Communications Center Urban Renewal Corporation and New York and New Jersey Railroad Corporation). The major projects presently authorized or which may be authorized by the Port Authority while this plan of financing remains in effect include: LaGuardia Airport, central terminal building improvements, general runway, taxiway and roadway modification, paving and utility improvements; John F. Kennedy International Airport, general runway, taxiway and roadway modification, paving, construction of additional parking facilities, hangar and ancillary airport buildings, central terminal area roadway construction, construction of additional terminal facilities and related infrastructure and utility improvements, light rail transit system linking the terminals in the central terminal area of the airport with each other and with existing transit lines in Jamaica, Queens and Howard Beach, Queens, to provide exclusive airport access for passengers and others using the airport; Newark International Airport, general runway, taxiway and roadway modification, paving, construction of terminal improvements, construction of an intermodal connection linking the monorail with the northeast corridor rail line, construction of additional parking facilities; Howland Hook Marine Terminal, rail freight project providing rail freight services between this facility and the national rail system through interchanges in Cranford, N.J.; Port Newark, berth deepening, building construction, terminal improvements; Elizabeth-Port Authority Marine Terminal, berth deepening, building construction; intermodal improvements; Brooklyn-Port Authority Marine Terminal, wharf and pier rehabilitation; World Trade Center capital improvements, including the upgrade of basic building systems; capital improvements related to safety, maintenance or rehabilitation of the Port Authority Trans-Hudson system, Port Authority Bus Terminal, George Washington Bridge, Lincoln Tunnel, Holland Tunnel, Goethals Bridge, Bayonne Bridge, Outerbridge Crossing and Trans-Hudson Ferry Service; Queens West Waterfront Development Facility, participation in mixed use waterfront development project; Hoboken South Waterfront Development Facility, participation in mixed use waterfront development project; other miscellaneous capital improvements and

replacements and acquisitions of equipment in connection with the facilities of the Port Authority; and a comprehensive general port improvement project in the Port of New York and New Jersey, including channel deepening, dredging and disposal of dredged materials, which is also expected to be of benefit to the Port Authority's marine terminal facilities. The obligations of the Port Authority to be issued in connection with this plan of financing and to which the provisions of Section 147(f) of the Internal Revenue Code of 1986 would be applicable, would be in the maximum aggregate principal amounts noted below: each of Consolidated Bonds, One Hundred Twentieth Series through One Hundred Thirty-fourth Series, inclusive, would be in the principal amount of up to \$300,000,000; each of Consolidated Notes, Series TT, Series UU, Series VV, Series WW and Series XX, would be in the principal amount of up to \$200,000,000; Versatile Structure Obligations under a modified Port Authority Versatile Structure Obligations Resolution would be in a total aggregate principal amount of up to \$500,000,000 outstanding at any one time; Variable Rate Master Notes under a modified Port Authority Variable Rate Master Notes Resolution would be in a total aggregate principal amount of up to \$400,000,000 outstanding at any one time; Equipment Notes under a modified Port Authority Equipment Notes Resolution would be in a total aggregate principal amount of up to \$250,000,000 outstanding at any one time; and Commercial Paper Obligations under a modified Port Authority Commercial Paper Program would be in a total aggregate principal amount of up to \$500,000,000 outstanding at any one time."

Actions Pertaining to this Plan of Financing

The Board would establish Consolidated Bonds, One Hundred Twentieth Series through Consolidated Bonds, One Hundred Thirty-fourth Series, and would authorize the issuance and sale of each series in aggregate principal amount of up to \$300 million at a true interest cost to the Authority not in excess of 8% for a term not in excess of 35 years. The Board would also establish Consolidated Notes, Series TT, Series UU, Series VV, Series WW and Series XX, and would authorize the issuance and sale of each series in aggregate principal amount of up to \$200 million at a true interest cost to the Authority not in excess of 8% for a term not in excess of 3 years. The Committee on Finance would be authorized to sell and to deliver all or any part of each of such series with such terms and at such time or times as it deems appropriate, at public or private sale, and would also be authorized to take, and to delegate authority for, certain actions with respect to each of such series. An Authorized Officer of the Authority would be authorized to take any and all action which could be taken by the Committee on Finance in connection with each of such series, but only if such series is issued and sold on a competitive basis. The issuance and sale on a competitive basis would include submission by underwriters of sealed bids to be opened publicly; submission by underwriters of bids or other offers to purchase by electronic means through generally accepted procedures in the financial markets; and submission by underwriters of bids or other offers to purchase in response to written or telephonic requests for proposals directed to selected underwriters. Prior to the scheduling by an Authorized Officer of any competitive sale of Consolidated Bonds or Notes, such Authorized Officer would consult with the Chairman of the Committee on Finance and, to the extent practicable, the other members of the Committee.

To facilitate the continued issuance of Equipment Notes, the aggregate principal amount of Equipment Notes which may be outstanding at any one time would be increased from \$100 million to \$250 million, and the Board also would provide for certain technical clarifications generally within the scope of the current authorization with respect to such obligations. Additionally, to facilitate the continued issuance of Versatile Structure Obligations, Variable Rate Master Notes and Commercial Paper Obligations, the Board would also provide for certain technical clarifications generally within the scope of the current authorizations with respect to these obligations.

The total aggregate principal amount of the Authority's bonds, notes and other obligations to be issued for authorized purposes in connection with the Authority's facilities in any year under this plan of financing would not exceed the amount required to effectuate the applicable budget.

In the context of the suspension by the City of New York of lease negotiations relating to the New York City airports, the Authority has continued a program to accelerate the retirement of certain Consolidated Bonds that were outstanding as of December 31, 1994, and had maturities extending beyond 2015, the year in which such lease agreement expires. As of December 31, 1998, the Authority had achieved its program goals through the year 2001 with retirement of \$472,770,000 in principal amount of such Consolidated Bonds, through open-market purchases and refundings. If such lease agreement is not extended beyond 2015 and the program continues through 2015, all Consolidated Bonds outstanding as of December 31, 1994, with maturities beyond 2015 (other than Consolidated Bonds, Ninety-third Series) would be retired. Additionally, the Authority is limiting the maturity of future private activity Consolidated Bonds (the proceeds of which are used primarily at the airports) to 20 years from the date of issuance of any such series of bonds. The continuation of the program of accelerated retirements and maturity limitations, in each case, is subject to change at the discretion of the Authority.

**CONSOLIDATED BONDS, ONE HUNDRED TWENTIETH SERIES THROUGH
CONSOLIDATED BONDS, ONE HUNDRED THIRTY-FOURTH SERIES-
ESTABLISHMENT AND ISSUANCE**

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

WHEREAS, heretofore and on the 9th day of October, 1952, The Port Authority of New York and New Jersey (formerly known as The Port of New York Authority and hereinafter called the "Authority") adopted a resolution (hereinafter called the "Consolidated Bond Resolution"), constituting a contract with the holders of the obligations issued thereunder, providing for the issuance of certain direct and general obligations of the Authority (hereinafter called "Consolidated Bonds"), from time to time, in conformity with the Consolidated Bond Resolution for the purposes therein set forth; and

WHEREAS, the Consolidated Bond Resolution provides that Consolidated Bonds shall be issued in such series as the Authority may determine, and that the characteristics of each such series shall be determined by the Authority by and in the resolution establishing such series, and that the resolution establishing such series may contain other terms and provisions not inconsistent with the Consolidated Bond Resolution; and

WHEREAS, the Authority has heretofore established various series of Consolidated Bonds and has now determined that it is appropriate to establish certain additional series of Consolidated Bonds, without prejudice to its right hereafter to establish further series of Consolidated Bonds;

NOW, THEREFORE, be it resolved by the Authority:

SECTION 1. As used in this resolution, any words or phrases specifically defined in the Consolidated Bond Resolution shall be read and construed in accordance with such specific definitions. As used in this resolution, the term "Authorized Officer" shall mean any of the officers or employees of the Authority designated as such from time to time by the Chairman; Vice-Chairman; Chairman of the Committee on Finance; Executive Director; Deputy Executive Director; Chief Financial Officer; Treasurer; or Assistant Treasurer of the Authority.

SECTION 2. Each of Consolidated Bonds, One Hundred Twentieth Series through Consolidated Bonds, One Hundred Thirty-fourth Series, inclusive, is established as a separate series of Consolidated Bonds and the issuance of up to Three Hundred Million Dollars (\$300,000,000) of each such series with a term to maturity not in excess of thirty-five (35) years is authorized. Each of such series shall be issued in conformity with the Consolidated Bond Resolution for the purposes specified in this resolution. This resolution shall apply with equal force and effect to each of such series on an individual basis (each of such series hereinafter called the "Bonds"). This resolution shall constitute a contract with the registered holders of the Bonds and with each such registered holder.

SECTION 3. The Committee on Finance of the Authority (hereinafter called the "Committee on Finance") is authorized to establish, fix and determine the terms of the Bonds and, in connection therewith, to make such changes and adjustments to the provisions set forth in the third paragraph of this Section 3 and in Sections 4, 5, 6, 9 and 10 of this resolution as in the opinion of the Committee on Finance will effectuate the issuance of the Bonds, and to take such other action as in the opinion of the Committee on Finance will best serve the public interest.

The proceeds of the Bonds may be used for any purpose for which at the time of issuance of the Bonds the Authority is authorized by law to issue its obligations. The Committee on Finance may allocate the proceeds of the Bonds, from time to time, to certain of the authorized purposes, including the specific designation of any obligations to be refunded with the proceeds of the Bonds.

Both principal of and interest on the Bonds shall be payable in lawful money of the United States of America; principal of the Bonds shall be payable upon presentation and surrender thereof by the registered holders, at the office or offices, designated by the Authority, of the Paying Agent (or Paying Agents) appointed for the purpose by the Authority, in a county which is in whole or in part in the Port of New York District; and interest on the Bonds shall be payable when due to the registered holders thereof by check or draft drawn on the Paying Agent (or Paying Agents) appointed for the purpose by the Authority and mailed to said registered holders at their last known addresses as appearing upon the Authority's Registry Books for the Bonds.

SECTION 4. The Bonds shall be issued only in registered form, registered as to both principal and interest and not as to either alone, in authorized denominations.

The Authority will keep or cause to be kept at the offices, designated by the Authority, of a Registrar appointed for that purpose, in a county which is in whole or in part in the Port of New York District, proper and sufficient Registry Books for the registration of the Bonds. The Bonds shall be transferable only upon such Registry Books by the registered holder thereof or by such registered holder's attorney duly authorized in accordance with the provisions of this resolution. Upon the written request of the registered holder or registered holders thereof and upon surrender thereof, a bond or bonds may be exchanged for a bond or bonds of like tenor, registered as designated in such request, of any other authorized denominations. All requests for registration, transfer, exchange and delivery pertaining to the Bonds as above provided shall be filed with the Registrar of the Authority; all bonds to be surrendered pursuant to such requests shall be surrendered to the Registrar; and all bonds delivered in exchange as aforesaid shall be delivered by the Registrar. All bonds surrendered to the Registrar in exchange for other bonds or for transfer as above provided shall be cancelled by the Registrar upon such surrender. The Authority shall bear the cost incurred by the Authority in connection with the registration, authentication (if any), transfer, cancellation, exchange and delivery of bonds, including such fees as may be imposed by the Registrar for such services performed by the Registrar as provided in this resolution.

SECTION 5. The Bonds shall be redeemable at the option of the Authority, on prior notice, in whole, or, from time to time, in part, at such redemption price and on such date set forth in the applicable notice of intention to redeem the Bonds.

If less than all of the Bonds then outstanding are to be called for redemption at the option of the Authority, and if the Bonds then outstanding include bonds of any serial maturities, the bonds so to be called shall be in inverse order of maturity, and if bonds constituting a particular maturity are to be called for redemption, but not all bonds constituting such maturity are to be called for redemption, the bonds so to be called shall be determined by lot by the Registrar.

If bonds are to be called for redemption to meet the schedule of mandatory periodic retirement for the Bonds, the bonds so to be called shall be determined by lot by the Registrar.

Notice of intention to redeem any of the Bonds shall be given by the Registrar not less than thirty (30) nor more than forty-five (45) days prior to the date fixed for redemption, to the registered holders of the bonds to be called for redemption, by deposit of a copy of such notice, postage prepaid by certified or registered mail, in a United States Post Office, addressed to such registered holders at their last known addresses as appearing upon the Authority's Registry Books for the Bonds. Notice of the mailing of such notice of intention to redeem bonds shall also be published by the Authority in a daily newspaper of general circulation in the Port of New York District not less than thirty (30) nor more than forty-five (45) days prior to the date fixed for redemption; *provided, however*, that failure to give such notice by publication, or any defect therein, shall not affect the validity of any action with respect to the redemption of such bonds.

On or before the date fixed for redemption specified in the notice of intention to redeem any of the Bonds, the Authority will pay or cause to be paid to the Paying Agent (or Paying Agents) an amount in cash in the aggregate sufficient to redeem all of the bonds which are to be redeemed, at the respective redemption price thereof, which, in each case, shall include the accrued interest until the date fixed for redemption and the premium (if any), such principal amount and premium (if any), to be held by the Paying Agent (or Paying Agents) in trust for the account of the registered holders of the bonds so called for redemption and to be paid to them respectively upon presentation and surrender of such bonds with accrued interest included in such redemption price to be paid to the registered holders in accordance with the provisions of this resolution. On and after the date fixed for redemption, the notice of intention to redeem having been completed as above provided, the bonds so called shall become due and payable at the office of the Paying Agent (or Paying Agents) designated by the Authority, and if funds sufficient for payment of the redemption price shall have been deposited with the Paying Agent (or Paying Agents) in trust as aforesaid and if such funds shall be available for redemption of such bonds on the date fixed for redemption, then and in any such event, interest shall cease to accrue on the bonds so called on and after the date fixed for their redemption, and such bonds shall not be entitled to the benefit or security of this resolution or the Consolidated Bond Resolution, but shall rely solely upon the funds so deposited.

In the case of bonds of denominations greater than the minimum authorized denomination, for all purposes in connection with redemption, each unit of face value representing the minimum authorized denomination shall be treated as though it were a separate bond of the minimum authorized denomination, and the word "bond" as used in the foregoing provisions of this Section 5 shall be deemed to refer to such unit of face value representing the minimum authorized denomination. If it is determined as above provided that one or more but not all of the

units of face value representing the minimum authorized denomination of any bond are to be called for redemption, then upon notice of intention to redeem such unit or units, the registered holder of such bond shall forthwith present such bond to the Registrar who shall issue a new bond or bonds of like tenor of smaller authorized denominations but of the same aggregate principal amount in exchange therefor, pursuant to Section 4 of this resolution, including a new bond or bonds with the aggregate principal amount of the unit or units of face value called for redemption; and such new bond or bonds shall be deemed to be duly called for redemption without further notice to the registered holder thereof. If the registered holder of such bond of a denomination greater than the minimum authorized denomination shall fail to present such bond to the Registrar for the issuance of new bonds of smaller denominations in exchange therefor, as aforesaid, such bond shall nevertheless become due and payable on the date fixed for redemption to the extent of the unit or units of face value called for redemption (and to that extent only); and (funds sufficient for the payment of the redemption price having been deposited with the Paying Agent (or Paying Agents), as aforesaid, and being available as aforesaid on the date fixed for redemption) interest shall cease to accrue on the portion of the principal amount of such bond represented by such unit or units of face value on and after the date fixed for redemption, and such bond shall not be entitled to the benefit or security of this resolution or the Consolidated Bond Resolution to the extent of the portion of its principal amount (and accrued interest thereon until the date fixed for redemption and premium, if any) represented by such unit or units of face value, but to that extent shall rely solely upon the funds so deposited.

SECTION 6. The Bonds shall be retired at or prior to maturity, by purchase, call or payment, by the dates and in at least the cumulative principal amounts set forth on the schedule of mandatory periodic retirement for the Bonds.

If, at least forty-five (45) days prior to the mandatory periodic retirement date in each year (except the year of maturity) set forth in the schedule of mandatory periodic retirement for the Bonds, the Authority shall not have purchased or redeemed (at any prior time or times during such year or at any time or times during any prior years) a principal amount of the Bonds at least equal to the principal amount of the Bonds to be retired on such mandatory periodic retirement date, then the Authority shall call a principal amount of the Bonds equal to such deficiency, at the respective redemption price thereof, in the manner and upon the notice set forth in Section 5 of this resolution. Any of the Bonds purchased by the Authority as aforesaid may be purchased at such prices as the Authority may deem reasonable and proper and, in the discretion of the Authority, at public or private sale, with or without advertisement and with or without notice to any person other than the seller, and such of the Bonds as are theretofore issued and negotiated and then held by the Authority may be purchased for such purpose as well as bonds held by others.

Nothing herein contained shall be construed in any way to prevent the Authority from retiring the Bonds more rapidly than is set forth in the schedule of mandatory periodic retirement for the Bonds.

SECTION 7. The Authority shall not apply any moneys in the Consolidated Bond Reserve Fund except for the payment of bonds secured by a pledge of the General Reserve Fund in whole or in part, the payment of debt service upon bonds so secured, the purchase for retirement of

bonds so secured or the redemption of bonds so secured, or for the payment of expenses incurred for the establishment, acquisition, construction or effectuation, or for the operation, maintenance, repair or administration of any facility financed or refinanced in whole or in part by bonds secured by a pledge of the General Reserve Fund in whole or in part, or otherwise for the fulfillment of any undertakings which the Authority has assumed or may or shall hereafter assume to or for the benefit of the holders of bonds secured by a pledge of the General Reserve Fund in whole or in part; *provided, however*, that nothing herein contained shall be construed to permit the application by the Authority of moneys in the Consolidated Bond Reserve Fund except for purposes and upon conditions which are authorized by the Consolidated Bond Resolution.

Consolidated Bonds proposed to be issued for purposes in connection with an additional facility or a group of additional facilities in connection with which the Authority has not theretofore issued bonds which have been secured by a pledge of the General Reserve Fund in whole or in part, may be issued, and bonds other than Consolidated Bonds proposed to be issued for purposes in connection with such an additional facility or group of additional facilities may be secured by a pledge of the General Reserve Fund in whole or in part, in each case if and only if the Authority shall certify at the time of issuance (as defined in Section 3 of the Consolidated Bond Resolution) its opinion that the issuance of such Consolidated Bonds or that such pledge of the General Reserve Fund as security for such bonds other than Consolidated Bonds will not, during the ensuing ten (10) years or during the longest term of any of such bonds proposed to be issued (whether or not Consolidated Bonds), whichever shall be longer, in the light of its estimated expenditures in connection with such additional facility or such group of additional facilities, materially impair the sound credit standing of the Authority or the investment status of Consolidated Bonds or the ability of the Authority to fulfill its commitments, whether statutory or contractual or reasonably incidental thereto, including its undertakings to the holders of Consolidated Bonds; and the Authority may apply moneys in the General Reserve Fund for purposes in connection with those of its bonds and only those of its bonds which it has theretofore secured by a pledge of the General Reserve Fund in whole or in part. Expenditures in connection with an additional facility or group of additional facilities shall mean the amount of the excess, if any, of the sum of all items of expense to be considered in determining the net revenues of the additional facility or group of additional facilities plus the debt service upon the bonds proposed to be issued and upon any additional bonds which in the Authority's opinion would be required to be issued to place and maintain such facility or group of facilities upon a sound operating basis, over and above the sum of all items of revenue and income to be considered in determining such net revenues.

SECTION 8. The Authority shall appoint a bank or trust company as trustee for and in connection with the Bonds (hereinafter called the "Trustee"). The Trustee is authorized to (i) institute any action or proceeding on behalf of the registered holders of the Bonds against the Authority or others, or (ii) intervene in any pending action or proceeding, or (iii) take any other action which it shall in its sole discretion determine to be necessary or advisable in order to protect the rights of the registered holders of the Bonds. The rights of the Trustee in this respect and in all other respects shall be in addition to and not in substitution of any and all rights which would otherwise inure to the registered holder or registered holders of the Bonds. It is understood that the Trustee in its sole discretion may, but shall be under no obligation to, review the

activities or operations of the Authority or any of the contracts or agreements of the Authority or exercise any of the rights or powers vested in it by this Section 8 whether on the Trustee's initiative or at the request or direction of any of the registered holders of the Bonds.

The Trustee (which shall include any successor Trustee) appointed under the provisions of this Section 8 shall be a bank or trust company organized under the laws of the State of New York or the State of New Jersey or a national banking association doing business and having its principal office in the Port of New York District and having a total capital (including capital stock, surplus, undivided profits and capital notes, if any) aggregating at least \$25,000,000, which is willing and able to accept the office on reasonable and customary terms and is authorized by law to perform all the duties imposed upon it by this resolution.

The Trustee shall not be liable for any action taken or suffered upon any notice, resolution, request, consent, order, certificate, report, opinion, bond or other paper or document believed by it to be genuine, and to have been signed or presented by the proper party or parties. The Trustee may consult with counsel, who may or may not be counsel to the Authority, and the opinion of such counsel shall be full and complete authorization and protection in respect of any action taken or suffered by it under this resolution in good faith and in accordance therewith. The Trustee shall not be liable in connection with the performance or nonperformance of its duties except for its own wilful misconduct, negligence or bad faith.

If the Trustee shall deem it necessary or desirable that a matter be proved or established prior to taking or suffering any action under this resolution, such matter (unless other evidence in respect thereof be specifically prescribed) may be deemed to be conclusively proved and established by a certificate of an Authorized Officer, and such certificate shall be full warrant for any action taken or suffered in good faith under the provisions of this resolution upon the faith thereof; but in its discretion the Trustee may in lieu thereof accept other evidence of such fact or matter or may require such further or additional evidence as to it may seem reasonable.

The Authority shall annually, within one hundred twenty (120) days after the close of each calendar year, file with the Trustee a statement of an Authorized Officer showing for the preceding calendar year (i) net revenues, (ii) the aggregate interest paid on bonds of the Authority, and (iii) the payments of principal on bonds of the Authority.

The Authority shall annually, within one hundred twenty (120) days after the close of each calendar year, file with the Trustee a copy of its annual report for such year and its financial statement for such year accompanied by an opinion signed by an independent public accountant or firm of public accountants of recognized standing selected by the Authority and satisfactory to the Trustee.

The Authority shall file with the Trustee a copy of any Official Statement hereafter issued by the Authority in connection with the issuance of bonds by the Authority.

The Authority shall file with the Trustee a copy of the minutes of every meeting of the Authority and of its subsidiary corporations at the time said minutes are transmitted to the Governor of New York and the Governor of New Jersey.

The Authority shall not be required to file with the Trustee (except when requested to do so by the Trustee) and the Trustee shall not be required to review any document, instrument, report or paper other than those which the Authority is expressly required hereunder to file with the Trustee. The Trustee shall not be bound to make any investigation into the facts or matters stated in any document, instrument, report or paper supplied to it, but the Trustee in its sole discretion may make such further inquiry or investigation into such facts or matters as the Trustee may deem advisable, and, if the Trustee shall determine to make such further inquiry or investigation, the Trustee is authorized to examine such books and records of and properties owned or operated by the Authority as the Trustee may deem advisable, personally or by agent or attorney.

The Authority agrees (i) to pay to the Trustee from time to time reasonable compensation for all services rendered by it hereunder, (ii) to reimburse the Trustee upon its request for all reasonable expenses, disbursements and advances incurred or made by the Trustee in connection with the exercise or performance of any of its powers or duties hereunder (including the reasonable compensation and the expenses and disbursements of its agents and counsel), and (iii) to indemnify the Trustee for, and hold it harmless against, any loss, liability or expense incurred without wilful misconduct, negligence or bad faith on its part, arising out of or in connection with the exercise or performance of the Trustee's powers and duties hereunder, including the costs and expenses of defending itself against any claim or liability in connection with such exercise or performance.

The Trustee may become the owner or holder of any bonds of the Authority with the same rights as it would have were it not a Trustee. To the extent permitted by law, the Trustee may act as depositary for the Authority, act as Paying Agent and Registrar of bonds of the Authority and act itself and permit any of its officers or directors to act in any other capacity with respect to the Authority, the bonds of the Authority and the holders of bonds of the Authority as it or its officers or directors would be able to act were it not a Trustee.

The Trustee may at any time resign and be discharged of the duties and obligations created by this resolution by giving not less than sixty (60) days' written notice to the Authority and publishing notice thereof, specifying the date when such resignation shall take effect, once in each week for two (2) successive calendar weeks in a newspaper of general circulation in the City of New York, State of New York, and such resignation shall take effect upon the date specified in such notice unless previously a successor shall have been appointed by the Authority in which event such resignation shall take effect immediately on the appointment of such successor.

The Trustee may be removed at any time by an instrument or concurrent instruments in writing, filed with the Trustee, and signed and acknowledged by the registered holders of a majority in principal amount of the Bonds then outstanding or by their attorneys duly authorized, excluding the principal amount of any of the Bonds held by or for the account of the Authority.

In case at any time the Trustee shall resign or shall be removed or shall become incapable of acting, or shall be adjudged a bankrupt or insolvent, or if a receiver, liquidator or conservator

of the Trustee, or of its property, shall be appointed, or if any public officer shall take charge or control of the Trustee, or of its property or affairs, a successor may be appointed by the holders of a majority in principal amount of the Bonds then outstanding, excluding the principal amount of any of the Bonds held by or for the account of the Authority, by an instrument or concurrent instruments in writing signed and acknowledged by such registered holders of the Bonds or by their attorneys duly authorized and delivered to such successor Trustee, notification thereof being given to the Authority and the predecessor Trustee; *provided, however*, nevertheless, the Authority shall forthwith appoint a Trustee to fill such vacancy until a successor Trustee shall be appointed by the registered holders of the Bonds as authorized in this Section 8. The Authority shall publish notice of any such appointment made by it once in each week for two (2) consecutive calendar weeks, in a newspaper of general circulation in the City of New York, State of New York, the first publication to be made within twenty (20) days after such appointment. Any successor Trustee appointed by the Authority shall, immediately and without further act, be superseded by a Trustee appointed by the registered holders of the Bonds.

Any company into which any Trustee may be merged or converted or with which it may be consolidated or any company resulting from any merger, conversion or consolidation to which it shall be a party or any company to which any Trustee may sell or transfer all or substantially all of its corporate trust business (*provided, however*, such company shall be a bank or trust company located in the Port of New York District and shall be authorized by law to perform all the duties imposed upon it by this resolution), shall be the successor to such Trustee without the execution or filing of any paper or the performance of any further act.

The failure of the Authority to take any action required by this Section 8 shall not invalidate any bond or bonds issued pursuant to this resolution or hereafter issued by the Authority, or affect any other actions of the Authority. The Authority shall in no way be restricted by this Section 8 from entering any defense to an action or proceeding instituted by the Trustee or by the registered holder or registered holders of the Bonds.

SECTION 9. The form of the bond, including provisions with respect to assignment, for the Bonds shall be determined by the Committee on Finance or by an Authorized Officer. The bonds shall have the official seal of the Authority, or a facsimile thereof, affixed thereto or printed or impressed thereon, and shall be manually signed by an Authorized Officer. In case any Authorized Officer who shall have signed any of the bonds shall cease to be an Authorized Officer before such bonds shall have been actually issued, such bonds may nevertheless be issued as though such Authorized Officer who signed such bonds had not ceased to be an Authorized Officer.

SECTION 10. In case any bond shall at any time become mutilated or be lost or destroyed, the Authority, in its discretion, may execute and deliver a new bond of like tenor in exchange or substitution for and upon cancellation of such mutilated bond or in lieu of or in substitution for such destroyed or lost bond; or if such bond shall have matured, instead of issuing a substitute bond the Authority may pay the same without surrender thereof. In case of destruction or loss, the applicant for a substitute bond shall furnish to the Authority evidence satisfactory to the Authority of the destruction or loss of such bond and of the ownership thereof and also such security and indemnity as may be required by the Authority. The Authority may execute and

deliver any such substitute bond or make any such payment; or any Paying Agent may make any such payment upon the written request or authorization of the Authority. Upon the issuance of any substitute bond, the Authority, at its option, may require the payment of a sum sufficient to reimburse it for any stamp tax or other governmental charge or other reasonable expense connected therewith and also a further sum not exceeding the cost of preparation of each new bond so issued in substitution. Any bond issued under the provisions of this Section 10 in lieu of any bond alleged to have been destroyed or lost shall constitute an original contractual obligation on the part of the Authority, whether or not the bond so alleged to have been destroyed or lost be at any time enforceable by anyone, and shall be equally and proportionately entitled to the security of this resolution and of the Consolidated Bond Resolution with all other bonds, notes and coupons (if any) issued hereunder or thereunder.

SECTION 11. An Authorized Officer is authorized to take any and all action which the Committee on Finance is authorized to take under this resolution (without further action by the Committee on Finance); *provided, however*, that any such action may only be taken by an Authorized Officer if the Bonds are issued and sold on a competitive basis.

**CONSOLIDATED BONDS, ONE HUNDRED TWENTIETH SERIES THROUGH
CONSOLIDATED BONDS, ONE HUNDRED THIRTY-FOURTH SERIES–
SALE**

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

SECTION 1. This resolution shall apply with equal force and effect to each of Consolidated Bonds, One Hundred Twentieth Series through Consolidated Bonds, One Hundred Thirty-fourth Series, inclusive, on an individual basis (each such series hereinafter called the "Bonds").

SECTION 2. The Committee on Finance of the Authority (hereinafter called the "Committee on Finance") is authorized in the name of and on behalf of the Authority to sell all or any part of Three Hundred Million Dollars (\$300,000,000) in principal amount of the Bonds at a true interest cost to the Authority not in excess of eight percent (8%) with a term to maturity not in excess of thirty-five (35) years, at public or private sale, with or without advertisement, at one or more times, and to apply the proceeds of such sale or sales as provided in the resolution authorizing the establishment and issuance of the Bonds.

SECTION 3. The Committee on Finance is authorized in the name of and on behalf of the Authority, in connection with the Bonds, to fix the time or times of sale of the Bonds, to determine the terms and conditions upon which such sales shall be made and to accept or reject offers in connection with such sales.

SECTION 4. The Committee on Finance is authorized in the name of and on behalf of the Authority, in connection with the Bonds, to enter into any contracts or agreements pertaining to the Bonds; to fix the time or times and determine the terms and conditions of delivery of the Bonds; to appoint one or more Paying Agents and a Registrar and a Trustee, and to designate the office or offices of any such Paying Agent (or Paying Agents) at which payments shall be made and the office or offices of any such Registrar at which the Authority's Registry Books for the Bonds shall be kept; to make any selection, designation, determination or estimate and to take or withhold any action and to formulate and express any opinions and to exercise any discretion or judgment which may be or is required to be made, taken, withheld, formulated, expressed or exercised in connection with the Bonds, the Authority adopting all such selections, designations, determinations, estimates, actions, withholdings of action, formulations and expressions of opinions and exercises of discretion or judgment, including those pursuant to Section 3 of the Consolidated Bond Resolution, or otherwise, as its own; and to authorize any of the foregoing and generally to take such other action as in the opinion of the Committee on Finance will best serve the public interest.

SECTION 5. The Committee on Finance is authorized to arrange, from time to time (i) for the preparation and distribution of disclosure documents, including official statements, offering statements or other offering materials in connection with the Bonds and (ii) for the preparation

and distribution of such other documents giving pertinent data with respect to the Authority and its finances as it deems appropriate, in each case, in the name of and on behalf of the Authority.

SECTION 6. An Authorized Officer is authorized to take any and all action which the Committee on Finance is authorized to take under this resolution (without further action by the Committee on Finance); *provided, however*, that any such action may only be taken by an Authorized Officer if the Bonds are issued and sold on a competitive basis.

SECTION 7. The Committee on Finance or any Authorized Officer is authorized, in connection with the issuance of the Bonds on the basis that the Bonds are to be in conformity with, and that the interest on the Bonds is not to be includible for Federal income tax purposes in the gross income of the recipients thereof under, Section 103(a) of the Internal Revenue Code of 1986, or successor provisions of law, and the regulations thereunder, to take any action which may be appropriate to assure that the Bonds are issued, and during their term are outstanding, on such basis, and any such actions taken in connection therewith are ratified. Any Authorized Officer is authorized to certify on behalf of the Authority as to the need for the issuance of the Bonds, as to the status of the projects for which the proceeds of the Bonds are to be used, as to the Authority's intentions with respect to the application and investment of the proceeds of the Bonds, and as to such other matters as such Authorized Officer deems appropriate.

SECTION 8. As used in this resolution, the term "Authorized Officer" shall mean any of the officers or employees of the Authority designated as such from time to time by the Chairman; Vice-Chairman; Chairman of the Committee on Finance; Executive Director; Deputy Executive Director; Chief Financial Officer; Treasurer; or Assistant Treasurer of the Authority.

**CONSOLIDATED NOTES, SERIES TT, SERIES UU, SERIES VV, SERIES WW AND
SERIES XX-ESTABLISHMENT AND ISSUANCE**

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

WHEREAS, heretofore and on the 9th day of October, 1952, The Port Authority of New York and New Jersey (formerly known as The Port of New York Authority and hereinafter called the "Authority") adopted a resolution (hereinafter called the "Consolidated Bond Resolution"), constituting a contract with the holders of the obligations issued thereunder, providing for the issuance of certain direct and general obligations of the Authority (hereinafter called "Consolidated Bonds"), from time to time, in conformity with the Consolidated Bond Resolution for the purposes therein set forth; and

WHEREAS, the Consolidated Bond Resolution provides that Consolidated Bonds shall be issued in such series as the Authority may determine, and that the characteristics of each such series shall be determined by the Authority by and in the resolution establishing such series, and that the resolution establishing such series may contain other terms and provisions not inconsistent with the Consolidated Bond Resolution; and

WHEREAS, the Authority has heretofore established various series of short-term bonds (hereinafter called "Consolidated Notes"), from time to time, in conformity with the Consolidated Bond Resolution and has now determined that it is appropriate to establish certain additional series of Consolidated Notes, without prejudice to its right hereafter to establish further series of Consolidated Bonds or Consolidated Notes;

NOW, THEREFORE, be it resolved by the Authority:

SECTION 1. As used in this resolution, any words or phrases specifically defined in the Consolidated Bond Resolution shall be read and construed in accordance with such specific definitions. As used in this resolution, the term "Authorized Officer" shall mean any of the officers or employees of the Authority designated as such from time to time by the Chairman; Vice-Chairman; Chairman of the Committee on Finance; Executive Director; Deputy Executive Director; Chief Financial Officer; Treasurer; or Assistant Treasurer of the Authority.

SECTION 2. Each of Consolidated Notes, Series TT, Consolidated Notes, Series UU, Consolidated Notes, Series VV, Consolidated Notes, Series WW and Consolidated Notes, Series XX, is established as a separate series of Consolidated Notes and the issuance of up to Two Hundred Million Dollars (\$200,000,000) of each such series with a term to maturity not in excess of three (3) years is authorized. Each of such series shall be issued in conformity with the Consolidated Bond Resolution for the purposes specified in this resolution. This resolution shall apply with equal force and effect to each of such series on an individual basis (each of such series hereinafter called the "Notes"). This resolution shall constitute a contract with the registered holders of the Notes and with each such registered holder.

SECTION 3. The Committee on Finance of the Authority (hereinafter called the “Committee on Finance”) is authorized to establish, fix and determine the terms of the Notes and, in connection therewith, to make such changes and adjustments to the provisions set forth in the third paragraph of this Section 3 and in Sections 4, 5, 6, 8 and 9 of this resolution as in the opinion of the Committee on Finance will effectuate the issuance of the Notes, and to take such other action as in the opinion of the Committee on Finance will best serve the public interest.

The proceeds of the Notes may be used for any purpose for which at the time of issuance of the Notes the Authority is authorized by law to issue its obligations. The Committee on Finance may allocate the proceeds of the Notes, from time to time, to certain of the authorized purposes, including the specific designation of any obligations to be refunded with the proceeds of the Notes.

Both principal of and interest on the Notes shall be payable in lawful money of the United States of America; principal of the Notes shall be payable upon presentation and surrender thereof by the registered holders, at the office or offices, designated by the Authority, of the Paying Agent (or Paying Agents) appointed for the purpose by the Authority, in a county which is in whole or in part in the Port of New York District; and interest on the Notes shall be payable when due to the registered holders thereof by check or draft drawn on the Paying Agent (or Paying Agents) appointed for the purpose by the Authority and mailed to said registered holders at their last known addresses as appearing upon the Authority’s Registry Books for the Notes.

SECTION 4. The Notes shall be issued only in registered form, registered as to both principal and interest and not as to either alone, in authorized denominations.

SECTION 5. The Authority will keep or cause to be kept at the offices, designated by the Authority, of a Registrar appointed for that purpose, in a county which is in whole or in part in the Port of New York District, proper and sufficient Registry Books for the registration of the Notes. The Notes shall be transferable only upon such Registry Books by the registered holder thereof or by such registered holder’s attorney duly authorized in accordance with the provisions of this resolution. Upon the written request of the registered holder or registered holders thereof and upon surrender thereof, a note or notes may be exchanged for a note or notes of like tenor, registered as designated in such request, of any other authorized denominations. All requests for registration, transfer, exchange and delivery pertaining to the Notes as above provided shall be filed with the Registrar of the Authority; all notes to be surrendered pursuant to such requests shall be surrendered to the Registrar; and all notes delivered in exchange as aforesaid shall be delivered by the Registrar. All notes surrendered to the Registrar in exchange for other notes or for transfer as above provided shall be cancelled by the Registrar upon such surrender. The Authority shall bear the cost incurred by the Authority in connection with the registration, authentication (if any), transfer, cancellation, exchange and delivery of notes, including such fees as may be imposed by the Registrar for such services performed by the Registrar as provided in this resolution.

SECTION 6. The Notes shall be redeemable at the option of the Authority, on prior notice, in whole, or, from time to time, in part, at such redemption price and on such date set forth in the applicable notice of intention to redeem the Notes.

If less than all of the Notes then outstanding are to be called for redemption at the option of the Authority, and if the Notes then outstanding include notes of any serial maturities, the notes so to be called shall be in inverse order of maturity, and if notes constituting a particular maturity are to be called for redemption, but not all notes constituting such maturity are to be called for redemption, the notes so to be called shall be determined by lot by the Registrar.

Notice of intention to redeem any of the Notes shall be given by the Registrar not less than thirty (30) nor more than forty-five (45) days prior to the date fixed for redemption, to the registered holders of the notes to be called for redemption, by deposit of a copy of such notice, postage prepaid by certified or registered mail, in a United States Post Office, addressed to such registered holders at their last known addresses as appearing upon the Authority's Registry Books for the Notes. Notice of the mailing of such notice of intention to redeem notes shall also be published by the Authority in a daily newspaper of general circulation in the Port of New York District not less than thirty (30) nor more than forty-five (45) days prior to the date fixed for redemption; *provided, however*, that failure to give such notice by publication, or any defect therein, shall not affect the validity of any action with respect to the redemption of such notes.

On or before the date fixed for redemption specified in the notice of intention to redeem any of the Notes, the Authority will pay or cause to be paid to the Paying Agent (or Paying Agents) an amount in cash in the aggregate sufficient to redeem all of the notes which are to be redeemed, at the respective redemption price thereof, which, in each case, shall include the accrued interest until the date fixed for redemption and the premium (if any), such principal amount and premium (if any) to be held by the Paying Agent (or Paying Agents) in trust for the account of the registered holders of the notes so called for redemption and to be paid to them respectively upon presentation and surrender of such notes with accrued interest included in such redemption price to be paid to the registered holders in accordance with the provisions of this resolution. On and after the date fixed for redemption, the notice of intention to redeem having been completed as above provided, the notes so called shall become due and payable at the office of the Paying Agent (or Paying Agents) designated by the Authority, and if funds sufficient for payment of the redemption price shall have been deposited with the Paying Agent (or Paying Agents) in trust as aforesaid and if such funds shall be available for redemption of such notes on the date fixed for redemption, then and in any such event, interest shall cease to accrue on the notes so called on and after the date fixed for their redemption, and such notes shall not be entitled to the benefit or security of this resolution or the Consolidated Bond Resolution, but shall rely solely upon the funds so deposited.

In the case of notes of denominations greater than the minimum authorized denomination, for all purposes in connection with redemption, each unit of face value representing the minimum authorized denomination shall be treated as though it were a separate note of the minimum authorized denomination, and the word "note" as used in the foregoing provisions of this Section 6 shall be deemed to refer to such unit of face value representing the minimum authorized denomination. If it is determined as above provided that one or more but not all of the

units of face value representing the minimum authorized denomination of any note are to be called for redemption, then upon notice of intention to redeem such unit or units, the registered holder of such note shall forthwith present such note to the Registrar who shall issue a new note or notes of like tenor of smaller authorized denominations but of the same aggregate principal amount in exchange therefor, pursuant to Section 5 of this resolution, including a new note or notes with the aggregate principal amount of the unit or units of face value called for redemption; and such new note or notes shall be deemed to be duly called for redemption without further notice to the registered holder thereof. If the registered holder of such note of a denomination greater than the minimum authorized denomination shall fail to present such note to the Registrar for the issuance of new notes of smaller denominations in exchange therefor, as aforesaid, such note shall nevertheless become due and payable on the date fixed for redemption to the extent of the unit or units of face value called for redemption (and to that extent only); and (funds sufficient for the payment of the redemption price having been deposited with the Paying Agent (or Paying Agents), as aforesaid, and being available as aforesaid on the date fixed for redemption) interest shall cease to accrue on the portion of the principal amount of such note represented by such unit or units of face value on and after the date fixed for redemption, and such note shall not be entitled to the benefit or security of this resolution or the Consolidated Bond Resolution to the extent of the portion of its principal amount (and accrued interest thereon until the date fixed for redemption) represented by such unit or units of face value, but to that extent shall rely solely upon the funds so deposited.

SECTION 7. The Authority shall not apply any moneys in the Consolidated Bond Reserve Fund except for the payment of bonds secured by a pledge of the General Reserve Fund in whole or in part, the payment of debt service upon bonds so secured, the purchase for retirement of bonds so secured or the redemption of bonds so secured, or for the payment of expenses incurred for the establishment, acquisition, construction or effectuation, or for the operation, maintenance, repair or administration of any facility financed or refinanced in whole or in part by bonds secured by a pledge of the General Reserve Fund in whole or in part, or otherwise for the fulfillment of any undertakings which the Authority has assumed or may or shall hereafter assume to or for the benefit of the holders of bonds secured by a pledge of the General Reserve Fund in whole or in part; *provided, however*, that nothing herein contained shall be construed to permit the application by the Authority of moneys in the Consolidated Bond Reserve Fund except for purposes and upon conditions which are authorized by the Consolidated Bond Resolution.

Consolidated Bonds proposed to be issued for purposes in connection with an additional facility or a group of additional facilities in connection with which the Authority has not theretofore issued bonds which have been secured by a pledge of the General Reserve Fund in whole or in part, may be issued, and bonds other than Consolidated Bonds proposed to be issued for purposes in connection with such an additional facility or group of additional facilities may be secured by a pledge of the General Reserve Fund in whole or in part, in each case if and only if the Authority shall certify at the time of issuance (as defined in Section 3 of the Consolidated Bond Resolution) its opinion that the issuance of such Consolidated Bonds or that such pledge of the General Reserve Fund as security for such bonds other than Consolidated Bonds will not, during the ensuing ten (10) years or during the longest term of any of such bonds proposed to be issued (whether or not Consolidated Bonds), whichever shall be longer, in the light of its

estimated expenditures in connection with such additional facility or such group of additional facilities, materially impair the sound credit standing of the Authority or the investment status of Consolidated Bonds or the ability of the Authority to fulfill its commitments, whether statutory or contractual or reasonably incidental thereto, including its undertakings to the holders of Consolidated Bonds; and the Authority may apply moneys in the General Reserve Fund for purposes in connection with those of its bonds and only those of its bonds which it has theretofore secured by a pledge of the General Reserve Fund in whole or in part. Expenditures in connection with an additional facility or group of additional facilities shall mean the amount of the excess, if any, of the sum of all items of expense to be considered in determining the net revenues of the additional facility or group of additional facilities plus the debt service upon the bonds proposed to be issued and upon any additional bonds which in the Authority's opinion would be required to be issued to place and maintain such facility or group of facilities upon a sound operating basis, over and above the sum of all items of revenue and income to be considered in determining such net revenues.

SECTION 8. The form of the note, including provisions with respect to assignment, for the Notes shall be determined by the Committee on Finance or by an Authorized Officer. The notes shall have the official seal of the Authority, or a facsimile thereof, affixed thereto or printed or impressed thereon, and shall be signed manually by an Authorized Officer. In case any Authorized Officer who shall have signed any of the notes shall cease to be an Authorized Officer before such notes shall have been actually issued, such notes may nevertheless be issued as though such Authorized Officer who signed such notes had not ceased to be an Authorized Officer.

SECTION 9. In case any note shall at any time become mutilated or be lost or destroyed, the Authority, in its discretion, may execute and deliver a new note of like tenor in exchange or substitution for and upon cancellation of such mutilated note or in lieu of or in substitution for such destroyed or lost note; or if such note shall have matured, instead of issuing a substitute note the Authority may pay the same without surrender thereof. In case of destruction or loss, the applicant for a substitute note shall furnish to the Authority evidence satisfactory to the Authority of the destruction or loss of such note and of the ownership thereof and also such security and indemnity as may be required by the Authority. The Authority may execute and deliver any such substitute note or make any such payment; or any Paying Agent may make any such payment upon the written request or authorization of the Authority. Upon the issuance of any substitute note, the Authority, at its option, may require the payment of a sum sufficient to reimburse it for any stamp tax or other governmental charge or other reasonable expense connected therewith and also a further sum not exceeding the cost of preparation of each new note so issued in substitution. Any note issued under the provisions of this Section 9 in lieu of any note alleged to have been destroyed or lost shall constitute an original contractual obligation on the part of the Authority, whether or not the note so alleged to have been destroyed or lost be at any time enforceable by anyone, and shall be equally and proportionately entitled to the security of this resolution and of the Consolidated Bond Resolution with all other bonds, notes and coupons (if any) issued hereunder or thereunder.

SECTION 10. An Authorized Officer is authorized to take any and all action which the Committee on Finance is authorized to take under this resolution (without further action by the

Committee on Finance); *provided, however*, that any such action may only be taken by an Authorized Officer if the Notes are issued and sold on a competitive basis.

**CONSOLIDATED NOTES, SERIES TT, SERIES UU, SERIES VV, SERIES WW AND
SERIES XX–SALE**

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

SECTION 1. This resolution shall apply with equal force and effect to each of Consolidated Notes, Series TT, Consolidated Notes, Series UU, Consolidated Notes, Series VV, Consolidated Notes, Series WW and Consolidated Notes, Series XX, on an individual basis (each such series hereinafter called the “Notes”).

SECTION 2. The Committee on Finance of the Authority (hereinafter called the “Committee on Finance”) is authorized in the name of and on behalf of the Authority, to sell all or any part of Two Hundred Million Dollars (\$200,000,000) in principal amount of the Notes at a true interest cost to the Authority not in excess of eight percent (8%) with a term to maturity not in excess of three (3) years, at public or private sale, with or without advertisement, in one or more installments, at one or more times, and to apply the proceeds of such sale or sales as provided in the resolution authorizing the establishment and issuance of the Notes.

SECTION 3. The Committee on Finance is authorized in the name of and on behalf of the Authority, in connection with the Notes, to fix the time or times of sale of the Notes, to determine the terms and conditions upon which such sales shall be made and to accept or reject offers in connection with such sales.

SECTION 4. The Committee on Finance is authorized in the name of and on behalf of the Authority, in connection with the Notes, to enter into any contracts or agreements pertaining to the Notes; to fix the time or times and determine the terms and conditions of delivery of the Notes; to appoint one or more Paying Agents and a Registrar, and to designate the office or offices of any such Paying Agent (or Paying Agents) at which payments shall be made and the office or offices of any such Registrar at which the Authority’s Registry Books for the Notes shall be kept; to make any selection, designation, determination or estimate and to take or withhold any action and to formulate and express any opinions and to exercise any discretion or judgment which may be or is required to be made, taken, withheld, formulated, expressed or exercised in connection with the Notes, the Authority adopting all such selections, designations, determinations, estimates, actions, withholdings of action, formulations and expressions of opinions and exercises of discretion or judgment, including those pursuant to Section 3 of the Consolidated Bond Resolution, or otherwise, as its own; and to authorize any of the foregoing and generally to take such other action as in the opinion of the Committee on Finance will best serve the public interest.

SECTION 5. The Committee on Finance is authorized to arrange, from time to time (i) for the preparation and distribution of disclosure documents, including official statements, offering statements or other offering materials in connection with the Notes and (ii) for the preparation

and distribution of such other documents giving pertinent data with respect to the Authority and its finances as it deems appropriate, in each case, in the name of and on behalf of the Authority.

SECTION 6. An Authorized Officer is authorized to take any and all action which the Committee on Finance is authorized to take under this resolution (without further action by the Committee on Finance); *provided, however*, that any such action may only be taken by an Authorized Officer if the Notes are issued and sold on a competitive basis.

SECTION 7. The Committee on Finance or any Authorized Officer is authorized, in connection with the issuance of the Notes on the basis that the Notes are to be in conformity with, and that the interest on the Notes is not to be includible for Federal income tax purposes in the gross income of the recipients thereof under, Section 103(a) of the Internal Revenue Code of 1986, or successor provisions of law, and the regulations thereunder, to take any action which may be appropriate to assure that the Notes are issued, and during their term are outstanding, on such basis, and any such actions taken in connection therewith are ratified. Any Authorized Officer is authorized to certify on behalf of the Authority as to the need for the issuance of the Notes, as to the status of the projects for which the proceeds of the Notes are to be used, as to the Authority's intentions with respect to the application and investment of the proceeds of the Notes, and as to such other matters as such Authorized Officer deems appropriate.

SECTION 8. As used in this resolution, the term "Authorized Officer" shall mean any of the officers or employees of the Authority designated as such from time to time by the Chairman; Vice-Chairman; Chairman of the Committee on Finance; Executive Director; Deputy Executive Director; Chief Financial Officer; Treasurer; or Assistant Treasurer of the Authority.

**PORT AUTHORITY VERSATILE STRUCTURE OBLIGATIONS RESOLUTION-
MODIFICATION**

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

WHEREAS, The Port Authority of New York and New Jersey (hereinafter referred to as the “Authority”) has been authorized and empowered to issue bonds, notes or other obligations or evidences of indebtedness to provide funds for authorized purposes; and

WHEREAS, on June 11, 1992, the Authority determined to authorize and establish an issue of Versatile Structure Obligations (such term and all other terms of special meaning having the meanings ascribed to such terms in or pursuant to Section 1 of this Resolution); and

WHEREAS, in establishing the issue of Versatile Structure Obligations on June 11, 1992, the Authority provided a method of financing in addition to other methods available or hereafter available to the Authority; and

WHEREAS, the Authority has determined to modify the Prior Resolution pursuant to Section 7(a) of the Prior Resolution, for the purpose of accomplishing certain technical clarifications of various provisions of the Prior Resolution; and

WHEREAS, Versatile Structure Obligations shall continue to be an issue of special obligations of the Authority payable from the sources of payment and to the extent provided in Section 2(c) of this Resolution;

NOW, THEREFORE, be it resolved by the Authority that the Prior Resolution is modified, and as so modified is restated in its entirety to read as follows:

SECTION 1. Definitions.

Unless the context shall clearly indicate some other meaning or may otherwise require, the terms defined in this Section 1 shall, for all purposes of this Resolution and of any resolution amendatory hereof or supplemental hereto and of any opinion, instrument or document herein or therein mentioned (unless otherwise defined therein), have the meanings specified in this Section 1, with the following definitions to be equally applicable to both the singular and plural forms of any terms defined in this Section 1 and *vice versa*. Any words or phrases not otherwise defined in this Section 1 and specifically defined in the Consolidated Bond Resolution shall be read and construed in accordance with such specific definitions (except as herein otherwise expressly provided or unless the context otherwise requires).

The term “Authority-owned Certificates” shall have the meaning given to such term in Section 7(b)(v) of this Resolution.

The term “Certificate” shall mean any bond, note or other evidence of indebtedness of the Authority constituting the whole or a part of any series of Versatile Structure Obligations.

The term “Certificate Holder” or “Holder of a Certificate” shall mean the holder or holders, individually and collectively, of a Certificate or Certificates.

The term “Code” shall mean the Internal Revenue Code of 1986.

The term “Commercial Paper Obligations” shall mean the issue of special obligations of the Authority known as “Port Authority Commercial Paper Obligations”.

The term “Committee on Finance” shall mean the Committee on Finance of the Board of Commissioners of the Authority.

The term “Consolidated Bond Reserve Fund” shall mean the special fund by that name established by Section 7 of the Consolidated Bond Resolution.

The term “Consolidated Bond Resolution” shall mean the resolution of the Authority adopted October 9, 1952, entitled “*Consolidated Bonds—Establishment of Issue*”.

The term “Consolidated Bonds” shall mean the issue of obligations of the Authority known as “Consolidated Bonds” (which also includes short-term bonds known as “Consolidated Notes”).

The term “Designated Officer” shall mean the Chairman; Vice-Chairman; Chairman of the Committee on Finance; Executive Director; Deputy Executive Director; Chief Financial Officer; Treasurer; or Assistant Treasurer of the Authority.

The term “General Reserve Fund” shall mean the special fund by that name established by the General Reserve Fund Statutes.

The term “General Reserve Fund Resolution” shall mean the resolution of the Authority adopted March 9, 1931, entitled “*General Reserve Fund Supporting Bonds Legal for Investment*”, as amended by the resolution of the Authority adopted May 5, 1932, entitled “*Investments: Authority of Finance Committee*”, as further amended by the Consolidated Bond Resolution to conform to the provisions of Section 6 of the Consolidated Bond Resolution.

The term “General Reserve Fund Statutes” shall mean Chapter 5 of the Laws of New Jersey of 1931, as amended, and Chapter 48 of the Laws of New York of 1931, as amended.

The term “Net Revenues”, solely for the purpose of this Resolution, shall mean, with respect to any date of calculation, the revenues of the Authority pledged under the Consolidated Bond Resolution and remaining after (i) payment or provision for payment of debt service on Consolidated Bonds as required by the applicable provisions of the Consolidated Bond Resolution; (ii) payment into the General Reserve Fund of the amount necessary to maintain the

General Reserve Fund at the amount specified in the General Reserve Fund Statutes; and (iii) applications to purposes authorized in accordance with Section 7 of the Consolidated Bond Resolution.

The term “Paying Agent” shall mean the Paying Agent or Paying Agents, individually and collectively appointed by the Authority for and in connection with a particular series of Versatile Structure Obligations or any successor or successors appointed by the Authority.

The term “Port Authority Equipment Notes” shall mean the issue of obligations of the Authority known as “Port Authority Equipment Notes”.

The term “Port Authority Versatile Structure Obligations Resolution” or “this Resolution” shall mean this resolution of the Authority adopted November 18, 1999, entitled “*Port Authority Versatile Structure Obligations Resolution–Modification*”, including any amendments, modifications or supplements hereto.

The term “Prior Resolution” shall mean the resolution of the Authority adopted December 12, 1996, entitled “*Port Authority Versatile Structure Obligations Resolution–Modification*”.

The term “Registrar” shall mean the Registrar appointed by the Authority for and in connection with a particular series of Versatile Structure Obligations or any successor Registrar appointed by the Authority.

The term “Special Project Bonds” shall mean the issue of special limited obligations of the Authority known as “Special Project Bonds”.

The term “Variable Rate Master Notes” shall mean the issue of special obligations of the Authority known as “Port Authority Variable Rate Master Notes”.

The term “Versatile Structure Obligations” shall mean the issue of special obligations of the Authority known as “Port Authority Versatile Structure Obligations”.

SECTION 2. Establishment, Authorization, Terms and Issuance.

(a) Establishment and Authorization of Issue of Versatile Structure Obligations.

An issue of special obligations of the Authority to be known as “Port Authority Versatile Structure Obligations” is established under and pursuant to this Resolution. Versatile Structure Obligations shall be payable from the sources of payment and to the extent provided in Section 2(c) of this Resolution.

(b) General Terms of each Series of Versatile Structure Obligations.

Versatile Structure Obligations may be issued by the Committee on Finance, from time to time, in one or more series, which series may be comprised of one or more installments, and the Committee on Finance may establish such terms and conditions, from time to time, as it deems appropriate in connection with each series or installment of Versatile Structure Obligations, may enter into any contracts or agreements as it deems appropriate in connection with each such series or installment in the name of and on behalf of the Authority and may take such other action as in the opinion of the Committee on Finance will best serve the public interest.

A Designated Officer may take any and all action to be taken by the Committee on Finance under this Resolution (without further action by the Committee on Finance); *provided, however*, that any such action may only be taken by a Designated Officer in connection with a series of Versatile Structure Obligations either (i) issued on a competitive basis, (ii) bearing interest at a variable rate of interest or (iii) issued on a multimodal basis; *provided further, however*, that solely with respect to clauses (ii) and (iii) above, any remarketing agent (or successor thereto) for such series must have been selected on the basis of a request for proposals process pertaining to the selection of a remarketing agent for such series or for any prior series of Versatile Structure Obligations.

(c) Sources of Payment.

The principal of and interest on Versatile Structure Obligations shall be a special obligation of the Authority and shall be payable from the proceeds of obligations of the Authority issued for such purposes, including Consolidated Bonds issued in whole or in part for such purposes, or from Net Revenues deposited to the Consolidated Bond Reserve Fund, and in the event such proceeds or Net Revenues are insufficient therefor, from other moneys of the Authority legally available for such payments when due.

The principal of and interest on Versatile Structure Obligations shall not be payable from the General Reserve Fund and the payment thereof shall be subject in all respects to (i) payment of debt service on Consolidated Bonds as required by the applicable provisions of the Consolidated Bond Resolution and (ii) payment into the General Reserve Fund of the amount necessary to maintain the General Reserve Fund at the amount specified in the General Reserve Fund Statutes.

(d) Application of Proceeds.

The proceeds of each series of Versatile Structure Obligations shall be used (i) for purposes of, or with respect to the financing of, capital expenditures in connection with any one or more of the facilities of the Authority; *provided, however*, that subject to agreements with the holders of obligations of the Authority, the Committee on Finance may authorize all or any portion of the unspent proceeds of any such series of Versatile Structure Obligations to be used for any purpose for which at the time of issuance of such series the Authority was authorized by law to issue its obligations, including for purposes of, or with respect to the financing of, capital expenditures in connection with additional facilities of the Authority certified or to be certified

after issuance of such series; (ii) for purposes of refunding, directly, by offers to exchange, or otherwise, all or any part of any bonds, notes or other obligations of the Authority; and (iii) for certain incidental purposes, including certain costs of, and relating to, such series.

The Committee on Finance may allocate the proceeds of a series of Versatile Structure Obligations, from time to time, to purposes in connection with some but not all of the purposes authorized in this Section 2(d), including the specific designation of any bonds, notes or other obligations to be refunded with the proceeds of such series; *provided, however*, that no portion of the proceeds of any series of Versatile Structure Obligations shall be allocated to purposes in connection with an additional facility of the Authority prior to the initial expenditure of proceeds of the first series of Consolidated Bonds issued for purposes of capital expenditures in connection with such additional facility.

(e) Form and Places of Payment.

Unless otherwise determined by the Committee on Finance, principal of and interest on the Certificates and any other payments pertaining to any of the Certificates shall be payable in lawful money of the United States of America; principal of the Certificates shall be payable upon presentation and surrender of the Certificates by the Certificate Holders, at the office or offices, designated by the Committee on Finance, of the Paying Agent or Paying Agents, in a county which is in whole or in part in the Port District; interest on the Certificates shall be payable when due to the Certificate Holders by check or draft drawn on the Paying Agent or Paying Agents and mailed to the Certificate Holders; and any other payments to the Certificate Holders shall be payable in the manner determined by the Committee on Finance.

(f) Effect of Saturdays, Sundays and Legal Holidays.

If the date for payment of principal of and interest on or the date for any other payments pertaining to any of the Certificates, or the date fixed for maturity or redemption of any of the Certificates shall be a Saturday, a Sunday, a legal holiday or a day on which banking institutions within the Port District are required or authorized by law to remain closed, then such payment or redemption may be made on the next succeeding business day not a Saturday, a Sunday, a legal holiday or a day on which banking institutions within the Port District are required or authorized by law to remain closed, with the same force and effect as if done on the nominal date provided in or pursuant to this Resolution.

(g) Form and Denominations.

Unless otherwise determined by the Committee on Finance, each series of Versatile Structure Obligations shall be issued only in registered form, and the Certificates pertaining to each such series shall be registered as to both principal and interest and not as to either alone in authorized denominations.

(h) Evidence of Ownership.

Unless otherwise determined by the Committee on Finance, the Authority may treat the Holder of a Certificate in whose name such Certificate is registered as the absolute owner of such Certificate for the purpose of receiving payment of the principal thereof and interest thereon and for all other purposes, and the Authority shall not be affected by any notice or knowledge to the contrary.

(i) Mutilated, Lost or Destroyed Certificates.

In case any Certificate shall at any time become mutilated or be lost or destroyed, the Authority, in its discretion, may execute and deliver a new Certificate of like tenor in exchange or substitution for and upon cancellation of such mutilated Certificate or in lieu of or in substitution for such destroyed or lost Certificate; or if such Certificate shall have matured, instead of issuing a substitute Certificate the Authority may pay the same without surrender thereof. In case of destruction or loss, the applicant for a substitute Certificate shall furnish to the Authority evidence satisfactory to the Authority of the destruction or loss of such Certificate and of the ownership thereof and also such security and indemnity as may be required by the Authority. Upon the issuance of any substitute Certificate, the Authority, at its option, may require the applicant for such substitute Certificate to pay a sum sufficient to reimburse the Authority for any stamp tax or other governmental charge or other reasonable expense connected therewith and also a further sum not exceeding the cost of preparation of each new Certificate so issued in substitution. Any Certificate issued under the provisions of this Section 2(i) in lieu of any Certificate alleged to have been destroyed or lost shall constitute an original contractual obligation on the part of the Authority, whether or not the Certificate so alleged to have been destroyed or lost be at any time enforceable by anyone, and shall be equally and proportionately entitled to the security of this Resolution with all other Certificates issued under this Resolution.

(j) Authorization of Distribution of Disclosure Documents.

The Committee on Finance may arrange, from time to time (i) for the preparation and distribution of disclosure documents, including official statements, offering statements or other offering materials pertaining to any series of Versatile Structure Obligations and (ii) for the preparation and distribution of such other documents giving pertinent data with respect to the Authority and its finances as it deems appropriate, in each case, in the name of and on behalf of the Authority.

SECTION 3. Execution of Certificates.**(a) Execution of Certificates.**

Each of the Certificates shall have the official seal of the Authority, or a facsimile thereof, affixed thereto or printed or impressed thereon, and, unless otherwise determined by the Committee on Finance, shall be manually signed by a Designated Officer.

(b) Validity of Signatures on Certificates.

In case any Designated Officer whose signature shall appear on any of the Certificates shall cease to be a Designated Officer before such Certificates shall have been actually issued, such Certificates may nevertheless be issued as though such Designated Officer whose signature appears on such Certificates had not ceased to be a Designated Officer.

SECTION 4. Form of the Certificates.

The form of the Certificates for each series of Versatile Structure Obligations, including provisions with respect to assignment, shall be determined by the Committee on Finance.

SECTION 5. Covenants.

The Authority covenants and agrees that:

(a) The Authority shall duly and punctually pay or cause to be paid to the Certificate Holders all payments to such holders when due, in the manner, to the extent and as specified in their Certificates.

(b) Upon the date of issuance of each series of Versatile Structure Obligations, all conditions, acts and things required by the Constitution or statutes of the States of New York and New Jersey or of the United States of America, or this Resolution to exist, to have happened and to have been performed precedent to or in the issuance of such series shall exist, have happened and have been performed and such series, together with all other indebtedness of the Authority, shall be within every debt and other limit prescribed thereby.

(c) The Authority shall take all actions and shall do all things which it is authorized by law to take and to do in order to fulfill all of its obligations under the provisions of this Resolution, in accordance with the terms of such provisions.

SECTION 6. Limitations on Amount.

The Authority shall not issue new Versatile Structure Obligations, for purposes other than to refund outstanding bonds, notes or other obligations of the Authority (other than Commercial Paper Obligations and Variable Rate Master Notes), if at the time of issuance of such new Versatile Structure Obligations, either:

(a) the total principal amount of all bonds, notes or other obligations of the Authority outstanding as of such time of issuance, including the new Versatile Structure Obligations and excluding Consolidated Bonds, Special Project Bonds, Commercial Paper Obligations and Port Authority Equipment Notes, exceeds twenty-five percent (25%) of the total

principal amount of all bonds, notes and other obligations of the Authority outstanding as of such time of issuance, including the new Versatile Structure Obligations and excluding Special Project Bonds, Commercial Paper Obligations and Port Authority Equipment Notes; or

(b) net revenues for any period of twelve (12) consecutive months during the thirty-six (36) month period preceding such time of issuance shall not have amounted to at least one and fifteen one-hundredths (1.15) times the prospective debt service (computed as hereinafter set forth) for the calendar year after such time of issuance, for which the combined debt service (so computed) upon all obligations outstanding as of such time of issuance which are secured by or payable from net revenues, including the new Versatile Structure Obligations and excluding Commercial Paper Obligations, would be at a maximum. In calculating such prospective debt service there may, at the Authority's option, be substituted for the actual prospective interest payable on any of such obligations secured by or payable from net revenues, including the new Versatile Structure Obligations, prospective interest on any of such obligations, as follows: in the event that any of such obligations (i) bears interest at a fixed interest rate and has a remaining term to maturity of less than three (3) years from such time of issuance, then the interest rate on such obligation shall be deemed to be the higher of the interest rate on such obligation as of such time of issuance and the interest rate on the most recent series of the Authority's obligations with a term to maturity of at least thirty (30) years, or (ii) bears interest on the basis of an interest payment schedule providing for payments less frequently than annually, then the interest rate on such obligation shall be deemed to be the interest rate equal to the yield to maturity of such obligation as of such time of issuance, or (iii) bears interest at a variable interest rate, then the interest rate on such obligation shall be deemed to be the higher of the rate as published in the Revenue Bond Index of *The Bond Buyer* in effect as of such time of issuance (and in the event such Revenue Bond Index is not published as of such time of issuance, then such rate determined on the basis of a comparable index to be selected in the sole discretion of the Committee on Finance) and the average interest rate on such obligation for the twelve (12) calendar months preceding such time of issuance (and in the event such obligation has not been outstanding for a full twelve (12) calendar months preceding such time of issuance, then such average interest rate determined on the basis of the period of time during which such obligation has been outstanding), or (iv) is associated with an interest rate exchange contract, then the interest rate on such obligation shall be deemed to be the effective interest rate for such obligation determined by reference to such interest rate exchange contract, or (v) is convertible from one interest rate mode to another, then the interest rate on such obligation shall be deemed to be the interest rate in effect as of such time of issuance. In addition, in calculating such prospective debt service, in the event that any of such obligations secured by or payable from net revenues, including the new Versatile Structure Obligations, has (i) a term to maturity from such time of issuance of less than three (3) years or (ii) no stated periodic repayment schedule, there may at the Authority's option be substituted for the actual prospective debt service upon any of such obligations, the debt service which would be payable if such obligation was forthwith refunded by a series of Versatile Structure Obligations having the following characteristics: maturity—thirty (30) years from the time of issuance of the new Versatile Structure Obligations; interest—at the rate of interest determined in accordance with the

provisions of the immediately preceding sentence and payable semiannually beginning six (6) months from such time of issuance; amortization—in such annual amounts as would be required to retire the principal amount of such obligation by the thirtieth anniversary of such time of issuance if such annual retirement were effected at par at each anniversary of such time of issuance and if the annual debt service thereon would be equal for all years thereafter until the thirtieth anniversary of such time of issuance.

In the event that the Authority has entered into a contract, prior to the delivery of any obligation to be taken into account in the calculations to be performed under this Section 6, for the sale to and purchase by the other party to such contract upon original issue, and such obligation (or portion thereof) is to be issued solely for the purpose of refunding bonds, notes or other obligations of the Authority, then in such event the time of issuance of such obligation (or portion thereof) shall be deemed to be the date of original issue of such obligation and such obligation (or portion thereof) shall not be deemed to be outstanding prior to such date of original issue. In the event that an obligation (or portion thereof) issued solely for the purpose of refunding bonds, notes or other obligations of the Authority is outstanding, including the new Versatile Structure Obligations, at the same time as the bonds, notes or other obligations of the Authority to be refunded, for purposes of the calculation to be performed under this Section 6 only such obligation (or portion thereof) issued solely for the purpose of refunding such bonds, notes or other obligations of the Authority shall be included and such bonds, notes or other obligations of the Authority to be refunded shall not be deemed to be outstanding for purposes of such calculation.

In the event that any obligation to be taken into account in the calculation to be performed under this Section 6 is subject to tender at the option of the holder or holders of such obligation, then in such event, in all such calculations such obligation shall be deemed to have been issued without such tender rights and without any credit facilities entered into by the Authority with respect to such tender rights; *provided, however*, in the event that upon any payment under such credit facilities to the holder of such obligation, such payment is deemed to be a loan to the Authority and such obligation nevertheless remains outstanding, then in such event, such obligation shall be deemed to have been refunded under such credit facilities through such payment.

Net revenues for purposes of the calculation to be performed under Section 6(b) of this Resolution, may include in the case of fare and tolls increases adopted by the Authority which have not yet been put into effect or have not been in effect for a full year, the additional net revenues estimated by the Authority to be derived annually from such increases.

Net revenues for purposes of the calculation to be performed under Section 6(b) of this Resolution may also include, in the case of facilities (including additions or improvements to facilities) which have not been in operation, in each case during the entire period of the twelve (12) consecutive months selected for the purposes of such calculation (including facilities under construction as of such time of issuance of the new Versatile Structure Obligations or which are to be acquired, established or constructed by the Authority), the average annual net revenues which the Authority estimates will be derived from each of such facilities during the first thirty-six (36) months of operation thereof after such time of issuance; *provided, however*, that debt

service on all additional obligations estimated to be issued to complete such facilities prior to the date any such facilities (including the addition or improvement thereto) become fully operational, is included in calculation of prospective debt service; and *provided further, however*, that the amount of any net revenues estimated under this paragraph shall in no event exceed twenty-five percent (25%) of the net revenues (including any net revenues estimated under the immediately preceding paragraph) determined under Section 6(b) of this Resolution.

In the event that the new Versatile Structure Obligations are issued solely for the purpose of refunding bonds, notes or other obligations of the Authority (other than Commercial Paper Obligations and Variable Rate Master Notes), then no calculations under this Section 6 shall be required at such time of issuance. In the event that the new Versatile Structure Obligations are issued in part for purposes of refunding bonds, notes or other obligations of the Authority (other than Commercial Paper Obligations and Variable Rate Master Notes), then no calculations under this Section 6 shall be required to include the principal amount of such new Versatile Structure Obligations allocated to refunding bonds, notes or other obligations of the Authority (other than Commercial Paper Obligations and Variable Rate Master Notes) or the prospective debt service associated therewith.

SECTION 7. Modifications.

The Authority may from time to time and at any time:

(a) without authorization, consent or other action by any of the Holders of Certificates, amend or modify this Resolution to make any changes or corrections in this Resolution if such changes or corrections are technical wording corrections or changes or are required for the purpose of curing or correcting any ambiguity or defective or inconsistent provision or omission or mistake or error contained in this Resolution or to insert in this Resolution such provisions clarifying matters or questions arising under this Resolution as are appropriate in the sole opinion of the Authority; *provided, however*, that no such amendment or modification made pursuant to this Section 7(a) shall alter or impair the rights of any Holder of a Certificate; and

(b) amend, repeal or modify in the manner hereinafter set forth in this Section 7(b), any of the terms or provisions of this Resolution (or of any resolution amendatory of or supplemental to this Resolution) for any purpose whatsoever (other than any such amendment or modification which may be made pursuant to Section 7(a) of this Resolution) with the express consent of such Holder of a Certificate, subject to the following:

(i) Whenever the Authority shall desire any such amendment, repeal or modification of any of the provisions of this Resolution (or of any resolution amendatory of or supplemental to this Resolution), it shall call a meeting of the holders of Versatile Structure Obligations (or if the amendment, repeal or modification proposed shall affect the rights of the holders of Versatile Structure Obligations of only one or more particular series or installments, then of the holders of Versatile

Structure Obligations of each such series or installment so to be affected) for the purpose of considering and acting upon any such proposed amendment, repeal or modification. A notice specifying the purpose, place, date and hour of such meeting shall be published by the Authority in a daily newspaper of general circulation in the Port District. Such notice shall be published once a week for four (4) consecutive weeks, the first publication to be not less than thirty (30) days nor more than ninety (90) days prior to the date fixed for the meeting. Such notice also shall briefly set forth the nature of the proposed amendment, repeal or modification, and shall state that a copy thereof is on file with the Authority for inspection. On or before the date of the first publication of the notice, a similar written or printed notice shall be mailed by the Authority, postage prepaid by first class mail, certified or registered, in a United States Post Office addressed to the Certificate Holders to which such notice pertains, at their last known addresses as appearing upon the Registry Books for the registration of the Certificates as maintained by the Registrar or Registrars, as appropriate. The actual receipt by any Certificate Holder of such notice shall not be essential to the validity of any such meeting, and a statement by the Authority, duly executed by its Chairman or Vice-Chairman, that the meeting has been called and notice thereof given as herein provided, shall be conclusive as against all parties, and it shall not be open to any Certificate Holder to show that such Certificate Holder failed to receive such notice or to object to the form of such notice; *provided, however*, that such notice shall conform to the provisions of this Section 7(b)(i).

(ii) No person shall be entitled to vote at such meeting unless such person shall be a Certificate Holder or shall hold a proxy duly executed by a Certificate Holder and (1) such person shall present at the meeting a Certificate or Certificates (or in the case of the holder of a proxy, the Certificate or Certificates of the Certificate Holder), or (2) such person shall present at the meeting a receipt of the character described in Section 7(b)(iii) of this Resolution or (3) such person's name (or in the case of the holder of a proxy, the name of the Certificate Holder) shall appear as a Certificate Holder on the list prepared and presented to the meeting by the Registrar or Registrars, as appropriate, as provided in Section 7(b)(iv) of this Resolution.

(iii) Any Certificate Holder may, prior to any such meeting, deliver a Certificate or Certificates, at such Certificate Holder's own expense, to the Registrar of the series of Versatile Structure Obligations to which such Certificate pertains, or to such bank, trust company or national banking association as shall be designated by the Authority, and thereupon shall be entitled to receive an appropriate receipt for the Certificates so deposited, calling for the redelivery of such Certificates at any time after the meeting. A receipt signed by such Registrar, or by such bank, trust company or national banking association that the Certificates have been so deposited, and giving the amount, denomination, series and numbers thereof, shall be sufficient evidence to permit such Certificate Holder, including the holder of a proxy who shall produce such receipt, to be present and to vote at any meeting.

(iv) The Registrar or Registrars, as appropriate, shall prepare and deliver to the Authority at the time of the convening of the meeting, a list of the names and

addresses of the Certificate Holders proposed to be affected by said amendment, repeal or modification, as of the close of business on the day before the date set for the meeting, or the date to which such meeting shall have been adjourned, based upon the Registry Books for the registration of the Certificates as maintained by such Registrar or Registrars, together with a statement of the denominations, series and numbers of the Certificates of such Certificate Holders.

(v) The Authority shall present to the meeting, at the convening thereof, a statement duly executed by its Chairman or Vice-Chairman or by the Chairman or Vice-Chairman of the Committee on Finance, listing the denominations, series and numbers of all Certificates of all series of Versatile Structure Obligations proposed to be affected by said amendment, repeal or modification, owned by it or held for its account directly or indirectly, including any Certificates registered in the name of the Authority or held for the account of the Authority, and no person shall be permitted at the meeting to cast any vote or give any consent because of any Certificates listed on such statement, and no such Certificates (hereinafter referred to as "Authority-owned Certificates") shall be counted in determining any vote at such meeting, including the determination of whether or not a quorum is present.

(vi) A representation of at least sixty percent (60%) in aggregate principal amount of the Versatile Structure Obligations then outstanding (exclusive of Authority-owned Certificates) or, if the amendment, repeal or modification proposed shall only affect one or more particular series or installments of Versatile Structure Obligations, then sixty percent (60%) in aggregate principal amount of the Certificates outstanding (exclusive of Authority-owned Certificates) of each such series or installment so to be affected, shall be necessary to constitute a quorum at any such meeting of Certificate Holders; but less than a quorum may adjourn the meeting from time to time and the meeting may be held as adjourned without further notice, whether such adjournment shall have been held by a quorum or by less than a quorum. The Authority shall designate a Commissioner or other officer of the Authority to preside as temporary chairman, and such temporary chairman shall immediately call for nominations for a permanent chairman for such meeting. Such permanent chairman shall be some person who shall be a Certificate Holder, or the holder of a proxy, entitled to vote at the meeting. At such meeting each person entitled to vote pursuant to Section 7(b)(ii) of this Resolution shall be entitled to the number of votes determined by dividing the total aggregate principal amount of such person's Certificate or Certificates by One Thousand Dollars (\$1,000), and such votes shall be cast by ballot. Except as herein provided, the meeting may adopt its own rules of procedure.

(vii) At any such meeting held as aforesaid, the Authority shall submit for consideration and action of the Certificate Holders of Versatile Structure Obligations or, if the amendment, repeal or modification proposed shall only affect the rights of the Certificate Holders of one or more particular series or installments of each such series or installments to be affected, a proposed resolution embodying the amendment, repeal or modification to be considered by the meeting. If such proposed resolution shall be consented to and approved (either in person or by proxy) by the Certificate

Holders of at least sixty percent (60%) in aggregate principal amount of the Certificates to be affected thereby outstanding at the time (exclusive of Authority-owned Certificates), then, and in such case, the Authority shall thereby be authorized and empowered to adopt such resolution, and any such resolution so adopted by the Authority shall be binding upon all Certificate Holders, whether or not present at such meeting in person or by proxy; *provided, however*, that no such amendment, repeal or modification shall affect the rights of the Certificate Holders of one or more series or installments of Versatile Structure Obligations in a manner or to an extent differing from that in or to which the rights of Certificate Holders of any other series or installments of Versatile Structure Obligations are affected unless such resolution shall be approved (either in person or by proxy) by the Certificate Holders of at least sixty percent (60%) in aggregate principal amount of the Certificates then outstanding (exclusive of Authority-owned Certificates) of each such series or installment so affected; and no Certificate Holder shall have any right or cause to object to the adoption of any such resolution by the Authority or to object to any of the terms or provisions therein contained or the exercise thereof or of the authorization contained therein, or in any manner to question the propriety of the adoption thereof or to enjoin or restrain the Authority from executing the same or from taking any action pursuant to the provisions thereof.

(viii) Minutes of all resolutions adopted and proceedings had at every such meeting shall be made and duly entered in books to be from time to time provided for that purpose by the Authority, and any such minutes as aforesaid, if signed by the chairman of the meeting at which such resolutions were passed or proceedings had, shall be *prima facie* evidence of the matters therein stated, and until the contrary is proved, every such meeting in respect of the proceedings of which minutes shall have been so made and signed and shall be deemed to have been duly held and conveyed, and all resolutions passed thereat or proceedings had thereat shall be deemed to have been duly passed and had.

(ix) In lieu of a meeting of Certificate Holders to approve any amendment, repeal or modification of any of the provisions of this Resolution (or of any resolution amendatory of or supplemental to this Resolution), such approval may be evidenced by written consents of the holders of the requisite percentage of Certificates specified in Section 7(b)(vi) of this Resolution.

Upon the adoption by the Authority of any resolution pursuant to the provisions of this Section 7, this Resolution (and any resolution amendatory of or supplemental to this Resolution) shall be modified and amended in accordance therewith, and the respective rights, duties and obligations of the Authority and all holders of outstanding Certificates shall be thereafter determined, exercised and enforced subject, in all respects, to such modifications and amendments.

SECTION 8. Registrars and Paying Agents.

The Committee on Finance may designate a Registrar and one or more Paying Agents to act as such for and in connection with each series of Versatile Structure Obligations, and may, from time to time, terminate such appointments or designations, designate new, substitute or additional Registrars and Paying Agents, designate separate and different Registrars and Paying Agents in connection with different series or installments of Versatile Structure Obligations, and designate the Authority to act as Registrar or Paying Agent.

SECTION 9. Liability.

Neither any Commissioner nor any officer, agent, representative or employee of the Authority or Designated Officer shall be held personally liable to any Certificate Holder, or under this Resolution, the Prior Resolution or any resolution heretofore or hereafter adopted relating to Versatile Structure Obligations, or because of the issuance or attempted issuance of any of the Versatile Structure Obligations, or because of any act or omission in connection with the construction, acquisition, effectuation, operation or maintenance of any facility of the Authority, or because of any act or omission in connection with the investment or management of the revenues, funds or moneys of the Authority, or otherwise in connection with the management of its affairs, excepting solely for things wilfully done by such person with an intent to defraud or wilfully omitted to be done by such person with an intent to defraud.

SECTION 10. Certifications.

A Designated Officer may, in connection with any series of Versatile Structure Obligations which is issued on the basis that such series is to be in conformity with, and that the interest on such series is not to be includible for Federal income tax purposes in the gross income of the recipients thereof under, Section 103(a) of the Code, or successor provisions of law, and the regulations thereunder, take any action which may be appropriate to assure that such series is issued, and during its term is outstanding on such basis, and any such actions taken in connection therewith are ratified. A Designated Officer may certify on behalf of the Authority as to the need for the issuance of any such series for the purposes for which such series is issued, as to the status of the projects for which the proceeds of such series would be used, as to the Authority's intentions with respect to the application and investment of such proceeds, and as to such other matters as such Designated Officer deems appropriate.

SECTION 11. Determinations.

Whenever in this Resolution it is provided that any selection, designation, determination or estimate shall or may be made in connection with a series of Versatile Structure Obligations, or that any action may be taken or withheld in connection with a series of Versatile Structure Obligations, or that any action which shall or may be taken or withheld is dependent upon opinion, discretion or judgment, then such selection, designation, determination, estimate or action so made, taken or withheld shall be conclusive for the purposes of this Resolution,

whether required to be made, taken or withheld as a condition precedent to the issuance of any such series or for the purpose of determining if all conditions precedent to the issuance of such series exist, or otherwise, the Authority adopting such selection, designation, determination, estimate or action so made, taken or withheld as its own.

SECTION 12. Resolution to Constitute a Contract.

The provisions of this Resolution shall constitute a contract with each Certificate Holder.

SECTION 13. Titles.

Titles to the Sections of this Resolution are solely for convenience and are not an aid in the interpretation of this Resolution or any part of this Resolution.

**PORT AUTHORITY VARIABLE RATE MASTER NOTES RESOLUTION–
MODIFICATION**

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

WHEREAS, The Port Authority of New York and New Jersey (hereinafter referred to as the “Authority”) has been authorized and empowered to issue bonds, notes or other obligations or evidences of indebtedness to provide funds for authorized purposes; and

WHEREAS, on July 14, 1988, the Authority determined to authorize and establish an issue of Port Authority Variable Rate Master Notes (such term and all other terms of special meaning having the meanings ascribed to such terms in or pursuant to Article I of this Resolution); and

WHEREAS, the Authority has heretofore entered into certain variable rate master note agreements with selected banks, trust companies and financial institutions and issued notes thereunder for certain authorized purposes, without prejudice to its rights thereafter from time to time to enter into further and additional agreements (and issue further and additional notes thereunder); and

WHEREAS, the Authority has determined to modify the Prior Resolutions for the purpose of accomplishing certain technical clarifications of various provisions of the Prior Resolutions; and

WHEREAS, Port Authority Variable Rate Master Notes shall continue to be an issue of special obligations of the Authority payable from the sources of payment and to the extent provided in Section 2.03 of this Resolution;

NOW, THEREFORE, be it resolved by the Authority that the Prior Resolutions are modified, with respect to Notes to be issued after the date of this Resolution, and, to the extent not otherwise inconsistent with the provisions of the Prior Resolutions or the provisions of any Variable Rate Master Note Agreement entered into prior to the date of this Resolution, with respect to any Note issued and outstanding under such Variable Rate Master Note Agreement, and as so modified, the Prior Resolutions are restated in their entirety to read as follows:

ARTICLE I. DEFINITIONS.

As used in this Resolution and unless otherwise indicated or unless the context otherwise requires, the following terms shall have the following meanings (such meanings to be equally applicable to both the singular and plural forms of the defined terms). As used in this Resolution, any words or phrases not otherwise defined herein and specifically defined in the Consolidated Bond Resolution shall be read and construed in accordance with such specific definitions.

The term “Authorized Officer” shall mean any of the officers or employees of the Authority designated as such from time to time by the Chairman; Vice-Chairman; Chairman of the Committee on Finance; Executive Director; Deputy Executive Director; Chief Financial Officer; Treasurer; or Assistant Treasurer of the Authority.

The term “Consolidated Bond Reserve Fund” shall mean the special fund by that name established by Section 7 of the Consolidated Bond Resolution.

The term “Consolidated Bond Resolution” shall mean the resolution of the Authority adopted October 9, 1952, entitled “*Consolidated Bonds—Establishment of Issue*”.

The term “Consolidated Bonds” shall mean the issue of obligations of the Authority known as “Consolidated Bonds” (which also includes short-term bonds known as “Consolidated Notes”).

The term “General Reserve Fund” shall mean the special fund by that name established by the General Reserve Fund Statutes.

The term “General Reserve Fund Resolution” shall mean the resolution of the Authority adopted March 9, 1931, entitled “*General Reserve Fund Supporting Bonds Legal for Investment*”, as amended by the resolution of the Authority adopted May 5, 1932, entitled “*Investments: Authority of Finance Committee*”, as further amended by the Consolidated Bond Resolution to conform to the provisions of Section 6 of the Consolidated Bond Resolution.

The term “General Reserve Fund Statutes” shall mean Chapter 5 of the Laws of New Jersey of 1931, as amended, and Chapter 48 of the Laws of New York of 1931, as amended.

The term “Net Revenues”, solely for the purpose of this Resolution, shall mean, with respect to any date of calculation, the revenues of the Authority pledged under the Consolidated Bond Resolution and remaining after (i) payment or provision for payment of debt service on Consolidated Bonds as required by the applicable provisions of the Consolidated Bond Resolution; (ii) payment into the General Reserve Fund of the amount necessary to maintain the General Reserve Fund at the amount specified in the General Reserve Fund Statutes; and (iii) applications to purposes authorized in accordance with Section 7 of the Consolidated Bond Resolution.

The term “Note” shall mean a promissory note of the Authority, issued under and pursuant to a Variable Rate Master Note Agreement to evidence the principal amount outstanding under such Variable Rate Master Note Agreement and any repayments of such principal amount.

The term “Port Authority Variable Rate Master Notes Resolution” or “this Resolution” shall mean this resolution of the Authority adopted November 18, 1999, entitled “*Port Authority Variable Rate Master Notes Resolution—Modification*”, including any amendments, modifications or supplements hereto.

The term "Port Authority Variable Rate Master Notes" shall mean the issue of special obligations of the Authority known as "Port Authority Variable Rate Master Notes".

The term "Prior Resolutions" shall mean the resolution of the Authority adopted July 14, 1988, entitled "*Port Authority Variable Rate Master Note Agreements*", the resolution of the Authority adopted March 9, 1989, entitled "*Port Authority Variable Rate Master Note Agreements with Selected Financial Institutions*", the resolution of the Authority adopted November 14, 1991, entitled "*Port Authority Variable Rate Master Note Resolution*", the resolution of the Authority adopted October 13, 1994, entitled "*Port Authority Variable Rate Master Note Resolution–Modification*" and the resolution of the Authority adopted December 12, 1996, entitled "*Port Authority Variable Rate Master Note Resolution–Modification*".

The term "Variable Rate Master Note Agreement" shall mean an agreement, as the same may be amended or supplemented from time to time, between the Authority and a selected bank, trust company or financial institution, providing, *inter alia*, for the issuance of a Note.

ARTICLE II. ESTABLISHMENT, AUTHORIZATION, TERMS AND ISSUANCE.

SECTION 2.01. Establishment and Authorization of Variable Rate Master Notes. An issue of special obligations of the Authority to be known as "Port Authority Variable Rate Master Notes" is established under and pursuant to this Resolution, and the issuance of Notes from time to time by the Authority to banks, trust companies and financial institutions selected in accordance with the provisions of this Resolution, is authorized. Port Authority Variable Rate Master Notes in an unlimited aggregate principal amount are authorized to be issued for the purposes set forth in Section 2.04 of this Resolution; *provided, however*, that the aggregate principal amount of all Notes outstanding at any one time shall not exceed Four Hundred Million Dollars (\$400,000,000). All Notes issued on and after July 14, 1988 and outstanding prior to the date of this Resolution shall be taken into account for purposes of determining such aggregate principal amount while such Notes are outstanding. All Notes issued on and after July 14, 1988 shall be subject to the terms, conditions and limitations provided or referred to in this Resolution; *provided, however*, that with respect to Notes issued prior to the date of this Resolution, to the extent any such terms, conditions and limitations would be otherwise inconsistent with the terms, conditions and limitations of the Prior Resolutions or of any Variable Rate Master Note Agreement entered into prior to the date of this Resolution, the Prior Resolutions shall continue in full force and effect with respect to such Variable Rate Master Note Agreement and the Note issued and outstanding under such Variable Rate Master Note Agreement. Port Authority Variable Rate Master Notes shall be payable from the sources of payment and to the extent provided in Section 2.03 of this Resolution.

SECTION 2.02. General Terms of the Variable Rate Master Note Agreements and the Notes. An Authorized Officer shall establish such terms and conditions as such Authorized Officer deems appropriate in connection with any Note and any Variable Rate Master Note Agreement, including the selection of the bank, trust company or financial institution to which such Note is to be issued, and is authorized, from time to time, to approve and enter into any

Variable Rate Master Note Agreement and issue a Note under such Variable Rate Master Note Agreement in the name of and on behalf of the Authority under this Resolution.

SECTION 2.03. Sources of Payment. The principal of and interest on Port Authority Variable Rate Master Notes shall be a special obligation of the Authority and shall be payable from the proceeds of obligations of the Authority issued for such purposes, including Consolidated Bonds issued in whole or in part for such purposes, or from Net Revenues deposited to the Consolidated Bond Reserve Fund, and in the event such proceeds or Net Revenues are insufficient therefor, from other moneys of the Authority legally available for such payments when due.

The principal of and interest on Port Authority Variable Rate Master Notes shall not be payable from the General Reserve Fund and the payment thereof shall be subject in all respects to (i) payment of debt service on Consolidated Bonds as required by the applicable provisions of the Consolidated Bond Resolution and (ii) payment into the General Reserve Fund of the amount necessary to maintain the General Reserve Fund at the amount specified in the General Reserve Fund Statutes.

SECTION 2.04. Application of Proceeds. The proceeds of each Note shall be used (a) for purposes of, or with respect to the financing of, capital expenditures in connection with any one or more of the facilities of the Authority; *provided, however*, that subject to agreements with the holders of obligations of the Authority, an Authorized Officer may authorize all or any portion of the unspent proceeds of such Note to be used for any purpose for which at the time of issuance of such Note the Authority was authorized by law to issue its obligations, including for purposes of, or with respect to the financing of, capital expenditures in connection with additional facilities of the Authority certified or to be certified after issuance of such Note; (b) for purposes of refunding, directly, by offers to exchange, or otherwise, all or any part of any bonds, notes or other obligations of the Authority; and (c) for certain incidental purposes, including certain costs of, and relating to, such Note.

An Authorized Officer may allocate the proceeds of any Note, from time to time, to purposes in connection with some but not all of the purposes authorized in this Section 2.04; *provided, however*, that no portion of the proceeds of any Note shall be allocated to purposes in connection with an additional facility of the Authority prior to the initial expenditure of proceeds of the first series of Consolidated Bonds issued for purposes of capital expenditures in connection with such additional facility.

SECTION 2.05. Ownership of Notes. To the extent applicable, the Authority may treat the registered holder of a Note as the absolute owner of such Note for the purpose of receiving payment of the principal thereof and interest thereon and for all other purposes, and the Authority shall not be affected by any notice or knowledge to the contrary.

SECTION 2.06. Mutilated, Lost or Destroyed Notes. In case any Note shall at any time become mutilated or be lost or destroyed, the Authority, in its discretion, may execute and deliver a new Note of like tenor in exchange or substitution for and upon cancellation of such mutilated Note or in lieu of or in substitution for such destroyed or lost Note; or if such Note

shall have matured, instead of issuing a substitute Note the Authority may pay the same without surrender thereof. In case of destruction or loss, the applicant for a substitute Note shall furnish to the Authority evidence satisfactory to it of the destruction or loss of such Note and of the ownership thereof and also such security and indemnity as may be required by the Authority. Upon the issuance of any substitute Note, the Authority, at its option, may require the payment of a sum sufficient to reimburse it for any stamp tax or other governmental charge or other reasonable expense connected therewith and also a further sum not exceeding the cost of preparation of each new Note so issued in substitution. Any Note issued under the provisions of this Section 2.06 in lieu of any Note alleged to have been destroyed or lost shall constitute an original contractual obligation on the part of the Authority, whether or not the Note so alleged to have been destroyed or lost be at any time enforceable by anyone, and shall be equally and proportionately entitled to the security of this Resolution with all other Notes issued hereunder.

SECTION 2.07. Authorization of Distribution of Disclosure Documents. An Authorized Officer may arrange, from time to time (i) for the preparation and distribution of disclosure documents, including official statements, offering statements or other offering materials pertaining to any Note, and (ii) for the preparation and distribution of such other documents giving pertinent data with respect to the Authority and its finances as such Authorized Officer deems appropriate, in each case, in the name of and on behalf of the Authority.

ARTICLE III. FORM AND EXECUTION OF NOTES.

SECTION 3.01. Form of Notes. Unless otherwise provided in a Variable Rate Master Note Agreement with respect to a Note, each Note shall have the official seal of the Authority, or a facsimile thereof, affixed thereto or printed or impressed thereon, and shall be manually signed by an Authorized Officer. Each of the Notes shall be in the form set forth in the Variable Rate Master Note Agreement with respect to such Note, any blank spaces being appropriately filled in.

SECTION 3.02. Execution of Notes. In case any Authorized Officer who shall have signed any Note shall cease to be an Authorized Officer before such Note shall have been actually issued, such Note may nevertheless be issued as though such Authorized Officer who signed such Note had not ceased to be such Authorized Officer.

ARTICLE IV. COVENANTS.

The Authority covenants and agrees that:

(a) The Authority shall duly and punctually pay or cause to be paid to the registered holder of each Note the principal of and interest on such Note, when due, in the manner, to the extent and as specified in the Variable Rate Master Note Agreement pertaining to such Note and such Note.

(b) Upon the date of issuance of each Note, all conditions, acts and things required by the Constitution or statutes of the States of New York and New Jersey or of the United States of America, or this Resolution to exist, to have happened and to have been performed precedent to or in the issuance of such Note shall exist, have happened and have been performed and such Note, together with all other indebtedness of the Authority, shall be within every debt and other limit prescribed thereby.

(c) The Authority shall take all action and shall do all things which it is authorized by law to take and to do in order to fulfill all of its obligations under the provisions of this Resolution, the Variable Rate Master Note Agreement pertaining to each Note and such Note, in accordance with the terms of such provisions.

ARTICLE V. MISCELLANEOUS.

SECTION 5.01. Contract. To the extent applicable, the provisions of this Resolution shall constitute a contract with the registered holder of each Note, and with each party to the Variable Rate Master Note Agreement pertaining to such Note.

SECTION 5.02. Amendments. The Authority may modify or amend this Resolution at any time by a supplemental resolution, without notice to or the consent of any registered holder of any Note or any party to a Variable Rate Master Note Agreement pertaining to such Note, but only in regard to such provisions as shall not materially and adversely affect the interests of such registered holder or party under such Variable Rate Master Note Agreement and Note.

SECTION 5.03. Liability. Neither any Commissioner nor any officer, agent, representative or employee of the Authority or Authorized Officer shall be held personally liable to any purchaser or registered holder of any Note or to any party under any Variable Rate Master Note Agreement or otherwise under this Resolution, the Prior Resolutions or any resolution heretofore or hereafter adopted relating to Port Authority Variable Rate Master Notes, or because of the issuance or attempted issuance of any Note, or because of any act or omission in connection with the construction, acquisition, effectuation, operation or maintenance of any facility of the Authority, or because of any act or omission in connection with the investment or management of the revenues, funds or moneys of the Authority, or otherwise in connection with the management of its affairs, excepting solely for things wilfully done by such person with an intent to defraud or wilfully omitted to be done by such person with an intent to defraud.

SECTION 5.04. Certifications. An Authorized Officer is authorized, in connection with any Note which is issued on the basis that such Note is to be in conformity with, and that the interest on such Note is not to be includible for Federal income tax purposes in the gross income of the recipients thereof under, Section 103(a) of the Internal Revenue Code of 1986, or successor provisions of law, and the regulations thereunder, to take any action which may be appropriate to assure that such Note is issued, and during its term is outstanding, on such basis, and any such actions taken in connection therewith are ratified. An Authorized Officer is authorized to certify on behalf of the Authority as to the need for the issuance of any Note for the purposes for which such Note is issued, as to the status of the projects for which the proceeds of

such Note would be used, as to the Authority's intentions with respect to the application and investment of such proceeds, and as to such other matters as such Authorized Officer deems appropriate.

SECTION 5.05. Determinations. Whenever in this Resolution it is provided that any selection, designation, determination or estimate shall or may be made by an Authorized Officer, or that any action may be taken or withheld by an Authorized Officer, or that any action shall or may be taken or withheld at the option of or dependent upon the opinion, discretion or judgment of an Authorized Officer, then the selection, designation, determination, estimate or action so made, taken or withheld shall be conclusive for the purposes of this Resolution, whether required to be made, taken or withheld as a condition precedent to the issuance of any Note or for the purpose of determining if all conditions precedent to the issuance of such Note exist, or otherwise, the Authority adopting such selection, designation, determination, estimate or action so made, taken or withheld as its own.

SECTION 5.06. Authorized Officers. An Authorized Officer may take any action as in the opinion of such Authorized Officer will effectuate the issuance of any Note under this Resolution or will otherwise best serve the public interest.

SECTION 5.07. Titles. Titles to the Articles and Sections of this Resolution are solely for convenience, and are not an aid in the interpretation of this Resolution or any part of this Resolution.

PORT AUTHORITY EQUIPMENT NOTES RESOLUTION–MODIFICATION

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philiposian, Sartor, Song and Weinstein voting in favor; none against:

WHEREAS, The Port Authority of New York and New Jersey (hereinafter called the “Authority”) has been authorized and empowered to issue bonds, notes or other obligations or evidences of indebtedness to provide funds for authorized purposes; and

WHEREAS, on June 10, 1993 the Authority determined to authorize and establish an issue of Port Authority Equipment Notes (such term and all other terms of special meaning having the meanings ascribed to such terms in or pursuant to Article I of this Resolution); and

WHEREAS, the Authority has heretofore entered into certain equipment note agreements with selected purchasers and issued notes thereunder for certain authorized purposes, without prejudice to its rights thereafter from time to time to enter into further and additional equipment note agreements (and issue further and additional notes thereunder); and

WHEREAS, the Authority has determined to increase the aggregate principal amount of all Port Authority Equipment Notes which may be outstanding at any one time from One Hundred Million Dollars (\$100,000,000) to Two Hundred Fifty Million Dollars (\$250,000,000); and

WHEREAS, the Authority has determined to modify the Prior Resolutions for the purpose of accomplishing certain technical clarifications of various provisions of the Prior Resolutions; and

WHEREAS, Port Authority Equipment Notes shall continue to be an issue of special obligations of the Authority payable from the sources of payment and to the extent provided in Section 2.03 of this Resolution;

NOW, THEREFORE, be it resolved by the Authority that the Prior Resolutions are modified, with respect to Notes to be issued after the date of this Resolution, and, to the extent not otherwise inconsistent with the provisions of the Prior Resolutions or the provisions of any Equipment Note Agreement entered into prior to the date of this Resolution, with respect to any Note issued and outstanding under such Equipment Note Agreement, and as so modified, the Prior Resolutions are restated in their entirety to read as follows:

ARTICLE I. DEFINITIONS.

As used in this Resolution and unless otherwise indicated or unless the context otherwise requires, the following terms shall have the following meanings (such meanings to be equally applicable to both the singular and plural forms of the defined terms). As used in this Resolution, any words or phrases not otherwise defined herein and specifically defined in the Consolidated Bond Resolution shall be read and construed in accordance with such specific definitions.

The term “Authorized Officer” shall mean any of the officers or employees of the Authority designated as such from time to time by the Chairman; Vice-Chairman; Chairman of the Committee on Finance; Executive Director; Deputy Executive Director; Chief Financial Officer; Treasurer; or Assistant Treasurer of the Authority.

The term “Equipment” shall mean any property (other than real property) purchased by the Authority or its wholly-owned subsidiaries for use by the Authority or others.

The term “Equipment Note Agreement” shall mean an agreement, as the same may be amended or supplemented from time to time, between the Authority and a purchaser or purchasers selected by the Authority or designated by a financial services entity selected by the Authority, providing, *inter alia*, for the issuance of a Note to such purchaser or purchasers.

The term “Note” shall mean a promissory note of the Authority, issued under and pursuant to an Equipment Note Agreement to evidence the principal amount outstanding under such Equipment Note Agreement and any repayments of such principal amount.

The term “Port Authority Equipment Notes Resolution” or “this Resolution” shall mean this resolution of the Authority adopted November 18, 1999, entitled “*Port Authority Equipment Notes Resolution–Modification*”, including any amendments, modifications or supplements hereto.

The term “Port Authority Equipment Notes” shall mean the issue of special obligations of the Authority known as “Port Authority Equipment Notes”.

The term “Prior Resolutions” shall mean the resolution of the Authority adopted October 13, 1994, entitled “*Port Authority Equipment Note Resolution–Modification*” and the resolution of the Authority adopted December 12, 1996, entitled “*Port Authority Equipment Note Resolution–Modification*”.

ARTICLE II. ESTABLISHMENT, AUTHORIZATION, TERMS AND ISSUANCE.

SECTION 2.01. Establishment and Authorization of Port Authority Equipment Notes.

An issue of special obligations of the Authority to be known as “Port Authority Equipment Notes” is established under and pursuant to this Resolution, and the issuance of Notes from time to time by the Authority to a purchaser or purchasers selected in accordance with the provisions of this Resolution, is authorized. Port Authority Equipment Notes in an unlimited aggregate principal amount are authorized to be issued for the purposes set forth in Section 2.04 of this Resolution; *provided, however*, that the aggregate principal amount of all Notes outstanding at any one time under this Resolution shall not exceed Two Hundred Fifty Million Dollars (\$250,000,000). All Notes issued on and after October 13, 1994 and outstanding prior to the date of this Resolution shall be taken into account for purposes of determining such aggregate principal amount while such Notes are outstanding. All Notes issued on and after October 13, 1994 shall be subject to the terms, conditions and limitations provided or referred to in this

Resolution; *provided, however*, that with respect to Notes issued prior to the date of this Resolution, to the extent any such terms, conditions and limitations would be otherwise inconsistent with the terms, conditions and limitations of the Prior Resolutions or of any Equipment Note Agreement entered into prior to the date of this Resolution, the Prior Resolutions shall continue in force and effect with respect to such Equipment Note Agreement and the Note issued and outstanding under such Equipment Note Agreement. Port Authority Equipment Notes shall be payable from the sources of payment and to the extent provided in Section 2.03 of this Resolution.

SECTION 2.02. General Terms of the Equipment Note Agreements and the Notes. An Authorized Officer shall establish such terms and conditions as such Authorized Officer deems appropriate in connection with any Note and any Equipment Note Agreement, including the selection of the purchaser or purchasers to which such Note is to be issued or the selection of a financial services entity which shall designate such purchaser or purchasers (*provided, however*, that any placement fee payable by the Authority to such financial services entity shall not exceed one percent (1%) of the principal amount of such Note) and the selection of any remarketing agent for such Note, and is authorized, from time to time, to approve and enter into any Equipment Note Agreement and issue a Note under such Equipment Note Agreement in the name of and on behalf of the Authority under this Resolution.

SECTION 2.03. Sources of Payment. The principal of and interest on Port Authority Equipment Notes shall be a special obligation of the Authority and shall be payable from the proceeds of obligations of the Authority issued for such purposes or from the same revenues and in the same manner as operating expenses of the Authority.

SECTION 2.04. Application of Proceeds. The proceeds of each Note shall be used in connection with the purchase of Equipment by the Authority, to refund obligations issued by the Authority in connection with the purchase of Equipment and/or for certain incidental purposes, including certain costs of, and relating to, such Note.

An Authorized Officer may allocate the proceeds of any Note, from time to time, to purposes in connection with some but not all of the purposes authorized in this Section 2.04.

SECTION 2.05. Ownership of Notes. To the extent applicable, the Authority may treat the registered holder of a Note as the absolute owner of such Note for the purpose of receiving payment of the principal thereof and interest thereon and for all other purposes, and the Authority shall not be affected by any notice or knowledge to the contrary.

SECTION 2.06. Mutilated, Lost or Destroyed Notes. In case any Note shall at any time become mutilated or be lost or destroyed, the Authority, in its discretion, may execute and deliver a new Note of like tenor in exchange or substitution for and upon cancellation of such mutilated Note or in lieu of or in substitution for such destroyed or lost Note; or if such Note shall have matured, instead of issuing a substitute Note the Authority may pay the same without surrender thereof. In case of destruction or loss, the applicant for a substitute Note shall furnish to the Authority evidence satisfactory to it of the destruction or loss of such Note and of the ownership thereof and also such security and indemnity as may be required by the Authority.

Upon the issuance of any substitute Note, the Authority, at its option, may require the payment of a sum sufficient to reimburse it for any stamp tax or other governmental charge or other reasonable expense connected therewith and also a further sum not exceeding the cost of preparation of each new Note so issued in substitution. Any Note issued under the provisions of this Section 2.06 in lieu of any Note alleged to have been destroyed or lost shall constitute an original contractual obligation on the part of the Authority, whether or not the Note so alleged to have been destroyed or lost be at any time enforceable by anyone, and shall be equally and proportionately entitled to the security of this Resolution with all other Notes issued hereunder.

SECTION 2.07. Authorization of Distribution of Disclosure Documents. An Authorized Officer may arrange, from time to time (i) for the preparation and distribution of disclosure documents, including official statements, offering statements or other offering materials pertaining to any Note and (ii) for the preparation and distribution of such other documents giving pertinent data with respect to the Authority and its finances as such Authorized Officer deems appropriate, in each case, in the name of and on behalf of the Authority.

ARTICLE III. FORM AND EXECUTION OF NOTES.

SECTION 3.01. Form of Notes. Unless otherwise provided in an Equipment Note Agreement with respect to a Note, each Note shall have the official seal of the Authority, or a facsimile thereof, affixed thereto or printed or impressed thereon, and shall be manually signed by an Authorized Officer. Each Note shall be in the form set forth in the Equipment Note Agreement with respect to such Note, any blank spaces being appropriately filled in.

SECTION 3.02. Execution of Notes. In case any Authorized Officer who shall have signed any Note shall cease to be an Authorized Officer before such Note shall have been actually issued, such Note may nevertheless be issued as though such Authorized Officer who signed such Note had not ceased to be such Authorized Officer.

ARTICLE IV. COVENANTS.

The Authority covenants and agrees that:

(a) The Authority shall duly and punctually pay or cause to be paid to the registered holder of each Note the principal of and interest on such Note, when due, in the manner, to the extent and as specified in the Equipment Note Agreement pertaining to such Note and such Note.

(b) Upon the date of issuance of each Note, all conditions, acts and things required by the Constitution or statutes of the States of New York and New Jersey or of the United States of America, or this Resolution to exist, to have happened and to have been performed precedent to or in the issuance of such Note shall exist, have happened and have been performed and such Note, together with all other indebtedness of the Authority, shall be within every debt and other limit prescribed thereby.

(c) The Authority shall take all action and shall do all things which it is authorized by law to take and to do in order to fulfill all of its obligations under the provisions of this Resolution, the Equipment Note Agreement pertaining to each Note and such Note, in accordance with the terms of such provisions.

ARTICLE V. MISCELLANEOUS.

SECTION 5.01. Contract. To the extent applicable, the provisions of this Resolution shall constitute a part of the contract with the registered holder of each Note, and with each party to the Equipment Note Agreement pertaining to such Note.

SECTION 5.02. Amendments. The Authority may modify or amend this Resolution at any time by a supplemental resolution, without notice to or the consent of any registered holder of any Note or any party to the Equipment Note Agreement pertaining to such Note, but only in regard to such provisions as shall not materially and adversely affect the interests of such registered holder or party under such Equipment Note Agreement and Note.

SECTION 5.03. Liability. Neither any Commissioner nor any officer, agent, representative or employee of the Authority or Authorized Officer shall be held personally liable to any purchaser or registered holder of any Note or to any party under any Equipment Note Agreement or otherwise under this Resolution, the Prior Resolutions or any resolution heretofore or hereafter adopted relating to Port Authority Equipment Notes, or because of the issuance or attempted issuance of any Note, or because of any act or omission in connection with the construction, acquisition, effectuation, operation or maintenance of any facility of the Authority, or because of any act or omission in connection with the investment or management of the revenues, funds or moneys of the Authority, or otherwise in connection with the management of its affairs, excepting solely for things wilfully done by such person with an intent to defraud or wilfully omitted to be done by such person with an intent to defraud.

SECTION 5.04. Certifications. An Authorized Officer is authorized, in connection with any Note which is issued on the basis that such Note is to be in conformity with, and that the interest on such Note is not to be includible for Federal income tax purposes in the gross income of the recipients thereof under, Section 103(a) of the Internal Revenue Code of 1986, or successor provisions of law, and the regulations thereunder, to take any action which may be appropriate to assure that such Note is issued, and during its term is outstanding, on such basis, and any such actions taken in connection therewith are ratified. An Authorized Officer is authorized to certify on behalf of the Authority as to the need for the issuance of any Note for the purposes for which such Note is issued, as to the status of the equipment purchases or other purposes for which the proceeds of such Note would be used, as to the Authority's intentions with respect to the application and investment of such proceeds, and as to such other matters as such Authorized Officer deems appropriate.

SECTION 5.05. Determinations. Whenever in this Resolution it is provided that any selection, designation, determination or estimate shall or may be made by an Authorized Officer,

or that any action may be taken or withheld by an Authorized Officer, as the case may be, or that any action shall or may be taken or withheld at the option of or dependent upon the opinion, discretion or judgment of an Authorized Officer, as the case may be, then the selection, designation, determination, estimate or action so made, taken or withheld shall be conclusive for the purposes of this Resolution, whether required to be made, taken or withheld as a condition precedent to the issuance of any Note or for the purpose of determining if all conditions precedent to the issuance of such Note exist, or otherwise, the Authority adopting such selection, designation, determination, estimate or action so made, taken or withheld as its own.

SECTION 5.06. Authorized Officers. An Authorized Officer may take any action as in the opinion of such Authorized Officer will effectuate the issuance of any Note under this Resolution or will otherwise best serve the public interest.

SECTION 5.07. Titles. Titles to the Articles and Sections of this Resolution are solely for convenience, and are not an aid in the interpretation of this Resolution or any part of this Resolution.

PORT AUTHORITY COMMERCIAL PAPER PROGRAM

Pursuant to the foregoing report the following resolution was adopted with Commissioners Chasanoff, Donovan, Eisenberg, Kalikow, Mack, Martini, Philibosian, Sartor, Song and Weinstein voting in favor; none against:

RESOLVED, that, to facilitate the continued issuance of Port Authority Commercial Paper Obligations (as defined in the Port Authority Commercial Paper Obligations Resolution adopted November 9, 1995, hereinafter called the "Resolution") and to provide for other actions to be taken by Authorized Officers (as defined in the Resolution, hereinafter called "Authorized Officers") under the Port Authority Commercial Paper Program, the resolution of the Authority adopted December 12, 1996, entitled "*Port Authority Commercial Paper Program*", is modified to rescind the authorization to the Deputy Treasurer of the Authority to designate Authorized Officers, and the authorization to the Assistant Treasurer of the Authority under the Resolution, in this respect, is reinstated.

TRIBUTE TO COMMISSIONER MELVIN L. SCHWEITZER

The following resolution was unanimously adopted expressing the appreciation of the members of the Board of Commissioners of The Port Authority of New York and New Jersey to the Honorable Melvin L. Schweitzer.

WHEREAS, since his appointment by New York Governor Mario M. Cuomo in 1993, the Honorable Melvin L. Schweitzer served with distinction as a member of the Board of Commissioners; and

WHEREAS, Commissioner Schweitzer well and diligently executed his duties as a member of the Audit Committee, and the Committees on Finance and Operations and always gave freely of his time to serve in ad hoc Board business; and

WHEREAS, during his six years on the Board, Commissioner Schweitzer gave tirelessly of his time and expertise to ensure that the interests of the Port Authority, the Port District and the citizens thereof were always of the highest concern; and

WHEREAS, Commissioner Schweitzer played an active role in the oversight of the advancement of the agency's major programs and projects, with particular focus on its capital program and customer service initiatives; and

WHEREAS, Commissioner Schweitzer was an avid proponent of improvements to customer service, and of expanding our employee training programs to effectuate those improvements; through his diligence and attention to detail, he encouraged staff throughout the agency to reach ever increasing levels of excellence.

NOW, THEREFORE, it is

RESOLVED, that the Commissioners of The Port Authority of New York and New Jersey do hereby express their heartfelt appreciation for Commissioner Schweitzer's service to the Port Authority and the people of the Port District; and it is further

RESOLVED, that the Commissioners do hereby direct that this resolution be suitably engraved and presented to Commissioner Melvin L. Schweitzer as a memento from his fellow Commissioners.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period June 1, 1999 to June 30, 1999.

(B) Classified Work

(C) Net Cost - amount in the "Total Authorized" column represents the estimated net cost amount. However, the amount in the "Total Payments" column is the authorized net cost amount.

(D) Extra Work

(E) Increase in classified work in the amount of \$20,217 authorized on 02/08/99.

(F) Increase in extra work in the amount of \$66,000 authorized on 04/04/97.

(G) Increase in extra work in the amount of \$90,000 authorized on 10/21/97.

(H) Premium for furnishing performance and payment bond as provided for in the contract.

(I) Increase in extra work in the amount of \$94,000 authorized on 12/19/97.

(J) The difference between "Total Authorized" and "Total Payments" represents the fact that the contract was mutually terminated, with the Port Authority paying the contractor the amount of \$27,500 pursuant to a negotiated settlement agreement.

(K) Increase in extra work in the amount of \$15,000 authorized on 10/13/98.

(L) The difference between "Total Authorized" and "Total Payments" represents a credit change order in the amount of \$1,300,000 for changes in the scope of work and a deduction from compensation in the amount of \$13,315 for asphalt pavement density.

(M) Increase in extra work in the amount of \$60,000 authorized on 01/06/99.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period July 1, 1999 to July 31, 1999.
