 Jeff Stein, Executive Assistant to the Chairman
 Peter Yerkes, Acting Press Secretary
 Karen Szczepanski, CWA Union Representative

The public meeting was called to order by Chairman Eisenberg at 1:06 p.m. and ended at 1:24 p.m. The Board also met in executive session prior to the public meeting.

Action on Minutes

The Secretary submitted for approval Minutes of the meeting of December 14, 1995. She reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. She reported further that the time for action by the Governors of New York and New Jersey has expired.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Committee on Operations

The Committee on Operations submitted a report, for information, of matters discussed in executive session at its meeting on January 25, 1996, related to lease matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Capital Program/Construction

The Committee on Capital Program/Construction submitted a report, for information, of matters discussed at its meeting on January 25, 1996, which included a discussion in public session of the Capital Program; and a discussion in executive session of lease matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Finance

The Committee on Finance submitted a report, for information, of action taken in executive session at its meeting on December 14, 1995, to purchase excess boiler and machinery insurance, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received.

Karen Szczepanski addressed the Board on behalf of the Port Authority Labor Council regarding the current status of the labor relations process.

Tribute to Guido Vendittoli and Nunzio Tinnirello

We pay tribute today to two lifelong PATH employees who lost their lives in a tragic accident on December 2, 1995.

WHEREAS Guido Vendittoli worked for the railroad when it was still the Hudson & Manhattan Railroad and had over 35 years of dedicated service. He was an accomplished member of PATH's track maintenance team on whom everyone depended to respond to and handle all types of track emergencies. Guido was known for his sensitivity to the needs of his staff and for his commitment to doing whatever it took to get the job done.

WHEREAS Nunzio Tinnirello served the railroad for nearly 28 years and enjoyed a distinguished reputation as someone who could be counted on to use his extensive knowledge and experience to tackle any job whether it was routine or an emergency.

WHEREAS both Guido Vendittoli and Nunzio Tinnirello came from families with long histories of dedicated service to PATH and their commitment to the railroad and the millions of passengers it serves will endure for years to come as the standard to which we, as public servants, must all strive.

NOW THEREFORE BE IT

RESOLVED, that the Board of Commissioners extends to the families of Guido Vendittoli and Nunzio Tinnirello our most sincere sympathies and that we further wish to pay tribute to the memory of these men who dedicated their lives to the railroad they so honorably served.

RESOLVED, that this tribute be suitably engraved and presented to the families of Guido Vendittoli and Nunzio Tinnirello as a sign of the high esteem in which they are held by their colleagues and friends at the Port Authority and PATH.

Tribute to Staff

The following resolution was unanimously adopted:

WHEREAS, on January 7, 1996, the northeast region of the country, including the Port District and the entire States of New York and New Jersey, was hit by a major snowstorm; and

WHEREAS, the men and women of the staff of the Port Authority (and its subsidiaries) coordinated their efforts and worked around the clock to minimize any dangers or adverse impact to the customers, tenants, patrons, and operations at all the facilities of the Port Authority; and

WHEREAS, staff performed key functions to ensure that service at facilities was restored to normal as quickly as possible, and that our patrons were kept well-informed;

Now, therefore be it,

RESOLVED, that the Commissioners of The Port Authority of New York and New Jersey do hereby proudly recognize and commend staff for their dedicated efforts related to the January 7, 1996 snowstorm.

Tribute to Commissioner Vincent Tese

The following resolution was unanimously adopted expressing the appreciation of the Board of Commissioners to Vincent Tese.

WHEREAS, during the years since his 1991 appointment by Governor Mario Cuomo as a Commissioner of the Port Authority of New York and New Jersey, the Honorable Vincent Tese has been a loyal and dedicated member of the Board; and

WHEREAS, during that time Commissioner Tese served with distinction as Vice Chairman of the Board and as a member of the Committee on Finance, the Business Opportunities Committee and the Audit Committee; and

WHEREAS, Commissioner Tese brought to the Port Authority the benefits of his many years of experience in public service;

Now, therefore be it,

RESOLVED, that the Commissioners of The Port Authority of New York and New Jersey do hereby express their sincere appreciation to Vincent Tese for his service to the agency and the region it serves; and it is further

RESOLVED, that the Commissioners hereby direct that this resolution be suitably engraved and presented to Commissioner Vincent Tese as a token of their thanks.

Tribute to Albert Jackson

The following resolution was unanimously adopted, expressing the appreciation of the Board of Commissioners to Albert Jackson.

WHEREAS, during his nearly ten years with the Port Authority, Albert Jackson served with distinction in both the Law and Audit Departments before being named Inspector General in 1992; and

WHEREAS, during his tenure as Inspector General, Al Jackson was committed to ensuring that the agency upheld the highest standards of integrity; and

WHEREAS, under his direction, the Office of Inspector General undertook a mission to promote economy and efficiency through the effective functioning of that office;

Now, therefore be it,

RESOLVED, that the Commissioners of The Port Authority of New York and New Jersey do hereby express their appreciation to Al Jackson for his years of dedicated service to the agency; and it is further

RESOLVED, that the Commissioners do hereby direct that this resolution be suitably engraved and presented to Mr. Albert Jackson as a token of their thanks.

**John F. Kennedy International Airport - Trans World
Airlines, Inc. - Funding for Terminal Improvements - and
Authorization of Lease Extension for Terminals A & B
(AY-583, AYA-073)**

It is recommended that the Board authorize the Executive Director for and on behalf of the Port Authority to enter into agreements with Trans World Airlines, Inc. (TWA) as deemed necessary or desirable to extend TWA's Lease Agreements covering Terminals A & B at John F. Kennedy International Airport for a 5 year term commencing on or about April 1, 1996 and to reimburse TWA or its contractors up to \$15 million for the refurbishment and upgrading of said Terminals. In addition to all other amounts payable under the Lease, TWA will pay an additional rental during the extension period which is financially self-sustaining and based upon the amounts paid to TWA or its contractor. The resolution of the Board adopted at its meeting of June 10, 1993 would be deemed amended and superseded by this action of the Board insofar as it pertains to payment by the Port Authority for the upgrading of TWA's Terminals A & B at John F. Kennedy International Airport.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement or agreements with Trans World Airlines, Inc. (TWA) at John F. Kennedy International Airport for leasing, performance of work and payment of monies, all substantially in accordance with the terms and conditions set forth above, provided that no payment or reimbursement to TWA or its contractors will be made by the Port Authority unless the details of each item of refurbishment and upgrading work to be performed and the cost thereof is reviewed and approved by the Committee on Operations prior to (i) the reimbursement being agreed to and (ii) the work being undertaken; and the form of the agreement or agreements shall be subject to the approval of General Counsel or his authorized representative.

**John F. Kennedy International Airport - Korean Air Lines
Co., Ltd. - Agreement AYC-646 - Lease for Hangars 9/9A
Redevelopment and Special Project Bond Inducement
Resolution**

It was recommended that the Board authorize (a) the Executive Director, for and on behalf of the Port Authority, to enter into an agreement of lease with Korean Air Lines Co., Ltd. (Korean Air) for the demolition of Hangars 9/9A, including asbestos removal, and the design, construction and operation of a cargo facility of approximately 195,000 square feet on and about the site of the existing Hangars 9/9A at John F. Kennedy International Airport; (b) a project and award of contracts to provide paving to the premises under the lease with Korean Air at a project cost of approximately \$1 million and to perform certain subsurface remediation at a project cost of approximately \$1.2 million, both including administrative, engineering and financial expenses, and a project contingency amount; and (c) the Executive Director, for and on behalf of the Port Authority, (1) to award a contract or contracts to the lowest bidder(s), who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable, to provide paving to the premises under the lease with Korean Air and to perform certain subsurface remediation; (2) to take such action with respect to the award of purchase and construction contracts for the foregoing project as he deems in the best interest of the Port Authority; (3) to reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors; and (4) to execute other contracts and supplemental agreements with such bidders and contractors as he deems in the best interest of the Port Authority and to order extra work and net cost work in connection with each contract and agreement if necessary.

The lease will cover the letting of approximately 21 acres at specified rentals which escalate for a term commencing on or about September 1, 1996 and expiring on or about November 30, 2015, with the term being extended five years in the event the Airport Lease with the City of New York is extended, with the lessee being obligated to assume the entire responsibility for all insurance, repair and maintenance, to share in the construction of a new common taxilane under certain circumstances, and to make a good faith effort to achieve stated Minority/Women's Business Enterprise and labor force goals. The lease would also provide that at the lessee's request, the Port Authority would consider the issuance of Special Project Bonds in a principal amount not to exceed \$90,000,000 to provide, in whole or in part, for project costs under and pursuant to the Port Authority Special Project Bond Resolution, adopted June 9, 1983; with debt service on such bonds being a special obligation of the Port Authority payable from the sources and to the extent generally as provided in such resolution, and with the Port Authority's full faith and credit not being pledged to any such bonds. It is anticipated that the lessee would include in the construction costs, to be provided with the proceeds of any such bonds, certain costs incurred prior to the execution of the Lease and the issuance of any such bonds.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Korean Air Lines Co., Ltd. at John F. Kennedy International Airport, substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that a project is hereby authorized to provide paving to the premises under the lease at a cost of approximately \$1 million and to perform certain subsurface remediation at a cost of approximately \$1.2 million, including administrative, engineering, financial expenses and a project contingency; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to bid, solicit or enter into one or more contracts to perform the aforesaid paving and utilities and remediation work substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that an Authorized Officer (as such term is used in connection with Port Authority bonds and notes) be and is hereby authorized, for and on behalf of the Port Authority, to execute a declaration of official intent under Section 1.150-2 of the regulations issued by the United States Department of the Treasury, to provide for the disbursement of certain project costs incurred prior to the execution of the lease and the issuance of special project bonds for purposes of the above-described project; and it is further

RESOLVED, that the form of the agreements in each instance shall be subject to the approval of General Counsel or his authorized representative.

**John F. Kennedy International Airport - Saudi Arabian
Airlines Corp. - Lease Agreement - Building 78**

It was recommended that the Board authorize the Executive Director, for and on behalf of the Port Authority, to enter into a lease agreement with Saudi Arabian Airlines Corp. (Saudia) for space in Building 78 and associated outside areas at John F. Kennedy International Airport to be used for the handling of air cargo.

The lease will provide for a five-year term commencing on or about March 1, 1996 at specified annual rentals. Saudia will be responsible for all operations and non-structural maintenance within the premises. The Port Authority will be responsible for the structural supporting frame, the roof and the exterior walls of the building.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Saudi Arabian Airlines Corp., substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**Newark International Airport - Airis Newark, L.L.C.- New
Cargo Facility - Lease ANA-884 - Project Authorization
and Award of Contracts to Provide Paving and Utilities
and the Relocation of a Portion of Taxiway JB**

It was recommended that the Board authorize (a) the Executive Director, for and on behalf of the Port Authority, to enter into an agreement of lease with Airis Newark, L.L.C. (Airis) for the demolition of the North Terminal Building and Annex and the design, construction, financing and operation of a cargo complex consisting of two cargo buildings of approximately 177,000 square feet and 74,000 square feet, respectively, on and about the site of the existing North Terminal Building at Newark International Airport at an estimated cost of \$30 million; (b) a project and award of contracts to provide paving and utilities to the premises under the lease with Airis and to relocate a portion of taxiway JB at a total project cost not to exceed \$12 million, including administrative, engineering and financial expenses, and a project contingency amount; and (c) the Executive Director, for and on behalf of the Port Authority, (1) to award a contract or contracts to the lowest bidder(s), who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable, to provide paving and utilities to the premises under the lease with Airis and to relocate a portion of taxiway JB; (2) to take such action with respect to the award of purchase and construction contracts for the foregoing project as he deems in the best interest of the Port Authority; (3) to reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors; and (4) to execute other contracts and supplemental agreements with such bidders and contractors as he deems in the best interest of the Port Authority and to order extra work and net cost work in connection with each contract and agreement if necessary.

The lease will cover the letting of approximately 22 acres on the Airport's north side in the immediate area of the North Terminal Building and Annex for a term commencing on or about April 1, 1996 and expiring on or about March 31, 2021, the Lessee being obligated to provide the entire financing for the project itself or through a qualified lender, to remove and dispose of asbestos and lead in the North Terminal and Annex and to perform certain environmental remediation and site restoration. The lessee will pay ground rental consisting of a constant factor subject to annual CPI and mid-term escalation and an Airport Services Factor to be adjusted annually, which rental would be deferred during the construction period and be repaid over the remaining term of the lease with interest; the amount of \$200,000 towards site restoration of the North Terminal area; a 5% fee on certain cargo handling gross receipts; and enter into certain initial sublease agreements with no Port Authority sublease fee, with all subsequent agreements being subject to the appropriate fee. The lessee will assume the entire responsibility for all insurance, repair and maintenance and make a good faith effort to achieve stated Minority/Women's Business Enterprise and labor force goals.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Airis Newark, L.L.C., substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that a project is hereby authorized to provide paving and utilities to the premises under the lease and to relocate a portion of Taxiway JB at a total cost not to exceed \$12 million, including administrative, engineering, financial expenses and a project contingency; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to bid, solicit or enter into one or more contracts to perform the aforesaid paving and utilities and relocation work, substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that the form of the agreements in each instance shall be subject to the approval of General Counsel or his authorized representative.

**Port Authority Bus Terminal - Harry M. Stevens, Inc. - Lease
Surrender Agreement**

It was recommended that the Board authorize the Executive Director to enter into an agreement with Harry M. Stevens, Inc. (Stevens) providing for the surrender of its premises at the Port Authority Bus Terminal (PABT).

In 1981, Stevens commenced the operation of a store for the retail sale of sports apparel at the PABT. Stevens' lease at the PABT was extended in 1987 for a ten year term expiring on June 30, 1997. Stevens' business gradually declined and was closed in October 1991 with Stevens continuing to make rental payments to the Port Authority to March 1995 at which time Stevens was purchased by Aramark Corporation. Stevens' premises consists of two locations in the North Wing of the PABT constituting a total of 2,475 square feet of which 1,545 square feet was used for retail purposes and 930 square feet was used for back office space.

It is proposed that Stevens will enter into an agreement surrendering all of its premises under its lease to the Port Authority effective as of December 31, 1995 and will make a lump sum payment to the Port Authority upon the execution of the surrender agreement in the amount of \$85,000. This payment will result in Stevens having paid rent to the Port Authority for approximately nine years of the ten-year term.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Harry M. Stevens, Inc. providing for the surrender of its premises at the Port Authority Bus Terminal, substantially in accordance with the terms and conditions outlined above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**The World Trade Center - National Development and Research
Institutes, Inc. - Lease Agreement**

It was recommended that the Board authorize the Executive Director to enter into an agreement of lease with National Development and Research Institutes, Inc. (NDRI) covering the letting of the entire sixteenth floor of Two World Trade Center constituting approximately 44,325 rentable square feet of space; and to enter into a brokerage agreement with Edward S. Gordan Company, Incorporated in connection with such lease agreement.

NDRI is a highly regarded, tax exempt, not-for-profit organization involved in developing solutions to current public health problems such as substance abuse, mental health problems, HIV/AIDS and related medical and social concerns. The proposed agreement of lease will commence on or about the execution of the lease agreement and will be for a term of approximately fifteen and one-half years. NDRI will pay an aggregate rental over the fifteen rent-paying years of the term of approximately \$21 million. A brokerage commission will be payable to Edward S. Gordon Company, Incorporated calculated in accordance with the rates previously authorized by the Board at its meeting of August 11, 1977.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with National Development and Research Institutes, Inc. covering the letting of the entire sixteenth floor of Two World Trade Center and to enter into a brokerage agreement with Edward S. Gordon Company, Incorporated in connection with such letting, substantially in accordance with the terms and conditions outlined above; the form of the agreement in each instance shall be subject to the approval of General Counsel or his authorized representative.

**Elizabeth-Port Authority Marine Terminal - Maher Terminals,
Inc. - Amendment to Fleet Street Lease**

It was recommended that the Board authorize the Executive Director to enter into an agreement with Maher Terminals, Inc. (Maher) to amend Maher's lease covering the Fleet Street Terminal to lower the throughput rental payable with respect to a specified category of cargo containers loaded onto or discharged from vessels berthing at the Fleet Street Terminal or at the marine terminal on Tripoli Street leased by Maher (collectively, the Maher Terminals). Effective January 1, 1994 and continuing through the term of the letting of the Fleet Street Terminal, the throughput rental will be reduced by two-thirds on containers under the control of Hanjin Shipping Co., Ltd. and loaded onto or discharged from vessels owned or operated by Yangming Marine Transport Corp. and transported through or from either of the Maher Terminals without any interim storage thereon.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Maher Terminals, Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

Elizabeth-Port Authority Marine Terminal - Maher Terminals,
Inc. - Lease EP-148, Supplement No. 9 - Amendment of
Fleet Street Terminal Lease

It was recommended that the Board authorize the Executive Director: (1) to enter into an agreement with Maher Terminals, Inc. (Maher) to amend Maher's lease covering the Fleet Street Terminal to provide for berth/bulkhead construction and the deepening of 1,000 linear feet of berth, and (2) to take such action, with respect to approval of tenant generated contracts and the award of Port Authority contracts, to implement a project to deepen certain berths as deemed in the best interest of the Port Authority, including award to the lowest qualified bidder, who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable; reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or contractors as deemed in the best interest of the Port Authority, and to order extra work and net cost work in connection with each contract, including supplemental agreements thereto.

The agreement will require Maher to perform construction work on 1,200 linear feet of berth/bulkhead at the premises to prepare the berth to be dredged to a depth of 45 feet, with Maher to be reimbursed by the Port Authority in an amount not to exceed \$6 million for the cost of this work. Upon completion of its berth/bulkhead preparation work, Maher will no longer be liable for claims or demands arising out of structural defects in the work except for claims or demands resulting from its negligence. The Port Authority will be required to dredge the berth to a depth of 45 feet and dispose of the dredged material, subject to the condition that the dredging will be deemed completed upon the expenditure by the Port Authority of \$5.5 million on the dredging project. In addition, if prior to the commencement of the dredging work the Port Authority's estimate of the total cost of the dredging project exceeds \$100 per cubic yard of dredged material, the Port Authority's dredging obligation will be canceled. Maher will pay additional rental in an amount sufficient for the Port Authority to recover a majority share of its costs of the berth/bulkhead preparation work and a minority share of the total cost of the dredging project. The Port Authority will be obligated to maintain the berth at the depth reached upon completion of the dredging work, subject to its having the required governmental authorizations to dredge and dispose of the dredged material.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Maher Terminals, Inc. and to implement a project to deepen certain berths, substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

John F. Kennedy International Airport - U.S. Affiliates,
Inc. - Lease Agreement - Brokerage Agreement - Greiner-
Maltz Company, Inc.

It was recommended that the Board authorize the Executive Director, for and on behalf of the Port Authority, to enter into a lease agreement with U.S. Affiliates, Inc. (U.S. Affiliates) covering the leasing of space in Building 208 and associated outside areas at John F. Kennedy International Airport.

U.S. Affiliates will use the premises under the Lease as warehouse space in connection with its warehousing contract for the U.S. Postal Service including the sorting and distributing of air mail packaging material and warehouse general postal support equipment; in the event, however, that U.S. Affiliates is not awarded or does not enter into the contract with the U.S. Postal Service for said warehousing and other services, the Port Authority and U.S. Affiliates shall each have the right to cancel the Lease.

The Port Authority will be responsible for certain costs of asbestos abatement, installation of electric and water meters and certain fire code compliance and certain other work.

The Lease will be for a two-year term commencing on or about March 1, 1996, with four two-year options to extend. During the first year, the Lease will provide for incremental phased-in occupancy.

U.S. Affiliates will be responsible for preparing the premises for its occupancy. U.S. Affiliates will also be responsible for operation and maintenance within the premises.

It was also recommended that the Board authorize the Executive Director, for and on behalf of the Port Authority, to enter into a brokerage agreement with Greiner-Maltz Company, Inc. (Greiner-Maltz) whereby the Port Authority will pay to Greiner-Maltz a brokerage fee, conditioned upon and following the execution by the Port Authority of the said Lease with U.S. Affiliates and the entering into possession of the premises by U.S. Affiliates, with the Port Authority retaining the right to reject any lease or any lease term proposed by Greiner-Maltz or U.S. Affiliates, with said brokerage fee to be equal to commissions at the rate of seven percent (7%) of gross annual rental of each of the first three years, and additional commissions at the rate of three percent (3%) of gross annual rental of each of the succeeding years; with the payment of the additional commissions for each extension year to be conditioned upon the successful exercise of the option applicable to such extension year.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with U.S. Affiliates, Inc. for the rental of space and outside areas at John F. Kennedy International Airport, substantially in accordance with the terms set forth above; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a brokerage agreement with Greiner-Maltz Company, Inc. for the payment by the Port Authority of brokerage commissions after the execution of the aforesaid lease agreement between the Port Authority and U.S. Affiliates, Inc. and in the amounts and subject to such conditions substantially in accordance with the terms set forth above; and it is further

RESOLVED, that the form of the lease agreement and of the brokerage agreement shall be subject to the approval of General Counsel or his authorized representative.

**Brooklyn-Port Authority Marine Terminal (East River Piers) -
Partial Lease Surrender to New York City of Part of
Parcel 4 and Agreement with the City for Consulting
Services to the City regarding a Dredging Project at the
City's South Brooklyn Marine Terminal**

It was recommended that the Board authorize the Executive Director to (1) enter into an agreement to amend the Port Authority's lease with the City of New York (the City) covering parts of the Brooklyn-Port Authority Marine Terminal, dated November 5, 1968, principally to effectuate the surrender, effective January 1, 1996, of approximately 35,439 square feet of predominantly underwater land, being a part of lease Parcel 4 and constituting a portion of the real property under such lease, with a consequent reduction in rent of approximately \$4,460 per annum from said effective date to the end of September, 2008, and of about \$5,355 per annum thereafter; and (2) to enter into an agreement with the City to provide it, without charge, advice and assistance on a consulting basis, up to a value of \$39,000, as calculated by the Port Authority, in connection with the City's proposed dredging of its South Brooklyn Marine Terminal.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into two agreements with the City of New York, one, as an amendment to its lease with the City of New York covering parts of the Brooklyn-Port Authority Marine Terminal, dated November 5, 1968, to provide principally for the surrender of a portion of the leased property, and, the second, to provide for certain consulting services to the City in connection with the City's proposed dredging of its South Brooklyn Marine Terminal, both to be substantially in accordance with the terms and conditions set forth above; the form of the agreement in each instance shall be subject to the approval of General Counsel or his authorized representative.

(Board - 2/8/96)

**New Jersey Facilities - Declaration of Environmental
Restrictions Concerning Remediation Standards**

It was recommended that the Board authorize the Executive Director with respect to Port Authority/Port Authority Trans-Hudson Corporation (PATH)-owned or leased property in New Jersey to sign such documents, including but not limited to, agreements with municipalities, as may be necessary for a Declaration of Environmental Restrictions (DER) to be executed and filed in the County Register's Office, allowing, among other matters, contaminated soils to remain on site without remediation to residential criteria.

On July 15, 1993, the Board authorized the Executive Director to enter into Memoranda of Agreement (MOAs) with the New Jersey Department of Environmental Protection (NJDEP) for the purpose of participating in the State of New Jersey's Voluntary Site Remediation Program. MOAs have been executed with NJDEP covering remediation activities at the Hoboken Piers, Newark International Airport and lands in the vicinity of the following additional facilities: Holland Tunnel, Lincoln Tunnel, Goethals Bridge, Bayonne Bridge, Outerbridge Crossing, George Washington Bridge and the Hackensack River Bridge. Also, execution of an MOA is pending for the New Jersey Marine Terminals. Once an investigation and, if necessary, a cleanup is completed under an MOA, the NJDEP will issue a letter stating that, subject to certain conditions, "no further action" is required for the site or portion thereof governed by the MOA.

In certain cases, where a residential level of cleanup practicably cannot be met, a DER may be required. The DER informs prospective holders of an interest in the property that contamination exists which may restrict certain uses of, or access to, all or portions of the property and requires that notice of the environmental condition be transmitted to the governing body of the municipality in which the property is located. A DER may also require certain engineering controls such as capping, fencing, monitor wells, etc. in order to protect human health and the environment given the anticipated non-residential use of the property for industrial or commercial purposes. DERs must be executed by the property owner. Port Newark and that portion of Newark International Airport within the City of Newark are owned by the City and leased to the Port Authority. A proposed agreement with the City of Newark would have the City agree upon the request of the Port Authority to sign a DER approved by NJDEP on certain port or airport lands covered by the lease. Furthermore, the City would agree to permit the Port Authority to surrender the land affected by the DER in a non-residential condition upon the Marine and Air Terminals lease's expiration.

This delegation of authority to the Executive Director will minimize future administrative procedures by obviating the need to seek Board approval on a case-by-case basis. Additionally, the Board's action will permit the Executive Director to execute appropriate documents, including those necessary to secure NJDEP approval for real property under Port Authority/PATH jurisdiction to be remediated to a non-residential soil remediation criteria or where engineering or institutional controls are used in lieu of remediating a site to meet an established remediation standard for soil, groundwater or surface water.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized with respect to Port Authority/Port Authority Trans-Hudson Corporation (PATH)-owned or leased property in New Jersey to sign such documents, including but not limited to, agreements with municipalities, as may be necessary for a Declaration of Environmental Restrictions (DER) to be executed and filed in the County Register's Office, allowing, among other matters, contaminated soils to remain on site without remediation to residential criteria; the form of all documents to effectuate the aforesaid shall be subject to the approval of General Counsel or his authorized representative.

**Bank for Regional Development - Reallocation of Funds from
the Jersey City Homeless Drop-In Center to the City of
Jersey City**

It was recommended, at the request of Governor Whitman, that the Board authorize the reallocation of \$1 million of Bank for Regional Development funds (Bank I), previously committed to the Jersey City Homeless Drop-In Center, to the City of Jersey City for capital improvements in the Journal Square area, primarily along Kennedy Boulevard on properties contiguous to the Journal Square Transportation Center (JSTC).

The improvements will enhance the safety and cleanliness of the Journal Square area and promote its commercial vitality. PATH's JSTC accounts for a significant portion of the commercial real property in the area, and this money will serve to preserve, protect, and enhance the value of JSTC, its revenue-producing capacity and its role in fostering economic development for Journal Square.

On February 9, 1989, the Board authorized the President of PATH to enter into agreements that would direct up to \$1.3 million for the acquisition and renovation of a drop-in center for the homeless in the Journal Square area of Jersey City. As a result of community opposition and a change in the City administration, the developer, Let's Celebrate, in consultation with Jersey City, the State of New Jersey and the Port Authority, withdrew its plans for the project.

Jersey City has committed approximately \$2 million to the proposed capital improvements. The agreement with Jersey City will provide that the Port Authority will be obligated to make \$1 of actual payments for improvements for each \$2 of such payments made by Jersey City.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that \$1 million of Bank for Regional Development funds (Bank I), previously committed to the Jersey City Homeless Drop-In Center, is hereby reallocated for capital improvements (the improvements) in the Journal Square area, primarily along Kennedy Boulevard on properties contiguous to the Journal Square Transportation Center; and it is further

RESOLVED that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into such agreements with Jersey City and/or other appropriate entities as are necessary to provide the reallocated amount for the improvements, the form of such agreements shall be subject to the approval of General Counsel or his authorized representative.

**Bank for Regional Development - Harlem International Trade
Center - Reallocation of Harlem International Trade
Center Corporation Escrow Account**

It was recommended, at the request of Governor Pataki, that the Board: (1) in connection with the Bank for Regional Development, reallocate the funds held by the New York State Urban Development Corporation (now doing business as Empire State Development) (ESD) under the terms of an escrow agreement entered into among ESD, the Port Authority and Harlem International Trade Center Corporation (HITCC) from the Harlem International Trade Center to a program of New York State transportation, terminal, and/or economic development capital projects within the New York portion of the Port District (the Program) which meet applicable criteria and (2) authorize the Executive Director to (i) take appropriate steps to cancel the Port Authority's lease agreement with HITCC and (ii) enter into an agreement with ESD and/or other appropriate public entities to effectuate the Program.

Each of the projects would be subject to the approval of the Executive Director. The Commissioners will be given an opportunity to review and comment on any projects prior to their approval by the Executive Director.

The projects eligible for funding under the Port Authority's applicable legal criteria, which would have to be met for each project, could include, among others, marine terminal improvements, rail freight projects, improvements to some roadways in the vicinity of the Trans-Hudson crossings or other Port Authority facilities and industrial development projects as defined in the Port Authority's Industrial Development Legislation. In addition, the agreement with ESD will provide that no funds can be used for projects that would result in the relocation of any business from New Jersey to New York.

The agreement will make clear that the Port Authority will not undertake any design, effectuation, operating, maintenance, planning, environmental, construction or other responsibilities in connection with any projects receiving funds.

The Board, at its meeting on March 10, 1988, authorized the Executive Director under the Bank for Regional Development to enter into an Agreement of Lease (the Lease) with HITCC for the leasing of space for trade and related activities at the Harlem International Trade Center at a rental equal to the lesser of one-third of the overall project cost or \$48.5 million, on a present value basis as of the date of the lease commitment, and authorized \$1.5 million to fund the necessary planning (including the required funding for a project planning team) by HITCC. On August 30, 1990 the Board eliminated the requirement with respect to project costs and authorized the transfer of funds authorized on March 10, 1988 to ESD as Escrow Agent.

Since the original authorization by the Board in March 1988 the HITCC has been granted four extensions (March 12, 1992; March 1, 1993; July 14, 1994; and September 28, 1995) to meet certain deadlines set forth in the escrow agreement and the Lease and has been authorized to draw down \$6.3 million from the escrow account for costs associated with project planning and design.

Undisbursed amounts in the escrow account are available for recommitment for Regional Economic Development projects at the request of the Governor of New York.

To date, inclusive of this authorization, the Board of Commissioners has authorized all of the \$112,500,000 available for Bank for Regional Development projects in the State of New York.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED that, (1) in connection with the Bank for Regional Development, the funds held by New York State Urban Development Corporation (ESD) under the terms of an escrow agreement entered into among ESD, the Port Authority and Harlem International Trade Center Corporation (HITCC) are hereby reallocated from the Harlem International Trade Center to a program of New York State transportation, terminal, and/or economic development capital projects within the New York portion of the Port District (the Program) which meet applicable legal criteria and (2) the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to (i) take appropriate steps to cancel the Port Authority's lease agreement with HITCC and (ii) enter into an agreement with ESD and/or other appropriate public entities to effectuate the Program; and be it further

RESOLVED, that the form of each agreement entered into pursuant to the above authorizations shall be subject to the approval of General Counsel or his authorized representative.

The World Trade Center - Agreement with Prompt Maintenance Service Inc. for Resolution of Contract Claims

It was recommended that the Board authorize the Executive Director to enter into an agreement with Prompt Maintenance Service Inc., (Prompt) to settle claims related to Prompt's World Trade Center cleaning contract. During the contract period, \$895,000 in Prompt invoices were not paid based upon several contractual disputes between the parties. Lawsuits were brought and extensive discovery was conducted. Staff now believes that Prompt has a credible position on a substantial portion of the disputed invoices justifying a settlement whereby Prompt would receive a final settlement of \$310,000. Staff believes that this recommendation is in the Port Authority's best interest.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to pay Prompt Maintenance Service, Inc., \$310,000 in full settlement of its claims related to a World Trade Center cleaning contract, with the parties executing mutual releases.

Bayonne Bridge - Settlement of Claim Against Silver Express Shipping and Silver Carriers S.A.

It was recommended that the Board authorize the Executive Director to enter into an agreement with Silver Express Shipping and Silver Carriers S.A. (Silver Express) to settle Port Authority claims relating to an incident on October 11, 1991 when the vessel Silver Express struck the Bayonne Bridge. Under this arrangement, the Port Authority would receive a \$175,000 payment to resolve its claims against Silver Express as a result of this incident. The corporate entities are defunct and the vessel was sold at public auction in Hong Kong. Thus, any judgment obtained would not likely be collectible. Staff believes that this recommendation is in the Port Authority's best interest.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to settle Port Authority claims against Silver Express Shipping and Silver Carriers S.A., as a result of an incident when the vessel Silver Express struck the Bayonne Bridge, by accepting the sum of \$175,000 as full settlement of its claims.

Howland Hook - Settlement of Certain Claims against McLean Industries, Inc. (U.S. Lines)

It was recommended that the Board authorize General Counsel to accept the sum of \$300,000 in full settlement of the Port Authority's claim of \$530,233 against McLean Industries, Inc. (U.S. Lines) (the Debtor) in resolution of the Port Authority's environmental administrative claim in this Chapter 11 bankruptcy case.

Environmental damages resulted from a release of pollutants from drums stored at Howland Hook by the Debtor. The Port Authority commenced and has now completed an environmental clean-up of the site at a final cost of \$530,233. Staff has negotiated a settlement in the sum of \$300,000 to be paid by the Debtor to the Port Authority in one payment pursuant to the terms of a Stipulation to be executed between the parties. This settlement will recoup 56.5% of the Port Authority's documented claim.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to accept the sum of \$300,000 in full settlement of the Port Authority's administrative claim for environmental clean-up damages against McLean Industries, Inc. (U.S. Lines).

**John F. Kennedy International and LaGuardia Airports -
Settlement of Administrative Proceeding with United
States Environmental Protection Agency**

It was reported that the United States Environmental Protection Agency and Port Authority staff have reached an agreement on a settlement regarding alleged violations under the Toxic Substances Control Act. A twenty-count complaint, filed in September 1993, sought penalties of \$289,000 for the alleged improper use of PCB transformers as well as the alleged failure to inspect and properly mark such PCB transformers at John F. Kennedy International and LaGuardia Airports. The settlement provides for (1) a cash payment not to exceed \$20,000; and (2) two supplemental environmental benefit projects described herein.

The first supplemental environmental benefit project involves the recycling of fluorescent bulbs at Port Authority facilities for a period of three years. These bulbs, which contain mercury, a hazardous substance, are currently disposed of as hazardous waste. The net cost of recycling these bulbs, net of current disposal costs, is approximately \$22,000.

The second environmental benefit project entails the implementation of a stormwater management educational program at John F. Kennedy International and LaGuardia Airports, based on the model that was recently initiated at Newark International Airport. The two New York airports operate near a major watershed, and stormwater management is critical to the protection of water quality. The training program would be offered at no charge to airport tenants, including airlines, contractors and service providers, at an estimated cost to the Port Authority of \$90,000.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a settlement agreement with the U.S. Environmental Protection Agency (U.S. EPA) for all alleged violations relating to the Toxic Substances Control Act at John F. Kennedy International and LaGuardia Airports providing for: (1) a payment not to exceed \$20,000 to the U.S. EPA; and (2) funding of two supplemental environmental benefit projects to be used for: (a) the recycling of fluorescent bulbs at Port Authority facilities for a three-year period, replacing the current process of hazardous waste disposal, for a net cost of \$22,000; and (2) implementing a stormwater management education program at no charge to airport tenants, including airlines, contractors, and service providers, at an estimated cost of \$90,000; and it is further

RESOLVED, that the form of all documents required to effectuate the aforesaid shall be subject to the approval of General Counsel or his authorized representative.

Settlement of Claim - Terrence T. Tully v. The Port Authority of New York and New Jersey

It was recommended that General Counsel be authorized to enter into a settlement with Terrence T. Tully, and his attorney, in the amount of \$125,000 inclusive of attorney fees, interest, costs, disbursements and any and all liens in exchange for a general release and stipulation of discontinuance with prejudice.

This settlement will fully resolve plaintiff's claim for damages arising out of an incident on July 12, 1987 at John F. Kennedy International Airport in which plaintiff claims he was injured due to the actions of Port Authority police officers in handcuffing and transporting him to the police desk thereat. As a result he underwent three operations to his left wrist including removal of bone and pinning.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to settle the pending action, entitled Terrence T. Tully v. The Port Authority of New York and New Jersey, for the total amount of \$125,000 inclusive of attorney fees, costs, disbursements and any and all liens, by paying said amount to plaintiff and his attorney in exchange for a general release and stipulation of discontinuance with prejudice, in full settlement of the claim.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period November 1, 1995 to December 31, 1995.

 Karen Szczepanski, CWA Union Representative

The public meeting was called to order by Chairman Eisenberg at 1:06 p.m. and ended at 1:24 p.m. The Board also met in executive session prior to the public meeting.

Action on Minutes

The Secretary submitted for approval Minutes of the meeting of December 14, 1995. She reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. She reported further that the time for action by the Governors of New York and New Jersey has expired.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Committee on Operations

The Committee on Operations submitted a report, for information, of matters discussed in executive session at its meeting on January 25, 1996, related to lease matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Capital Program/Construction

The Committee on Capital Program/Construction submitted a report, for information, of matters discussed at its meeting on January 25, 1996, which included a discussion in public session of the Capital Program; and a discussion in executive session of lease matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Finance

The Committee on Finance submitted a report, for information, of action taken in executive session at its meeting on December 14, 1995, to purchase excess boiler and machinery insurance, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received.

Karen Szczepanski addressed the Board on behalf of the Port Authority Labor Council regarding the current status of the labor relations process.

Tribute to Guido Vendittoli and Nunzio Tinnirello

We pay tribute today to two lifelong PATH employees who lost their lives in a tragic accident on December 2, 1995.

WHEREAS Guido Vendittoli worked for the railroad when it was still the Hudson & Manhattan Railroad and had over 35 years of dedicated service. He was an accomplished member of PATH's track maintenance team on whom everyone depended to respond to and handle all types of track emergencies. Guido was known for his sensitivity to the needs of his staff and for his commitment to doing whatever it took to get the job done.

WHEREAS Nunzio Tinnirello served the railroad for nearly 28 years and enjoyed a distinguished reputation as someone who could be counted on to use his extensive knowledge and experience to tackle any job whether it was routine or an emergency.

WHEREAS both Guido Vendittoli and Nunzio Tinnirello came from families with long histories of dedicated service to PATH and their commitment to the railroad and the millions of passengers it serves will endure for years to come as the standard to which we, as public servants, must all strive.

NOW THEREFORE BE IT

RESOLVED, that the Board of Commissioners extends to the families of Guido Vendittoli and Nunzio Tinnirello our most sincere sympathies and that we further wish to pay tribute to the memory of these men who dedicated their lives to the railroad they so honorably served.

RESOLVED, that this tribute be suitably engraved and presented to the families of Guido Vendittoli and Nunzio Tinnirello as a sign of the high esteem in which they are held by their colleagues and friends at the Port Authority and PATH.

Tribute to Staff

The following resolution was unanimously adopted:

WHEREAS, on January 7, 1996, the northeast region of the country, including the Port District and the entire States of New York and New Jersey, was hit by a major snowstorm; and

WHEREAS, the men and women of the staff of the Port Authority (and its subsidiaries) coordinated their efforts and worked around the clock to minimize any dangers or adverse impact to the customers, tenants, patrons, and operations at all the facilities of the Port Authority; and

WHEREAS, staff performed key functions to ensure that service at facilities was restored to normal as quickly as possible, and that our patrons were kept well-informed;

Now, therefore be it,

RESOLVED, that the Commissioners of The Port Authority of New York and New Jersey do hereby proudly recognize and commend staff for their dedicated efforts related to the January 7, 1996 snowstorm.

Tribute to Commissioner Vincent Tese

The following resolution was unanimously adopted expressing the appreciation of the Board of Commissioners to Vincent Tese.

WHEREAS, during the years since his 1991 appointment by Governor Mario Cuomo as a Commissioner of the Port Authority of New York and New Jersey, the Honorable Vincent Tese has been a loyal and dedicated member of the Board; and

WHEREAS, during that time Commissioner Tese served with distinction as Vice Chairman of the Board and as a member of the Committee on Finance, the Business Opportunities Committee and the Audit Committee; and

WHEREAS, Commissioner Tese brought to the Port Authority the benefits of his many years of experience in public service;

Now, therefore be it,

RESOLVED, that the Commissioners of The Port Authority of New York and New Jersey do hereby express their sincere appreciation to Vincent Tese for his service to the agency and the region it serves; and it is further

RESOLVED, that the Commissioners hereby direct that this resolution be suitably engraved and presented to Commissioner Vincent Tese as a token of their thanks.

Tribute to Albert Jackson

The following resolution was unanimously adopted, expressing the appreciation of the Board of Commissioners to Albert Jackson.

WHEREAS, during his nearly ten years with the Port Authority, Albert Jackson served with distinction in both the Law and Audit Departments before being named Inspector General in 1992; and

WHEREAS, during his tenure as Inspector General, Al Jackson was committed to ensuring that the agency upheld the highest standards of integrity; and

WHEREAS, under his direction, the Office of Inspector General undertook a mission to promote economy and efficiency through the effective functioning of that office;

Now, therefore be it,

RESOLVED, that the Commissioners of The Port Authority of New York and New Jersey do hereby express their appreciation to Al Jackson for his years of dedicated service to the agency; and it is further

RESOLVED, that the Commissioners do hereby direct that this resolution be suitably engraved and presented to Mr. Albert Jackson as a token of their thanks.

**John F. Kennedy International Airport - Trans World
Airlines, Inc. - Funding for Terminal Improvements - and
Authorization of Lease Extension for Terminals A & B
(AY-583, AYA-073)**

It is recommended that the Board authorize the Executive Director for and on behalf of the Port Authority to enter into agreements with Trans World Airlines, Inc. (TWA) as deemed necessary or desirable to extend TWA's Lease Agreements covering Terminals A & B at John F. Kennedy International Airport for a 5 year term commencing on or about April 1, 1996 and to reimburse TWA or its contractors up to \$15 million for the refurbishment and upgrading of said Terminals. In addition to all other amounts payable under the Lease, TWA will pay an additional rental during the extension period which is financially self-sustaining and based upon the amounts paid to TWA or its contractor. The resolution of the Board adopted at its meeting of June 10, 1993 would be deemed amended and superseded by this action of the Board insofar as it pertains to payment by the Port Authority for the upgrading of TWA's Terminals A & B at John F. Kennedy International Airport.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement or agreements with Trans World Airlines, Inc. (TWA) at John F. Kennedy International Airport for leasing, performance of work and payment of monies, all substantially in accordance with the terms and conditions set forth above, provided that no payment or reimbursement to TWA or its contractors will be made by the Port Authority unless the details of each item of refurbishment and upgrading work to be performed and the cost thereof is reviewed and approved by the Committee on Operations prior to (i) the reimbursement being agreed to and (ii) the work being undertaken; and the form of the agreement or agreements shall be subject to the approval of General Counsel or his authorized representative.

**John F. Kennedy International Airport - Korean Air Lines
Co., Ltd. - Agreement AYC-646 - Lease for Hangars 9/9A
Redevelopment and Special Project Bond Inducement
Resolution**

It was recommended that the Board authorize (a) the Executive Director, for and on behalf of the Port Authority, to enter into an agreement of lease with Korean Air Lines Co., Ltd. (Korean Air) for the demolition of Hangars 9/9A, including asbestos removal, and the design, construction and operation of a cargo facility of approximately 195,000 square feet on and about the site of the existing Hangars 9/9A at John F. Kennedy International Airport; (b) a project and award of contracts to provide paving to the premises under the lease with Korean Air at a project cost of approximately \$1 million and to perform certain subsurface remediation at a project cost of approximately \$1.2 million, both including administrative, engineering and financial expenses, and a project contingency amount; and (c) the Executive Director, for and on behalf of the Port Authority, (1) to award a contract or contracts to the lowest bidder(s), who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable, to provide paving to the premises under the lease with Korean Air and to perform certain subsurface remediation; (2) to take such action with respect to the award of purchase and construction contracts for the foregoing project as he deems in the best interest of the Port Authority; (3) to reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors; and (4) to execute other contracts and supplemental agreements with such bidders and contractors as he deems in the best interest of the Port Authority and to order extra work and net cost work in connection with each contract and agreement if necessary.

The lease will cover the letting of approximately 21 acres at specified rentals which escalate for a term commencing on or about September 1, 1996 and expiring on or about November 30, 2015, with the term being extended five years in the event the Airport Lease with the City of New York is extended, with the lessee being obligated to assume the entire responsibility for all insurance, repair and maintenance, to share in the construction of a new common taxilane under certain circumstances, and to make a good faith effort to achieve stated Minority/Women's Business Enterprise and labor force goals. The lease would also provide that at the lessee's request, the Port Authority would consider the issuance of Special Project Bonds in a principal amount not to exceed \$90,000,000 to provide, in whole or in part, for project costs under and pursuant to the Port Authority Special Project Bond Resolution, adopted June 9, 1983; with debt service on such bonds being a special obligation of the Port Authority payable from the sources and to the extent generally as provided in such resolution, and with the Port Authority's full faith and credit not being pledged to any such bonds. It is anticipated that the lessee would include in the construction costs, to be provided with the proceeds of any such bonds, certain costs incurred prior to the execution of the Lease and the issuance of any such bonds.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Korean Air Lines Co., Ltd. at John F. Kennedy International Airport, substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that a project is hereby authorized to provide paving to the premises under the lease at a cost of approximately \$1 million and to perform certain subsurface remediation at a cost of approximately \$1.2 million, including administrative, engineering, financial expenses and a project contingency; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to bid, solicit or enter into one or more contracts to perform the aforesaid paving and utilities and remediation work substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that an Authorized Officer (as such term is used in connection with Port Authority bonds and notes) be and is hereby authorized, for and on behalf of the Port Authority, to execute a declaration of official intent under Section 1.150-2 of the regulations issued by the United States Department of the Treasury, to provide for the disbursement of certain project costs incurred prior to the execution of the lease and the issuance of special project bonds for purposes of the above-described project; and it is further

RESOLVED, that the form of the agreements in each instance shall be subject to the approval of General Counsel or his authorized representative.

**John F. Kennedy International Airport - Saudi Arabian
Airlines Corp. - Lease Agreement - Building 78**

It was recommended that the Board authorize the Executive Director, for and on behalf of the Port Authority, to enter into a lease agreement with Saudi Arabian Airlines Corp. (Saudia) for space in Building 78 and associated outside areas at John F. Kennedy International Airport to be used for the handling of air cargo.

The lease will provide for a five-year term commencing on or about March 1, 1996 at specified annual rentals. Saudia will be responsible for all operations and non-structural maintenance within the premises. The Port Authority will be responsible for the structural supporting frame, the roof and the exterior walls of the building.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Saudi Arabian Airlines Corp., substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**Newark International Airport - Airis Newark, L.L.C.- New
Cargo Facility - Lease ANA-884 - Project Authorization
and Award of Contracts to Provide Paving and Utilities
and the Relocation of a Portion of Taxiway JB**

It was recommended that the Board authorize (a) the Executive Director, for and on behalf of the Port Authority, to enter into an agreement of lease with Airis Newark, L.L.C. (Airis) for the demolition of the North Terminal Building and Annex and the design, construction, financing and operation of a cargo complex consisting of two cargo buildings of approximately 177,000 square feet and 74,000 square feet, respectively, on and about the site of the existing North Terminal Building at Newark International Airport at an estimated cost of \$30 million; (b) a project and award of contracts to provide paving and utilities to the premises under the lease with Airis and to relocate a portion of taxiway JB at a total project cost not to exceed \$12 million, including administrative, engineering and financial expenses, and a project contingency amount; and (c) the Executive Director, for and on behalf of the Port Authority, (1) to award a contract or contracts to the lowest bidder(s), who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable, to provide paving and utilities to the premises under the lease with Airis and to relocate a portion of taxiway JB; (2) to take such action with respect to the award of purchase and construction contracts for the foregoing project as he deems in the best interest of the Port Authority; (3) to reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors; and (4) to execute other contracts and supplemental agreements with such bidders and contractors as he deems in the best interest of the Port Authority and to order extra work and net cost work in connection with each contract and agreement if necessary.

The lease will cover the letting of approximately 22 acres on the Airport's north side in the immediate area of the North Terminal Building and Annex for a term commencing on or about April 1, 1996 and expiring on or about March 31, 2021, the Lessee being obligated to provide the entire financing for the project itself or through a qualified lender, to remove and dispose of asbestos and lead in the North Terminal and Annex and to perform certain environmental remediation and site restoration. The lessee will pay ground rental consisting of a constant factor subject to annual CPI and mid-term escalation and an Airport Services Factor to be adjusted annually, which rental would be deferred during the construction period and be repaid over the remaining term of the lease with interest; the amount of \$200,000 towards site restoration of the North Terminal area; a 5% fee on certain cargo handling gross receipts; and enter into certain initial sublease agreements with no Port Authority sublease fee, with all subsequent agreements being subject to the appropriate fee. The lessee will assume the entire responsibility for all insurance, repair and maintenance and make a good faith effort to achieve stated Minority/Women's Business Enterprise and labor force goals.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Airis Newark, L.L.C., substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that a project is hereby authorized to provide paving and utilities to the premises under the lease and to relocate a portion of Taxiway JB at a total cost not to exceed \$12 million, including administrative, engineering, financial expenses and a project contingency; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to bid, solicit or enter into one or more contracts to perform the aforesaid paving and utilities and relocation work, substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that the form of the agreements in each instance shall be subject to the approval of General Counsel or his authorized representative.

**Port Authority Bus Terminal - Harry M. Stevens, Inc. - Lease
Surrender Agreement**

It was recommended that the Board authorize the Executive Director to enter into an agreement with Harry M. Stevens, Inc. (Stevens) providing for the surrender of its premises at the Port Authority Bus Terminal (PABT).

In 1981, Stevens commenced the operation of a store for the retail sale of sports apparel at the PABT. Stevens' lease at the PABT was extended in 1987 for a ten year term expiring on June 30, 1997. Stevens' business gradually declined and was closed in October 1991 with Stevens continuing to make rental payments to the Port Authority to March 1995 at which time Stevens was purchased by Aramark Corporation. Stevens' premises consists of two locations in the North Wing of the PABT constituting a total of 2,475 square feet of which 1,545 square feet was used for retail purposes and 930 square feet was used for back office space.

It is proposed that Stevens will enter into an agreement surrendering all of its premises under its lease to the Port Authority effective as of December 31, 1995 and will make a lump sum payment to the Port Authority upon the execution of the surrender agreement in the amount of \$85,000. This payment will result in Stevens having paid rent to the Port Authority for approximately nine years of the ten-year term.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Harry M. Stevens, Inc. providing for the surrender of its premises at the Port Authority Bus Terminal, substantially in accordance with the terms and conditions outlined above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

The World Trade Center - National Development and Research Institutes, Inc. - Lease Agreement

It was recommended that the Board authorize the Executive Director to enter into an agreement of lease with National Development and Research Institutes, Inc. (NDRI) covering the letting of the entire sixteenth floor of Two World Trade Center constituting approximately 44,325 rentable square feet of space; and to enter into a brokerage agreement with Edward S. Gordan Company, Incorporated in connection with such lease agreement.

NDRI is a highly regarded, tax exempt, not-for-profit organization involved in developing solutions to current public health problems such as substance abuse, mental health problems, HIV/AIDS and related medical and social concerns. The proposed agreement of lease will commence on or about the execution of the lease agreement and will be for a term of approximately fifteen and one-half years. NDRI will pay an aggregate rental over the fifteen rent-paying years of the term of approximately \$21 million. A brokerage commission will be payable to Edward S. Gordon Company, Incorporated calculated in accordance with the rates previously authorized by the Board at its meeting of August 11, 1977.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with National Development and Research Institutes, Inc. covering the letting of the entire sixteenth floor of Two World Trade Center and to enter into a brokerage agreement with Edward S. Gordon Company, Incorporated in connection with such letting, substantially in accordance with the terms and conditions outlined above; the form of the agreement in each instance shall be subject to the approval of General Counsel or his authorized representative.

**Elizabeth-Port Authority Marine Terminal - Maher Terminals,
Inc. - Amendment to Fleet Street Lease**

It was recommended that the Board authorize the Executive Director to enter into an agreement with Maher Terminals, Inc. (Maher) to amend Maher's lease covering the Fleet Street Terminal to lower the throughput rental payable with respect to a specified category of cargo containers loaded onto or discharged from vessels berthing at the Fleet Street Terminal or at the marine terminal on Tripoli Street leased by Maher (collectively, the Maher Terminals). Effective January 1, 1994 and continuing through the term of the letting of the Fleet Street Terminal, the throughput rental will be reduced by two-thirds on containers under the control of Hanjin Shipping Co., Ltd. and loaded onto or discharged from vessels owned or operated by Yangming Marine Transport Corp. and transported through or from either of the Maher Terminals without any interim storage thereon.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Maher Terminals, Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

Elizabeth-Port Authority Marine Terminal - Maher Terminals,
Inc. - Lease EP-148, Supplement No. 9 - Amendment of
Fleet Street Terminal Lease

It was recommended that the Board authorize the Executive Director: (1) to enter into an agreement with Maher Terminals, Inc. (Maher) to amend Maher's lease covering the Fleet Street Terminal to provide for berth/bulkhead construction and the deepening of 1,000 linear feet of berth, and (2) to take such action, with respect to approval of tenant generated contracts and the award of Port Authority contracts, to implement a project to deepen certain berths as deemed in the best interest of the Port Authority, including award to the lowest qualified bidder, who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable; reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or contractors as deemed in the best interest of the Port Authority, and to order extra work and net cost work in connection with each contract, including supplemental agreements thereto.

The agreement will require Maher to perform construction work on 1,200 linear feet of berth/bulkhead at the premises to prepare the berth to be dredged to a depth of 45 feet, with Maher to be reimbursed by the Port Authority in an amount not to exceed \$6 million for the cost of this work. Upon completion of its berth/bulkhead preparation work, Maher will no longer be liable for claims or demands arising out of structural defects in the work except for claims or demands resulting from its negligence. The Port Authority will be required to dredge the berth to a depth of 45 feet and dispose of the dredged material, subject to the condition that the dredging will be deemed completed upon the expenditure by the Port Authority of \$5.5 million on the dredging project. In addition, if prior to the commencement of the dredging work the Port Authority's estimate of the total cost of the dredging project exceeds \$100 per cubic yard of dredged material, the Port Authority's dredging obligation will be canceled. Maher will pay additional rental in an amount sufficient for the Port Authority to recover a majority share of its costs of the berth/bulkhead preparation work and a minority share of the total cost of the dredging project. The Port Authority will be obligated to maintain the berth at the depth reached upon completion of the dredging work, subject to its having the required governmental authorizations to dredge and dispose of the dredged material.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Maher Terminals, Inc. and to implement a project to deepen certain berths, substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

John F. Kennedy International Airport - U.S. Affiliates,
Inc. - Lease Agreement - Brokerage Agreement - Greiner-
Maltz Company, Inc.

It was recommended that the Board authorize the Executive Director, for and on behalf of the Port Authority, to enter into a lease agreement with U.S. Affiliates, Inc. (U.S. Affiliates) covering the leasing of space in Building 208 and associated outside areas at John F. Kennedy International Airport.

U.S. Affiliates will use the premises under the Lease as warehouse space in connection with its warehousing contract for the U.S. Postal Service including the sorting and distributing of air mail packaging material and warehouse general postal support equipment; in the event, however, that U.S. Affiliates is not awarded or does not enter into the contract with the U.S. Postal Service for said warehousing and other services, the Port Authority and U.S. Affiliates shall each have the right to cancel the Lease.

The Port Authority will be responsible for certain costs of asbestos abatement, installation of electric and water meters and certain fire code compliance and certain other work.

The Lease will be for a two-year term commencing on or about March 1, 1996, with four two-year options to extend. During the first year, the Lease will provide for incremental phased-in occupancy.

U.S. Affiliates will be responsible for preparing the premises for its occupancy. U.S. Affiliates will also be responsible for operation and maintenance within the premises.

It was also recommended that the Board authorize the Executive Director, for and on behalf of the Port Authority, to enter into a brokerage agreement with Greiner-Maltz Company, Inc. (Greiner-Maltz) whereby the Port Authority will pay to Greiner-Maltz a brokerage fee, conditioned upon and following the execution by the Port Authority of the said Lease with U.S. Affiliates and the entering into possession of the premises by U.S. Affiliates, with the Port Authority retaining the right to reject any lease or any lease term proposed by Greiner-Maltz or U.S. Affiliates, with said brokerage fee to be equal to commissions at the rate of seven percent (7%) of gross annual rental of each of the first three years, and additional commissions at the rate of three percent (3%) of gross annual rental of each of the succeeding years; with the payment of the additional commissions for each extension year to be conditioned upon the successful exercise of the option applicable to such extension year.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with U.S. Affiliates, Inc. for the rental of space and outside areas at John F. Kennedy International Airport, substantially in accordance with the terms set forth above; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a brokerage agreement with Greiner-Maltz Company, Inc. for the payment by the Port Authority of brokerage commissions after the execution of the aforesaid lease agreement between the Port Authority and U.S. Affiliates, Inc. and in the amounts and subject to such conditions substantially in accordance with the terms set forth above; and it is further

RESOLVED, that the form of the lease agreement and of the brokerage agreement shall be subject to the approval of General Counsel or his authorized representative.

**Brooklyn-Port Authority Marine Terminal (East River Piers) -
Partial Lease Surrender to New York City of Part of
Parcel 4 and Agreement with the City for Consulting
Services to the City regarding a Dredging Project at the
City's South Brooklyn Marine Terminal**

It was recommended that the Board authorize the Executive Director to (1) enter into an agreement to amend the Port Authority's lease with the City of New York (the City) covering parts of the Brooklyn-Port Authority Marine Terminal, dated November 5, 1968, principally to effectuate the surrender, effective January 1, 1996, of approximately 35,439 square feet of predominantly underwater land, being a part of lease Parcel 4 and constituting a portion of the real property under such lease, with a consequent reduction in rent of approximately \$4,460 per annum from said effective date to the end of September, 2008, and of about \$5,355 per annum thereafter; and (2) to enter into an agreement with the City to provide it, without charge, advice and assistance on a consulting basis, up to a value of \$39,000, as calculated by the Port Authority, in connection with the City's proposed dredging of its South Brooklyn Marine Terminal.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into two agreements with the City of New York, one, as an amendment to its lease with the City of New York covering parts of the Brooklyn-Port Authority Marine Terminal, dated November 5, 1968, to provide principally for the surrender of a portion of the leased property, and, the second, to provide for certain consulting services to the City in connection with the City's proposed dredging of its South Brooklyn Marine Terminal, both to be substantially in accordance with the terms and conditions set forth above; the form of the agreement in each instance shall be subject to the approval of General Counsel or his authorized representative.

(Board - 2/8/96)

New Jersey Facilities - Declaration of Environmental Restrictions Concerning Remediation Standards

It was recommended that the Board authorize the Executive Director with respect to Port Authority/Port Authority Trans-Hudson Corporation (PATH)-owned or leased property in New Jersey to sign such documents, including but not limited to, agreements with municipalities, as may be necessary for a Declaration of Environmental Restrictions (DER) to be executed and filed in the County Register's Office, allowing, among other matters, contaminated soils to remain on site without remediation to residential criteria.

On July 15, 1993, the Board authorized the Executive Director to enter into Memoranda of Agreement (MOAs) with the New Jersey Department of Environmental Protection (NJDEP) for the purpose of participating in the State of New Jersey's Voluntary Site Remediation Program. MOAs have been executed with NJDEP covering remediation activities at the Hoboken Piers, Newark International Airport and lands in the vicinity of the following additional facilities: Holland Tunnel, Lincoln Tunnel, Goethals Bridge, Bayonne Bridge, Outerbridge Crossing, George Washington Bridge and the Hackensack River Bridge. Also, execution of an MOA is pending for the New Jersey Marine Terminals. Once an investigation and, if necessary, a cleanup is completed under an MOA, the NJDEP will issue a letter stating that, subject to certain conditions, "no further action" is required for the site or portion thereof governed by the MOA.

In certain cases, where a residential level of cleanup practicably cannot be met, a DER may be required. The DER informs prospective holders of an interest in the property that contamination exists which may restrict certain uses of, or access to, all or portions of the property and requires that notice of the environmental condition be transmitted to the governing body of the municipality in which the property is located. A DER may also require certain engineering controls such as capping, fencing, monitor wells, etc. in order to protect human health and the environment given the anticipated non-residential use of the property for industrial or commercial purposes. DERs must be executed by the property owner. Port Newark and that portion of Newark International Airport within the City of Newark are owned by the City and leased to the Port Authority. A proposed agreement with the City of Newark would have the City agree upon the request of the Port Authority to sign a DER approved by NJDEP on certain port or airport lands covered by the lease. Furthermore, the City would agree to permit the Port Authority to surrender the land affected by the DER in a non-residential condition upon the Marine and Air Terminals lease's expiration.

This delegation of authority to the Executive Director will minimize future administrative procedures by obviating the need to seek Board approval on a case-by-case basis. Additionally, the Board's action will permit the Executive Director to execute appropriate documents, including those necessary to secure NJDEP approval for real property under Port Authority/PATH jurisdiction to be remediated to a non-residential soil remediation criteria or where engineering or institutional controls are used in lieu of remediating a site to meet an established remediation standard for soil, groundwater or surface water.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized with respect to Port Authority/Port Authority Trans-Hudson Corporation (PATH)-owned or leased property in New Jersey to sign such documents, including but not limited to, agreements with municipalities, as may be necessary for a Declaration of Environmental Restrictions (DER) to be executed and filed in the County Register's Office, allowing, among other matters, contaminated soils to remain on site without remediation to residential criteria; the form of all documents to effectuate the aforesaid shall be subject to the approval of General Counsel or his authorized representative.

**Bank for Regional Development - Reallocation of Funds from
the Jersey City Homeless Drop-In Center to the City of
Jersey City**

It was recommended, at the request of Governor Whitman, that the Board authorize the reallocation of \$1 million of Bank for Regional Development funds (Bank I), previously committed to the Jersey City Homeless Drop-In Center, to the City of Jersey City for capital improvements in the Journal Square area, primarily along Kennedy Boulevard on properties contiguous to the Journal Square Transportation Center (JSTC).

The improvements will enhance the safety and cleanliness of the Journal Square area and promote its commercial vitality. PATH's JSTC accounts for a significant portion of the commercial real property in the area, and this money will serve to preserve, protect, and enhance the value of JSTC, its revenue-producing capacity and its role in fostering economic development for Journal Square.

On February 9, 1989, the Board authorized the President of PATH to enter into agreements that would direct up to \$1.3 million for the acquisition and renovation of a drop-in center for the homeless in the Journal Square area of Jersey City. As a result of community opposition and a change in the City administration, the developer, Let's Celebrate, in consultation with Jersey City, the State of New Jersey and the Port Authority, withdrew its plans for the project.

Jersey City has committed approximately \$2 million to the proposed capital improvements. The agreement with Jersey City will provide that the Port Authority will be obligated to make \$1 of actual payments for improvements for each \$2 of such payments made by Jersey City.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that \$1 million of Bank for Regional Development funds (Bank I), previously committed to the Jersey City Homeless Drop-In Center, is hereby reallocated for capital improvements (the improvements) in the Journal Square area, primarily along Kennedy Boulevard on properties contiguous to the Journal Square Transportation Center; and it is further

RESOLVED that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into such agreements with Jersey City and/or other appropriate entities as are necessary to provide the reallocated amount for the improvements, the form of such agreements shall be subject to the approval of General Counsel or his authorized representative.

**Bank for Regional Development - Harlem International Trade
Center - Reallocation of Harlem International Trade
Center Corporation Escrow Account**

It was recommended, at the request of Governor Pataki, that the Board: (1) in connection with the Bank for Regional Development, reallocate the funds held by the New York State Urban Development Corporation (now doing business as Empire State Development) (ESD) under the terms of an escrow agreement entered into among ESD, the Port Authority and Harlem International Trade Center Corporation (HITCC) from the Harlem International Trade Center to a program of New York State transportation, terminal, and/or economic development capital projects within the New York portion of the Port District (the Program) which meet applicable criteria and (2) authorize the Executive Director to (i) take appropriate steps to cancel the Port Authority's lease agreement with HITCC and (ii) enter into an agreement with ESD and/or other appropriate public entities to effectuate the Program.

Each of the projects would be subject to the approval of the Executive Director. The Commissioners will be given an opportunity to review and comment on any projects prior to their approval by the Executive Director.

The projects eligible for funding under the Port Authority's applicable legal criteria, which would have to be met for each project, could include, among others, marine terminal improvements, rail freight projects, improvements to some roadways in the vicinity of the Trans-Hudson crossings or other Port Authority facilities and industrial development projects as defined in the Port Authority's Industrial Development Legislation. In addition, the agreement with ESD will provide that no funds can be used for projects that would result in the relocation of any business from New Jersey to New York.

The agreement will make clear that the Port Authority will not undertake any design, effectuation, operating, maintenance, planning, environmental, construction or other responsibilities in connection with any projects receiving funds.

The Board, at its meeting on March 10, 1988, authorized the Executive Director under the Bank for Regional Development to enter into an Agreement of Lease (the Lease) with HITCC for the leasing of space for trade and related activities at the Harlem International Trade Center at a rental equal to the lesser of one-third of the overall project cost or \$48.5 million, on a present value basis as of the date of the lease commitment, and authorized \$1.5 million to fund the necessary planning (including the required funding for a project planning team) by HITCC. On August 30, 1990 the Board eliminated the requirement with respect to project costs and authorized the transfer of funds authorized on March 10, 1988 to ESD as Escrow Agent.

Since the original authorization by the Board in March 1988 the HITCC has been granted four extensions (March 12, 1992; March 1, 1993; July 14, 1994; and September 28, 1995) to meet certain deadlines set forth in the escrow agreement and the Lease and has been authorized to draw down \$6.3 million from the escrow account for costs associated with project planning and design.

Undisbursed amounts in the escrow account are available for recommitment for Regional Economic Development projects at the request of the Governor of New York.

To date, inclusive of this authorization, the Board of Commissioners has authorized all of the \$112,500,000 available for Bank for Regional Development projects in the State of New York.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED that, (1) in connection with the Bank for Regional Development, the funds held by New York State Urban Development Corporation (ESD) under the terms of an escrow agreement entered into among ESD, the Port Authority and Harlem International Trade Center Corporation (HITCC) are hereby reallocated from the Harlem International Trade Center to a program of New York State transportation, terminal, and/or economic development capital projects within the New York portion of the Port District (the Program) which meet applicable legal criteria and (2) the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to (i) take appropriate steps to cancel the Port Authority's lease agreement with HITCC and (ii) enter into an agreement with ESD and/or other appropriate public entities to effectuate the Program; and be it further

RESOLVED, that the form of each agreement entered into pursuant to the above authorizations shall be subject to the approval of General Counsel or his authorized representative.

The World Trade Center - Agreement with Prompt Maintenance Service Inc. for Resolution of Contract Claims

It was recommended that the Board authorize the Executive Director to enter into an agreement with Prompt Maintenance Service Inc., (Prompt) to settle claims related to Prompt's World Trade Center cleaning contract. During the contract period, \$895,000 in Prompt invoices were not paid based upon several contractual disputes between the parties. Lawsuits were brought and extensive discovery was conducted. Staff now believes that Prompt has a credible position on a substantial portion of the disputed invoices justifying a settlement whereby Prompt would receive a final settlement of \$310,000. Staff believes that this recommendation is in the Port Authority's best interest.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to pay Prompt Maintenance Service, Inc., \$310,000 in full settlement of its claims related to a World Trade Center cleaning contract, with the parties executing mutual releases.

**Bayonne Bridge - Settlement of Claim Against Silver Express
Shipping and Silver Carriers S.A.**

It was recommended that the Board authorize the Executive Director to enter into an agreement with Silver Express Shipping and Silver Carriers S.A. (Silver Express) to settle Port Authority claims relating to an incident on October 11, 1991 when the vessel Silver Express struck the Bayonne Bridge. Under this arrangement, the Port Authority would receive a \$175,000 payment to resolve its claims against Silver Express as a result of this incident. The corporate entities are defunct and the vessel was sold at public auction in Hong Kong. Thus, any judgment obtained would not likely be collectible. Staff believes that this recommendation is in the Port Authority's best interest.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to settle Port Authority claims against Silver Express Shipping and Silver Carriers S.A., as a result of an incident when the vessel Silver Express struck the Bayonne Bridge, by accepting the sum of \$175,000 as full settlement of its claims.

Howland Hook - Settlement of Certain Claims against McLean Industries, Inc. (U.S. Lines)

It was recommended that the Board authorize General Counsel to accept the sum of \$300,000 in full settlement of the Port Authority's claim of \$530,233 against McLean Industries, Inc. (U.S. Lines) (the Debtor) in resolution of the Port Authority's environmental administrative claim in this Chapter 11 bankruptcy case.

Environmental damages resulted from a release of pollutants from drums stored at Howland Hook by the Debtor. The Port Authority commenced and has now completed an environmental clean-up of the site at a final cost of \$530,233. Staff has negotiated a settlement in the sum of \$300,000 to be paid by the Debtor to the Port Authority in one payment pursuant to the terms of a Stipulation to be executed between the parties. This settlement will recoup 56.5% of the Port Authority's documented claim.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to accept the sum of \$300,000 in full settlement of the Port Authority's administrative claim for environmental clean-up damages against McLean Industries, Inc. (U.S. Lines).

**John F. Kennedy International and LaGuardia Airports -
Settlement of Administrative Proceeding with United
States Environmental Protection Agency**

It was reported that the United States Environmental Protection Agency and Port Authority staff have reached an agreement on a settlement regarding alleged violations under the Toxic Substances Control Act. A twenty-count complaint, filed in September 1993, sought penalties of \$289,000 for the alleged improper use of PCB transformers as well as the alleged failure to inspect and properly mark such PCB transformers at John F. Kennedy International and LaGuardia Airports. The settlement provides for (1) a cash payment not to exceed \$20,000; and (2) two supplemental environmental benefit projects described herein.

The first supplemental environmental benefit project involves the recycling of fluorescent bulbs at Port Authority facilities for a period of three years. These bulbs, which contain mercury, a hazardous substance, are currently disposed of as hazardous waste. The net cost of recycling these bulbs, net of current disposal costs, is approximately \$22,000.

The second environmental benefit project entails the implementation of a stormwater management educational program at John F. Kennedy International and LaGuardia Airports, based on the model that was recently initiated at Newark International Airport. The two New York airports operate near a major watershed, and stormwater management is critical to the protection of water quality. The training program would be offered at no charge to airport tenants, including airlines, contractors and service providers, at an estimated cost to the Port Authority of \$90,000.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a settlement agreement with the U.S. Environmental Protection Agency (U.S. EPA) for all alleged violations relating to the Toxic Substances Control Act at John F. Kennedy International and LaGuardia Airports providing for: (1) a payment not to exceed \$20,000 to the U.S. EPA; and (2) funding of two supplemental environmental benefit projects to be used for: (a) the recycling of fluorescent bulbs at Port Authority facilities for a three-year period, replacing the current process of hazardous waste disposal, for a net cost of \$22,000; and (2) implementing a stormwater management education program at no charge to airport tenants, including airlines, contractors, and service providers, at an estimated cost of \$90,000; and it is further

RESOLVED, that the form of all documents required to effectuate the aforesaid shall be subject to the approval of General Counsel or his authorized representative.

Settlement of Claim - Terrence T. Tully v. The Port Authority of New York and New Jersey

It was recommended that General Counsel be authorized to enter into a settlement with Terrence T. Tully, and his attorney, in the amount of \$125,000 inclusive of attorney fees, interest, costs, disbursements and any and all liens in exchange for a general release and stipulation of discontinuance with prejudice.

This settlement will fully resolve plaintiff's claim for damages arising out of an incident on July 12, 1987 at John F. Kennedy International Airport in which plaintiff claims he was injured due to the actions of Port Authority police officers in handcuffing and transporting him to the police desk thereat. As a result he underwent three operations to his left wrist including removal of bone and pinning.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to settle the pending action, entitled Terrence T. Tully v. The Port Authority of New York and New Jersey, for the total amount of \$125,000 inclusive of attorney fees, costs, disbursements and any and all liens, by paying said amount to plaintiff and his attorney in exchange for a general release and stipulation of discontinuance with prejudice, in full settlement of the claim.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period November 1, 1995 to December 31, 1995.

 Richard Mroz, New Jersey Governor's Authorities Unit

The public meeting was called to order by Chairman Eisenberg at 2:26 p.m. and ended at 2:38 p.m. The Board also met in executive session prior to the public meeting.

Action on Minutes

The Secretary submitted for approval Minutes of the meeting of February 8, 1996. She reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. She reported further that the time for action by the Governors of New York and New Jersey has expired.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Audit Committee

The Audit Committee submitted a report, for information, of matters discussed in executive session at its meeting on February 22, 1996, which included discussion of internal audit matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received.

Report of Committee on Operations

The Committee on Operations submitted a report, for information, of matters discussed in executive session at its meeting on February 22, 1996, related to personnel, lease and contract matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Capital Program/Construction

The Committee on Capital Program/Construction submitted a report, for information, of matters discussed in executive session at its meeting on February 22, 1996, which included a discussion of matters relating to Port Authority financing, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Finance

The Committee on Finance submitted a report, for information, of action taken in executive session at its meeting on February 8, 1996, to purchase liability insurance, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Matthew Greene, of the United Transportation Union, and Karen Szczepanski of the Communications Workers of America, addressed the Board.

Tribute to John J. Collura

The following resolution was unanimously adopted expressing the appreciation of the Board of Commissioners to John J. Collura.

WHEREAS, during his twenty-five years with the Port Authority, John Collura served with great distinction from his earliest days as an auditor through his tenure as Chief Operating Officer; and

WHEREAS, during his years as the Assistant Executive Director and Director of Management and Budget, John led the agency's business planning efforts toward its goals of increased organizational effectiveness, improved operating efficiency and increased levels of cost-effective public service, and

WHEREAS, through John's efforts, the Port Authority has become nationally recognized as a leader in the field of government finance, having received the prestigious Government Finance Officers Association's Distinguished Budget Presentation Award for the last four years.

Now, therefore be it

RESOLVED, that the Commissioners of The Port Authority of New York and New Jersey do hereby express their appreciation to John J. Collura for his many years of dedicated service to the agency and the region it serves; and it is further

RESOLVED, that the Commissioners do hereby direct that this resolution be suitably engraved and presented to Mr. Collura as a token of their thanks.

**Port Authority Bus Terminal - International Shoppes, Inc. -
Lease Agreement**

It was recommended that the Board authorize the Executive Director to enter into an agreement with International Shoppes, Inc. (International Shoppes) for the early renewal of the term of the letting under its lease, for the relocation of the premises under its lease and for the construction and operation of a card and gift shop located on the Main Concourse, South Wing of the Port Authority Bus Terminal (PABT).

The principals of International Shoppes have been operating in the PABT for over thirty years. In July 1983, the Board authorized the Executive Director to enter into a fifteen year lease agreement with International Shoppes covering the letting of space in the Main Concourse, South Wing of the PABT for the operation of a gift shop.

It is now proposed to enter into an agreement with International Shoppes to relocate its premises to a portion of the former Walgreen space on the Main Concourse, South Wing of the PABT constituting approximately 2500 square feet of space for the sale at retail of greeting cards, gift boxes of cosmetics, imported candy and other giftware items. The term of the letting of the new space will commence approximately May 1, 1996 and will expire approximately ten years from the date payment of rental for the new premises starts. Payment of rental for the new premises will start approximately 240 days following the commencement date of the letting of the new premises or the commencement of business operations, whichever occurs first. International Shoppes will pay a basic rental and a percentage rental for the new premises as provided in the agreement, and will continue to pay a basic rental and a percentage rental for its existing premises as set forth in the existing lease agreement until it surrenders its existing premises when it moves into the new premises. International Shoppes will invest approximately \$500,000 in the construction of the new premises including new walls, ceiling, floors, plumbing, lighting, electrical systems, duct work and signage. The Port Authority will grant International Shoppes a rental credit in an amount up to \$25,000 for the construction by International Shoppes of a demising wall and a corridor leading to its storage area on the second floor. The Port Authority will also be obligated to remove asbestos from the new premises at an estimated cost of \$110,000. The letting of the new premises will be terminable by the Port Authority without cause on thirty days' notice, in which event the Port Authority will reimburse International Shoppes for the unamortized portion of its initial capital investment in the new premises to the extent such initial capital investment does not exceed \$500,000.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with International Shoppes, Inc. covering the letting of new premises at the Port Authority Bus Terminal, substantially in accordance with the terms and conditions outlined above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**Port Authority Bus Terminal - Surf City Squeeze, Inc. -
Lease Agreement**

It was recommended that the Board authorize the Executive Director to enter into a lease agreement with Surf City Squeeze, Inc. covering the letting of space at the Port Authority Bus Terminal (PABT) for the construction and operation of a juice bar and to enter into a brokerage agreement with Garrick-Aug Associates Store Leasing, Inc. in connection with the lease agreement.

Surf City Squeeze has sixty-four juice bars throughout the United States. The location in the PABT will be its first in the New York City area. Surf City Squeeze specializes in smoothies, a creamy blended drink made with fresh fruit, juice, and their own non-dairy smooth mix.

The lease will cover the letting of approximately 600 square feet of space on the second floor of the South Wing of the PABT. The term of the letting will commence approximately May 1, 1996 and will expire approximately ten years from the date payment of rental starts. Payment of rental will start approximately 180 days following the commencement date of the letting or commencement of business operations, whichever occurs first. Surf City Squeeze will pay a basic rental and a percentage rental as provided in the lease. Surf City Squeeze will invest approximately \$125,000 in the construction of the juice bar including new walls, ceiling, floors, plumbing, lighting, electrical systems, duct work and signage. The Port Authority will grant Surf City Squeeze a rental credit in an amount up to \$10,000 to cover the cost of construction by Surf City Squeeze of a demising wall. The lease will be terminable by the Port Authority without cause on thirty days' notice, in which event the Port Authority will reimburse Surf City Squeeze for the unamortized portion of its initial capital investment in the premises to the extent its initial capital investment does not exceed \$125,000. A brokerage agreement will be entered into with Garrick-Aug Associates Store Leasing, Inc. and a brokerage commission will be payable in connection with this lease agreement.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Surf City Squeeze covering the letting of space at the Port Authority Bus Terminal and to enter into a brokerage agreement with Garrick-Aug Associates Store Leasing, Inc. in connection with such letting, substantially in accordance with the terms and conditions outlined above; the form of the agreement in each instance shall be subject to the approval of General Counsel or his authorized representative.

**Settlement of Claim - Eliza Bryant v. The Port Authority of
New York and New Jersey**

It was recommended that General Counsel be authorized to enter into a settlement with Eliza Bryant (plaintiff), and her attorneys in the amount of \$175,000 inclusive of attorneys fees, interest, costs and disbursements and any and all liens in exchange for a general release from all claims in this action and a stipulation of discontinuance.

The settlement will fairly resolve plaintiff's claim for damages arising out of an incident on June 22, 1990 at LaGuardia Airport due to a claimed defective step resulting in injuries to her right hand and left hip, the latter requiring surgery and insertion of three permanent metal pins.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that General Counsel be and be hereby is authorized, for and on behalf of the Port Authority, to settle the pending Supreme Court, Queens County action entitled Eliza Bryant v. The Port Authority of New York and New Jersey for the total amount of \$175,000, inclusive of attorneys fees, interest, costs, and disbursements and any and all liens, by a general release and stipulation of discontinuance with prejudice in full settlement of the claim.

Reallocation of Manhattan Central Business District Funds to the Miller Highway Project

It was recommended that the Board authorize the Executive Director to provide to the Empire State Development Corporation, pursuant to an appropriate agreement, \$560,000 that is currently allocated for traffic distribution improvements in the Manhattan Central Business District, to be used instead as additional funding for engineering design and environmental analysis for the relocation of Miller Highway between West 59th and West 72nd Streets in Manhattan.

Governor Pataki has requested this action, which will provide additional funds needed to fulfill New York State's financial obligation as required pursuant to the state's receipt of a \$4.7 million federal grant for the Miller Highway project.

At the request of Governor Pataki, the Board, at its meeting of January 7, 1992, authorized the allocation of \$1 million for planning the Miller Highway project. Such funds were allocated against monies to be made available for projects in the New York State portion of the Regional Economic Development Program, and have been fully expended.

Following this authorization, \$812,000 will remain available for expenditures related to traffic distribution improvements in the Central Business District in Manhattan.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to provide to the Empire State Development Corporation or other appropriate public entity pursuant to an appropriate agreement, \$560,000 that is currently allocated for traffic distribution improvements in the Manhattan Central Business District, to be used instead as additional funding for engineering design and environmental analysis for the relocation of Miller Highway between West 59th and West 72nd Streets in Manhattan; and it is further

RESOLVED, that the form of such agreement shall be subject to the approval of General Counsel or his authorized representative.

The World Trade Center - Dow Jones & Company, Inc. - Lease Agreement

It was recommended that the Board authorize the Executive Director to enter into an agreement of lease with Dow Jones & Company, Inc. (Dow Jones) covering the letting of the entire 58th floor and a portion of the 57th floor in Two World Trade Center constituting approximately 65,000 rentable square feet of space, and to enter into a brokerage agreement with Cushman & Wakefield Inc. in connection with such lease agreement, such agreements to be substantially in accordance with the terms and conditions outlined below, the final terms of the lease agreement to be subject to review by the Committee on Operations.

Dow Jones is a highly regarded firm involved in the creation and communication of financial data. The proposed agreement of lease will commence on or about October 1, 1996 and will be for a term of approximately ten years. Dow Jones will pay an aggregate rental over the term of approximately \$17 million with basic rental commencing with the second year of the term. A brokerage commission will be payable to Cushman & Wakefield, Inc. in connection with this transaction.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Dow Jones & Company, Inc. covering the letting of the entire 58th floor and a portion of the 57th floor of Two World Trade Center and to enter into a brokerage agreement with Cushman & Wakefield, Inc. in connection with such letting, such agreements shall be substantially in accordance with the terms outlined above, the final terms and conditions of the lease agreement shall be subject to review by the Committee on Operations; the form of each agreement shall be subject to the approval of General Counsel or his authorized representative.

ard - 3/7/96)

Investments & Deposits

The Committee on Finance reported, for information only, that in accordance with authority granted by the Committee, the Executive Director had authorized the following security transactions, time accounts, interest rate exchange contracts and variable rate master note agreements during the period January 1, 1996 to January 31, 1996.

Purchase of Port Authority Bonds

No new transactions this period.

**Professional, Technical and Advisory Services Contract
Authorizations and Amendments - Report**

In accordance with Article XII, paragraph (g)(2) of the By-Laws, the Executive Director reported the following Professional, Technical and Advisory Service Contract were authorized or amended, during the period January 1, 1996 to January 31, 1996.

AUTHORIZATION	SERVICE	RETAINER FEE AND EXPENSES
For the Director, Human Resources, to retain the services of: Desimone Rehabilitation Services, Inc. 80 Eighth Avenue New York, New York 10011	Professional advisory services for a one-year pilot program to provide third party medical evaluations and second opinion evaluations.	\$ 10,000

**REPORT OF CONTRACT EXPENDITURES MADE UNDER THE 1995 BUDGET -
JANUARY 1, 1995 TO DECEMBER 31, 1995**

	<u>Amount Provided in the 1995 Budget</u>	<u>Amount Spent in 1995</u>
	(dollars, in millions)	
<u>Professional, Technical & Advisory Services</u>		
Architectural & Engineering	\$57.0	\$51.9
Job Shoppers	\$34.0	\$38.1 *
Consultants	\$50.5	\$41.6
Advertising	\$7.2	\$5.0
Professional Technical & Advisory Services Total:	\$148.7	\$136.6
 <u>Contracts</u>		
Purchase of Commodities	\$78.2	\$62.6
Maintenance & Services	\$473.8	\$438.0
Construction	\$362.2	\$381.4 **
Contracts Total:	\$914.2	\$882.0
<u>Total:</u>	\$1,062.9	\$1,018.6

* The overrun in job shopper expenditures was more than offset by underruns in architectural & engineering and consultant expenditures.

** The overrun in construction expenditures is part of a \$32 million capital expenditures increase authorized by the Board in connection with the 1996 Budget.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period January 1, 1996 to January 31, 1996.

Hon. Madelon DeVoe Talley

The public meeting was called to order by Chairman Eisenberg at 2:42 p.m. and ended at 2:54 p.m. The Board also met in executive session prior to the public meeting.

Action on Minutes

The Secretary submitted for approval Minutes of the meeting of March 7, 1996. She reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. She reported further that the time for action by the Governors of New York and New Jersey has expired.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

The Secretary reported that the minutes of September 7, 1995 contained typographical errors on page 340. The second paragraph of the minute is correctly set forth below:

"In the event that the highest offer received by the Port Authority for the purchase of Cranes 299 and 300 is less than \$2.75 million, UMS will have the right to cancel the arrangement described above. Alternatively, the contemplated arrangement will automatically be cancelled if the Port Authority does not sell Cranes 299 and 300 by December 31, 1995. If the arrangement is cancelled on either basis, UMS will continue to lease Cranes 299 and 300 under the present terms of the Lease, will surrender Crane 282 and Crane 569 effective on the date of cancellation, with the surrender of Crane 282 to be deemed effective for rental purposes on June 30, 1995, will be granted a rental abatement for rent paid for Crane 282 from July 1, 1995 through the actual date of surrender (which abatement, however, shall in no event exceed \$154,500), will be relieved of its obligation to buy a new crane to replace Cranes 299 and 300, and will not receive any credit against rental based on the contemplated arrangement."

Report of Audit Committee

The Audit Committee submitted a report, for information, of matters discussed in executive session at its meeting on March 7, 1996, which included discussion of internal audit matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received.

Report of Committee on Operations

The Committee on Operations submitted a report, for information, of matters discussed in executive session at its meeting on April 9, 1996, related to lease and contract matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Construction

The Committee on Construction submitted a report, for information, of matters discussed at its meeting on April 9, 1996, which included a discussion of matters relating to improvements to Terminal B at Newark International Airport, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Nominating Committee

During the course of the meeting, the Nominating Committee submitted its report, and the report was received and is included with these minutes.

Commissioners Gargano and Wilson, with Chairman Eisenberg concurring, commended the Executive Director, George J. Marlin, for his dedicated service during the last year.

Audit Committee Annual Report

Commissioner Henderson submitted the following report:

In accordance with the Port Authority By-Laws, the Chair of the Audit Committee reports periodically on the activities of the Committee.

Since the last report, the Audit Committee has met seven times. Our Committee meetings are regularly attended by the Acting Chief Financial Officer, the Acting Director of the Audit Department, the Comptroller, the Acting Inspector General, General Counsel, Chief Technology Officer, and the Director of the Information Services Department.

Representatives of Deloitte & Touche LLP, the Port Authority's independent auditors, have attended three of our meetings. We also held executive sessions with only the outside auditors present. This is consistent with our policy that the auditors and members of the Audit Committee have direct and unrestricted access to each other.

Each quarter, the Audit Committee reviews the status of Port Authority accounts receivable and discusses the quarterly reports prepared by the Comptroller. In this context, the Committee monitors staff efforts to collect revenues due to the Authority, and also reviews the trends in receivable collections. The challenge of collecting outstanding revenues is significant, and the fact that bad debts have continued to decline, and the ratio of recoverables to billings has been well within target, indicate that staff has performed well in this regard.

Also on a quarterly basis, the Committee reviews detailed reports of audit findings prepared by the Audit Department and a report of the Inspector General with respect to investigations undertaken by that Office.

The information contained in these three quarterly reports is a valuable source of information and essentially keeps our Committee informed of relevant matters on a current basis.

The major function of the Inspector General's Office is to investigate situations or allegations of inappropriate, unethical or illegal activities of individuals within the Port Authority and of persons with whom the Port Authority has a business relationship.

The Audit Department submits to the Audit Committee an annual audit plan which is based on a schedule of specific audits established after performing a risk assessment. The assessment takes into consideration the potential of financial loss, major changes in operations or programs, and the dates and results of previous audits. The audit plan is prepared in accordance with Committee and also with our independent auditors.

In addition to providing quarterly reports to the Audit Committee, between meetings, Charles McClafferty and John Brill have kept me informed of special situations, audits and investigations, as appropriate. Al Jackson had done the same while in the Inspector General position.

Our Committee continued its practice of reviewing, in detail, the Authority's audited financial statements prior to their release. We are concerned not only with the control systems which assure the accuracy and completeness of the statements, but also with the presentation, the format, and, in the context of full and fair disclosure, the substance and language of the footnotes.

The 1995 financial statements reflect the appropriate accounting treatment for several non-recurring items such as the sale of the Vista Hotel and land at the Industrial Park at Elizabeth. In the opinion of the auditors, these statements present fairly, in all material respects, the combined financial position of the Port Authority and the combined results of its operations in conformity with Generally Accepted Accounting Principles. We were pleased to hear that the Government Finance Officers Association recognized the Port Authority's 1994 Comprehensive Annual Financial Report with its Certificate of Excellence in financial reporting; an award which the Port Authority has received for each of the past eleven years. This is a remarkable achievement for staff of the Comptroller's Department.

Also, as the Chair of the Audit Committee, I review the expense reports of the Executive Director and of the members of the Board.

This annual report to the Board provides the Audit Committee the opportunity to acknowledge the dedication and professionalism of our staff. The Committee recognizes the strengths, talent and commitment of our financial professionals, all of whom make an important contribution to the Authority and also to the Region.

The Committee believes that reasonable controls and procedures are in place, and that there is a reasonable basis for this Board to have a high level of confidence in the professional and ethical conduct of our personnel.

Election of Officers

Chairman Eisenberg announced that in accordance with the provisions of the By-Laws, the election of officers was in order.

Commissioner Hellmuth, as Chair of the Nominating Committee, submitted the following report:

"On behalf of the Nominating Committee, I desire to report that at its meeting held earlier today, in accordance with the provisions of Article XIa. of the By-Laws, the Committee, by unanimous action, submits the nomination for election to the offices of Chairman and Vice-Chairman of The Port Authority of New York and New Jersey of Commissioners Lewis M. Eisenberg and Charles A. Gargano, respectively. By unanimous action, the Committee also submits the nomination of George J. Marlin as Executive Director of the Port Authority and of Jeffrey S. Green as General Counsel of the Port Authority. By unanimous action, the Committee also submits the nominations of Lysa C. Meduri as Secretary and Raymond P. Mannion as Comptroller."

Pursuant to the foregoing report, Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer, Talley and Wilson voting in favor, the following were unanimously elected as officers of the Port Authority: Commissioner Lewis M. Eisenberg as Chairman, Commissioner Charles A. Gargano as Vice-Chairman, George J. Marlin as Executive Director, Jeffrey S. Green as General Counsel, Raymond P. Mannion as Comptroller and Lysa C. Meduri as Secretary.

Confidential Item

This item shall not be available for public inspection until otherwise agreed to by the parties involved.

The World Trade Center - Evaluation and Assistance in Effectuation of Options for Maximizing the Value of The World Trade Center to the Port Authority

In June 1995, the Port Authority retained Chemical Securities, Inc. to evaluate The World Trade Center and the market in which it operates, identify potential disposition options for some or all of the complex, identify potential operational options under continued Port Authority ownership, and determine the feasibility of the various options for maximizing the value of The World Trade Center to the Port Authority.

The Board has now decided that it is time to test the reaction of the marketplace to three specific options - sale of the complex, net lease of the complex, or private asset management. To accomplish this, the Board directed staff to seek advisory services to help address the issues associated with each of the options, to establish a process whereby the three options are tested in the marketplace, and to assist the Port Authority in effectuating any option decided on by the Board.

Therefore, proposals were solicited from thirteen firms based on their expertise and ability to undertake the required scope of work. Proposals were received from the following six firms:

J.P. Morgan - (with Cushman & Wakefield and Douglas Elliman Realty Investors)
PaineWebber
Salomon Brothers
Lehman Brothers
Morgan Stanley & Co. - (with Edward S. Gordon and E&Y/Kenneth Leventhal)
Merrill Lynch & Co.

The six firms were interviewed by a selection committee consisting of the Assistant Director of Finance, the Chief Financial Officer and the Director of Information Services with General Counsel serving in an advisory capacity. Three of the firms were then interviewed by The World Trade Center Sub-Committee of the Board. J.P. Morgan (with Cushman & Wakefield and Douglas Elliman Realty Investors) was selected based on their capability, overall approach and proposed fee.

J.P. Morgan (with Cushman & Wakefield and Douglas Elliman Realty Investors) will assist the Port Authority in addressing issues related to a sale, net lease or privatized management of The World Trade Center; advise and assist the Port Authority in identifying and retaining other expertise necessary to proceed; establish and implement a process to ascertain the market reaction to a sale, net lease, or privatized management; and assist the Port Authority in effectuating any option decided on by the Board.

The proposed fee arrangement with J.P. Morgan (with Cushman & Wakefield and Douglas Elliman Realty Investors) provides for a monthly retainer not to exceed a total of \$2,600,000 for eighteen months. In addition, the team would be compensated for reasonable out of pocket expenses. The monthly retainer for up to eighteen months

would be credited against a transaction execution fee payable upon the successful execution of any sale, lease or privatization transaction which is decided on by the Board. The transaction fee for a sale or lease would be the greater of .75% of the net transaction value or \$9 million. The fee for a management privatization transaction would be no more than \$5 million. The fees proposed by J.P. Morgan do not include fees related to any securities or financing that may be arranged in connection with the various transactions.

Based upon the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, Philibosian, Schweitzer and Talley voting in favor, Commissioner O'Neill abstaining; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with J.P. Morgan (with Cushman & Wakefield and Douglas Elliman Realty Investors) to evaluate options for maximizing the value of The World Trade Center to the Port Authority and to assist the Port Authority in effectuating any option decided on by the Board and to enter into agreements with accounting and other firms, to provide additional professional services in connection with the foregoing, the form of the agreements to be subject to the approval of General Counsel or his authorized representative; and it is further

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to enter into agreements with law firms to provide additional legal services in connection with the foregoing.

**Newark International Airport - Terminal B - Rehabilitation
Phase V and Capacity Enhancements to Accommodate
International Traffic Authority to Award Contracts - Project
Authorization, Authority to Award Contracts and
Amendments of Airline Leases**

It was recommended that the Board authorize:

- a) a project at Terminal B at Newark International Airport (EWR) at a total estimated project cost of \$75 million, including payments to contractors, allowances for extra and net cost work, planning, engineering, financial and administrative expenses, and contingencies, comprised of (1) Phase V of the rehabilitation of systems, equipment and finishes in the main building portion of the Terminal, the second phase of the replacement of outbound baggage systems, the construction of a VIP/press facility and concession improvements, the rehabilitation of utility systems in the three satellites and connectors and restoration of the exterior of the terminal, and other ancillary improvements, at an estimated project cost of approximately \$66.7 million; and (2) capacity enhancements consisting of the construction of offices and an in-transit lounge and provision for mobile passenger lounge operations at an estimated project cost of approximately \$8.3 million;
- b) the Director of Aviation or Chief Engineer to negotiate and enter into agreements with Delta Air Lines, Inc. or other program management and construction management firms, for their services as program and/or construction managers for certain components of the aforesaid project;
- c) except as set forth in paragraph (b) above, the Executive Director to award Port Authority contracts to the lowest bidder(s), who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work at a bid price the Executive Director deems reasonable, and to order extra work up to 8% of the amount of the bid accepted and to order net cost work, or to reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors, and to execute other contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work and net cost work in connection with each contract and agreement if necessary; and
- d) the Executive Director to enter into agreements or supplemental agreements with (1) manufacturers and service contractors to provide for the rehabilitation and operation of the aforesaid mobile passenger lounges; and (2) Delta Air Lines, Inc. (Delta), and Northwest Airlines, Inc. (Northwest) to make construction advances to Delta, as the Project Manager for the rehabilitation of the public areas, for (i) final design and construction costs related to the rehabilitation of the publicly used exclusive and non-exclusive areas in the main terminal portion of Terminal B, in an amount not to exceed \$30 million, less any financial expense associated with these advances, and (ii) the Port Authority's pro rata share of a 5% administrative fee covering Delta's management and administrative costs in an amount not to exceed \$1.2 million, and to provide for Northwest's payment of its pro rata share of the 5% administrative fee covering Delta's management and

administrative costs and for additional monthly rental payments by Delta and Northwest, for which they would be jointly and severally responsible, to recover their respective pro rata shares of the funds advanced for terminal relifing (less the Port Authority's share of the 5% administrative fee to Delta), plus a construction charge factor amortized on a financially self-sustaining basis over a term to the year 2018.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer, Talley and Wilson voting in favor; none against:

RESOLVED, that a project be and it hereby is authorized to provide Phase V of the rehabilitation of, and capacity enhancements and other ancillary improvements to, Terminal B at Newark International Airport at a total estimated project cost of \$75 million, including administrative, engineering, financial expenses and project contingencies; and be it further

RESOLVED, that the Director of the Aviation Department or Chief Engineer be and he hereby is authorized, for and on behalf of the Port Authority, to negotiate and enter into agreements substantially in accordance with the terms and conditions set forth above; and be it further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to bid, solicit or enter into one or more contracts to perform the aforesaid rehabilitation work and agreements and supplemental agreements with manufacturers and service contractors and with Delta Air Lines, Inc. and Northwest Airlines, Inc., substantially in accordance with the terms and conditions set forth above; and be it further

RESOLVED, that the form of the agreements in each instance shall be subject to the approval of General Counsel or his authorized representative.

Newark International Airport - Budget Rent A Car Corporation
and Dollar Systems, Inc. - Revisions to March 10, 1994
Board Authorization

It was recommended that the Board amend and supplement its March 10, 1994 resolution with respect to proposed lease agreements with Budget Rent A Car Corporation (Budget) and Dollar Rent A Car Systems, Inc., an Oklahoma corporation, (Dollar) (successor by mesne mergers to Dollar Rent A Car Systems, Inc., a California corporation) covering the leasing of approximately 3.9 acres to Budget and 4.4 acres to Dollar at Newark International Airport on which each company will construct customer service facilities to interface with Monorail Station D-2. The Port Authority will now be authorized to pay Dollar up to \$5 million for construction costs which will become the basis for an additional rental under the lease. The amortization period for the repayment of construction advances for both Dollar and Budget will better reflect the useful life of the facilities and the Port Authority will be obligated to pay Budget and Dollar (with the Port Authority's obligations increased to \$5 million for Dollar) its unamortized investment only if the company has prepaid the unpaid balance of its construction payments and if the Port Authority terminates the company's lease or portions of the premises for airport purposes, does not offer to extend the company's lease on the same terms and conditions, or revokes the company's operating permit without cause. It was further recommended that the Board authorize the Executive Director to enter into such other amendments to Budget's and Dollar's existing agreements at John F. Kennedy International and LaGuardia Airports as may be appropriate or necessary to conform them to the foregoing amended arrangement.

Under the proposed agreements, Budget and Dollar will be permitted to prepay its construction advances without penalty. Budget's and Dollar's obligation to repay the construction advances will cease upon lease expiration, termination of a company's lease by the Port Authority for airport purposes, revocation of a company's operating agreement without cause by the Port Authority, or termination of the lease by the lessee should the Airport become impaired for use by scheduled aircraft operators for more than 90 days. If the Port Authority offers to extend a company's lease on the same terms and conditions as its existing lease and the offer is rejected, the unpaid balance of the company's construction advances will become due and payable upon lease expiration.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philiposian, Schweitzer, Talley and Wilson voting in favor; none against:

RESOLVED, that the resolution of the Board adopted at its meeting on March 10, 1994 covering proposed lease agreements with Budget Rent A Car Corporation and Dollar Rent A Car Systems, Inc. at Newark International Airport is hereby supplemented and amended so that the Executive Director be, and he hereby is, authorized, for and on behalf of the Port Authority, to enter into the proposed lease agreements with Budget Rent A Car Corporation and Dollar Rent A Car Systems, Inc., substantially in accordance with the terms of the

March 10, 1994 resolution as hereby supplemented and amended and to enter into such other amendments to Budget's and Dollar's existing agreements at John F. Kennedy International and LaGuardia Airports as may be appropriate or necessary to conform them to the foregoing amended arrangement; the form of the agreements shall be subject to the approval of General Counsel or his authorized representative.

Port Authority Auto Marine Terminal - Carco, Inc. - Lease
Amendment

It was recommended that the Board authorize the Executive Director to enter into an agreement with Carco, Inc. (Carco) amending Carco's lease at the Auto Marine Terminal (Terminal) to provide for (1) the application of the berth rental provisions in the lease to cargo discharged from the Terminal; (2) a minimum rental based on the guarantee number of 77,500 motor vehicles discharged to or from the Terminal per year; and (3) the deletion of the mutual right of the Port Authority and Carco to terminate the letting of the berthing area and associated open area at the Terminal. The application of the berth rental to out-going cargo will be effective retroactively from the commencement of the term of the letting. The minimum rental based on the guarantee number will be effective from the annual period under the lease commencing on December 1, 1995. Motor vehicles which count toward the guarantee number of vehicles set forth in BMW of North America Inc.'s lease at the Terminal will not count toward Carco's guarantee number of 77,500 vehicles. Carco's guarantee number will be subject to reduction in the event of the passage of federal laws whose purpose is to reduce the number of motor vehicles imported to or exported from the United States.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer, Talley and Wilson voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Carco, Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**Brooklyn - Port Authority Marine Terminal - Continental
Terminals, Inc. - Lease BP-267 - Settlement of Account**

It was recommended that the Executive Director be authorized to enter into an agreement with Continental Terminals, Inc. (CTI), issuing CTI a rent credit in the amount of \$258,000 to reimburse CTI for extraordinary costs incurred during the severe winter storms of 1993-1994. The rental credit will be applied to CTI's outstanding arrearage of \$315,000 and CTI will pay to the Port Authority the remaining arrearage of \$57,000. CTI will also discontinue litigation now pending against the Port Authority and will supply a general release and stipulation of discontinuance with prejudice in that pending action.

CTI has been a tenant at the Brooklyn-Port Authority Marine Terminal at various times over the past twenty years. During its last tenancy, CTI experienced snow and ice damage to cargo (coffee) as a result of the severe 1993-1994 winter storms. CTI incurred extraordinary operating costs in mitigating the damage. Thereafter, CTI instituted suit against the Port Authority, ultimately demanding \$398,221.27, alleging negligent maintenance of the roof and began to withhold rent due under the lease.

In its claim against the Port Authority, CTI asserted it had incurred costs for reconditioning, reworking, rebagging and transporting coffee beans damaged as a result of water leaking through the roof. While CTI was required, under the lease, to obtain General Liability Insurance and Warehouseman's Liability Insurance, naming the Port Authority as additional insured, the actual policies produced do not provide coverage as required under the lease. Since CTI never informed the owners of the cargo of the damage (but rather undertook to recondition or rework the coffee), no claims were made, yet CTI's claim against the Port Authority would have been covered by such insurance.

CTI has withheld approximately \$315,000 in rent since 1994. The Port Authority denied CTI's claim for damages and filed a counterclaim for the rent arrearages. It is the opinion of counsel that there is a high likelihood of Port Authority success in the pending litigation, since CTI agreed to take the premises in an "as is" condition and had responsibility for maintaining the roof. The damage in this case, however, was allegedly caused when the heaters, placed in the gutters by the Port Authority to melt snow and ice, malfunctioned due to the great amount of precipitation occurring during the winter season. Port Commerce staff was aware of the problem with the gutters and attempted to cooperate with CTI in mitigating the damages. However, because of the age and condition of the roof, staff had directed CTI not to access it, thereby making it impossible for CTI to maintain the roof in accordance with its lease obligations. The lease provided that the Port Authority would not be liable to CTI for damages to property caused by rain, snow, etc., even if it leaked onto the facility.

Notwithstanding purported statements made by a principal of CTI, which caused concern among staff, an investigation disclosed no proof of any statutory or regulatory violation. Port Authority staff, and that of an independent damage assessment consultant, did identify ice and water damage to cargo in Piers 6 and 7 at the time of the storms. Port Authority auditors reviewed the backup material supplied by CTI and, while not being able to verify all aspects of the claim, they were able

to verify certain aspects of the costs involved. The auditors were also able to provide some information regarding the maximum amount of coffee which could be allowed by Port Commerce staff in their efforts to resolve this matter. Using the verifications that Audit was able to make, and after further discussions, it was determined by Port Commerce staff that it was reasonable to find that CTI incurred \$258,000 in unanticipated costs.

CTI is contemplating a new lease with the Port Authority for the warehousing of cocoa at the Brooklyn-Port Authority Marine Terminal. CTI remains one of the best warehousing concerns in the region and the new lease can contribute to the revitalization of the maritime activity at the Brooklyn sheds, especially given the attractive nature of the cocoa industry. Consequently, notwithstanding outstanding questions regarding the claim asserted, Port Commerce staff believes that business considerations justify entering into an agreement with CTI with respect to these extraordinary costs.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer, Talley and Wilson voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Continental Terminals, Inc., issuing Continental Terminals Inc. a rent credit in the amount of \$258,000 to be applied against outstanding arrears in the amount of \$315,000, in consideration for Continental Terminals, Inc.'s paying the arrearage balance of \$57,000 to the Port Authority, discontinuing litigation now pending and supplying a general release and stipulation of discontinuance with prejudice in that pending action.

Green Lights Program - Memoranda of Understanding with the United States Environmental Protection Agency

The Green Lights Program (Program) sponsored by the United States Environmental Protection Agency (EPA) is a non-regulatory, voluntary program designed to encourage companies to install energy efficient lighting as a means to reduce air pollution, save energy and reduce lighting costs.

The Program was established by the EPA in 1991 and currently has more than 2,000 corporate participants. Participants in the Program sign a Memorandum of Understanding (MOU) with the EPA which includes the member's commitment to survey its facilities, upgrade its lighting, where profitable, and complete the lighting upgrades within five years. In turn, the EPA agrees to provide technical assistance and to publicize the accomplishments of Program participants.

The Port Authority has already embarked on an ambitious program to install energy efficient lighting which is expected to result in energy cost savings in excess of \$2 million per year. Since certain facilities are more advanced than others in their relighting efforts, the EPA has agreed that the Port Authority may sign MOUs on a facility-by-facility basis. The MOU will not obligate the Port Authority with respect to tenant areas. Participation in the Program will complement our relighting program efforts and serve to publicize Port Authority accomplishments in this area.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer, Talley and Wilson voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to execute Memoranda of Understanding with the United States Environmental Protection Agency to enable participation of selected Port Authority facilities in the Environmental Protection Agency's Green Lights Program; the form of any documents necessary to effectuate such shall be subject to the approval of General Counsel or his authorized representative.

Special Project Bonds, Series 4 and Series 5 - Amendments to Resolutions

On November 8, 1990, the Board authorized the Executive Director to enter into agreements required to effectuate the construction and operation of a cogeneration project at John F. Kennedy International Airport by a private developer. The private developer, KIAC Partners, is a New York general partnership between subsidiaries of The Brooklyn Union Gas Company and Public Service Enterprise Group Incorporated, the parent of Public Service Electric and Gas Company. The cogeneration project was to integrate a new installation for the generation of electrical energy with the Airport's existing central heating and refrigeration plant (which was also to be upgraded and expanded) and with a rehabilitated thermal distribution system.

Additionally, on November 14, 1991, the Board authorized the Executive Director to include in the agreements pertaining to the cogeneration project, provision for the issuance of the Port Authority's Special Project Bonds in an aggregate principal amount not to exceed \$250 million to finance a portion of the cogeneration project, including any costs or reserves related to the project or in connection with the issuance of Special Project Bonds. On such basis, on June 11, 1992, the Board established and authorized the issuance of, and authorized the sale of Special Project Bonds, Series 3, Series 4 and Series 5, for purposes of this project.

In April 1993, in connection with the execution of the agreements pertaining to the effectuation of the project, KIAC Partners and the Port Authority agreed that KIAC Partners would provide at least \$51 million of project equity. The plan of financing for the project also included provision of the balance of project costs (up to \$250 million) from the issuance of Series 3, Series 4, and Series 5, upon KIAC Partners' request. On the basis of such request, \$175 million in principal amount of Series 3 variable rate tender bonds were issued on May 4, 1993, backed by a direct draw bank letter of credit.

Now that the project is operational, consistent with that plan of financing, KIAC Partners' has requested, in view of favorable long-term interest rates and because the direct draw bank letter of credit would not now be required for long-term financing for an operational project, that the Port Authority issue Series 4 to refund Series 3 and to provide for the financing of certain of the eligible project costs not previously financed through the issuance of Special Project Bonds, not exceeding the \$250 million limit previously established for such bonds for this project. Additionally, KIAC Partners would represent, in connection with the issuance of Series 4 for such purposes, that any such financing would not cause the amount of KIAC Partners' project equity to be reduced below the agreed to amount of \$51 million.

To facilitate the issuance of Series 4 and/or Series 5 consistent with the continuing plan of financing for this project and with current practices of the Authority, it was recommended that the resolutions adopted June 11, 1992, establishing and authorizing the issuance of, and authorizing the sale of, Special Project Bonds, Series 4, KIAC Partners Project, and Special Project Bonds, Series 5, KIAC Partners Project, be amended to delete maturity date restrictions; to rescind provisions pertaining to bank payment agreements and issuing banks; to provide for the issuance of additional bonds on a parity basis with Series 4 and Series 5, to the

extent authorized in the future by the Port Authority; to make the authorizations for the preparation and distribution of disclosure documents consistent with certain rules recently adopted by the Securities and Exchange Commission; to provide additional events which would require a mandatory redemption of bonds; and to provide, consistent with current authorization practices, for actions which may be taken under the resolutions by the Executive Director (or his designee) to also be taken by the Chief Financial Officer, the Treasurer and the Assistant Treasurer.

A public hearing, consistent with and to the extent provided by the public approval provisions of the Internal Revenue Code of 1986, with respect to the continuing plan of financing for this project, was held on April 10, 1996, after public notice published on March 25, 1996, in The New York Times and The Star-Ledger.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer, Talley and Wilson voting in favor; none against:

RESOLVED, that the resolutions adopted June 11, 1992, entitled "Special Project Bonds, Series 4, KIAC Partners Project - Establishment and Authorization of Issuance" and "Special Project Bonds, Series 5, KIAC Partners Project - Establishment and Issuance", are each amended in the following respects:

- a) all references in each of such resolutions to the "Bank Payment Agreement" and the "Issuing Bank" are deleted and the provisions related thereto in each of such resolutions are rescinded and are of no further force or effect;
- b) all references to the "Series 3 Bonds" and the "Series 3 Resolution" in each of such resolutions are deleted;
- c) Section 2 in each of such resolutions is amended to add a new paragraph (c) as follows: "(c) Additional Series of Special Project Bonds for the Project. The Authority may, from time to time, establish and authorize the issuance of additional series of Special Project Bonds for purposes of the Project on a parity basis with the Series 4 Bonds and the Series 5 Bonds, and the same pledges, mortgages, security interests and assignments applicable to the Series 4 Bonds and the Series 5 Bonds may be extended to each of such additional series in the Special Project Bond Series Resolution pertaining to such series.";
- d) Section 3(a)(iii) in each of such resolutions is amended to read as follows: "(iii) to establish the date or dates (in the event such installment is comprised in whole or in part of serial maturities) at which any of such installment shall mature;"
- e) Section 3(a)(x) in each of such resolutions is amended to read as follows: "(x) to establish events, in addition to those set forth in Section 5 of this Resolution, the occurrence of which shall require the mandatory redemption, in whole or in part, of such installment;" and

- f) Section 11 in each of such resolutions is amended to read as follows: "Section 11. Actions by Certain Officers of the Authority. The Executive Director, Chief Financial Officer, Treasurer and Assistant Treasurer of the Authority are hereby authorized to take any and all action which the Committee on Finance has been authorized to take under this Resolution (without further action by the Committee on Finance).";

and it is further

RESOLVED, that the resolutions adopted June 11, 1992, entitled "Special Project Bonds, Series 4, KIAC Partners Project - Authorization of Sale" and "Special Project Bonds, Series 5, KIAC Partners Project - Authorization of Sale", are each amended in the following respects:

- a) all references to the "Series 3 Bonds" in each of such resolutions are deleted;
- b) Section 5 in each of such resolutions is amended to read as follows: "Section 5. The Committee on Finance is authorized to arrange, from time to time (i) for the preparation and distribution of official statements and/or offering memoranda in connection with this series and (ii) for the preparation and distribution of such other documents giving pertinent data with respect to the Authority and its finances as it deems appropriate, in each case, in the name of and on behalf of the Authority."; and
- c) Section 7 in each of such resolutions is amended to read as follows: "Section 7. The Executive Director, Chief Financial Officer, Treasurer and Assistant Treasurer of the Authority are hereby authorized to take any and all action which the Committee on Finance has been authorized to take under this Resolution (without further action by the Committee on Finance).";

and it is further

RESOLVED, that the amendments set forth in this resolution shall not have any force or effect unless and until The Port Authority of New York and New Jersey Special Project Bonds, Series 3, KIAC Partners Project, are discharged in accordance with Section 10 of the resolution adopted June 11, 1992, entitled "Special Project Bonds, Series 3, KIAC Partners Project - Establishment and Authorization of Issuance."

**Settlement of Claim - Tice v. The Port Authority of New York
and New Jersey**

It was recommended that General Counsel be authorized to enter into a settlement with Jessie Tice and Robert Tice (plaintiffs), and their attorneys, in the amount of \$600,000, inclusive of attorneys' fees, interest, costs and disbursements in exchange for a general release.

The settlement will satisfy a judgment of \$900,000 plus interest which was entered against the Port Authority after a jury returned a verdict in favor of plaintiffs. Plaintiffs' claims for damages arise from an accident which occurred on April 25, 1990 at LaGuardia Airport when Mrs. Tice tripped over an allegedly defectively designed expansion joint cover located in Finger No. 2. Mrs. Tice fractured her right hip and may need a right hip replacement in the future.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer, Talley and Wilson voting in favor; none against:

RESOLVED, that General Counsel be and hereby is authorized, for and on behalf of the Port Authority, to settle the judgment entered in Tice v. The Authority of New York and New Jersey, for the total amount of \$600,000 inclusive of attorneys' fees, interest, costs and disbursements in return for a general release.

Presentation of the Robert F. Wagner Distinguished Public Service Medal

The Robert F. Wagner Distinguished Public Service Medal, by resolution adopted by the Board on March 2, 1944 and amended on May 14, 1992, is awarded to those individuals who have rendered outstanding distinguished public service in their fields of endeavor or in the community, demonstrating an exceptional degree of dedication, good judgment, initiative and competence, and who have sustained this record of service over a number of years. Normally, it is awarded to those who have at least fifteen years of Port Authority service.

It was reported that the Executive Director is to present the Robert F. Wagner Distinguished Public Service Medal to six individuals. These individuals have had exemplary careers in toll collection, skilled trades, public safety, management, law and engineering. Through their dedication and commitment to public service and the Port Authority, they have brought credit to themselves and the agency.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer, Talley and Wilson voting in favor; none against:

RESOLVED, that the Robert F. Wagner Distinguished Public Service Medal be awarded to six individuals who have given truly outstanding service to the Port Authority and the public over many years.

**Presentation of the Meritorious Service Award of
Commendation Medal**

The Commendation Medal, by resolution adopted by the Board on March 2, 1944, as amended, is to be awarded only for outstanding service or exceptionally meritorious performance.

It was reported that the Executive Director is to present the Commendation Medal to twelve individuals who participated with dedication and bravery in five incidents.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer, Talley and Wilson voting in favor; none against:

RESOLVED, that the Commendation Medal be awarded to twelve individuals who have performed outstanding service for the Port Authority and the public.

**Presentation of the Meritorious Service Award of Police
Commendation Medal**

The Police Commendation Medal, by resolution of the Board on March 2, 1944, as amended, is to be awarded to a police officer only in those cases where the officer has performed outstanding service or has shown exceptionally meritorious performance in the duty assigned to him or her.

It was reported that the Executive Director is to present the Police Commendation Medal to twelve individuals who participated in four incidents. These individuals demonstrated heroism, dedication and bravery in the performance of their duties.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer, Talley and Wilson voting in favor; none against:

RESOLVED, that the Police Commendation Medal be awarded to twelve individuals who have performed outstanding service or exceptionally meritorious performance of their duties.

Presentation of the Executive Director's Award of Achievement

The Executive Director's Award of Achievement, established in 1961, is given to individuals who, in the course of carrying out a project or extended assignment as part of the normal work of their positions, extend themselves beyond required limits and achieve results which are of such a nature that they clearly deserve special recognition. Characteristics of performance which are considered in determining the award include ingenuity, resourcefulness, risk taking in decision making and job performance, unusual insight into problems, exceptional diligence and thoroughness in producing completed staff work, and above-standard degrees of proficiency, craftsmanship or professional competence. Among the kinds of results recognized by the award are improved revenues, better service to or relations with tenants, patrons or the community in general; and actions taken on behalf of the Port Authority which are clearly beyond the usual limitations of job responsibility.

It was reported that the Executive Director is to present the Executive Director's Award of Achievement to two individuals. One of these individuals demonstrated outstanding leadership in the agency's organizational restructuring, and was instrumental in achieving our downsizing goals by implementing a severance policy and outplacement program. He also accomplished several significant projects, including putting in place the Hoboken South Waterfront Agreement and initiating the disposition of the Yonkers Industrial Park. The other individual successfully dealt with the transition of the World Trade Center Observation Deck, which she supervised, to Ogden Allied Entertainment Services. As the result of the work of these individuals, several programs of high priority to the Port Authority were implemented successfully.

Presentation of the Executive Director's Unit Citation Award

The Executive Director's Unit Citation was established in 1966 and is to be awarded to the members of a unit, section, division or special task force whose performance in carrying out a project, extended assignment, or during an unusual operating situation was so outstanding as to warrant special recognition.

It was reported that the Executive Director is to present the Executive Director's Unit Citation to 93 individuals for their work on seven teams. These seven units responded to disasters that occurred in 1994 and 1995; investigated a PATH train accident; coordinated and carried out logistically complex and sensitive operations at the airports; and successfully executed programs of high priority and benefit to the Port Authority and the region.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period February 1, 1996 to February 29, 1996.

Schiphol USA Incorporated - Lease for the International
Arrivals and Wing Buildings - Redevelopment and
Operation and Special Project Bond Inducement Resolution**

It was recommended that the Board authorize the Executive Director to enter into a lease with an entity to be formed and controlled by the principals of LCOR Incorporated and Schiphol USA Incorporated (LCOR/Schiphol) for the redevelopment and operation of the International Arrivals and Wing Buildings (IAB) at John F. Kennedy International Airport (JFK). The lease would provide for the construction by LCOR/Schiphol of a terminal having approximately 1.4 million square feet on a site of approximately 165 acres at specified rentals. Subject to an extension of the New York City Airports Lease, the term of the lease would include a construction and transition period and twenty-five years following the date of beneficial occupancy. It was also recommended that the Board authorize the Executive Director to: 1) provide as part of the lease that the Port Authority will be obligated to reimburse LCOR/Schiphol for roadway and utility construction expenses up to \$82 million for work performed on behalf of the Port Authority in areas connected and adjacent to the IAB frontage roads (these funds having been previously authorized by the Board for the reconstruction of the Central Terminal Area roadway and utility network); 2) provide for subsurface environmental remediation on the IAB ramp at a cost to the Port Authority of approximately \$10 million, and bid or negotiate and then award a contract or supplemental agreement therefor; 3) take action or enter into agreements to make provision for the disposition of the current staff of the IAB through placement, attrition, vacancies, incentives or otherwise as he may deem necessary or appropriate; 4) enter into a letter agreement with LCOR/Schiphol effective on or about June 1, 1996, or such other agreed upon date, which will permit LCOR/Schiphol to proceed with certain development of the IAB prior to lease execution, with the Port Authority being obligated to pay an amount up to \$5 million towards the costs of such development in the event a lease is not entered into, provided that LCOR/Schiphol shall be responsible for the initial \$15 million of such development costs, and further provided that no such development costs will be payable by the Port Authority if the New York City Airports Lease has not been extended or LCOR/Schiphol and the City of New York have not entered into a non-disturbance or similar agreement, with such agreement to be subject to the approval of the Port Authority; 5) enter into a management agreement effective on or about August 1, 1996, or such other agreed upon date, under which LCOR/Schiphol would assume day to day management responsibilities for the IAB, including supervision of Port Authority employees; and 6) enter into such other agreements with such entities as may be necessary or appropriate to effectuate the above-described matters. To the extent that delay is experienced in obtaining an extension to the New York City Airports Lease or another mutually acceptable arrangement with the City is not reached in a timely manner, the dates set forth herein would be adjusted.

The lease would also provide that at the lessee's request, the Port Authority would consider the issuance of Special Project Bonds in a principal amount not to exceed \$1.2 billion to provide, in whole or in part, for project costs under and pursuant to the Port Authority Special Project Bond Resolution adopted June 9, 1983; with debt service on such bonds being a special obligation of the Port Authority payable from the sources and to the extent generally as provided in such resolution and with the Port Authority's full faith and credit not being pledged to any such bonds. It is anticipated that the lessee would include in the construction

costs, to be provided with the proceeds of any such bonds, certain costs incurred prior to the execution of the lease and the issuance of any such bonds.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Eisenberg, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer, Talley and Wilson voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with an entity to be formed and controlled by the principals of LCOR Incorporated and Schiphol USA Incorporated at John F. Kennedy International Airport, substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to reimburse LCOR/Schiphol for roadway and utility construction expenses up to \$82 million for work performed on behalf of the Port Authority in areas connected and adjacent to the IAB frontage roads; and it is further

RESOLVED, that a project is hereby authorized to perform certain subsurface remediation at a cost of approximately \$10 million, including administrative, engineering, financial expenses and a project contingency; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to bid, solicit or enter into one or more contracts to perform the aforesaid remediation work, substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized to take action or enter into agreements to make provision for the disposition of the current staff of the IAB through placement, attrition, vacancies, incentives or otherwise as he may deem necessary or appropriate; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a letter agreement with LCOR/Schiphol effective on or about June 1, 1996, or such other agreed upon date, under which LCOR/Schiphol would proceed with certain development of the IAB prior to lease execution, with the Port Authority being obligated to pay an amount up to \$5 million towards the costs of such development in the event a lease is not entered into, provided that LCOR/Schiphol shall be responsible for the initial \$15 million of such development costs, and further provided that no such development costs will be payable by the Port Authority if the New York City Airports Lease has not been extended or LCOR/Schiphol and the City of New York have not entered into a non-disturbance or similar agreement, with such agreement to be subject to the approval of the Port Authority, and further provided that such development costs will only be reimbursable to the extent

that a lease is not entered into because of factors within the Port Authority's control; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a management agreement effective on or about August 1, 1996, or such other agreed upon date, under which LCOR/Schiphol would assume day to day management responsibilities for the IAB, including supervision of Port Authority employees; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into such other agreements with such entities as may be necessary or appropriate to effectuate the above described matters; and it is further

RESOLVED, that the final terms of the lease and other agreements entered into hereunder shall be subject to the approval of the Committee on Operations; and it is further

RESOLVED, that an Authorized Officer (as such term is used in connection with Port Authority bonds and notes) be and is hereby authorized, for and on behalf of the Port Authority, to execute a declaration of official intent under Section 1.150-2 of the regulations issued by the United States Department of the Treasury, to provide for the reimbursement of certain project costs incurred prior to the execution of the lease and the issuance of special project bonds for purposes of the above-described arrangement; and it is further

RESOLVED, that the form of the agreements in each instance shall be subject to the approval of General Counsel or his authorized representative.

Whereupon, the meeting was adjourned.

Secretary

AUTHORIZATION	SERVICE	RETAINER FEE AND EXPENSES
For the Director, Human Resources, to retain the services of: Lee Hecht Harrison 200 Park Avenue New York, N.Y. 10166	Individual outplacement assistance for Alice Herman as part of the severance package for Senior Executive staff impacted by the reduction in force.	\$ 5,000

Whereupon, the meeting was adjourned.

MINUTES of the Meeting of The Port Authority of New York and New Jersey held Thursday, May 9, 1996, at One World Trade Center, City, County and State of New York.

PRESENT:

NEW JERSEY

Hon. Lewis M. Eisenberg, Chairman
 Hon. Kathleen A. Donovan
 Hon. Henry F. Henderson
 Hon. Alan G. Philibosian

NEW YORK

Hon. Charles A. Gargano, Vice-Chairman
 Hon. James G. Hellmuth
 Hon. Peter S. Kalikow
 Hon. George D. O'Neill
 Hon. Melvin L. Schweitzer
 Hon. Madelon DeVoe Talley

George J. Marlin, Executive Director
 Jeffrey S. Green, General Counsel
 Lysa C. Meduri, Secretary
 Karen A. Antion, Chief Technology Officer
 Daniel Bergstein, Executive Policy Analyst, Office of the Deputy Executive Director
 A. Paul Blanco, Chief Administrative Officer
 Lillian C. Borrone, Director, Port/Commerce
 Karen E. Eastman, Assistant Secretary
 David F. Feeley, Chief Operating Officer
 John J. Haley, Jr., Deputy Executive Director
 Mark O. Hatfield, Jr., Deputy Press Secretary
 Gita Kalra, Attorney, Law
 Francis J. Lombardi, Acting Chief Engineer
 Charles F. McClafferty, Acting Chief Financial Officer
 James C. Reinish, Manager, Policy Analysis and Communication, Office of Board Secretary
 Cruz C. Russell, Acting Director, Corporate Policy and Planning
 Jeff Stein, Executive Assistant to the Chairman
 Louis P. Venech, Transportation Development, Corporate Policy and Planning
 Hugh H. Welsh, Deputy General Counsel
 Peter Yerkes, Press Secretary
 Richard T. Anderson, President, New York Building Congress
 Michael C. Finnegan, Counsel to the Governor of the State of New York
 Richard Mroz, New Jersey Governor's Authorities Unit
 Tom Prendergast, President, Long Island Railroad
 H. Claude Shostal, President, Regional Plan Association
 Hon. Archie Spigner, New York City Council, Southeast Queens
 Peter Verniero, Chief of Staff to the Governor of the State of New Jersey

The public meeting was called to order by Chairman Eisenberg at 2:18 p.m. and ended at 2:57 p.m. The Board also met in executive session prior to the public meeting.

Action on Minutes

The Secretary submitted for approval Minutes of the meeting of April 11, 1996. She reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. She reported further that the time for action by the Governors of New York and New Jersey has expired.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Audit Committee

The Audit Committee submitted a report, for information, of matters discussed in executive session at its meeting on May 9, 1996, which included discussion of internal audit matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received.

Report of Committee on Operations

The Committee on Operations submitted a report, for information, of matters discussed in executive session at its meeting on April 25, 1996, which included discussion of lease matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Finance

The Committee on Finance submitted a report, for information, of matters discussed in executive session at its meeting on April 25, 1996, which included discussion of internal financial matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Construction

The Committee on Construction submitted a report, for information, of matters discussed in executive session at its meeting on April 25, 1996, which included a discussion of contract matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Capital Programs and Port Planning

Recognizing the importance of the capital program and the need for rigorous review of the risks associated with major capital projects, it was decided that this activity should now be undertaken by the Committee on Port Planning (of the Port Authority and its subsidiary corporations) henceforth to be referred to as the Committee on Capital Programs and Port Planning.

The Committee on Capital Programs and Port Planning submitted a report, for information, of matters discussed at its meeting on April 25, 1996, which included a discussion of Access to the Region's Core. The Committee also met in executive session on April 11, 1996 to discuss matters which could affect the competitive economic position of the Port Authority, the port district and businesses with whom we deal, and the report was received.

Michael C. Finnegan, Counsel to the Governor of the State of New York, and Peter Verniero, Chief of Staff to the Governor of the State of New Jersey, expressed support on behalf of both Governors for the Comprehensive Dredging and Disposal Plan.

Richard T. Anderson, President of New York Building Congress; Tom Prendergast, President of Long Island Railroad; H. Claude Shostal, President of Regional Plan Association; and Hon. Archie Spigner of New York City Council, Southeast Queens, expressed support, on behalf of the entities they represent, for the John F. Kennedy International Airport - Airport Access Project.

Retention of Independent Auditors

Under the By-Laws, the Audit Committee has the responsibility to recommend retention of independent auditors for designation by the Board to audit the accounts and financial statements of the Port Authority and its subsidiaries. The Audit Committee monitors the independent auditing function and decides annually the question of which firm to recommend to the Board for retention by the Port Authority and for what period of time in light of then-current circumstances.

Consistent with long-standing policy and after a full review and discussion of the performance of Deloitte & Touche LLP, the Audit Committee recommended that the Board designate Deloitte & Touche LLP as independent auditors to audit the accounts and financial statements of the Port Authority and its wholly-owned subsidiaries for the year ending December 31, 1996, to perform an evaluation of the system of internal accounting controls, to perform a review of the Passenger Facility Charge Program, to provide other audit services, and to provide services requested in the disclosure process in connection with the issuance from time to time of Port Authority obligations.

The Audit Committee was authorized, by Board action on March 9, 1995, to seek proposals relating to the independent auditing function for the 1996 annual audit. However, because of a number of factors related to the ongoing reorganization and redirection of the Port Authority begun in the summer of 1995, it was decided not to seek proposals at this time.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that Deloitte & Touche LLP be and it hereby is designated as independent auditors to audit the accounts and financial statements of The Port Authority of New York and New Jersey and its wholly-owned subsidiaries for the year ending December 31, 1996; and it is further

RESOLVED, that, for the year ending December 31, 1996, Deloitte & Touche LLP be and it hereby is designated to perform an evaluation of the system of internal accounting controls, and to provide other audit services, including a review of revenue and cost computations relating to and under the terms of the various lease agreements, such as those with the cities of New York and Newark, financial and statistical data reports submitted to the Federal Transit Administration, field work and financial disclosure requirements of the Single Audit Act of 1984 for recipients of Federal financial assistance, and to participate as requested in the disclosure process in connection with the issuance from time to time of Port Authority obligations; and it is further

RESOLVED, that, for the year ending December 31, 1996, Deloitte & Touche LLP be and it hereby is designated to perform a review of the Passenger Facility Charge Program pursuant to the Aviation Safety and Capacity Expansion Act of 1990; and it is further

RESOLVED, that, in accordance with the By-Laws of the Port Authority, the matters of arranging for such services by the above-designated auditors, for monitoring the auditors' performance, and for evaluating proposals for 1997 be and each hereby is referred to the Audit Committee.

**Comprehensive Dredging and Disposal Plan - Bi-State
Cooperation**

WHEREAS, representatives of the States of New York and New Jersey (the States) and The Port Authority of New York and New Jersey (the Port Authority) have been involved in extensive discussions with the goal of developing a comprehensive dredging and disposal plan (the Plan) for the Port of New York and New Jersey (Port); and

WHEREAS, the Port produces 166,500 jobs in the regional community and is responsible for close to \$20 billion in annual regional sales, \$6.2 billion in regional wages, \$500 million in regional income and sales taxes; and

WHEREAS, the New York and New Jersey region provides an immediate customer base of 17 million consumers within 250 miles of the Port; and

WHEREAS, the States and the Port Authority realize the vital importance to the region that the Port's status as the largest hub port on the Eastern seaboard be maintained; and

WHEREAS, the States and the Port Authority have committed to the development of the Plan as a top priority and toward that end will work with the Environmental Protection Agency, the Army Corps of Engineers, the Federal government, the City of New York, affected community groups and the environmental community to develop an economically sound and environmentally responsible Plan.

NOW, THEREFORE, BE IT

RESOLVED, that the Plan will extend through the year 2025 and will address the immediate, short-term, mid-term and long-term needs of the Port, including the creation of deep water channels containing adequate depth for 48-foot draft vessels; and it is further

RESOLVED, that in developing the Plan, several options for dredging and the development of disposal and other management techniques shall be considered by the States and the Port Authority, including but not limited to, the construction of the Newark Bay Subaqueous Confined Disposal Facility, the research and development of containment islands and other disposal options, pollution reduction strategies, decontamination technologies, and the implementation of upland, near-shore, and in-water disposal solutions; and it is further

RESOLVED, that the cost to implement the Plan should be equitably apportioned among all affected parties, including but not limited to the State of New York, the State of New Jersey, the Port Authority, the City of New York and the Federal government and that the Port Authority will commit to spend up to one hundred thirty million dollars (\$130,000,000) on dredging projects during the 1996 fiscal year; and it is further

RESOLVED, that the Plan will include a streamlining of the permitting process for dredging and disposal, including more direct lines of responsibility and clarification of the regulations and testing procedures and interpretation of their results, and it is further

RESOLVED, that the Port Authority is committed to gaining input from the various affected constituencies, including port businesses, fishing, tourism and environmental groups, and will seek support for the Plan from all interested parties.

The foregoing resolution was unanimously adopted.

**John F. Kennedy International Airport - Airport Access
Project - Project Authorization - Applications to Impose
and Use Additional Passenger Facility Charge**

It was recommended that the Board:

- 1) authorize a project for the implementation of an automated Light Rail Transit (LRT) system including a link between Jamaica and John F. Kennedy International Airport (JFK), a link between Howard Beach and JFK, and an LRT circulating the Central Terminal Area (CTA) for an estimated cost of \$1.081 billion in current dollars, including payments to contractors, allowances for extra work and net cost work, engineering and administrative and a provision for an additional estimated \$187 million for escalation, insurance and construction bonding, interest cost during construction and a project contingency. Such authorization is subject to any necessary or appropriate certifications or approvals;
- 2) authorize the Executive Director to apply to the Federal Aviation Administration (FAA) for authority to continue to impose and use a Passenger Facility Charge (PFC) of \$3 per enplaned passenger at JFK, Newark International Airport (EWR) and LaGuardia Airport (LGA). The applications would include:
 - a) additional PFC collection authority of \$823 million for the proposed Airport Access LRT. This amount would include \$598 million for the portion of the LRT system between JFK and Jamaica, \$131 million for the Howard Beach link, and \$94 million for the CTA component. This \$823 million would be in addition to the \$100 million collection authority previously approved for the CTA component and the \$325 million previously approved for the Howard Beach link; and
 - b) additional PFC use authority of \$1.248 billion. This amount would include \$598 million for implementing the portion of the LRT system between JFK and Jamaica, \$456 million for implementing the Howard Beach link, and \$194 million for implementing the CTA component;
- 3) authorize expenditures of an additional approximately \$25 million for the LRT project for a total Airport Access project budget of \$56 million, to provide for the following items prior to further PFC approvals from the FAA:
 - a) early action items for the Jamaica-JFK LRT project implementation, which might include the remediation of any contaminants on the project right-of-way, construction of roadway relocation and related work action items;
 - b) professional, technical, and advisory services as might be appropriate for the project; and
 - c) costs preliminary to acquisition of property interests, including but not limited to costs associated with securing rights of entry, title searches, title insurance and surveys, real estate appraisals, incidental mitigation of impacted wetlands and remediation of contaminants on the properties, if required; and

- 4) authorize the Executive Director with regard to the LRT project to:
 - a) obtain permits and approvals and to negotiate and enter into any agreements or supplements to existing agreements with such entities as may be required to effectuate the LRT project and to execute documents in connection therewith, and
 - b) to take such actions with respect to the award of purchase and construction contracts and agreements for professional, technical, and advisory services as he deems in the best interest of the Port Authority, including, without limitation, award to the lowest qualified bidder or proposer, who in his opinion, is best qualified by reason of responsibility, experience and capacity to perform the work and whose bid or proposal price the Executive Director deems reasonable; rejection of all bids or proposals; solicitation of new bids or proposals on revised or same requirements; or negotiations with one or more bidders or proposers or other contractors, and execute contracts and supplemental agreements with such bidders or proposers or contractors as he deems in the best interest of the Port Authority, and to order extra work and net cost work in connection with each contract, including supplemental agreements thereto.

Extensive analyses over the past four years have shown that the implementation of the airport access project would preserve and enhance the capacity of the regional airport system, maintain and strengthen the airports' competitiveness, and preserve and enhance the regional economic benefits generated by the airports.

It is projected that a significant number of air passengers, airport visitors and airport employees will utilize the proposed airport access system. The ridership analyses of the airport access project show that the LRT system will be used by over 34,000 ground-access passengers and employees daily for trips to, from and on the airport.

In addition to the air capacity, competition, and airport-generated economic benefits, the proposed project will provide a significant boost to the regional economy during construction and operation. The airport access project is anticipated to generate 4,800 construction jobs during its construction. The total direct and indirect economic benefits from construction, including those from wages and income taxes, are expected to exceed \$1.7 billion in current dollars. Subsequent to the construction of the project, the operations of the system will generate over 195 permanent positions, and contribute in excess of \$824 million in annual economic activity to the region. These annual benefits are a result of passenger time savings, air quality improvements, income earnings, and regional income taxes.

The requested additional PFC authority would bring total requested authority to collect, including any interest earned thereon, to \$1.768 billion for projects in both states, and total requested authority to use to \$1.707 billion on projects in both states. We currently have authority to collect \$846 million for projects in both states and spend \$171 million on projects in both states (a request for authority to spend \$250 million for the Monorail-Northeast Corridor was submitted this month and is pending). The new applications would cover the collection and use of PFC funds for the proposed Airport Access LRT project, including CTA and Howard Beach Components, for which the FAA has previously approved the imposition of \$100 million and \$325 million in PFCs. The proposed project would connect JFK with the Long Island Rail Road and the subway station at Jamaica and with the Howard Beach Subway Station. Due to limitations on available funding, for the foreseeable future the Port Authority has no other plans to provide airport rail access in New York beyond the connections to the New York City Transit Authority facilities at Howard Beach and the Long Island Rail Road and the New York City Transit Authority facilities at Jamaica. If at some time in the future, additional rail access is planned by the Port Authority or others, it could be substantially different than the rail airport access plan previously considered by the Port Authority.

Submission of the PFC use application to the FAA is contingent upon the requisite environmental and Airport Layout Plan processing by the FAA. To-date the FAA has approved the use of \$14 million in PFCs for projects in New York.

Due to the small number of passengers carried in air taxis and difficulty of collection, it is proposed for administrative reasons that air taxis, except commuter air carriers, continue to be exempted from PFC collection.

The new PFC applications also would request permission to reimburse the Port Authority with PFCs for the advance funds requested herein for the LRT project. The authorizations requested would continue to advance the project during the interim until further FAA approval to spend the PFCs being collected for the project is obtained. The approximately \$25 million in expenditures requested for the project would provide for engineering, materials procurement, and various environmental and property acquisition planning efforts, including expenses of Special Counsels. This includes early action items for the project.

The agreements involved to effectuate the project may include, for example, those with Federal, state, and municipal entities such as the City of New York relative to adding acquired property interests to the Air Terminal premises leased to the Port Authority. At the appropriate time, staff will ask the Board to make the necessary findings and authorize acquisition of specific property interests by condemnation or negotiation.

As required by the PFC regulations, the Port Authority will consult with the airlines before filing PFC applications with the FAA to collect and/or use PFC funds for the project.

Pursuant to Sections 9110 and 9111 of the Aviation Safety and Capacity Expansion Act of 1990 (Act), public agencies that control commercial airports may apply to the FAA for approval to impose and use a PFC of \$1, \$2 or \$3 per enplaned passenger. The proceeds may be used for eligible airport-related projects that preserve or enhance safety, capacity or security of the national air transportation system, reduce noise from an airport that is part of such system, or furnish opportunities for enhanced competition between or among air carriers.

PFC revenues may be used to pay allowable costs of FAA-approved projects, including payments for debt service on bonds and other indebtedness incurred to carry out such projects and bond financing costs.

It is anticipated that PFC revenues would be used on a direct basis to pay project costs and to pay bond-associated debt service and financing costs on that portion of bonds issued to carry out FAA-approved PFC funded projects. Subsequent authorization will be sought for any bonds to be issued for the PFC projects.

The aggregate PFC revenues at the three airports are estimated to be approximately \$90-\$115 million annually. This represents the net proceeds from authorized PFC collection less a service charge paid to the airlines of \$0.08 per passenger for handling the PFC. Under provisions of the Act, the Port Authority loses up to half of its apportioned Airport Improvement Program (AIP) funds in years when PFCs are collected. The reduction in anticipated AIP apportionments for 1996 is estimated at \$15 million.

Along with the usual required assurances regarding compliance with the applicable Federal, state and local laws and regulations, the following assurances would be required in PFC applications to the FAA: the Port Authority has the legal authority to impose a PFC and to finance and carry out the proposed project; that a resolution, motion or similar action has been duly adopted or passed as an official act of the Port Authority's governing body authorizing the filing of an application, including all understandings and assurances contained therein, and directing and authorizing the person identified as the official representative of the Port Authority to act in connection with the application; the Port Authority will not enter into exclusive long-term (five years or longer) leases or use agreements with any carrier for PFC-funded projects; leases or agreements for such facilities will not preclude the Port Authority from funding, developing, or assigning new capacity at the airports with PFCs; the Port Authority will not enter into lease or use agreements for facilities financed with PFCs, if they contain carry-over provisions regarding a renewal option that would automatically extend the term of the agreements in preference to potentially competing carriers trying to negotiate for the use of those facilities; any lease or use agreements for PFC-funded facilities will contain a provision that permits the Port Authority to terminate the lease or use agreement if the carrier has an exclusive lease or use agreement for existing facilities at the airports, and any portion of its existing exclusive use facilities is not fully used and is not made available for use by potentially competing carriers; and the Port Authority will not treat PFCs as airport revenue for the purposes of establishing rates, fees and charges for carriers based on that portion of capital costs paid for by PFCs.

The provisions of the Airport Noise and Capacity Expansion Act of 1990 require that the authority to impose a PFC be terminated if the Administrator determines that the Port Authority has failed to comply with the Act or its implementing regulations.

Pursuant to the foregoing report presented by staff, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that a project for the implementation of an automated Light Rail Transit (LRT) system including a link between Jamaica and John F. Kennedy International Airport (JFK), a link between Howard Beach and JFK, and an LRT circulating the Central Terminal Area (CTA) for an estimated cost of \$1.081 billion in current dollars, including payments to contractors, allowances for extra work and net cost work, engineering and administrative and a provision for an additional estimated \$187 million for escalation, insurance and construction bonding, interest cost during construction and a project contingency be and it hereby is authorized; such authorization to be subject to any necessary or appropriate certifications or approvals; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority to apply to the Federal Aviation Administration (FAA) for authority to continue to impose and use a Passenger Facility Charge (PFC) of \$3 per enplaned passenger at JFK, Newark International Airport (EWR) and LaGuardia Airport (LGA). The applications would include:

- a) additional PFC collection authority of \$823 million for the proposed Airport Access LRT. This amount would include \$598 million for the portion of the LRT system between JFK and Jamaica, \$131 million for the Howard Beach link, and \$94 million for the CTA component. This \$823 million would be in addition to the \$100 million collection authority previously approved for the CTA component and the \$325 million previously approved for the Howard Beach link; and
- b) additional PFC use authority of \$1.248 billion. This amount would include \$598 million for implementing the portion of the LRT system between JFK and Jamaica, \$456 million for implementing the Howard Beach link, and \$194 million for implementing the CTA component; and it is further

RESOLVED, that the advancement of Port Authority funds in the additional amount of \$25 million for the LRT project is hereby authorized, (for a total Airport Access project budget of \$56 million), said expenditures to provide for the following items prior to further PFC approvals from the FAA:

- a) early action items for the Jamaica-JFK LRT project implementation, which might include the remediation of any contaminants on the project right-of-way, construction of roadway relocation and related work action items;
- b) professional, technical, and advisory services as might be appropriate for the project; and
- c) costs preliminary to acquisition of property interests, including but not limited to costs associated with securing rights of entry, title searches, title insurance and surveys, real estate appraisals, incidental mitigation of impacted wetlands and remediation of contaminants on the properties, if required; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized with regard to the LRT project to:

- a) obtain permits and approvals and to negotiate and enter into any agreements or supplements to existing agreements with such entities as may be required to effectuate the LRT project and to execute documents in connection therewith; and
- b) to take such actions with respect to the award of purchase and construction contracts and agreements for professional, technical, and advisory services as he deems in the best interest of the Port Authority, including, without limitation, award to the lowest qualified bidder or proposer, who in his opinion, is best qualified by reason of responsibility, experience and capacity to perform the work and whose bid or proposal price the Executive Director deems reasonable; rejection of all bids or proposals; solicitation of new bids or proposals on revised or same requirements; or negotiations with one or more bidders or proposers or other contractors, and execute contracts and supplemental agreements with such bidders or proposers or contractors as he deems in the best interest of the Port Authority, and to order extra work and net cost work in connection with each contract, including supplemental agreements thereto; and it is further

RESOLVED, that the form of all documents to effectuate the aforesaid shall be subject to the approval of General Counsel or his authorized representative.

**John F. Kennedy International Airport Research and
Development Project for Foam Arrestor Bed -
Authorization to Award Design Build Contract to
Engineered Systems Inc. and Edwards & Kelcey, Inc., A
Joint Venture**

Many of the runways at Port Authority airports, and airports around the U.S., have less than the recommended 1,000 ft. runway safety overrun area since they were constructed before the Federal Aviation Administration (FAA) instituted the 1,000 foot guideline. While such runways are exempt from the FAA 1,000 foot criteria, mathematical simulation and live tests conducted at the FAA Technical Center have proven that, using foam arrestor technology, all types of aircraft can be stopped in less than 600 feet when entering the overrun with speeds of up to 80 knots. Overrun incidents are the most common form of serious aircraft operational mishaps.

Therefore, On March 9, 1995, the Board authorized entering into a four-year Cooperative Research and Development Agreement with the FAA for professional services and technical research leading to the installation of arrestor beds at Port Authority airports. The Board also authorized negotiating a sole-source contract with Engineered Systems Inc. for the design, construction and installation of one Foam Arrestor Bed at John F. Kennedy International Airport within the Runway 4R existing overrun area at an estimated cost of \$750,000. In total, the Board authorized up to \$4.5 million for the installation of five foam arrestor beds. Engineered Systems is the world leader in active aircraft arresting systems and designed, built, and installed the only existing foam arrestor bed at the FAA Technical Center.

Since the 1995 Board action, extensive refinement and realistic assessment of costs by the contractor, FAA and Port Authority resulted in a construction cost of \$2,610,000, a figure that has been confirmed by an independent engineering firm, Stone & Webster. As is common with research and development projects, initial implementation costs for first generation or prototype systems are generally the highest. It is therefore proposed to complete the JFK installation and after evaluation, present a new project proposal to the Board for future installations. All costs for the arrestor are fully recoverable through the flight fee formula.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director, for and on behalf of the Port Authority, be and he hereby is authorized to award a contract to Engineered Systems Inc. and Edwards & Kelcey, Inc., a joint venture, for the design, construction, and installation of one foam arrestor bed at John F. Kennedy International Airport (JFK) in the existing Runway 4R/22L overrun area, at an estimated cost of \$2,610,000 and it was further;

RESOLVED, that the form of the contract shall be subject to the approval of General Counsel or his authorized representative.

All Airports - Aircraft Noise Abatement Project - School
Soundproofing Program at Five Schools - 1996

The Port Authority's School Soundproofing Program has been in existence since 1983. This 1996 initiative would bring the total number of individual schools in the program to 54 (33 in New York and 21 in New Jersey). The total estimated project cost, including the amount requested in this authorization, is \$88.5 million, of which an estimated \$68.9 million is the federal share and an estimated \$19.6 million is the Port Authority share. Soundproofing work has been completed at 26 schools. The work is intended to reduce the impact of aircraft noise within the instructional areas of affected schools and generally reduces perceived noise levels by about half within such areas. Based on Federal Aviation Administration (FAA) guidelines, eligibility for school soundproofing under the Airport Improvement Program (AIP) is limited to schools located within the 65Ldn contour of the most current noise exposure map.

This authorization will provide funds for soundproofing: P.S. 146Q - Phase II (Howard Beach, NY) estimated at \$1.6 million; P.S. 146B - Phase III (Bronx, NY) estimated at \$1.5 million; St. Michael's School (Flushing, NY) estimated at \$1.5 million; East Side High School - Phase III (Newark, NJ) estimated at \$1.5 million; and Cleveland/Holmes Middle School Complex - Phase II (Elizabeth, NJ) estimated at \$1.5 million. Work at the larger schools, such as East Side High School, is broken into a number of phases because of their large size and yearly funding limitations.

The agreements with the responsible school entities will stipulate that the project is premised on the expectation that both federal grant funds and Port Authority appropriated funds will be available. In the event the Port Authority fails to obtain sufficient funds to complete all of the proposed soundproofing, it may terminate the agreement entirely before construction starts or agree to complete only a defined portion of work for which Port Authority and federal funds are made available.

Although the Port Authority provides the funds to soundproof a school, the responsible school entity assumes all liabilities, retains the consultant and contractor, and assumes responsibility for the supervision of construction. Approximately 80% of the costs are recovered through federal grants under the Airport Improvement Program and the remaining 20% is recoverable through the Flight Fee Formula. Since the work to be performed is eligible for AIP grant money and is subject to U.S. Department of Transportation regulations, the consultants and contractors retained must make a good faith effort to meet a 17% goal for participation by Disadvantaged Business Enterprises.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the 1996 School Soundproofing Program, consisting of five schools located in the proximity of the Port Authority airports, at a total estimated cost of \$7.6 million, of which an estimated \$6.08 million will be provided by Federal Aviation Administration funding and \$1.52 million by the Port Authority, be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with St. Michael's School (Flushing, New York), to provide funds to reduce the impact of aircraft noise levels within that school; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

Port Authority Bus Terminal - PABS 96, Inc. d/b/a Broadway Sneakers - Lease Agreement

It was recommended that the Board authorize the Executive Director to enter into a lease agreement (the Lease) with PABS 96, Inc. (the Lessee) covering the letting of approximately 2,695 square feet of retail space on the main floor of the North Wing of the Port Authority Bus Terminal, and approximately 1,827 square feet of storage space on the second floor of the North Wing, for a term commencing on or about June 1, 1996 and expiring on the day preceding the tenth anniversary of the date payment of rental commences under the Lease. The retail space will be used for the operation of a store selling sporting goods, sportswear, sneakers, athletic shoes, and related accessories. The Lessee will pay a graduated basic rental for the retail space at an annual rate ranging from approximately \$170,000 to approximately \$237,000 over the term of the Lease, and a graduated basic rental for the storage space at an annual rate ranging from approximately \$14,000 to approximately \$20,000 over the term of the Lease. In the event that a hotel is constructed on Eighth Avenue, between 42nd and 43rd Streets, the Lessee will pay an additional rental at an annual rate set forth in the Lease. Payment of rental under the Lease will commence no later than 270 days from the commencement date of the term of the letting under the Lease or 30 days from the commencement of business operations in the premises, whichever occurs first. The Lessee will install all improvements, fixtures and equipment required at its cost and expense, and the Port Authority will grant the Lessee a rental credit in an amount not to exceed \$50,000 towards the cost of demolishing the mezzanine separating the two areas of the premises. The term of the letting will be subject to termination by the Port Authority, at any time, without cause, on thirty days' notice, in which event the Lessee would be reimbursed for the unamortized portion of its initial capital investment in the premises to the extent that such initial capital investment does not exceed \$400,000.

The Port Authority will pay a brokerage commission to Nation Real Estate Corp. in connection with the letting.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with PABS 96, Inc. at the Port Authority Bus Terminal and a brokerage agreement with Nation Real Estate Corp., substantially in accordance with the terms and conditions outlined above; the form of the agreement in each instance shall be subject to the approval of General Counsel or his authorized representative.

Port Authority Bus Terminal - Bonini 1, Inc. d/b/a Mrs.
Fields Cookies - Lease Agreement

It was recommended that the Board authorize the Executive Director to enter into a lease agreement (the Lease) with Bonini 1, Inc. (Bonini) covering the construction and operation of a Mrs. Fields Cookie Shop on the second floor of the South Wing of the Port Authority Bus Terminal for a term commencing on or about June 1, 1996 and expiring on the day preceding the twelfth anniversary of the date payment of rental commences under the Lease. The premises will be used for the operation of a retail store selling cookies and related products. Bonini will pay a graduated basic rental for the premises at an annual rate ranging from approximately \$69,000 to approximately \$86,000 over the term of the Lease, plus a percentage rental equivalent to 8% of Bonini's annual gross receipts which are in excess of an annual exemption amount as provided in the Lease. Payment of rental under the Lease will commence no later than 240 days from the commencement date of the term of the letting under the Lease or upon the commencement of business operations in the premises, whichever occurs first. Bonini will install all improvements, fixtures and equipment required at its cost and expense. The Port Authority previously removed asbestos from the premises at an estimated cost of \$10,000. The term of the letting will be subject to termination by the Port Authority, at any time, without cause, on thirty days' notice, in which event Bonini would be reimbursed for the unamortized portion of its initial capital investment in the premises to the extent that such initial capital investment does not exceed \$200,000.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Bonini 1, Inc. at the Port Authority Bus Terminal, substantially in accordance with the terms and conditions outlined above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

Port Authority Bus Terminal - Tandy Corporation d/b/a Radio
Shack - Lease Agreement

It was recommended that the Board authorize the Executive Director to enter into a lease agreement (the Lease) with Tandy Corporation (Tandy) covering the construction and operation of a Radio Shack store on the main floor of the South Wing of the Port Authority Bus Terminal for a term commencing on or about July 1, 1996 and expiring on the day preceding the tenth anniversary of the date payment of rental commences under the Lease, subject to earlier termination by Tandy at the end of the fifth year and at the end of the seventh year of the term, in each case measured from the date payment of rental commences under the Lease, upon payment to the Port Authority of the sum of \$10,000, if sales do not exceed an amount designated in the Lease. Tandy will have the right to extend the term of the letting for an additional five-year period, and if Tandy exercises this option it will be required to invest a minimum of \$40,000 to modernize the store. The premises will be used for the operation of a consumer electronics and personal computer retail store. Tandy will pay a graduated basic rental for the premises at an annual rate ranging from \$102,000 to \$114,000 over the initial term of the Lease, and at the annual rate of \$138,000 if it exercises the option to extend the term of the Lease, plus a percentage rental equivalent to 3% of Tandy's annual gross receipts which are in excess of an annual exemption amount as provided in the Lease. Payment of rental under the Lease will commence no later than 240 days from the commencement date of the term of the letting under the Lease or 60 days from the commencement of business operations in the premises, whichever occurs first. Tandy will install all improvements, fixtures and equipment required at its cost and expense, and the Port Authority will grant Tandy a rental credit in an amount not to exceed \$50,000 towards the cost of constructing a demising wall separating the premises from the adjoining area, and bringing utilities to the premises. The Port Authority will also remove asbestos from the premises at an estimated cost of \$80,000. The term of the letting will be subject to termination by the Port Authority, at any time, without cause, on thirty days' notice, in which event Tandy would be reimbursed for the unamortized portion of its initial capital investment in the premises to the extent that such initial capital investment does not exceed \$200,000. As part of the transaction, Tandy will be provided with approximately 400 square feet of storage space in the Port Authority Bus Terminal at no additional rental.

The Port Authority will pay a brokerage commission to Richard Kusack and Jack Valensi in connection with the firm portion of the letting and an additional commission if Tandy exercises its option to extend the term of the letting under the Lease.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Tandy Corporation at the Port Authority Bus Terminal and a brokerage agreement with Richard Kusack and Jack Valensi, substantially in accordance with the terms and conditions outlined above; the form of the agreement in each instance shall be subject to the approval of General Counsel or his authorized representative.

The World Trade Center - RAS Securities Corp. - Lease Agreement

It was recommended that the Board authorize the Executive Director to enter into (1) a lease agreement with RAS Securities Corp. (RAS) covering the letting of office space at Two World Trade Center; and (2) a brokerage agreement with Newmark & Company Real Estate, Inc. in connection with the lease, each agreement to be substantially in accordance with the terms and conditions outlined below.

The proposed lease agreement with RAS will have a term of approximately ten years commencing on or about June 1, 1996 and will cover the letting of approximately 18,500 rentable square feet of office space on the 29th floor of Two World Trade Center. RAS will pay a total aggregate basic rental which is expected to be in excess of \$3.4 million.

A brokerage agreement will be entered into with Newmark & Company Real Estate, Inc., the brokers involved in this Lease providing for payment of a commission calculated in accordance with the rates authorized by the Board at its August 11, 1977 meeting.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into (1) a lease agreement with RAS Securities Corp. covering the letting of space at The World Trade Center; and (2) a brokerage agreement with Newmark & Company Real Estate, Inc. in connection with the lease, substantially in accordance with the terms and conditions outlined above; the form of the agreements in each instance shall be subject to the approval of General Counsel or his authorized representative.

Holland Tunnel - Purchase of Real Property and Interests in Real Property from Newport Associates Development Company and Seaport East Development Corp. and Settlement of All Pending Actions between Such Parties and the Port Authority (and PATH)

It was recommended that the Board authorize the Executive Director to:

- I. acquire from Newport Associates Development Company, a New Jersey general partnership (Newport Associates), and Seaport East Development Corp., an Indiana corporation (Seaport), as indicated below, and accept title or a perpetual easement, as specified below, to, real property located in the City of Jersey City, County of Hudson and State of New Jersey as follows:

From Newport Associates: (A) Title to approximately 1.350 acres, being Lot 2.20 and part of Lot 2.19 of Block 20 per plat entitled "Final Subdivision Plat Southeast Quadrant at Newport" dated November 12, 1990 and recorded February 8, 1991 in the Office of the Register of Hudson County, New Jersey as Map Number 3464, Newport Associates to reserve a perpetual, non-exclusive easement as to a part thereof for subsurface sanitary and storm sewer conduits and appurtenances; and (B)(1) a perpetual, non-exclusive surface easement for access to, and a perpetual, exclusive surface and above-surface easement for maintenance, repair and construction work on, the Port Authority's landside New Jersey Holland Tunnel Ventilation Building or successor building or structure, over approximately 0.054 acres, being part of Lot 5.13 of Block 20 per the same plat above-mentioned; and (2) a temporary easement for construction staging and material and equipment storage with respect to contemplated maintenance on both the landside and in-river New Jersey Holland Tunnel Ventilation Buildings over approximately 0.643 acres, being part of Lot 3.06 of Block 20 per the same plat above-mentioned;

From Seaport: Title to approximately 4.204 acres, being Lot 2.15 (known as the Pier9/204 parcel) of Block 20 per the same plat as above-mentioned, together with all riparian rights related thereto; and

- II. effectuate, simultaneously with the closing of the foregoing acquisitions, the mutual dismissal of record with prejudice and release of all claims related to the subject matter, of all pending lawsuits between the Port Authority/PATH, on the one hand, and Newport Associates/Seaport on the other; and
- III. in consideration of the conveyance to it of good title to the above-described real property and interests, the mutual dismissal with prejudice of, and releases of claims related to, all present lawsuits between the Port Authority/PATH, on the one hand, and Newport Associates/Seaport, on the other hand, and the payment by Newport Associates to PATH of the \$1 million sum referred to below, pay \$7 million jointly to Newport Associates and Seaport simultaneously with the closing of the foregoing acquisitions and against Newport Associates' payment to PATH of \$1 million;

it being intended and understood that all of the matters recited above are interdependent and to be effective simultaneously.

It was reported that although General Counsel viewed the Port Authority's case in such lawsuits to be a strong one, if the lawsuits are not settled and the outcome is unfavorable to the Port Authority, the costs to it could be considerable. The lawsuits by the Port Authority and PATH were based, in part, on provisions in a December 7, 1921 agreement, and as thereafter amended, between predecessors to the current parties, expressly obligating the owner of Pier 9/204, at its sole expense, to maintain, repair and make replacements to such Pier and, in part, on a written contract providing for Newport to reimburse PATH \$1 Million upon PATH's completion, since acknowledged, of certain rehabilitation and construction at PATH's Pavonia-Newport Station. It was also reported that prior to the closing Newport Associates/Seaport will obtain soil samples and laboratory testing results to characterize the general soils within the properties and also will perform and pay for excavation and disposal of any soil and appropriate replacement as required by law, and, further with respect to the properties, will be responsible for corrective action.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor, Commissioner Eisenberg abstaining; none against:

RESOLVED, that it is hereby found and determined that the acquisition of the real property and interests described above is for Bridge and Tunnel purposes; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to (a) acquire the real property and interests described above, (b) effectuate the dismissal with prejudice of, and release of all claims related to, all pending lawsuits by and against the Port Authority/PATH, on the one hand, and Newport Associates/Seaport, on the other hand, (c) pay \$7 million jointly to Newport Associates and Seaport at the closing of such real property and interests therein and delivery to the Port Authority of the deeds conveying the same and against the payment by Newport Associates to PATH of \$1 million and (d) to do all other things necessary or appropriate in implementation or furtherance of the foregoing, the execution of each of the elements of which shall be dependent on the simultaneous effective execution of all other of such elements; and it is further

RESOLVED, that all documents which may be required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

Settlement of Claim - Susan Glasburgh as Guardian of James Glasburgh, an Infant, and Susan Glasburgh, individually, v. Otis Elevator Company and The Port Authority of New York and New Jersey, and Otis Elevator Company v. Ogden Allied

It was recommended that General Counsel be authorized to enter into a settlement with Susan Glasburgh, as guardian of James Glasburgh, and individually (plaintiffs) and their attorney, in the amount of \$490,000 inclusive of attorney fees, interest, costs, disbursements and any and all liens, in exchange for a general release and stipulation of discontinuance of both actions with prejudice. The total settlement is in the amount of \$1,000,000 with Otis Elevator Company contributing \$490,000 and Ogden Allied contributing \$20,000.

This settlement will fully resolve plaintiffs' claims for damages arising out of an incident that took place on July 13, 1987 on the down escalator from the 110th floor to the 107th floor at the Observation Deck in Two World Trade Center in which the infant plaintiff claims he was injured due to the negligence of the Port Authority, among others, in the ownership, operation, maintenance and control of said escalator. As a result of the incident, infant plaintiff suffered amputation of the big toe of his right foot extending to the distal metatarsal. He underwent two surgeries to reattach the toe, which failed, and skin graftings.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized to settle the pending actions, entitled Susan Glasburgh, as guardian of James Glasburgh, an infant, and Susan Glasburgh, individually v. Otis Elevator Company and The Port Authority of New York and New Jersey, and Otis Elevator Company v. Ogden Allied, for a total contribution on behalf of the Port Authority of \$490,000 inclusive of attorneys' fees, costs, disbursements and any and all liens, by paying said amount to plaintiffs and their attorney in exchange for a general release and stipulation of discontinuance of these actions with prejudice, in full settlement of the claim.

**Settlement of Claim - Christopher Boru v. The Port Authority
of New York and New Jersey**

It was recommended that General Counsel be authorized to enter into a settlement with Christopher Boru (plaintiff), and his attorney, in the amount of \$2,000,000, in exchange for a general release.

Plaintiff Christopher Boru, 23 years old, was involved in a motorcycle accident on Hudson Ramp 7 of the George Washington Bridge on September 12, 1993 when the front wheel of his motorcycle hit a hole in the pavement in the center of the two-lane ramp while he was changing lanes. This caused him to lose control of the motorcycle and crash. When he was thrown from the motorcycle he fractured/dislocated his C-5 vertebrae. This injury resulted in a C-4-5 ASIA A quadriplegia resulting in paralysis from the neck down.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that General Counsel be and hereby is authorized, for and on behalf of the Port Authority, to settle the claim entitled Boru v. The Port Authority of New York and New Jersey for \$2,000,000 in exchange for a general release.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period March 1, 1996 to March 31, 1996.

MINUTES of the Meeting of The Port Authority of New York and New Jersey held Thursday, June 6, 1996, at One World Trade Center, City, County and State of New York.

PRESENT:

NEW JERSEY

Hon. Lewis M. Eisenberg, Chairman
Hon. Kathleen A. Donovan
Hon. Henry F. Henderson
Hon. Alan G. Philibosian
Hon. Frank J. Wilson

George J. Marlin, Executive Director
Jeffrey S. Green, General Counsel
Lysa C. Meduri, Secretary
Karen A. Antion, Chief Technology Officer
A. Paul Blanco, Chief Administrative Officer
William J. Cahill, Principal Information Officer, Office of Press Secretary
Karen E. Eastman, Assistant Secretary
David F. Feeley, Chief Operating Officer
John J. Haley, Jr., Deputy Executive Director
Mark O. Hatfield, Jr., Deputy Press Secretary
Gita Kalra, Attorney, Law
Charles F. McClafferty, Chief Financial Officer
James C. Reinish, Manager, Policy Analysis and Communication, Office of Board Secretary
Cruz C. Russell, Acting Director, Corporate Policy and Planning
Jeff Stein, Executive Assistant to the Chairman
Peter Yerkes, Press Secretary

NEW YORK

Hon. Charles A. Gargano, Vice-Chairman
Hon. James G. Hellmuth
Hon. Peter S. Kalikow
Hon. George D. O'Neill
Hon. Madelon DeVoe Talley

The public meeting was called to order by Chairman Eisenberg at 2:24 p.m. and ended at 2:35 p.m. The Board also met in executive session prior to the public meeting.

Action on Minutes

The Secretary submitted for approval Minutes of the meetings of April 25, 1996 and May 9, 1996. She reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. She reported further that the time for action by the Governors of New York and New Jersey has expired.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Audit Committee

The Audit Committee submitted a report, for information, of matters discussed in executive session at its meeting on June 6, 1996, which included discussion of internal audit matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received.

Report of Committee on Operations

The Committee on Operations submitted a report, for information, of matters discussed in executive session at its meeting on May 30, 1996, which included discussion of contract and lease matters, and the report was received.

Report of Committee on Construction

The Committee on Construction submitted a report, for information, of matters discussed in public session at its meeting on May 30, 1996, which included a discussion of the extension of runway "ZA" at John F. Kennedy International Airport, and a discussion in executive session of contract matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Capital Programs and Port Planning

The Committee on Capital Programs and Port Planning submitted a report, for information, of matters discussed in executive session at its meeting on May 30, 1996, which included a discussion of the Capital Planning Process and the reactivation of the Staten Island Railroad, and the report was received.

The World Trade Institute - Authorization of Sale

The World Trade Institute was established in January 1970 to provide the world trade community with a highly respected education center for the interchange of ideas covering the many aspects of international commerce. In offering courses and programs, the Institute draws upon its own staff, employees in other Port Authority departments, scholars from various universities and institutions throughout the world and government and business practitioners. The Institute cooperates and maintains working relationships with many institutions and offers degree programs through affiliations with regional colleges and universities. The Institute is located on the 55th Floor of One World Trade Center. Classrooms, with maximum flexibility and utility and capabilities for audio-visual equipment, are an integral part of the World Trade Institute complex.

In order to reduce operating costs and generate sale proceeds and rental income for the Port Authority, a Request for Proposals to purchase and operate the World Trade Institute and the Port Authority Library, or either, was publicly advertised in February 1996. Numerous individuals and entities requested copies of the Request for Proposals, and on March 27, 1996, seven proposals were received. None of the proposers expressed interest in acquiring and/or operating the Library as a business entity.

The World Trade Institute proposals were evaluated on the basis of the following criteria: the overall quality of the proposal; the operational plan and experience of the proposer; the financial proposal; and whether the proposal was for a combination of the World Trade Institute and Port Authority Library. The seven proposals were evaluated by a staff proposal review committee, interviews were held by the committee with the highest rated proposers, and these proposers were then asked to submit a "best and final offer" based upon the Request for Proposals and further information developed by the Port Authority as a result of the proposer interviews. After review of these best and final offers by an Executive Management review team, it is recommended that the sale of the assets of the Institute to The New York Corporate Conference & Seminar Center be authorized upon the following terms and conditions: The purchaser will pay the Port Authority the amount of \$250,000 in cash at the closing of the transaction and five (5) percent of the gross revenues from all Institute activities yearly for a six (6) year period commencing in the second year of operations. Further the purchaser will lease the entire 55th floor of One World Trade Center as well as that portion of the 54th floor formerly occupied by the Port Authority Library for a total of approximately 55,000 square feet, for a period of ten years, with an option to extend for an additional ten year period, at lease terms within Board authorized parameters.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Talley and Wilson voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into such agreements and execute such instruments as are necessary to effectuate the sale of the World Trade Institute to The New York Corporate Conference & Seminar Center, substantially in accordance with the terms and conditions outlined above; and it is further

RESOLVED, that the form of such agreements and instruments shall be subject to the approval of General Counsel or his authorized representative.

**Monorail - Northeast Corridor (NEC) Connection Project -
Project Authorization**

On July 12, 1990, the Board authorized a project for an Automated People Mover (Monorail) System at Newark International Airport (EWR) at an estimated total project cost of \$378 million. The Monorail is an integral element of the master landside access plan for the redevelopment of EWR and was completed in May 1996. In continuation of several original premises of the EWR Redevelopment Program, the Monorail-NEC Connection Project (the Project) will compliment the on-airport monorail by providing an intermodal connection to the airport via the area's mass transit network.

In March 1995, the Federal Aviation Administration (FAA) granted passenger facility charge (PFC) "Collection" authority for \$250 million for the Project. The Project is comprised of four major components, including: 1) construction of a Monorail guideway extension between the EWR Monorail Station at Parking Lot E and the Northeast Corridor, 2) acquisition of rights-of-way to accommodate the Monorail guideway extension and the Monorail-NEC Rail Station, 3) construction of the Monorail-NEC Rail Station on the Northeast Corridor, and 4) realignment of tracks, relocation of catenary poles, and signalization changes along the Northeast Corridor necessary to accommodate train service at the Monorail-NEC Rail Station. In anticipation of receiving PFC "Use" authority from the FAA, on December 14, 1995, the Board authorized the advance of \$24 million for the implementation of the Monorail-NEC Connection.

At the appropriate time, staff will ask the Board to make the necessary findings and authorize acquisition of specific property interests by condemnation or negotiation.

Based on the FAA completion of the Final Environmental Impact Statement (FEIS) in January 1996 the application for PFC "Use" authority was submitted to the FAA in April 1996. Based on advice from the FAA, PFC "Use" authority is anticipated to be granted by the FAA in August 1996.

Substantial interagency coordination has been established between the Port Authority and New Jersey Transit (NJT) in order to refine the project scope. In 1994, the Port Authority entered into an agreement with NJT to jointly advance the preliminary planning of the project, with the Port Authority responsible for the airport/monorail elements and NJT responsible for all NEC-related elements.

The North Jersey Transportation Planning Authority, Inc. in its "Fiscal Year 1996-2000 Transportation Improvement Program - TIP," dated August 1995, has listed the Port Authority's "Off-Airport fixed guideway transit system: Elizabeth/Newark, Essex/Union Counties", in its Appendix of Regionally Significant non-federally funded projects which were included in the Regional Emission Analysis for Clean Air Act Conformity Analysis.

Implementation of the Monorail-NEC Connection Project will provide an alternative means of access to EWR, increasing overall access capacity to the airport and providing passengers and airport employees with an improved level of service through a fast, reliable and cost-effective mode of access. The Project, which is an

integral part of the Port Authority's overall effort to address landside capacity constraints at EWR, will provide intermodal connections with the New York and New Jersey regional mass transit network, including railroad, subway and bus service.

Pursuant to the foregoing report presented by staff, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Talley and Wilson voting in favor; none against:

RESOLVED, that a project to implement the Monorail-NEC Connection Project (the Project), at a total estimated cost of \$250 million, including payments to contractors, allowances for extra work and net cost work, engineering and administration, property acquisition and a provision for financing and escalation be and the same hereby is authorized. Such authorization is subject to any other necessary or appropriate certifications or approvals; and it is further

RESOLVED, that the Executive Director be and hereby is authorized, for and on behalf of the Port Authority, to take such actions with respect to the award of purchase and construction contracts and agreements for professional, technical and advisory services for the Project as he deems in the best interest of the Port Authority, including, without limitation, award to the lowest qualified bidder or proposer, who in his opinion, is best qualified by reason of responsibility, experience and capacity to perform the work and whose bid or proposal price the Executive Director deems reasonable; rejection of all bids or proposals; solicitation of new bids or proposals on revised or same requirements; or negotiations with one or more bidders or proposers or other contractors, and execute contracts and supplemental agreements with such bidders or proposers or contractors as he deems in the best interest of the Port Authority, and to order extra work and net cost work in connection with each contract, including supplemental agreements thereto; and it is further

RESOLVED, that the Executive Director be and hereby is authorized, for and on behalf of the Port Authority, to reimburse to New Jersey Transit Corporation (NJ Transit) up to \$120 million (such amount being part of the \$250 million) for the procurement and implementation of the Monorail-NEC Station, and Northeast Corridor (NEC) catenary, trackwork and signalization necessary for the Project; and it is further

RESOLVED, that the Executive Director be and hereby is authorized, for and on behalf of the Port Authority, to obtain necessary permits and approvals and to negotiate and enter into other agreements or supplements to existing agreements, with such entities as may be appropriate and required to effectuate the Project, and to execute documents in connection therewith; and it is further

RESOLVED, that the Executive Director be and hereby is authorized, for and on behalf of the Port Authority, to obtain professional, technical and other advisory services and incur costs preliminary to acquisition of property interests for the Project, including but not limited to costs associated with securing rights of entry, title searches, title insurance and surveys, real estate appraisals, incidental mitigation of wetlands and remediation of contaminants on the properties, if required; and it is further

RESOLVED, that the form of all documents to effect the aforesaid shall be subject to the approval of General Counsel or his authorized representative.

Staten Island Railroad Reactivation of Freight Service

It was recommended that the Board authorize the Executive Director to form a subsidiary corporation as a terminal railroad and to effectuate railroad freight projects and provide freight rail service between Staten Island, New York and New Jersey.

Since the abandonment of freight service in 1991, no freight rail service exists between New Jersey and Staten Island. The New York City Economic Development Corporation (EDC) and the New Jersey Department of Transportation (NJDOT) have acquired a portion of the real property that was formerly used in the rail freight service and it is contemplated that EDC and NJDOT will enter into an agreement with the Port Authority or its subsidiary pursuant to which the property will be leased for the operation of a freight terminal railroad. The Port Authority or its subsidiary will obtain operating rights from the Surface Transportation Board and will contract with an operating corporation for the actual operation of the service. This will provide for the reinstatement of rail freight service between Staten Island and New Jersey and the effectuation of railroad freight projects by the Port Authority which could provide rail access to marine terminal facilities.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Talley and Wilson voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, subject to appropriate authorizations and certifications, to form a new Port Authority subsidiary corporation as a terminal railroad to effectuate railroad freight projects and to provide freight rail service between Staten Island, New York and New Jersey and arrange for either the Port Authority or the newly created subsidiary corporation to: 1) petition the Federal Surface Transportation Board (STB) for authority to operate a railroad freight service between Staten Island, New York and New Jersey; 2) enter into agreements with the New York City Economic Development Corporation (EDC) and the New Jersey Department of Transportation (NJDOT) to lease certain railroad property, operate the Arthur Kill lift bridge and provide service over the former Staten Island Railroad line; and 3) select a private rail operator, through a Request For Proposals process, and enter into an agreement to manage and operate the freight terminal rail service over the former Staten Island Railroad line; and it is further

RESOLVED, that the form of any agreements shall be subject to the prior approval of General Counsel or his authorized representative.

**John F. Kennedy International Airport - Extension of Taxiway
"ZA" - Planning and Project Authorization**

Runway 4R is the only runway at John F. Kennedy International Airport with landing instrumentation for certain adverse weather conditions. Approximately 75% of the landings on Runway 4R occur during such conditions. Taxiway FA, which services Runway 4R at an intermediate point, is frequently closed to certain wide-body aircraft during such conditions because their speed after landing is too high to safely negotiate the sharp turn located a short distance into the taxiway. Aircraft bypassing the Taxiway FA turnoff must continue approximately 2,000 feet further to the end of Runway 4R. The increased occupancy time reduces runway capacity as Air Traffic Control must increase the spacing between landing aircraft.

The proposed project would extend Taxiway FA in a northerly direction approximately 2,200 feet to the intersection of Taxiway ZA and Taxiway Y. The extended taxiway, which will be renamed Taxiway "ZA," would enable wide-body aircraft to safely exit Runway 4R at an intermediate point during adverse weather conditions thereby increasing aeronautical capacity by reducing the time landing aircraft occupy Runway 4R. The project would also reduce operating costs for the airlines by decreasing associated taxi time. The Federal Aviation Administration, the Air Transport Association and the Airline Pilots Association fully support the project. The estimated project cost of \$10.4 million will be recoverable in its entirety through the Flight Fee Formula.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Talley and Wilson voting in favor; none against:

RESOLVED, that a project for the extension of the high speed turnoff from Runway 4R along Taxiway FA to the intersection of Taxiway ZA and Taxiway Y, at a total estimated project cost of \$10.4 million, including payments to contractors, allowances for extra work and net cost work, planning, engineering, administrative and financial expenses, and a project contingency, be and the same hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to award all Port Authority contracts required to complete the Taxiway ZA extension to the lowest bidder(s) qualified by reason of responsibility, experience and capacity at a bid price the Executive Director deems reasonable, and to order extra work up to 8% of the amount of the bid accepted and to order net cost work, or to reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors; and to execute other contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work and net cost work in connection with each contract including supplemental agreements thereto; and it is further

RESOLVED, that the form of all agreements required to effectuate the above shall be subject to the approval of General Counsel or his authorized representative.

**Port Authority Bus Terminal - Roza Bake Shop, Inc. - Lease
LBT-414 - Lease Extension**

It was recommended that the Board authorize the Executive Director to enter into an agreement (the Extension Agreement) with Roza Bake Shop, Inc. (Roza) extending the term of the letting under Roza's existing lease with the Port Authority covering the operation of a Zaro's Bread Basket store on the Main Concourse of the South Wing of the Port Authority Bus Terminal (the Lease) for a term expiring on the day preceding the tenth anniversary of the date payment of the increased rentals provided for in the Extension Agreement commences. Payment of the increased rentals under the Extension Agreement will commence on the earlier of January 1, 1997 or upon the completion of the refurbishment work in the premises. Roza will pay a graduated basic rental for the premises during the term of the extension at an annual rate ranging from \$227,000 to \$295,100 over the extended term of the Lease, plus a percentage rental equivalent to 10.3% of Roza's annual gross receipts which are in excess of annual exemption amounts set forth in the Extension Agreement. Roza will refurbish the premises and install all improvements, fixtures and equipment required for its continued occupancy and operations in the premises at its sole cost and expense, and the Port Authority will remove asbestos from the premises at an estimated cost of \$20,000. The extended term of the letting will be subject to termination by the Port Authority, at any time, without cause, on thirty days' notice, in which event Roza would be reimbursed for the unamortized portion of its initial capital investment in the refurbishment of the premises to the extent that such initial capital investment does not exceed \$225,000.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Talley and Wilson voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Roza Bake Shop, Inc. extending the existing lease between Roza Bake Shop, Inc. and the Port Authority at the Port Authority Bus Terminal, substantially in accordance with the terms and conditions outlined above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

Port Authority Bus Terminal - Interior and Exterior
 Advertising Displays - Transportation Displays
 Incorporated - Permit Agreements

It was recommended that the Board authorize the Executive Director to enter into permit agreements with Transportation Displays Incorporated (TDI) covering the installation, placement, maintenance, and operation of interior and exterior advertising displays at the Port Authority Bus Terminal under separate agreements. The agreement covering the installation, placement, maintenance, and operation of interior advertising displays (the Indoor Permit) will become effective commencing on or about July 1, 1996 and will expire on the day preceding the tenth anniversary of the effective date, and the agreement covering the installation, placement, maintenance, and operation of exterior advertising displays (the Outdoor Permit) will become effective commencing on or about July 1, 1996 and will expire on the day preceding the twentieth anniversary of the effective date. TDI will pay a percentage fee under each agreement as provided therein. Payment of fees under the Indoor Permit will commence on the effective date, and payment of fees under the Outdoor Permit will commence no later than 910 days from the effective date or upon the second anniversary of the commencement of operations, whichever occurs first. TDI will install all improvements, fixtures and equipment required at its sole cost and expense. The period of the permission granted under each permit will be subject to termination by the Port Authority, at any time, without cause, on thirty days' notice, and in the event this right is exercised as to the Outdoor Permit, TDI would be reimbursed for the unamortized portion of its initial capital investment in the exterior advertising displays to the extent that such initial capital investment does not exceed \$2,000,000.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Talley and Wilson voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into separate permit agreements with Transportation Displays Incorporated covering the installation, placement, maintenance, and operation of interior and exterior advertising displays at the Port Authority Bus Terminal, substantially in accordance with the terms and conditions outlined above; the form of the agreement in each instance shall be subject to the approval of General Counsel or his authorized representative.

**Brooklyn - Port Authority Marine Terminal - Strober Bros.,
Inc. Building Supply Centers - Lease Agreement - Pier 3**

It was recommended that the Board authorize the Executive Director, for and on behalf of the Port Authority, to enter into a ten-year lease commencing on or about July 1, 1996 with Strober Bros., Inc. Building Supply Centers (SBI) for Pier 3, Brooklyn, and its associated upland and garage, to be used for the tenant's business of distribution of lumber and construction materials, a substantial portion of which is waterborne to the Port of New York and New Jersey.

The rentals will be subject to escalation at prescribed intervals throughout the term of the lease. SBI will be responsible for structural and non-structural maintenance and repairs of the premises. The Port Authority will be responsible for the fire standpipe and sprinkler systems, and the substructure of Pier 3.

In connection with this lease agreement, it was also recommended that the Board authorize the Executive Director, for and on behalf of the Port Authority, to enter into a brokerage agreement with Kalmon Dolgin Affiliates, Inc. and Robert S. Klein, providing for the payment of commission in the amount of \$313,780.44 payable in two equal installments by the Port Authority to Kalmon Dolgin Affiliates, Inc. and Robert S. Klein.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Talley and Wilson voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Strober Bros., Inc. Building Supply Centers and a brokerage agreement with Kalmon Dolgin Affiliates, Inc. and Robert S. Klein, substantially in accordance with the terms and conditions set forth above; the form of the agreements shall be subject to the approval of General Counsel or his authorized representative.

The World Trade Center - Frenkel & Co., Inc. - Lease Agreement

It was recommended that the Board (1) authorize the Executive Director to enter into an agreement of lease with Frenkel & Co., Inc. (Frenkel), a large insurance brokerage company, covering the letting of approximately 54,000 rentable square feet of space on the thirty-fifth and thirty-sixth floors of Two World Trade Center for a term of approximately seventeen years and to enter into brokerage agreements with Williams Real Estate Co. Inc. and Edward S. Gordon Company, Incorporated in connection with the agreement of lease and (2) authorize the Committee on Operations to approve the final terms of the agreements in the event they are not substantially in accordance with the terms outlined below.

The proposed agreement of lease will commence on or about October 1, 1996 and is for a term of approximately seventeen years. Frenkel will pay an aggregate basic rental over the rent paying portion of the term in excess of \$18 million. Frenkel will have a right of first offer for additional space on floors in the same elevator bank contiguous to its leasehold and also have a fixed option to take specified space of approximately 5,000 to 8,000 rentable square feet in the same elevator bank exercisable during the fifth and sixth years of the rent paying term. Brokerage agreements will be entered into with Williams Real Estate Co. Inc. and Edward S. Gordon Company, Incorporated, the brokers involved in the letting of space to Frenkel providing for payment of brokerage commissions each at rates less than that authorized by the Board at its meeting on August 11, 1977.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Talley and Wilson voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement of lease with Frenkel & Co., Inc. covering the letting of approximately 54,000 rentable square feet of space on the 35th and 36th floors of Two World Trade Center and to enter into brokerage agreements with Williams Real Estate Co. Inc. and Edward S. Gordon Company, Incorporated in connection with such letting, substantially in accordance with the terms and conditions outlined above; the form of the agreement in each instance shall be subject to the approval of General Counsel or his authorized representative; and be it further

RESOLVED, that the Committee on Operations be and it hereby is authorized to approve the final terms and conditions of the agreement of lease in the event that such terms and conditions are not substantially in accordance with the terms and conditions outlined above.

Settlement of Claim - The Port Authority of New York and New Jersey v. KTI Energy, Inc.

It was recommended that the Board authorize the Executive Director to settle the Port Authority's action against KTI Energy, Inc. (KTI) and KES, a wholly-owned subsidiary, by accepting \$132,000.

The Port Authority had entered into an agreement on August 23, 1989 leasing the Howland Hook Facility to Sea Terminals Inc. Sea Terminals entered into an agreement with KES, a wholly-owned subsidiary of KTI, dated May 10, 1990. KES would store certain wood recyclables at the site. However, the Port Authority's lease with Sea Terminals was terminated due to nonpayment. KTI did not remove the wood and made claims that it suffered a substantial loss at the Howland Hook Facility due to Sea Terminals removal as terminal operator on December 28, 1990. KTI and KES alleged that they committed funds to the facility with the understanding that Sea Terminals would be the operator. The Port Authority instituted suit against KTI and KES for the cost of the removal which the Port Authority had arranged through a separate contract. KTI did not guarantee the storage fees.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Talley and Wilson voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to settle the lawsuit with KTI Energy, Inc. and KES by accepting a total of \$132,000, \$75,000 upon execution, \$25,000 within six months of the execution, and the balance within one year of execution, mutual releases to be executed by the parties; and it is further

RESOLVED, that the form of such agreement shall be subject to the prior approval of General Counsel or his authorized representative.

Settlement of Claim - The Port Authority of New York and New Jersey v. Crossocean Shipping, Inc.

It was recommended that the Board authorize the Executive Director to settle the Port Authority's leasehold claims against Crossocean Shipping, Inc. (Crossocean) by accepting \$300,000.

The Port Authority and Crossocean entered into a lease agreement for space at the World Trade Center on August 4, 1969. Crossocean did not immediately return to the World Trade Center after the 1993 bombing and substantial arrears had built up. Due to financial difficulties, the company has continuously had arrears since its return to the World Trade Center although substantial payments have previously been made towards the arrearages. On September 11, 1995, the Port Authority brought an action in the landlord/tenant court to evict Crossocean. An Order of Possession was obtained and Crossocean vacated in November 1995. Crossocean had built up arrears of approximately \$543,000 through November 1995 of which approximately \$89,000 is due to late charges.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Talley and Wilson voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to settle the Port Authority's leasehold claims against Crossocean Shipping, Inc. for a total settlement of \$300,000, \$60,000 upon the signing of the agreement and the balance in monthly installments over one year with 7% interest mutual releases to be executed by both parties; and it is further

RESOLVED, that the form of such agreement shall be subject to the prior approval of General Counsel or his authorized representative.

Settlement of Claim - Beth J. Moore and Kevin Moore v. The Port Authority of New York and New Jersey, et. al.

It was recommended that the Board authorize General Counsel to settle the pending claim asserted by Beth J. Moore and her husband, Kevin Moore, by paying to them and their attorney the sum of \$150,000 in exchange for a release of all claims and Stipulation of Dismissal of this lawsuit against the Port Authority and Port Authority Police Officers John Collis and Sharon Feokistov.

Plaintiffs filed this action in the Superior Court of New Jersey, Hudson County, as a result of a motor vehicle accident involving Port Authority Police Officers John Collis and Sharon Feokistov on August 11, 1993. Plaintiff Beth J. Moore was a back-seat passenger in a taxicab owned by Esmat, Inc. (a New Jersey corporation) and operated by defendant driver Mamdough M. Sollman, which was struck by a Port Authority police vehicle operated by Port Authority Police Officer Sharon Feokistov at the intersection of 12th Street and Erie Street in Jersey City, New Jersey.

The accident occurred at approximately 8:54 a.m. during rush hour traffic. As a consequence of the accident, plaintiff Beth J. Moore sustained several fractures to her spinal column, which required surgical insertion of a rod through her spine, leaving the plaintiff with a mild hunchback condition. Plaintiff also sustained injuries to the tube connecting her kidneys to her bladder and bruises and contusions to her left knee and back. Presently, plaintiff complains of pain and soreness throughout her back and experiences great difficulty in both sitting and lifting. She is 45 years old, and has two young sons for whom she cares. She claims that the accident has affected her relationship with her husband and children.

At the time of the accident, plaintiff, who was a product manager for Glaxo Wellcome, Triangle Park, North Carolina, was on a business trip en route to New York City. Following the accident, plaintiff was out of work for over five months. Plaintiff's lost income during this time was paid by her company's Workers Compensation insurance carrier, along with her medical bills, which were in excess of \$100,000. The lien held by the Workers Compensation carrier will be satisfied by plaintiff.

This case was arbitrated on October 26, 1995 and resulted in a liability finding of 50% against the Port Authority and 50% against the co-defendant taxi driver. The gross award was \$300,000, with \$150,000 representing the Port Authority's responsibility.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Talley and Wilson voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to settle the pending civil action entitled Beth J. Moore and Kevin Moore v. The Port Authority of New York and New Jersey, et al. by paying a settlement in the total amount of \$150,000 to Beth J. Moore and Kevin Moore and their attorney in exchange for a release of all claims and Stipulation of Dismissal of the action.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period April 1, 1996 to April 30, 1996.

 Gita Kalra, Attorney, Law
 Charles F. McClafferty, Chief Financial Officer
 Cherrie L. Nanninga, Deputy Director, World Trade
 James C. Reinish, Manager, Policy Analysis and Communication, Office of Board Secretary
 Cruz C. Russell, Director, Corporate Policy and Planning
 Jeff Stein, Executive Assistant to the Chairman
 Hugh H. Welsh, Deputy General Counsel
 Charles J. Maikish, Honoree
 Doreen Frasca, Senior Managing Director, Cambridge Partners, LLC

The public meeting was called to order by Chairman Eisenberg at 3:13 p.m. and ended at 3:42 p.m. Vice-Chairman Gargano was present for a portion of the public meeting. The Board also met in executive session prior to and after the public meeting.

Action on Minutes

The Secretary submitted for approval Minutes of the meetings of May 30, 1996 and June 6, 1996. She reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. She reported further that the time for action by the Governors of New York and New Jersey has expired.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Audit Committee

The Audit Committee submitted a report, for information, of matters discussed in executive session at its meeting on June 27, 1996 and July 11, 1996, which included discussion of internal audit matters, and the report was received.

Report of Committee on Operations

The Committee on Operations submitted a report, for information, of matters discussed in executive session at its meetings on June 6, 1996 and June 27, 1996, which included discussion of contract, lease and personnel matters, and the report was received.

Report of Committee on Construction

The Committee on Construction submitted a report, for information, of matters discussed in public session at its meeting on June 27, 1996, which included a discussion of the replacement of the Lincoln Tunnel Supervisory Control System and a project for the rehabilitation and upgrade of the toll facilities at the New Jersey Plaza at the Lincoln Tunnel and a discussion in executive session of matters relating to security, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Capital Programs and Port Planning

The Committee on Capital Programs and Port Planning submitted a report, for information, of matters discussed at its meeting on June 27, 1996, which included a discussion of the Regional Plan Association's Region at Risk Plan and a discussion in executive session of four options being studied as part of the Access to the Region's Core (ARC) Study for improved transit connections between midtown-Manhattan and from points east and west, and the report was received.

Report of Committee on Finance

The Committee on Finance submitted a report, for information, of matters discussed in executive session at its meeting on June 6, 1996, which included a discussion of internal financial matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Staff Report

There was a presentation by staff on the Electronic Toll Collection system.

**LaGuardia Airport - Marketplace LaGuardia Limited
Partnership - Amendment to Lease AGA-317**

It was recommended that the Board authorize the Executive Director to enter into an agreement with MarketPlace LaGuardia Limited Partnership (MarketPlace) to amend MarketPlace's agreement of lease previously authorized by the Board on February 10, 1994, covering concession areas at LaGuardia Airport's Central Terminal Building (CTB) to: 1) increase the maximum recoverable capital investment amount allowed under the lease from \$10 million to \$12 million; 2) allow MarketPlace to retain for itself common area maintenance and other charges received from retail subtenants as of February 1, 1996; and 3) allow MarketPlace to recover its qualifying costs under the lease in an amount of up to \$50,000 per month from concession revenues associated with the West End Mall during the period from March 1, 1996 to the earlier of the start of the principal term of the lease or February 28, 1997.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with MarketPlace LaGuardia Limited Partnership, substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

John F. Kennedy International Airport - United Air Lines,
Inc. - Lease Agreement AYC-690 - Redevelopment of
Hangar 8

It was recommended that the Board authorize the Executive Director to enter into a lease agreement with United Air Lines, Inc. (United) covering a site of approximately 43 acres (the Site) at John F. Kennedy International Airport, for the design, construction and operation of a new 85,000 square foot air cargo facility and 65,000 square foot administrative and maintenance complex, and the subsequent demolition of Hangar 8.

The lease will provide for a term of approximately twenty years commencing as of August 1, 1995 with an option to extend the term for up to nine years in the event the Airport Lease with the City of New York (City Lease) is extended.

The ground rentals would be subject to escalation on a prescribed basis at periodic intervals throughout the term of the lease.

The lease may also provide for reimbursement of construction costs by the Port Authority in an amount not to exceed \$30 million in which event an additional rental would then be payable to the Port Authority in an amount sufficient to repay such construction costs on a financially self-sustaining basis. In the alternative, financing of the tenant's construction may be by means of New York City Industrial Development bonds. If a leasehold mortgage is required in connection with any tenant financing an appropriate additional rental would be required.

The Port Authority may also be asked to enter into a Memorandum of Understanding with the tenant and the City of New York in connection with the continuation of the tenant's occupancy in the event the City Lease is not extended.

Upon completion of construction of the new facilities on a seventeen-acre portion of the Site currently occupied by United on a month to month basis, United will surrender the remaining 26-acre parcel to the Port Authority. However, United shall continue to be responsible for all existing environmental conditions for the entire Site including subsurface remediation.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with United Air Lines, Inc. and such other agreements as may be appropriate in connection therewith, substantially in accordance with the terms and conditions set forth above; the form of the agreements shall be subject to the approval of General Counsel or his authorized representative.

**John F. Kennedy International Airport - Polar Air Cargo,
Inc. - Authorization to Lease and Construct Space in
Building 208 and Hangar 19**

It was recommended that the Board authorize: a) the Executive Director to enter into a lease agreement with Polar Air Cargo, Inc. (Polar) at John F. Kennedy International Airport covering approximately 100,000 square feet of warehouse and office space and related outside area at Building No. 208 and approximately 150,000 square feet of hangar space and related outside area, including approximately 6.9 acres of ramp area and approximately 1.7 acres for a new aircraft parking position, at Hangar No. 19; b) two projects necessary to support the lease agreement, one for the renovation and rehabilitation of interior portions of Building No. 208 and Hangar No. 19, and the other for construction of a new aircraft parking position, at a total estimated project investment for both of \$9.5 million, including payments to contractors, extra work, administrative, planning engineering design, construction supervision, financial expenses and contingency and reimbursement to Polar and/or its contractors for part or all of this work, if any part or all of this work is performed by Polar; and c) the Executive Director to: 1) enter into such agreements as may be required to award contracts JFK 134.108, Renovation of Building No. 208 and Hangar No. 19 for Polar via Net Cost Work Orders; and Contract JFK 139.088, JFK Building No. 208 Aircraft Parking, and other purchase and construction contracts and contracts for professional and advisory services related to the foregoing projects as he deems in the best interest of the Port Authority including, without limitation, award to the lowest bidder, who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable; rejection of all bids; solicitation of new bids on the same or similar requirements; or negotiations with one or more bidders or other contractors; and (2) execute contracts and supplemental agreements with such bidders and contractors as he deems in the best interest of the Port Authority and to order extra work and net cost work in connection with each contract, including supplemental agreements thereto.

The lease with Polar will be for a term of approximately five years; with Polar leasing approximately 75,000 square feet of the interior hangar space at the commencement of the term, and the remaining 75,000 square feet (approximately) at the beginning of the second year of the term. Polar will have one five-year option to extend the term. Payment of rent will commence on the date the premises are delivered to Polar, the date the renovation work is substantially completed, or the date the premises or any portion thereof is occupied by Polar for cargo or aircraft maintenance purposes, whichever is earlier. Polar will use the Building 208 premises for its cargo operations and the Hangar 19 premises for its aircraft maintenance operations. Polar will be responsible for utilities and operation and maintenance (except for roof and structural) in the leased premises. The Port Authority will be responsible for approximately \$6.3 million for the construction of truck loading docks, a demising wall, office finishes, demolition, site improvements, installation of electric and water meters, certain fire code compliance and certain other work, including a new aircraft parking spot (Hardstand No. 5). The total estimated project investment is \$9.5 million. It is anticipated that this work will be completed on or about December 1, 1996.

The lease will include the Port Authority's environmental assessment reports with respect to pre-existing subsurface contamination discovered at the premises prior to the execution of the lease (remediation cost estimated at \$500,000). Polar would not be responsible for the remediation of pre-existing ground contaminants described in the Lease, if any.

Pursuant to the foregoing report the following resolution was adopted with Commissioners Eisenberg, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Polar Air Cargo, Inc. at John F. Kennedy International Airport, substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that two projects are hereby authorized, one for the renovation and rehabilitation of interior portions of Building No. 208 and Hangar No. 19, and the other for construction of a new aircraft parking position, at a total estimated project investment for both projects of \$9.5 million, including payments to contractors, extra work, administrative, planning engineering design, construction supervision, financial expenses and contingency and reimbursement to Polar Air Cargo, Inc. and/or its contractors for part or all of this work, if any part or all of this work is performed by Polar, all to be substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into such agreements as may be required to award contracts JFK-134.108, Renovation of Building No. 208 and Hangar No. 19 via Net Cost Work Orders, and Contract JFK-139.088, JFK Building No. 208 Aircraft Parking, and other purchase and construction contracts and contracts for professional and advisory services related to the foregoing projects as he deems in the best interest of the Port Authority including, without limitation, award to the lowest bidder, who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable, rejection of all bids, solicitation of new bids on the same or similar requirements, or negotiations with one or more bidders or other contractors, and to execute contracts and supplemental agreements with such bidders and contractors as he deems in the best interest of the Port Authority and to order extra work and net cost work in connection with each contract, including supplemental agreements thereto, all to be substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, the form of the aforesaid lease agreement, agreements, contracts, work orders and supplemental agreements in each instance shall be subject to the approval of General Counsel or his authorized representative.

The lease will include the Port Authority's environmental assessment reports with respect to pre-existing subsurface contamination discovered at the premises prior to the execution of the lease (remediation cost estimated at \$500,000). Polar would not be responsible for the remediation of pre-existing ground contaminants described in the Lease, if any.

Pursuant to the foregoing report the following resolution was adopted with Commissioners Eisenberg, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Polar Air Cargo, Inc. at John F. Kennedy International Airport, substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that two projects are hereby authorized, one for the renovation and rehabilitation of interior portions of Building No. 208 and Hangar No. 19, and the other for construction of a new aircraft parking position, at a total estimated project investment for both projects of \$9.5 million, including payments to contractors, extra work, administrative, planning engineering design, construction supervision, financial expenses and contingency and reimbursement to Polar Air Cargo, Inc. and/or its contractors for part or all of this work, if any part or all of this work is performed by Polar, all to be substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into such agreements as may be required to award contracts JFK-134.108, Renovation of Building No. 208 and Hangar No. 19 via Net Cost Work Orders, and Contract JFK-139.088, JFK Building No. 208 Aircraft Parking, and other purchase and construction contracts and contracts for professional and advisory services related to the foregoing projects as he deems in the best interest of the Port Authority including, without limitation, award to the lowest bidder, who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable, rejection of all bids, solicitation of new bids on the same or similar requirements, or negotiations with one or more bidders or other contractors, and to execute contracts and supplemental agreements with such bidders and contractors as he deems in the best interest of the Port Authority and to order extra work and net cost work in connection with each contract, including supplemental agreements thereto, all to be substantially in accordance with the terms and conditions set forth above; and it is further

RESOLVED, the form of the aforesaid lease agreement, agreements, contracts, work orders and supplemental agreements in each instance shall be subject to the approval of General Counsel or his authorized representative.

**John F. Kennedy International Airport - Air Express
International Corporation - Lease for Buildings No. 88
and 89 Redevelopment**

It was recommended that the Board authorize the Executive Director to enter into an agreement of lease with Air Express International Corporation (AEI) covering a site of approximately 7.2 acres at John F. Kennedy International Airport, upon which AEI will construct a new air cargo facility consisting of approximately 90,000 square feet.

The design, construction, operation, maintenance and repair of the new air cargo facility would be AEI's responsibility. AEI would also be obligated to demolish the existing Buildings No. 88 and 89 located on site, including removal and disposal of all asbestos material.

The lease would be for a term of approximately nineteen years commencing on or about September 1, 1996 and expiring December 30, 2015, which would be subject to extension up to August 31, 2023 in the event of the extension of the Airport Lease with the City of New York (City Lease). Rentals and fees would commence at the earlier of (i) 24 months from the execution of the lease, or (ii) upon substantial completion of construction or (iii) upon commencement of air cargo operations in any part of the premises. Annual ground rentals over the term of the lease would be subject to escalation equivalent to the greater of (i) four percent or (ii) one-half of any increase in the consumer price index. The lease would also require AEI to pay to the Port Authority a percentage rental of five percent of AEI's gross receipts arising from cargo handling for other aircraft operators.

Financing of the tenant's construction may be by means of New York City Industrial Development bonds. If a leasehold mortgage is required in connection with any tenant financing an appropriate additional rental would be required. The Port Authority may also be asked to enter into a memorandum of understanding with the tenant and the City of New York in connection with the continuation of the tenant's occupancy in the event the City Lease is not extended.

The Port Authority would perform a subsurface environmental assessment of the site prior to the execution of the lease. The cost of the remediation of subsurface ground contamination for which the Port Authority may be responsible is estimated at \$500,000. AEI would not be responsible for the remediation of any pre-existing ground contamination which may be discovered by that assessment and described in the lease.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement of lease with Air Express International Corporation at John F. Kennedy International Airport and such other agreements as may be appropriate in connection therewith, substantially in accordance with the terms and conditions set forth above; the form of the agreements shall be subject to the approval of General Counsel or his authorized representative.

Lincoln Tunnel - New Jersey Plaza Rehabilitation and Upgrade - Project Authorization and Authority to Award Contract LT-234.056 and Agreement to Perform Maintenance of Elevators and Mechanical Systems Contract LT-234.056M

The existing Lincoln Tunnel New Jersey Plaza complex has remained in service without major rehabilitation since 1957. The toll booths have reached the end of their useful life and the observation building is functionally obsolete due to its configuration which limits usable space. The structural slabs that carry traffic over underground chambers at the east side of the Plaza are in need of replacement due to the constant pounding from trucks and buses.

The work required pursuant to Contract LT-234.056 will replace the toll facilities and other supporting functions at the New Jersey Plaza, which were last reconstructed in 1957, and provide at least another 35 years of useful life and improved service and revenue control functions at this direct and critical point of contact with our customers. The work will also result in the improvement of customer service, by providing a smoother roadway, better signage, more reliable toll booth operation and avoiding potential delays to customers due to frequent patching and paving of the Plaza area.

Pursuant to the foregoing report presented by staff, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that a project for the rehabilitation and upgrade of the New Jersey Plaza for the Lincoln Tunnel at an estimated project cost of \$42.5 million, including payments to contractors, allowances for extra work and net cost work, engineering, administrative and financial expenses, and a project contingency be and the same hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to award Contract LT-234.056 for the New Jersey Plaza Rehabilitation and Upgrade and Contract LT-234.056M for performing maintenance of elevators and mechanical systems for four years, to the lowest bidder(s) who, in his opinion, is (are) qualified by reason of responsibility, experience and capacity to perform the work; and whose bid price(s) the Executive Director deems reasonable, and to order extra work up to eight percent of the amount of the bid(s) accepted; and to order net cost work; or to reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors as he deems in the best interest of the Port Authority; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to take action with respect to purchase and construction contracts and contracts for professional and advisory services related to the foregoing project as he deems in the best interest of the Port Authority, including.

without limitation, award to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable, rejection of all bids, solicitation of new bids on revised or the same requirements, or negotiation with one or more bidders or contractors; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to execute contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work and net cost work in connection with each contract, including supplemental agreements thereto; and to enter into such other agreements as may be necessary to effectuate the project.

**Lincoln Tunnel - Replacement of Supervisory Control System -
Project Authorization and Authority to Award Contract
LT-234.012 and Agreement to Perform Maintenance of the
Supervisory Control System Contract LT-234.012M**

All electrical/mechanical and traffic monitoring systems at the Lincoln Tunnel critical to maintaining a safe customer environment and optimal traffic flow are monitored and controlled by the Supervisory Control System. Items monitored include traffic lights, tunnel ventilation, fire protection and electrical power. The current manually operated system was last updated 39 years ago and is now technologically obsolete and nearing the end of its useful life.

The new Supervisory Control System will be computerized and will provide for significantly greater automation of functions. It will also reduce the current rates of system repair and traffic interruption and will ensure the most efficient provision of critical operational functions in the tunnel.

Pursuant to the foregoing report presented by staff, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that a project for the replacement of the Supervisory Control System for the Lincoln Tunnel at an estimated project cost of \$25.9 million, including payments to contractors, allowances for extra work and net cost work, engineering, administrative and financial expenses, and project contingency, be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to solicit proposals for Contract LT-234.012, an agreement to design, furnish and install a Lincoln Tunnel Supervisory Control System and for Contract LT-234.012M, an agreement for four year maintenance of said system and to award those contracts to the proposer(s) whose proposals are rated highest based on evaluation of cost, quality and such other criteria as are established prior to solicitation of proposals and to order extra work up to eight percent of the contract price of Contract LT-234.012 and up to eight percent annually of the yearly maintenance price of Contract LT-234.012M; and to order net cost work; and to reject all proposals, and solicit new proposals on revised or the same requirements as he deems in the best interest of the Port Authority; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to take action with respect to purchase and construction contracts and contracts for professional and advisory services related to the foregoing project as he deems in the best interest of the Port Authority, including, without limitation, award to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems

reasonable; rejection of all bids, solicitation of new bids on revised or the same requirements, or negotiation with one or more bidders or other contractors; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to execute contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work and net cost work in connection with each contract, including supplemental agreements thereto; and to enter into such other agreements as may be necessary to effectuate the project.

**Port Authority Bus Terminal - Villa Pizza Enterprises, Inc.-
Lease Agreement**

It was recommended that the Board authorize the Executive Director to enter into a lease agreement (the Lease) with Villa Pizza Enterprises, Inc. (Villa Pizza) covering the construction and operation of a quick service Italian restaurant on the Main Concourse of the South Wing of the Port Authority Bus Terminal and a brokerage agreement with First Allied Properties, Inc., the broker involved with the letting.

Villa Pizza is a national pizza/Italian restaurant chain with over 100 locations in the United States, featuring an extensive selection of Italian cuisine, as well as an assortment of packaged items under its own label for food preparation at home.

The Lease would be for a term commencing on or about September 1, 1996 and expiring on the day preceding the tenth anniversary of the Premises Availability Date, defined in the Lease as (i) the day following the expiration of a one year construction period, or (ii) the day business operations commence in the premises, whichever occurs first. The term of the letting under the Lease is subject to earlier termination by Villa Pizza at the end of the third year measured from the date payment of rental commences under the Lease if gross receipts under the Lease do not exceed a designated amount in that year, and in such event Villa Pizza would be reimbursed for the unamortized portion of its initial capital investment in certain leasehold improvements installed in the premises to the extent that such initial capital investment does not exceed \$900,000. Villa Pizza will have the right to extend the term of the letting for an additional five year period, and to make a first offer if the Port Authority concludes that additional full service Italian restaurant facilities are required elsewhere in the Terminal. Villa Pizza will pay a graduated basic rental for the premises plus a percentage rental as provided in the Lease. Payment of rental under the Lease will commence no later than nine months from the Premises Availability Date. Villa Pizza will install all improvements, fixtures and equipment required for its operations in the premises at its sole cost and expense. The Port Authority will bring utilities to the premises, at a cost not to exceed \$100,000, and will also remove asbestos from the premises at a cost not to exceed \$50,000. The term of the letting will be subject to termination by the Port Authority, at any time, without cause, on thirty days' notice, in which event Villa Pizza would be reimbursed for the unamortized portion of its initial capital investment in the premises to the extent that such initial capital investment does not exceed \$1,200,000.

The brokerage agreement will provide for payment of a brokerage commission in connection with the firm portion of the letting and an additional commission if Villa Pizza exercises its option to extend the term of the letting under the Lease.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Villa Pizza Enterprises, Inc. at the Port Authority Bus Terminal and a brokerage agreement with First Allied Properties, Inc., substantially in accordance with the terms and conditions outlined above; the form of the agreement in each instance shall be subject to the approval of General Counsel or his authorized representative.

Port Authority Bus Terminal - General Nutrition Corporation
- Lease Agreement

It was recommended that the Board authorize the Executive Director to enter into a lease agreement (the Lease) with General Nutrition Corporation (GNC) covering the construction and operation of a shop for the sale of health foods and nutritional supplements on the Main Concourse of the South Wing of the Port Authority Bus Terminal and a brokerage agreement with The Alfred Group, Inc., the broker involved with the letting.

GNC is the leading provider of products, services and information in the health and personal health enhancement markets. It is the country's only nationwide specialty retailer of vitamins, nature-based personal care products, fitness products and sports nutrition supplements. GNC has over 2,000 retail outlets.

The proposed Lease would be for a term commencing on or about September 1, 1996 and expiring on the day preceding the tenth anniversary of the date payment of rental commences under the Lease, subject to earlier termination by GNC at any time after the commencement of the sixth year measured from the date payment of rental commences under the Lease if sales do not exceed a designated amount in the previous twelve month period, upon payment to the Port Authority of a sum equivalent to ten times the monthly installment of basic rental payable in the year in which GNC exercises its right of termination. GNC will pay a graduated basic rental for the premises plus a percentage rental as provided in the Lease. Payment of rental under the Lease will commence 120 days from the commencement date of the term of the letting under the Lease or upon the commencement of business operations in the premises, whichever occurs first. GNC will install all improvements, fixtures and equipment required for its operations in the premises at its sole cost and expense. The Port Authority will remove asbestos from the premises at a cost not to exceed \$55,000. The term of the letting will be subject to termination by the Port Authority, at any time, without cause, on thirty days' notice, in which event GNC would be reimbursed for the unamortized portion of its initial capital investment in the premises to the extent that such initial capital investment does not exceed \$200,000.

The brokerage agreement will provide for payment of a brokerage commission in connection with the letting.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with General Nutrition Corporation at the Port Authority Bus Terminal and a brokerage agreement with The Alfred Group, Inc., substantially in accordance with the terms and conditions outlined above; the form of the agreement in each instance shall be subject to the approval of General Counsel or his authorized representative.

**Port Authority Bus Terminal - McAnn's Bar and Restaurant,
Inc. - Lease Agreement**

It was recommended that the Board authorize the Executive Director to enter into a lease agreement (the Lease) with McAnn's Bar and Restaurant, Inc. (McAnn's) covering the construction and operation of a cocktail lounge/bar on the Second Floor of the South Wing of the Port Authority Bus Terminal.

The principals of McAnn's have over thirty years experience in the restaurant business and operate over ten McAnn's restaurants and bars, which are located in Manhattan.

The Lease would be for a term commencing on or about August 1, 1996 and expiring on the day preceding the tenth anniversary of the date payment of rental commences under the Lease McAnn's will pay a graduated basic rental for the premises. Payment of rental under the Lease will commence 240 days from the commencement date of the term of the letting under the Lease or upon the commencement of business operations in the premises, whichever occurs first. McAnn's will install all improvements, fixtures and equipment required for its operations in the premises at its sole cost and expense. The term of the letting will be subject to termination by the Port Authority, at any time, without cause, on thirty days notice, in which event McAnn's would be reimbursed for the unamortized portion of its initial capital investment in the premises to the extent that such initial capital investment does not exceed \$250,000.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with McAnn's Bar and Restaurant, Inc. at the Port Authority Bus Terminal, substantially in accordance with the terms and conditions outlined above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**George Washington Bridge Bus Station - Blockbuster Videos,
Inc. - Lease Agreement**

It was recommended that the Board authorize the Executive Director to enter into a lease agreement (the Lease) with Blockbuster Videos, Inc. (Blockbuster) covering the construction and operation of a Blockbuster video rental store on the street level of the George Washington Bridge Bus Station and a brokerage agreement with Winnick Realty Group, the broker involved with the letting.

Blockbuster was founded in 1982 and was acquired by Viacom in 1995. Blockbuster operates approximately 4,700 stores in the United States and has revenues in excess of \$2.2 billion.

The Lease would be for a term commencing on or about August 1, 1996 and expiring on the day preceding the fifth anniversary of the date payment of rental commences under the Lease. Blockbuster will have the right to extend the term of the letting for two (2) additional five year periods. The premises will be used for the operation of a retail store for the rental and sale of prerecorded audio and video tapes and related products, however, Blockbuster has the right to use the store for other retail purposes. Blockbuster has been granted the exclusive right to conduct video rental operations at the Bus Station, so long as the store is used for the conduct of these operations, and the unlimited right to assign the Lease or franchise the operation, with Blockbuster to remain liable under the Lease. In the event that Blockbuster exercises its rights of assignment, the Port Authority must either accept the proposed assignee, without regard to its experience, financial condition, or reputation for integrity, or take back the space, thereby terminating the Lease. Blockbuster will pay a graduated basic rental for the premises. Payment of rental under the Lease will commence 240 days from the commencement date of the term of the letting under the Lease or 30 days from the commencement of business operations in the premises, whichever occurs first. Blockbuster will install all improvements, fixtures and equipment required at its sole cost and expense. The Port Authority will remove asbestos from the premises at an estimated cost of \$190,000. The term of the letting will be subject to termination by the Port Authority, at any time, without cause, on thirty days' notice, in which event Blockbuster would be reimbursed for the unamortized portion of its initial capital investment in the premises to the extent that such initial capital investment does not exceed \$300,000.

The brokerage agreement will provide for payment of a brokerage commission in connection with the firm portion of the letting and an additional commission if Blockbuster exercises its option to extend the term of the letting under the Lease.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Blockbuster Videos, Inc. at the George Washington Bridge Bus Station and a brokerage agreement with Winnick

) Realty Group, substantially in accordance with the terms and conditions outlined above; the form of the agreement in each instance shall be subject to the approval of General Counsel or his authorized representative.

Queens West Waterfront Development - Reconstruction of the
 East River Wharf - Increase in Authorization and Award
 of Contracts

On November 18, 1993, the Board authorized \$1.5 million for emergency-related work, including demolition, and the Executive Director to accept federal grant funds (since approved at \$2.32 million) for demolition and reconstruction of the East River wharf at Hunters Point, Queens. Due to additions to project scope, including in part items requested and approved by the Queens West Development Corporation (QWDC), an additional \$2.85 million is necessary to reconstruct the wharf. That work will be performed under Contract QW-417.057. Approximately \$400,000 of this additional amount is for Port Authority project costs related to design and construction of the foundation for the Statue of Catherine of Braganza. The Port Authority will enter into an appropriate agreement with QWDC and/or the Friends of Queen Catherine, Inc. to make a small area available without fee for an approximate twenty-year period for the installation of the statue.

The total Port Authority commitment for both demolition and reconstruction would be \$4.35 million from the Port Authority's \$125 million commitment to Queens West Waterfront Development. QWDC authorized acceptance of the federal grant and the initial use of \$1 million of the \$125 million Port Authority funds committed to Queens West for this project. On June 20, 1996, the QWDC Board approved the use of an additional \$3.35 million of Port Authority Queens West funds for this project.

The \$2.85 million will be used for consultant services and project administrative costs, reconstruction work, and installation of a corrosion control system. This rebuilt wharf is in the area under lease to New York Waterway for its ferry service authorized by the Board in August 1994.

Pursuant to the foregoing report the following resolution was adopted with Commissioners Eisenberg, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that an additional \$2.85 million to the previously authorized \$1.5 million for the Port Authority East River Wharf reconstruction project for a total authorization of approximately \$4.35 million from the Port Authority's Queens West Waterfront Development commitment of \$125 million be and the same hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to award Contract QW-417.057 for the reconstruction of the wharf to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work; and whose bid price the Executive Director deems reasonable, and to order extra work up to 8% of the amount of the bid accepted; and to order net cost work; or to reject all bids, solicit new bids on revised or the same requirements, or to negotiate with one or more bidders or other contractors as he deems in the best interest of the Port Authority; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to (1) take action with respect to purchase and other construction contracts and contracts for professional and advisory services related to the foregoing project as he deems in the best interest of the Port Authority, including, without limitation, award to the lowest bidder(s) who in his opinion is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price(s) the Executive Director deems reasonable; reject all bids; solicit new bids on revised or the same requirements; negotiate with one or more bidders or contractors and (2) execute other contracts and supplemental agreements with such bidders as he deems in the best interest of the Port Authority; and to order extra work and net cost work in connection with each contract, including supplemental agreements thereto; and to enter into such other agreements as may be necessary to effectuate the project, and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an appropriate agreement with the Queens West Development Corporation and/or the Friends of Queen Catherine, Inc. to make a small area available without fee for an approximate twenty-year period for the installation of a statue of Catherine of Braganza; and it is further

RESOLVED, that the form of all agreements shall be subject to the approval of General Counsel or his authorized representative.

**Port Newark - Akzo Nobel Salt, Inc. - Lease LPN-198,
Building 135 Lease Extension**

It was recommended that the Board authorize the Executive Director to enter into an agreement with Akzo Nobel Salt, Inc. (Akzo) extending the term of its lease at Port Newark from June 1, 1996 through May 31, 2016, adding approximately 100,000 square feet of open area to the leasehold, and revising the termination rights under the lease. The agreement will expand Akzo's permitted use of the premises to include the washing, drying and bagging of salt in Building No. 135 and the storage of salt on the open area, with Akzo to pay an additional rental if salt is stored on the open area. The rental rates for both the basic rental and the additional rental will escalate on the fifth, tenth and fifteenth anniversaries of the extension. The Port Authority and Akzo each now has the right to terminate the lease on thirty days' notice. The agreement will remove these termination rights and will provide Akzo with the right to terminate the lease effective on the last day of the fifth, tenth or fifteenth year of the extension on one year's notice to the Port Authority. Akzo will pay the Port Authority the equivalent of six months' rent under the lease if Akzo exercises its termination right.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Akzo Nobel Salt, Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**Elizabeth-Port Authority Marine Terminal - Sea-Land Service,
Inc. - Berth Deepening/Strengthening**

It was recommended that the Board authorize the Executive Director: (1) to enter into an agreement with Sea-Land Service, Inc. (Sea-Land) to amend Sea-Land's lease covering its terminal to provide for berth/bulkhead construction and the deepening of 1,000 linear feet of berth, and (2) to take such action, with respect to approval of tenant-generated contracts and the award of Port Authority contracts, to implement a project to deepen certain berths as deemed in the best interest of the Port Authority, including award to the lowest qualified bidder, who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable; reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or contractors as deemed in the best interest of the Port Authority, and to order extra work and net cost work in connection with each contract, including supplemental agreements thereto.

The agreement will require Sea-Land to perform construction work on 1,200 linear feet of berth/bulkhead at the premises to prepare the berth to be dredged to a depth of 45 feet, with Sea-Land to be reimbursed by the Port Authority in an amount not to exceed \$5.2 million for the cost of this work. Sea-Land will undertake to complete the berth/bulkhead preparation work by December 31, 1997, subject to postponement for delays in the Port Authority's performance of specified maintenance work on the berth. Sea-Land will have the right to cancel the agreement and its obligation to perform this work at any time before it begins construction on the premises. In addition, if Sea-Land has not commenced construction on the premises by March 31, 1997, the agreement will be canceled. If the agreement is canceled on either basis, the Port Authority will not be obligated to perform the berth dredging work described below, or to reimburse Sea-Land for any pre-construction expenditures it may have incurred with respect to its work. Upon completion of its berth/bulkhead preparation work, Sea-Land will no longer be liable for claims or demands arising out of structural defects in the work except for claims or demands resulting from its negligence.

The Port Authority will be required to dredge the berth to a depth of 45 feet and dispose of the dredged material, subject to the condition that the dredging will be deemed completed upon the expenditure by the Port Authority of \$4.8 million on this work. In addition, if prior to the commencement of the dredging work the Port Authority's estimate of the cost of the dredging and disposal of the dredged material exceeds \$100 per cubic yard of dredged material, the Port Authority's dredging obligation will be canceled. The Port Authority will undertake to complete the dredging work by April 30, 1998, subject to postponement for delays in Sea-Land's performance of the berth/bulkhead preparation work and subject to the Port Authority's having the required governmental authorizations to dredge and dispose of the dredged material.

Upon completion of the dredging work, Sea-Land will pay additional rental in an amount sufficient for the Port Authority to recover 60 percent of 105 percent of its direct costs of the berth/bulkhead preparation work and 40 percent of at least 110 percent of its direct costs of the dredging and disposal work, with such

payments to be based on a fifteen-year amortization schedule. Since the lease will expire on February 28, 1999, Sea-Land will be obligated to make a balloon payment of rental upon expiration to allow recovery of unamortized investment. If the Port Authority fails to or is unable to fulfill its obligation to dredge the berthing area, Sea-Land will not be obligated to make rental payments with respect to the berth/bulkhead preparation work or the dredging and disposal work. The Port Authority will be obligated to maintain the berth at the depth reached upon completion of the dredging work, subject to its having the required governmental authorizations to dredge and dispose of the dredged material.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Sea-Land Service, Inc. and to implement a project to deepen certain berths, substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**Enlargement of Foreign-Trade Zone No. 49 through the
Establishment of a Subzone to include the Chevron
Products Company Facility in Perth Amboy, New Jersey**

The Port Authority, as grantee of Foreign-Trade Zone No. 49, has been requested by Chevron Products Company (Chevron) to submit an application to the Foreign-Trade Zone Board of the United States Department of Commerce for the establishment of a subzone at Chevron's facility in Perth Amboy, New Jersey. Chevron is a multinational corporation involved in petroleum product manufacture and distribution. Without subzone status, Chevron would be at a competitive disadvantage, particularly with respect to foreign competitors. With subzone status, Chevron would realize substantial savings through inverted tariffs (higher on imported raw materials, lower on unfinished products), cash flow savings through duty and Harbor Maintenance Tax deferral and the elimination of duty on exported fuel. Potential benefits to the New Jersey/New York region include the expansion of exports which should result in the retention of existing jobs and the creation of new jobs.

The establishment of the subzone would not result in any cost, expense, or unusual risk of loss to the Port Authority. Upon securing subzone status, Chevron has agreed to enter into an appropriate agreement with the Port Authority which will provide for a payment to the Port Authority of an annual fee and assurance that Chevron will operate the site without unusual cost, expense or risk of loss to the Port Authority or other subzones authorized by the Port Authority.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to file an application with the Foreign-Trade Zones Board of the United States Department of Commerce for the establishment of a subzone at the Chevron Products Company facility in Perth Amboy, New Jersey, and to execute an appropriate agreement with Chevron; the form of the agreement and documents involved in this application shall be subject to the approval of General Counsel or his authorized representative.

**The World Trade Center - Permanent Security Program -
Project Authorization**

Prior to the February 1993 bombing, the World Trade Center operated as an "open" building. The general public was free to enter most areas of the complex including most office spaces and the subgrade. The complex was "closed" with restricted access only outside of normal business hours. After the bombing, staff retained Kroll Associates to conduct an assessment of the most significant security threats to the World Trade Center and to recommend means of addressing them. Those recommendations form the basis for the Permanent Security Program. Effective security is a major consideration in today's office leasing decisions, particularly for the international firms that comprise such a large part of the World Trade Center's existing and prospective tenant base. The Permanent Security Program will bring World Trade Center security in line with security at other "closed" Class A buildings. Existing World Trade Center tenants have consistently and strongly supported implementation of the Permanent Security Program. Lease agreements with Dai-Ichi Kangyo Bank and Fiduciary Trust contain good-faith obligations on the part of the Port Authority to proceed with the Permanent Security Program.

Interim enhanced security implementation began in Spring 1993 under an emergency delegation of authority and included: (1) security guards at access points, (2) a photo ID program, (3) visitor check-in desks, (4) an external closed circuit television (CCTV) system, (5) truck dock protection and inspections, and (6) perimeter protection. In October 1994 and May 1995, the Executive Director approved actions which accelerated the subgrade automated Parking Access Control (PACS) and Office Space Security Systems (OSSS), respectively. These components will ultimately be integrated into the Permanent Security Program.

The recommended project's conceptual framework relies on three system elements: (1) hard shell (exterior); (2) access control (interior); and (3) centralized monitoring and coordination. The project will include: (1) final design; (2) system software; (3) a communications highway for connecting components; (4) expanded perimeter closed circuit television (CCTV) and stopped vehicle detection; (5) CCTV access control from the perimeter and lobbies into the subgrade; (6) lobby turnstiles, barriers, visitor desks and CCTV; (7) visitor badging and swipe card system; (8) tenant badging stations and proximity card system; (9) Security Control Center and back-up capacity; (10) backup emergency power; (11) system testing and integration; (12) above and below grade intrusion detection and CCTV in sensitive building areas; (13) duress alarms; (14) subgrade tenant assistance intercoms; (15) integration of the parking access control system (PACS); and (16) integration of the interim perimeter CCTV system. Contracts awarded under this project authorization will conform to Port Authority M/WBE participation and labor force policies.

The overall operating cost savings based on the reduction of security guard services and including additional maintenance costs and operations staff is estimated at \$1.4 million annually, which will cover all but \$12.1 million of the total project cost on a net present value basis over twenty years. Under the prior guard contract, which utilized labor at a much higher wage rate, the project would have had a positive net value of \$29.4 million. The new guard contract and reductions in guard staff due to operational changes have already enabled a substantial reduction in ongoing operating costs; thus the significant difference in net present values.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that a project to design and install all components of the Permanent Security Program at the World Trade Center (WTC) at a total estimated cost of \$35.4 million including administrative, engineering, planning and financial expense, payments to vendors, consultants and contractors, and allowances for net cost, extra work, and a project contingency, be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to: a) take such actions with respect to the award of purchase and construction contracts and contracts for professional and advisory services as he deems in the best interest of the Port Authority, including, without limitation, award to the contractor submitting the "best-buy" proposal who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose proposal price the Executive Director deems reasonable, rejection of all proposals, solicitation of new proposals on revised or the same requirements from one or more contractors; or negotiation with one or more proposers or other contractors; b) execute contracts and supplemental agreements with such contractors as he deems in the best interests of the Port Authority and to order extra work and net cost work in connection with each project contract and agreement, including supplemental agreements; and, c) enter into such other agreements as may be necessary to effectuate the project; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to: (a) enter into Contract WTC-890.042 for design/build services for the project on a "best-buy" basis at an estimated contract cost of \$21.9 million inclusive of net cost and extra work; (b) extend the contract with Analytical Systems Engineering Corporation for the provision of expert technical and professional services during final design and construction at an estimated contract cost of \$1 million for a two-year period; and (c) award contract WTC-890.045 to modify lobby directional signage at an estimated contract cost of \$550,000 inclusive of net cost and extra work; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a one-year maintenance agreement for the security system as installed under Contract WTC-890.042 at an estimated contract cost of \$890,000 inclusive of extra work; and exercise up to three three-year renewal options at an estimated increase of ten percent for each renewal; and it is further

RESOLVED, that the form of all project contracts and agreements shall be subject to the approval of General Counsel or his authorized representative.

The World Trade Center - B.E. Windows Corp. - Supplemental Lease Agreement

It was recommended that the Board authorize the Executive Director to enter into an agreement with B.E. Windows Corp. (the Lessee) amending the Lessee's lease with the Port Authority covering the letting of space on the 106th and 107th floors of the North Tower of the World Trade Center (the Lease) for the operation of the Windows on the World restaurant (the Restaurant) to provide for the Port Authority to reimburse the Lessee approximately \$672,000 to cover a portion of the cost of designing and reconstructing the Restaurant in excess of \$20 Million.

It was recalled that the Board, at its meeting of May 12, 1994, authorized the Executive Director to enter into an agreement with the Lessee for the design, reconstruction and operation of the Restaurant and further authorized the Port Authority to pay an amount not to exceed \$17 Million, exclusive of asbestos abatement expenses, toward the cost of such design and reconstruction. The Board further provided that any cost overrun, other than that resulting from design changes made by the Lessee, was to be shared, with the Lessee to be responsible for 70% of such cost overrun and the Port Authority for the balance, subject to approval by the Board of Commissioners if the Port Authority's total investment exceeded \$17 Million. Approximately \$2,239,000 of additional costs, many resulting from conditions that became apparent only after demolition and asbestos abatement of the existing facilities, but not resulting from design changes made by the Lessee, have been identified. Payment of the sum of approximately \$672,000, representing 30% of such additional costs, will fulfill the Port Authority's commitment to share a portion of the cost overrun not resulting from design changes made by the Lessee.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with B.E. Windows Corp. amending the terms of B.E. Windows Corp.'s existing lease with the Port Authority covering the letting of space on the 106th and 107th floors of the North Tower of the World Trade Center, substantially in accordance with the terms and conditions outlined above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

The World Trade Center - Wm. H. McGee & Co., Inc. - Lease Agreement Guy Carpenter & Company, Inc. - Partial Surrender and Lease Extension

It was recommended that the Board authorize the Executive Director (1) to enter into a lease agreement with Wm. H. McGee & Co., Inc. (McGee), a World Trade Center (WTC) tenant, covering the letting of approximately 65,000 rentable square feet of space consisting of the entire 47th floor and a part of the 48th floor of Two WTC for an approximate seventeen-year term; (2) to enter into an agreement with Guy Carpenter & Company, Inc. (Guy Carpenter), also a WTC tenant, under which Guy Carpenter will (a) be relieved of its obligation to lease the entire 47th floor of Two WTC in April, 1997; (b) surrender a portion of the 48th floor of Two WTC; and (c) extend the term of the letting under its lease agreement for the 50th through 54th floors of Two WTC for a nine-year period; and (3) to enter into a brokerage agreement with Cushman & Wakefield, Inc. in connection with the letting of the space under the McGee lease agreement.

The basic rental during the term of the McGee lease will aggregate approximately \$27.2 million. McGee will pay its proportionate share of any increases in operating and maintenance costs over the costs and expenses for the 1997 base year and will pay increases in payments in lieu of taxes as provided in the lease agreement. The Port Authority will provide McGee with a construction allowance. McGee will be granted certain subletting, expansion and termination rights. The space covered by McGee's two existing lease agreements will be surrendered upon its relocation to the premises under the new lease agreement.

The Port Authority will enter into a brokerage agreement with Cushman & Wakefield, Inc., providing for payment of a brokerage commission in connection with the McGee lease in accordance with the rates authorized by the Board at its meeting of August 11, 1977.

Guy Carpenter currently leases the entire 48th through 54th floors of Two WTC and is obligated to lease the entire 47th floor in April 1997. The proposed agreement with Guy Carpenter provides for the surrender of approximately one-half of the 48th floor, the release of the obligation to lease the 47th floor in 1997, the extension of the term of Guy Carpenter's lease with respect to the 50th through the 54th floors of Two World Trade Center for a nine-year period as provided in the agreement. The entire 49th floor of Two WTC is sublet to a third party and the letting of the 49th floor shall expire in accordance with the terms of the current Guy Carpenter lease on April 30, 2002. Guy Carpenter will grant McGee limited rights of first refusal with respect to any 48th floor space Guy Carpenter proposes to sublease to a third party.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Wm. H. McGee & Co., Inc., and in connection

therewith, a brokerage agreement with Cushman & Wakefield, Inc., and to enter into an agreement with Guy Carpenter & Company, Inc., amending and extending its current lease, the aforesaid agreements to be substantially in accordance with the terms and conditions outlined above; the form of the agreement in each instance shall be subject to the approval of General Counsel or his authorized representative.

**The World Trade Center - First Commercial Bank - Lease
Amendment**

It was recommended that the Board authorize (1) the Executive Director to enter into (a) an agreement amending the lease with First Commercial Bank (the Bank) providing for the relocation of the Bank to other office space at Two World Trade Center (WTC) and an extension of the term of the letting under the Lease, and (b) a brokerage agreement with First New York Realty Co., Inc. in connection with such lease amendment; and (2) the Committee on Operations to approve the final terms of the agreements in the event such final terms are not substantially in accordance with those outlined below.

The Bank has been a tenant at the WTC since December 1989. It currently occupies approximately 7,900 rentable square feet of space on the 33rd floor of Two WTC. The Bank will be relocating to larger space on the 78th floor of Two WTC consisting of approximately 10,900 rentable square feet. This will enable Oppenheimer Management Corporation, a tenant currently leasing the entire 34th floor and a portion of the 33rd floor of Two WTC, to expand onto the entire 33rd floor.

The proposed agreement with the Bank will provide for an approximate thirteen-year term for the letting of the relocated premises, which term will commence on or about January 1, 1997. Payment of basic rental will commence approximately six months after the commencement date. The total aggregate basic rental over the term will be approximately \$4 million. The Bank will continue to pay rental on its existing space until it moves into the relocated premises. The aggregate basic rental during the five-year term for the Oppenheimer expansion space will be approximately \$1.2 million. A brokerage agreement will be entered into with First New York Realty Co., Inc. providing for payment of a brokerage commission in connection with this transaction calculated in accordance with the rates authorized by the Board at its meeting of August 11, 1977.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement amending the lease with the First Commercial Bank covering its relocation to other space at the World Trade Center and an extension of the term of the letting under the lease and to enter into a brokerage agreement with First New York Realty Co., Inc. in connection with the lease amendment, substantially in accordance with the terms outlined above; the form of the agreement in each instance shall be subject to the approval of General Counsel or his authorized representative; and be it further

RESOLVED, that the Committee on Operations be and it hereby is authorized to approve the final terms and conditions of the agreements in the event said terms and conditions are not substantially in accordance with the terms and conditions outlined above.

Settlement of Claim - The Port Authority of New York and New Jersey v. Aabis Towing, Inc.

It was recommended that the Board authorize the Executive Director to enter into a settlement providing for the discontinuance with prejudice of the Port Authority's action against Aabis Towing, Inc. (Aabis) for the recovery of \$451,395.87 and the counterclaims of Aabis for the recovery of \$1,714,000.

In June 1993, the Port Authority awarded Aabis a two-year contract to provide towing services at John F. Kennedy International Airport. The volume of towing services required was reduced by the Frontage Management Program designed to reduce congestion at the airport. In March 1995, without prior notice to the Port Authority, Aabis went out of business and disposed of its assets. In June 1995, the Port Authority sued Aabis to recover \$451,395.87 in unpaid license fees. Aabis counterclaimed to recover \$1,714,000 on the grounds that the Port Authority frustrated and prevented the performance of its contract.

An asset search conducted after the Port Authority's suit was filed did not locate any Aabis assets and, therefore, it may be difficult to collect on any judgment which may be recovered.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to settle the lawsuit against Aabis Towing, Inc., by discontinuing with prejudice the Port Authority's complaint and Aabis Towing, Inc.'s counterclaims; and it is further

RESOLVED, that the form all papers executed in connection with such settlement shall be subject to the prior approval of General Counsel or his authorized representative.

Settlement of Claim - The Port Authority of New York and New Jersey v. Shimazaki Corporation and Kazumi Shimazaki

It was recommended that the Board authorize the Executive Director to settle the Port Authority's action against Shimazaki Corporation (the Corporation) and Kazumi Shimazaki by accepting \$350,000.

The Port Authority and the Corporation entered into two lease agreements, both at Port Newark, LPN-037 on April 1, 1969 and LNS-897 on July 30, 1976. Both leases have now expired and the Corporation is no longer in possession of the premises. Mr. Kazumi Shimazaki has personally guaranteed the company debt.

The Corporation had been the exclusive auto processor for Honda until it lost the contract several years ago. The Corporation attributes the loss of the contract to a severe storm which flooded the Honda vehicles stored on the premises in December 1992. The Corporation vacated the premises in June 1994. The premises were relet and after issuing a credit for such re-rental, arrears under both agreements total approximately \$750,000. The Corporation and Mr. Shimazaki have very limited assets, thus collection of any judgment which may be obtained would be quite difficult.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to settle the lawsuit with Shimazaki Corporation and Mr. Kazumi Shimazaki by accepting a total of \$350,000, \$300,000 down of which \$250,000 will be placed in treasury bills until approximately April 1998, at which time Mr. Shimazaki and Shimazaki Corporation will receive credit for 50 percent of interest received, to be applied to the remaining \$50,000 owed.

RESOLVED, that the form of all agreements required to effectuate the foregoing shall be subject to the prior approval of General Counsel or his authorized representative.

**Settlement of Claim - Stephen Chenen v. The Port Authority
of New York and New Jersey**

It was recommended that General Counsel be authorized to enter into a settlement agreement with Stephen Chenen (plaintiff) and his attorneys of plaintiff's pending action against the Port Authority at a cost of \$120,000 in exchange for a general release from liability and a dismissal of the action with prejudice.

Mr. Chenen was seriously injured when he struck a traffic cone while driving his motorcycle on the George Washington Bridge. This settlement was arrived at with the assistance of the Court during trial.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to settle the pending civil action, entitled Stephen Chenen v. The Port Authority of New York and New Jersey, by payment of \$120,000 to Stephen Chenen and his attorneys in exchange for a general release from liability and a dismissal of the action with prejudice.

Cross Bronx Expressway Initiative - Partial Reallocation

At the request of Governor Pataki, it was recommended that the Board authorize the reallocation of \$5,000,000 from the \$10,000,000 currently allocated to the Cross Bronx Expressway study initiatives to a legally eligible economic development project to be agreed to by the Borough of Staten Island and/or other public entity. In connection with this reallocation, it was also recommended that the Executive Director be authorized on behalf of the Port Authority to enter into appropriate agreements with the Borough of Staten Island and/or other appropriate public entity to effectuate the funding for the agreed upon project.

At its meeting on December 10, 1992, the Board authorized the provision of \$10,000,000 for certain Cross Bronx Expressway study initiatives. Following this reallocation, \$5,000,000 will remain for Cross Bronx Expressway study initiatives pursuant to the original Board authorization.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED that \$5,000,000 of the \$10,000,000 previously allocated to Cross Bronx Expressway study initiatives is hereby reallocated to a legally eligible economic development project to be agreed to with the Borough of Staten Island and/or other appropriate public entity; and it is further

RESOLVED that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an appropriate agreement with the Borough of Staten Island and/or other appropriate public entity to effectuate the funding for such project; the form of such agreement shall be subject to the approval of General Counsel or his authorized representative.

New York State and Local Employees' Retirement System -
Chapter 30 of the Laws of New York, 1996 - Adoption of
the 1996 Retirement Incentive Program

In March, legislation was adopted in New York (the Legislation) enabling employers participating in the New York State and Local Employees' Retirement System (the Retirement System), including the Port Authority, to adopt at their discretion a Retirement Incentive Program intended to enable the State of New York and these agencies to achieve economies, consolidation or abolition of functions, or curtailment of activities, by inducing eligible employees to retire at this time. Under the Legislation, a retirement incentive can be made available to non-police employees continuously employed since February 1, 1996, who are at least 50 years of age and have ten years of credited service or who are otherwise currently eligible to retire. This incentive is similar to one authorized last year and implemented by the Port Authority during August 1995. While the additional pension benefits are subject to reductions for those under 55 and to certain tax law restrictions and reductions, eligible employees who voluntarily choose to retire at this time would, generally, receive an additional one month of Retirement System credited service for each year of service up to a maximum additional Retirement System credit of three years. Employees eligible for any other lump sum retirement incentive payments (such as severance allowances) from the Port Authority would not be eligible for this Retirement System incentive unless they waive their eligibility for such lump sum payments.

The Legislation requires the elimination of a number of positions within eligible titles equal to the number of eligible employees retiring with the incentive or a Port Authority plan showing savings over a two-year period of at least 50% of the base salary of each person retiring with the incentive. The Legislation provides that the period in which individual employees may elect to retire with the retirement incentive must be of no less than 30 and no more than 90 days' duration, and must not extend beyond December 31, 1996. Under the Legislation the employer may elect to pay for the costs of this incentive in one installment or in five annual installments to be set by the Retirement System commencing during the Retirement System's fiscal year ending March 31, 1998.

Under the Legislation, targeted positions are those for which the abolition of a specified number of positions in the title would not, in the determination of the chief executive officer (here, the Executive Director),

- "a. Directly result in a reduction of the level of service required or mandated to protect and care for clients of the state or a participating employer or to assure public health and safety;
- b. Endanger the health or safety of employees of the state or a participating employer; or
- c. Clearly result in a loss of significant revenue to the state or a participating employer or result in substantially increased overtime or contractual costs."

Titles may also be considered eligible if employees subject to layoff may be placed therein. Finally, the Executive Director would also have staff prepare a list of eligible titles and positions and a plan of savings, as described above, which might avoid some job eliminations. Staff will seek to identify eligible job titles and positions meeting the requirements of the Legislation and the Port Authority's goals (the privatization of the International Arrivals Building at John F. Kennedy International Airport has already been identified as one situation in which the incentive program may be used).

In the interim, the Executive Director recommended that the Port Authority take the formal steps necessary to participate in the 1996 Retirement Incentive Program and that he be authorized to implement such a program, contingent on his determination following compilation of information by staff that such a program would be in the best interests of the Port Authority and achieve appropriate staff reductions, reorganization, or economies. To provide for administrative procedures and planning in a timely fashion, the implementation of this program, should the Executive Director decide to pursue it, would be scheduled during the period from December 1, 1996, through December 31, 1996, inclusive. Under the Legislation, an agency's chief executive officer must advise the Retirement System prior to September 3, 1996, of the adoption of a resolution authorizing implementation of the program.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to perform all acts and to make any and all determinations necessary or appropriate in connection with the implementation, effectuation, administration, or any other aspect of a targeted retirement incentive program under Chapter 30 of the Laws of New York, 1996, including without limitation, determining eligible titles (and the number of positions therein) to be covered by such program and the development of any compensation savings plan in connection therewith and, in this connection, and subject to approval as to form by General Counsel, to file any necessary or appropriate documents, affidavits, certifications, and forms; and it is further

RESOLVED, that The Port Authority of New York and New Jersey does hereby elect to provide the benefits of Chapter 30 of the Laws of New York, 1996 commencing on December 1, 1996, for all eligible employees who retire with an effective date of retirement set during the thirty-one day period beginning with and immediately following the commencement date and who are otherwise eligible as specified by Chapter 30.

Tribute to Gerald P. FitzGerald

The following resolution was unanimously adopted expressing the appreciation of the Board of Commissioners to Gerald P. FitzGerald.

WHEREAS, in the thirty-four years he has been with the Port Authority's Aviation Department, Jerry FitzGerald served with great distinction in various positions associated with the management of LaGuardia, Newark International and John F. Kennedy International Airports culminating with his appointment as Director of Aviation in 1995; and

WHEREAS, during his career with the Port Authority, Jerry was a member of various airport industry councils and served as the Chairman of the Board of Directors of the American Association of Airport Executives.

WHEREAS, Jerry FitzGerald took part in a wide variety of aviation industry endeavors which addressed such vital issues as airline deicing procedures and airport financing; and

Now, therefore be it

RESOLVED, that the Commissioners of The Port Authority of New York and New Jersey do hereby express their appreciation to Gerald P. FitzGerald for his many years of dedicated service to the agency and the region it serves; and it is

RESOLVED, that the Commissioners do hereby direct that this resolution be suitably engraved and presented to Gerald P. FitzGerald as a token of their thanks.

Tribute to Charles J. Maikish

The following resolution was unanimously adopted expressing the appreciation of the Board of Commissioners to Charles J. Maikish.

WHEREAS, during his twenty-eight years with the Port Authority, Charles J. Maikish served with great distinction from his earliest days as an engineer through his tenure as Director of the World Trade Department; and

WHEREAS, during his years as the Director of the Office of Ferry Transportation, Charlie played a major role in the return of Trans-Hudson ferry service to the region; and

WHEREAS, in the dark days following the tragic 1993 terrorist attack on The World Trade Center, Charlie tirelessly led the massive rehabilitation effort which enabled the building to reopen in record time.

Now, therefore be it

RESOLVED, that the Commissioners of The Port Authority of New York and New Jersey do hereby express their appreciation to Charles J. Maikish for his many years of dedicated service to the agency and the region it serves; and it is

RESOLVED, that the Commissioners do hereby direct that this resolution be suitably engraved and presented to Charles J. Maikish as a token of their thanks.

Confidential Item

) This item shall not be available for public inspection until otherwise agreed to by the parties involved.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period May 1, 1996 to May 31, 1996.

The public meeting was called to order by Chairman Eisenberg at 3:02 p.m. and ended at 3:10 p.m. The Board also met in executive session on July 11, 1996, September 5, 1996 and prior to today's public meeting.

Action on Minutes

The Secretary submitted for approval Minutes of the meetings of July 11, 1996. She reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. She reported further that the time for action by the Governors of New York and New Jersey has expired.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Audit Committee

The Audit Committee submitted a report, for information, of matters discussed in executive session at its meeting on September 5, 1996 which included discussion of internal audit matters, and the report was received.

Report of Committee on Operations

The Committee on Operations submitted a report, for information, of matters discussed in executive session at its meeting on September 5, 1996 which included discussion of contract matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Construction

The Committee on Construction submitted a report, for information, of matters discussed in public session at its meeting on September 5, 1996, which included a discussion of taxiway improvements on runway 13R at John F. Kennedy International Airport and a discussion in executive session of contract matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Finance

The Committee on Finance submitted a report, for information, of matters discussed in executive session at its meetings on July 11, 1996 and September 12, 1996, which included a discussion of matters related to, or which could impact upon, the issuance, sale, resale or redemption of Port Authority bonds, notes or other obligations, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

TRIBUTE TO STAFF

On the evening of July 17, a catastrophe brought down TWA Flight 800 shortly after it left John F. Kennedy International Airport en route to Paris, France. Our dedicated airport staff immediately mobilized to offer whatever assistance was needed.

In the sad days that followed, Port Authority staff at all levels worked around the clock to assist in the recovery effort. For weeks on end, they gave solace to the grieving families and assisted federal authorities in every way possible.

The people of the Port Authority have a long history of effective response to emergencies. The many men and women of our staff who assisted in the TWA Recovery Effort exemplify that proud tradition.

Now, therefore, be it

RESOLVED, that the Board of Commissioners offers its most sincere thanks to the staff members who gave so tirelessly of their time, energy and emotions in assisting with the TWA Recovery Effort; and it is further

RESOLVED, that The Port Authority of New York and New Jersey offers its deepest sympathies to the families, friends, and colleagues of those who were on Flight 800.

This resolution was unanimously adopted.

LAGUARDIA AIRPORT - MANHATTAN FERRY SERVICE PROJECT - PLANNING AND PROJECT AUTHORIZATION

It is recommended that the Board grant planning and project authorization for the establishment of a ferry service between Manhattan and LaGuardia Airport (LGA), and authorize the issuance of a Request for Proposals (RFP) to solicit a private sector partner to operate the proposed ferry/shuttle bus service. The proposed high speed service will link downtown and midtown Manhattan with LGA, with stops at Battery Park City and City owned landings at Pier 11, East 34th Street, East 62nd Street, East 75th Street and East 90th Street and shuttle busses will link the ferries with the air terminals.

The RFP to be issued will request proposals for creation of a public/private partnership with shared capital costs by the Port Authority and the private sector. The objective of the RFP will be to identify a private sector partner willing to assume responsibility for operating a ferry service between LaGuardia Airport and Manhattan, provide the necessary vessels and shuttle busses at its cost, be responsible for the operation and maintenance of the vessels and the LGA ferry/bus terminal and the maintenance and operation of the shuttle busses. The Port Authority will be responsible for the design and construction of the new LGA ferry/bus terminal, select improvements to New York City's Manhattan ferry landings, navigation improvements in Flushing Bay. The ferry/bus system should not require a public operating subsidy.

This project will advance the Port Authority's goal of improving travel between Manhattan and LaGuardia Airport. The project will establish a high quality, customer oriented service which will be a fast, direct, reliable and traffic free alternative for travel to the airport. No purchase or construction funds will be committed by the Port Authority until all appropriate permits, approvals, leases and agreements are in place.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Janiszewski, Kalikow, O'Neill, Philibosian and Schweitzer voting in favor, Commissioner Wilson abstaining; none against:

RESOLVED, that, subject to necessary or appropriate authorizations and certifications, a project for the establishment of a ferry service between Manhattan and LaGuardia Airport (Flushing Bay) at an estimated project cost of \$35 million, including payments to contractors, vendors and consultants, allowances for extra work and net cost work, engineering, administrative and financial expenses, and a project contingency, be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to:

a) issue a Request for Proposals to solicit a private sector partner to operate the proposed ferry service, provide the necessary vessels and shuttle busses to operate from the ferry to the air terminals at its cost and be responsible for the operation and maintenance of the vessels and the

LaGuardia Airport ferry/bus terminal and the maintenance and operation of the shuttle busses;

b) apply for all of the necessary state and Federal environmental and regulatory permits and approvals;

c) enter into an agreement with the City of New York to secure the property rights necessary to construct, operate and maintain a new ferry/bus terminal in Flushing Bay at LaGuardia Airport including navigation improvements in Flushing Bay;

d) enter into an agreement with the City of New York for the Port Authority to fund the design and construction of New York City East River Manhattan ferry landing improvements at East 34th, East 62nd, East 75th and East 90th Streets; and

e) (1) solicit proposals and take action with respect to purchase and construction contracts and contracts for professional and advisory services related to the foregoing Project as he deems in the best interest of the Port Authority, including, without limitation, award to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable; rejection of all bids, solicitation of new bids on revised or the same requirements; or negotiation with one or more bidders or others contractors; and (2) execute contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work and net cost work in connection with each contract, including supplemental agreements thereto; and to enter into such other agreements as may be necessary to effectuate the project; and it is further

RESOLVED, that the form of the said agreements and contracts shall be subject to the approval of General Counsel or his authorized representative.

JOHN F. KENNEDY INTERNATIONAL AIRPORT - INTERNATIONAL ARRIVALS BUILDING WEST FINGER AREA - SUBSURFACE REMEDIATION SYSTEM - PROCEEDING WITH SUPPLEMENTAL AGREEMENT NO. 1 TO CONTRACT JFK-134.007 WITH GRACE INDUSTRIES, INC./TERRA VAC, INC. AND BURNS & MCDONNELL CONSULTANTS, INC., A JOINT VENTURE

Pursuant to the authorization of the Executive Director of July 25, 1995, the Director of Engineering and Chief Engineer authorized the award of Contract JFK-134.007 for subsurface remediation systems for the International Arrivals Building at John F. Kennedy International Airport to the low bidder, Grace Industries, Inc./Terra Vac, Inc. and Burns and McDonnell Consultants, Inc., a joint venture, at its bid price of \$12.8 million, exclusive of Extra Work in an amount of up to \$1.03 million, and an allowance for Net Cost Work roughly estimated at \$425,000. Contract JFK-134.007 provided for design, furnishing, installation, operation, maintenance and removal of three separate subsurface remediation systems, and for the rehabilitation of various sections of the aircraft apron pavement.

On April 25, 1996, the Board authorized approximately \$10 million for the performance of additional subsurface environmental remediation on the International Arrivals Building ramp, and authorized the Executive Director to take bids or proposals and then award a contract or supplemental agreement. On July 11, 1996, the Board amended its prior action to require Board approval of this and certain other agreements.

Supplemental Agreement No. 1 to Contract JFK-134.007 provides for work to accelerate the subsurface remediation efforts in the area of the footprint of the proposed new West Finger Concourse of the International Arrivals Building to conform to LCOR/Schiphol USA's proposed construction schedule for redevelopment of the International Arrivals Building, specifically construction of the proposed new West Finger Concourse. Under the Supplemental Agreement a supplemental remediation system will be added to accelerate the remediation effort in this area only, in order to reduce the subsurface remediation period in the area by approximately two years. The expected completion date of the accelerated remediation is September 1997, which is based on a 365-day construction duration.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Janiszewski, Kalikow, O'Neill, Philibosian and Schweitzer voting in favor, Commissioner Wilson abstaining; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to proceed with Supplemental Agreement No. 1 to Contract JFK-134.007 with Grace Industries, Inc./Terra Vac, Inc., and Burns and McDonnell Consultants, Inc., a joint venture, for work to accelerate the subsurface remediation efforts in the area of the John F. Kennedy International Airport International Arrivals Building West Finger Concourse, at a total cost of \$2.99 million, inclusive of an authorization for Extra Work in the amount of \$200,000 and a Net Cost Work allowance roughly estimated at \$300,000; and it is further

RESOLVED, that the form of the Supplemental Agreement shall be subject to the approval of General Counsel or his authorized representative.

PORT AUTHORITY BUS TERMINAL - COSMETICS PLUS GROUP LTD. - LEASE AGREEMENT

It was recommended that the Board authorize the Executive Director to enter into a lease agreement (the Lease) with Cosmetics Plus Group Ltd. (Cosmetics Plus) covering the construction and operation of a shop for the sale of quality cosmetics and fragrances on the Main Concourse of the South Wing of the Port Authority Bus Terminal (the Terminal) and a brokerage agreement with Garrick-Aug Associates Store Leasing, Inc., the broker involved with the letting.

The principals of Cosmetics Plus have over twenty years' experience in operating cosmetics shops, and currently operate seventeen Cosmetics Plus stores in Manhattan.

The proposed Lease would be for a term commencing on or about October 1, 1996 and expiring on the day preceding the tenth anniversary of the date payment of rental commences under the Lease. Cosmetics Plus will pay a graduated basic rental for the premises plus a percentage rental as provided in the Lease. Payment of rental under the Lease will commence 240 days from the commencement date of the term of the letting under the Lease. Cosmetics Plus will install all improvements, fixtures and equipment required for its operations in the premises at its sole cost and expense. The Port Authority will remove asbestos from the premises at a cost not to exceed \$80,000 and will provide Cosmetics Plus with a credit against its rental obligations under the Lease in an amount not to exceed \$10,000 to defray the cost of constructing a corridor leading from the premises to a storage area located on the second floor of the Terminal above the premises. The term of the letting will be subject to termination by the Port Authority, at any time, without cause, on ninety days' notice, in which event Cosmetics Plus would be reimbursed for the unamortized portion of its initial capital investment in the premises to the extent that such initial capital investment does not exceed \$500,000. If within a stated period of time following the exercise by the Port Authority of this right comparable space in the Terminal becomes available for rent the Port Authority will be obligated to offer such space to Cosmetics Plus at the then current rentals for such space.

The brokerage agreement will provide for payment of a brokerage commission in connection with the letting.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Wilson voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Cosmetics Plus Group Ltd. at the Port Authority Bus Terminal and a brokerage agreement with Garrick-Aug Associates Store Leasing, Inc., substantially in accordance with the terms and conditions outlined above; the form of the agreement in each instance shall be subject to the approval of General Counsel or his authorized representative.

**THE WORLD TRADE CENTER - LUMBERMENS MUTUAL CASUALTY COMPANY
- LEASE RENEWAL, RELOCATION AND EXPANSION**

It was recommended that the Board authorize (1) the Executive Director to enter into a lease agreement with Lumbermens Mutual Casualty Company (Lumbermens), an existing World Trade Center tenant, covering the letting of approximately 80,000 rentable square feet of space consisting of the entire 36th floor and part of the 35th floor of One World Trade Center for a term of approximately sixteen years and to enter into a brokerage agreement with Julien J. Studley, Inc. in connection with the transaction and (2) the Committee on Operations to approve the final terms of the agreements in the event they are not substantially in accordance with the terms outlined below.

Lumbermens has been a tenant at the World Trade Center since 1978. It currently occupies the entire 31st floor and portions of the 28th and 38th floors of Two World Trade Center totaling approximately 63,000 rentable square feet under a lease which expires on January 31, 1998. Lumbermens will continue to pay rental for its current premises until it relocates to the larger space upon completion of its construction and installation work. Under the proposed agreement, Lumbermens will pay an aggregate basic rental of approximately \$36 million during the rent-paying portion of the term. Lumbermens will receive a construction allowance for the new space and will receive a rental credit for any unused portion thereof. The Port Authority will be responsible for performing work in the bathrooms and corridors on the floors on which the new space is located to comply with the Americans with Disabilities Act of 1990 and will also be responsible for performing certain base building work in the new space. In the event the Port Authority is unable to tender the new space as of January 1, 1997, the basic rental for Lumbermens' current premises will be reduced and no further payments with regard to increases in operating and maintenance costs or payments in lieu of taxes will be payable by Lumbermens for the thirteen-month balance of the term.

Notwithstanding such reduction, the Port Authority will be required to continue to make payments to Lumbermens in accordance with the existing arrangement resulting from Lumbermens' earlier relocation to accommodate another World Trade Center tenant. Lumbermens will have the right to lease up to the balance of the 35th floor of One World Trade Center at any time during the term, a right of first refusal to lease certain contiguous space and a right to extend the term for one five-year period. Lumbermens will have the right to terminate the lease at the end of the tenth year following rent commencement upon payment to the Port Authority of the unamortized portion of certain Port Authority costs.

A brokerage agreement will be entered into with Julien J. Studley, Inc. providing for payment of a brokerage commission in accordance with the rates authorized by the Board at its meeting of August 11, 1977.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Wilson voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement of lease with Lumbermens Mutual Casualty Company covering the letting of approximately 80,000 rentable square feet of space consisting of the entire 36th and part of the 35th floor of One World Trade Center for an approximate sixteen-year term and to enter into a brokerage agreement with Julien J. Studley, Inc. in connection with the lease agreement, substantially in accordance with the terms and conditions outlined above; the form of the agreement in each instance shall be subject to the approval of General Counsel or his authorized representative; and be it further

RESOLVED, that the Committee on Operations be and it hereby is authorized to approve the final terms and conditions of the agreements in the event that such terms and conditions are not substantially in accordance with the terms and conditions outlined above.

**THE WORLD TRADE CENTER - THACHER, PROFFITT & WOOD - LEASE
EXPANSION AND PARTIAL SURRENDER**

It was recommended that the Board authorize (1) the Executive Director to enter into a lease agreement with Thacher, Proffitt & Wood (Thacher), an existing World Trade Center tenant since 1985, covering the letting of approximately 18,500 rentable square feet of space on part of the 38th floor and the early renewal of the letting of approximately 81,000 rentable square feet of space consisting of the entire 39th and 40th floors of Two World Trade Center for a term of approximately fifteen years and to enter into a brokerage agreement with Julien J. Studley, Inc. in connection with the transaction and (2) the Committee on Operations to approve the final terms of the agreements in the event they are not substantially in accordance with the terms outlined below.

The proposed lease agreement will commence on or about October 1, 1996 and Thacher will pay an aggregate basic rental of approximately \$45 million for both the existing and expansion spaces during the rent-paying portion of the term. Thacher will receive a construction allowance with respect to the existing and expansion spaces. The Port Authority will perform or will reimburse Thacher's contractor for the performance of certain base building work. Effective in 1999, Thacher will lease an additional portion of the 38th floor contiguous to the 38th floor expansion space initially being leased. Thacher will have a right of first refusal on the balance of the 38th floor and will have certain rights to lease additional 38th and, under certain circumstances, 37th floor space during the term. Thacher will also have the right to extend the term for two successive five-year periods. A brokerage agreement will be entered into with Julien J. Studley, Inc. providing for payment of a brokerage commission in accordance with the rates authorized by the Board at its meeting of August 11, 1977.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Wilson voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement of lease with Thacher, Proffitt and Wood covering the letting of approximately 18,500 rentable square feet on part of the 38th floor and the early renewal of the letting of approximately 81,000 rentable square feet of space consisting of the entire 39th and 40th floors of Two World Trade Center and to enter into a brokerage agreement with Julien J. Studley, Inc. in connection with such agreement of lease, substantially in accordance with the terms and conditions outlined above; the form of the agreement in each instance to be subject to the approval of General Counsel or his authorized representative; and be it further

RESOLVED, that the Committee on Operations be and it hereby is authorized to approve the final terms and conditions of the agreement of lease in the event that such terms and conditions are not substantially in accordance with the terms and conditions outlined above.

**THE WORLD TRADE CENTER - CANTOR FITZGERALD INCORPORATED LEASE
EXTENSION, EXPANSION AND PARTIAL SURRENDER**

It was recommended that the Board authorize (1) the Executive Director to enter into a lease agreement with Cantor Fitzgerald Incorporated (Cantor), an existing World Trade Center tenant, covering the extension of the letting of approximately 95,000 rentable square feet of space on the 104th and 105th floors of One World Trade Center, the letting of approximately 75,000 rentable square feet of expansion space consisting of the entire 103rd floor and part of the 101st floor of One World Trade Center and the surrender of approximately 25,000 rentable square feet of space on the 32nd floor of One World Trade Center and to enter into a brokerage agreement with Edward S. Gordon Company, Incorporated in connection with the transaction and (2) the Committee on Operations to approve the final terms of the agreements in the event they are not substantially in accordance with the terms outlined below.

Cantor has been a tenant at the World Trade Center since 1979. Under the proposed agreement, Cantor will extend its existing lease for an approximate seven-year period effective at the end of the current term in 2004 and will pay an aggregate basic rental of approximately \$32.8 million for both the existing and expansion spaces during the rent-paying portion of the approximate fifteen-year period covered by the proposed agreement. In addition to the basic rental, Cantor will also pay an annual fee representing recovery of certain concessions and Port Authority costs. Cantor will receive a construction allowance with respect to the expansion space. The Port Authority is responsible for removing asbestos-containing material in the entire premises and for providing stand-by emergency electrical power for which Cantor will make a one-time payment of \$250,000 to the Port Authority and will also pay an annual charge of \$120,000. In addition, the Port Authority will provide space on the 110th floor of One World Trade Center to Cantor on a rent-free basis for the installation, at Cantor's expense, of an uninterruptible power supply system. Cantor will have the right to lease additional space on the 90th through 102nd floors and, in certain circumstances, on the 106th floor of One World Trade Center. Cantor will have the right to terminate the lease at the end of the tenth year upon payment to the Port Authority of an amount to recover certain unamortized Port Authority costs.

A brokerage agreement will be entered into with Edward S. Gordon Company, Incorporated providing for payment of a brokerage commission in accordance with the rates authorized by the Board at its meeting of August 11, 1977. The brokerage commission is based on the entire term of the letting and includes an amount based on the Port Authority's estimated rental for the period during which the rental will be based upon the fair market value for the space.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Wilson voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement of lease with Cantor Fitzgerald Incorporated covering the extension of the letting of approximately 95,000 rentable square feet of space on the 104th and 105th floors of One World Trade Center, the letting of approximately 75,000 rentable square feet of expansion space consisting of the entire 103rd floor and part of the 101st floor of One World Trade Center and the surrender of approximately 25,000 rentable square feet of space on the 32nd floor of One World Trade Center and to enter into a brokerage agreement with Edward S. Gordon Company, Incorporated in connection with such letting, substantially in accordance with the terms and conditions outlined above; the form of the agreement in each instance to be subject to the approval of General Counsel or his authorized representative; and be it further

RESOLVED, that the Committee on Operations be and it hereby is authorized to approve the final terms and conditions of the agreements in the event that such terms and conditions are not substantially in accordance with the terms and conditions outlined above.

PORT NEWARK - FAPS, INC. - LEASE AMENDMENT

It was recommended that the Board authorize the Executive Director to enter into an agreement with FAPS, Inc. (formerly known as Foreign Auto Preparation Service, Inc.) (FAPS) amending its lease to provide for the expansion of its leasehold to include approximately 23 acres of contiguous open area at Port Newark.

The letting of the additional space under the supplemental agreement will be effective as of October 1, 1996 and will be coterminous with FAPS' base lease, which expires November 20, 2000. Annual rental payments shall be at a fixed amount through September 30, 1998 and, thereafter, shall be subject to escalation. In addition, effective October 1, 1996, the FAPS' minimum annual vehicle guarantee shall be increased by twenty percent and shall continue to be subject to adjustment as previously provided.

Pursuant to the foregoing report presented by staff, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Wilson voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with FAPS, Inc., to amend FAPS' lease at Port Newark, substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of the General Counsel or his authorized representative.

**AGREEMENT WITH THE STATE OF NEW JERSEY FOR DREDGING OF THE
PORT JERSEY CHANNEL AND DREDGING OF THE FERRY TERMINAL AT
LIBERTY STATE PARK**

The dredging and deepening of Port Jersey Channel is a priority concern to the State of New Jersey. A recent letter from the New Jersey Director of Maritime Resources requested that the Port Authority assume management responsibility for the Port Jersey Channel project. The State of New Jersey has requested the Port Authority to allocate a portion of funds from New Jersey's share of the \$130 million authorized for dredging projects to pay for this work. Both the Port Authority Auto Marine Terminal and Global Terminal (the only private container terminal in the New York/New Jersey harbor) are located on this waterway. The United States government holds the riparian rights to the underwater lands in the Port Jersey Channel, while the private operator, Global Terminal, owns the channel. Global Terminal contributes 14,600 jobs and \$545 million to the regional economy. The Port Jersey Channel has been the subject of a feasibility study by the U.S. Army Corps of Engineers that would authorize the channel to 41 feet and federalize the channel for future maintenance dredging. If funding is made available by Congress this fiscal year, the federal deepening work could possibly start in 1998. However, additional depth is needed now to ensure safe vessel passage and the continued usage of the Global facility.

The Ferry Terminal at Liberty State Park is the New Jersey access to the Statue of Liberty. Approximately 650,000 visitors utilize the ferry to the statue each year. The lack of water depth at the terminal threatens to halt the ferry service by next year. The State of New Jersey has also asked the Port Authority to accomplish this dredging work and would fund the cost thereof.

The State of New Jersey has asked the Port Authority to act as its agent to accomplish both these projects and, as owner and generator of the dredged material, would indemnify the Port Authority and its contractors against any liability arising out of the performance of the work including those resulting from delays and environmental claims.

The Port Authority will provide engineering, environmental and project management services for the deepening of both the Port Jersey Channel and the Ferry Terminal at Liberty State Park. This will include design, construction, permitting services and contracting for the dredging and disposal. The Port Jersey Channel should be dredged to a depth of 38 feet to ensure that the vessels calling at the two terminals have sufficient clearance for the next few years. The Ferry Terminal at Liberty State Park must be maintained at a depth of 17 feet to ensure safe passage of the tourist ferries to the Statue.

The dredged material at both sites is partially comprised of Category III material, which is unsuitable for ocean disposal and must be placed upland, requiring specialized permitting and handling. The remainder of the material is Category II, which meets ocean disposal criteria, but requires special management at the Mud Dump Site. At the request of the Governor of the State of New Jersey, this material is not to be disposed of in the ocean. The Port Authority's Request for Proposals for Maintenance Dredging and Material Disposition for Material Dredged from Port Facilities in New York and New Jersey included maintenance dredging of the Port Jersey Channel and the Liberty State Park Ferry Slip and could possibly be used to choose the contractor to dredge and dispose of this material.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Wilson voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into agreements with the State of New Jersey to perform engineering, environmental and project management services including contracting for the dredging and disposal work, for the dredging of the Port Jersey Channel and the Ferry Terminal at Liberty State Park on the terms and conditions above set forth; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to a) award the necessary dredging and disposal contracts to the proposer who, in his opinion, is best qualified by reason of responsibility, experience and capacity to perform the work, and whose proposal price the Executive Director deems reasonable, and to order extra work up to eight percent of the amount of the proposal accepted; and to order net cost work; or to reject all proposals, solicit new proposals on revised or the same requirements, or to negotiate with one or more proposers or other contractors as he deems in the best interest of the Port Authority; and b) enter into such other agreements as are required for the work, which may include agreements for professional and advisory services related to the foregoing dredging and disposal, as he deems in the best interest of the Port Authority, including, without limitation, award to the proposer(s) who in his opinion is best qualified by reason of responsibility, experience and capacity to perform the work and whose proposal price the Executive Director deems reasonable; reject all proposals; solicit new proposals on revised or the same requirements; negotiate with one or more proposers or other contractors; and c) execute other contracts and supplemental agreements with such contractors as he deems in the best interest of the Port Authority; and to order extra and net cost work in connection with each contract, including supplemental agreements thereto; and it is further

RESOLVED, that the form of the agreements and contracts shall be subject to the approval of General Counsel or his authorized representative.

AUTHORIZATION FOR THE PORT AUTHORITY IN ITS OWN BEHALF AND FOR OTHER HARBOR USERS TO OBTAIN EXCLUSIVE USE OF THE DREDGED MATERIAL DISPOSAL CAPACITY AT THE ORION SITE AND TO ENTER INTO A CONTRACT WITH ENVIRO-DREDGE FOR DREDGE, TRANSPORT AND DISPOSAL OF HARBOR SEDIMENT

It is proposed to provide \$5 million to OENJ Corporation (OENJ) as part of the funds needed to construct a critical transportation link in the vicinity of the OENJ MetroMall facility by entering into an agreement with OENJ. This is not part of the Dredging Program authorized by the Board on May 9, 1996 but is an economic development and transportation initiative.

OENJ approached the Port Authority regarding use of its property in Elizabeth, south of the Elizabeth-Port Authority Marine Terminal, as a disposal site for material dredged from the Port of New York and New Jersey. OENJ has plans to construct a regional mall and needs approximately three million cubic yards of fill material for the site as well as funds to construct infrastructure improvements associated with the MetroMall development. Reservation of this disposal site will meet the immediate operating needs of the Port of New York and New Jersey and ensure a disposal site for dredged material not suitable for ocean dumping.

The proposed contract with OENJ will reserve the remaining 1.3 million cubic yards of fill capacity at the Orion-OENJ site for dredged material. The \$5 million reservation fee to be paid by the Port Authority would be used to provide the vital transportation infrastructure for the MetroMall. The site would be able to receive this material immediately through November 1997, at which time the site will no longer be available in order to complete the MetroMall construction. In addition to the benefits to be derived from the proposed transportation improvements and the economic development benefits of the MetroMall Project, the Port Authority will receive a direct benefit from providing \$5 million to OENJ because there is a harbor-wide requirement in 1996 and 1997 for approximately 3.6 million cubic yards of disposal capacity for dredged sediment determined to be unsuitable for ocean disposal. Currently, there is insufficient disposal capacity to handle this volume of material. The report issued in February 1995 by New Jersey Governor Christine Todd Whitman's Dredged Material Management Team (DMMT) included in its recommendations the upland disposal of Category II and III dredged material removed from the Port Authority's New Jersey Marine Terminals.

The \$5 million reservation fee may be repaid to the Port Authority from credits resulting from deposits of material at the rate of \$5 per cubic yard. The repayment will only be paid out of a dedicated fund established to receive amounts paid to OENJ by other project sponsors, including private or government organizations desiring to use the reserved capacity for dredged material deposit. OENJ's liability for repayment to the Port Authority is subject to and contingent upon receipt by OENJ of payments to this fund. The amount owed to the Port Authority will be calculated at the time of the site closure (currently estimated to be November 1997). To the extent that the dedicated fund does not contain sufficient funds at the time of closure to pay the Port Authority the total due, the amount will begin to accrue interest at the rate of 6.75% per annum. Interest, which accrues on the unpaid balance, will be in

addition to the \$5 million amount described above. In no event, however, would payment to the Port Authority exceed the balance available in the dedicated fund received by OENJ.

It is also proposed to enter into an agreement with Enviro-Dredge, a joint venture of OENJ, Walsh Remedial Construction Services, L.L.C., Waste Concepts, Inc., and Great Lakes Dredge and Dock Company, which will provide for the dredging, transport and disposal of harbor sediment as required. Enviro-Dredge proposes to charge a fee of \$49 per cubic yard for a minimum volume of 700,000 cubic yards deposited. If the Port Authority elects prior to November 1, 1996 to have the full 1.3 million cubic yards dredged and deposited, the fee will be reduced to \$45 cubic yard for each cubic yard deposited. For material deposited at the Orion-OENJ site for which dredging has been performed by a contractor other than Enviro-Dredge, Enviro-Dredge will charge a fee of \$45 per cubic yard for a volume of up to 700,000 cubic yards deposited. If the Port Authority elects to use the full 1.3 million cubic yard capacity, the fee will be reduced to \$41 per cubic yard for each yard deposited.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Wilson voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to provide \$5 million to OENJ Corporation (OENJ) as part of the funds needed to construct a critical transportation link in the vicinity of the OENJ MetroMall facilities as an economic development and transportation initiative not part of the Dredging Program authorized by the Board on May 9, 1996, by entering into a contract with OENJ to obtain exclusive use of the dredged material disposal capacity at the Orion-OENJ site in Elizabeth and to assure the availability and use of the capabilities of Enviro-Dredge, of which OENJ is a member, for the dredging, transport and disposal of harbor sediment as required; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to award the necessary dredging and disposal contract to Enviro-Dredge to dredge, transport and dispose of up to 1.3 million cubic yards of sediment at the Orion-OENJ site for the Port Authority's direct use or for the use of other harbor interests as required (including by assignment of the contract), on a work order basis, with compensation to Enviro-Dredge as set forth above; b) order extra work up to eight percent of the amount of the proposal accepted and order net cost work; and c) execute other contracts and supplemental agreements to effectuate the work with such contractors as he deems in the best interest of the Port Authority; and to order extra and net cost work in connection with each contract, including supplemental agreements thereto; and it is further

RESOLVED, that the form of the contracts shall be subject to the approval of General Counsel or his authorized representative.

PORT AUTHORITY PARTICIPATION IN THE ENVIRONMENTAL PROTECTION AGENCY'S ENERGY STAR AND WASTE WISE PROGRAMS

The Energy Star Program sponsored by the United States Environmental Protection Agency (EPA) is designed to encourage businesses to purchase energy efficient office equipment meeting EPA's Energy Star guidelines. EPA's Waste WISE Program aims to promote a reduction in business solid waste.

Participants in the Energy Star Program sign an agreement with EPA setting forth their commitment to purchase office equipment which saves energy, produces less heat and emits less pollution when purchase of such equipment is cost effective and meets operational needs. The Port Authority currently purchases such equipment when the cost and operational criteria are met.

Waste WISE Program participants sign an agreement with EPA under which they agree to identify goals in the area of waste reduction, recycling and the purchase of recycled products.

Neither program entails a penalty for failure to meet goals and participants can leave either program at any time. In return for participation, EPA provides technical assistance and publicizes successful energy/waste reduction efforts.

These programs will result in reduced pollution and energy consumption, reduce agency operating costs, establish a focus for coordinating Port Authority pollution prevention efforts agency-wide and provide favorable publicity for Port Authority accomplishments.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Wilson voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into agreements with the United States Environmental Protection Agency to enable Port Authority participation in the Environmental Protection Agency's Energy Star and Waste WISE Programs; and it is further

RESOLVED, that the form of any documents necessary to effectuate such shall be subject to the approval of General Counsel or his authorized representative.

**AGREEMENT WITH OMNIPOINT COMMUNICATIONS, INC. FOR RELOCATION
OF THE PORT AUTHORITY'S AIRPORTS - WORLD TRADE CENTER
MICROWAVE SYSTEM**

In April 1995, the Federal Communications Commission (FCC) completed the process of awarding the first Personal Communications Services (PCS) licenses to various communications companies throughout the United States. PCS is an enhanced wireless communications service that provides high speed data transmission and extensive network intelligence, allowing a user to possess a single handset and telephone number that can be used in commercial, office, mobile and home environments.

Along with the PCS licenses came the responsibility of relocating (i.e., moving to an alternate frequency band) existing microwave licensees from the 2 GHz band, which the FCC allocated for PCS services. The Port Authority's System, consisting of three point-to-point microwave links that provide critical voice and data communications between the World Trade Center and the three major airports, currently operates in the 2 GHz band. Sprint Spectrum L.P., using the name WirelessCo at the time, was awarded the frequencies interconnecting the World Trade Center and Kennedy International Airport, and Omnipoint Communications, Inc. was awarded the frequencies for the microwave links to LaGuardia and Newark International Airports.

Staff approached voluntary negotiations with the goal of negotiating an arrangement with one of the two licensees to relocate the entire System so as to provide for single vendor responsibility and accountability. Following a period of negotiations by staff with Sprint Spectrum and Omnipoint, which included the submission of a series of technical and financial proposals and a best and final offer by each new licensee, Omnipoint clearly emerged as the vendor of choice.

Under the proposed Agreement, Omnipoint will provide the Port Authority with a full replacement system valued at \$1.1 million, including a 525% increase in capacity; new microwave radios, multiplexers, antenna systems and power equipment; a new microwave radio remote monitoring system; a full complement of test and spare equipment; construction of a microwave equipment shelter in Building 14 at John F. Kennedy International Airport at an estimated cost of \$100,000; and maintenance and operational training. In addition, Omnipoint will assume all costs for the interim transition to leased fiber facilities until completion of installation and testing of permanent facilities, which is planned to occur by the end of November 1996, but in no event later than May 1977. Finally, as an incentive for timely relocation, Omnipoint will provide the Port Authority with a cash payment of \$2 million if the existing 2 GHz microwave links are permanently turned off on or about October 1, 1996 as well as 25 Omnipoint PCS phones and free local service for ten years, up to 500 minutes per month per phone, at an estimated value of \$760,000.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Wilson voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Omnipoint Communications, Inc. under which Omnipoint shall relocate the Port Authority's 2 GHz Airport-World Trade Center Microwave System to an alternate frequency band and provide the Port Authority with a full 11 GHz replacement system and other incentives as set forth above, having an estimated aggregate value of \$3,960,000; and it is further

RESOLVED, that the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

SETTLEMENT OF CLAIM - JOSEPH ASARO, AS EXECUTOR OF THE LAST WILL AND TESTAMENT OF MELCHIORRE CHIARENZA AND MARIA CHIARENZA V. THE PORT AUTHORITY OF NEW YORK AND NEW JERSEY, ET ANO.

It was recommended that General Counsel be authorized to enter into a settlement with Joseph Asaro, as Executor of the Last Will and Testament of Melchiorre Chiarenza and Maria Chiarenza, and their attorney, in the amount of \$250,000 inclusive of attorney's fees, interest, costs, disbursements, and any and all liens in exchange for a general release and stipulation of discontinuance with prejudice.

This settlement will fully resolve the claim of the Estate of plaintiff's decedent and his widow for damages arising out of an incident on September 17, 1992 on West Street in Manhattan when the decedent was struck by a Port Authority owned and operated vehicle. As a result, he was hospitalized for approximately one and a half months and underwent numerous surgeries including removal of his kidney, and insertion of metal rods into his right leg. He died approximately fourteen months post-accident due to cancer not related to this action.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Wilson voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to settle the pending action entitled Joseph Asaro, as Executor of the Last Will and Testament of Melchiorre Chiarenza and Maria Chiarenza v. The Port Authority of New York and New Jersey, et ano., for the total amount of \$250,000 inclusive of attorney fees, costs and disbursements, and any and all liens by paying said amount to the Estate of plaintiff's decedent, his widow, and their attorney in exchange for a general release and stipulation of discontinuance with prejudice, in full settlement of the claim.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period June 1, 1996 to July 31, 1996.

CONTRACT NUMBER	CONTRACT TITLE FACILITY AND NAME OF CONTRACTOR	TOTAL AUTHORIZED	TOTAL PAYMENT

INVESTMENTS, DEPOSITS, INTEREST RATE EXCHANGE CONTRACTS AND VARIABLE RATE MASTER NOTE PLACEMENTS

REPORT C: In addition to the transactions described in Report A and B, the Executive Director also reports the following transactions during the period June 1, 1996 through June 30, 1996 pertaining to the execution or cancellation of Interest Rate Exchange Contracts pursuant to the guidelines established by the Board of Commissioners on December 10, 1992.

Interest Rate Exchange Contracts

<u>Date</u>	<u>Counterparty</u>	<u>Notional Amount</u>	<u>Start Date</u>	<u>Termination Date</u>	<u>Fixed Interest Rate Paid</u>	<u>Variable Interest Rate Received</u>
-------------	---------------------	----------------------------	-----------------------	-----------------------------	---	--

No new transactions this period.

As of June 30, 1996, the Port Authority has interest rate exchange contracts in place on notional amounts totaling \$780.8 million, including \$385.8 million pertaining to refundings and \$110.0 million of reversals.

REPORT D: In addition to the transactions described in Report A, B and C, the Executive Director also reports the following transactions during the period June 1, 1996 through June 30, 1996 under the Variable Rate Master Note Program as amended and supplemented through October 13, 1994.

Variable Rate Master Note Placements

<u>Date of Issuance</u>	<u>Amount</u>	<u>Purchaser</u>	<u>Term</u>	<u>Variable Rate Index</u>
---------------------------------	---------------	------------------	-------------	--------------------------------

No new transactions this period.

Report E: In addition to the transactions described in Report A, B, C, and D, the Executive Director also reports the following activity under the Futures Program authorized by the Board of Commissioners on December 10, 1987, during the period April 1, 1996 through June 30, 1996 involving the use of the Municipal Bond Futures Contracts (Muni) and the United States Treasury Bond Futures Contracts (T-Bond) traded on the Chicago Board of Trade to manage the interest rate exposure on the future issuance of Consolidated Bonds and Notes.

Hedge for Consolidated Bonds:

<u>Date</u>	<u>Action</u>	<u>Number of Contracts</u>	<u>Contract</u>	<u>Short Position</u>	<u>Cumulative Gains/(Losses) on Series Hedge*</u>	<u>Amount of Prospective Port Authority Debt Hedged</u>	<u>Estimated (Increase)/Decrease in Borrowing Costs on Portion of Debt Hedged</u>
-------------	---------------	----------------------------	-----------------	-----------------------	---	---	---

No outstanding Hedge during the 2nd Quarter 1996.

Report A: Pursuant to investment policies adopted by the Committee, the Executive Director reports that he has authorized the following security transactions during the period July 1, 1996 through July 31, 1996.

Purchase of Port Authority Bonds

(Unless otherwise noted, all Port Authority Bonds are callable at par).

Matthew Greene, United Transportation Union representative
Karen Kennedy, Office of the Governor of New Jersey
Karen Szczepanski, Chair, Port Authority and PATH Labor Councils

(Board - 10/17/96)

The public meeting was called to order by Chairman Eisenberg at 2:09 p.m. and ended at 2:24 p.m. The Board also met in executive session on September 12, 1996, September 26, 1996 and prior to today's public meeting.

Action on Minutes

The Secretary submitted for approval Minutes of the meeting of September 12, 1996. She reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. She reported further that the time for action by the Governors of New York and New Jersey has expired.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Audit Committee

The Audit Committee submitted a report, for information, of matters discussed in executive session at its meetings on September 30, 1996 and October 17, 1996, which included discussion of internal audit matters. The Committee has advised, in consultation with the Chairman and Vice-Chairman of the Port Authority, that staff not proceed in connection with actions authorized in an item appearing on pages 214-215 of the Minutes of the meeting of May 9, 1996, and the report was received.

Report of Committee on Operations

The Committee on Operations submitted a report, for information, of action taken and matters discussed in executive session at its meeting on September 26, 1996, which included a discussion of contract and lease matters, and the report was received.

Report of Committee on Construction

The Committee on Construction submitted a report, for information, of matters discussed in executive session at its meeting on September 26, 1996, which included a discussion of contract matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Capital Programs and Port Planning

The Committee on Capital Programs and Port Planning submitted a report, for information, of matters discussed in executive session at its meetings on September 26, 1996, and October 10, 1996, which included a discussion of matters which could affect the competitive economic position of the Port Authority, the port district and businesses with whom we deal, and the report was received.

Report of Committee on Finance

The Committee on Finance submitted a report, for information, of matters discussed in executive session at its meeting on October 17, 1996, which included a discussion of matters related to, or which could impact upon, the issuance, sale, resale or redemption of Port Authority bonds, notes and other obligations, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Member of Assembly Daniel Feldman of New York, Matthew Greene of the United Transportation Union, and Karen Szczepanski, Chair of the Port Authority and PATH Labor Councils, addressed the Board.

(Board Calendar - 10/17/96)

**JOHN F. KENNEDY INTERNATIONAL AIRPORT - SOUTHWEST QUADRANT
TAXIWAY IMPROVEMENT PROJECT - PLANNING AND PROJECT
AUTHORIZATION**

In recent years, airplane congestion and departure delays in the Southwest Quadrant of John F. Kennedy International Airport have increased during the peak summer travel period due to increased aircraft movements in the area. The delays, which are most pronounced during severe summer weather conditions, have raised serious concerns on the part of the airport community, including the Air Transport Association of America (ATA) and the Federal Aviation Administration (FAA), because of their cost and schedule impact. Working with the FAA and ATA, staff has reviewed a series of taxiway improvement options to mitigate the congestion that occurs when Runway 13R is used by departing aircraft during bad weather. The proposed project will implement the alternative that was agreed upon as the most cost effective solution to improve traffic flow.

The project provides for the construction of a new 100-foot wide taxiway section located 490 feet east of and parallel to Taxiway "PD". This addition to the taxiway system in the Southwest Quadrant provides for enhanced queuing capacity and improved mobility for aircraft intending to take off from Runway 13R. The project will reduce aircraft delay time and aircraft direct operating costs during the summer peak travel season by an estimated \$3 million annually. Project planning Stages II and III will be conducted in late 1996 and early 1997, with a request for Executive Director authorization for Stage IV contract award planned for Spring 1997.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philiposian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that a project for the construction of taxiway improvements on the northwest end of Runway 13R at John F. Kennedy International Airport at an estimated total project cost of approximately \$7.2 million, including payments to contractors, allowances for extra work and net cost work, planning, engineering, administrative and financial expenses, and a project contingency, be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to a) take action with respect to purchase and construction contracts and contracts for professional and advisory services related to the foregoing project as he deems in the best interest of the Port Authority, including, without limitation, award to the lowest bidder, who, in his opinion is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable; rejection of all bids, solicitation of new bids on revised or the same requirements, or negotiation with one or more bidders or other contractors; and b) execute contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work and net cost work in connection with each contract, including

supplemental agreements thereto; and c) to enter into such other agreements as may be necessary to effectuate the project; and it is further

RESOLVED, that the form of the contracts and agreements shall be subject to the approval of General Counsel or his authorized representative.

(Board - 10/17/96)

**JOHN F. KENNEDY INTERNATIONAL AIRPORT - LEASE AGREEMENT WITH
WENDY'S INTERNATIONAL, INC. FOR THE DEVELOPMENT OF A NEW
RESTAURANT FACILITY**

It was recommended that the Board authorize the Executive Director to enter into an approximately nineteen-year lease with Wendy's International, Inc. covering approximately one acre of land at John F. Kennedy International Airport. The lease would provide for the design, construction and operation of a new restaurant facility on a presently vacant site. The Port Authority shall provide \$150,000 toward the cost of site preparation.

The rentals will be based on a percentage of gross sales, with the Port Authority receiving an annual guaranteed rent subject to escalation at prescribed intervals throughout the term of the lease. After each of the tenth and fifteenth year of the term, the lessee shall have the option to extend the term for an additional five-year period and four-year period, respectively. The rent commencement date shall be the later of the date construction is completed or nine months after the lease commencement date.

Upon termination of the lease without cause by the Port Authority, the Port Authority will be obligated to reimburse the lessee for the unamortized portion of its investment up to \$1.3 million, amortized over nineteen years on a straight line basis. Moreover, in such event, the Port Authority will agree not to use the site as a food facility for the succeeding three years.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Wendy's International, Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

(Board - 10/17/96)

**JOHN F. KENNEDY INTERNATIONAL AIRPORT - AMENDMENT OF LEASE WITH
JAPAN AIRLINES MANAGEMENT CORP. - EMPLOYEE FOOD FACILITIES**

It was recommended that the Board authorize the Executive Director for and on behalf of the Port Authority to enter into an agreement amending Lease AYB-970 with Japan Airlines Management Corp. (JMC) in order to rebid the contract for the provision of employee food services at Building No. 14 at John F. Kennedy International Airport and create a more cost-effective business arrangement between JMC and the Port Authority.

JMC will continue to be obligated to secure an operator for the employee food services facility at Building 14. The contract between JMC and the cafeteria operator will be terminable without cause on 30 days' notice. As amended, the lease would provide that the cafeteria contractor would operate the cafeteria on its own account, retaining any profits and absorbing any deficits. The cafeteria contractor would pay an annual rental fee (fixed or percentage or combination thereof) which fee would be shared equally between JMC and the Port Authority. The lease amendment will also provide that both the Port Authority and JMC may choose to deposit, from the fees paid by the cafeteria contractor, an appropriate amount annually into a cafeteria sinking fund, which fund would be used to pay for replacements and repairs to furniture, fixtures and equipment of the cafeteria. The Port Authority and JMC will be jointly responsible for replacements and repairs to furniture, fixtures and equipment of the cafeteria, and may assume utility costs of the cafeteria.

The cafeteria contractor would also be allowed, subject to designation by the Port Authority of vending areas in Building 14, to provide vending services in such Building 14 areas.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Japan Airlines Management Corp. amending and supplementing its lease agreement covering the Building 14 premises at John F. Kennedy International Airport, substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

(Board - 10/17/96)

**JOHN F. KENNEDY INTERNATIONAL AIRPORT - LEASE FOR BUILDING NO. 141
AND RELATED SOUTH SIDE AREA**

It was recommended that the Board authorize the Executive Director to enter into an eighteen-year lease with a developer to be selected by the United States General Services Administration (GSA) and covering approximately ten acres at John F. Kennedy International Airport. The lease is contingent upon the developer being awarded a lease by GSA for a new office facility for the Federal Aviation Administration. The term would be extended up to four years in the event the Port Authority's lease of the New York City air terminals is extended.

The rentals will be subject to escalation at prescribed intervals throughout the term of the lease. In addition, if a leasehold mortgage is required in connection with any tenant financing, additional rent would be required.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with a developer to be selected by the United States General Services Administration, substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

(Board - 10/17/96)

**TETERBORO AIRPORT - JOHNSON CONTROLS WORLD SERVICES INC. AND
JET AVIATION OF AMERICA, INC. - VARIOUS AGREEMENTS**

It was recommended that the Board authorize the Executive Director to enter into agreements with Johnson Controls World Services Inc. (Johnson Controls), the present operator of Teterboro Airport (Airport) under an agreement due to expire on December 31, 1999, and Jet Aviation of America, Inc. (Jet Aviation) to provide the Port Authority's consent and agreement that (i) agreements covering Jet Aviation's existing Airport facilities would be extended at specified fees for a period of approximately twenty years from the date that Jet Aviation commences construction of a new 46,000 square foot hangar on a 2.77 acre site in the South Area of the Airport at a cost of approximately \$8 million and (ii) said agreements would continue on substantially the same terms and conditions directly with the Port Authority or such other airport operator operating the Airport in the event the current Operating Agreement with Johnson Controls is terminated or expires. Total annual fees under Jet Aviation's agreements would be subject to annual Consumer Price Index escalation.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philiposian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into various agreements with Johnson Controls World Services Inc. and Jet Aviation of America, Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreement in each instance shall be subject to the approval of General Counsel or his authorized representative.

THE WORLD TRADE CENTER - EXCO PLC. - LEASE AGREEMENT

It was recommended that the Board (1) authorize the Executive Director to (a) enter into a lease agreement with Exco Plc. (Exco) for a term of between fifteen and seventeen years covering the letting of the entire 92nd floor and part of the 91st floor of One World Trade Center (WTC) consisting of approximately 66,000 rentable square feet; (b) enter into a brokerage agreement with Jones Lang Wootton USA in connection with the lease agreement; and (c) enter into an agreement providing for an assignment or other assumption of Exco's current lease agreement at 199 Water Street, New York, N.Y.; (2) delegate to the Committee on Operations the authority to approve the final terms and conditions of an agreement with a brokerage firm covering the disposition of Exco's existing lease obligations; and (3) delegate to the Committee on Operations the authority to approve the final terms and conditions of the entire arrangement with Exco in the event they are not substantially in accordance with those outlined below.

Exco is a securities and money market broker headquartered in the United Kingdom and operating branch offices in the United States. It currently leases space at 199 Water Street.

The aggregate basic rental during the lease term will be approximately \$31 million. The Port Authority would pay a brokerage commission to Jones Lang Wootton USA in connection with the leasing of the portion of the premises on the 91st floor of One WTC calculated in accordance with the rates authorized by the Board at its meeting of August 11, 1977. Exco would be granted the option to extend the term of the letting for an additional five-year period. The Port Authority would pay Edward S. Gordon and Company, Incorporated (Gordon) a brokerage commission in connection with the leasing of the 92nd floor of One WTC, such commission to be calculated in accordance with the agreement making Gordon the Port Authority's exclusive agent for certain space in One WTC that includes the 92nd-floor portion of Exco's space.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philiposian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that (1) the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to (a) enter into a lease agreement with Exco Plc. (Exco) for a term of between fifteen and seventeen years covering the letting of the entire 92nd floor and part of the 91st floor of One World Trade Center consisting of approximately 66,000 rentable square feet; (b) enter into a brokerage agreement with Jones Lang Wootton USA in connection with the lease agreement; and (c) enter into an agreement providing for an assignment or other assumption of Exco's current lease agreement at 199 Water Street, New York, N.Y.; (2) the Committee on Operations be and it hereby is authorized to approve the final terms and conditions of an agreement with a brokerage firm covering the disposition of Exco's existing lease obligations; and (3) the Committee on Operations be and it hereby is authorized to approve the final terms and

conditions of the entire arrangement with Exco in the event they are not substantially in accordance with those outlined above; the form of agreement in each instance shall be subject to the approval of General Counsel or his authorized representative.

(Board - 10/17/96)

THE WORLD TRADE CENTER - GRUNTAL & CO., INCORPORATED - LEASE AGREEMENT

It was recommended that the Board 1) authorize the Executive Director to: a) enter into a lease agreement with Gruntal & Co., Incorporated (Gruntal), covering the letting of approximately 271,300 rentable square feet of office space on floors 25 through 30 of One World Trade Center and up to approximately 10,000 rentable square feet of subgrade storage space for a term of approximately 21 years; b) take such actions as may be necessary to perform base building work in connection with the lease agreement; and c) enter into a brokerage agreement with Williams Real Estate Co. Inc. in connection with the lease agreement providing for the payment of a commission not exceeding an amount calculated in accordance with the rates authorized by the Board at its meeting of August 11, 1977; 2) delegate to the Committee on Operations the authority to approve the final terms and conditions of agreements with existing tenants on the 29th floor of One World Trade Center to provide for the relocation of their offices in order to make the space available for leasing to Gruntal; and 3) delegate to the Committee on Operations the authority to approve the final terms and conditions of one or more agreements with brokerage firms relating to the disposition of the remaining portions of Gruntal's existing leases at 77 Water Street and 717 Fifth Avenue, New York, N.Y., all as outlined herein.

The aggregate basic rental payable by Gruntal for the office space over the term of the lease agreement is approximately \$170 million.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that (1) the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, (a) to enter into a lease agreement with Gruntal & Co., Incorporated, (b) to take such actions as may be necessary to perform base building work in connection with the lease agreement, and (c) to enter into a brokerage agreement with Williams Real Estate Co. Inc. in connection with the lease agreement; and (2) the Committee on Operations be and it hereby is authorized to approve the final terms and conditions of agreements providing for the relocation of certain existing tenants of space at The World Trade Center to be leased to Gruntal, and (3) the Committee on Operations be and it hereby is authorized to approve the final terms and conditions of agreements with brokerage firms relating to the disposition of the remaining portions of two of Gruntal's existing leases; substantially in accordance with the terms and conditions outlined above; the form of the agreement or agreements in each instance shall be subject to the approval of General Counsel or his authorized representative.

THE WORLD TRADE CENTER - DUKE AND COMPANY - LEASE AGREEMENT

It was recommended that the Board authorize the Executive Director to enter into a lease agreement (the Lease) with Duke and Company (Duke) covering the letting of approximately 48,500 rentable square feet of space at The World Trade Center (WTC) consisting of the entire 94th floor of One WTC for an approximate fifteen year term.

Duke is an investment banking and securities brokerage firm that trades securities listed on the New York and American Stock Exchanges, as well as Over the Counter issues.

The proposed Lease would be for a term commencing on or about November 1, 1996 and expiring on the day preceding the fifteenth anniversary of the date payment of rental commences under the Lease. Duke will pay an aggregate rental for the premises of approximately \$20 million. Duke will pay its proportionate share of any increases in operating and maintenance costs over the costs and expenses for the 1997 base year and will pay increases in payments in lieu of taxes as provided in the Lease. The Port Authority will provide Duke with a construction allowance, and a specified amount of overtime HVAC service during the term of the Lease. Duke will also be granted subletting, expansion, termination, and renewal rights, as specified in the Lease.

The Port Authority will pay a brokerage commission to Edward S. Gordon and Company Incorporated (Gordon) as the Port Authority's exclusive agent for the premises. In accordance with the Port Authority's existing agreement with Gordon, Gordon will be responsible for payment of a commission to Koll Management Services, the outside broker involved in the transaction.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Duke and Company covering space at The World Trade Center, substantially in accordance with the terms and conditions outlined above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**PORT AUTHORITY BUS TERMINAL - STATE NEWS CORNER CARD SHOP, INC. -
LEASE AGREEMENT**

It was recommended that the Board authorize the Executive Director to enter into a lease agreement (the Lease) with State News Corner Card Shop, Inc. (State News) covering the construction and operation of a card and gift shop for the sale of greeting cards, stationary, and related items on the second floor at the crossover between the North and South Wings of the Port Authority Bus Terminal (PABT).

State News, presently a sublessee of the Hallmark Marketing Corporation, has operated at the PABT since 1986, providing quality service. This Lease will relocate State News from an area with low pedestrian traffic to a highly visible area.

The proposed Lease would be for a term commencing on or about November 1, 1996 and expiring on the day preceding the tenth anniversary of the date payment of rental commences under the Lease. State News will pay a graduated basic rental for the premises plus a percentage rental as provided in the Lease. Payment of rental under the Lease will commence 120 days from the commencement date of the term of the letting under the Lease or upon the commencement of business operations in the premises, whichever occurs first. State News will install all improvements, fixtures and equipment required for its operations in the premises at its sole cost and expense. The Port Authority will remove asbestos from the premises at a cost not to exceed \$40,000. The term of the letting will be subject to termination by the Port Authority, at any time, without cause, on thirty days' notice, in which event State News would be reimbursed for the unamortized portion of its initial capital investment in the premises to the extent that such initial capital investment does not exceed \$200,000.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with State News Corner Card Shop, Inc. covering space at the Port Authority Bus Terminal, substantially in accordance with the terms and conditions outlined above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

(Board - 10/17/96)

THE NEW YORK STATE LINKED DEPOSIT PROGRAM, MANAGED BY EMPIRE STATE DEVELOPMENT - THE PORT AUTHORITY OF NEW YORK AND NEW JERSEY PARTICIPATION

It was recommended that the Board authorize the Executive Director to: (1) make available up to \$2,000,000 to support loans for Port Authority-certified minority, women-owned and small businesses that are awarded Port Authority contract(s); (2) enter into agreements with Empire State Development, the New York State Department of Taxation and Finance and/or other appropriate public entities in connection with the New York State Linked Deposit Program (LDP) (the Port Authority shall not make, guarantee or collateralize any loan. A default by the borrower on a Linked Deposit Program loan will in no way affect the linked deposit agreement between the LDP and the Port Authority), and; (3) enter into agreements with financial institutions as appropriate.

Participation in the Linked Deposit Program will encourage and assist Port Authority-certified minority, women-owned and small businesses within New York State, that are awarded Port Authority contracts, to make investments and undertake eligible projects that will contribute to improved productivity, performance and competitiveness.

The LDP strategically invests public funds to reduce interest rates on bank loans to small businesses. By paying a below-market interest rate on the deposit of governmental funds, participating banks are able to make below-market rate loans to qualified businesses. Since 1994, the LDP has assisted over 184 firms, resulting in the creation of 1,593 new jobs, and the retention of 7,183 jobs in New York State. Based on the size of the Port Authority contracts and contract awards, it is projected that each loan would be in the range of \$200,000 to \$250,000 and not be outstanding for more than two years.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor, Commissioner Gargano abstaining; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to: (1) make available up to \$2,000,000 to support loans for Port Authority-certified minority, women-owned and small businesses that are awarded Port Authority contract(s); (2) enter into agreements with Empire State Development, the New York State Department of Taxation and Finance and/or other appropriate public entities in connection with the New York State Linked Deposit Program (LDP) (the Port Authority shall not make, guarantee or collateralize any loan. A default by the borrower on a Linked Deposit Program loan will in no way affect the linked deposit agreement between the LDP and the Port Authority); and (3) enter into agreements with financial institutions as appropriate; in each case, the form of such agreements shall be subject to approval by General Counsel or his authorized representative.

(Board - 10/17/96)

REGIONAL ALLIANCE FOR SMALL CONTRACTORS, INC. - RENEWAL OF PARTICIPATION

It was recommended that the Board authorize the Port Authority to continue its support of the Regional Alliance for Small Contractors, Inc. (Regional Alliance) with a financial contribution in the amount of \$250,000 for the Regional Alliance's fiscal year beginning October 1, 1996 and ending September 30, 1997. The Port Authority would also provide in-kind services in an amount not to exceed \$20,000 for the purpose of office space at The World Trade Center.

The Regional Alliance has proven to be an effective way to pool public and private resources to provide training programs, access to financial institutions, and assistance and advice to help the growth of minority, women-owned and all small business (M/W/SBE) firms in the region. The Port Authority is utilizing this program to support the M/W/SBE portion of its annual capital program.

Participation in the Regional Alliance was initially authorized by the Board in November 1990, and renewed in February 1992, in June 1993 and 1994, and in February 1995. In November, 1995, the Board authorized \$250,000 in financial assistance and \$40,000 for in-kind services for the Regional Alliance's fiscal year beginning October 1, 1995 and ending September 30, 1996. The Port Authority's 1996 contribution represents approximately 25 percent of the Regional Alliance's 1996 revenues. The recommended 1997 contribution will represent approximately 20 percent of the Regional Alliance's total projected revenues.

The Regional Alliance will continue to provide business support to Port Authority-certified M/W/SBE firms through its Managing Growth classroom series, expert advice on construction management through its Loaned Executive Assistance Program, assist in publicizing upcoming contract opportunities through announcements in various newsletters and through organized events and assist contractors referred by the Port Authority in packaging loan and bond applications. The Fund for the City of New York, a not-for-profit public benefit corporation established by the Ford Foundation, continues to be the financial administrator for the Regional Alliance.

Cash contributions totaling \$990,845 were received from the following organizations for the Regional Alliance's 1996 fiscal year programs:

	<u>Contribution</u>	<u>Percentage of Total</u>
New Jersey Department of Transportation	\$ 399,999	40%
The Port Authority of NY & NJ	250,000	25%
Federal Highway Administration/New Jersey	66,667	7%
Fund-Raising Activities	50,950	5%
Dormitory Authority of the State of New York	50,000	5%
Annual Luncheon (Net Proceeds)	45,000	5%
Managing Growth Classes	37,750	4%
New Jersey Economic Development Authority	37,500	4%
Empire State Development	20,000	2%
City of Elizabeth, NJ	3,000	0%
Urban Visions/New York City School Construction Authority	2,787	0%
Other Revenue	27,192	3%
TOTAL	\$ 990,845	100%

In-kind contributions from member organizations (inclusive of the Port Authority) in the form of professional services and loaned staff totaled \$549,000.

Cash contributions totaling \$1,244,800 are projected from the following organizations for the Regional Alliance's 1997 fiscal year programs:

	<u>Contribution</u>	<u>Percentage of Total</u>
The Port Authority of NY & NJ	\$ 250,000	20%
Federal Highway Administration/New Jersey	200,000	16%
New York State Department of Transportation	150,000	12%
Hudson Bergen Light Rail Project (Raytheon)	150,000	12%
Proposed Atlantic City Office Operations	150,000	12%
Managing Growth Classes	67,500	5%
New Jersey Economic Development Authority	50,000	4%
Dormitory Authority of the State of New York	50,000	4%
Partnership Dues	50,000	4%
Bronx Overall Economic Development Corp.	47,000	4%
Empire State Development	40,300	3%
Annual Luncheon (Net Proceeds)	35,000	3%
City of Elizabeth, New Jersey	5,000	0%
TOTAL	\$ 1,244,800	100%

Port Authority staff will continue to monitor contract performance and budget and will evaluate the contributions from other participants, on a quarterly basis.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with the Regional Alliance for Small Contractors, Inc. (Regional Alliance) under which the Port Authority would provide funds to the Regional Alliance to help meet the expenses of current and future programs, designed in accordance with the Regional Alliance objectives, in the amount of \$250,000 for the Regional Alliance fiscal year beginning October 1, 1996 and ending September 30, 1997; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to provide in-kind services in an amount not to exceed \$20,000 for the purpose of office space at The World Trade Center; and it is further

RESOLVED, that the form of any agreements necessary to effectuate the above shall be subject to the approval of General Counsel or his authorized representative.

**ACCEPTANCE AND EXPENDITURE OF FEDERAL GRANT FUNDS FOR THE
DESIGN OF A NEW INTERMODAL FERRY TERMINAL AT WEEHAWKEN,
NEW JERSEY**

Ferry service to New York City from Weehawken, New Jersey, has grown in importance as part of the Trans-Hudson network since its inception in 1987. In 1995, approximately 7,400 passengers traveled daily to and from midtown-Manhattan via the services offered at the Weehawken site. The ferry serves passengers primarily originating in Bergen and Hudson Counties in New Jersey and is seen as an alternative for PATH, Lincoln Tunnel and George Washington Bridge commuters.

Ferry service at Weehawken is operated by NY Waterway at a terminal called THE JAMESTOWN. THE JAMESTOWN is a decommissioned ferry boat that is structurally obsolete (built in 1941) and will require a significant investment in the near future merely to maintain its current utility. The terminal cannot be expanded to meet a projected increase in ridership. A projected increase in demand is due to local residential and commercial development in surrounding Hudson and Bergen County communities that is currently underway. Furthermore, the construction of the Hudson-Bergen Light Rail Transit system (HBLRT) is expected to bring up to 80,000 riders a day past the ferry terminal site when it is completed after the year 2000.

The New Jersey Department of Transportation (NJDOT) has indicated a desire to utilize the Port Authority's expertise and engineering ability to design a new intermodal terminal to replace THE JAMESTOWN. This replacement will ensure the continued viability of the existing service, ensure the best design/placement, and accommodate ridership growth from local development and the HBLRT. NJDOT has been granted up to \$1 million from the Intermodal Surface Transportation Efficiency Act - Ferry Boat Discretionary Program (administered by the Federal Highway Administration) for the design of a new, replacement intermodal ferry terminal at Weehawken. NJDOT has requested the Port Authority's Office of Ferry Transportation to act as project manager for the preliminary design of the terminal. The Office of Ferry Transportation was chosen because of its experience and expertise in implementation of ferry transportation systems.

The Port Authority, as project manager for NJDOT, will participate as a member of the project Steering Committee, composed of local planning, community and transportation officials, and will conduct community outreach meetings. The Port Authority will be responsible for the design and environmental/financial analyses of the terminal and project economics. Design services will be provided by Port Authority Engineering Department staff. Specialty technical and other professional services will be secured by solicitation of competitive proposals through an RFP process.

The proposed agreement with NJDOT will provide for reimbursement of the Port Authority's allowable direct and indirect costs.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to a) enter into agreements with the New Jersey Department of Transportation (NJDOT) to accept up to \$1 million of Federal (Intermodal Surface Transportation Efficiency Act - Ferry Boat Discretionary Program) grant funds for the design, including environmental and financial analyses, of an intermodal ferry terminal in Weehawken, New Jersey; and b) authorize the expenditure of such grant funds, including (1) soliciting proposals and taking action with respect to purchase contracts and contracts for professional and advisory services related to the terminal design as he deems in the best interest of the Port Authority including, without limitation, award to the proposer who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose proposal price the Executive Director deems reasonable; rejection of all proposals, solicitation of new proposals on revised or the same requirements, or negotiation with one or more proposers or other contractors; and (2) executing contracts and supplemental agreements with such proposers and contractors as he deems in the best interest of the Port Authority, and the ordering of extra work and net cost work in connection with each contract, including supplemental agreements thereto; and the entering into of such other agreements as may be necessary to effectuate the terminal design; and it is further

RESOLVED, that the form of the agreements and contracts shall be subject to the approval of General Counsel or his authorized representative.

(Board - 10/17/96)

PORT AUTHORITY PARTICIPATION IN THE GREATER LONG ISLAND CLEAN CITIES COALITION - MEMORANDUM OF UNDERSTANDING

The Clean Cities Program is a United States Department of Energy (US DOE) public/private initiative designed to expand the awareness and use of alternatives to gasoline and diesel fuel. US DOE's designation of Long Island as a "Clean City" under the Clean Cities program will make it easier for employers in Long Island to obtain federal grant monies to facilitate their use of alternative fueled vehicles as mandated by the provisions of the Energy Policy Act of 1992 and the 1990 amendments to the Clean Air Act.

As a result of regulations established pursuant to the Energy Policy Act and the Clean Air Act, states, municipalities, vehicular fleet owners (such as the Port Authority), and utilities will be required to include within their new vehicle purchases a certain percentage of alternative fueled vehicles.

The Greater Long Island Clean Cities Coalition will be composed of federal, state, municipal and private entities who will seek a "Clean City" designation and who are interested in promoting the use of alternative fuel vehicles in order to improve air quality and encourage economic growth. Membership does not entail any financial commitments or contractual obligations to the other signatories.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to execute a Memorandum of Understanding with approximately 28 other public and private entities setting forth the terms of participation in the Greater Long Island Clean Cities Coalition; the form of the documents necessary to effectuate such shall be subject to the approval of General Counsel or his authorized representative.

**BUDGET SUPPLEMENTS FOR THE NEWARK INTERNATIONAL AIRPORT MONORAIL
NORTHEAST CORRIDOR (NEC) EXTENSION PROJECT**

On June 6, 1996, the Board authorized a project to implement the Newark International Airport (EWR) Monorail-NEC Connection Project (the Project) at an estimated total project cost of \$250 million and to reimburse the New Jersey Transit Corporation (NJ Transit) up to \$120 million (such amount being part of the \$250 million) for procurement and implementation of the Monorail-NEC Station, and Northeast Corridor (NEC) Gateway track work and signalization necessary for the Project.

In March 1995, the Federal Aviation Administration (FAA) granted Passenger Facility Charge (PFC) "Collection" authority for \$250 million for the Project. In anticipation of receiving PFC "Use" authority from the FAA, the Board authorized, on December 14, 1995, the advance of \$24 million, including \$12 million to NJ Transit, for implementation of the Project.

The application for PFC "Use" authority was submitted to the FAA in April 1996. PFC "Use" authority was expected to be granted by the FAA in August 1996. Due to a policy change by the FAA in processing PFC use applications, FAA approval was delayed and it is currently anticipated that PFC "use" authority will not be granted until the fourth quarter of this year.

Substantial interagency coordination has been established between the Port Authority and NJ Transit. In 1994, the Port Authority entered into an agreement with NJ Transit to jointly advance the preliminary planning of the Project, with the Port Authority responsible for the airport/monorail elements and NJ Transit responsible for all Northeast Corridor related elements. In August 1996, a subsequent agreement with NJ Transit was executed advancing \$12 million to NJ Transit for the provision of engineering services and procurement for the Rail Station/NEC portion of the Project.

In order to advance the Rail Station/NEC portion of the Project pending receipt of PFC "Use" authority, it is necessary that \$48 million in supplemental expenditures be authorized. The \$48 million in additional expenditures requested for the Project would continue to allow NJ Transit to advance the Rail Station/NEC portion of the Project. Expenditures beyond the proposed additional \$48 million bridge funding for the Project will not occur until further Board approval is received. Because of the interconnection of the proposed Monorail to the Northeast Corridor on which NJ Transit operates its passenger rail service, NJ Transit is uniquely qualified to provide the engineering for the Rail Station/NEC portion of the Project.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the advance of additional Port Authority funds of up to \$48 million to New Jersey Transit Corporation for engineering services, Northeast Corridor track work and procurement for the Monorail NEC Extension Project be and the same hereby is authorized; and it is further

(Board - 10/17/96)

RESOLVED, that the form of all agreements to effectuate the transaction shall be subject to approval by General Counsel or his authorized representative.

STATEN ISLAND BRIDGES PROGRAM - MODERNIZATION AND CAPACITY ENHANCEMENT OF THE GOETHALS BRIDGE - INCREASE IN COMPENSATION UNDER AGREEMENT PCA-593-93-CB7-002 WITH PARSONS BRINCKERHOFF QUADE & DOUGLAS FOR EXPERT PROFESSIONAL SERVICES

The Draft Environmental Impact Statement (DEIS) for the modernization and capacity enhancement of the Goethals Bridge was released in May 1995. The subsequent public comment period generated numerous comments (over 70 letters yielding 400 comments were submitted to the United States Coast Guard (USCG)). In order to properly respond to these comments, many of which were substantial in nature, the USCG required additional detailed analyses in the areas of natural resources, archeology, air quality traffic and the examination of alternatives. In addition, the project team in an effort to reduce total project costs and further minimize environmental impacts, made significant modifications to the proposed actions. These included redesigning the toll plaza to include the addition of one toll booth within the existing canopy; shifting the bikeway/walkway from the existing bridge to the new bridge; suggesting reconstructing the Travis Spur railroad bridge; redesigning the construction access road and shifting pier locations to be more environmentally sensitive to the wetlands; and developing a plan for wetlands creation to compensate for the permanent taking resulting from piers in the wetlands. The net result of these modifications reduced overall project costs by over \$40 million. These modifications resulted in the need to refine or reperform a number of analyses conducted in the Draft Environmental Impact Statement (DEIS) stage of the process for inclusion in the Final Environmental Impact Statement (FEIS).

An increase in the total compensation payable under the agreement with Parsons Brinckerhoff Quade & Douglas for expert professional services is required to complete preparation, under the direction of the USCG, of an acceptable FEIS pursuant to the requirements of the National Environmental Policy Act (NEPA) including additional studies and alternative environmental investigations, as required by the USCG and requested by others. This action is also necessary to maintain an implementation schedule which will bring the project on line to meet customer demand as soon as possible, but no later than the year 2001. The remaining estimated timetable for this project includes 10 more months for completing the activities leading to environmental permitting and four years for final design and construction. On February 9, 1995, the Board authorized additional compensation payable under the agreement with Parsons Brinckerhoff Quade & Douglas in the amount of \$700,000, for an estimated total of \$2,726,645. To date \$2,975,529 has been committed. Of the additional \$700,000 now being requested, \$248,884 has already been committed. This requested increase will bring the total authorized compensation to \$3,426,645.

The Goethals Bridge modernization and capacity enhancement project is a key element of the Interstate Network Analysis (INA) study which addresses existing and future-year (2020) major improvements to the Southern, Northern, Midtown, and Downtown Corridors of the Port Authority's Interstate Transportation Network. For the Northern Interstate Corridor, the Port Authority has authorized expenditures for Intelligent Vehicle Highway Systems (IVHS) technology to improve traffic flow on the George Washington Bridge and the Cross Bronx Expressway. In February 1995, the Port Authority's Board of Commissioners authorized \$22.7 million to support the second phase of Stage II planning for

(Board - 10/17/96)

the proposed modernization and capacity enhancement of the Goethals Bridge, including required design work, obtaining a Record of Decision from the USCG, obtaining environmental approvals, permits and licenses, undertaking planning for acquisition of property interests (including, but not limited to, expenditure of funds for title surveys, title reports, title insurance and real estate appraisals) and entering into necessary agreements to effectuate the project.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to increase the total compensation payable under the agreement with Parsons Brinckerhoff Quade & Douglas, Inc. for expert professional environmental services for the modernization and capacity enhancement of the Goethals Bridge by \$700,000, resulting in total authorized compensation of \$3,426,645.

SPECIAL PROJECT BONDS, SERIES 6 AND 7, JFK INTERNATIONAL AIR TERMINAL LLC PROJECT - REPORT

It was reported that on April 25, 1996, as amended on July 11, 1996, the Board authorized the Executive Director to enter into various agreements with an entity to be formed and controlled by the principals of LCOR Incorporated and Schiphol USA Inc. (JFK International Air Terminal LLC), including a lease agreement to effectuate the redevelopment and operation of the international arrivals terminal at John F. Kennedy International Airport.

It was also reported that the lease agreement would provide for the construction by JFK International Air Terminal LLC of a new passenger terminal having approximately 1.4 million square feet on a site of approximately 165 acres at the airport, which is presently occupied in part by the existing international arrivals and wing buildings (Terminal 4). Additionally, the lease would provide that, at the lessee's request, the Authority would consider the issuance of Special Project Bonds in an aggregate principal amount not to exceed \$1.2 billion to provide for certain project costs. Any Special Project Bonds to be issued for these purposes would be issued under and pursuant to the Special Project Bond Resolution adopted by the Board on June 9, 1983, and would only be issued upon request of JFK International Air Terminal LLC for this type of project financing. Debt service on these bonds would be a special obligation of the Authority payable from the sources and to the extent generally as provided in the Special Project Bond Resolution and the Authority's full faith and credit would not be pledged to the payment of such debt service.

It is presently anticipated that the Authority and JFK International Air Terminal LLC would enter into the project agreements in December, 1996, and that JFK International Air Terminal LLC would request that the Authority sell all or a portion of the Special Project Bonds for this project at such time. Additionally, to the extent leveraged lease or other similar transactions with respect to all or any portion of the project may be feasible in the future, the Authority or the Lessee may enter into such transactions which are not inconsistent with the pledges, mortgages, security interest and assignments applicable to the Bonds.

It was recommended, to effectuate the timely issuance of Special Project Bonds for this project, that the Board establish the general terms and conditions of such Bonds, to be known as Special Project Bonds, Series 6 and Series 7, respectively, and that the Committee on Finance be authorized to take various actions to provide for the effectuation of the sale of such Bonds, at the request of JFK International Air Terminal LLC, at public or private sale. In addition, it was recommended that the Executive Director, the Chief Financial Officer, the Treasurer or the Deputy Treasurer be authorized to take any and all actions which may be taken by the Committee on Finance, including the sale of such Bonds on either a competitive or negotiated basis.

A public hearing, consistent with and to the extent provided by the public approval provisions of the Internal Revenue Code of 1986, as amended, was held on October 16, 1996, after public notice published on September 30, 1996 in *The New York Times* and *The Star Ledger*. In pertinent part the notice contained the following description of the Bonds, the facility and the project, "The Port Authority of New York and New Jersey Special Project Bonds, Series 6 and Series 7, JFK International Air Terminal LLC Project, in aggregate principal amount of up to \$1.2 billion, in connection with the costs of or related to the

construction of a new international arrivals passenger terminal, to be operated by JFK International Air Terminal LLC, having approximately 1.4 million square feet on a site of approximately 165 acres (presently occupied in part by the existing international arrivals and wing buildings (Terminal 4)), at John F. Kennedy International Airport, located in the Borough of Queens, City and State of New York".

**SPECIAL PROJECT BONDS, SERIES 6 AND 7, JFK INTERNATIONAL AIR
TERMINAL LLC PROJECT - ESTABLISHMENT AND AUTHORIZATION OF
ISSUANCE**

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

WHEREAS, on June 9, 1983, The Port Authority of New York and New Jersey (hereinafter called the "Authority") adopted the Special Project Bond Resolution (such term and all other terms of special meaning having the meanings ascribed to such terms in or pursuant to Section 1 of this Resolution) providing for the issuance of Special Project Bonds of particular series, from time to time, in conformity with the Special Project Bond Resolution, for certain specified purposes, on the basis that any such Special Project Bonds so issued would not be direct and general obligations of the Authority and would be secured in the manner and be payable from the sources and to the extent set forth in the Special Project Bond Resolution, which Special Project Bond Resolution constitutes a contract with the holders of the Special Project Bonds so issued; and

WHEREAS, the Special Project Bond Resolution provides that Special Project Bonds shall be issued in such series as the Authority may determine, and that the characteristics of the bonds of each such series shall be determined by the Authority pursuant to a particular Special Project Bond Series Resolution, and that such Special Project Bond Series Resolution may contain other terms and provisions not inconsistent with the Special Project Bond Resolution; and

WHEREAS, the Project will provide a new passenger terminal at John F. Kennedy International Airport which will serve or be available on a regular basis for general public use, and the Authority has duly considered issuance of Special Project Bonds in connection with the Project; and

WHEREAS, on April 25, 1996, the Authority adopted a resolution, among other matters, reflecting its intention to issue Special Project Bonds to finance the Project Costs; and

WHEREAS, the Authority has heretofore established certain series of Special Project Bonds for purposes other than with respect to the Project, and has now determined that it is necessary, advisable and in the public interest to establish two series of Special Project Bonds to be issued on a parity basis, secured in the manner and payable from the sources and to the extent provided in or pursuant to the Special Project Bond Resolution and this Resolution, for and in connection with the Project, without prejudice to its right hereafter to establish other and additional series of Special Project Bonds for purposes with respect to the Project or otherwise; and

WHEREAS, the Lease is to provide, among other items, for and in connection with the construction and operation of a new passenger terminal at John F. Kennedy International Airport by the Lessee, with the issuance, sale and delivery of Special Project Bonds as the financing arrangement for Project Costs; and

WHEREAS, there will be pledged to the payment of Debt Service, the Trust Estate and the Leasehold Mortgage by the Lessee, and in addition thereto JFK International Air Terminal LLC shall also agree in the Guaranty by JFK International Air Terminal LLC that JFK International Air Terminal LLC shall pay Debt Service, when due, as a separate and independent obligation of JFK International Air Terminal LLC;

NOW, THEREFORE, be it resolved by the Authority:

SECTION 1. Definitions.

Unless the context shall clearly indicate some other meaning or may otherwise require, the terms defined in this Section 1 shall, for all purposes of this Resolution and of any resolution amendatory hereof or supplemental hereto and of any certificate, opinion, instrument or document herein or therein mentioned (unless otherwise defined therein), have the meanings specified in this Section 1, with the following definitions to be equally applicable to both the singular and plural forms of any terms defined in this Section 1 and vice versa. Terms of special meaning which are not defined in this Section 1 shall have the meanings specified in Section 1 of the Special Project Bond Resolution (except as herein otherwise expressly provided or unless the context otherwise requires).

The term "Authorized Officer" shall mean any of the officers or employees of the Authority designated as such from time to time by the Chairman of the Authority; Vice Chairman of the Authority; Chairman of the Committee on Finance; Executive Director; Deputy Executive Director; Chief Financial Officer; Treasurer; or Deputy Treasurer of the Authority.

The term "Bond Fund" shall mean the special trust fund established by the Authority under this Resolution for and in connection with the Bonds in accordance with the provisions of the Special Project Bond Resolution, and known as the "Special Project Bonds JFK International Air Terminal LLC Project Bond Fund".

The term "Bondholder" shall mean the registered holder or holders of the Bonds, as determined on the basis of the books and records maintained with respect to the Bonds by the Registrar.

The term "Bonds" shall mean each series of bonds established by and authorized to be issued under this Resolution.

The term "Committee on Finance" shall mean the Committee on Finance of the Board of Commissioners of the Authority.

The term "Construction Fund" shall mean the special trust fund established by the Authority under this Resolution for and in connection with the Bonds in accordance with the provisions of the Special Project Bond Resolution, and known as the "Special Project Bonds JFK International Air Terminal LLC Project Construction Fund".

The term "Debt Service" shall mean the interest payable on the Bonds, and the amounts which the Authority is obligated by agreements with or for the benefit of the

Bondholder to pay or set aside for the amortization, maturity, redemption (including redemption premium, if any) or retirement of the Bonds.

The term "Debt Service Fund" shall mean the special trust fund established by the Authority under this Resolution for and in connection with the Bonds in accordance with the provisions of the Special Project Bond Resolution, and known as the "Special Project Bonds JFK International Air Terminal LLC Project Debt Service Fund".

The term "Facility Rental" shall mean the rental payable by the Lessee as Facility Rental pursuant to the Lease which is, together with any other monies which may be available therefor in the Bond Fund, pledged to pay Debt Service, and, if applicable, shall include the accelerated Facility Rental payable by the Lessee under the Lease.

The term "Governmental Obligations" shall mean (i) direct obligations of the United States of America for the payment of which the full faith and credit of the United States of America is pledged or (ii) obligations issued by any agency controlled or supervised by or acting as an instrumentality of the United States of America, the payment of the principal of and interest on which is fully and unconditionally guaranteed as a full faith and credit obligation of the United States of America (including any securities described in clause (i) or clause (ii) issued or held in book-entry form on the books of the Department of the Treasury of the United States of America).

The term "Guaranty by JFK International Air Terminal LLC" shall mean the guaranty by JFK International Air Terminal LLC to pay Debt Service on the Bonds, when due.

The term "Investment Securities" shall mean those types of securities in which the Trustee is authorized to invest the monies held in the Construction Fund, the Bond Fund, the Debt Service Fund and any fund established pursuant to Section 7(e) of this Resolution.

The term "JFK International Air Terminal LLC" shall mean JFK International Air Terminal LLC, a limited liability company formed under the laws of the State of New York.

The term "Lease" shall mean the agreement of lease pertaining to the Project between the Authority and the Lessee, as the same may from time to time be amended and supplemented.

The term "Leasehold Mortgage by the Lessee" shall mean the mortgage by the Lessee in favor of the Trustee of its interest in the Lease.

The term "Lessee" shall mean JFK International Air Terminal LLC, or its successors or assigns pursuant to the Lease.

The term "Minimum Debt Service Fund Balance" shall mean, as of any date of calculation, the amount of monies and the value of Investment Securities and the other assets required to be on deposit in the Debt Service Fund on such date of calculation in accordance with the provisions of the Special Project Bond Resolution, this Resolution, the Lease and the Trust Indenture.

The term "Personal Property Security Interest by the Lessee" shall mean the security interest granted by the Lessee to the Authority, mortgaged by the Authority in favor of the Trustee, in certain items of personalty of the Lessee located or to be located at the Project and listed on schedules attached or to be attached to the Personal Property Security Interest by the Lessee from time to time.

The term "Project" shall mean the buildings, structures and other improvements in connection with a passenger terminal at John F. Kennedy International Airport and covered by the Lease, including the equipment permanently affixed thereto or permanently located therein, including but not limited to electrical, plumbing, sprinkler, fire protection and fire alarm, heating, steam, sewage, drainage, refrigerating, communications, gas and other systems, and their pipes, wires, mains, lines, tubes, conduits, equipment and fixtures, and all paving, drains, culverts, ditches and catch basins, located or to be located or constructed or to be constructed in connection with the Lease by or on behalf of the Lessee, or necessary or convenient in connection therewith, and any future expansions thereof, the costs of which, including, without limitation, any fees, costs or reserves related to the financing, construction or installation thereof or in connection with the issuance of the Bonds, are to be financed through the issuance of the Bonds.

The term "Project Costs" shall mean the costs as provided in the Lease to be financed or refinanced through the issuance of the Bonds for or in connection with the Project, including, without limitation, any fees, costs or reserves related to the financing, refinancing, construction, installation or future expansion of the Project or in connection with the issuance of the Bonds.

The term "Resolution" shall mean this Special Project Bond Series Resolution adopted October 17, 1996, entitled "*Special Project Bonds, Series 6 and 7, JFK International Air Terminal LLC Project - Establishment and Authorization of Issuance*", including any amendments, modifications or supplements to this Resolution.

The term "Special Project Bond Resolution" shall mean the resolution of the Authority adopted June 9, 1983, entitled "*Special Project Bonds - Establishment of Issue*", including any amendments, modifications or supplements thereto.

The term "Special Project Bond Series Resolution" shall mean the resolution adopted by the Authority establishing and authorizing a particular series of Special Project Bonds.

The term "Special Project Bonds" shall mean bonds of the issue established by the Special Project Bond Resolution, of which the Bonds are each a series.

The term "Trust Estate" shall mean all rights, title and interest of the Authority in and to (i) the Facility Rental; (ii) all amounts on deposit from time to time in the Construction Fund (to the extent not disbursed or otherwise disbursable as provided in the Lease), the Bond Fund, the Debt Service Fund and any fund established pursuant to Section 7(e) of this Resolution, subject to the provisions of this Resolution, the Special Project Bond Resolution, the Trust Indenture and the Lease, permitting the application thereof for the purposes and on the terms and conditions set forth in this Resolution, the Special Project Bond Resolution, the Trust Indenture and the Lease; (iii) the Personal Property Security Interest by

the Lessee; and (iv) any assets of the Lessee (other than those described in clause (iii) above) in which the Authority is granted a security interest by the Lessee to the extent of such security interest granted by the Lessee.

The term "Trust Indenture" shall mean the Trust Indenture between the Authority and the Trustee specifying the rights, responsibilities and duties of the Trustee and providing for the mortgage, pledge and assignment by the Authority of the Trust Estate in favor of the Trustee, as the same may from time to time be amended and supplemented.

The term "Trustee" shall mean the Trustee appointed under Section 9 of this Resolution by the Authority pursuant to the Special Project Bond Resolution for and in connection with the Bonds, and any successor Trustee appointed in accordance with the foregoing.

SECTION 2. Establishment and Issuance of and Security for the Bonds.

(a) General Provisions with Respect to the Establishment and Issuance of the Bonds.

Each of "The Port Authority of New York and New Jersey Special Project Bonds, Series 6, JFK International Air Terminal LLC Project" and "The Port Authority of New York and New Jersey Special Project Bonds, Series 7, JFK International Air Terminal LLC Project" is established as a separate series of Bonds, to be issued in conformity with the provisions of the Special Project Bond Resolution and this Resolution, in an aggregate principal amount of up to One Billion Two Hundred Million Dollars (\$1,200,000,000) at any one time outstanding; *provided, however*, that the total aggregate principal amount of all of the Bonds shall not exceed One Billion Two Hundred Million Dollars (\$1,200,000,000) at any one time outstanding. This Resolution shall apply with equal force and effect to each of such series on an individual basis. The Bonds are to be secured on a parity basis, in the manner and shall be payable from the sources and to the extent provided in or pursuant to the Special Project Bond Resolution, this Resolution, the Lease, the Trust Indenture, the Leasehold Mortgage by the Lessee, the Personal Property Security Interest by the Lessee and the Guaranty by JFK International Air Terminal LLC. The issuance of the Bonds is determined to be necessary to accomplish the purposes for which the Bonds are to be issued -- to wit, to provide for the financing and/or refinancing of Project Costs.

(b) Security for the Bonds.

The payment of Debt Service on the Bonds, regardless of the dates of their issuance or maturity, shall be separately secured equally and ratably by (i) a mortgage by the Authority, in favor of the Trustee, of the Facility Rental; (ii) the Leasehold Mortgage by the Lessee; (iii) the Personal Property Security Interest by the Lessee; (iv) the assets of the Lessee encompassed by clause IV of the Trust Estate under the Trust Indenture; and (v) the Guaranty by JFK International Air Terminal LLC. The Authority hereby reaffirms that and the Facility Rental is hereby irrevocably mortgaged by the Authority in favor of the Trustee, and pledged to the payment, when due, of Debt Service, subject, however, to the provisions of this Resolution, the Special Project Bond Resolution, the Lease and the Trust Indenture relating

to the application of funds in the Construction Fund, the Bond Fund, the Debt Service Fund and any fund established pursuant to Section 7(e) of this Resolution.

The Bonds shall constitute special limited obligations of the Authority payable by the Authority solely from the revenues and other sources pledged, mortgaged and assigned by the Authority in the Special Project Bond Resolution, this Resolution and the Trust Indenture and shall not constitute general obligations of the Authority or of either of the States of New York or New Jersey, or of any municipality or subdivision of either of the States of New York or New Jersey, and neither the full faith and credit of the Authority nor any of its revenues, assets or reserve funds (other than Facility Rental, the Construction Fund, to the extent not disbursed or otherwise disbursable as provided in the Lease, the Bond Fund, the Debt Service Fund, any fund established pursuant to Section 7(e) of this Resolution, the Personal Property Security Interest by the Lessee and the assets of the Lessee encompassed by clause IV of the Trust Estate under the Trust Indenture) are pledged or shall be deemed to be pledged by the Authority in any manner whatsoever for the payment of Debt Service or for the fulfillment of any obligation which the Authority has assumed or may hereafter assume to or for the benefit of the Bondholders.

In the event that all or a portion of the Bonds shall be deemed to be paid in accordance with the provisions of Section 10(a) of this Resolution from the proceeds of a series of Refunding Bonds, then and in that event the same pledges, mortgages, security interests and assignments applicable to the Bonds may be extended to the Refunding Bonds in the Special Project Bond Series Resolution pertaining to the Refunding Bonds, and the Trustee shall execute such documents as may reasonably be required by the Authority acting at the request of the Lessee to accomplish such purpose.

(c) **Additional Series of Special Project Bonds for the Project.**

The Authority may, from time to time, establish and authorize the issuance and sale of additional series of Special Project Bonds for purposes of the Project on a parity basis with the Bonds, and the same pledges, mortgages, security interests and assignments applicable to the Bonds may be extended to each of such additional series in the Special Project Bond Series Resolution pertaining to such series, and the Trustee shall execute such documents as may reasonably be required by the Authority acting at the request of the Lessee to accomplish such purposes.

(d) **Leveraged Lease or Other Similar Transactions.**

The Authority or the Lessee may enter into leveraged lease or other similar transactions with respect to all or any portion of the Project which are not inconsistent with the pledges, mortgages, security interests and assignments applicable to the Bonds.

SECTION 3. General Terms and Provisions of the Bonds.**(a) General.**

The Bonds shall be issued in one or more installments as the Committee on Finance may hereafter determine, and in connection with the issuance of the Bonds, the Committee on Finance is authorized prior to the issuance of each installment of the Bonds (i) to establish the date as of which such installment shall be dated; (ii) to establish, adjust or change the provisions relating to the rate or rates of interest to be borne by such installment and to the payment of interest on such installment; (iii) to establish the date or dates (in the event such installment is comprised in whole or in part of serial maturities) at which any of such installment shall mature; (iv) to adjust or change the medium of payment for such installment; (v) to establish, adjust, change or rescind the redemption, retirement and call provisions relating to such installment; (vi) to provide for such installment to be issued on original issuance as registered bonds or as book-entry only securities, in either case, subject to a book-entry system for determining interests therein, with such adjustments and changes in the provisions of this Resolution as in the opinion of the Committee on Finance are appropriate to effectuate such issuance of such installment; (vii) at the request of the Lessee, to rescind the provisions pertaining to the Debt Service Fund set forth in this Resolution as such provisions pertain to such installment and provide that such installment shall not be payable from or otherwise secured by the Debt Service Fund, if any, established for the Bonds; (viii) to provide for such installment to be separately registrable as to principal and interest (including any authorized incremental interest) to any one or more Bondholders or holders of certificates (if any) with respect to the payment of interest thereon; (ix) to establish the authorized denomination or denominations of such installment; (x) to establish events, in addition to those set forth in Section 5 of this Resolution, the occurrence of which shall require the extraordinary mandatory redemption, in whole or in part, of such installment; and (xi) to take such other action as in the opinion of the Committee on Finance will best serve the public interest.

(b) Form and Places of Payment.

Unless otherwise determined by the Committee on Finance, Debt Service shall be payable in lawful money of the United States of America; principal of the Bonds shall be payable upon presentation and surrender thereof by the Bondholders, at the office or offices, designated by the Authority, of the Paying Agent or Paying Agents, in a county which is in whole or in part in the Port District; and interest on the Bonds shall be payable when due to the Bondholders by check or draft drawn on the Paying Agent or Paying Agents and mailed to the Bondholders.

(c) Effect of Saturdays, Sundays and Legal Holidays.

If the date for payment of Debt Service, or the date fixed for maturity or redemption of any of the Bonds shall be a Saturday, a Sunday, a legal holiday or a day on which banking institutions within the Port District are required or authorized by law to remain closed, then such payment or redemption may be made on the next succeeding business day not a Saturday, a Sunday, a legal holiday or a day on which banking institutions within the Port District are required or authorized by law to remain closed, with the same force and effect as if done on the nominal date provided in this Resolution.

(d) **Form and Denominations of the Bonds; Registrar; Books of Registry.**

Unless otherwise determined by the Committee on Finance, the Bonds shall be issued only in registered form, registered as to both principal and interest and not as to either alone, in authorized denominations.

The Authority will keep or cause to be kept at the offices, designated by the Authority, of its Registrar appointed for that purpose, in a county which is in whole or in part in the Port District, proper and sufficient books for the registration of the Bonds.

(e) **Transfer and Exchange of the Bonds.**

Each bond issued under this Resolution shall be transferable by the Bondholder thereof in accordance with the provisions of this Resolution, only upon the books for registration of the Bonds kept pursuant to Section 3(d) of this Resolution.

Upon the written request of the Bondholder and upon surrender of a bond or bonds, such bond or bonds may be exchanged for a bond or bonds of like tenor of any other authorized denominations, registered as designated in such request.

All requests for the registration, transfer, exchange and delivery pertaining to any of the Bonds shall be filed with the Registrar; all bonds to be surrendered pursuant to such requests shall be surrendered to the Registrar; and all bonds delivered in exchange as aforesaid shall be delivered by the Registrar. All bonds surrendered to the Registrar in exchange for other bonds or for transfer shall be cancelled by the Registrar upon such surrender.

All costs incurred by the Authority in connection with the registration, authentication (if any), transfer, cancellation, exchange and delivery of any of the Bonds, including such fees as may be imposed by the Registrar for such services performed by the Registrar as provided in this Resolution, shall be borne by the Lessee, except to the extent provided in Section 3(f) of this Resolution.

Nothing contained in this Resolution shall be deemed to authorize the execution and delivery of bonds except in authorized denominations.

(f) **Mutilated, Lost or Destroyed Bonds.**

In case any bond issued under this Resolution shall at any time become mutilated or be lost or destroyed, the Authority, in its discretion, may execute and deliver a new bond of like tenor in exchange or substitution for and upon cancellation of such mutilated bond or in lieu of or in substitution for such destroyed or lost bond; or if such bond shall have matured, instead of issuing a substitute bond the Paying Agent may pay the same without surrender thereof upon the written request or authorization of the Authority. In case of destruction or loss, the applicant for a substitute bond shall furnish to the Authority and the Trustee evidence satisfactory to the Authority of the destruction or loss of such bond and of the ownership thereof and also such security and indemnity as may be required by the Authority. Upon the issuance of any substitute bond, the Authority, at its option may require

the applicant for such substitute bond to pay a sum sufficient to reimburse the Authority and the Trustee for any stamp tax or other governmental charge or other reasonable expense connected therewith and also a further sum not exceeding the cost of preparation of each new bond so issued in substitution. Any bond issued under the provisions of this Section 3(f) in lieu of any bond alleged to have been destroyed or lost shall constitute an original contractual obligation on the part of the Authority, whether or not the bond so alleged to have been destroyed or lost be at any time enforceable by anyone, and shall be equally and proportionately entitled to the security of the Special Project Bond Resolution, this Resolution, the Trust Indenture, the Leasehold Mortgage by the Lessee and the Guaranty by JFK International Air Terminal LLC.

SECTION 4. Execution of Bonds.

(a) Execution of Bonds.

Each of the Bonds shall have the official seal of the Authority, or a facsimile thereof, affixed thereto or printed or impressed thereon, and shall be manually signed by an Authorized Officer; *provided, however*, that each bond may be executed by the facsimile signature of an Authorized Officer and, in such event, such bond shall have endorsed thereon a certificate of authentication manually executed by the Trustee. No bond bearing a facsimile signature of any Authorized Officer shall be entitled to any benefit under this Resolution, the Special Project Bond Resolution, the Trust Indenture, the Leasehold Mortgage by the Lessee or the Guaranty by JFK International Air Terminal LLC, or be valid or obligatory for any purpose unless and until such certificate of authentication shall have been manually executed by the Trustee, as aforesaid, and such manually executed certificate upon such bond shall be conclusive evidence that such bond has been authenticated and delivered under this Resolution. Such certificate of authentication on any such bond shall be deemed to have been executed by the Trustee, as aforesaid, if signed by an authorized officer of the Trustee, but it shall not be necessary that the same officer sign the certificate of authentication on all of such bonds issued under this Resolution.

(b) Validity of Signatures on the Bonds.

In case any Authorized Officer who shall have signed or whose facsimile signature shall appear on any of the Bonds shall cease to be an Authorized Officer before such bonds shall have been actually issued, such bonds may nevertheless be issued as though such Authorized Officer who signed such bonds had not ceased to be an Authorized Officer.

SECTION 5. Redemption or Retirement of Bonds.

(a) Optional Redemption.

In the event that prior to the issuance of any installment of the Bonds it is determined that such installment shall be subject to optional redemption by the Authority, such installment shall be subject to optional redemption by the Authority only upon request of the Lessee, from monies deposited into the Bond Fund, in whole or in part, on prior notice, on the date to be fixed for redemption in the Authority's notice of intention to redeem bonds.

(Board - 10/17/96)

The Authority's obligation with respect to optional redemption pursuant to the provisions of this Section 5(a) shall be subject to the provision of sufficient monies by the Lessee to accomplish such redemption, and shall be limited solely to the monies so provided by the Lessee and deposited into the Bond Fund for such purposes.

(b) Mandatory Periodic Retirement.

In the event that prior to the issuance of any installment of the Bonds it is determined that such installment shall be subject to mandatory periodic retirement by the Authority, such installment shall be subject to mandatory periodic retirement by the Authority prior to maturity at the times and in the amounts set forth on the schedule of mandatory periodic retirement established by the Authority for such installment, from monies to be deposited into the Bond Fund (to the credit of a sinking fund to be established in the Bond Fund) for such purposes.

The Authority's obligation with respect to mandatory periodic retirement pursuant to the provisions of this Section 5(b) shall be subject to the provision of sufficient monies by the Lessee to accomplish such mandatory periodic retirement and shall be limited solely to the monies so provided by the Lessee and deposited into the Bond Fund for such purposes.

At any time and from time to time the Lessee may, and the Authority shall at the request of the Lessee and upon provision to the Authority of the requisite monies, instructions and/or any of the Bonds, deliver to the Trustee (i) such amount of monies, with instructions to purchase and cancel the principal amount of the Bonds which is equal to the principal amount of bonds acquired with such monies or (ii) such bonds for cancellation. On or before the sixtieth day next preceding the mandatory periodic retirement date in each year (except the year of maturity) set forth in the schedule of mandatory periodic retirement established for an installment of the Bonds, the Trustee shall furnish the Lessee and the Authority with a certificate (i) specifying the aggregate principal amount, if any, of the bonds which prior to such date have been redeemed or purchased by the Trustee (otherwise than through the operation of sinking fund retirement) and cancelled or delivered by the Lessee or the Authority to the Trustee for cancellation and (ii) specifying the aggregate principal amount of the bonds not theretofore applied as a credit against any mandatory periodic retirement obligation for the Bonds. On or before the fiftieth day next preceding each mandatory periodic retirement date, the Lessee shall furnish the Trustee and the Authority with a certificate specifying the amount, if any, of such bonds which the Trustee shall apply as a credit in respect of the mandatory periodic retirement obligation of the Authority on such mandatory periodic retirement date. Each bond so credited shall be credited by the Trustee at 100% of the principal amount thereof and any excess over the amount required for such current mandatory periodic retirement obligation may be credited against such mandatory periodic retirement obligation or such future mandatory periodic retirement obligations as the Lessee may specify.

(c) Extraordinary Mandatory Redemption.

The Bonds shall be redeemed by the Authority in whole and not in part at par on any date prior to maturity from monies to be deposited into the Bond Fund for such purposes (i) upon the expiration or termination of the Lease or (ii) in accordance with the provisions of Section 9(c) of this Resolution, upon notice from the Trustee.

In the event that prior to the issuance of any installment of the Bonds it is determined that such installment shall be subject to extraordinary mandatory redemption by the Authority, upon the occurrence of events in addition to those set forth in the first paragraph of this Section 5(c), such installment shall also be subject to extraordinary mandatory redemption prior to maturity upon the occurrence of such events, from monies to be deposited into the Bond Fund for such purposes.

The Authority's obligation with respect to extraordinary mandatory redemption pursuant to the provisions of this Section 5(c) shall be subject to the provision of sufficient monies by the Lessee to accomplish such redemption, and shall be limited solely to the monies so provided by the Lessee and deposited into the Bond Fund for such purposes.

(d) **Notice of Redemption.**

Notice of intention to redeem any bonds issued under this Resolution, except under Section 5(c) of this Resolution, shall be given by the Authority not less than thirty (30) nor more than forty-five (45) days prior to the date fixed for redemption, to the Bondholders of the bonds to be called for redemption, by deposit of a copy of such notice, postage prepaid by first class mail, certified or registered, in a United States Post Office, addressed to such Bondholders at their last known addresses as appearing upon the books for the registration of the Bonds kept pursuant to Section 3(d) of this Resolution. Notice of the mailing of such notice of intention to redeem bonds shall also be published by the Authority in a daily newspaper of general circulation in the Port District not less than thirty (30) nor more than forty-five (45) days prior to the date fixed for redemption; *provided, however*, that failure to give such notice by publication, or any defect therein, shall not affect the validity of any action with respect to the redemption of such bonds. Notice of intention to redeem any bonds issued under this Resolution shall not be required in connection with a redemption under Section 5(c) of this Resolution.

(e) **Payment of Redemption Price; Effect of Redemption.**

Before the date fixed for redemption specified in the Authority's notice of intention to redeem, the Authority will cause to be paid to the Paying Agent (or Paying Agents), subject to receipt by the Trustee from the Lessee of the same, an amount in cash which, together with other funds available therefor in the Bond Fund, is in the aggregate sufficient to redeem all of the outstanding bonds which are to be redeemed, at the respective redemption prices thereof, which, in each case, shall include the accrued interest until the date fixed for redemption and the premium (if any), such principal amount and premium (if any) to be held by the Paying Agent (or Paying Agents), in trust for the account of the Bondholders of the bonds so called for redemption and to be paid to such Bondholders, respectively, upon presentation and surrender of such bonds with accrued interest included in such redemption price to be paid to the Bondholders in accordance with the provisions of this Resolution. On and after the date fixed for redemption, the notice of intention to redeem having been completed as above provided, the bonds so called shall become due and payable at the office of the Paying Agent (or Paying Agents) designated by the Authority, and if funds sufficient for payment of the redemption price shall have been deposited with the Paying Agent (or Paying Agents) in trust as aforesaid and if such funds shall be available for the redemption of such bonds on the date fixed for redemption, then and in any such event, interest shall cease to accrue on the bonds so called on and after the date fixed for their

redemption, and such bonds shall not be entitled to the benefit or security of the Special Project Bond Resolution, this Resolution, the Trust Indenture, the Leasehold Mortgage by the Lessee or the Guaranty by JFK International Air Terminal LLC, but shall rely solely upon the funds so deposited.

(f) Selection of Bonds for Redemption.

If less than all of any installment of the Bonds then outstanding are to be called for redemption at the option of the Authority, and if such installment then outstanding includes bonds of any serial maturities, the bonds so to be called shall be in such order of maturity as shall be determined prior to the issuance of such installment, and if bonds constituting a particular maturity are to be called for redemption, but not all bonds constituting such maturity are to be called for redemption, the bonds so to be called shall be determined by lot by the Authority or the Registrar, in such manner and by such entity as the Authority may elect or by such other system or method as the Committee on Finance may determine.

If bonds are to be called for redemption to meet the schedule of mandatory periodic retirement established for an installment of the Bonds, the bonds so to be called shall be determined by lot by the Authority or the Registrar, in such manner and by such entity as the Authority may elect or by such other system or method as the Committee on Finance may determine.

(g) Partial Redemption of the Bonds.

In the case of bonds of denominations greater than the minimum authorized denomination, for all purposes in connection with redemption, each unit of face value representing the minimum authorized denomination shall be treated as though it were a separate bond of the minimum authorized denomination, and the word "bond" as used in the foregoing provisions of this Section 5 shall be deemed to refer to such unit of face value representing the minimum authorized denomination. If it is determined as above provided that one or more but not all of the units of face value representing the minimum authorized denomination of any bond are to be called for redemption, then upon notice of intention to redeem such unit or units, the Bondholder of such bond shall forthwith present such bond to the Registrar which shall issue a new bond or bonds of like tenor of smaller authorized denominations but of the same aggregate principal amount in exchange for such bond, pursuant to Section 3 of this Resolution, including a new bond or bonds with the aggregate principal amount of the unit or units of face value called for redemption; and such new bond or bonds shall be deemed to be duly called for redemption without further notice to the Bondholder thereof. If the Bondholder of such bond of a denomination greater than the minimum authorized denomination shall fail to present such bond to the Registrar for the issuance of new bonds of smaller denominations in exchange therefor, as aforesaid, such bond shall nevertheless become due and payable on the date fixed for redemption to the extent of the unit or units of face value called for redemption (and to that extent only); and (funds sufficient for the payment of the redemption price having been deposited with the Paying Agent or Paying Agents, as aforesaid, and being available as aforesaid on the date fixed for redemption) interest shall cease to accrue on the portion of the principal amount of such bond represented by such unit or units of face value on and after the date fixed for redemption, and such bond shall not be entitled to the benefit or security of this Resolution, the Special Project Bond Resolution, the Trust Indenture, the Leasehold Mortgage by the Lessee or the Guaranty by JFK

International Air Terminal LLC, to the extent of the portion of its principal amount (and accrued interest thereon until the date fixed for redemption and premium, if any) represented by such unit or units of face value, but to that extent shall rely solely upon the funds so deposited.

SECTION 6. Form of the Bonds.

The form for the bonds issued under this Resolution, including provisions with respect to numbering, authentication and assignment, shall be determined by an Authorized Officer prior to the issuance of the first installment of the Bonds.

SECTION 7. Establishment of Funds.

(a) Construction Fund.

There is hereby established a special trust fund for and in connection with the Bonds, which shall be known as the "Special Project Bonds, JFK International Air Terminal LLC Project, Construction Fund" into which there shall be deposited any portion of the proceeds received from the sale of the Bonds which is required to be deposited into the Construction Fund in accordance with the Special Project Bond Resolution, this Resolution, the Lease and the Trust Indenture. In addition, there shall also be deposited into the Construction Fund all other monies required to be paid thereto in accordance with the Special Project Bond Resolution, this Resolution, the Lease and the Trust Indenture. The Construction Fund (including all accounts and sub-accounts therein established pursuant to Section 7(d) of this Resolution) shall be administered by the Trustee in accordance with the provisions of the Special Project Bond Resolution, this Resolution, the Lease and the Trust Indenture and any amounts remaining in the Construction Fund upon completion of the Project shall be applied as provided in the Trust Indenture, this Resolution, the Special Project Bond Resolution and the Lease.

(b) Bond Fund.

There is hereby established a special trust fund for and in connection with the Bonds which shall be known as the "Special Project Bonds, JFK International Air Terminal LLC Project, Bond Fund" into which there shall be deposited any portion of the proceeds received from the sale of the Bonds required to be deposited into the Bond Fund in accordance with the Special Project Bond Resolution, this Resolution, the Lease and the Trust Indenture. In addition thereto, the Lessee shall pay the Facility Rental, when due in accordance with the Lease and the Trust Indenture, in an amount sufficient together with other monies available therefor in the Bond Fund to pay Debt Service not later than when due, directly to the Trustee for deposit into the Bond Fund. Further, the Trustee shall transfer from the Construction Fund amounts remaining in the Construction Fund upon completion of the Project, if any, for deposit to the Bond Fund in accordance with this Resolution, the Special Project Bond Resolution, the Lease and the Trust Indenture. In the event that the Trustee shall receive any monies from a partial sale (by condemnation or otherwise) of the premises covered by the Lease, and the Lease has not been terminated in accordance with its terms, such monies shall be deposited into the Bond Fund in accordance with this Resolution, the

Special Project Bond Resolution, the Lease and the Trust Indenture. Any portion of the proceeds of a series or installment of Refunding Bonds shall be paid to the Trustee, deposited into the Bond Fund and disbursed in accordance with the terms and conditions for the Refunding as provided in this Resolution, and in the Special Project Bond Series Resolution pertaining to the Refunding Bonds. In addition, there shall also be deposited into the Bond Fund all other monies required to be paid thereto in accordance with the Special Project Bond Resolution, this Resolution, the Lease and the Trust Indenture. The Bond Fund (including all accounts and sub-accounts therein established pursuant to Section 7(d) of this Resolution) shall be administered by the Trustee in accordance with the provisions of the Special Project Bond Resolution, this Resolution, the Lease and the Trust Indenture.

Pursuant to the Special Project Bond Resolution, this Resolution, the Lease and the Trust Indenture, in the event that the monies in the Bond Fund are insufficient to pay Debt Service in full, such monies in the Bond Fund shall be applied to the payment of interest, then to the payment of premium (if any), and then to the payment of the principal of each of the Bonds ratably as to each of the Bonds.

(c) **Debt Service Fund.**

There is hereby established a Debt Service Fund for and in connection with the Bonds, which shall be known as the "Special Project Bonds, JFK International Air Terminal LLC Project, Debt Service Fund". The Debt Service Fund shall be maintained so long as any of the Bonds are outstanding. The monies, Investment Securities and other assets credited to the Debt Service Fund shall constitute a reserve for the payment of Debt Service. The Minimum Debt Service Fund Balance shall be determined by the Committee on Finance in connection with the sale of the Bonds, or each installment thereof, at the time of each such sale. There shall be deposited into the Debt Service Fund from the proceeds received from the sale of the Bonds, or each installment thereof, any amount which is required to be deposited from such proceeds to cause the amount on deposit in the Debt Service Fund, together with any amounts to be deposited by the Lessee pursuant to the Lease, to equal the then applicable Minimum Debt Service Fund Balance. In addition, there shall also be deposited into the Debt Service Fund all other monies required to be deposited therein in accordance with the Special Project Bond Resolution, this Resolution, the Lease and the Trust Indenture. The Debt Service Fund (including all accounts and sub-accounts therein established pursuant to Section 7(d) of this Resolution) shall be administered by the Trustee in accordance with the provisions of the Special Project Bond Resolution, this Resolution, the Lease and the Trust Indenture.

(d) **Establishment of Accounts and Sub-Accounts of the Construction Fund, the Bond Fund and the Debt Service Fund.**

Any Authorized Officer may establish such accounts or sub-accounts within the Construction Fund, the Bond Fund and the Debt Service Fund for such purposes as such Authorized Officer shall deem necessary, consistent with this Resolution, the Special Project Bond Resolution, the Lease and the Trust Indenture.

(e) **Establishment of Additional Funds within the Trust Estate.**

Any Authorized Officer may establish any funds and all accounts and sub-accounts therein, to be established, held and administered by the Trustee under this Resolution, the Lease or the Trust Indenture for purposes of or in connection with those assets comprising a portion of the Trust Estate, encompassed by clause IV of the Trust Estate.

SECTION 8. Investments.

Subject to the provisions of Section 7 of the Special Project Bond Resolution, the Trustee may invest the monies in the Construction Fund, the Bond Fund, the Debt Service Fund and in any fund established pursuant to Section 7(e) of this Resolution, respectively, in such Investment Securities as are designated by an Authorized Officer for such purposes.

The value of Investment Securities shall be computed at such times and by such methods provided in or pursuant to the Trust Indenture.

Pursuant to Section 7 of the Special Project Bond Resolution, all income or other gain derived from or attributable to Investment Securities shall be credited to or deposited into the fund which purchased such Investment Securities and any loss derived from or attributable to Investment Securities shall be charged to such fund. In accordance with the Special Project Bond Resolution, this Resolution, the Lease and the Trust Indenture, any such income or gain credited to or deposited into the Debt Service Fund shall be transferred by the Trustee for deposit into the Construction Fund to the extent and upon the determination by the Trustee in accordance with Section 7(c) of this Resolution that there is in the Debt Service Fund an amount in excess of the Minimum Debt Service Fund Balance required to be maintained therein, and upon and after final disbursement of the Construction Fund into the Bond Fund, to be applied in accordance with the Special Project Bond Resolution, this Resolution, the Lease and the Trust Indenture.

SECTION 9. The Trustee.

(a) **Appointment and Powers of the Trustee.**

The Authority shall appoint a bank or trust company as Trustee for and in connection with the Bonds. The Trustee is hereby authorized to (i) institute any action or proceeding on behalf of the Bondholders against the Authority or others, or (ii) intervene in any pending action or proceeding, or (iii) take any other action which it shall in its sole discretion determine to be necessary or advisable in order to protect the rights of the Bondholders; *provided, however*, that any action instituted or taken with respect to the Authority shall only be instituted or taken to the limited extent of any liability of the Authority with respect to the Bonds. The rights of the Trustee in this respect and in all other respects shall be in addition to and not in substitution of any and all rights which would otherwise inure to the Bondholders. It is understood that the Trustee in its sole discretion may, but shall be under no obligation to, review the activities or operations of the Authority concerning the Project or any of the contracts or agreements of the Authority concerning the Project or exercise any of the rights or powers vested in it by this Section 9 in connection

with the Project whether on the Trustee's initiative or at the request or direction of any of the Bondholders.

(b) **Qualification of the Trustee.**

The Trustee (which shall include any successor Trustee) shall be a bank or trust company organized under the laws of the State of New York or the State of New Jersey or a national banking association doing business and having its principal office in the Port District and having a total capital (including capital stock, surplus, undivided profits and capital notes, if any) aggregating at least \$25,000,000, which is willing and able to accept the office on reasonable and customary terms and is authorized by law to perform all the duties imposed upon it by the Special Project Bond Resolution, this Resolution, the Trust Indenture, the Lease, the Leasehold Mortgage by the Lessee, the Personal Property Security Interest by the Lessee and the Guaranty by JFK International Air Terminal LLC.

(c) **Declaration by the Trustee of Principal of and Interest on the Bonds as Due.**

In the event that the Lessee fails to provide sufficient monies for deposit into the Bond Fund to pay Debt Service, when due, or, to the extent set forth in the Lease, in the event that certain events involving the bankruptcy or insolvency of the Lessee or the appointment of a receiver, trustee or liquidator in connection therewith for the property of the Lessee shall occur, to the extent set forth in the Trust Indenture, the Trustee may, and upon the written request or direction of the Bondholders representing not less than a majority in aggregate principal amount of all series of Bonds issued under this Resolution and then outstanding (excluding any of the Bonds held by or for the account of the Authority or the Lessee), the Trustee shall, by written notice to the Authority and the Lessee, declare the principal amount of all series of Bonds issued under this Resolution and then outstanding and the interest accrued thereon to be immediately due and payable, and said principal and interest shall thereupon become immediately due and payable (subject to the rights of rescission and annulment set forth in the paragraph below and in the Lease), anything contained in the Special Project Bond Resolution, this Resolution, the Trust Indenture and the Lease, to the contrary notwithstanding.

If however, at any time after the principal of all series of Bonds issued under this Resolution and then outstanding and the accrued interest thereon shall have been so declared to be due and payable, and before the later of (i) entry of final judgment or decree in any suit, action or proceeding instituted on account of any of the events referred to in the first paragraph of this Section 9(c) and (ii) the completion of the enforcement of any other remedy under this Resolution, monies shall have accumulated or shall have been deposited into the Bond Fund sufficient to pay the principal of and any premium (or redemption price) on all of such matured Bonds, and all of such Bonds (or portions of the principal amount thereof) then or theretofore required to be redeemed pursuant to any provisions of this Resolution (excluding principal not then due except by reason of the aforesaid declaration) and all arrears of interest and interest then due, if any, upon all of such Bonds then outstanding, and if the charges, compensation, expenses, disbursements, advances and liabilities of the Trustee and all other amounts then payable by the Authority hereunder shall have been paid or a sum sufficient to pay the same shall have been deposited with the Trustee, and every other such event (other than a default in the payment of the principal of such Bonds then due only by

reason of the aforesaid declaration) shall have been remedied to the satisfaction of the Trustee or, in the case of any such event other than the nonpayment of an amount due and owing or an event involving the bankruptcy or insolvency of the Lessee or the appointment of a receiver, trustee or liquidator in connection therewith for the property of the Lessee to the extent set forth in the Lease, the Authority or the Lessee shall be taking, or shall be causing to be taken, appropriate action in good faith to effect its cure, then in every such event the Trustee may, and upon the written request or direction of the Bondholders representing not less than a majority in aggregate principal amount of all series of Bonds issued under this Resolution and then outstanding (excluding any of the Bonds held by or for the account of the Authority or the Lessee) not then due by their terms (except by reason of the aforesaid declaration), the Trustee shall, by written notice to the Authority and the Lessee, rescind and annul such declaration and its consequences, and such rescission shall be binding upon all Bondholders. No such rescission or annulment pursuant to the next preceding sentence shall extend to or affect any subsequent default or impair any right consequent thereto.

(d) **Liability of the Trustee.**

The Trustee shall not be liable for any action taken or suffered upon any notice, resolution, request, consent, order, certificate, report, opinion, bond or other paper or document believed by it to be genuine, and to have been signed or presented by the proper party or parties. The Trustee may consult with counsel, who may or may not be counsel to the Authority or the Lessee, and the opinion of such counsel shall be full and complete authorization and protection in respect of any action taken or suffered by it under this Resolution, the Special Project Bond Resolution, the Trust Indenture, the Lease, the Leasehold Mortgage by the Lessee, the Personal Property Security Interest by the Lessee and the Guaranty by JFK International Air Terminal LLC, in good faith and in accordance therewith. The Trustee shall not be liable in connection with the exercise, performance or non-performance of its powers and duties except for its own wilful misconduct, negligence or bad faith.

(e) **Evidence Upon Which the Trustee May Act.**

If the Trustee shall deem it necessary or desirable that a matter be proved or established prior to taking or suffering any action under this Resolution, the Special Project Bond Resolution, the Trust Indenture, the Lease, the Leasehold Mortgage by the Lessee, the Personal Property Security Interest by the Lessee and the Guaranty by JFK International Air Terminal LLC, such matter (unless other evidence in respect thereof be specifically prescribed) may be deemed to be conclusively proved and established as to the Trustee and the Bondholders by a certificate of an Authorized Officer or an authorized representative of the Lessee as provided in the Lease, and such certificate shall be full warrant for any action taken or suffered in good faith under the provisions of this Resolution, the Special Project Bond Resolution, the Trust Indenture, the Lease, the Leasehold Mortgage by the Lessee, the Personal Property Security Interest by the Lessee and the Guaranty by JFK International Air Terminal LLC, in reliance thereon; *provided, however*, that in its discretion the Trustee may in lieu thereof accept other evidence of such fact or matter or may require such further or additional evidence as to it may seem reasonable.

(f) **Reports by Trustee.**

In addition to any other reports or information which the Trustee shall be required to furnish to the Authority and the Lessee pursuant to the Trust Indenture, not more than ninety (90) days after the close of each bond year with respect to the Bonds, the Trustee shall furnish to the Authority, the Lessee and any Bondholder filing with the Trustee a written request for a copy, a statement setting forth (to the extent applicable) in respect to such bond year (i) all transactions relating to the receipt, disbursement and application of all monies received by the Trustee applicable to the Bonds; (ii) the amount held by the Trustee at the end of such bond year to the credit of each fund established in connection with the Bonds, including a breakdown by account and sub-account; (iii) a brief description of all Investment Securities held by the Trustee as of the end of such bond year as an investment of monies in each fund established in connection with the Bonds, including a breakdown by account and sub-account, (iv) the principal amount of the Bonds, purchased by the Trustee during such bond year from monies available therefor in each fund pursuant to the provisions of this Resolution, and the respective purchase price of the Bonds; (v) the principal amount of the Bonds redeemed or retired during such bond year and the redemption prices thereof, if any; and (vi) any other information which the Authority or Lessee may reasonably request. The Trustee shall also furnish to the Authority and the Lessee monthly statements setting forth the foregoing information (to the extent applicable) with respect to each month of such bond year.

(g) **Cancellation and Destruction of Bonds by the Trustee.**

All of the Bonds surrendered to the Trustee or other Paying Agent for payment pursuant to Section 5 of this Resolution shall be cancelled upon such payment by the Trustee or such other Paying Agent as the case may be. Whenever cancellation of any bonds is by any Paying Agent other than the Trustee, such bonds so cancelled shall be delivered to the Trustee or as it may direct. All cancelled bonds, including those cancelled by the Trustee, shall be delivered to the Authority or as it may direct. Upon the written request of the Authority, the Trustee (or other Paying Agent) may in lieu of such cancellation and delivery destroy such bonds. If any bonds are destroyed by the Trustee, the Authority may require that such destruction be done in the presence of its appointee, and if any bonds are destroyed by a Paying Agent other than the Trustee, the Authority or the Trustee may require that such destruction be done in the presence of its respective appointee or officer. If the Trustee shall destroy any bonds it shall deliver a certificate of such destruction to the Authority, and if such destruction be performed by a Paying Agent other than the Trustee, such Paying Agent shall deliver a certificate of such destruction to both the Authority and the Trustee.

(h) **Compensation of the Trustee, the Paying Agent and the Registrar.**

The Authority shall provide in the Lease for the Lessee to (i) pay to the Trustee, the Paying Agent and the Registrar, from time to time, reasonable compensation for all services rendered by each of them under this Resolution, the Special Project Bond Resolution, the Trust Indenture, the Paying Agent's Agreement, the Registrar's Agreement, the Lease, the Leasehold Mortgage by the Lessee, the Personal Property Security Interest by the Lessee and the Guaranty by JFK International Air Terminal LLC; (ii) reimburse the Trustee, the Paying Agent and the Registrar upon each of their requests for all reasonable expenses, disbursements and advances incurred or made by each of them in connection with the exercise,

performance or non-performance of any of their powers or duties under this Resolution, the Special Project Bond Resolution, the Trust Indenture, the Paying Agent's Agreement, the Registrar's Agreement, the Lease, the Leasehold Mortgage by the Lessee, the Personal Property Security Interest by the Lessee and the Guaranty by JFK International Air Terminal LLC (including the reasonable compensation and the expenses and disbursements of each of their agents and counsel); and (iii) to indemnify the Trustee, the Paying Agent and the Registrar for, and hold each of them harmless against, any loss, liability or expense incurred without wilful misconduct, negligence or bad faith on their part, arising out of or in connection with the exercise, performance or non-performance of each of their powers and duties under this Resolution, the Special Project Bond Resolution, the Trust Indenture, the Paying Agent's Agreement, the Registrar's Agreement, the Lease, the Leasehold Mortgage by the Lessee, the Personal Property Security Interest by the Lessee and the Guaranty by JFK International Air Terminal LLC, including the costs and expenses of any defense against any claim or liability in connection with such exercise, performance or non-performance.

(i) **Right of the Trustee to Own or Hold Bonds.**

The Trustee may become a Bondholder with the same rights as it would have if it were not the Trustee. To the extent permitted by law, the Trustee may act as depository for the Authority, act as paying agent and registrar for other obligations of the Authority and obligations of others, act itself and permit any of its officers or directors to act in any other capacity with respect to the Authority, the Lessee, the Bonds and the Bondholders as it or its officers or directors would be able to act were it not the Trustee. The Trustee, either as principal or agent, may also engage in or be interested in any financial or other transaction with the Authority or the Lessee.

(j) **Resignation of the Trustee.**

The Trustee may at any time resign and be discharged of all of the duties and obligations created by this Resolution by giving not less than sixty (60) days' written notice to the Authority and the Lessee and by giving such notice thereof, specifying the date when such resignation shall take effect, to the Bondholders. Such notice shall be given to the Bondholders by deposit of a copy of such notice, postage prepaid by first class mail, certified or registered, in a United States Post Office, addressed to the Bondholders at their last known addresses as appearing upon the books for the registration of the Bonds kept pursuant to Section 3(d) of this Resolution. Notice of such resignation shall also be published by the Trustee once in each week for two (2) successive calendar weeks in a newspaper of general circulation in the Port District. Such resignation shall take effect upon the later of the date specified in such notice (unless previously a successor Trustee shall have been appointed by the Authority in which event such resignation shall take effect immediately on the appointment of such successor Trustee) and the appointment by the Authority of a successor Trustee.

(k) **Removal of the Trustee.**

The Trustee or any successor thereto may be removed at any time by an instrument or concurrent instruments in writing, filed with the Trustee, and signed and acknowledged by the Bondholders representing a majority in aggregate principal amount of all series of Bonds issued under this Resolution and then outstanding or by their attorneys duly

authorized, excluding any of the Bonds held by or for the account of the Authority or the Lessee.

(I) Appointment of a Successor Trustee.

In case at any time the Trustee shall resign or shall be removed or shall become incapable of acting, or shall be adjudged a bankrupt or insolvent, or if a receiver, liquidator or conservator of the Trustee, or of its property, shall be appointed, or if any public officer shall take charge or control of the Trustee, or of its property or affairs, a successor may be appointed by the Bondholders representing a majority in aggregate principal amount of all series of Bonds issued under this Resolution and then outstanding (excluding any of the Bonds held by or for the account of the Authority or the Lessee), by an instrument or concurrent instruments in writing signed and acknowledged by such Bondholders or by their attorneys duly authorized and delivered to such successor Trustee, notification thereof being given to the Authority and the predecessor Trustee; *provided, however*, that the Authority shall forthwith appoint a Trustee to fill such vacancy unless and until a successor Trustee shall be appointed by the Bondholders as authorized in Section 9 of this Resolution. The Authority shall mail notice of any such appointment made by it to the Bondholders. Such notice shall be given to the Bondholders by deposit of a copy of such notice, postage prepaid by first class mail, certified or registered, in a United States Post Office, addressed to the Bondholders at their last known addresses as appearing upon the books for the registration of the Bonds kept pursuant to Section 3(d) of this Resolution. Notice of such appointment shall also be published by the Authority once in each week for two (2) consecutive calendar weeks, in a newspaper of general circulation in the Port District, the first publication to be made within twenty (20) days after such appointment. Any successor Trustee appointed by the Authority shall, immediately and without further act, be superseded by a Trustee appointed by the Bondholders representing a majority in aggregate principal amount of all series of Bonds issued under this Resolution and then outstanding as authorized in Section 9 of this Resolution. Any appointment of a successor Trustee or Trustees shall be made in compliance with the requirements of Section 9 of this Resolution.

Any company into which the Trustee may be merged or converted or with which it may be consolidated or any company resulting from any merger, conversion or consolidation to which it shall be a party or any company to which the Trustee may sell or transfer all or substantially all of its corporate trust business shall be the successor to the Trustee without the execution or filing of any paper or the performance of any further act; *provided, however*, that such company shall otherwise meet the qualifications set forth in Section 9(b) of this Resolution.

The failure of the Authority to take any action required by this Section 9 shall not invalidate any of the Bonds or affect any other actions of the Authority. The Authority shall in no way be restricted by this Section 9 from entering any defense to an action or proceeding instituted by the Trustee or by the Bondholders.

(Board - 10/17/96)

SECTION 10. Discharge.

(a) Discharge of Pledges, Mortgages, Security Interests and Assignments; Bonds Deemed to be Paid Under this Resolution.

The obligations of the Authority and the Lessee under the Special Project Bond Resolution, this Resolution and the Trust Indenture, and the pledges, mortgages, security interests and assignments of the Authority and the Lessee provided for in this Resolution, the Special Project Bond Resolution, the Trust Indenture, the Leasehold Mortgage by the Lessee, the Personal Property Security Interest by the Lessee and the Guaranty by JFK International Air Terminal LLC, shall be fully discharged and satisfied as to each of the Bonds and each bond shall be deemed to have been paid for all purposes of Section 10(b) either:

(i) when such bond shall have been cancelled, or shall have been surrendered for cancellation and is subject to cancellation, or shall have been purchased or redeemed in whole by the Trustee from monies in the Bond Fund; or

(ii) as to any bond not so cancelled, or not so surrendered for cancellation and subject to cancellation, or not so purchased pursuant to (i) above, when payment of the principal of and the premium, if any (or redemption price) on such bond, plus interest on such principal to the due date thereof (whether such due date be by reason of maturity or upon redemption or prepayment or by declaration as provided in Section 9(c) of this Resolution, or otherwise), either (a) shall have been made or caused to be made in accordance with the terms of such bond, or (b) shall have been provided by irrevocably depositing with the Trustee or Paying Agent, in trust, and irrevocably appropriating and setting aside exclusively for such payment, either (1) monies sufficient to make such payment or (2) Governmental Obligations maturing as to principal and interest in such amounts and at such times as will ensure the availability of sufficient monies to make such payment, or (3) a combination of both such monies and such Governmental Obligations, and all necessary and proper fees, compensation and expenses of the Trustee and the Paying Agent pertaining to the bond with respect to which such deposit is made shall have been paid or the payment thereof provided for to the satisfaction of the Trustee and such Paying Agent.

At such time as a bond shall be deemed to be paid under this Section 10 such bond shall cease to bear interest from the due date thereof (whether such due date be by reason of maturity, or upon redemption or by declaration as aforesaid, or otherwise) and, except for the purpose of any payment to be made with respect to such bond from such monies or Governmental Obligations, such bond shall no longer be secured by or entitled to the benefits of this Resolution, the Special Project Bond Resolution, the Trust Indenture, the Leasehold Mortgage by the Lessee and the Guaranty by JFK International Air Terminal LLC.

Notwithstanding the foregoing, in the case of any of the Bonds which the Authority has been requested to redeem or otherwise prepay prior to their stated maturities and which by their terms may be so redeemed or otherwise so prepaid, no deposit under clause (b) of subparagraph (ii) above shall constitute such payment, discharge and satisfaction as

(Board - 10/17/96)

aforsaid, until such bonds shall have been irrevocably called or designated for redemption or prepayment and proper notice of such redemption or prepayment shall have been previously given in accordance with Section 5(d) of this Resolution or provision satisfactory to the Trustee shall have been irrevocably made for the giving of such notice at the first date at which such notice may be given to the Bondholders.

Any of the monies deposited with the Trustee or other Paying Agent as provided in this Section 10 may, in accordance with the instructions of the Authority acting at the request of the Lessee, also be invested and reinvested in Governmental Obligations, maturing in the amounts and at the times as hereinbefore set forth, and all income from all Governmental Obligations in the custody of the Trustee or the Paying Agent pursuant to this Section 10 which is not required for the payment of Debt Service in full on the particular bonds with respect to which such monies shall have been so deposited, shall be paid to the Lessee as received by the Trustee, free and clear of any trust, lien or pledge under this Resolution.

Notwithstanding any provision of any other section of this Resolution which may be contrary to the provisions of this Section 10, all monies or Governmental Obligations set aside and held in trust pursuant to the provisions of this Section 10 for the payment of Debt Service in full on a particular bond shall be applied to and used solely for such payment of the particular bond with respect to which such monies and Governmental Obligations have been so set aside in trust.

If monies or Governmental Obligations have been deposited or set aside with the Trustee or a Paying Agent pursuant to this Section 10 for such payment of bonds prior to the due date thereof (whether such due date be by reason of maturity or upon redemption or by declaration as aforesaid, or otherwise) and such bonds shall be deemed to have been paid hereunder as provided in this Section 10, but such bonds shall not have in fact been actually paid in full, no amendment to the provisions of this Section 10 shall be made without the consent of the Bondholder of each bond affected thereby.

The Authority, acting at the request of the Lessee, or the Lessee may at any time surrender to the Trustee for cancellation by it any of the Bonds previously executed and delivered which the Authority or the Lessee may have acquired in any manner whatsoever, and upon such surrender for cancellation such bonds shall be deemed to be paid hereunder.

(b) **Release of this Resolution; Termination of Right,
Title and Interest of the Trustee.**

When all of such Bonds issued under this Resolution shall be deemed to be paid in accordance with the provisions of Section 10(a) of this Resolution then and in that event the right, title and interest of the Trustee in the Trust Estate, the Leasehold Mortgage by the Lessee and the Guaranty by JFK International Air Terminal LLC, shall thereupon cease, determine and become void, and the Trustee in such case, shall release this Resolution, the Special Project Bond Resolution, the Trust Indenture, the Leasehold Mortgage by the Lessee and the Guaranty by JFK International Air Terminal LLC, and shall execute such documents to evidence such release, and shall turn over to or as directed by the Lessee any surplus monies and balances remaining in any of the funds and accounts created in or held under this Resolution other than monies and Governmental Obligations held by it pursuant to the third-

(Board - 10/17/96)

to-last paragraph of Section 10(a) of this Resolution or the provisions of Section 4(b) of the Special Project Bond Resolution for the redemption, payment or prepayment of any of the Bonds; otherwise, this Resolution shall be, continue and remain in full force and effect.

SECTION 11. Actions by Certain Officers of the Authority.

The Executive Director, Chief Financial Officer, Treasurer and Deputy Treasurer of the Authority (and any successors in office or duties to such positions) are authorized to take any and all action which the Committee on Finance has been authorized to take under this Resolution (without further action by the Committee on Finance).

SECTION 12. Certain Actions to be Taken by the Lessee under the Internal Revenue Code of 1986.

In the event that the Bonds are issued on the basis that the Bonds are to be in conformity with, and that the interest on the Bonds is not to be includible for Federal income tax purposes in the gross income of the recipients thereof under Section 103(a) of the Internal Revenue Code of 1986, or successor provisions of law, and the regulations thereunder, the Authority shall provide in the Lease for the Lessee to take any action which may be appropriate to assure that the Bonds are issued, and during their term are outstanding, on such basis.

SECTION 13. Establishment of Funds not a Part of the Trust Estate.

Any Authorized Officer is authorized to provide for the establishment of all funds and accounts and sub-accounts therein, to be established, held and administered by the Trustee separate and apart from the Trust Estate under this Resolution, the Lease or the Trust Indenture for purposes of or in connection with the receipt of monies by the Trustee which are not required to be deposited into the Construction Fund, the Bond Fund, the Debt Service Fund or any fund established pursuant to Section 7(e) of this Resolution, the Lease or the Trust Indenture. Any such funds, accounts or sub-accounts and the amounts deposited therein shall not be subject to any mortgage, pledge, security interest or assignment to the Trustee in favor of the Bondholders or otherwise be or be deemed to be a part of the Trust Estate or be available for the payment of Debt Service.

SECTION 14. Resolution to Constitute a Contract.

The provisions of this Resolution shall constitute a contract with the Bondholders of such Bonds issued under this Resolution, and with each such Bondholder.

**SPECIAL PROJECT BONDS, SERIES 6 AND 8, JFK INTERNATIONAL AIR
TERMINAL LLC PROJECT - AUTHORIZATION OF SALE**

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

WHEREAS, heretofore and on June 9, 1983, The Port Authority of New York and New Jersey (hereinafter called the "Authority") adopted a resolution (hereinafter called the "Special Project Bond Resolution") providing for the issuance of certain bonds other than direct and general obligations of the Authority (hereinafter called "Special Project Bonds"), from time to time in conformity with the Special Project Bond Resolution for the purposes therein set forth, and which Special Project Bond Resolution constitutes a contract with the holders of the Special Project Bonds so issued; and

WHEREAS, on October 17, 1996, the Authority adopted a resolution (hereinafter called the "Series Resolution") providing for the establishment and the authorization of the issuance of Special Project Bonds, Series 6, JFK International Air Terminal LLC Project and Special Project Bonds, Series 7, JFK International Air Terminal LLC Project (each such series hereinafter called the "Bonds") for the purposes set forth in the Series Resolution, and which Series Resolution constitutes a contract with the registered holders of the Bonds so issued; and

WHEREAS, the Authority has now determined that it is advisable and in the public interest to provide for offering the Bonds for sale;

NOW, THEREFORE, be it resolved by the Authority:

SECTION 1. All capitalized terms of special meaning used and not otherwise defined in this resolution shall have the meanings ascribed to such terms in or pursuant to the Series Resolution. This resolution shall apply with equal force and effect to each series of the Bonds on an individual basis.

SECTION 2. The Committee on Finance is authorized to sell all or any part of up to One Billion Two Hundred Million Dollars (\$1,200,000,000) in aggregate principal amount of the Bonds at any one time outstanding, at a price which will result in a true interest cost to the Authority not in excess of fifteen per centum (15%), and to do so in the name of and on behalf of the Authority, at public or private sale, with or without advertisement, in one or more installments or in one or more lots, at one or more times, and to apply the proceeds of such sale or sales as provided in the Series Resolution; *provided, however,* that the total aggregate principal amount of all of the Bonds sold in no event shall exceed One Billion Two Hundred Million Dollars (\$1,200,000,000) at any one time outstanding; and, *provided further, however,* that the total aggregate principal amount of the Bonds sold in no event shall exceed the amount required to finance or refinance the Project Costs.

SECTION 3. The Committee on Finance is authorized, in connection with the Bonds, to fix the time or times of sale of the Bonds, to determine the terms and

conditions upon which sales shall be made and to accept or reject offers in connection with such sales, and to do so in the name of and on behalf of the Authority.

SECTION 4. The Committee on Finance is authorized, in the name of and on behalf of the Authority, in connection with the Bonds, to enter into any contracts or agreements pertaining to the Bonds; to fix the time or times and determine the terms and conditions of delivery of the Bonds; to appoint a Paying Agent, a Registrar and a Trustee (in each case which shall be the same entity with respect to all series of Bonds issued under the Series Resolution) and to designate the office or offices of any such Paying Agent at which payments shall be made and the office or offices of any such Registrar at which the books for registration of the Bonds shall be kept; to designate the depository or depositories for any monies to be held by the Trustee; to enter into or consent to agreements providing for mortgages, pledges, assignments or grants of security interests of or in all or any part of the property constituting or located or to be located at the premises covered by the Lease; to make any selection, designation, determination or estimate and to take or withhold any action and to formulate and express any opinions and to exercise any discretion or judgment which may be or is required to be made, taken, withheld, formulated, expressed or exercised in connection with the Bonds, the Authority hereby adopting all such selections, designations, determinations, estimates, actions, withholdings of action, formulations and expressions of opinion and exercises of discretion or judgment as its own; and to authorize any of the foregoing and generally to take such other action as in the opinion of the Committee on Finance will best serve the public interest.

SECTION 5. The Committee on Finance is authorized to arrange, from time to time (i) for the preparation and distribution of official statements and/or offering memoranda in connection with the Bonds and (ii) for the preparation and distribution of such other documents giving pertinent data with respect to the Authority and its finances as it deems appropriate, in each case, in the name of and on behalf of the Authority.

SECTION 6. The Committee on Finance or any Authorized Officer is authorized, in connection with the issuance of the Bonds on the basis that the Bonds are to be issued in conformity with, and that the interest on the Bonds is not to be includible for Federal income tax purposes in the gross income of the recipients thereof under, Section 103(a) of the Internal Revenue Code of 1986, or successor provisions of law, and the regulations thereunder, to take any action which may be appropriate to assure that the Bonds are issued, and during their term are outstanding, on such basis, and any such actions taken in connection therewith are hereby ratified. Any Authorized Officer is hereby authorized to certify on behalf of the Authority as to the need for the issuance of the Bonds for the purposes for which the Bonds are issued, as to the status of the Project, as to the Authority's intentions with respect to the application and investment of the proceeds of the Bonds, and as to such other related matters as may be authorized by the Committee on Finance and any such actions taken in connection therewith are hereby ratified.

SECTION 7. The Executive Director, Chief Financial Officer, Treasurer and Deputy Treasurer of the Authority (and any successors in office or duties to such positions) are authorized to take any and all action which the Committee on Finance has been authorized to take under this resolution (without further action by the Committee on Finance).

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period August 1, 1996 to August 31, 1996.

MINUTES of the Meeting of The Port Authority of New York and New Jersey held Thursday, November 7, 1996, at One World Trade Center, City, County and State of New York.

PRESENT:

NEW JERSEY

Hon. Lewis M. Eisenberg, Chairman
 Hon. Kathleen A. Donovan
 Hon. Henry F. Henderson, Jr.
 Hon. Robert C. Janiszewski
 Hon. Alan G. Philibosian

NEW YORK

Hon. Charles A. Gargano, Vice-Chairman
 Hon. James G. Hellmuth
 Hon. Peter S. Kalikow
 Hon. George D. O'Neill
 Hon. Melvin L. Schweitzer
 Hon. Madelon DeVoe Talley

George J. Marlin, Executive Director
 John J. Haley, Deputy Executive Director
 Jeffrey S. Green, General Counsel
 Lysa C. Meduri, Secretary

Karen A. Antion, Chief Technology Officer
 Daniel Bergstein, Executive Policy Analyst, Office of the Deputy Executive Director
 A. Paul Blanco, Chief Administrative Officer
 Ernesto L. Butcher, Director, Tunnels, Bridges and Terminals
 William J. Cahill, Principal Information Officer, Office of Press Secretary
 Michael P. DePallo, Director, PATH
 Karen E. Eastman, Assistant Secretary
 Mark O. Hatfield, Jr., Director, Office of Corporate Communications
 Gita Kalra, Attorney, Law
 Charles F. McClafferty, Chief Financial Officer
 James C. Reinish, Manager, Policy Analysis and Communication, Office of the Secretary
 Michael J. Rienzi, Director, Procurement
 Patrick D. Rooney, Chief, Employment and Labor Law Division, Law
 Cruz C. Russell, Director, Corporate Policy and Planning
 Jeffrey A. Stein, Executive Assistant to the Chairman
 Carmen S. Suardy, Director, Labor Relations
 Peter Yerkes, Press Secretary

Guests

Karen Kennedy, Office of the Governor of New Jersey
 John Lynch, President, Union of Automotive Technicians, Local 563
 Richard Masella, President, Detectives Endowment Association

The public meeting was called to order by Chairman Eisenberg at 2:33 p.m. and ended at 2:48 p.m. The Board also met in executive session on October 24, 1996 and prior to today's public meeting. Commissioner Kalikow was not present at the executive session portion of the meeting.

Action on Minutes

The Secretary submitted for approval Minutes of the meeting of October 17, 1996. She reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. She reported further that the time for action by the Governors of New York and New Jersey has expired.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Audit Committee

The Audit Committee submitted a report, for information, of matters discussed in executive session at its meeting on November 7, 1996, which included discussion of internal audit matters, and the report was received.

Report of Committee on Operations

The Committee on Operations submitted a report, for information, of matters discussed in executive session at its meeting on November 7, 1996, which included a discussion of contract matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Construction

The Committee on Construction submitted a report, for information, of matters discussed at its meeting on October 24, 1996, which included a discussion of Paint Removal and Repainting of the Underside of the Upper Level of the George Washington Bridge, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Capital Programs and Port Planning

The Committee on Capital Programs and Port Planning submitted a report, for information, of matters discussed in executive session at its meeting on October 24, 1996, which included a discussion of matters which could affect the competitive economic position of the Port Authority, the port district and businesses with whom we deal, and the report was received.

Report of Committee on Finance

The Committee on Finance submitted a report, for information, of action taken and matters discussed in executive session at its meeting on November 7, 1996, which included a discussion of matters which could affect the competitive economic position of the Port Authority, the port district and businesses with whom we deal, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Chairman Eisenberg reported that the Federal Aviation Administration has approved the Port Authority's application to expend Passenger Facility Charges in connection with the Newark International Airport Monorail-Northeast Corridor Extension Project.

John Lynch, President, Automotive Technicians, Local 563, and Richard Masella, President, Detectives Endowment Association, addressed the Board.

(Board - 11/7/96)

PORT AUTHORITY PARTICIPATION IN THE NEW JERSEY ELECTRONIC TOLL COLLECTION COUNCIL CONSORTIUM - EXECUTION OF MEMORANDUM OF UNDERSTANDING

Since 1990, the Port Authority has been working cooperatively toward the implementation of a regional Electronic Toll Collection (ETC) system. The New York State Thruway Authority is presently using the selected common electronic tag and toll lane reader equipment, the Mark IV, IVHS system, at key toll plazas such as the Tappan Zee Bridge, Spring Valley, Harriman, Grand Island Bridges, Yonkers and Albany-area toll plazas. The Metropolitan Transportation Authority - Bridges and Tunnels has installed the system at key toll plazas such as the Verrazano-Narrows Bridge, Cross Bay and Marine Parkway Bridges, Henry Hudson Bridge, Throgs Neck and Whitestone Bridges. Both agencies intend to have their remaining facilities in operation in 1996.

In September 1995, the Boards of the New Jersey Turnpike Authority, The New Jersey Highway Authority, and the South Jersey Transportation Authority passed a resolution to form a New Jersey ETC Council. Included in the resolution was a provision that the Council could form a Consortium of interested agencies and that membership could be expanded to include other agencies. On October 12, 1995, the Board approved Port Authority participation in the Council and Consortium.

The Consortium released its Request for Proposals for the procurement of in-lane equipment for two New Jersey agencies and the Customer Service Center (CSC) for all Consortium members on April 12, 1996. On July 26, 1996, two vendor proposals were received. The Consortium's schedule presently calls for an award recommendation to be made to the New Jersey Turnpike Authority's Board shortly and the completion and final acceptance of all ETC related work by March 21, 1998. This schedule requires that the CSC be available to the Port Authority for systems integration testing by April 1, 1997 in order to meet the Port Authority's schedule of all bridges being equipped with ETC and being available in July of 1997 and both tunnels in October, 1997.

It is now proposed to sign a Memorandum of Understanding (MOU) with the other Consortium members, which sets forth the basic terms and conditions for participation in the Consortium. Under the MOU, the participating agencies are expected to provide financial assistance to the Consortium for all cost incurred, including costs for consulting, legal and administrative services, hardware and software, personnel, and equipment required for the administration, coordination and continuation of efforts of the Consortium, to be determined by the Executive Council of the Consortium by equitable allocation. Costs that can be specifically allocated to a particular participating agency would be borne exclusively by that agency. The MOU provides for Consortium determinations to be made by the unanimous vote of the Executive Council, consisting of the Executive Director of each agency, or his representative, a Commissioner of each agency, and the New Jersey Department of Transportation Commissioner. In the event the Executive Council cannot resolve an issue, it is to be decided by a Dispute Resolution Committee, consisting of the Chairperson of each agency or their designee and the New Jersey Department of Transportation Commissioner. Major disputes, such as those concerning allocation of costs or revenues among the agencies, award of Consortium contracts, contract amendments in excess of ten percent of the contract

price, admittance of new Consortium members, authorization of new projects or changes in scope of existing projects, require a unanimous vote. Routine disputes are to be decided by majority vote.

The delegation of authority to the Executive Director or his authorized representative, Commissioner Philibosian, and the Chairperson or their authorized designee, to act upon Consortium matters on behalf of the Port Authority, will minimize future requirements for seeking Board approval on a case-by-case basis. Authorization of Port Authority execution of the MOU and the said delegations of authority will also allow the New Jersey Turnpike Authority, on behalf of the Consortium, to award an Electronic Toll Collection contract for the Consortium including the establishment of a CSC which will service the Port Authority's electronic toll patrons, and will permit the Port Authority to fully participate in the Consortium's objective of implementing and operating a regional ETC system.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, subject to informing the Board of the final terms and conditions, to execute a Memorandum of Understanding with and among the New Jersey Turnpike Authority, the New Jersey Highway Authority, and the South Jersey Transportation Authority which sets forth the basic terms and conditions for participation in a multi-agency group, the New Jersey Consortium for Electronic Toll Collection, established to implement the Electronic Toll Collection System throughout the roadways operated by the members of the New Jersey Electronic Toll Collection Council; and it is further

RESOLVED, that the Executive Director or his authorized representative, and Commissioner Philibosian, as representatives of the Port Authority on the Consortium's Executive Council, and the Chairperson or their authorized designee as representative of the Port Authority on the Consortium's Dispute Resolution Committee, be and they hereby are authorized to act on Consortium matters on behalf of the Port Authority after discussion with the Board on major items, including but not limited to, allocation of costs or revenues among the agencies, award of Consortium contracts, contract amendments in excess of ten percent of the contract price, admittance of new Consortium members, authorization of new projects or changes in scope of existing projects; and it is further

RESOLVED, that the form of the Memorandum of Understanding shall be subject to the approval of General Counsel or his authorized representative.

GEORGE WASHINGTON BRIDGE - REMOVAL OF PAINT AND REPAINTING OF THE UNDERSIDE OF UPPER LEVEL - PROJECT AUTHORIZATION AND AUTHORITY TO AWARD CONTRACT GWB-244.006

The George Washington Bridge (GWB) was originally constructed with a single deck and opened for vehicular traffic October 25, 1931. The lower deck was added in the mid-1960s. A standard alkyd paint system, which included an aluminum topcoat over a primer containing lead, was the primary painting system which has been applied to the Bridge since its original construction.

In 1995 the Port Authority hired KTA-Tator, Inc., a paint coating consultant, to perform a paint coating evaluation of the GWB. The consultant was hired to evaluate the coatings due to an increasing number of areas of paint failure (peeling and disbonding down to the primer or base metal) caused by the large number of coats of paint applied over the 64-year life of the Bridge. This consultant recommended a complete replacement of the paint system rather than continued ineffective spot painting or overcoating of the entire steel surface.

The painting on the underside of the upper level of the GWB is currently considered the most deteriorated of all Port Authority painted bridge surfaces, with the exception of the main span of the Outerbridge Crossing, and the lower half of the GWB tower, for which work under other contracts is underway. All three projects are identified in a twenty-year master plan for painting removal and re-coating of all bridge structures.

Contract GWB-244.006 will provide for the removal of lead-based paint by abrasive means from three million square feet of steel and recoating the bare steel surfaces with a three-coat zinc, epoxy and urethane paint system having an expected life of twenty-five years.

Abrasive blasting will be accomplished within containment systems consisting of pressurized enclosures with ventilation and dust collection equipment to both protect the health of workers and prevent emissions into the environment. Air monitoring stations will be situated near the work site to verify the effectiveness of the containment system and trained inspectors will be utilized to ensure conformance to the strict containment specifications. All waste will be collected, tested, stored and removed in accordance with environmental regulations. Occupational Safety and Health Administration lead standards will be conformed to, including respiratory and other protection for workers performing paint removal.

Pursuant to the foregoing report presented by staff, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philiposian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that a project for the removal of paint and repainting of the underside of the upper level of the George Washington Bridge, at a total estimated project cost of \$80.6 million, including payments to contractors, allowances for Extra Work, Net Cost Work,

(Board - 11/7/96)

engineering, administrative and financial expenses, and a project contingency be and the same hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to award Contract GWB-244.006 at an estimated base contract cost of \$48.8 million to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience and capacity and whose bid price the Executive Director deems reasonable; and to order extra work up to six percent of the amount of the bid accepted; and to order net cost work; or to reject all bids, solicit bids on revised or the same requirements, or negotiate with one or more bidders or other contractors as he deems in the best interest of the Port Authority; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to take action with respect to purchase and construction contracts and agreements for professional and advisory services for the foregoing project as he deems in the best interest of the Port Authority, including without limitation, award to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable, rejection of all bids, solicitation of new bids on revised or the same requirements, or negotiation with one or more bidders, contractors or consultants; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to execute Contracts and Supplemental Agreements with such bidders, contractors or consultants as he deems in the best interest of the Port Authority and to order Extra Work and Net Cost Work in connection with each Contract, including Supplemental Agreements thereto; and to obtain permits and licenses and to enter into other such agreements with municipal and other entities as may be appropriate and required to effectuate the project; and it is further

RESOLVED, that the form of the foregoing contracts and agreements shall be subject to the approval of General Counsel or his authorized representative.

FUNDING FOR NEW YORK AND NEW JERSEY AIR SERVICES DEVELOPMENT OFFICES - AGREEMENT WITH THE AVIATION DEVELOPMENT COUNCIL

The Air Services Development Offices (ASDO) match tenants having purchasing needs with businesses in the communities surrounding Port Authority airports thus stimulating economic activity in those communities. As a result of ASDO's efforts, over \$166 million in contracts have been awarded by the aviation industry and other airport tenants to businesses in those nearby communities since inception of the ASDO program. The program was begun as a pilot project in Queens in 1983, was expanded to New Jersey in 1986 and, with Board approval, has been renewed since that time at an average annual cost of approximately \$310,000. The projected budgets for 1997 and 1998 are \$295,000 per year. In addition, the Port Authority will continue to provide on-airport office space to ASDO totaling approximately 1,200 square feet in Queens and 500 square feet in New Jersey.

The Aviation Development Council serves as a mechanism to address a variety of issues of concern to the aviation community and administers the Queens and New Jersey ASDO programs on behalf of the Port Authority.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that funding for the continuance of the Air Services Development programs in New York and New Jersey be and hereby is authorized for a two year period commencing January 1, 1997 at a cost not to exceed \$590,000; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with the Aviation Development Council to procure and administer contract services and provide advisory and consulting services for the Air Services Development programs at no additional cost to the Port Authority; and it is further

RESOLVED, that the form of the foregoing agreements shall be subject to the approval of General Counsel or his authorized representative.

THE WORLD TRADE CENTER - EMERGENCY DEWATERING - TELEPORT COMMUNICATIONS GROUP - RENT CREDIT

It was recommended that the Board authorize the Executive Director to grant a rent credit to Teleport Communications Group (TCG) in the amount of \$270,000 to compensate TCG for restoration activities performed on behalf of the Port Authority relating to the February 26, 1993 bombing incident at The World Trade Center.

Following the bombing, TCG provided dewatering and emergency power services to assist the Port Authority with the recovery effort. Staff has reviewed the costs submitted by TCG and considers the agreed upon rent credit amount to be fair and reasonable. TCG will pay the Port Authority the difference between the agreed upon rent credit amount and the amount TCG has already withheld from other Port Authority billings on account of its claim for reimbursement for these services. TCG will provide a general release for all claims arising out of the dewatering and emergency power services. An amount for dewatering was included in the initial bomb insurance claim payment made to the Port Authority.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to grant a rent credit in the amount of \$270,000 to Teleport Communications Group for restoration activities performed on behalf of the Port Authority relating to the February 26, 1993 bombing incident at The World Trade Center, conditioned upon the receipt from Teleport Communications Group of a general release for all claims arising out of the dewatering and emergency power services provided to the Port Authority; the form of which release shall be subject to the approval of General Counsel or his authorized representative.

(Board - 11/7/96)

QUEENS WEST WATERFRONT DEVELOPMENT - DEMOLITION AND REMOVAL OF THE NEWTOWN CREEK WHARF STRUCTURE

It was recommended that the Board authorize the Executive Director to spend approximately \$1.1 million for costs associated with the demolition and removal of the Newtown Creek Wharf (Wharf) structure on Port Authority property at Hunters Point, Long Island City, Queens. Slattery Associates, Inc., the Port Authority's call-in contractor for immediate repairs, will perform the demolition and removal work.

As part of the Port Authority's Facility Condition Survey Program, inspections were conducted in 1989 and 1993 which found the Wharf, a pile-supported relieving platform structure, to be severely deteriorated and in poor condition. Although the structure was reported to be quite deteriorated, it was not determined to be in danger of collapse in 1989. This unused area was fenced and signed to preclude entry and warn of potential danger. Deterioration continued during the 1989 to 1993 inspection periods, particularly the pile caps and deck planks resulting in the installation of additional fencing and signage.

As part of the routine inspection program, an updated condition survey was performed in June 1996 by an independent consultant, Hans-Padron Associates. The survey revealed that deterioration has advanced to the point that the structure is no longer able to safely support its own dead load; localized failures are occurring; and widespread failure and collapse is possible. Hans-Padron has recommended that the structure be removed on an immediate basis. Reconstruction of the Wharf had been anticipated as part of the Queens West Development plan for some time in the future. Since there is no need for the Wharf at this point in time, the reconstruction of a replacement structure is not planned in the short term.

The Wharf is located on the southern portion of the site and is part of the twenty acres of land purchased by the Port Authority for the Queens West Waterfront Development Project. This area is slated for development in Stage III of the General Project Plan and will become a portion of the waterfront esplanade park system and a new street.

It is expected that concurrence for this expenditure to be allocated from the Port Authority's \$125 million commitment to Queens West Waterfront Development will be sought from the Queens West Development Corporation Board of Directors.

Due to the emergency nature of the work, notification of the demolition to the United States Army Corps of Engineers and the New York State Department of Environmental Conservation has previously been made. Even though there are no immediate plans to reconstruct the Wharf, a permit application for replacement in kind, under a nationwide permit procedure, has been made in order to advise both agencies of this ultimate intention and to preserve the right to reconstruct the structure in the future, when needed, to implement this portion of the Queens West Waterfront Development General Project Plan.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor, Commissioner Gargano abstaining; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to arrange for (i) the expenditure of approximately \$1.1 million for costs associated with the demolition and removal of the Newtown Creek Wharf structure on Port Authority property at Hunters Point, Long Island City, Queens; (ii) said work to be done by the Port Authority's call-in contractor, Slattery Associates, Inc.; and (iii) the Port Authority to seek the concurrence of the Queens West Development Corporation Board to allow this expenditure be allocated from the Port Authority's \$125 million commitment to the Queens West Waterfront Development project; the form of any agreements to be entered into pursuant to the foregoing authority shall be subject to the approval of General Counsel or his authorized representative.

**GEORGE WASHINGTON BRIDGE BUS STATION - NEW YORK NATIONAL BANK -
LEASE AGREEMENT**

It was recommended that the Board authorize the Executive Director to enter into a lease agreement (the Lease) with New York National Bank (the Lessee) covering the construction and operation of a business development office, including an automated teller machine, on the Main Concourse of the George Washington Bridge Bus Station.

The Lessee, a minority bank which specializes in serving an Hispanic and African-American customer base, was chartered in 1981 and operates three branches in the South Bronx and East Harlem. The Lessee's assets exceed \$60 million.

The Lease would be for a term commencing on or about January 1, 1997 and expiring on the day preceding the third anniversary of the date payment of rental commences under the Lease, with the Lessee to have the option to extend the term of the letting for two additional three-year periods. The Lessee will pay an aggregate rental for the premises of approximately \$76,000 for the initial term. Payment of rental under the Lease will commence no later than 150 days from the commencement date of the term of the letting under the Lease. The Lessee will install all improvements, fixtures and equipment required for its operations in the premises at its sole cost and expense. The term of the letting will be subject to termination by the Port Authority, at any time, without cause, on thirty days notice, in which event the Lessee would be reimbursed for the unamortized portion of its initial capital investment in the premises to the extent that such initial capital investment does not exceed \$150,000.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with National Bank of New York at the George Washington Bridge Bus Station, substantially in accordance with the terms and conditions outlined above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**LINCOLN TUNNEL - LAND AT 30TH STREET AND TENTH AVENUE IN
MANHATTAN - DECLARATION OF PROPERTY AS SURPLUS AND
AUTHORIZATION TO SELL IT TO STUART DEAN CO., INC.**

It was recommended that the Board declare as surplus and authorize the Executive Director, on behalf of the Port Authority, to sell to Stuart Dean, Co., Inc., a New York corporation, land located at the northeast corner of 30th Street and Tenth Avenue in the Borough of Manhattan, City of New York, of approximately 1,750 square feet, such land being more particularly described below (collectively, "the property"), for the purchase price of \$129,325. The property is being sold in its "as is" condition.

The purchaser will release the Port Authority from any obligation with respect to the environmental condition of the property. In addition, the purchaser will indemnify the Port Authority against claims of or liabilities to third parties relating to certain environmental matters.

It was reported that the property is no longer required either for the purpose for which it was acquired or for any other purpose and that its disposition would be in the best interests of the Port Authority.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that it is hereby found and determined, effective upon delivery of the deed, that the property consisting of the land described below located in the Borough of Manhattan, City of New York, is no longer required for the purposes for which it was acquired:

All that certain lot, piece or parcel of land in the Borough of Manhattan, City, County and State of New York bounded and described as follows:

Beginning at a point in the easterly line of Tenth Avenue distant northerly 75 feet 6 inches as measured along the easterly line of Tenth Avenue from a corner formed by the intersection of the easterly line of Tenth Avenue with the northerly line of West 30th Street, said point being also the northwesterly corner of a certain Tract A acquired in condemnation by the Port Authority of New York and New Jersey by Order Vesting Title dated December 17, 1952, Index No. 40952-1952, in the action entitled, "In the Matter of The Application of The Port of New York Authority to Acquire Title to Certain Lands in the Borough of Manhattan, City, County and State of New York, for the Third Tube and Additional Approaches and Connections of the Lincoln Tunnel", and running:

1. Easterly along the northerly line of said Tract A and along a line that forms an interior angle of 90 degrees-00 minutes-00 seconds with the

(Board - 11/7/96)

course numbered six (6) hereinafter described, a distance of 100 feet 0 inches to a point; thence

2. Northerly still along the northerly line of said Tract A and along a line that forms an angle of 90 degrees-00 minutes-00 seconds on its westerly side with the preceding course, a distance of 9 feet 7 inches to a point; thence

3. Easterly still along the northerly line of said Tract A and along a line that forms an interior angle of 95 degrees-05 minutes-43 seconds with the preceding course, a distance of 41 feet 10 1/8 inches to a point; thence the following courses through the lands of the Port Authority of New York and New Jersey

4. Southerly along a line that forms an interior angle of 84 degrees-54 minutes-17 seconds with the preceding course, a distance of 22 feet 3 5/8 inches to a point; thence

5. Westerly along a line that forms an interior angle of 90 degrees-00 minutes-00 seconds with the preceding course, a distance of 141 feet 8 inches to a point in the easterly line of Tenth Avenue; thence

6. Northerly along the easterly line of Tenth Avenue and along a line that forms an interior angle of 90 degrees-00 minutes-00 seconds with the preceding course, a distance of 9 feet 0 inches to the point and place of beginning.

The above description is subject to such matters as an up-to-date title report may disclose; and it is further

RESOLVED, that (a) a map of the property be prepared; and (b) at the appropriate time, at the request of General Counsel or his authorized representative, the Chief Engineer execute a certificate to be annexed to said map stating that the real property shown on said map is no longer required for the purposes for which it was acquired, such map then to be filed in the Office of the Secretary of the Port Authority; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, in his discretion, for and on behalf of the Port Authority, (a) to sell and convey the property to Stuart Dean Co., Inc. in its "as is" condition for the purchase price of \$129,325 with the purchaser indemnifying the Port Authority from any environmental claims relating to the property; and (b) to do all other things necessary or appropriate in implementation or furtherance of the foregoing; and it is further

RESOLVED, that all documents which may be required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

COLUMBIA STREET GRAIN TERMINAL PROPERTY - DECLARATION OF SURPLUS STATUS, AUTHORIZATION FOR SALE AND PAYMENT FOR RELEASE BY NEW YORK STATE

It was recommended that the Board declare as surplus and authorize the Executive Director to sell to: (1) Quadrozzi Realty Corp., a New York corporation, or a related entity, or (2) upon terms to be approved by the Committee on Operations, any other party, real property known as the Columbia Grain Terminal Site located at the foot and east of Columbia Street and in and along Gowanus Bay and including the Henry Street Basin, Brooklyn, New York, the land, including that underwater, being more particularly described below ("the property"), and upon the closing thereof to make payment to the State of New York of one-quarter of the net proceeds of sale in consideration of the State's release in effect of any right or interest in or with respect to the property. The property is being sold in its "as is" condition. The purchaser will release the Port Authority from any obligation with respect to the condition, including environmental condition, of the property. In addition, the purchaser will indemnify the Port Authority against claims of and liabilities to third parties with respect to environmental matters related to the property.

It was reported that the property is no longer required for the purpose for which it was acquired and that its sale would be in the best interests of the Port Authority.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that it is hereby found and determined, effective upon delivery of the deed, that the property consisting of the parcels of land described below located in the Borough of Brooklyn, City and State of New York and any building and structure thereon is no longer required for the purposes for which it was acquired:

PARCEL 1

All that certain tract, piece or parcel of land, lying and being in the Borough (formerly City) of Brooklyn, County of Kings, City and State of New York, generally bounded and described as follows (all bearings being referred to the true meridian):

Beginning at the point of intersection of the southerly side of Bay Street as widened to eighty feet on its southerly side by an ordinance of the Common Council of the City of Brooklyn, passed December fourth, eighteen hundred seventy-six, with the easterly side of Henry Street as relocated and established south of Bay Street by said ordinance of said Council; thence from said point of beginning easterly and southeasterly along the southerly side of said Bay Street one hundred ninety-five feet more or less to a point in the westerly side of the Henry Street Basin, as established by an act of the New York State Legislature in Chapter three

hundred ninety-eighty of the laws of eighteen hundred seventy-five and approved by the Secretary of War of the United States of America, March fourth, eighteen hundred ninety; thence southerly and southwesterly along the westerly side of said Henry Street Basin, as laid out aforesaid, two thousand four hundred ninety-one and forty-nine hundredths feet more or less to a point in the exterior sea wall line as established by said act of the New York State Legislature and approved by the Secretary of War as aforesaid; thence southerly and southwesterly along said exterior sea wall line as laid out aforesaid, one thousand thirty-six and nineteen hundredths feet more or less to a point in the easterly side of Columbia Street as relocated and established south of Halleck Street by said ordinance of said Council; thence northerly and northeasterly along the easterly side of said Columbia Street one thousand nine hundred sixty-seven and forty hundredths feet to a point in the southerly line of lands conveyed by the State of New York to the City of New York by letters-patent dated June eighth, nineteen hundred thirty-five; thence south sixty-nine degrees, forty-five minutes, fifty-three seconds east, along said southerly line of lands conveyed as aforesaid, six hundred twenty-five feet to the easterly line of lands conveyed as aforesaid; thence north twenty-four degrees, two minutes, forty-four seconds east, along said easterly line of lands conveyed as aforesaid, six hundred one and ninety-two hundredths feet to the point of intersection of said easterly side of Henry Street as aforesaid with the southerly side of Halleck Street as laid out and established by the aforesaid ordinance; thence northerly and northeasterly along the easterly side of said Henry Street five hundred feet more or less to the point of beginning.

Excluding therefrom the following described parcel of land:

All that parcel of land in the twelfth ward of the Borough of Brooklyn, County of Kings, City and State of New York, bounded and described as follows:

Beginning at the point of intersection of the southerly side of Bay Street as widened to eighty feet on its southerly side by an ordinance of the Common Council of the City of Brooklyn, passed December fourth, eighteen hundred seventy-six, with the easterly side of Henry Street as relocated and established south of Bay Street by said ordinance of said Council; thence from said point of beginning easterly along the southerly side of said Bay Street one hundred ninety-five feet to a point in the westerly side of the Henry Street Basin, as established by said act of the New York State Legislature and approved by the Secretary of War as aforesaid; thence southerly along the westerly side of said Henry Street Basin as laid out aforesaid, four hundred seventy feet to a point in the southerly line of Halleck Street, as prolonged northwesterly, as now laid out upon the map of the City of New York; thence westerly along said southerly line of Halleck Street, as prolonged, one hundred ninety-five feet to a point in the easterly side of Henry Street as established by ordinance of the Common Council of

the City of Brooklyn passed December fourth, eighteen hundred seventy-six; thence northerly along said easterly line of Henry Street four hundred seventy feet to the point or place of beginning.

PARCEL 2

All that certain tract, piece or parcel of land, lying and being in the Borough (formerly City) of Brooklyn, County of Kings, City and State of New York, generally bounded and described as follows (all bearings being referred to the true meridian):

Beginning at the point of intersection of the easterly side of Henry Street Basin, as established by an act of the New York State Legislature in Chapter three hundred ninety-eight of the laws of eighteen hundred seventy-five and approved by the Secretary of War of the United States of America, March fourth, eighteen hundred and ninety, with the southerly side of Halleck Street as now laid out upon the map of the City of New York; thence from said point of beginning southwesterly, along the easterly side of said Henry Street Basin, established as aforesaid, one thousand eight hundred sixty-one feet to the southeasterly corner of said Henry Street Basin, established as aforesaid, and a point in the exterior sea wall line, as established by said act of the New York State Legislature and approved by the Secretary of War as aforesaid; thence southwestwardly, across said Henry Street Basin, established as aforesaid, two hundred fifty-seven feet to the point of intersection of the exterior sea wall line, as established aforesaid, with the westerly side of said Henry Street Basin, as established aforesaid, at the southwesterly corner thereof; thence northeastwardly, along said westerly side of said Henry Street Basin, as established aforesaid, two thousand twenty-one and forty-nine hundredths feet more or less to a point in the United States pierhead and bulkhead line as approved by the Secretary of War of the United States of America on November thirteenth, nineteen hundred and forty, which point is in the prolongation of said southerly side of Halleck Street, as now laid out aforesaid, distant four hundred seventy feet southwesterly from the southerly side of Bay Street as widened to eighty feet on its southerly side by an ordinance of the Common Council of the City of Brooklyn, passed December fourth, eighteen hundred seventy-six, measured at right angles thereto; thence southeastwardly, along said southerly line of Halleck Street as prolonged and along said United States pierhead and bulkhead lines, approved as aforesaid, and parallel with said southerly side of Bay Street, two hundred feet to the point or place of beginning.

Being shown and designated as Lots 1 and 300 in Block 614 on the Tax Map of the City of New York.

The above description is subject to such state of facts as an accurate survey may reveal; and it is further

RESOLVED, that (a) a map of the property be prepared; and (b) at the appropriate time, at the request of General Counsel or his authorized representative, the Chief Engineer execute a certificate to be annexed to said map stating that the real property shown on said map is no longer required for the purposes for which it was acquired, such map then to be filed in the Office of the Secretary of the Port Authority; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, in his discretion, for and on behalf of the Port Authority, (a) to sell and convey the property in its "as is" condition to: (1) Quadrozzi Realty Corp. or a related entity, or (2) upon terms to be approved by the Committee on Operations, any other party, and (b) upon the closing of such sale to make payment to the State of New York of one-quarter of the net proceeds thereof in consideration of the State's waiver and release of any right or interest in or with respect to the property, and (c) to do all other things necessary or appropriate in implementation or furtherance of the foregoing; and it is further

RESOLVED, that all documents which may be required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

**REGIONAL ECONOMIC DEVELOPMENT PROGRAM - SEWERAGE WASTE
TREATMENT AUTHORITIES - ADDITIONAL AMOUNT FOR ASSIGNMENT
TO THE NEW JERSEY ECONOMIC DEVELOPMENT AUTHORITY**

It was recommended, at the request of Governor Whitman, that the Board authorize the Executive Director to assign or otherwise provide to the New Jersey Economic Development Authority (NJEDA) an additional \$3,033,334 of Sewerage Authority loan repayments (the Loan Repayments) over and above the \$35.4 million previously authorized for assignment to NJEDA by the Board at its October 12, 1995 meeting.

This additional amount will allow a larger stream of revenues to be used as a pledge of security for the sale of bonds by the NJEDA for economic development projects within the New Jersey portion of the Port District.

On August 8, 1991, the Board authorized loans to six Sewerage Authorities for waste treatment projects under the Regional Economic Development Program. The original loans to the Sewerage Authorities totaled \$39,775,000 which was projected to be repaid by the Sewerage Authorities over an 18 year period without interest. Of this amount \$1,305,556 was repaid and reallocated at the request of the New Jersey Governor to Liberty Science Center. On October 12, 1995 the Board authorized, at the request of Governor Whitman, the assignment of \$35.4 million in future Loan Repayments to NJEDA. No further Loan Repayments will be available for reallocation following this authorization.

All terms and conditions applicable to the initial assignment authorized by the Board on October 12, 1995 will be applicable to this additional amount, including that no bond proceeds will be used for projects which would result in the relocation of any business from New York to New Jersey.

Pursuant to the forgoing request, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to assign or otherwise provide to the New Jersey Economic Development Authority (NJEDA) an additional \$3,033,334 of loan repayments over and above the \$35.4 million previously authorized for assignment to NJEDA by the Board at its October 12, 1995 meeting, such additional amount to be for the same purpose and subject to the same conditions applicable to the assignment authorized on October 12, 1995; the form of any agreements to be entered into pursuant to the foregoing authorization shall be subject to the approval of General Counsel or his authorized representative.

Confidential Item

This item shall not be available for public inspection until otherwise agreed to by the parties involved.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period September 1, 1996 to September 30, 1996.

 Cruz C. Russell, Director, Office of Corporate Policy and Planning
 Jeffrey A. Stein, Executive Assistant to the Chairman
 Peter Yerkes, Press Secretary

Guests

Louis Echavarria, Jr., President, Port Authority Police Lieutenants Benevolent Association
 Mark O'Neill, President, Port Authority Police Sergeants Benevolent Association

The public meeting was called to order by Chairman Eisenberg at 2:31 p.m. and ended at 2:45 p.m. The Board also met in executive session on November 21, 1996 and prior to today's public meeting.

Action on Minutes

The Secretary submitted for approval Minutes of the meeting of November 7, 1996. She reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. She reported further that the time for action by the Governors of New York and New Jersey has expired.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Audit Committee

The Audit Committee submitted a report, for information, of matters discussed in executive session at its meeting on December 12, 1996, which included discussion of internal audit matters, and the report was received.

Report of Committee on Operations

The Committee on Operations submitted a report, for information, of matters discussed in executive session at its meeting on November 21, 1996, which included a discussion of contract and lease matters and matters which could affect the competitive economic position of the Port Authority, the port district and businesses with whom we deal, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Construction

The Committee on Construction submitted a report, for information, of matters discussed at its meeting on November 21, 1996, which included a discussion of three John F. Kennedy International Airport items: the Project Authorization for the Southwest Restricted Service Road and Bridge; the Planning/Project Authorization and Award of Contracts for the Central Terminal Area Parking Structure, Area One; and the Planning and Project Authorization for the Operations Control Center. Following the public session, the Committee met in executive session to discuss contract matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Finance

The Committee on Finance submitted a report, for information, of action taken and matters discussed in executive session at its meeting on December 12, 1996, which included a discussion of contract matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Mark O'Neill, President, Port Authority Police Sergeants Benevolent Association and Louis Echavarria, Jr., President, Port Authority Police Lieutenants Benevolent Association, addressed the Board.

(Board - 12/12/96)

**JOHN F. KENNEDY INTERNATIONAL AND LAGUARDIA AIRPORTS -
ACCEPTANCE OF FEDERAL GRANTS FOR AIRPORT DEVELOPMENT
PROJECTS CONTAINING TWENTY-YEAR ASSURANCE CLAUSE**

It was recommended that the Board authorize the Executive Director to apply for and accept Federal grants for airport development projects at John F. Kennedy International (JFK) and LaGuardia (LGA) Airports which include a Special Condition requiring the Port Authority to reimburse the Federal Aviation Administration (FAA) (or deobligate federal and state grants for airport development) in the event that these facilities do not continue to operate as airports for at least twenty years after acceptance of the grants, even if the lease between the Port Authority and the City of New York (NYC) for JFK and LGA expires.

The Port Authority receives grants from the Federal Government, presently known as Airport Improvement Program (AIP) grants, for a variety of eligible projects, such as facilities or equipment associated with the construction, improvement or repair of public-use airports. Typical projects include repair of runways, taxiway and aprons; installation of runway lighting, navigational aids; and security equipment required of the Port Authority to meet governmental regulations. Grant agreements contain a provision which states that "the useful life of [aviation] facilities developed with federal funds must remain in effect for twenty years." Since the term of the lease with NYC for JFK and LGA runs only until December 31, 2015, less than twenty years remain and a potential loss of Federal funds exists. As a result, an alternative course of action had to be developed to allow the Port Authority to continue to receive full AIP funding.

Staff reached agreement with the FAA to add a special condition to each grant, stipulating that if the respective airport is closed before twenty years from issuance of the grant, the Port Authority must reimburse the FAA the difference between years in use divided by the FAA useful life (twenty years). Proration would only occur if an airport closed; it will not take effect if the airports are kept open by New York City or through a public or private operator(s). Authority would be delegated to the Executive Director and his designees to apply for and accept AIP grants containing this Special Condition.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to apply for and accept Federal grants for airport development projects at John F. Kennedy International and LaGuardia Airports which include a special condition requiring the Port Authority to reimburse the Federal Aviation Administration (or deobligate federal and state grants for airport development), in the event that these facilities do not continue to operate as airports for at least twenty years from the issuance of the grant; the form of any documents and agreements required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

JOHN F. KENNEDY INTERNATIONAL AIRPORT - OPERATIONS CONTROL CENTER - PLANNING AND PROJECT AUTHORIZATION

Many airports around the world utilize operations control centers to more effectively coordinate the many operational activities which take place at these facilities. An operations control center located in Terminal B at Newark International Airport opened this year while an operations control center at LaGuardia Airport will commence operations in the spring of 1997. The primary objective of this project is to provide a centralized operation control center (OCC) at John F. Kennedy International Airport (JFK) to monitor and control daily aeronautical and landside operations on a 24 hour per day, seven day per week basis.

The OCC will include airport aeronautical and landside information systems and communications links, as well as airline flight information systems and real-time traffic conditions on major roadways serving JFK. This information will provide staff at the OCC with the resources to better coordinate, monitor and control daily air and landside activities, thereby improving service levels while also enhancing safety and security. The OCC would also serve as a command center for snow removal and airport incidents. An adjacent conference area will be provided for meetings and observers during critical activities. The OCC will also house a construction operations coordinator for the almost \$3 billion in construction activity projected at JFK over the next several years. The OCC will enable the coordinator to have current information on all construction staging plans, locations and schedules as well as aeronautical and landside conditions. The availability of current information will be used to minimize the impact of construction activities on airport customer service.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that a project for the planning, design, construction and maintenance of an operations control center at John F. Kennedy International Airport at an estimated total project cost of approximately \$4.8 million, including payments to contractors, allowances for extra work and net cost work, planning, engineering, administrative and financial expenses, and a project contingency, be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to a) take action with respect to purchase and construction contracts and contracts for professional and advisory services related to the forgoing project as he deems in the best interest of the Port Authority, including, without limitation, award to the lowest bidder, who, in his opinion is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable; rejection of all bids, solicitation of new bids on revised or the same requirements, or negotiation with one or more bidders or other contractors; b) execute contracts and supplemental agreements with such bidders and contractors as he deems in the best

interest of the Port Authority, and to order extra work and net cost work in connection with each contract, including supplemental agreements thereto; and c) enter into such other agreements as may be necessary to effectuate the project; and it is further

RESOLVED, that the form of the contracts and agreements shall be subject to the approval of General Counsel or his authorized representative.

**PORT AUTHORITY BUS TERMINAL - AIR RIGHTS DEVELOPMENT PROJECT -
ZONING OVERRIDE**

It was recommended that the Board authorize the Port Authority Bus Terminal (PABT) Air Rights Development Project to proceed through the Request For Proposals stage up until selection in a manner that may be inconsistent with existing zoning code provisions.

Staff is currently preparing a Request for Proposals for the development of the unused air rights above the North and South Wings of the PABT. In order to maximize the value of potential development over the North Wing, it is highly likely that developers will seek to "transfer" some of the developable air rights from the South Wing to the North Wing. It is also likely that developers will propose designs and uses that do not conform with existing height, setback and use provisions of the zoning codes and regulations.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian and Schweitzer voting in favor, Commissioner Gargano abstaining; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to proceed with the Port Authority Bus Terminal Air Rights Development Project through the Request for Proposals stage up until selection in a manner that may be inconsistent with existing zoning code provisions and to do all other things necessary or appropriate in implementation or furtherance of the foregoing; and it is further

RESOLVED, that all documents which may be required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

(Board - 12/12/96)

PORT AUTHORITY INDUSTRIAL PARK AT ELIZABETH - DECLARATION OF PROPERTY AS SURPLUS AND AUTHORIZATION TO SELL LAND TO IKEA

It was reported to the Board that the Port Authority has received an offer from IKEA Center Urban Renewal L.P. (IKEA) to purchase additional property at the Port Authority Industrial Park at Elizabeth (Park) such property being designated as Parcel 1 (consisting of approximately eight acres), Parcel 2 (consisting of approximately four acres), Parcel 3 (consisting of approximately four acres) and approximately twenty acres of common area for a purchase price of \$5.4 million. The common areas consist of the Park's supporting roadways, drainage ditches and the site's environmental mitigation system.

It was further reported that the property to be purchased is no longer required for the purposes for which it was originally acquired and the sale has been recommended by staff.

The Board at its meeting of October 8, 1987 declared a parcel consisting of approximately 21.25 acres as surplus and authorized its subsequent sale to IKEA for \$3,718,750. The property was conveyed on October 20, 1988.

The Board at its meeting of February 10, 1994 authorized the declaration of surplus and sale of two then vacant parcels of land at the Park to IKEA totaling twenty-five acres for a purchase price of \$10 million.

The additional property will be purchased in "as-is" condition, including existing roadways, utilities, environmental mitigation system and other improvements. This transaction will generate \$5.4 million for the Port Authority and will be added to IKEA's regional retail shopping development thereby enhancing economic activity in the region. It will also relieve the Port Authority of ongoing landlord responsibilities arising from operation and maintenance of the roadway and utility network, and, pending New Jersey Department of Environmental Protection (NJDEP) approval and any other required regulatory actions, operation of and all responsibility for the environmental mitigation system.

IKEA agrees to release, indemnify, defend and hold harmless the Port Authority against all environmental claims except where IKEA establishes that hazardous substances have migrated onto its property from Port Authority-owned or controlled property after closing of title or where IKEA establishes that the Port Authority failed to comply with applicable laws prior to closing. IKEA also agrees to release the Port Authority from any and all claims alleged to arise out of the collapse and/or fire of January 1996, involving the warehouse complex at 850 Center Drive and environs. Additionally, IKEA will contribute at least \$4 per square foot of the gross leasable area to future off-site traffic mitigation improvements and will be responsible for compliance with all applicable governmental regulations regarding construction and operations on its property, including but not limited to all environmental, health and safety laws and subdivision and zoning requirements.

IKEA must close title within twelve months of the Contract of Sale. However, IKEA will have a period of due diligence, expiring three months after the Contract of Sale is

executed, during which it will have the right to cancel the transaction and to receive a refund of its initial deposit of \$540,000.

The Port Authority has the right to cancel the transaction if NJDEP does not approve the transfer from the Port Authority to IKEA of all environmental obligations and responsibilities.

Pursuant to the foregoing, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Port Authority of New York and New Jersey finds and determines, effective upon delivery of the deed to IKEA Center Urban Renewal L.P., that the parcels, including the common area, of real property hereinafter described consisting of a total of approximately 36 acres, are no longer required for Port Authority purposes:

PARCEL 1

All that lot, piece or parcel of land situate, lying and being in the City of Elizabeth, County of Union, State of New Jersey, which is bounded and described as follows:

Beginning at a point which is distant 1292.842 feet measured northerly at right angles to the northerly line of North Avenue East (80 feet wide) and 121.00 feet measured easterly at right angles to the centerline of the Newark and Elizabeth Branch of the Central Railroad of New Jersey (now Conrail) and running:

1. S62°-30'-01"E 550.00 feet parallel with the northerly line of North Avenue East to a point; thence
2. S27°-29'-59"W 705.002 feet parallel with the centerline of the Railroad to a point; thence
3. N62°-30'-01"W 510.00 feet parallel with the northerly line of North Avenue East to a point of curvature; thence
4. Along the arc of a circle concave to the northeast, having a radius of 40.00 feet, a central angle of 90°-00'-00" and an arc length of 62.83 feet to a point of tangency; thence
5. N27°-29'-59"E 665.002 feet parallel with the aforesaid centerline of the Railroad to the point and place of beginning.

containing 387,407.74 square feet/8.894 acres

PARCEL 2

All that lot, piece or parcel of land situate, lying and being in the City of Elizabeth, County of Union, State of New Jersey, which is bounded and described as follows:

Beginning at a point which is distant 1,914.728 feet measured northerly at right angles to the northerly line of North Avenue East (80 feet wide) and 731.00 feet measured easterly at right angles to the centerline of the Newark and Elizabeth Branch of the Central Railroad of New Jersey (now Conrail) and running:

1. S27°-29'-59"W 304.416 feet parallel with the aforesaid centerline of the Railroad to a point; thence
2. S62°-30'-01"E 570.00 feet parallel with the northerly line of North Avenue East to a point; thence
3. N27°-29'-59"E 304.416 feet parallel with the centerline of the Railroad to a point; thence
4. N62°-30'-01"W 570.00 feet parallel with the northerly line of North Avenue East to the point and place of beginning;

containing 173,517.12 square feet/3.983 acres

PARCEL 3

Beginning at a point which is distant 3,302.342 feet measured northerly at right angles to the northerly line of North Avenue East (80 feet wide) and 121.00 feet measured easterly at right angles to the centerline of the Newark and Elizabeth Branch of the Central Railroad of New Jersey (now Conrail) said point being also the northwesterly corner of a parcel of land conveyed to IKEA Development Urban Renewal, Inc. by the Port Authority of New York and New Jersey, by deed dated October 20, 1988 and recorded in the Union County Register's Office in Deed Book 3572 at page 679 on October 21, 1988 and running:

1. N62°-30'-01"W 71.00 feet parallel with the northerly line of North Avenue East to a point in the easterly right-of-way line of said Railroad; thence
2. N27°-29'-59"E 1417.658 feet parallel with the centerline of the Railroad and along the easterly right-of-way line of said Railroad to a point in the southerly line of former Bay Avenue vacated by Ordinance No.2318 passed by the City council of the City of Elizabeth on September 11, 1990; thence
3. S62°-30'-01"E 239.778 feet along said southerly line of Bay Avenue to a point; thence

4. S26°-12'-47"W 110.385 feet to a point; thence
5. N63°-06'-20"W 18.703 feet to a point; thence
6. S73°-19'-45"W 180.357 feet to a point; thence
7. S27°-29'-34"W 1013.27 feet to a point; thence
8. S16°-22'-38"E 178.139 feet to a point; thence
9. S62°-25'-03"E 303.074 feet to a point; thence
10. S70°-09'-50"E 36.022 feet to a point; thence
11. S88°-01'-21"E 46.644 feet to a point; thence
12. S62°-37'-24"E 222.356 feet to a point in the northerly line of said parcel of land conveyed to the IKEA Development Urban Renewal, Inc.; thence
13. S27°-29'-59"W 64.703 feet parallel with the centerline of the Railroad to corner point in said parcel of land conveyed to the IKEA Development Urban Renewal, Inc.; thence
14. N62°-30'-01"W 750.00 feet parallel with the northerly line of North Avenue East and along the northerly line of the parcel of land conveyed to IKEA Development Urban Renewal, Inc. to the point and place of beginning.

containing 200,897.42 square feet/4.612 acres

COMMON AREA PARCEL

Beginning at a point formed by the intersection of the northerly line of North Avenue East (80 feet wide) and the prolongation northward of the westerly line of Kapkowski Road (80 feet wide) and running:

1. N27°-29'-59"E 500.00 feet parallel with the centerline of the Newark and Elizabeth Branch of the Central Railroad of New Jersey (now Conrail) railroad to a point; thence
2. N62°-30'-01"W 1,290.00 feet parallel with the northerly line of North Avenue East to a point in the southerly line of the Newark and Elizabeth Branch of the Central Railroad of New Jersey (now Conrail); thence

(Board - 12/12/96)

3. N27°-29'-59"E 2,802.342 feet along said southerly line of the Railroad to a point; thence
4. S62°-30'-01"E 821.00 feet parallel with the northerly line of North Avenue East to a point; thence
5. N27°-29'-59"E 200.00 feet parallel with the centerline of the railroad to a point; thence
6. S62°-30'-01"E 549.00 feet parallel with the northerly line of North Avenue East to a point in the easterly line of Kapkowski Road prolonged northerly; thence
7. S27°-29'-59"W 3,502.342 feet along said easterly line of Kapkowski Road prolonged northerly to a point in the northerly line of North Avenue East; thence
8. N62°-30'-01"W 80.00 feet along the northerly line of North Avenue East to the point and place of beginning.

Excluding therefrom a parcel of land conveyed to IKEA by deed from the Port Authority on October 20, 1988 and Recorded in the Union County Register's Office in Deed Book 3572 at page 679 on October 21, 1988 and two parcels of land conveyed to IKEA by Deed from the Port Authority on August 23, 1995. Also excluding Parcels 1 and 2 herein before described in these minutes and the following described Parcel of Land.

All that lot, piece or parcel of land situate lying and being in the City of Elizabeth, County of Union and State of New Jersey, bounded and described as follows:

Beginning at a point in the northerly sideline of Center Drive distant the following two courses and east distances from the intersection of the northerly sideline of North Avenue and the easterly sideline of Kapkowski Road prolonged northerly:

- (a) North 27°-29'-59" East 662.34 feet to a point; thence
- (b) North 62°-30'-01" West 297.00 feet to the point and Place of Beginning; thence.
 1. Along the said northerly sideline of Center Drive North 62°-30'-01" West 262.00 feet to a point; thence
 2. Still along the said northerly sideline of Center Drive North 37°-55'-19" West 71.98 feet to a point in the easterly sideline of Center Drive; thence
 3. Along the said easterly sideline of Center Drive north 17°-29'-01" West 48.92 feet to a point; thence

4. Still along the said easterly sideline of Center Drive North $04^{\circ}-59'-09''$ East 78.24 feet to a point; thence
5. Still along the said easterly sideline of Center Drive North $27^{\circ}-29'-59''$ East 811.15 feet to a point; thence
6. South $62^{\circ}-30'-01''$ East 570.00 feet to a point; thence
7. South $27^{\circ}-29'-59''$ West 871.97 feet to a point; thence
8. North $62^{\circ}-30'-01''$ West 178.00 feet to a point; thence
9. South $27^{\circ}-29'-59''$ West 76.00 feet to the point and Place of Beginning.

Reserving to the Port Authority an easement for ingress and egress over the following described parcel of land:

Beginning at a point in the northerly line of North Avenue East (80' wide) where the same is intersected by the westerly line of Kapkowski Road prolonged northerly and running:

1. $N27^{\circ}-29'-59''E$ 500.00 feet along said northerly prolongation of the westerly line of Kapkowski Road to a point; thence
2. $N25^{\circ}-53'-25''W$ 171.61 feet to a point; thence
3. $N62^{\circ}-30'-01''W$ 531.25 feet parallel with the northerly line of North Avenue East to a point; thence
4. $N27^{\circ}-29'-59''E$ 1,007.97 feet parallel with the centerline of the Newark and Elizabeth Branch of the Central Railroad of New Jersey (now Conrail) to a point; thence
5. $S62^{\circ}-30'-01''E$ 60.00 feet parallel with the northerly line of North Avenue East to a point; thence
6. $S27^{\circ}-29'-59''W$ 811.15 feet parallel with the aforesaid centerline of the railroad to a point; thence
7. $S4^{\circ}-59'-09''W$ 78.24 feet to a point; thence
8. $S17^{\circ}-29'-01''E$ 48.92 feet to a point; thence
9. $S37^{\circ}-55'-19''E$ 71.98 feet to a point; thence

10. S62°-30'-01"E 559.00 feet parallel with the northerly line of North Avenue East to a point; thence
11. S27°-29'-59"W 662.34 feet parallel with the centerline of the railroad to a point in the northerly line of North Avenue East; thence
12. N62°-30'-01"W 80.00 feet along the northerly line of North Avenue East to the point and place of beginning.

Further reserving to the Port Authority of New York and New Jersey a permanent and perpetual easement for ingress and egress of emergency vehicles from former Bay Avenue over Parcel 3 thence along Center Drive to North Avenue East.

Reference to named streets or former streets in the above description is for descriptive purposes only and shall not be construed as nor is same intended to be an offer to dedicate any property to public use or to grant any right or interest therein to any party.

All bearings set forth herein are in the New Jersey State Place Coordinate System.

Being shown and designated as part of Tax Account Number 1-1440 on the Tax Assessment Map of the City of Elizabeth.

Being part of a parcel of land acquired by The Port Authority of New York and New Jersey by Deed from Central Jersey Industries, Inc. dated March 4, 1980 and recorded on March 26, 1980 in the Office of the Union County Register in Book 3216, Page 412; and it is further

RESOLVED, that, effective upon delivery of the deed to IKEA, (a) maps of such properties be prepared, and (b) the Chief Engineer of the Port Authority be and he hereby is authorized to execute a certificate to be annexed to each map stating that the properties shown on said maps are no longer required for the purposes for which they were acquired; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into agreements and instruments of conveyance to effectuate the sale of the above-described properties to IKEA, for a purchase price of \$5.4 million and upon such terms the Executive Director in his exercise of reasonable discretion approves of consistent with the major terms and provisions described herein; and it is further

RESOLVED, that all documents which may be required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

(Board - 12/12/96)

**BROOKLYN-PORT AUTHORITY MARINE TERMINAL - PIER 1 - EXPRESS
INDUSTRIES AND TERMINAL CORP. - LEASE BP-268 - LEASE
AMENDMENT**

It was recommended that the Board authorize the Executive Director to enter into an agreement with Express Industries and Terminal Corp. (Express) to extend its lease covering Pier 1 at the Brooklyn-Port Authority Marine Terminal from December 31, 1994 through December 31, 2000. In addition, the Port Authority will reimburse Express in an amount not to exceed \$180,000 by means of a rental credit for costs it incurs to make improvements to the premises.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Express Industries and Terminal Corp., substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

BROOKLYN-PORT AUTHORITY MARINE TERMINAL - EXPRESS WAREHOUSE CORPORATION - UNEXECUTED LEASE BP-259 - LEASE AMENDMENT AND SETTLEMENT OF ACCOUNT

It was recommended that the Board authorize the Executive Director to enter into an agreement with Express Warehouse Corporation (Express) to revise the term of and space under its tenancy of Piers 2 and 3 at the Brooklyn-Port Authority Marine Terminal and, based on these revisions, to adjust Express's accounts receivable balance of \$279,000 with respect to this tenancy to \$148,000. The application of an existing rental credit in the amount of \$25,000 for work performed by Express for the Port Authority will reduce the balance to \$123,000. In addition, Express's remaining accounts receivable balance of \$123,000 will be settled by the payment to the Port Authority of the negotiated sum of \$55,000.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Express Warehouse Corporation, substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

ELIZABETH-PORT AUTHORITY MARINE TERMINAL - SEA-LAND SERVICE, INC. - GENERAL OFFICE BUILDING - CONSENT TO SUBLEASE WITH U.S. GENERAL SERVICES ADMINISTRATION (GSA) AND LEASE WITH GSA FOR U.S. CUSTOMS

It was recommended that the Board authorize the Executive Director to (1) enter into an arrangement with Sea-Land Service, Inc. (Sea-Land) and the United States General Services Administration (GSA), acting on behalf of the United States Customs Service (Customs), to provide for the letting to GSA of approximately 67,458 square feet of office and storage space in Building 1210 (the Building) now leased by Sea-Land at the Elizabeth-Port Authority Marine Terminal for an initial term of ten years with the option for GSA to extend for two additional five-year periods, with Customs to be Sea-Land's tenant under a sublease until the end of Sea-Land's lease and the Port Authority's tenant for the remainder of the letting; and (2) provide for a payment structure for the expense associated with renovating the office space to GSA's specifications, estimated at \$2.85 million; and (3) amend Sea-Land's lease to remove its termination rights.

The term of the letting to GSA will commence on or about January 1, 1997 and will expire on August 31, 2007 under a form of GSA Lease which will contain provisions mandated by law in United States Government leases. The rent will commence upon Customs's occupancy of the space, which is anticipated to occur on September 1, 1997, at the annual base rate of \$21.75 per square foot for the approximately 63,844 square feet of office space during the first five years of the term and at the annual base rate of \$24.75 per square foot during the second five years of the term. The rent for the approximately 3,614 square feet of storage space will be at the annual base rate of \$15 per square foot for the entire ten-year term. GSA will have the right to extend the term for two five-year periods, with the rent to be at the annual base rate of \$29.75 per square foot for the office space during the option period or periods and at the annual base rate of \$17 per square foot for the storage space during any such period. Sea-Land will provide full building services and maintenance, including structural repair and replacement, to GSA during Sea-Land's lease for the Building at an estimated cost of \$7.40 per square foot during the first year of GSA's letting, with this cost to be included in the rent. This component of the rent will be subject to an annual CPI adjustment during the term of the letting and for any option period or periods after the initial term. The service and maintenance obligations will be assumed by the Port Authority at the end of Sea-Land's lease for the Building. Sea-Land will perform all necessary upfitting construction prior to Customs's occupying the premises. Sea-Land will be reimbursed up to \$2.85 million by the Port Authority for all costs approved by GSA. Sea-Land will pay two additional rentals, one on account of up to an estimated \$1.85 million of the reimbursement and the other on account of up to an estimated \$1 million of the reimbursement. The \$1 million component will be fully recovered by the Port Authority from Sea-Land over the remaining term of its lease and the \$1.85 million component will be partially recovered by the Port Authority from Sea-Land during that period, with the remainder to be recovered from GSA thereafter through the end of its ten-year lease term. GSA will have the right to terminate the lease during any option period on 120 days' notice to the Port Authority.

Sea-Land now has the right to terminate its lease for the Building on any December 31 during the remaining term on one year's prior notice to the Port Authority, subject to Sea-Land's payment of unamortized investment to the Port Authority. Sea-Land's lease will be amended to remove this right.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into agreements with the United States General Services Administration and Sea-Land Service, Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreements shall be subject to the approval of General Counsel or his authorized representative.

NEW YORK CITY PASSENGER SHIP TERMINAL - PIER 40 - EXPRESS INDUSTRIES AND TERMINAL CORP. - LEASE PST-38 - LEASE AMENDMENT

It was recommended that the Board authorize the Executive Director to enter into an agreement with Express Industries and Terminal Corp. (Express) to amend its Pier 40 lease, retroactive to June 30, 1995, by providing, with respect to Express's obligation to pay additional rental on subleased space, that such additional rental is payable only until the expiration or termination of the relevant sublease; the result of such amendment being to create a rental credit in favor of Express in the amount of approximately \$139,000 through December 1996.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Express Industries and Terminal Corp., substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

NEW YORK CITY PASSENGER SHIP TERMINAL - SALE OF FACILITY AND MAINTENANCE EQUIPMENT

At its September 8, 1994 meeting, the Board authorized the Executive Director to enter into an operating agreement with the New York City Economic Development Corporation (EDC) acting on behalf of The City of New York, extending the Port Authority's operation of the New York City Passenger Ship Terminal (NYCPST) for a two-year period commencing on January 1, 1995 and ending on December 31, 1996 in conjunction with a coterminous lease extension. These extensions provided EDC with the necessary time to select a new operator for the NYCPST. In August of this year, EDC announced that it had selected International Terminal Operating Co., Inc. (ITO) as the new operator. Since then, staff has been working closely with EDC and ITO to ensure a smooth transition following the expiration of the Port Authority's operating agreement and lease on December 31, 1996.

ITO has expressed an interest in purchasing the existing facility and maintenance equipment at the NYCPST which will assist ITO in its operations. The equipment to be sold is either obsolete or unique to this facility's operations, and includes baggage carts, search counters, embarkation desks, spare parts for existing machinery, office furnishings, computer devices, toll equipment, and hand and power tools and spare parts. The sale price takes into account the cost, age and present condition of the equipment. All equipment will be accepted by ITO in its "as is" condition. It is the opinion of staff that this negotiated sale to ITO will yield the highest revenue to the Port Authority.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with International Terminal Operating Co., Inc. covering the sale of facility and maintenance equipment at the New York City Passenger Ship Terminal at an estimated sale price of \$78,503; and it is further

RESOLVED, that the form of the foregoing agreement shall be subject to the approval of General Counsel or his authorized representative.

**RED HOOK CONTAINER TERMINAL TRANS-HARBOR FREIGHT SERVICE -
IMPLEMENTATION OF NEW SYSTEM - AWARD OF CONTRACTS**

Barge service between the Red Hook Container Terminal and the Port Newark/Elizabeth Port Authority Marine Terminal began in October 1991 in an effort to arrest a volume decline at the Terminal attributed to deteriorating landside transportation access due to the Gowanus Expressway reconstruction. Since 1991, the Board has authorized operating funds totaling \$8.3 million. The Regional Economic Development Program and New York and New Jersey State Congestion Mitigation and Air Quality (CMAQ) funds have contributed an additional \$2.1 million, and \$3.2 million, respectively.

The current system could incur operating expenses of \$4.2 million to move an estimated 32,000 boxes in 1996. With operating costs increasing, it could cost nearly \$6 million to transport the 45,000 containers projected for 1997. To reduce operating costs and provide for increased efficiencies, and to continue mitigation of the effect of the Gowanus Expressway reconstruction, it is recommended that a new trans-harbor freight system be implemented, including the design and construction of a barge and associated infrastructure and the purchase of Mafi roll trailers. The recommended Mafi trailer system, which rolls containers on and off a barge, as opposed to utilizing gantry cranes, is anticipated to be fully operational in early 1998 and is expected to incur operating costs of \$4.8 million to transport a projected 56,000 containers in 1998.

In 1993, CMAQ funds totaling \$5.156 million were allocated to implementation of physical improvements for the service. The 1993 CMAQ application was based on a project cost of \$6.445 million. Current estimates put this amount, including engineering and overhead costs, at \$8.6 million. Based on positive reactions by the New York State Department of Transportation, the Port Authority has filed an application for additional CMAQ funds, from the anticipated reauthorization of ISTEA in 1997, in the amount of \$1.723 million. In addition, the Port Authority is in the process of identifying other funding sources that may be reprogrammed into this project. The proportionate local share the Port Authority would need to provide for this funding requires an additional \$620,000 to be authorized for this purpose, bringing the total Port Authority share to \$1.720 million.

The 1993 CMAQ funding was approved contingent on the Port Authority providing a study to determine the market potential for a trans-harbor freight service, the extent to which user fees could be charged for the service and the optimal configuration for any such freight service given market demand. Booz Allen & Hamilton, a Port Authority consultant, has recently completed this study and has recommended the Mafi roll trailer barge system. This study has been provided to both states for their review and concurrence.

Given the variety and special nature of tasks required to implement the system, a Request for Proposal will be distributed which includes design, construction, and installation of the system.

The present trans-harbor barge service is presently operated by American Import-Export Trucking Company, a subsidiary of American Stevedoring, Inc. (ASI), the lessee of the Red Hook Container Terminal, under an agreement with the Port Authority. ASI

has the right to terminate its lease for the Red Hook Container Terminal if the barge service is discontinued.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that an additional \$620,000 to the previously authorized \$1.1 million for local match funds available for the effectuation of physical improvements for the Red Hook Container Terminal trans-harbor freight service be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to solicit proposals, enter into agreements and award contracts to design and build a barge and associated infrastructure and to purchase Mafi roll trailers and take such actions with respect to the award of project contracts as he deems in the best interest of the Port Authority including award to the lowest proposer who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose proposal price the Executive Director deems reasonable; reject all proposals, solicit new proposals on revised or the same requirements, or negotiate with one or more proposers or contractors as he shall deem in the best interest of the Port Authority, and to enter into supplemental agreements and to order extra work and net cost work in connection with each contract, including supplemental agreements thereto; and it is further

RESOLVED, that the form of all such agreements and contracts shall be subject to the approval of General Counsel or his authorized representative.

BROOKLYN-PORT AUTHORITY MARINE TERMINAL - AMERICAN STEVEDORING, INC. AND AMERICAN WAREHOUSING OF NEW YORK, INC. -LEASES BP-270, 274, 288 AND 289 - SETTLEMENT OF ACCOUNTS

It was recommended that the Executive Director be authorized to enter into agreements with American Stevedoring, Inc. (ASI) and American Warehousing of New York, Inc. (AW) granting a rent credit totaling \$856,000 to reimburse AW and ASI for costs incurred and unusable space as a result of the winter storms of 1993-1994. This credit will be applied against the tenants' outstanding arrears totaling approximately \$956,000 for the period June 1994 through and including February 1995 pertaining to their letting and tenancy of Piers 2,5,8 and 12. AW will pay to the Port Authority the balance of \$100,000 and discontinue pending litigation against the Port Authority for claims amounting to \$7.5 million. AW and ASI will provide all necessary documents to reflect such discontinuance and General Release. In conjunction with this settlement of accounts, AW's tenancy of Pier 5 will be extended from July 1, 1996 until December 31, 2000. The rental rate and amount of usable space will be reduced retroactively to June 30, 1996 to reflect the condition of the premises. AW has incurred arrears subsequent to February, 1995 in the amount of approximately \$268,000. The retroactive reduction in rental rate and space will result in a credit of \$99,000 against the rent billed to AW, as a holdover tenant, to reflect the reduced space and rental rate. The remaining arrearage, approximately \$169,000, will be paid over thirty-six months at nine percent interest per annum, beginning on January 1, 1997.

AW and ASI have been tenants at the Brooklyn-Port Authority Marine Terminal for the past ten years. They experienced ice and snow damage to cargo stored in their premises as a result of the severe 1993-1994 winter storms, incurred extraordinary operating costs to mitigate the damage and accrued rent for portions of their premises that were rendered unusable due to the presence of water and ice on the floor. Thereafter, AW instituted a suit against the Port Authority in the amount of \$6.3 million, including lost business, alleging negligent maintenance of the roof/drainage systems. In addition, AW began to withhold rent due under the terms of the leases, which totaled \$956,000 through February, 1995. AW subsequently amended its claim by an additional \$570,000, bringing the total amount of the suit to \$7.5 million.

Although the lease documents contained provisions which require AW and ASI to insure the Port Authority against such losses, the policies actually purchased by AW and ASI do not provide the coverage specified in the leases. Technically, the leases under which ASI and AW currently occupy the premises have never been executed by them, although ASI had a prior lease, which has expired.

The Port Authority has denied AW's claim for damages and filed a counterclaim for the rent arrearages. While the litigation is pending, the Law Department believes that there is a high likelihood of Port Authority success since AW and ASI took the premises in an "as is" condition and the Port Authority would not be liable to AW and ASI for damages due to rain, snow or ice, even if it leaked into the premises. Notwithstanding this, staff was able to determine that approximately \$1 million represents the value of cargo damaged, labor costs incurred and premises that could not be used. Port Commerce staff feels

it appropriate for the Port Authority to bear some financial responsibility, given the specific circumstances surrounding the events.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into agreements with American Stevedoring, Inc. (ASI) and American Warehousing of New York, Inc. (AW) granting a rent credit in the sum of \$856,000 to reimburse AW and ASI for costs incurred and unusable space as a result of the winter storms of 1993-1994. AW and ASI will formally discontinue pending litigation against the Port Authority and will provide a general release and stipulation of discontinuance. AW will repay remaining arrearage in the sum of \$100,000. In conjunction with these agreements, AW's tenancy at Pier 5, Brooklyn will be extended from July 1, 1996 until December 31, 2000. The terms of this extension will dispose of additional arrears and rental credits.

REALLOCATION OF SOUTH BUSWAY FUNDS TO CHANNEL DEEPENING PROJECTS

It was recommended that the Board authorize the Executive Director to enter into an agreement with the State of New Jersey and/or other appropriate public entity for the reallocation of \$17 million to provide the local share of funds to the United States Army Corps of Engineers for study, design, engineering, environmental analysis, construction contracts and engineering costs associated with the various New Jersey dredging projects. These monies will be allocated against the \$25 million identified in the Governor's letter to the Board of Commissioners dated March 7, 1987 as committed to the South Busway Project.

The reallocation of these funds has been requested by Governor Whitman to be used for capital improvement channel deepening projects.

In a letter to the Board dated March 7, 1987, as one element of their agreement, the Governors of the States of New York and New Jersey requested that the Port Authority contribute \$25 million to the capital costs and development by the State of New Jersey of an exclusive bus lane from the Hudson County Turnpike Extension to the Lincoln Tunnel, known as the South Busway project. In a letter from the Governor of the State of New Jersey dated April 23, 1991, the Port Authority was requested to reallocate the \$25 million to other New Jersey projects and, subsequently on July 13, 1995, the Board approved the reallocation of \$8 million to the Conrail Relocation Project. On May 2, 1996, the Governor of the State of New Jersey requested that the remaining \$17 million be reallocated to various channel deepening projects, and this request was reaffirmed by the Governor on December 11, 1996.

Under the 1986 Water Resources Act, cost sharing for navigation projects is required. The State of New Jersey will act as the local sponsor and provide the Project Cooperating Agreements as well as the local monies for the channel deepening projects of New York Harbor and Adjacent Channels (Claremont Channel), New Jersey; New York Harbor and Adjacent Channels (Port Jersey), New Jersey; New York and New Jersey Channels (Arthur Kill Channel, Howland Hook to Carteret, New York and New Jersey Channels (Perth Amboy Anchorage), New York and New Jersey.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED that the Executive Director be and he hereby is authorized to enter into an agreement, for and on behalf of the Port Authority, with the State of New Jersey and/or other appropriate public entity for the reallocation of \$17 million to provide the local share of funds to the United States Army Corps of Engineers for study, design, engineering, environmental analysis, construction contracts and engineering costs associated with various New Jersey dredging projects, such monies to be allocated against the \$25 million identified in the Governor's letter to the Board of Commissioners dated March 7, 1987 as committed to the South

) Busway Project; the form of such agreement shall be subject to the approval of General Counsel or his authorized representative.

PORT NEWARK - VISY PAPER (NY), INC. - BUILDINGS 291 AND 292 - NEW LEASE

It was recommended that the Board authorize the Executive Director to enter into an agreement with Visy Paper (NY), Inc. (Visy) to provide for the leasing of Buildings 291 and 292 and related open area and approximately 150 linear feet of berthing area at Port Newark for a wastepaper handling facility. The term of the letting of the buildings and the open area will commence on January 1, 1997 and the term of the letting of the berthing area will commence on the earlier of notice to the Port Authority from Visy that it intends to take possession of the berthing area or January 1, 1999, and the term of the letting will expire on November 30, 2031. The rental for the buildings and the open area will commence on June 1, 1997 at the annual rate of \$551,130 and the rental for the berthing area will commence when the term of its letting commences at the annual rate of \$52,500. Both rentals will be subject to escalation on January 1, 1998 and each anniversary of that date during the letting based upon 75 percent of the percentage increase in the regional Consumer Price Index with minimum and maximum increases and with the escalations to be computed based on a January 1, 1997 commencement date. Visy will pay additional rental equal to 50 percent of the wharfage charge set forth in the Port Authority's tariff, as incorporated in FMC Schedule PA-10, for "All cargo, unless otherwise specifically provided for", for its throughput of wastepaper in excess of 75,000 long tons but not in excess of 150,000 long tons per year, and equal to 25 percent thereof for any excess over 150,000 long tons per year.

The Port Authority will have the right to terminate the entire letting, without cause, effective on December 31, 2016, December 31, 2021, or December 31, 2026 on one year's prior notice. Visy will have the right to terminate the letting of either Building 292 and its related open area or the entire letting, without cause, effective on December 31, 2006 or December 31, 2016 on one year's prior notice. Upon notice from Visy that the leased berthing area has shallowed to a depth of fifteen feet below mean low water, the Port Authority will have the option to dredge the affected area to a depth of seventeen feet below mean low water. If the Port Authority does not so dredge the affected area within 180 days, Visy will have the right to terminate the letting until any such dredging is completed. Visy will be responsible for maintenance and repair of the premises, except that the Port Authority will be responsible for the wharf structure and the underground sanitary and water lines and the underground storm drainage system leading to the premises.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Visy Paper (NY), Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

PORT AUTHORITY WASHINGTON, D.C. OFFICE - LEASE AGREEMENT

It was recommended that the Board authorize the Executive Director to enter into a five-year lease renewal with Midcity Investment Company for 2,377 square feet of office space on the sixth floor of 1001 Connecticut Avenue, N.W., Washington, D.C. at an annual rental of \$52,294, exclusive of escalations. In addition the lease provides for modifications to the office space to be performed by the Landlord, and also provides the Port Authority with termination rights after a period of 2.5 years with a payment of all unamortized costs. The Port Authority's Washington D.C. office has been at this convenient and centralized location since 1991.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a five-year lease renewal with Midcity Investment Company for 2,377 square feet of office space on the sixth floor of 1001 Connecticut Avenue, N. W., Washington, D.C. at an annual rental of \$52,294 exclusive of escalations, substantially in accordance with the terms and conditions outlined herein and to do all things necessary or appropriate in the implementation or furtherance of the foregoing; and it is further

RESOLVED, that all instruments and other documents which may be required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

THE WORLD TRADE CENTER - WM. H. MCGEE & CO., INC. - LEASE RENEWAL

It was recommended that the Board authorize the Executive Director to enter into a supplemental lease agreement with Wm. H. McGee & Co., Inc. (McGee) covering the extension of the term of the letting under each of McGee's two existing lease agreements covering approximately 54,700 rentable square feet of space on the 29th floor of Two World Trade Center and on the sixth floor of the Southeast Plaza Building at the World Trade Center substantially in accordance with the following terms and conditions.

On July 11, 1996, the Board authorized the Executive Director to enter into a new lease agreement with McGee covering the letting of approximately 65,000 rentable square feet of space consisting of the entire 47th and part of the 48th floor of Two World Trade Center for an approximate seventeen-year term at an aggregate rental over the term of approximately \$27.2 million. It is anticipated that McGee's new space will be available for occupancy after its space finishing work is completed on or about May 1, 1997.

McGee's two existing leases will expire on December 31, 1996. In order to accommodate McGee's need to remain in its existing premises until it relocates to its new space, the term of the letting of the existing leases will be extended for up to six months, rent free, and thereafter on a month-to-month basis at a rental rate as provided in the agreement. McGee will pay for electricity consumption and will also pay for cleaning in its existing premises during the extension period. The space covered by McGee's two existing leases will be surrendered upon McGee's relocation to the premises under its pending new lease agreement.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a supplemental lease agreement with Wm. H. McGee & Co., Inc., substantially in accordance with the terms and conditions outlined above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

(Board - 12/12/96)

**RESCISSION AND CANCELLATION OF RESOLUTIONS AUTHORIZING
CONSOLIDATED BONDS, ONE HUNDRED EIGHTH SERIES THROUGH
CONSOLIDATED BONDS, ONE HUNDRED TENTH SERIES AND
CONSOLIDATED NOTES, SERIES TT, SERIES UU, SERIES VV, SERIES
WW AND SERIES XX**

The Board at its meeting on October 13, 1994, among other matters, established and authorized the issuance of, and authorized the sale of, Consolidated Bonds, One Hundred Eighth Series through Consolidated Bonds, One Hundred Tenth Series and Consolidated Notes, Series TT, Series UU, Series VV, Series WW and Series XX. In place of these series, action with respect to the Authority's continuing plan of financing, consisting in part of Consolidated Bonds and Consolidated Notes is to be considered today by the Board in connection with the anticipated requirements associated with the Authority's capital program projections.

Therefore, it is recommended that prior to the actions to be taken at today's meeting in connection with the Authority's plan of financing, that the Board rescind and cancel certain resolutions solely with respect to the establishment and authorization of the issuance of, and authorization the sale of, Consolidated Bonds, One Hundred Eighth Series through Consolidated Bonds, One Hundred Tenth Series and Consolidated Notes, Series TT, Series UU, Series VV, Series WW and Series XX, since these previously authorized series have not as yet been issued.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the resolutions of the Authority adopted October 13, 1994, entitled "*Consolidated Bonds, Ninety-eighth Series through Consolidated Bonds, One Hundred Tenth Series--Establishment and Issuance*" and "*Consolidated Bonds, Ninety-eighth Series through Consolidated Bonds, One Hundred Tenth Series--Sale*" (appearing, respectively, at pages 418 *et seq.* and pages 426-427 of the Official Minutes of that date), solely with respect to Consolidated Bonds, One Hundred Eighth Series, Consolidated Bonds, One Hundred Ninth Series and Consolidated Bonds, One Hundred Tenth Series, are rescinded and cancelled in their entirety; and it is further

RESOLVED, that the resolutions of the Authority adopted October 13, 1994, entitled "*Consolidated Notes, Series TT, Series UU, Series VV, Series WW and Series XX--Establishment and Issuance*" and "*Consolidated Notes, Series TT, Series UU, Series VV, Series WW and Series XX--Sale*" (appearing, respectively, at pages 428 *et seq.* and pages 433-434 of the Official Minutes of that date), are rescinded and cancelled in their entirety.

(Board - 12/12/96)

PORT AUTHORITY PLAN OF FINANCING--REPORT

Prudent financial planning makes it desirable for the Authority to have a plan of financing which will provide the flexibility to enable the Authority to provide for capital or other expenditures in connection with its facilities and for the refunding of outstanding obligations, as appropriate, through a combination of short-term, intermediate-term and long-term obligations so that necessary funds may be obtained expeditiously and at the most favorable cost to the Authority.

Recommended actions with respect to this plan of financing would include the authorization of fifteen series of Consolidated Bonds and five series of Consolidated Notes and certain technical clarifications of provisions of the Port Authority Versatile Structure Obligations Resolution, the Port Authority Variable Rate Master Note Resolution, the Port Authority Equipment Note Resolution and the Port Authority Commercial Paper Program.

Public Hearings

On December 11, 1996, public hearings in connection with this plan of financing, consistent with, and to the extent provided under, the public approval provisions of Section 147(f) of the Internal Revenue Code of 1986, were conducted by staff of the Authority's Treasury Department at the offices of the Authority located at One World Trade Center and at the Journal Square Transportation Center, pursuant to notices published on November 18, 1996, in *The New York Times*, a newspaper of general circulation in the New York portion of the Port District, and in *The Star-Ledger*, a newspaper of general circulation in the New Jersey portion of the Port District.

In pertinent part, the notices contained the following description of the Authority's current plan of financing and the Authority's facilities and projects: "Consolidated Bonds to be denominated as the One Hundred Eighth Series through the One Hundred Twenty-second Series, inclusive; Consolidated Notes to be denominated as Series TT, Series UU, Series VV, Series WW and Series XX; Versatile Structure Obligations issued under a modified Port Authority Versatile Structure Obligations Resolution; Variable Rate Master Notes issued under a modified Port Authority Variable Rate Master Notes Resolution; Commercial Paper Obligations issued under a modified Port Authority Commercial Paper Program; and Equipment Notes issued under a modified Port Authority Equipment Note Resolution, all to be issued and sold in connection with this plan of financing for various capital and other expenditures at or pertaining to certain of the facilities of the Port Authority located in the Port of New York District, to wit: the Holland Tunnel; Lincoln Tunnel; George Washington Bridge; Bayonne Bridge; Goethals Bridge; Outerbridge Crossing; Port Authority Bus Terminal; Port Authority Bus Programs; Hudson Tubes portion of the Port Authority Trans-Hudson System; Trans-Hudson Ferry Service, a facility for the provision of trans-Hudson ferry transportation services between terminal facilities in the vicinity of New Jersey Transit Corporation's rail terminal in Hoboken, N.J., and in the vicinity of Battery Park City in lower Manhattan, N.Y.; LaGuardia Airport;

(Board - 12/12/96)

John F. Kennedy International Airport; Newark International Airport; Teterboro Airport; Port Authority-Downtown Manhattan Heliport; Port Newark; Brooklyn-Port Authority Marine Terminal; Elizabeth-Port Authority Marine Terminal; Greenville Yard-Port Authority Marine Terminal; Columbia Street Marine Terminal; Howland Hook Marine Terminal; Port Authority Auto Marine Terminal, an imported automobile marine terminal facility located in Bayonne and Jersey City, N.J.; Oak Point Rail Freight Link, a rail freight improvement project in The Bronx, N.Y.; World Trade Center, a facility of commerce in Manhattan, N.Y.; Newark Legal and Communications Center, a legal and communications center in Newark, N.J.; Teleport, a satellite communications center at the Staten Island Industrial Park, Staten Island, N.Y.; Bathgate Industrial Park, an industrial park in The Bronx, N.Y.; Port Authority Industrial Park at Elizabeth, an industrial park in Elizabeth, N.J.; Port Authority Industrial Park at Yonkers, an industrial park in Yonkers, N.Y.; Newark South Ward Industrial Park, an industrial park in Newark, N.J.; Essex County Resource Recovery Facility, a mass-burn resource recovery facility in Newark, N.J.; Pre-development Site Acquisition Program, a facility for the acquisition of real property in the New Jersey and New York portions of the Port of New York District; Regional Development Facility, a facility for certain of the economic development and infrastructure renewal projects to be undertaken at the request of the States of New Jersey and New York in the New Jersey and New York portions of the Port of New York District; New Jersey Marine Development Program, a facility for certain fishery, marine or port development projects to be undertaken at the request of the State of New Jersey in the New Jersey portion of the Port of New York District; Regional Economic Development Program, a facility for certain of the transportation and economic development and infrastructure renewal projects to be undertaken at the request of the States of New Jersey and New York in the New Jersey and New York portions of the Port of New York District; a waterfront development project or facility to be located in each of Hunters Point, Queens, N.Y., and in Hoboken, N.J.; a rail freight development project or facility providing rail freight access to marine terminal facilities and providing rail freight service between Staten Island, N.Y., and New Jersey; and a comprehensive port dredging and disposal project or facility in the Port of New York and New Jersey. The initial owner, operator or manager of these facilities is or will be the Port Authority or one of its subsidiaries (presently, Port Authority Trans-Hudson Corporation and Newark Legal and Communications Center Urban Renewal Corporation). The major projects presently authorized or which may be authorized by the Port Authority to be undertaken at these facilities include: LaGuardia Airport, central terminal building expansion and improvements, general runway, taxiway and roadway modification, paving, additional passenger terminal facilities and related infrastructure and utility improvements; John F. Kennedy International Airport, general runway, taxiway and roadway modification, paving, construction of additional parking facilities, modification to the international arrivals building ramp area, hangar and ancillary airport buildings, central terminal area roadway construction, passenger distribution system, construction of additional terminal facilities and related infrastructure and utility improvements, light rail transit system linking the terminals in the central terminal area of the airport with each other and with existing transit lines in Jamaica, Queens and Howard Beach, Queens, to

(Board - 12/12/96)

provide exclusive airport access for passengers and others using the airport; Newark International Airport, general runway, taxiway and roadway modification, paving, construction of terminal improvements, construction of an intermodal connection linking the monorail with the northeast corridor rail-line; Howland Hook Marine Terminal project; Port Newark, channel dredging, berth deepening, building construction, terminal improvements, intermodal improvements; Elizabeth-Port Authority Marine Terminal, channel dredging, berth deepening, building construction, intermodal improvements; Brooklyn-Port Authority Marine Terminal, wharf and pier rehabilitation; World Trade Center capital improvements, including the upgrade of basic building systems; Bathgate Industrial Park project; Industrial Park at Elizabeth project; Industrial Park at Yonkers project; Regional Development Facility, economic development and infrastructure renewal projects; Regional Economic Development Program, transportation and economic development and infrastructure renewal projects; Teleport project; Port Authority Bus Programs project; capital improvements related to safety, maintenance or rehabilitation of the Port Authority Trans-Hudson system, Port Authority Bus Terminal, George Washington Bridge, Lincoln Tunnel, Holland Tunnel, Goethals Bridge, Bayonne Bridge, Outerbridge Crossing and Trans-Hudson Ferry Service; Pre-development Site Acquisition Program project; Newark Legal and Communications Center project; Queens West Waterfront Development project at Hunters Point, N.Y.; Hoboken South Waterfront Development project; rail freight development project; other miscellaneous capital improvements and replacements and acquisitions of equipment in connection with the facilities of the Port Authority; and a comprehensive port dredging and disposal project in the Port of New York and New Jersey. The said obligations of the Port Authority would be issued in connection with this plan of financing, for any purpose for which at the time of issuance of any of said obligations the Port Authority is authorized by law to issue its obligations, and in the maximum aggregate principal amounts noted below: each of Consolidated Bonds, Hundred Eighth Series through One Hundred Twenty-second Series, inclusive, would be in the principal amount of up to \$300,000,000; each of Consolidated Notes, Series TT, Series UU, Series VV, Series WW and Series XX, would be in the principal amount of up to \$200,000,000; Versatile Structure Obligations under a modified Port Authority Versatile Structure Obligations Resolution would be in a total aggregate principal amount of up to \$500,000,000 outstanding at any one time; Variable Rate Master Notes under a modified Port Authority Variable Rate Master Notes Resolution would be in a total aggregate principal amount of up to \$400,000,000 outstanding at any one time; Equipment Notes under a modified Port Authority Equipment Note Program would be in a total aggregate principal amount of up to \$100,000,000 outstanding at any one time; and Commercial Paper Obligations under a modified Port Authority Commercial Paper Program would be in a total aggregate principal amount of up to \$300,000,000 outstanding at any one time."

Actions Pertaining to this Plan of Financing

The Board would establish Consolidated Bonds, One Hundred Eighth Series through Consolidated Bonds, One Hundred Twenty-second Series, and would authorize the

(Board - 12/12/96)

issuance of up to \$300 million in aggregate principal amount of each series. The Board would also establish Consolidated Notes, Series TT, Series UU, Series VV, Series WW and Series XX, and would authorize the issuance of up to \$200 million in aggregate principal amount of each series. The Committee on Finance would be authorized to sell and to deliver all or any part of each of such series with such terms and at such time or times as it deems appropriate, in one or more installments, at public or private sale, and would also be authorized to take, and to delegate authority for, certain actions with respect to each of such series to effectuate its sale on the most favorable terms to the Authority. The Executive Director, Chief Financial Officer, Treasurer and Deputy Treasurer of the Authority would be authorized to take any and all action which the Committee on Finance would be authorized to take in connection with each of such series, but only if such series is issued and sold on a competitive basis, which would include submission by underwriters of sealed bids to be opened publicly, as well as submission of bids by underwriters in response to written or telephonic requests for proposals directed to selected underwriters.

The total aggregate principal amount of the Authority's bonds, notes and other obligations to be issued for purposes of capital expenditures in connection with the facilities of the Authority in any year under this plan of financing would not exceed the amount required to effectuate the Authority's budget for such year with respect to such expenditures.

Additionally, to facilitate the continued issuance of Versatile Structure Obligations, Variable Rate Master Notes, Port Authority Equipment Notes and obligations under the Port Authority Commercial Paper Program, within the scope of the current authorizations, the Board would provide for certain technical clarifications with respect to these obligations.

(Board - 12/12/96)

**CONSOLIDATED BONDS, ONE HUNDRED EIGHTH SERIES THROUGH
CONSOLIDATED BONDS ONE HUNDRED TWENTY-SECOND SERIES-
ESTABLISHMENT AND ISSUANCE**

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian and Schweitzer voting in favor; none against:

WHEREAS, heretofore and on the 9th day of October, 1952, The Port Authority of New York and New Jersey (formerly known as The Port of New York Authority and hereinafter called the "Authority") adopted a resolution (hereinafter called the "Consolidated Bond Resolution"), constituting a contract with the holders of the obligations issued thereunder, providing for the issuance of certain direct and general obligations of the Authority (hereinafter called "Consolidated Bonds"), from time to time, in conformity with the Consolidated Bond Resolution for the purposes therein set forth; and

WHEREAS, the Consolidated Bond Resolution provides that Consolidated Bonds shall be issued in such series as the Authority may determine, and that the characteristics of each such series shall be determined by the Authority by and in the resolution establishing such series, and that the resolution establishing such series may contain other terms and provisions not inconsistent with the Consolidated Bond Resolution; and

WHEREAS, the Authority has heretofore established various series of Consolidated Bonds and has now determined that it is appropriate to establish certain additional series of Consolidated Bonds, without prejudice to its right hereafter to establish further series of Consolidated Bonds;

NOW, THEREFORE, be it resolved by the Authority:

SECTION 1. As used in this resolution, any words or phrases specifically defined in the Consolidated Bond Resolution shall be read and construed in accordance with such specific definitions. As used in this resolution, the term "Authorized Officer" shall mean any of the officers or employees of the Authority designated as such from time to time by the Chairman of the Authority; Vice Chairman of the Authority; Chairman of the Committee on Finance of the Authority; Executive Director; Deputy Executive Director; Chief Financial Officer; Treasurer; or Deputy Treasurer of the Authority.

SECTION 2. Each of Consolidated Bonds, One Hundred Eighth Series through Consolidated Bonds, One Hundred Twenty-second Series, inclusive, is established as a separate series of Consolidated Bonds and the issuance of up to Three Hundred Million Dollars (\$300,000,000) of each such series is authorized. Each of such series shall be issued in conformity with the Consolidated Bond Resolution for the purposes specified in this resolution. This resolution shall apply with equal force and effect to each of such series on an individual basis (each of such series hereinafter called the "Bonds"). This resolution shall constitute a contract with the registered holders of the Bonds and with each such registered holder.

(Board - 12/12/96)

SECTION 3. The Bonds shall be issued in one or more installments as the Committee on Finance of the Authority (hereinafter called the "Committee on Finance") may hereafter determine, and, notwithstanding any terms or conditions set forth in this resolution, in connection with the issuance of the Bonds the Committee on Finance is authorized (i) prior to the issuance of any installment of the Bonds, to establish the date as of which such installment shall be dated; (ii) prior to the issuance of any installment of the Bonds, to establish the date or dates (in the event such installment is comprised in whole or in part of serial maturities) at which any of such installment shall mature; (iii) prior to the issuance of any installment of the Bonds, to establish, adjust or change the provisions relating to the rate or rates of interest to be borne by such installment and to the payment of interest on such installment; (iv) prior to the issuance of the first installment of the Bonds, to adjust or change the medium of payment for the Bonds; (v) prior to the issuance of any installment of the Bonds, to establish, adjust, change or rescind the redemption, retirement and call provisions relating to such installment; (vi) prior to the issuance of the first installment of the Bonds, to provide for the Bonds to be issued on original issuance as registered bonds or as book-entry only securities, in either case subject to a book-entry system for determining interests therein, with such adjustments and changes in the provisions of this resolution, as in the opinion of the Committee on Finance are appropriate to effectuate such issuance of the Bonds; (vii) prior to the issuance of the first installment of the Bonds, to provide for the Bonds to be separately registrable as to principal and interest (including any authorized incremental interest) to any one or more registered holders of the bonds or certificates (if any) with respect to the payment of interest thereon; (viii) prior to the issuance of the first installment of the Bonds, to provide for the Bonds to be issued as coupon bonds in the denomination of \$5,000, with such adjustments and changes in the provisions of this resolution, including the adoption of a form of coupon bond issuable only in the denomination of \$5,000, as in the opinion of the Committee on Finance are appropriate to effectuate such issuance of the Bonds; (ix) prior to the issuance of the first installment of the Bonds, if it is desirable in connection with the use of the proceeds of the Bonds for the refunding of a series of the Authority's obligations, or in connection with the issuance of the Bonds or of any other series of Consolidated Bonds, providing for warrants applicable to this or such other series of Consolidated Bonds, or otherwise, to renumber the Bonds for purposes of identification, to renumber the Bonds; (x) prior to the issuance of the first installment of the Bonds, if a prior series of Consolidated Bonds has been renumbered or the effect of the resolutions to the extent applicable to such series have been rescinded and cancelled, and if it is desirable to accomplish the plan of financing of the Authority utilizing a continuous numbered sequence of Consolidated Bonds, to renumber the Bonds; and (xi) to take such other action as in the opinion of the Committee on Finance will best serve the public interest.

The proceeds of the Bonds may be used for any purpose for which at the time of issuance of the Bonds the Authority is authorized by law to issue its obligations. The Committee on Finance may allocate the proceeds of the Bonds, from time to time, to certain of the authorized purposes, including the specific designation of any obligations to be refunded with the proceeds of the Bonds.

(Board - 12/12/96)

Both principal of and interest on the Bonds shall be payable in lawful money of the United States of America; principal of the Bonds shall be payable upon presentation and surrender thereof by the registered holders, at the office or offices, designated by the Authority, of the Paying Agent (or Paying Agents) appointed for the purpose by the Authority, in a county which is in whole or in part in the Port of New York District; and interest on the Bonds shall be payable when due to the registered holders thereof by check or draft drawn on the Paying Agent (or Paying Agents) appointed for the purpose by the Authority and mailed to said registered holders at their last known addresses as appearing upon the Registry Books of the Authority.

SECTION 4. The Bonds shall be issued only in registered form, registered as to both principal and interest and not as to either alone, in such authorized denominations as may be determined by the Committee on Finance.

The Authority will keep or cause to be kept at the offices, designated by the Authority, of its Registrar appointed for that purpose, in a county which is in whole or in part in the Port of New York District, proper and sufficient books for the registration of the Bonds. The Bonds shall be transferable only upon such books by the registered holder thereof or by such registered holder's attorney duly authorized in accordance with the provisions of this resolution. Upon the written request of the registered holder or registered holders thereof and upon surrender thereof, a bond or bonds may be exchanged for a bond or bonds of like tenor, registered as designated in such request, of any other authorized denominations. All requests for registration, transfer, exchange and delivery pertaining to the Bonds as above provided shall be filed with the Registrar of the Authority; all bonds to be surrendered pursuant to such requests shall be surrendered to the Registrar; and all bonds delivered in exchange as aforesaid shall be delivered by the Registrar. All bonds surrendered to the Registrar in exchange for other bonds or for transfer as above provided shall be cancelled by the Registrar upon such surrender. The Authority shall bear the cost incurred by the Authority in connection with the registration, authentication (if any), transfer, cancellation, exchange and delivery of bonds, including such fees as may be imposed by the Registrar for such services performed by the Registrar as provided in this resolution.

Nothing contained in this resolution shall be deemed to authorize the execution and delivery of bonds except in authorized denominations.

SECTION 5. The Bonds shall be redeemable at the option of the Authority, in whole, or, from time to time, in part, at such times and at such redemption prices established for the Bonds pursuant to Section 3 of this resolution, on prior notice, on the date to be fixed for redemption in the Authority's notice of intention to redeem the Bonds.

If less than all of the Bonds then outstanding are to be called for redemption at the option of the Authority, and if the Bonds then outstanding include bonds of any serial maturities, the bonds so to be called shall be in inverse order of maturity, and if bonds constituting a particular maturity are to be called for redemption, but not all bonds

(Board - 12/12/96)

constituting such maturity are to be called for redemption, the bonds so to be called shall be determined by lot, by the Authority or the Registrar, in such manner and by such entity as the Authority may elect or by such other system or method as the Committee on Finance may determine.

If bonds are to be called for redemption to meet the schedule of mandatory periodic retirement provided for the Bonds, the bonds so to be called shall be determined by lot, by the Authority or the Registrar, in such manner and by such entity as the Authority may elect or by such other system or method as the Committee on Finance may determine.

Notice of intention to redeem any of the Bonds shall be given by the Authority or the Registrar, as the Authority may elect, not less than thirty (30) nor more than forty-five (45) days prior to the date fixed for redemption, to the registered holders of the bonds to be called for redemption, by deposit of a copy of such notice, postage prepaid by certified or registered mail, in a United States Post Office, addressed to such registered holders at their last known addresses as appearing upon the Registry Books of the Authority. Notice of the mailing of such notice of intention to redeem bonds shall also be published by the Authority in a daily newspaper of general circulation in the Port of New York District not less than thirty (30) nor more than forty-five (45) days prior to the date fixed for redemption; *provided, however*, that failure to give such notice by publication, or any defect therein, shall not affect the validity of any action with respect to the redemption of such bonds.

On or before the date fixed for redemption specified in the Authority's notice of intention to redeem, the Authority will pay or cause to be paid to the Paying Agent (or Paying Agents) an amount in cash in the aggregate sufficient to redeem all of the bonds which are to be redeemed, at the respective redemption prices thereof, which, in each case, shall include the accrued interest until the date fixed for redemption and the premium (if any), such principal amount and premium (if any), to be held by the Paying Agent (or Paying Agents) in trust for the account of the registered holders of the bonds so called for redemption and to be paid to them respectively upon presentation and surrender of the said bonds with accrued interest included in such redemption price to be paid to the registered holders in accordance with the provisions of this resolution. On and after the date fixed for redemption, the notice of intention to redeem having been completed as above provided, the bonds so called shall become due and payable at the office of the Paying Agent (or Paying Agents) designated by the Authority, and if funds sufficient for payment of the redemption price shall have been deposited with the Paying Agent (or Paying Agents) in trust as aforesaid and if such funds shall be available for redemption of such bonds on the date fixed for redemption, then and in any such event, interest shall cease to accrue on the bonds so called on and after the date fixed for their redemption, and such bonds shall not be entitled to the benefit or security of this resolution or the Consolidated Bond Resolution, but shall rely solely upon the funds so deposited.

In the case of bonds of denominations greater than the minimum authorized denomination, for all purposes in connection with redemption, each unit of face value

(Board - 12/12/96)

representing the minimum authorized denomination shall be treated as though it were a separate bond of the minimum authorized denomination, and the word "bond" as used in the foregoing provisions of this Section 5 shall be deemed to refer to such unit of face value representing the minimum authorized denomination. If it is determined as above provided that one or more but not all of the units of face value representing the minimum authorized denomination of any bond are to be called for redemption, then upon notice of intention to redeem such unit or units, the registered holder of said bond shall forthwith present said bond to the Registrar who shall issue a new bond or bonds of like tenor of smaller authorized denominations but of the same aggregate principal amount in exchange therefor, pursuant to Section 4 of this resolution, including a new bond or bonds with the aggregate principal amount of the unit or units of face value called for redemption; and such new bond or bonds shall be deemed to be duly called for redemption without further notice to the registered holder thereof. If the registered holder of such bond of a denomination greater than the minimum authorized denomination shall fail to present such bond to the Registrar for the issuance of new bonds of smaller denominations in exchange therefor, as aforesaid, such bond shall nevertheless become due and payable on the date fixed for redemption to the extent of the unit or units of face value called for redemption (and to that extent only); and (funds sufficient for the payment of the redemption price having been deposited with the Paying Agent (or Paying Agents), as aforesaid, and being available as aforesaid on the date fixed for redemption) interest shall cease to accrue on the portion of the principal amount of such bond represented by such unit or units of face value on and after the date fixed for redemption, and such bond shall not be entitled to the benefit or security of this resolution or the Consolidated Bond Resolution to the extent of the portion of its principal amount (and accrued interest thereon until the date fixed for redemption and premium, if any) represented by such unit or units of face value, but to that extent shall rely solely upon the funds so deposited.

SECTION 6. The Bonds shall be retired at or prior to maturity, by purchase, call or payment, by the dates and in at least the cumulative principal amounts set forth on the schedule of mandatory periodic retirement provided for the Bonds pursuant to Section 3 of this resolution.

If, at least forty-five (45) days prior to the mandatory periodic retirement date in each year (except the year of maturity) set forth in the schedule of mandatory periodic retirement provided for the Bonds, the Authority shall not have purchased or redeemed (at any prior time or times during such year or at any time or times during any prior years) a principal amount of the Bonds at least equal to the principal amount of the Bonds to be retired on such mandatory periodic retirement date, then the Authority shall call a principal amount of the Bonds equal to such deficiency, in the manner and upon the notice set forth in Section 5 of this resolution at the redemption price established pursuant to Section 3 of this resolution. Any of the Bonds purchased by the Authority as aforesaid may be purchased at such prices as the Authority may deem reasonable and proper and, in the discretion of the Authority, at public or private sale, with or without advertisement and with or without notice to any person other than the seller, and such of the Bonds as are

(Board - 12/12/96)

theretofore issued and negotiated and then held by the Authority may be purchased for such purpose as well as bonds held by others.

Nothing herein contained shall be construed in any way to prevent the Authority from retiring the Bonds more rapidly than is set forth in the schedule of mandatory periodic retirement provided for the Bonds.

SECTION 7. The Authority shall not apply any moneys in the Consolidated Bond Reserve Fund except for the payment of bonds secured by a pledge of the General Reserve Fund in whole or in part, the payment of debt service upon bonds so secured, the purchase for retirement of bonds so secured or the redemption of bonds so secured, or for the payment of expenses incurred for the establishment, acquisition, construction or effectuation, or for the operation, maintenance, repair or administration of any facility financed or refinanced in whole or in part by bonds secured by a pledge of the General Reserve Fund in whole or in part, or otherwise for the fulfillment of any undertakings which the Authority has assumed or may or shall hereafter assume to or for the benefit of the holders of bonds secured by a pledge of the General Reserve Fund in whole or in part; *provided, however,* that nothing herein contained shall be construed to permit the application by the Authority of moneys in the Consolidated Bond Reserve Fund except for purposes and upon conditions which are authorized by the Consolidated Bond Resolution.

Consolidated Bonds proposed to be issued for purposes in connection with an additional facility or a group of additional facilities in connection with which the Authority has not theretofore issued bonds which have been secured by a pledge of the General Reserve Fund in whole or in part, may be issued, and bonds other than Consolidated Bonds proposed to be issued for purposes in connection with such an additional facility or group of additional facilities may be secured by a pledge of the General Reserve Fund in whole or in part, in each case if and only if the Authority shall certify at the time of issuance (as defined in Section 3 of the Consolidated Bond Resolution) its opinion that the issuance of such Consolidated Bonds or that such pledge of the General Reserve Fund as security for such bonds other than Consolidated Bonds will not, during the ensuing ten (10) years or during the longest term of any of such bonds proposed to be issued (whether or not Consolidated Bonds), whichever shall be longer, in the light of its estimated expenditures in connection with such additional facility or such group of additional facilities, materially impair the sound credit standing of the Authority or the investment status of Consolidated Bonds or the ability of the Authority to fulfill its commitments, whether statutory or contractual or reasonably incidental thereto, including its undertakings to the holders of Consolidated Bonds; and the Authority may apply moneys in the General Reserve Fund for purposes in connection with those of its bonds and only those of its bonds which it has theretofore secured by a pledge of the General Reserve Fund in whole or in part. Expenditures in connection with an additional facility or group of additional facilities shall mean the amount of the excess, if any, of the sum of all items of expense to be considered in determining the net revenues of the additional facility or group of additional facilities plus the debt service upon the bonds proposed to be issued and upon any additional bonds

(Board - 12/12/96)

which in the Authority's opinion would be required to be issued to place and maintain such facility or group of facilities upon a sound operating basis, over and above the sum of all items of revenue and income to be considered in determining such net revenues.

SECTION 8. The Authority shall appoint a bank or trust company as trustee for and in connection with the Bonds (hereinafter called the "Trustee"). The Trustee is authorized to (i) institute any action or proceeding on behalf of the registered holders of the Bonds against the Authority or others, or (ii) intervene in any pending action or proceeding, or (iii) take any other action which it shall in its sole discretion determine to be necessary or advisable in order to protect the rights of the registered holders of the Bonds. The rights of the Trustee in this respect and in all other respects shall be in addition to and not in substitution of any and all rights which would otherwise inure to the registered holder or registered holders of the Bonds. It is understood that the Trustee in its sole discretion may, but shall be under no obligation to, review the activities or operations of the Authority or any of the contracts or agreements of the Authority or exercise any of the rights or powers vested in it by this Section 8 whether on the Trustee's initiative or at the request or direction of any of the registered holders of the Bonds.

The Trustee (which shall include any successor Trustee) appointed under the provisions of this Section 8 shall be a bank or trust company organized under the laws of the State of New York or the State of New Jersey or a national banking association doing business and having its principal office in the Port of New York District and having a total capital (including capital stock, surplus, undivided profits and capital notes, if any) aggregating at least \$25,000,000, which is willing and able to accept the office on reasonable and customary terms and is authorized by law to perform all the duties imposed upon it by this resolution.

The Trustee shall not be liable for any action taken or suffered upon any notice, resolution, request, consent, order, certificate, report, opinion, bond or other paper or document believed by it to be genuine, and to have been signed or presented by the proper party or parties. The Trustee may consult with counsel, who may or may not be counsel to the Authority, and the opinion of such counsel shall be full and complete authorization and protection in respect of any action taken or suffered by it under this resolution in good faith and in accordance therewith. The Trustee shall not be liable in connection with the performance or nonperformance of its duties except for its own willful misconduct, negligence or bad faith.

If the Trustee shall deem it necessary or desirable that a matter be proved or established prior to taking or suffering any action under this resolution, such matter (unless other evidence in respect thereof be specifically prescribed) may be deemed to be conclusively proved and established by a certificate of an Authorized Officer, and such certificate shall be full warrant for any action taken or suffered in good faith under the provisions of this resolution upon the faith thereof; but in its discretion the Trustee may in lieu thereof accept other evidence of such fact or matter or may require such further or additional evidence as to it may seem reasonable.

(Board - 12/12/96)

The Authority shall annually, within one hundred twenty (120) days after the close of each calendar year, file with the Trustee a statement of an Authorized Officer showing for the preceding calendar year (i) net revenues, (ii) the aggregate interest paid on bonds of the Authority, and (iii) the payments of principal on bonds of the Authority.

The Authority shall annually, within one hundred twenty (120) days after the close of each calendar year, file with the Trustee a copy of its annual report for such year and its financial statement for such year accompanied by an opinion signed by an independent public accountant or firm of public accountants of recognized standing selected by the Authority and satisfactory to the Trustee.

The Authority shall file with the Trustee a copy of any Official Statement hereafter issued by the Authority in connection with the issuance of bonds by the Authority.

The Authority shall file with the Trustee a copy of the minutes of every meeting of the Authority and of its subsidiary corporations at the time said minutes are transmitted to the Governor of New York and the Governor of New Jersey.

The Authority shall not be required to file with the Trustee (except when requested to do so by the Trustee) and the Trustee shall not be required to review any document, instrument, report or paper other than those which the Authority is expressly required hereunder to file with the Trustee. The Trustee shall not be bound to make any investigation into the facts or matters stated in any document, instrument, report or paper supplied to it, but the Trustee in its sole discretion may make such further inquiry or investigation into such facts or matters as the Trustee may deem advisable, and, if the Trustee shall determine to make such further inquiry or investigation, the Trustee is authorized to examine such books and records of and properties owned or operated by the Authority as the Trustee may deem advisable, personally or by agent or attorney.

The Authority agrees (i) to pay to the Trustee from time to time reasonable compensation for all services rendered by it hereunder, (ii) to reimburse the Trustee upon its request for all reasonable expenses, disbursements and advances incurred or made by the Trustee in connection with the exercise or performance of any of its powers or duties hereunder (including the reasonable compensation and the expenses and disbursements of its agents and counsel), and (iii) to indemnify the Trustee for, and hold it harmless against, any loss, liability or expense incurred without willful misconduct, negligence or bad faith on its part, arising out of or in connection with the exercise or performance of the Trustee's powers and duties hereunder, including the costs and expenses of defending itself against any claim or liability in connection with such exercise or performance.

The Trustee may become the owner or holder of any bonds of the Authority with the same rights as it would have were it not a Trustee. To the extent permitted by law, the Trustee may act as depositary for the Authority, act as Paying Agent and Registrar of bonds of the Authority and act itself and permit any of its officers or directors to act in any other capacity with respect to the Authority, the bonds of the Authority and the holders of

(Board - 12/12/96)

bonds of the Authority as it or its officers or directors would be able to act were it not a Trustee.

The Trustee may at any time resign and be discharged of the duties and obligations created by this resolution by giving not less than sixty (60) days' written notice to the Authority and publishing notice thereof, specifying the date when such resignation shall take effect, once in each week for two (2) successive calendar weeks in a newspaper of general circulation in the City of New York, State of New York, and such resignation shall take effect upon the date specified in such notice unless previously a successor shall have been appointed by the Authority in which event such resignation shall take effect immediately on the appointment of such successor.

The Trustee may be removed at any time by an instrument or concurrent instruments in writing, filed with the Trustee, and signed and acknowledged by the registered holders of a majority in principal amount of the Bonds then outstanding or by their attorneys duly authorized, excluding the principal amount of any of the Bonds held by or for the account of the Authority.

In case at any time the Trustee shall resign or shall be removed or shall become incapable of acting, or shall be adjudged a bankrupt or insolvent, or if a receiver, liquidator or conservator of the Trustee, or of its property, shall be appointed, or if any public officer shall take charge or control of the Trustee, or of its property or affairs, a successor may be appointed by the holders of a majority in principal amount of the Bonds then outstanding, excluding the principal amount of any of the Bonds held by or for the account of the Authority, by an instrument or concurrent instruments in writing signed and acknowledged by such registered holders of the Bonds or by their attorneys duly authorized and delivered to such successor Trustee, notification thereof being given to the Authority and the predecessor Trustee; *provided, however,* nevertheless, the Authority shall forthwith appoint a Trustee to fill such vacancy until a successor Trustee shall be appointed by the registered holders of the Bonds as authorized in this Section 8. The Authority shall publish notice of any such appointment made by it once in each week for two (2) consecutive calendar weeks, in a newspaper of general circulation in the City of New York, State of New York, the first publication to be made within twenty (20) days after such appointment. Any successor Trustee appointed by the Authority shall, immediately and without further act, be superseded by a Trustee appointed by the registered holders of the Bonds.

Any company into which any Trustee may be merged or converted or with which it may be consolidated or any company resulting from any merger, conversion or consolidation to which it shall be a party or any company to which any Trustee may sell or transfer all or substantially all of its corporate trust business (*provided, however,* such company shall be a bank or trust company located in the Port of New York District and shall be authorized by law to perform all the duties imposed upon it by this resolution), shall be the successor to such Trustee without the execution or filing of any paper or the performance of any further act.

(Board - 12/12/96)

The failure of the Authority to take any action required by this Section 8 shall not invalidate any bond or bonds issued pursuant to this resolution or hereafter issued by the Authority, or affect any other actions of the Authority. The Authority shall in no way be restricted by this Section 8 from entering any defense to an action or proceeding instituted by the Trustee or by the registered holder or registered holders of the Bonds.

SECTION 9. The form of the bond, including provisions with respect to numbering, authentication and assignment, for the Bonds shall be determined by the Committee on Finance or by an Authorized Officer. The bonds shall have the official seal of the Authority, or a facsimile thereof, affixed thereto or printed or impressed thereon, and shall be signed by an Authorized Officer; *provided, however,* that each bond may be executed by the facsimile signature of an Authorized Officer and, in such event, such bond shall have endorsed thereon a certificate of authentication manually executed by the Registrar of the Authority. No bond bearing a facsimile signature of any Authorized Officer shall be entitled to any benefit under this resolution or the Consolidated Bond Resolution or be valid or obligatory for any purpose unless and until such certificate of authentication shall have been manually executed by the Registrar of the Authority, as aforesaid, and such manually executed certificate upon such bond shall be conclusive evidence that such bond has been authenticated and delivered under this resolution. Such certificate of authentication on any such bond shall be deemed to have been executed by the Registrar of the Authority, as aforesaid, if signed by an authorized officer thereof, but it shall not be necessary that the same officer sign the certificate of authentication on all of such bonds issued under this resolution. In case any Authorized Officer who shall have signed or whose facsimile signature shall appear on any of the bonds shall cease to be an Authorized Officer before such bonds shall have been actually issued, such bonds may nevertheless be issued as though such Authorized Officer who signed such bonds had not ceased to be an Authorized Officer.

SECTION 10. In case any bond shall at any time become mutilated or be lost or destroyed, the Authority, in its discretion, may execute and deliver a new bond of like tenor in exchange or substitution for and upon cancellation of such mutilated bond or in lieu of or in substitution for such destroyed or lost bond; or if such bond shall have matured, instead of issuing a substitute bond the Authority may pay the same without surrender thereof. In case of destruction or loss, the applicant for a substitute bond shall furnish to the Authority evidence satisfactory to the Authority of the destruction or loss of such bond and of the ownership thereof and also such security and indemnity as may be required by the Authority. The Authority may execute and deliver any such substitute bond or make any such payment; or any Paying Agent may make any such payment upon the written request or authorization of the Authority. Upon the issuance of any substitute bond, the Authority, at its option, may require the payment of a sum sufficient to reimburse it for any stamp tax or other governmental charge or other reasonable expense connected therewith and also a further sum not exceeding the cost of preparation of each new bond so issued in substitution. Any bond issued under the provisions of this section in lieu of any bond alleged to have been destroyed or lost shall constitute an original contractual

(Board - 12/12/96)

obligation on the part of the Authority, whether or not the bond so alleged to have been destroyed or lost be at any time enforceable by anyone, and shall be equally and proportionately entitled to the security of this resolution and of the Consolidated Bond Resolution with all other bonds, notes and coupons (if any) issued hereunder or thereunder.

SECTION 11. The Executive Director, Chief Financial Officer, Treasurer and Deputy Treasurer of the Authority are authorized to take any and all action which the Committee on Finance is authorized to take pertaining to the issuance and sale of the Bonds or otherwise under this resolution (without further action by the Committee on Finance); *provided, however*, that any such action may only be taken by the Executive Director, Chief Financial Officer, Treasurer or Deputy Treasurer, if the Bonds are issued and sold on a competitive basis.

(Board - 12/12/96)

**CONSOLIDATED BONDS, ONE HUNDRED EIGHTH SERIES THROUGH
CONSOLIDATED BONDS, ONE HUNDRED TWENTY-SECOND SERIES-
SALE**

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian and Schweitzer voting in favor; none against:

SECTION 1. This resolution shall apply with equal force and effect to each of Consolidated Bonds, One Hundred Eighth Series through Consolidated Bonds, One Hundred Twenty-second Series, inclusive, on an individual basis (each such series hereinafter called the "Bonds").

SECTION 2. The Committee on Finance of the Authority (hereinafter called the "Committee on Finance") is authorized in the name of and on behalf of the Authority to sell all or any part of Three Hundred Million Dollars (\$300,000,000), in principal amount of the Bonds, at a price which will result in a true interest cost to the Authority not in excess of twelve per centum (12%), at public or private sale, with or without advertisement, in one or more installments, at one or more times, and to apply the proceeds of such sale or sales as provided in the resolution authorizing the establishment and issuance of the Bonds.

SECTION 3. The Committee on Finance is authorized in the name of and on behalf of the Authority, in connection with the Bonds, to fix the time or times of sale of the Bonds, to determine the terms and conditions upon which such sales shall be made and to accept or reject offers in connection with such sales.

SECTION 4. The Committee on Finance is authorized in the name of and on behalf of the Authority, in connection with the Bonds, to enter into any contracts or agreements pertaining to the Bonds; to fix the time or times and determine the terms and conditions of delivery of the Bonds; to appoint one or more Paying Agents and a Registrar and a Trustee, and to designate the office or offices of any such Paying Agent (or Paying Agents) at which payments shall be made and the office or offices of any such Registrar at which the books for registration shall be kept; to make any selection, designation, determination or estimate and to take or withhold any action and to formulate and express any opinions and to exercise any discretion or judgment which may be or is required to be made, taken, withheld, formulated, expressed or exercised in connection with the Bonds, the Authority adopting all such selections, designations, determinations, estimates, actions, withholdings of action, formulations and expressions of opinions and exercises of discretion or judgment, including those pursuant to Section 3 of the Consolidated Bond Resolution, or otherwise, as its own; and to authorize any of the foregoing and generally to take such other action as in the opinion of the Committee on Finance will best serve the public interest.

SECTION 5. The Committee on Finance is authorized to arrange, from time to time (i) for the preparation and distribution of disclosure documents, including official statements, offering statements or other offering materials in connection with the Bonds and (ii) for the preparation and distribution of such other documents giving pertinent data

(Board - 12/12/96)

with respect to the Authority and its finances as it deems appropriate, in each case, in the name of and on behalf of the Authority.

SECTION 6. The Executive Director, Chief Financial Officer, Treasurer and Deputy Treasurer of the Authority are authorized to take any and all action which the Committee on Finance is authorized to take pertaining to the issuance and sale of the Bonds or otherwise under this resolution (without further action by the Committee on Finance); *provided, however*, that any such action may only be taken by the Executive Director, Chief Financial Officer, Treasurer or Deputy Treasurer, if the Bonds are issued and sold on a competitive basis.

SECTION 7. The Committee on Finance or any Authorized Officer is authorized, in connection with the issuance of the Bonds on the basis that the Bonds are to be in conformity with, and that the interest on the Bonds is not to be includible for Federal income tax purposes in the gross income of the recipients thereof under, Section 103(a) of the Internal Revenue Code of 1986, or successor provisions of law, and the regulations thereunder, to take any action which may be appropriate to assure that the Bonds are issued, and during their term are outstanding, on such basis, and any such actions taken in connection therewith are ratified. Any Authorized Officer is authorized to certify on behalf of the Authority as to the need for the issuance of the Bonds, as to the status of the projects for which the proceeds of the Bonds are to be used, as to the Authority's intentions with respect to the application and investment of the proceeds of the Bonds, and as to such other related matters as may be authorized by the Committee on Finance and any such actions taken in connection therewith are ratified. As used in this resolution, the term "Authorized Officer" shall mean any of the officers or employees of the Authority designated as such from time to time by the Chairman of the Authority; Vice Chairman of the Authority; Chairman of the Committee on Finance; Executive Director; Deputy Executive Director; Chief Financial Officer; Treasurer; or Deputy Treasurer of the Authority.

(Board - 12/12/96)

**CONSOLIDATED NOTES, SERIES TT, SERIES UU, SERIES VV, SERIES WW
AND SERIES XX-ESTABLISHMENT AND ISSUANCE**

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian and Schweitzer voting in favor; none against:

WHEREAS, heretofore and on the 9th day of October 1952, The Port Authority of New York and New Jersey (formerly known as The Port of New York Authority and hereinafter called the "Authority") adopted a resolution (hereinafter called the "Consolidated Bond Resolution"), constituting a contract with the holders of the obligations issued thereunder, providing for the issuance of certain direct and general obligations of the Authority (hereinafter called "Consolidated Bonds"), from time to time, in conformity with the Consolidated Bond Resolution for the purposes therein set forth; and

WHEREAS, the Consolidated Bond Resolution provides that Consolidated Bonds shall be issued in such series as the Authority may determine, and that the characteristics of each such series shall be determined by the Authority by and in the resolution establishing such series, and that the resolution establishing such series may contain other terms and provisions not inconsistent with the Consolidated Bond Resolution and the Authority has provided funds for authorized purposes in part by the issuance of short-term bonds (hereinafter called "Consolidated Notes"), from time to time, in conformity with the Consolidated Bond Resolution; and

WHEREAS, the Authority has heretofore established various series of Consolidated Notes and has now determined that it is appropriate to establish certain additional series of Consolidated Notes, without prejudice to its right hereafter to establish further series of Consolidated Bonds or Consolidated Notes;

NOW, THEREFORE, be it resolved by the Authority:

SECTION 1. As used in this resolution, any words or phrases specifically defined in the Consolidated Bond Resolution shall be read and construed in accordance with such specific definitions. As used in this resolution, the term "Authorized Officer" shall mean any of the officers or employees of the Authority designated as such from time to time by the Chairman of the Authority; Vice Chairman of the Authority; Chairman of the Committee on Finance of the Authority; Executive Director; Deputy Executive Director; Chief Financial Officer; Treasurer; or Deputy Treasurer of the Authority.

SECTION 2. Each of Consolidated Notes, Series TT, Consolidated Notes, Series UU, Consolidated Notes, Series VV, Consolidated Notes, Series WW and Consolidated Notes, Series XX, is established as a separate series of Consolidated Notes and the issuance of up to Two Hundred Million Dollars (\$200,000,000) of each such series is authorized. Each of such series shall be issued in conformity with the Consolidated Bond Resolution for the purposes specified in this resolution. This resolution shall apply with equal force and effect

(Board - 12/12/96)

to each of such series on an individual basis (each of such series hereinafter called the "Notes"). This resolution shall constitute a contract with the registered holders of the Notes and with each such registered holder.

SECTION 3. The Notes shall be issued in one or more installments as the Committee on Finance of the Authority (hereinafter called the "Committee on Finance") may hereafter determine, and, notwithstanding any terms or conditions set forth in this resolution, in connection with the issuance of the Notes the Committee on Finance is authorized (i) prior to the issuance of any installment of the Notes, to establish the date as of which such installment shall be dated; (ii) prior to the issuance of any installment of the Notes, to establish the date or dates (in the event such installment is comprised in whole or in part of serial maturities) at which any of such installment shall mature; *provided, however,* that said date or dates shall not be more than three (3) years from the date as of which such installment is dated; (iii) prior to the issuance of any installment of the Notes, to establish, adjust or change the provisions relating to the rate or rates of interest to be borne by such installment and to the payment of interest on such installment; (iv) prior to the issuance of the first installment of the Notes, to adjust or change the medium of payment for the Notes; (v) prior to the issuance of any installment of the Notes, to establish, adjust, change or rescind the redemption, retirement and call provisions relating to such installment; *provided, however,* that the Committee on Finance may not establish, adjust or change such redemption, retirement and call provisions to impose a call premium; (vi) prior to the issuance of the first installment of the Notes, to provide for the Notes to be issued on original issuance as registered notes or as book-entry only securities, in either case subject to a book-entry system for determining interests therein, with such adjustments and changes in the provisions of this resolution, as in the opinion of the Committee on Finance are appropriate to effectuate such issuance of the Notes; (vii) prior to the issuance of the first installment of the Notes, to provide for the Notes to be separately registrable as to principal and interest (including any authorized incremental interest) to any one or more registered holders of the notes or certificates (if any) with respect to the payment of interest thereon; (viii) prior to the issuance of the first installment of the Notes, to provide for the Notes to be issued as coupon notes in the denomination of \$5,000, with such adjustments and changes in the provisions of this resolution, including the adoption of a form of coupon note issuable only in the denomination of \$5,000, as in the opinion of the Committee on Finance are appropriate to effectuate such issuance of the Notes; and (ix) to take such other action as in the opinion of the Committee on Finance will best serve the public interest.

The proceeds of the Notes may be used for any purpose for which at the time of issuance of the Notes the Authority is authorized by law to issue its obligations. The Committee on Finance may allocate the proceeds of the Notes, from time to time, to certain of the authorized purposes, including the specific designation of any obligations to be refunded with the proceeds of the Notes.

Both principal of and interest on the Notes shall be payable in lawful money of the United States of America; principal of the Notes shall be payable upon presentation and

(Board - 12/12/96)

surrender thereof by the registered holders, at the office or offices, designated by the Authority, of the Paying Agent (or Paying Agents) appointed for the purpose by the Authority, in a county which is in whole or in part in the Port of New York District; and interest on the Notes shall be payable when due to the registered holders thereof by check or draft drawn on the Paying Agent (or Paying Agents) appointed for the purpose by the Authority and mailed to said registered holders at their last known addresses as appearing upon the Registry Books of the Authority.

SECTION 4. The Notes shall be issued only in registered form, registered as to both principal and interest and not as to either alone, in such authorized denominations as may be determined by the Committee on Finance.

SECTION 5. The Authority will keep or cause to be kept at the offices, designated by the Authority, of its Registrar appointed for that purpose, in a county which is in whole or in part in the Port of New York District, proper and sufficient books for the registration of the Notes. The Notes shall be transferable only upon such books by the registered holder thereof or by such registered holder's attorney duly authorized in accordance with the provisions of this resolution. Upon the written request of the registered holder or registered holders thereof and upon surrender thereof, a note or notes may be exchanged for a note or notes of like tenor, registered as designated in such request, of any other authorized denominations. All requests for registration, transfer, exchange and delivery pertaining to the Notes as above provided shall be filed with the Registrar of the Authority; all notes to be surrendered pursuant to such requests shall be surrendered to the Registrar; and all notes delivered in exchange as aforesaid shall be delivered by the Registrar. All notes surrendered to the Registrar in exchange for other notes or for transfer as above provided shall be cancelled by the Registrar upon such surrender. The Authority shall bear the cost incurred by the Authority in connection with the registration, authentication (if any), transfer, cancellation, exchange and delivery of notes, including such fees as may be imposed by the Registrar for such services performed by the Registrar as provided in this resolution.

Nothing contained in this resolution shall be deemed to authorize the execution and delivery of notes except in authorized denominations.

SECTION 6. The Notes shall be redeemable at the option of the Authority, in whole, or, from time to time, in part, at such times established pursuant to Section 3 of this resolution, on prior notice, on the date to be fixed for redemption in the Authority's notice of intention to redeem the Notes, at a redemption price equal to one hundred per centum (100%) of their face value on any such date of redemption, plus accrued interest until such date of redemption.

If less than all of the Notes then outstanding are to be called for redemption at the option of the Authority, and if the Notes then outstanding include notes of any serial maturities, the notes so to be called shall be in inverse order of maturity, and if notes constituting a particular maturity are to be called for redemption, but not all notes

(Board - 12/12/96)

constituting such maturity are to be called for redemption, the notes so to be called shall be determined by lot, by the Authority or the Registrar, in such manner and by such entity as the Authority may elect or by such other system or method as the Committee on Finance may determine.

Notice of intention to redeem any of the Notes shall be given by the Authority or the Registrar, as the Authority may elect, not less than thirty (30) nor more than forty-five (45) days prior to the date fixed for redemption, to the registered holders of the notes to be called for redemption, by deposit of a copy of such notice, postage prepaid by certified or registered mail, in a United States Post Office, addressed to such registered holders at their last known addresses as appearing upon the Registry Books of the Authority. Notice of the mailing of such notice of intention to redeem notes shall also be published by the Authority in a daily newspaper of general circulation in the Port of New York District not less than thirty (30) nor more than forty-five (45) days prior to the date fixed for redemption; *provided, however*, that failure to give such notice by publication, or any defect therein, shall not affect the validity of any action with respect to the redemption of such notes.

On or before the date fixed for redemption specified in the Authority's notice of intention to redeem, the Authority will pay or cause to be paid to the Paying Agent (or Paying Agents) an amount in cash in the aggregate sufficient to redeem all of the notes which are to be redeemed, at the respective redemption prices thereof, which, in each case, shall include the accrued interest until the date fixed for redemption, such principal amount to be held by the Paying Agent (or Paying Agents) in trust for the account of the registered holders of the notes so called for redemption and to be paid to them respectively upon presentation and surrender of the said notes with accrued interest included in such redemption price to be paid to the registered holders in accordance with the provisions of this resolution. On and after the date fixed for redemption, the notice of intention to redeem having been completed as above provided, the notes so called shall become due and payable at the office of the Paying Agent (or Paying Agents) designated by the Authority, and if funds sufficient for payment of the redemption price shall have been deposited with the Paying Agent (or Paying Agents) in trust as aforesaid and if such funds shall be available for redemption of such notes on the date fixed for redemption, then and in any such event, interest shall cease to accrue on the notes so called on and after the date fixed for their redemption, and such notes shall not be entitled to the benefit or security of this resolution or the Consolidated Bond Resolution, but shall rely solely upon the funds so deposited.

In the case of notes of denominations greater than the minimum authorized denomination, for all purposes in connection with redemption, each unit of face value representing the minimum authorized denomination shall be treated as though it were a separate note of the minimum authorized denomination, and the word "note" as used in the foregoing provisions of this Section 6 shall be deemed to refer to such unit of face value representing the minimum authorized denomination. If it is determined as above provided that one or more but not all of the units of face value representing the minimum authorized

(Board - 12/12/96)

denomination of any note are to be called for redemption, then upon notice of intention to redeem such unit or units, the registered holder of said note shall forthwith present said note to the Registrar who shall issue a new note or notes of like tenor of smaller authorized denominations but of the same aggregate principal amount in exchange therefor, pursuant to Section 5 of this resolution, including a new note or notes with the aggregate principal amount of the unit or units of face value called for redemption; and such new note or notes shall be deemed to be duly called for redemption without further notice to the registered holder thereof. If the registered holder of such note of a denomination greater than the minimum authorized denomination shall fail to present such note to the Registrar for the issuance of new notes of smaller denominations in exchange therefor, as aforesaid, such note shall nevertheless become due and payable on the date fixed for redemption to the extent of the unit or units of face value called for redemption (and to that extent only); and (funds sufficient for the payment of the redemption price having been deposited with the Paying Agent (or Paying Agents), as aforesaid, and being available as aforesaid on the date fixed for redemption) interest shall cease to accrue on the portion of the principal amount of such note represented by such unit or units of face value on and after the date fixed for redemption, and such note shall not be entitled to the benefit or security of this resolution or the Consolidated Bond Resolution to the extent of the portion of its principal amount (and accrued interest thereon until the date fixed for redemption) represented by such unit or units of face value, but to that extent shall rely solely upon the funds so deposited.

SECTION 7. The Authority shall not apply any moneys in the Consolidated Bond Reserve Fund except for the payment of bonds secured by a pledge of the General Reserve Fund in whole or in part, the payment of debt service upon bonds so secured, the purchase for retirement of bonds so secured or the redemption of bonds so secured, or for the payment of expenses incurred for the establishment, acquisition, construction or effectuation, or for the operation, maintenance, repair or administration of any facility financed or refinanced in whole or in part by bonds secured by a pledge of the General Reserve Fund in whole or in part, or otherwise for the fulfillment of any undertakings which the Authority has assumed or may or shall hereafter assume to or for the benefit of the holders of bonds secured by a pledge of the General Reserve Fund in whole or in part; *provided, however,* that nothing herein contained shall be construed to permit the application by the Authority of moneys in the Consolidated Bond Reserve Fund except for purposes and upon conditions which are authorized by the Consolidated Bond Resolution.

Consolidated Bonds proposed to be issued for purposes in connection with an additional facility or a group of additional facilities in connection with which the Authority has not theretofore issued bonds which have been secured by a pledge of the General Reserve Fund in whole or in part, may be issued, and bonds other than Consolidated Bonds proposed to be issued for purposes in connection with such an additional facility or group of additional facilities may be secured by a pledge of the General Reserve Fund in whole or in part, in each case if and only if the Authority shall certify at the time of issuance (as defined in Section 3 of the Consolidated Bond Resolution) its opinion that the issuance of such Consolidated Bonds or that such pledge of the General Reserve Fund as security for

(Board - 12/12/96)

such bonds other than Consolidated Bonds will not, during the ensuing ten (10) years or during the longest term of any of such bonds proposed to be issued (whether or not Consolidated Bonds), whichever shall be longer, in the light of its estimated expenditures in connection with such additional facility or such group of additional facilities, materially impair the sound credit standing of the Authority or the investment status of Consolidated Bonds or the ability of the Authority to fulfill its commitments, whether statutory or contractual or reasonably incidental thereto, including its undertakings to the holders of Consolidated Bonds; and the Authority may apply moneys in the General Reserve Fund for purposes in connection with those of its bonds and only those of its bonds which it has theretofore secured by a pledge of the General Reserve Fund in whole or in part. Expenditures in connection with an additional facility or group of additional facilities shall mean the amount of the excess, if any, of the sum of all items of expense to be considered in determining the net revenues of the additional facility or group of additional facilities plus the debt service upon the bonds proposed to be issued and upon any additional bonds which in the Authority's opinion would be required to be issued to place and maintain such facility or group of facilities upon a sound operating basis, over and above the sum of all items of revenue and income to be considered in determining such net revenues.

SECTION 8. The form of the note, including provisions with respect to numbering, authentication and assignment, for the Notes shall be determined by the Committee on Finance or by an Authorized Officer. The notes shall have the official seal of the Authority, or a facsimile thereof, affixed thereto or printed or impressed thereon, and shall be signed by an Authorized Officer; *provided, however*, that each note may be executed by the facsimile signature of an Authorized Officer and, in such event, such note shall have endorsed thereon a certificate of authentication manually executed by the Registrar of the Authority. No note bearing a facsimile signature of any Authorized Officer shall be entitled to any benefit under this resolution or the Consolidated Bond Resolution or be valid or obligatory for any purpose unless and until such certificate of authentication shall have been manually executed by the Registrar of the Authority, as aforesaid, and such manually executed certificate upon such note shall be conclusive evidence that such note has been authenticated and delivered under this resolution. Such certificate of authentication on any such note shall be deemed to have been executed by the Registrar of the Authority, as aforesaid, if signed by an authorized officer thereof, but it shall not be necessary that the same officer sign the certificate of authentication on all of such notes issued under this resolution. In case any Authorized Officer who shall have signed or whose facsimile signature shall appear on any of the Notes shall cease to be an Authorized Officer before such notes shall have been actually issued, such notes may nevertheless be issued as though such Authorized Officer who signed such notes had not ceased to be an Authorized Officer.

SECTION 9. In case any note shall at any time become mutilated or be lost or destroyed, the Authority, in its discretion, may execute and deliver a new note of like tenor in exchange or substitution for and upon cancellation of such mutilated note or in lieu of or in substitution for such destroyed or lost note; or if such note shall have matured, instead of issuing a substitute note the Authority may pay the same without surrender thereof. In

(Board - 12/12/96)

case of destruction or loss, the applicant for a substitute note shall furnish to the Authority evidence satisfactory to the Authority of the destruction or loss of such note and of the ownership thereof and also such security and indemnity as may be required by the Authority. The Authority may execute and deliver any such substitute note or make any such payment; or any Paying Agent may make any such payment upon the written request or authorization of the Authority. Upon the issuance of any substitute note, the Authority, at its option, may require the payment of a sum sufficient to reimburse it for any stamp tax or other governmental charge or other reasonable expense connected therewith and also a further sum not exceeding the cost of preparation of each new note so issued in substitution. Any note issued under the provisions of this section in lieu of any note alleged to have been destroyed or lost shall constitute an original contractual obligation on the part of the Authority, whether or not the note so alleged to have been destroyed or lost be at any time enforceable by anyone, and shall be equally and proportionately entitled to the security of this resolution and of the Consolidated Bond Resolution with all other bonds, notes and coupons (if any) issued hereunder or thereunder.

SECTION 10. The Executive Director, Chief Financial Officer, Treasurer and Deputy Treasurer of the Authority are authorized to take any and all action which the Committee on Finance is authorized to take pertaining to the issuance and sale of the Notes or otherwise under this resolution (without further action by the Committee on Finance); *provided, however*, that any such action may only be taken by the Executive Director, Chief Financial Officer, Treasurer or Deputy Treasurer, if the Notes are issued and sold on a competitive basis.

(Board - 12/12/96)

**CONSOLIDATED NOTES, SERIES TT, SERIES UU, SERIES VV, SERIES WW
AND SERIES XX-SALE**

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian and Schweitzer voting in favor; none against:

SECTION 1. This resolution shall apply with equal force and effect to each of Consolidated Notes, Series TT, Consolidated Notes, Series UU, Consolidated Notes, Series VV, Consolidated Notes, Series WW and Consolidated Notes, Series XX, on an individual basis (each such series hereinafter called the "Notes").

SECTION 2. The Committee on Finance of the Authority (hereinafter called the "Committee on Finance") is authorized in the name of and on behalf of the Authority, to sell all or any part of Two Hundred Million Dollars (\$200,000,000) in principal amount of the Notes, at a price which will result in a true interest cost to the Authority not in excess of twelve per centum (12%), at public or private sale, with or without advertisement, in one or more installments, at one or more times, and to apply the proceeds of such sale or sales as provided in the resolution authorizing the establishment and issuance of the Notes.

SECTION 3. The Committee on Finance is authorized in the name of and on behalf of the Authority, in connection with the Notes, to fix the time or times of sale of the Notes, to determine the terms and conditions upon which such sales shall be made and to accept or reject offers in connection with such sales.

SECTION 4. The Committee on Finance is authorized in the name of and on behalf of the Authority, in connection with the Notes, to enter into any contracts or agreements pertaining to the Notes; to fix the time or times and determine the terms and conditions of delivery of the Notes; to appoint one or more Paying Agents and a Registrar, and to designate the office or offices of any such Paying Agent (or Paying Agents) at which payments shall be made and the office or offices of any such Registrar at which the books for registration shall be kept; to make any selection, designation, determination or estimate and to take or withhold any action and to formulate and express any opinions and to exercise any discretion or judgment which may be or is required to be made, taken, withheld, formulated, expressed or exercised in connection with the Notes, the Authority adopting all such selections, designations, determinations, estimates, actions, withholdings of action, formulations and expressions of opinions and exercises of discretion or judgment, including those pursuant to Section 3 of the Consolidated Bond Resolution, or otherwise, as its own; and to authorize any of the foregoing and generally to take such other action as in the opinion of the Committee on Finance will best serve the public interest.

SECTION 5. The Committee on Finance is authorized to arrange, from time to time (i) for the preparation and distribution of disclosure documents, including official statements, offering statements or other offering materials in connection with the Notes and

(Board - 12/12/96)

(ii) for the preparation and distribution of such other documents giving pertinent data with respect to the Authority and its finances as it deems appropriate, in each case, in the name of and on behalf of the Authority.

SECTION 6. The Executive Director, Chief Financial Officer, Treasurer and Deputy Treasurer of the Authority are authorized to take any and all action which the Committee on Finance is authorized to take pertaining to the issuance and sale of the Notes or otherwise under this resolution (without further action by the Committee on Finance); *provided, however*, that any such action may only be taken by the Executive Director, Chief Financial Officer, Treasurer or Deputy Treasurer, if the Notes are issued and sold on a competitive basis.

SECTION 7. The Committee on Finance or any Authorized Officer is authorized, in connection with the issuance of the Notes, on the basis that the Notes are to be in conformity with, and that the interest on the Notes is not to be includible for Federal income tax purposes in the gross income of the recipients thereof under, Section 103(a) of the Internal Revenue Code of 1986, or successor provisions of law, and the regulations thereunder, to take any action which may be appropriate to assure that the Notes are issued, and during their term are outstanding, on such basis, and any such actions taken in connection therewith are ratified. Any Authorized Officer is authorized to certify on behalf of the Authority as to the need for the issuance of the Notes, as to the status of the projects for which the proceeds of the Notes are to be used, as to the Authority's intentions with respect to the application and investment of the proceeds of the Notes, and as to such other related matters as may be authorized by the Committee on Finance and any such actions taken in connection therewith are ratified. As used in this resolution, the term "Authorized Officer" shall mean any of the officers or employees of the Authority designated as such from time to time by the Chairman of the Authority; Vice Chairman of the Authority; Chairman of the Committee on Finance; Executive Director; Deputy Executive Director; Chief Financial Officer; Treasurer; or Deputy Treasurer of the Authority.

(Board - 12/12/96)

**PORT AUTHORITY VERSATILE STRUCTURE OBLIGATIONS RESOLUTION-
MODIFICATION**

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian and Schweitzer voting in favor; none against:

WHEREAS, The Port Authority of New York and New Jersey (hereinafter referred to as the "Authority") has been authorized and empowered to issue bonds, notes or other obligations or evidences of indebtedness to provide funds for authorized purposes; and

WHEREAS, on June 11, 1992, the Authority determined to authorize and establish an issue of Versatile Structure Obligations (such term and all other terms of special meaning having the meanings ascribed to such terms in or pursuant to Section 1 of this Resolution); and

WHEREAS, in establishing the issue of Versatile Structure Obligations on June 11, 1992, the Authority provided a method of financing in addition to other methods available or hereafter available to the Authority; and

WHEREAS, the Authority has determined to modify the Prior Resolution pursuant to Section 7(a) of the Prior Resolution, for the purpose of accomplishing certain technical clarifications of various provisions of the Prior Resolution; and

WHEREAS, Versatile Structure Obligations shall continue to be an issue of special obligations of the Authority payable from the sources of payment and to the extent provided in Section 2(c) of this Resolution;

NOW, THEREFORE, be it resolved by the Authority that the Prior Resolution is modified, and as so modified is restated in its entirety to read as follows:

SECTION 1. Definitions.

Unless the context shall clearly indicate some other meaning or may otherwise require, the terms defined in this Section 1 shall, for all purposes of this Resolution and of any resolution amendatory hereof or supplemental hereto and of any opinion, instrument or document herein or therein mentioned (unless otherwise defined therein), have the meanings specified in this Section 1, with the following definitions to be equally applicable to both the singular and plural forms of any terms defined in this Section 1 and vice versa. Any words or phrases not otherwise defined in this Section 1 and specifically defined in the Consolidated Bond Resolution shall be read and construed in accordance with such specific definitions (except as herein otherwise expressly provided or unless the context otherwise requires).

The term "Authority-owned Certificates" shall have the meaning given to such term in Section 7(b)(v) of this Resolution.

(Board - 12/12/96)

The term "Certificate" shall mean any bond, note or other evidence of indebtedness of the Authority constituting the whole or a part of any series of Versatile Structure Obligations.

The term "Certificate Holder" or "Holder of a Certificate" shall mean the holder or holders, individually and collectively, of a Certificate or Certificates.

The term "Code" shall mean the Internal Revenue Code of 1986.

The term "Commercial Paper Obligations" shall mean the issue of special obligations of the Authority known as "Port Authority Commercial Paper Obligations".

The term "Committee on Finance" shall mean the Committee on Finance of the Board of Commissioners of the Authority.

The term "Consolidated Bond Reserve Fund" shall mean the special fund by that name established by Section 7 of the Consolidated Bond Resolution.

The term "Consolidated Bond Resolution" shall mean the resolution of the Authority adopted October 9, 1952, entitled "*Consolidated Bonds—Establishment of Issue*".

The term "Consolidated Bonds" shall mean the issue of obligations of the Authority known as "Consolidated Bonds" (which also includes short-term bonds known as "Consolidated Notes").

The term "Designated Officer" shall mean the Chairman; Vice Chairman; Chairman of the Committee on Finance; Executive Director; Deputy Executive Director; Chief Financial Officer; Treasurer; or Deputy Treasurer of the Authority.

The term "General Reserve Fund" shall mean the special fund by that name established by the General Reserve Fund Statutes.

The term "General Reserve Fund Resolution" shall mean the resolution of the Authority adopted March 9, 1931, entitled "*General Reserve Fund Supporting Bonds Legal for Investment*", as amended by the resolution of the Authority adopted May 5, 1932, entitled "*Investments: Authority of Finance Committee*", as further amended by the Consolidated Bond Resolution to conform to the provisions of Section 6 of the Consolidated Bond Resolution.

The term "General Reserve Fund Statutes" shall mean Chapter 5 of the Laws of New Jersey of 1931, as amended, and Chapter 48 of the Laws of New York of 1931, as amended.

The term "Net Revenues", solely for the purpose of this Resolution, shall mean, with respect to any date of calculation, the revenues of the Authority pledged under the Consolidated Bond Resolution and remaining after (i) payment or provision for payment of debt service on Consolidated Bonds as required by the applicable provisions of the Consolidated Bond Resolution; (ii) payment into the General Reserve Fund of the amount necessary to maintain the General Reserve Fund at the amount specified in the General Reserve Fund Statutes; and (iii) applications to purposes authorized in accordance with Section 7 of the Consolidated Bond Resolution.

(Board - 12/12/96)

The term "Paying Agent" shall mean the Paying Agent or Paying Agents, individually and collectively appointed by the Authority for and in connection with a particular series of Versatile Structure Obligations or any successor or successors appointed by the Authority.

The term "Port Authority Equipment Notes" shall mean the issue of obligations of the Authority known as "Port Authority Equipment Notes".

The term "Port Authority Versatile Structure Obligations Resolution" or "this Resolution" shall mean this resolution of the Authority adopted December 12, 1996, entitled "*Port Authority Versatile Structure Obligations Resolution-Modification*", including any amendments, modifications or supplements hereto.

The term "Prior Resolution" shall mean the resolution of the Authority adopted October 13, 1994, entitled "*Port Authority Versatile Structure Resolution-Modification*".

The term "Registrar" shall mean the Registrar appointed by the Authority for and in connection with a particular series of Versatile Structure Obligations or any successor Registrar appointed by the Authority.

The term "Special Project Bonds" shall mean the issue of special limited obligations of the Authority known as "Special Project Bonds".

The term "Variable Rate Master Notes" shall mean the issue of special obligations of the Authority known as "Port Authority Variable Rate Master Notes".

The term "Versatile Structure Obligations" shall mean the issue of special obligations of the Authority known as "Port Authority Versatile Structure Obligations".

SECTION 2. Establishment, Authorization, Terms and Issuance.

(a) Establishment and Authorization of Issue of Versatile Structure Obligations.

An issue of special obligations of the Authority to be known as "Port Authority Versatile Structure Obligations" is established under and pursuant to this Resolution. Versatile Structure Obligations shall be payable from the sources of payment and to the extent provided in Section 2(c) of this Resolution.

(b) General Terms of each Series of Versatile Structure Obligations.

Versatile Structure Obligations may be issued by the Committee on Finance, from time to time, in one or more series, which series may be comprised of one or more installments, and the Committee on Finance may establish such terms and conditions, from time to time, as it deems appropriate in connection with each series or installment of Versatile Structure Obligations and may enter into any contracts or agreements as it deems appropriate in connection with each such series or installment in the name of and on behalf of the Authority.

(Board - 12/12/96)

A Designated Officer may take any and all action to be taken by the Committee on Finance pertaining to the issuance of a series or installment of Versatile Structure Obligations or otherwise under this Resolution (without further action by the Committee on Finance); *provided, however*, that any such action may only be taken by a Designated Officer in connection with a series of Versatile Structure Obligations either (i) issued on a competitive basis, (ii) bearing interest at a variable rate of interest or (iii) issued on a multimodal basis; *provided further, however*, that solely with respect to clauses (ii) and (iii) above, any remarketing agent (or successor thereto) for such series must have been selected on the basis of a request for proposals process pertaining to the selection of a remarketing agent for such series or for any prior series of Versatile Structure Obligations.

(c) Sources of Payment.

The principal of and interest on Versatile Structure Obligations shall be a special obligation of the Authority and shall be payable from the proceeds of obligations of the Authority issued for such purposes, including Consolidated Bonds issued in whole or in part for such purposes, or from Net Revenues deposited to the Consolidated Bond Reserve Fund, and in the event such proceeds or Net Revenues are insufficient therefor, from other moneys of the Authority legally available for such payments when due.

The principal of and interest on Versatile Structure Obligations shall not be payable from the General Reserve Fund and the payment thereof shall be subject in all respects to (i) payment of debt service on Consolidated Bonds as required by the applicable provisions of the Consolidated Bond Resolution and (ii) payment into the General Reserve Fund of the amount necessary to maintain the General Reserve Fund at the amount specified in the General Reserve Fund Statutes.

(d) Application of Proceeds.

The proceeds of each series of Versatile Structure Obligations shall be used (i) for purposes of, or with respect to the financing of, capital expenditures in connection with any one or more of the facilities of the Authority; *provided, however*, that subject to agreements with the holders of obligations of the Authority, the Committee on Finance may authorize all or any portion of the unspent proceeds of any such series of Versatile Structure Obligations to be used for any purpose for which at the time of issuance of such series the Authority was authorized by law to issue its obligations, including for purposes of, or with respect to the financing of, capital expenditures in connection with additional facilities of the Authority certified or to be certified after issuance of such series; (ii) for purposes of refunding, directly, by offers to exchange, or otherwise, all or any part of any bonds, notes or other obligations of the Authority; and (iii) for certain incidental purposes, including certain costs of, and relating to, such series.

The Committee on Finance may allocate the proceeds of a series of Versatile Structure Obligations (or installment thereof), from time to time, to purposes in connection with some but not all of the purposes authorized in this Section 2(d), including the specific

(Board - 12/12/96)

designation of any bonds, notes or other obligations to be refunded with the proceeds of such series (or such installment thereof); *provided, however*, that no portion of the proceeds of any series of Versatile Structure Obligations shall be allocated to purposes in connection with an additional facility of the Authority prior to the initial expenditure of proceeds of the first series of Consolidated Bonds issued for purposes of capital expenditures in connection with such additional facility.

(e) Form and Places of Payment.

Unless otherwise determined by the Committee on Finance, principal of and interest on the Certificates and any other payments pertaining to any of the Certificates shall be payable in lawful money of the United States of America; principal of the Certificates shall be payable upon presentation and surrender of the Certificates by the Certificate Holders, at the office or offices, designated by the Committee on Finance, of the Paying Agent or Paying Agents, in a county which is in whole or in part in the Port District; interest on the Certificates shall be payable when due to the Certificate Holders by check or draft drawn on the Paying Agent or Paying Agents and mailed to the Certificate Holders; and any other payments to the Certificate Holders shall be payable in the manner determined by the Committee on Finance.

(f) Effect of Saturdays, Sundays and Legal Holidays.

If the date for payment of principal of and interest on or the date for any other payments pertaining to any of the Certificates, or the date fixed for maturity or redemption of any of the Certificates shall be a Saturday, a Sunday, a legal holiday or a day on which banking institutions within the Port District are required or authorized by law to remain closed, then such payment or redemption may be made on the next succeeding business day not a Saturday, a Sunday, a legal holiday or a day on which banking institutions within the Port District are required or authorized by law to remain closed, with the same force and effect as if done on the nominal date provided in or pursuant to this Resolution.

(g) Form and Denominations.

Unless otherwise determined by the Committee on Finance, each series of Versatile Structure Obligations shall be issued only in registered form, and the Certificates pertaining to each such series shall be registered as to both principal and interest and not as to either alone in authorized denominations.

(h) Evidence of Ownership.

Unless otherwise determined by the Committee on Finance, the Authority may treat the Holder of a Certificate in whose name such Certificate is registered as the absolute owner of such Certificate for the purpose of receiving payment of the principal thereof and interest thereon and for all other purposes, and the Authority shall not be affected by any notice or knowledge to the contrary.

(Board - 12/12/96)

(i) Mutilated, Lost or Destroyed Certificates.

In case any Certificate shall at any time become mutilated or be lost or destroyed, the Authority, in its discretion, may execute and deliver a new Certificate of like tenor in exchange or substitution for and upon cancellation of such mutilated Certificate or in lieu of or in substitution for such destroyed or lost Certificate; or if such Certificate shall have matured, instead of issuing a substitute Certificate the Authority may pay the same without surrender thereof. In case of destruction or loss, the applicant for a substitute Certificate shall furnish to the Authority evidence satisfactory to the Authority of the destruction or loss of such Certificate and of the ownership thereof and also such security and indemnity as may be required by the Authority. Upon the issuance of any substitute Certificate, the Authority, at its option, may require the applicant for such substitute Certificate to pay a sum sufficient to reimburse the Authority for any stamp tax or other governmental charge or other reasonable expense connected therewith and also a further sum not exceeding the cost of preparation of each new Certificate so issued in substitution. Any Certificate issued under the provisions of this Section 2(i) in lieu of any Certificate alleged to have been destroyed or lost shall constitute an original contractual obligation on the part of the Authority, whether or not the Certificate so alleged to have been destroyed or lost be at any time enforceable by anyone, and shall be equally and proportionately entitled to the security of this Resolution with all other Certificates issued under this Resolution.

(j) Authorization of Distribution of Disclosure Documents.

The Committee on Finance may arrange, from time to time (i) for the preparation and distribution of disclosure documents, including official statements, offering statements or other offering materials pertaining to any series of Versatile Structure Obligations and (ii) for the preparation and distribution of such other documents giving pertinent data with respect to the Authority and its finances as it deems appropriate, in each case, in the name of and on behalf of the Authority.

SECTION 3. Execution of Certificates.

(a) Execution of Certificates.

Each of the Certificates shall have the official seal of the Authority, or a facsimile thereof, affixed thereto or printed or impressed thereon, and, unless otherwise determined by the Committee on Finance, shall be manually signed by a Designated Officer.

(b) Validity of Signatures on Certificates.

In case any Designated Officer whose signature shall appear on any of the Certificates shall cease to be a Designated Officer before such Certificates shall have been actually issued, such Certificates may nevertheless be issued as though such Designated Officer whose signature appears on such Certificates had not ceased to be a Designated Officer.

(Board - 12/12/96)

SECTION 4. Form of the Certificates.

The form of the Certificates for each series of Versatile Structure Obligations, including provisions with respect to authentication and assignment, shall be determined by the Committee on Finance.

SECTION 5. Covenants.

The Authority covenants and agrees that:

(a) The Authority shall duly and punctually pay or cause to be paid to the Certificate Holders all payments to such holders when due, in the manner, to the extent and as specified in their Certificates;

(b) Upon the date of issuance of each series of Versatile Structure Obligations, all conditions, acts and things required by the Constitution or statutes of the States of New York and New Jersey or of the United States of America, or this Resolution to exist, to have happened and to have been performed precedent to or in the issuance of such series shall exist, have happened and have been performed and such series, together with all other indebtedness of the Authority, shall be within every debt and other limit prescribed thereby.

(c) The Authority shall take all actions and shall do all things which it is authorized by law to take and to do in order to fulfill all of its obligations under the provisions of this Resolution, in accordance with the terms of such provisions.

SECTION 6. Limitations on Amount.

The Authority shall not issue new Versatile Structure Obligations, for purposes other than to refund outstanding bonds, notes or other obligations of the Authority (other than Commercial Paper Obligations and Variable Rate Master Notes), if at the time of issuance of such new Versatile Structure Obligations, either:

(a) the total principal amount of all bonds, notes or other obligations of the Authority outstanding as of such time of issuance, including the new Versatile Structure Obligations and excluding Consolidated Bonds, Special Project Bonds, Commercial Paper Obligations and Port Authority Equipment Notes, exceeds twenty-five per centum (25%) of the total principal amount of all bonds, notes and other obligations of the Authority outstanding as of such time of issuance, including the new Versatile Structure Obligations and excluding Special Project Bonds, Commercial Paper Obligations and Port Authority Equipment Notes; or

(b) net revenues for any period of twelve (12) consecutive months during the thirty-six (36) month period preceding such time of issuance shall not have amounted to at least one and fifteen one-hundredths (1.15) times the prospective debt service (computed as hereinafter set forth) for the calendar year after such time of issuance, for which the combined debt service (so computed) upon all obligations outstanding as of such time of issuance which are secured by or payable from net revenues, including

(Board - 12/12/96)

the new Versatile Structure Obligations and excluding Commercial Paper Obligations, would be at a maximum. In calculating such prospective debt service there may, at the Authority's option, be substituted for the actual prospective interest payable on any of such obligations secured by or payable from net revenues, including the new Versatile Structure Obligations, prospective interest on any of such obligations, as follows: in the event that any of such obligations (i) bears interest at a fixed interest rate and has a remaining term to maturity of less than three (3) years from such time of issuance, then the interest rate on such obligation shall be deemed to be the higher of the interest rate on such obligation as of such time of issuance and the interest rate on the most recent series of the Authority's obligations with a term to maturity of at least thirty (30) years, or (ii) bears interest on the basis of an interest payment schedule providing for payments less frequently than annually, then the interest rate on such obligation shall be deemed to be the interest rate equal to the yield to maturity of such obligation as of such time of issuance, or (iii) bears interest at a variable interest rate, then the interest rate on such obligation shall be deemed to be the higher of the rate as published in the Revenue Bond Index of *The Bond Buyer* in effect as of such time of issuance (and in the event such Revenue Bond Index is not published as of such time of issuance, then such rate determined on the basis of a comparable index to be selected in the sole discretion of the Committee on Finance) and the average interest rate on such obligation for the twelve (12) calendar months preceding such time of issuance (and in the event such obligation has not been outstanding for a full twelve (12) calendar months preceding such time of issuance, then such average interest rate determined on the basis of the period of time during which such obligation has been outstanding), or (iv) is associated with an interest rate exchange contract, then the interest rate on such obligation shall be deemed to be the effective interest rate for such obligation determined by reference to such interest rate exchange contract, or (v) is convertible from one interest rate mode to another, then the interest rate on such obligation shall be deemed to be the interest rate in effect as of such time of issuance. In addition, in calculating such prospective debt service, in the event that any of such obligations secured by or payable from net revenues, including the new Versatile Structure Obligations, has (i) a term to maturity from such time of issuance of less than three (3) years or (ii) no stated periodic repayment schedule, there may at the Authority's option be substituted for the actual prospective debt service upon any of such obligations, the debt service which would be payable if such obligation was forthwith refunded by a series of Versatile Structure Obligations having the following characteristics: maturity—thirty (30) years from the time of issuance of the new Versatile Structure Obligations; interest—at the rate of interest determined in accordance with the provisions of the immediately preceding sentence and payable semiannually beginning six (6) months from such time of issuance; amortization—in such annual amounts as would be required to retire the principal amount of such obligation by the thirtieth anniversary of such time of issuance if such annual retirement were effected at par at each anniversary of such time of issuance and if the annual debt service thereon would be equal for all years thereafter until the thirtieth anniversary of such time of issuance.

(Board - 12/12/96)

In the event that the Authority has entered into a contract, prior to the delivery of any obligation to be taken into account in the calculations to be performed under this Section 6, for the sale to and purchase by the other party to such contract upon original issue, and such obligation (or portion thereof) is to be issued solely for the purpose of refunding bonds, notes or other obligations of the Authority, then in such event the time of issuance of such obligation (or portion thereof) shall be deemed to be the date of original issue of such obligation and such obligation (or portion thereof) shall not be deemed to be outstanding prior to such date of original issue. In the event that an obligation (or portion thereof) issued solely for the purpose of refunding bonds, notes or other obligations of the Authority is outstanding, including the new Versatile Structure Obligations, at the same time as the bonds, notes or other obligations of the Authority to be refunded, for purposes of the calculation to be performed under this Section 6 only such obligation (or portion thereof) issued solely for the purpose of refunding such bonds, notes or other obligations of the Authority shall be included and such bonds, notes or other obligations of the Authority to be refunded shall not be deemed to be outstanding for purposes of such calculation.

In the event that any obligation to be taken into account in the calculation to be performed under this Section 6 is subject to tender at the option of the holder or holders of such obligation, then in such event, in all such calculations such obligation shall be deemed to have been issued without such tender rights and without any credit facilities entered into by the Authority with respect to such tender rights; *provided, however*, in the event that upon any payment under such credit facilities to the holder of such obligation, such payment is deemed to be a loan to the Authority and such obligation nevertheless remains outstanding, then in such event, such obligation shall be deemed to have been refunded under such credit facilities through such payment.

Net revenues for purposes of the calculation to be performed under Section 6(b) of this Resolution, may include in the case of fare and tolls increases adopted by the Authority which have not yet been put into effect or have not been in effect for a full year, the additional net revenues estimated by the Authority to be derived annually from such increases.

Net revenues for purposes of the calculation to be performed under Section 6(b) of this Resolution may also include, in the case of facilities (including additions or improvements to facilities) which have not been in operation, in each case during the entire period of the twelve (12) consecutive months selected for the purposes of such calculation (including facilities under construction as of such time of issuance of the new Versatile Structure Obligations or which are to be acquired, established or constructed by the Authority), the average annual net revenues which the Authority estimates will be derived from each of such facilities during the first thirty-six (36) months of operation thereof after such time of issuance; *provided, however*, that debt service on all additional obligations estimated to be issued to complete such facilities prior to the date any such facilities (including the addition or improvement thereto) become fully operational, is included in calculation of prospective debt service; and *provided further, however*, that the amount of

(Board - 12/12/96)

any net revenues estimated under this paragraph shall in no event exceed twenty-five per centum (25%) of the net revenues (including any net revenues estimated under the immediately preceding paragraph) determined under Section 6(b) of this Resolution.

In the event that the new Versatile Structure Obligations are issued solely for the purpose of refunding bonds, notes or other obligations of the Authority (other than Commercial Paper Obligations and Variable Rate Master Notes), then no calculations under this Section 6 shall be required at such time of issuance. In the event that the new Versatile Structure Obligations are issued in part for purposes of refunding bonds, notes or other obligations of the Authority (other than Commercial Paper Obligations and Variable Rate Master Notes), then no calculations under this Section 6 shall be required to include the principal amount of such new Versatile Structure Obligations allocated to refunding bonds, notes or other obligations of the Authority (other than Commercial Paper Obligations and Variable Rate Master Notes) or the prospective debt service associated therewith.

SECTION 7. Modifications.

The Authority may from time to time and at any time:

(a) without authorization, consent or other action by any of the Holders of Certificates, amend or modify this Resolution to make any changes or corrections in this Resolution if such changes or corrections are technical wording corrections or changes or are required for the purpose of curing or correcting any ambiguity or defective or inconsistent provision or omission or mistake or error contained in this Resolution or to insert in this Resolution such provisions clarifying matters or questions arising under this Resolution as are appropriate in the sole opinion of the Authority; *provided, however*, that no such amendment or modification made pursuant to this Section 7(a) shall alter or impair the rights of any Holder of a Certificate; and

(b) amend, repeal or modify in the manner hereinafter set forth in this Section 7(b), any of the terms or provisions of this Resolution (or of any resolution amendatory of or supplemental to this Resolution) for any purpose whatsoever (other than any such amendment or modification which may be made pursuant to Section 7(a) of this Resolution) with the express consent of such Holder of a Certificate, subject to the following:

(i) Whenever the Authority shall desire any such amendment, repeal or modification of any of the provisions of this Resolution (or of any resolution amendatory of or supplemental to this Resolution), it shall call a meeting of the holders of Versatile Structure Obligations (or if the amendment, repeal or modification proposed shall affect the rights of the holders of Versatile Structure Obligations of only one or more particular series or installments, then of the holders of Versatile Structure Obligations of each such series or installment so to be affected) for the purpose of considering and acting upon any such proposed amendment, repeal or modification. A notice specifying the purpose, place, date

(Board - 12/12/96)

and hour of such meeting shall be published by the Authority in a daily newspaper of general circulation in the Port District. Such notice shall be published once a week for four consecutive weeks, the first publication to be not less than thirty (30) days nor more than ninety (90) days prior to the date fixed for the meeting. Such notice also shall briefly set forth the nature of the proposed amendment, repeal or modification, and shall state that a copy thereof is on file with the Authority for inspection. On or before the date of the first publication of the notice, a similar written or printed notice shall be mailed by the Authority, postage prepaid by first class mail, certified or registered, in a United States Post Office addressed to the Certificate Holders to which such notice pertains, at their last known addresses as appearing upon the books for the registration of the Certificates as maintained by the Registrar or Registrars, as appropriate. The actual receipt by any Certificate Holder of such notice shall not be essential to the validity of any such meeting, and a statement by the Authority, duly executed by its Chairman or Vice-Chairman, that the meeting has been called and notice thereof given as herein provided, shall be conclusive as against all parties, and it shall not be open to any Certificate Holder to show that such Certificate Holder failed to receive such notice or to object to the form of such notice; *provided, however*, that such notice shall conform to the provisions of this Section 7(b)(i).

(ii) No person shall be entitled to vote at such meeting unless such person shall be a Certificate Holder or shall hold a proxy duly executed by a Certificate Holder and (1) such person shall present at the meeting a Certificate or Certificates (or in the case of the holder of a proxy, the Certificate or Certificates of the Certificate Holder), or (2) such person shall present at the meeting a receipt of the character described in Section 7(b)(iii) of this Resolution or (3) such person's name (or in the case of the holder of a proxy, the name of the Certificate Holder) shall appear as a Certificate Holder on the list prepared and presented to the meeting by the Registrar or Registrars, as appropriate, as provided in Section 7(b)(iv) of this Resolution.

(iii) Any Certificate Holder may, prior to any such meeting, deliver a Certificate or Certificates, at such Certificate Holder's own expense, to the Registrar of the series of Versatile Structure Obligations to which such Certificate pertains, or to such bank, trust company or national banking association as shall be designated by the Authority, and thereupon shall be entitled to receive an appropriate receipt for the Certificates so deposited, calling for the redelivery of such Certificates at any time after the meeting. A receipt signed by such Registrar, or by such bank, trust company or national banking association that the Certificates have been so deposited, and giving the amount, denomination, series and numbers thereof, shall be sufficient evidence to permit such Certificate Holder, including the holder of a proxy who shall produce such receipt, to be present and to vote at any meeting.

(Board - 12/12/96)

(iv) The Registrar or Registrars, as appropriate, shall prepare and deliver to the Authority at the time of the convening of the meeting, a list of the names and addresses of the Certificate Holders proposed to be affected by said amendment, repeal or modification, as of the close of business on the day before the date set for the meeting, or the date to which such meeting shall have been adjourned, based upon the books for the registration of the Certificates as maintained by such Registrar or Registrars, together with a statement of the denominations, series and numbers of the Certificates of such Certificate Holders.

(v) The Authority shall present to the meeting, at the convening thereof, a statement duly executed by its Chairman or Vice-Chairman or by the Chairman or Vice-Chairman of the Committee on Finance, listing the denominations, series and numbers of all Certificates of all series of Versatile Structure Obligations proposed to be affected by said amendment, repeal or modification, owned by it or held for its account directly or indirectly, including any Certificates registered in the name of the Authority or held for the account of the Authority, and no person shall be permitted at the meeting to cast any vote or give any consent because of any Certificates listed on such statement, and no such Certificates (hereinafter referred to as "Authority-owned Certificates") shall be counted in determining any vote at such meeting, including the determination of whether or not a quorum is present.

(vi) A representation of at least sixty per centum (60%) in aggregate principal amount of the Versatile Structure Obligations then outstanding (exclusive of Authority-owned Certificates) or, if the amendment, repeal or modification proposed shall only affect one or more particular series or installments of Versatile Structure Obligations, then sixty per centum (60%) in aggregate principal amount of the Certificates outstanding (exclusive of Authority-owned Certificates) of each such series or installment so to be affected, shall be necessary to constitute a quorum at any such meeting of Certificate Holders; but less than a quorum may adjourn the meeting from time to time and the meeting may be held as adjourned without further notice, whether such adjournment shall have been held by a quorum or by less than a quorum. The Authority shall designate a Commissioner or other officer of the Authority to preside as temporary chairman, and such temporary chairman shall immediately call for nominations for a permanent chairman for such meeting. Such permanent chairman shall be some person who shall be a Certificate Holder, or the holder of a proxy, entitled to vote at the meeting. At such meeting each person entitled to vote pursuant to Section 7(b)(ii) of this Resolution shall be entitled to the number of votes determined by dividing the total aggregate principal amount of such person's Certificate or Certificates by the minimum authorized denomination for the series to which such Certificate or Certificates pertain, and such votes shall be cast by ballot. Except as herein provided, the meeting may adopt its own rules of procedure.

(vii) At any such meeting held as aforesaid, the Authority shall submit for consideration and action of the Certificate Holders of Versatile Structure

(Board - 12/12/96)

Obligations or, if the amendment, repeal or modification proposed shall only affect the rights of the Certificate Holders of one or more particular series or installments of each such series or installments to be affected, a proposed resolution embodying the amendment, repeal or modification to be considered by the meeting. If such proposed resolution shall be consented to and approved (either in person or by proxy) by the Certificate Holders of at least sixty per centum (60%) in aggregate principal amount of the Certificates to be affected thereby outstanding at the time (exclusive of Authority-owned Certificates), then, and in such case, the Authority shall thereby be authorized and empowered to adopt such resolution, and any such resolution so adopted by the Authority shall be binding upon all Certificate Holders, whether or not present at such meeting in person or by proxy; *provided, however,* that no such amendment, repeal or modification shall affect the rights of the Certificate Holders of one or more series or installments of Versatile Structure Obligations in a manner or to an extent differing from that in or to which the rights of Certificate Holders of any other series or installments of Versatile Structure Obligations are affected unless such resolution shall be approved (either in person or by proxy) by the Certificate Holders of at least sixty per centum (60%) in aggregate principal amount of the Certificates then outstanding (exclusive of Authority-owned Certificates) of each such series or installment so affected; and no Certificate Holder shall have any right or cause to object to the adoption of any such resolution by the Authority or to object to any of the terms or provisions therein contained or the exercise thereof or of the authorization contained therein, or in any manner to question the propriety of the adoption thereof or to enjoin or restrain the Authority from executing the same or from taking any action pursuant to the provisions thereof.

(viii) Minutes of all resolutions adopted and proceedings had at every such meeting shall be made and duly entered in books to be from time to time provided for that purpose by the Authority, and any such minutes as aforesaid, if signed by the chairman of the meeting at which such resolutions were passed or proceedings had, shall be prima facie evidence of the matters therein stated, and until the contrary is proved, every such meeting in respect of the proceedings of which minutes shall have been so made and signed and shall be deemed to have been duly held and conveyed, and all resolutions passed thereat or proceedings had thereat shall be deemed to have been duly passed and had.

(ix) In lieu of a meeting of Certificate Holders to approve any amendment, repeal or modification of any of the provisions of this Resolution (or of any resolution amendatory of or supplemental to this Resolution), such approval may be evidenced by written consents of the holders of the requisite percentage of Certificates specified in Section 7(b)(vi) of this Resolution.

Upon the adoption by the Authority of any resolution pursuant to the provisions of this Section 7, this Resolution (and any resolution amendatory of or supplemental to this Resolution) shall be modified and amended in accordance therewith, and the respective

(Board - 12/12/96)

rights, duties and obligations of the Authority and all holders of outstanding Certificates shall be thereafter determined, exercised and enforced subject, in all respects, to such modifications and amendments.

SECTION 8. Registrars and Paying Agents.

The Committee on Finance may designate a Registrar and one or more Paying Agents to act as such for and in connection with each series of Versatile Structure Obligations, and may, from time to time, terminate such appointments or designations, designate new, substitute or additional Registrars and Paying Agents, designate separate and different Registrars and Paying Agents in connection with different series or installments of Versatile Structure Obligations, and designate the Authority to act as Registrar or Paying Agent.

SECTION 9. Liability.

Neither any Commissioner nor any officer, agent, representative or employee of the Authority or Designated Officer shall be held personally liable to any Certificate Holder, or under this Resolution, the Prior Resolution or any resolution heretofore or hereafter adopted relating to Versatile Structure Obligations, or because of the issuance or attempted issuance of any of the Versatile Structure Obligations, or because of any act or omission in connection with the construction, acquisition, effectuation, operation or maintenance of any facility of the Authority, or because of any act or omission in connection with the investment or management of the revenues, funds or moneys of the Authority, or otherwise in connection with the management of its affairs, excepting solely for things wilfully done by such person with an intent to defraud or wilfully omitted to be done by such person with an intent to defraud.

SECTION 10. Certifications.

A Designated Officer may, in connection with any series of Versatile Structure Obligations which is issued on the basis that such series is to be in conformity with, and that the interest on such series is not to be includible for Federal income tax purposes in the gross income of the recipients thereof under, Section 103(a) of the Code, or successor provisions of law, and the regulations thereunder, take any action which may be appropriate to assure that such series is issued, and during its term is outstanding on such basis, and any such actions taken in connection therewith are ratified. A Designated Officer may certify on behalf of the Authority as to the need for the issuance of any such series for the purposes for which such series is issued, as to the status of the projects for which the proceeds of such series would be used, as to the Authority's intentions with respect to the application and investment of such proceeds, and as to such other matters as such Designated Officer deems appropriate.

(Board - 12/12/96)

SECTION 11. Determinations.

Whenever in this Resolution it is provided that any selection, designation, determination or estimate shall or may be made in connection with a series of Versatile Structure Obligations, or that any action may be taken or withheld in connection with a series of Versatile Structure Obligations, or that any action which shall or may be taken or withheld is dependent upon opinion, discretion or judgment, then such selection, designation, determination, estimate or action so made, taken or withheld shall be conclusive for the purposes of this Resolution, whether required to be made, taken or withheld as a condition precedent to the issuance of any such series or for the purpose of determining if all conditions precedent to the issuance of such series exist, or otherwise, the Authority adopting such selection, designation, determination, estimate or action so made, taken or withheld as its own.

SECTION 12. Resolution to Constitute a Contract.

The provisions of this Resolution shall constitute a contract with each Certificate Holder.

SECTION 13. Titles.

Titles to the Sections of this Resolution are solely for convenience and are not an aid in the interpretation of this Resolution or any part of this Resolution.

(Board - 12/12/96)

**PORT AUTHORITY VARIABLE RATE MASTER NOTE RESOLUTION-
MODIFICATION**

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian and Schweitzer voting in favor; none against:

WHEREAS, The Port Authority of New York and New Jersey (hereinafter referred to as the "Authority") has been authorized and empowered to issue bonds, notes or other obligations or evidences of indebtedness to provide funds for authorized purposes; and

WHEREAS, on July 14, 1988, the Authority determined to authorize and establish an issue of Port Authority Variable Rate Master Notes (such term and all other terms of special meaning having the meaning ascribed to such terms in or pursuant to Article I of this Resolution); and

WHEREAS, the Authority has heretofore entered into certain variable rate master note agreements with selected banks, trust companies and financial institutions and issued notes thereunder for certain authorized purposes, without prejudice to its rights thereafter from time to time to enter into further and additional agreements (and issue further and additional notes thereunder); and

WHEREAS, the Authority has determined to modify the Prior Resolutions for the purpose of accomplishing certain technical clarifications of various provisions of the Prior Resolutions; and

WHEREAS, Port Authority Variable Rate Master Notes shall continue to be an issue of special obligations of the Authority payable from the sources of payment and to the extent provided in Section 2.03 of this Resolution;

NOW, THEREFORE, be it resolved by the Authority that the Prior Resolutions are modified, with respect to Notes to be issued after the date of this Resolution, and, to the extent not otherwise inconsistent with the provisions of the Prior Resolutions or the provisions of any Variable Rate Master Note Agreement entered into prior to the date of this Resolution, with respect to any Note issued and outstanding under such Variable Rate Master Note Agreement, to read as follows:

ARTICLE I. DEFINITIONS.

As used in this Resolution and unless otherwise indicated or unless the context otherwise requires, the following terms shall have the following meanings (such meanings to be equally applicable to both the singular and plural forms of the defined terms). As used in this Resolution, any words or phrases not otherwise defined herein and specifically defined in the Consolidated Bond Resolution shall be read and construed in accordance with such specific definitions.

(Board - 12/12/96)

The term "Authorized Officer" shall mean any of the officers or employees of the Authority designated as such from time to time by the Chairman of the Authority; Vice-Chairman of the Authority; Chairman of the Committee on Finance of the Authority; Executive Director; Deputy Executive Director; Chief Financial Officer; Treasurer; or Deputy Treasurer of the Authority.

The term "Consolidated Bond Reserve Fund" shall mean the special fund by that name established by Section 7 of the Consolidated Bond Resolution.

The term "Consolidated Bond Resolution" shall mean the resolution of the Authority adopted October 9, 1952, entitled "*Consolidated Bonds—Establishment of Issue*".

The term "Consolidated Bonds" shall mean the issue of obligations of the Authority known as "Consolidated Bonds" (which also includes short-term bonds known as "Consolidated Notes").

The term "General Reserve Fund" shall mean the special fund by that name established by the General Reserve Fund Statutes.

The term "General Reserve Fund Resolution" shall mean the resolution of the Authority adopted March 9, 1931, entitled "*General Reserve Fund Supporting Bonds Legal for Investment*", as amended by the resolution of the Authority adopted May 5, 1932, entitled "*Investments: Authority of Finance Committee*", as further amended by the Consolidated Bond Resolution to conform to the provisions of Section 6 of the Consolidated Bond Resolution.

The term "General Reserve Fund Statutes" shall mean Chapter 5 of the Laws of New Jersey of 1931, as amended, and Chapter 48 of the Laws of New York of 1931, as amended.

The term "Net Revenues", solely for the purpose of this Resolution, shall mean, with respect to any date of calculation, the revenues of the Authority pledged under the Consolidated Bond Resolution and remaining after (i) payment or provision for payment of debt service on Consolidated Bonds as required by the applicable provisions of the Consolidated Bond Resolution; (ii) payment into the General Reserve Fund of the amount necessary to maintain the General Reserve Fund at the amount specified in the General Reserve Fund Statutes; and (iii) applications to purposes authorized in accordance with Section 7 of the Consolidated Bond Resolution.

The term "Note" shall mean a promissory note of the Authority, issued under and pursuant to a Variable Rate Master Note Agreement to evidence the principal amount outstanding under such Variable Rate Master Note Agreement and any repayments of such principal amount.

The term "Port Authority Variable Rate Master Note Resolution" or "this Resolution" shall mean this resolution of the Authority adopted December 12, 1996,

(Board - 12/12/96)

entitled "*Port Authority Variable Rate Master Note Resolution—Modification*", including any amendments, modifications or supplements hereto.

The term "Port Authority Variable Rate Master Notes" shall mean the issue of special obligations of the Authority known as "Port Authority Variable Rate Master Notes".

The term "Prior Resolutions" shall mean the resolution of the Authority adopted July 14, 1988, entitled "*Port Authority Variable Rate Master Note Agreements*", the resolution of the Authority adopted March 9, 1989, entitled "*Port Authority Variable Rate Master Note Agreements with Selected Financial Institutions*", the resolution of the Authority adopted November 14, 1991, entitled "*Port Authority Variable Rate Master Note Resolution*", and the resolution of the Authority adopted October 13, 1994, entitled "*Port Authority Variable Rate Master Note Resolution—Modification*".

The term "Variable Rate Master Note Agreement" shall mean an agreement, as the same may be amended or supplemented from time to time, between the Authority and a selected bank, trust company or financial institution, providing, *inter alia*, for the issuance of a Note.

ARTICLE II. ESTABLISHMENT, AUTHORIZATION, TERMS AND ISSUANCE.

SECTION 2.01. Establishment and Authorization of Variable Rate Master Notes. An issue of special obligations of the Authority to be known as "Port Authority Variable Rate Master Notes" is established under and pursuant to this Resolution, and the issuance of Notes from time to time by the Authority to banks, trust companies and financial institutions selected in accordance with the provisions of this Resolution, is authorized. Port Authority Variable Rate Master Notes in an unlimited aggregate principal amount are authorized to be issued for the purposes set forth in Section 2.04 of this Resolution; *provided, however*, that the aggregate principal amount of all Notes outstanding at any one time shall not exceed Four Hundred Million Dollars (\$400,000,000). All Notes issued on and after July 14, 1988 and outstanding prior to the date of this Resolution shall be taken into account for purposes of determining such aggregate principal amount while such Notes are outstanding. All Notes issued on and after July 14, 1988 shall be subject to the terms, conditions and limitations provided or referred to in this Resolution; *provided, however*, that with respect to Notes issued prior to the date of this Resolution, to the extent any such terms, conditions and limitations would be otherwise inconsistent with the terms, conditions and limitations of the Prior Resolutions or of any Variable Rate Master Note Agreement entered into prior to the date of this Resolution, the Prior Resolutions shall continue in full force and effect with respect to such Variable Rate Master Note Agreement and the Note issued and outstanding under such Variable Rate Master Note Agreement. Port Authority Variable Rate Master Notes shall be payable from the sources of payment and to the extent provided in Section 2.03 of this Resolution.

(Board - 12/12/96)

SECTION 2.02. General Terms of the Variable Rate Master Note Agreements and the Notes. An Authorized Officer shall establish such terms and conditions as such Authorized Officer deems appropriate in connection with any Note and any Variable Rate Master Note Agreement, including the selection of the bank, trust company or financial institution to which such Note is to be issued, and is authorized, from time to time, to approve and enter into any Variable Rate Master Note Agreement and issue a Note under such Variable Rate Master Note Agreement in the name of and on behalf of the Authority under this Resolution.

SECTION 2.03. Sources of Payment. The principal of and interest on Port Authority Variable Rate Master Notes shall be a special obligation of the Authority and shall be payable from the proceeds of obligations of the Authority issued for such purposes, including Consolidated Bonds issued in whole or in part for such purposes, or from Net Revenues deposited to the Consolidated Bond Reserve Fund, and in the event such proceeds or Net Revenues are insufficient therefor, from other moneys of the Authority legally available for such payments when due.

The principal of and interest on Port Authority Variable Rate Master Notes shall not be payable from the General Reserve Fund and the payment thereof shall be subject in all respects to (i) payment of debt service on Consolidated Bonds as required by the applicable provisions of the Consolidated Bond Resolution and (ii) payment into the General Reserve Fund of the amount necessary to maintain the General Reserve Fund at the amount specified in the General Reserve Fund Statutes.

SECTION 2.04. Application of Proceeds. The proceeds of each Note shall be used (a) for purposes of, or with respect to the financing of, capital expenditures in connection with any one or more of the facilities of the Authority; *provided, however,* that subject to agreements with the holders of obligations of the Authority, an Authorized Officer may authorize all or any portion of the unspent proceeds of such Note to be used for any purpose for which at the time of issuance of such Note the Authority was authorized by law to issue its obligations, including for purposes of, or with respect to the financing of, capital expenditures in connection with additional facilities of the Authority certified or to be certified after issuance of such Note; (b) for purposes of refunding, directly, by offers to exchange, or otherwise, all or any part of any bonds, notes or other obligations of the Authority; and (c) for certain incidental purposes, including certain costs of, and relating to, such Note.

An Authorized Officer may allocate the proceeds of any Note, from time to time, to purposes in connection with some but not all of the purposes authorized for such Note; *provided, however,* that no portion of the proceeds of any Note shall be allocated to purposes in connection with an additional facility of the Authority prior to the initial expenditure of proceeds of the first series of Consolidated Bonds issued for purposes of capital expenditures in connection with such additional facility.

(Board - 12/12/96)

SECTION 2.05. Ownership of Notes. To the extent applicable, the Authority may treat the registered holder of a Note as the absolute owner of such Note for the purpose of receiving payment of the principal thereof and interest thereon and for all other purposes, and the Authority shall not be affected by any notice or knowledge to the contrary.

SECTION 2.06. Mutilated, Lost or Destroyed Notes. In case any Note shall at any time become mutilated or be lost or destroyed, the Authority, in its discretion, may execute and deliver a new Note of like tenor in exchange or substitution for and upon cancellation of such mutilated Note or in lieu of or in substitution for such destroyed or lost Note; or if such Note shall have matured, instead of issuing a substitute Note the Authority may pay the same without surrender thereof. In case of destruction or loss, the applicant for a substitute Note shall furnish to the Authority evidence satisfactory to it of the destruction or loss of such Note and of the ownership thereof and also such security and indemnity as may be required by the Authority. Upon the issuance of any substitute Note, the Authority, at its option, may require the payment of a sum sufficient to reimburse it for any stamp tax or other governmental charge or other reasonable expense connected therewith and also a further sum not exceeding the cost of preparation of each new Note so issued in substitution. Any Note issued under the provisions of this Section 2.06 in lieu of any Note alleged to have been destroyed or lost shall constitute an original contractual obligation on the part of the Authority, whether or not the Note so alleged to have been destroyed or lost be at any time enforceable by anyone, and shall be equally and proportionately entitled to the security of this Resolution with all other Notes issued hereunder.

SECTION 2.07. Authorization of Distribution of Disclosure Documents. An Authorized Officer may arrange, from time to time (i) for the preparation and distribution of disclosure documents, including official statements, offering statements or other offering materials pertaining to any Note, and (ii) for the preparation and distribution of such other documents giving pertinent data with respect to the Authority and its finances as such Authorized Officer deems appropriate, in each case, in the name of and on behalf of the Authority.

ARTICLE III. FORM AND EXECUTION OF NOTES.

SECTION 3.01. Form of Notes. Unless otherwise provided in a Variable Rate Master Note Agreement with respect to a Note, each Note shall have the official seal of the Authority, or a facsimile thereof, affixed thereto or printed or impressed thereon, and shall be manually signed by an Authorized Officer. Each of the Notes shall be in the form set forth in the Variable Rate Master Note Agreement with respect to such Note, any blank spaces being appropriately filled in.

SECTION 3.02. Execution of Notes. In case any Authorized Officer who shall have signed any Note shall cease to be an Authorized Officer before such Note shall have been actually issued, such Note may nevertheless be issued as though such Authorized Officer who signed such Note had not ceased to be such Authorized Officer.

(Board - 12/12/96)

ARTICLE IV. COVENANTS.

The Authority covenants and agrees that:

(a) The Authority shall duly and punctually pay or cause to be paid to the registered holder of each Note the principal of and interest on such Note, when due, in the manner, to the extent and as specified in the Variable Rate Master Note Agreement pertaining to such Note and such Note.

(b) Upon the date of issuance of each Note, all conditions, acts and things required by the Constitution or statutes of the States of New York and New Jersey or of the United States of America, or this Resolution to exist, to have happened and to have been performed precedent to or in the issuance of such Note shall exist, have happened and have been performed and such Note, together with all other indebtedness of the Authority, shall be within every debt and other limit prescribed thereby.

(c) The Authority shall take all action and shall do all things which it is authorized by law to take and to do in order to fulfill all of its obligations under the provisions of this Resolution, the Variable Rate Master Note Agreement pertaining to each Note and such Note, in accordance with the terms of such provisions.

ARTICLE V. MISCELLANEOUS.

SECTION 5.01. Contract. To the extent applicable, the provisions of this Resolution shall constitute a contract with the registered holder of each Note, and with each party to the Variable Rate Master Note Agreement pertaining to such Note.

SECTION 5.02. Amendments. The Authority may modify or amend this Resolution at any time by a supplemental resolution, without notice to or the consent of any registered holder of any Note or any party to a Variable Rate Master Note Agreement pertaining to such Note, but only in regard to such provisions as shall not materially and adversely affect the interests of such registered holder or party under such Variable Rate Master Note Agreement and Note.

SECTION 5.03. Liability. Neither any Commissioner nor any officer, agent, representative or employee of the Authority or Authorized Officer shall be held personally liable to any purchaser or registered holder of any Note or under any Variable Rate Master Note Agreement, or under this Resolution, the Prior Resolutions or any resolution heretofore or hereafter adopted relating to Port Authority Variable Rate Master Notes, or because of the issuance or attempted issuance of any Note, or because of any act or omission in connection with the construction, acquisition, effectuation, operation or maintenance of any facility of the Authority, or because of any act or omission in connection with the investment or management of the revenues, funds or moneys of the Authority, or otherwise in connection with the management of its affairs, excepting solely for things wilfully done by such person with an intent to defraud or wilfully omitted to be done by such person with an intent to defraud.

(Board - 12/12/96)

SECTION 5.04. Certifications. An Authorized Officer is authorized, in connection with any Note which is issued on the basis that such Note is to be in conformity with, and that the interest on such Note is not to be includible for Federal income tax purposes in the gross income of the recipients thereof under, Section 103(a) of the Internal Revenue Code of 1986, or successor provisions of law, and the regulations thereunder, to take any action which may be appropriate to assure that such Note is issued, and during its term is outstanding, on such basis, and any such actions taken in connection therewith are ratified. An Authorized Officer is authorized to certify on behalf of the Authority as to the need for the issuance of any Note for the purposes for which such Note is issued, as to the status of the projects for which the proceeds of such Note would be used, as to the Authority's intentions with respect to the application and investment of such proceeds, and as to such other related matters as may be authorized by this Resolution.

SECTION 5.05. Determinations. Whenever in this Resolution it is provided that any selection, designation, determination or estimate shall or may be made by an Authorized Officer, or that any action may be taken or withheld by an Authorized Officer, or that any action shall or may be taken or withheld at the option of or dependent upon the opinion, discretion or judgment of an Authorized Officer, then the selection, designation, determination, estimate or action so made, taken or withheld shall be conclusive for the purposes of this Resolution, whether required to be made, taken or withheld as a condition precedent to the issuance of any Note or for the purpose of determining if all conditions precedent to the issuance of such Note exist, or otherwise, the Authority hereby adopting such selection, designation, determination, estimate or action so made, taken or withheld as its own.

SECTION 5.06. Authorized Officers. An Authorized Officer is authorized, in connection with Port Authority Variable Rate Master Notes, to take any action, which may be appropriate, in the sole determination of such Authorized Officer, to effectuate the issuance of any Note or otherwise under this Resolution.

SECTION 5.07. Titles. Titles to the Articles and Sections of this Resolution are solely for convenience, and are not an aid in the interpretation of this Resolution or any part of this Resolution.

(Board - 12/12/96)

PORT AUTHORITY EQUIPMENT NOTE RESOLUTION-MODIFICATION

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian and Schweitzer voting in favor; none against:

WHEREAS, The Port Authority of New York and New Jersey (hereinafter called the "Authority") has been authorized and empowered to issue bonds, notes or other obligations or evidences of indebtedness to provide funds for authorized purposes; and

WHEREAS, on June 10, 1993 the Authority determined to make provision for the issuance of Port Authority Equipment Notes (such term and all other terms of special meaning having the meanings ascribed to such terms in or pursuant to Article I of this Resolution), pursuant to agreements to be entered into by the Authority from time to time with selected banks, trust companies and financial institutions; and

WHEREAS, in establishing the issue of Port Authority Equipment Notes on June 10, 1993, the Authority provided a method of financing in addition to other methods available to the Authority; and

WHEREAS, the Authority has determined to modify the Prior Resolution for the purpose of accomplishing certain technical clarifications of various provisions of the Prior Resolution; and

WHEREAS, Port Authority Equipment Notes shall continue to be an issue of special obligations of the Authority payable from the sources of payment and to the extent provided in Section 2.03 of this Resolution;

NOW, THEREFORE, be it resolved by the Authority that the Prior Resolution is modified, with respect to Notes to be issued after the date of this Resolution, and, to the extent not otherwise inconsistent with the provisions of the Prior Resolution or the provisions of any Equipment Note Agreement entered into prior to the date of this Resolution, with respect to any Note issued and outstanding under such Equipment Note Agreement, to read as follows:

ARTICLE I. DEFINITIONS.

As used in this Resolution and unless otherwise indicated or unless the context otherwise requires, the following terms shall have the following meanings (such meanings to be equally applicable to both the singular and plural forms of the defined terms). As used in this Resolution, any words or phrases not otherwise defined herein and specifically defined in the Consolidated Bond Resolution shall be read and construed in accordance with such specific definitions.

The term "Authorized Officer" shall mean any of the officers or employees of the Authority designated as such from time to time by the Chairman of the Authority; Vice-Chairman of the Authority; Chairman of the Committee on Finance of the Authority;

(Board - 12/12/96)

Executive Director; Deputy Executive Director; Chief Financial Officer; Treasurer; or Deputy Treasurer of the Authority.

The term "Equipment" shall mean any property (other than real property) purchased by the Authority or its wholly-owned subsidiaries for use by the Authority or others.

The term "Equipment Note Agreement" shall mean an agreement, as the same may be amended or supplemented from time to time, between the Authority and a purchaser or purchasers selected by the Authority or designated by a financial services entity selected by the Authority, providing, *inter alia*, for the issuance of a Note to such purchaser or purchasers.

The term "Note" shall mean a promissory note of the Authority, issued under and pursuant to an Equipment Note Agreement to evidence the principal amount outstanding under such Equipment Note Agreement and any repayments of such principal amount.

The term "Port Authority Equipment Note Resolution" or "this Resolution" shall mean this resolution of the Authority adopted December 12, 1996, entitled "*Port Authority Equipment Note Resolution-Modification*", including any amendments, modifications or supplements hereto.

The term "Port Authority Equipment Notes" shall mean the issue of special obligations of the Authority known as "Port Authority Equipment Notes".

The term "Prior Resolution" shall mean the resolution of the Authority adopted October 13, 1994, entitled "*Port Authority Equipment Note Resolution-Modification*".

ARTICLE II. ESTABLISHMENT, AUTHORIZATION, TERMS AND ISSUANCE.

SECTION 2.01. Establishment and Authorization of Port Authority Equipment Notes. An issue of special obligations of the Authority to be known as "Port Authority Equipment Notes" is established under and pursuant to this Resolution, and the issuance of Notes from time to time by the Authority to a purchaser or purchasers selected in accordance with the provisions of this Resolution, is authorized. Port Authority Equipment Notes in an unlimited aggregate principal amount are authorized to be issued for the purposes set forth in Section 2.04 of this Resolution; *provided, however*, that the aggregate principal amount of all Notes outstanding at any one time under this Resolution shall not exceed One Hundred Million Dollars (\$100,000,000). All Notes issued under the Prior Resolution and outstanding prior to the date of this Resolution shall be taken into account for purposes of determining such aggregate principal amount while such Notes are outstanding. All Notes issued under the Prior Resolution shall be subject to the terms, conditions and limitations provided or referred to in this Resolution; *provided, however*, that with respect to Notes issued prior to the date of this Resolution, to the extent any such terms, conditions and limitations would be otherwise inconsistent with the terms, conditions and limitations of the Prior Resolution or of any Equipment Note Agreement

(Board - 12/12/96)

entered into prior to the date of this Resolution, the Prior Resolution shall continue in force and effect with respect to such Equipment Note Agreement and the Note issued and outstanding under such Equipment Note Agreement. Port Authority Equipment Notes shall be payable from the sources of payment and to the extent provided in Section 2.03 of this Resolution.

SECTION 2.02. General Terms of the Equipment Note Agreements and the Notes. An Authorized Officer shall establish such terms and conditions as such Authorized Officer deems appropriate in connection with any Note and any Equipment Note Agreement, including the selection of the purchaser or purchasers to which such Note is to be issued or the selection of a financial services entity which shall designate such purchaser or purchasers (*provided, however*, that any placement fee payable by the Authority to such financial services entity shall not exceed one percent (1%) of the principal amount of such Note) and the selection of any remarketing agent for such Note, and is authorized, from time to time, to approve and enter into any Equipment Note Agreement and issue a Note under such Equipment Note Agreement in the name of and on behalf of the Authority under this Resolution.

SECTION 2.03. Sources of Payment. The principal of and interest on Port Authority Equipment Notes shall be a special obligation of the Authority and shall be payable from the proceeds of obligations of the Authority issued for such purposes or from the same revenues and in the same manner as operating expenses of the Authority.

SECTION 2.04. Application of Proceeds. The proceeds of each Note shall be used in connection with the purchase of Equipment by the Authority, to refund other obligations issued by the Authority in connection with the purchase of Equipment, including any operating equipment-lease financing transactions heretofore or hereafter entered into by the Authority and/or for certain incidental purposes, including certain costs of, and relating to, such Note.

An Authorized Officer may allocate the proceeds of any Note, from time to time, to purposes in connection with some but not all of the purposes authorized for such Note.

SECTION 2.05. Ownership of Notes. To the extent applicable, the Authority may treat the registered holder of a Note as the absolute owner of such Note for the purpose of receiving payment of the principal thereof and interest thereon and for all other purposes, and the Authority shall not be affected by any notice or knowledge to the contrary.

SECTION 2.06. Mutilated, Lost or Destroyed Notes. In case any Note shall at any time become mutilated or be lost or destroyed, the Authority, in its discretion, may execute and deliver a new Note of like tenor in exchange or substitution for and upon cancellation of such mutilated Note or in lieu of or in substitution for such destroyed or lost Note; or if such Note shall have matured, instead of issuing a substitute Note the Authority may pay the same without surrender thereof. In case of destruction or loss, the applicant for a substitute Note shall furnish to the Authority evidence satisfactory to it of the destruction

(Board - 12/12/96)

or loss of such Note and of the ownership thereof and also such security and indemnity as may be required by the Authority. Upon the issuance of any substitute Note, the Authority, at its option, may require the payment of a sum sufficient to reimburse it for any stamp tax or other governmental charge or other reasonable expense connected therewith and also a further sum not exceeding the cost of preparation of each new Note so issued in substitution. Any Note issued under the provisions of this Section 2.06 in lieu of any Note alleged to have been destroyed or lost shall constitute an original contractual obligation on the part of the Authority, whether or not the Note so alleged to have been destroyed or lost be at any time enforceable by anyone, and shall be equally and proportionately entitled to the security of this Resolution with all other Notes issued hereunder.

SECTION 2.07. Authorization of Distribution of Disclosure Documents. An Authorized Officer may arrange, from time to time (i) for the preparation and distribution of disclosure documents, including official statements, offering statements or other offering materials pertaining to any Note and (ii) for the preparation and distribution of such other documents giving pertinent data with respect to the Authority and its finances as such Authorized Officer deems appropriate, in each case, in the name of and on behalf of the Authority.

ARTICLE III. FORM AND EXECUTION OF NOTES.

SECTION 3.01. Form of Notes. Unless otherwise provided in an Equipment Note Agreement with respect to a Note, each Note shall have the official seal of the Authority, or a facsimile thereof, affixed thereto or printed or impressed thereon, and shall be manually signed by an Authorized Officer. Each Note shall be in the form set forth in the Equipment Note Agreement with respect to such Note, any blank spaces being appropriately filled in.

SECTION 3.02. Execution of Notes. In case any Authorized Officer who shall have signed any Note shall cease to be an Authorized Officer before such Note shall have been actually issued, such Note may nevertheless be issued as though such Authorized Officer who signed such Note had not ceased to be such Authorized Officer.

ARTICLE IV. COVENANTS.

The Authority covenants and agrees that:

(a) The Authority shall duly and punctually pay or cause to be paid to the registered holder of each Note the principal of and interest on such Note, when due, in the manner, to the extent and as specified in the Equipment Note Agreement pertaining to such Note and such Note.

(b) Upon the date of issuance of each Note, all conditions, acts and things required by the Constitution or statutes of the States of New York and New Jersey or of the United States of America, or this Resolution to exist, to have happened and to have been performed precedent to or in the issuance of such Note shall exist, have happened

(Board - 12/12/96)

and have been performed and such Note, together with all other indebtedness of the Authority, shall be within every debt and other limit prescribed thereby.

(c) The Authority shall take all action and shall do all things which it is authorized by law to take and to do in order to fulfill all of its obligations under the provisions of this Resolution, the Equipment Note Agreement pertaining to each Note and such Note, in accordance with the terms of such provisions.

ARTICLE V. MISCELLANEOUS.

SECTION 5.01. Contract. To the extent applicable, the provisions of this Resolution shall constitute a part of the contract with the registered holder of each Note, and with each party to the Equipment Note Agreement pertaining to such Note.

SECTION 5.02. Amendments. The Authority may modify or amend this Resolution at any time by a supplemental resolution, without notice to or the consent of any registered holder of any Note or any party to the Equipment Note Agreement pertaining to such Note, but only in regard to such provisions as shall not materially and adversely affect the interests of such registered holder or party under such Equipment Note Agreement and Note.

SECTION 5.03. Liability. Neither any Commissioner nor any officer, agent, representative or employee of the Authority or Authorized Officer shall be held personally liable to any purchaser or registered holder of any Note or to any party under any Equipment Note Agreement or otherwise under this Resolution, the Prior Resolution or any resolution heretofore or hereafter adopted relating to Port Authority Equipment Notes, or because of the issuance or attempted issuance of any Note, or because of any act or omission in connection with the construction, acquisition, effectuation, operation or maintenance of any facility of the Authority, or because of any act or omission in connection with the investment or management of the revenues, funds or moneys of the Authority, or otherwise in connection with the management of its affairs, excepting solely for things wilfully done by such person with an intent to defraud or wilfully omitted to be done by such person with an intent to defraud.

SECTION 5.04. Certifications. An Authorized Officer is authorized, in connection with any Note which is issued on the basis that such Note is to be in conformity with, and that the interest on such Note is not to be includible for Federal income tax purposes in the gross income of the recipients thereof under, Section 103(a) of the Internal Revenue Code of 1986, or successor provisions of law, and the regulations thereunder, to take any action which may be appropriate to assure that such Note is issued, and during its term is outstanding, on such basis, and any such actions taken in connection therewith are ratified. An Authorized Officer is authorized to certify on behalf of the Authority as to the need for the issuance of any Note for the purposes for which such Note is issued, as to the status of the equipment purchases or other purposes for which the proceeds of such Note would be

(Board - 12/12/96)

used, as to the Authority's intentions with respect to the application and investment of such proceeds, and as to such other related matters as may be authorized by this Resolution.

SECTION 5.05. Determinations. Whenever in this Resolution it is provided that any selection, designation, determination or estimate shall or may be made by an Authorized Officer, or that any action may be taken or withheld by an Authorized Officer, as the case may be, or that any action shall or may be taken or withheld at the option of or dependent upon the opinion, discretion or judgment of an Authorized Officer, as the case may be, then the selection, designation, determination, estimate or action so made, taken or withheld shall be conclusive for the purposes of this Resolution, whether required to be made, taken or withheld as a condition precedent to the issuance of any Note or for the purpose of determining if all conditions precedent to the issuance of such Note exist, or otherwise, the Authority adopting such selection, designation, determination, estimate or action so made, taken or withheld as its own.

SECTION 5.06. Authorized Officers. An Authorized Officer is authorized, in connection with Port Authority Equipment Notes, to take any action, which may be appropriate, in the sole determination of such Authorized Officer, to effectuate the issuance of any Note or otherwise under this Resolution.

SECTION 5.07. Titles. Titles to the Articles and Sections of this Resolution are solely for convenience, and are not an aid in the interpretation of this Resolution or any part of this Resolution.

(Board - 12/12/96)

PORT AUTHORITY COMMERCIAL PAPER PROGRAM

Pursuant to the foregoing report the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that, to facilitate the continued issuance of Notes (as defined in the Port Authority Commercial Paper Resolution adopted November 9, 1995) and to provide for other actions to be taken by Authorized Officers (as defined in such resolution), under the Port Authority Commercial Paper Program, reflecting changes in the Authority's organizational structure, the Deputy Treasurer of the Authority is also authorized to designate Authorized Officers (as defined in such resolution) and the authorization to the Assistant Executive Director and Assistant Treasurer, in this respect, is rescinded.

**SETTLEMENT OF CLAIM - JULIUS SCHNEIDER AND RUTH SCHNEIDER V. THE
PORT AUTHORITY OF NEW YORK AND NEW JERSEY**

It was recommended that the Board authorize General Counsel to settle the pending claim instituted by Julius and Ruth Schneider, by paying to them and their attorney the sum of \$150,000 in full settlement of all claims arising out of an incident that occurred on November 25, 1991 at the George Washington Bridge Bus Station. In return, the Port Authority will receive a General Release and Stipulation of Discontinuance, with prejudice.

Plaintiffs brought this action, now pending in the Supreme Court of the State of New York, for personal injuries that Julius Schneider sustained when he tripped and fell due to a broken stair at the location. Subsequent inspections of the stair revealed that it had been broken for some time prior to the plaintiff's accident. Plaintiff sustained a fractured wrist resulting in surgery with bone graft and insertion of hardware with acute carpal tunnel syndrome to his dominant hand.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Hellmuth, Henderson, Janiszewski, Kalikow, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf the Port Authority, to settle the pending action entitled Julius Schneider and Ruth Schneider v. The Port Authority, by paying \$150,000 to plaintiffs and their attorney in return for a General Release and a Stipulation of Discontinuance of all with prejudice.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period October 1, 1996 to October 31, 1996.

NEW YORK

Hon. Charles A. Gargano, Vice-Chairman
 Hon. Peter S. Kalikow
 Hon. George D. O'Neill
 Hon. Melvin L. Schweitzer
 Hon. Madelon DeVoe Talley

The public meeting was called to order by Chairman Eisenberg at 2:20 p.m. and ended at 2:47 p.m. The Board also met in executive session on December 12, 1996, January 23, 1997 and prior to today's public meeting.

Action on Minutes

The Secretary submitted for approval Minutes of the meeting of December 12, 1996. He reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. He reported further that the time for action by the Governors of New York and New Jersey has expired.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Committee on Operations

The Committee on Operations submitted a report, for information, of matters discussed in executive session at its meeting on January 23, 1997, which included a discussion of contract matters and matters which could affect the competitive economic position of the Port Authority, the port district and businesses with whom we deal, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Construction

The Committee on Construction submitted a report, for information, of matters discussed at its meeting on January 23, 1997, which included a discussion of an item that authorizes a project for the development and implementation of an Intelligent Transportation System at the George Washington Bridge. Following the public session, the Committee met in executive session to discuss contract matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Finance

The Committee on Finance submitted a report, for information, of matters discussed in executive session at its meeting on January 23, 1997, which included a discussion of contract matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Capital Programs and Port Planning

The Committee on Capital Programs and Port Planning submitted a report, for information, of action taken and matters discussed at its meeting on December 12, 1996, which included a discussion of the Port Authority's participation in the proposed Conrail merger proceedings, and the report was received.

In executive session, Chairman Eisenberg welcomed John J. Haley, Jr. as a Commissioner of the Port Authority and expressed the Board's pleasure in having Commissioner Haley participate in the work of the Board.

APPOINTMENT OF EXECUTIVE DIRECTOR

In view of Executive Director George J. Marlin's expressed intent not to seek reappointment as Executive Director at the 1997 Annual Meeting, Chairman Eisenberg recommended, in executive session, the appointment of Robert E. Boyle with full power to act as Executive Director of The Port Authority of New York and New Jersey from March 1, 1997 until action by the Board at the Annual Meeting in April. Mr. Boyle's appointment at this time with full power to act will assist in an orderly transition. The Board unanimously approved the recommendation.

**INTERMODAL SURFACE TRANSPORTATION EFFICIENCY ACT -
REAUTHORIZATION - PORT AUTHORITY POSITION**

The following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer, and Talley voting in favor; none against:

WHEREAS, the Intermodal Surface Transportation Efficiency Act of 1992 (ISTEA) provided the States of New York and New Jersey with nearly \$20 billion in federal resources to help meet the transportation needs of the region; and

WHEREAS, ISTEA provides the flexibility needed to direct federal funds to address intermodal transportation required to ensure the critical movement of people and goods throughout our region and nation; and

WHEREAS, the New York and New Jersey region is a critical component of the nation's ability to compete in the global economy through the maintenance and expansion of the Ports of New York and New Jersey and its three major aviation facilities that handle over fourteen million tons of cargo that is disbursed across the nation; and

WHEREAS, the States of New York and New Jersey and the Port Authority have critical transportation infrastructure investment needs because of aging highways and bridges, high level of use by trucks and passenger vehicles, including corridor travel, and has severe air quality challenges; and

WHEREAS, ISTEA provides the foundation for the integration of state, regional and local decision making, and links transportation policy with national clean air objectives;

NOW, THEREFORE, BE IT

RESOLVED, that the Board of Commissioners of The Port Authority of New York and New Jersey strongly endorses the reauthorization of ISTEA with modifications to address issues related to streamlining the delivery of capital projects; and it is further

RESOLVED, that the Board of Commissioners urges the Congress of the United States to allocate federal transportation resources based on need, and not where federal motor fuel taxes are collected; and it is further

RESOLVED, that copies of this resolution be sent to the Governors of New York and New Jersey, members of the New York and New Jersey Congressional delegations and to the Chairman and ranking Member of the House of Representatives Transportation & Infrastructure Committee and the United States Senate Environment & Public Works Committee.

ELECTRONIC TOLL COLLECTION - PROCUREMENT OF INTERIM CUSTOMER SERVICE CENTER SERVICES - AWARD OF PURCHASE ORDER TO MARK IV INDUSTRIES - IVHS DIVISION

The New Jersey Turnpike Authority, on behalf of the New Jersey Consortium on Electronic Tolls Collection, was to award an Electronic Tolls Collection (ETC) contract for the Consortium including the establishment of a Customer Service Center (CSC) which was to service the Port Authority's electronic toll patrons and permit the Port Authority to fully participate in the Consortium's objective of implementing and operating a regional ETC system. It now appears unlikely that the Consortium will make a timely award of contract to meet the Port Authority's requirements for inception of ETC service in July 1997. The Consortium Memorandum of Understanding's terms and conditions provide that if the Port Authority's Executive Director reasonably determines on or before February 15, 1997 that the Consortium's CSC would not be available to the Port Authority for testing by April 1997, the Port Authority may make arrangements for an interim CSC. It is therefore prudent to make arrangements for the provision of interim CSC services to the Port Authority and for the Port Authority to purchase necessary transponders (tags) and related equipment from Mark IV Industries. The Consortium was to have purchased such items for its members but will not purchase them for the Port Authority's interim Customer Service Center use. On August 8, 1996, the Port Authority executed an irrevocable Offer with Mark IV IVHS to provide tags, readers and ancillary equipment.

Staff will interview entities believed to have the capabilities to provide the required interim CSC services in the required time frame. The Board will be advised of the final terms and conditions of the arrangements for the services.

The proposed procurement of interim CSC services is intended to provide for the needs of the Port Authority on an interim basis until the Port Authority has made a reasonable assessment that the Consortium CSC has been successfully tested and is ready for operational use by the Port Authority. The arrangement is anticipated to span one year and allow for a 60 day termination by the Port Authority. The interim CSC is to be available for program rollout in July 1997 and is to support the Port Authority ETC program as approved by the Board. The interim CSC costs are to be negotiated. The services to be provided will include but not be limited to E-ZPASS account establishment and maintenance, tag inventory and distribution, walk-in centers, statements processing, violations enforcement, credit card and check verification, and telephone application and account inquiry. The interim services contemplates a single account and single statement covering all ETC customers.

A Letter of Intent has been transmitted to Mark IV Industries in order to place the Port Authority into a production schedule consistent with the July 1997 inception of service. Based on the recent experience of MTA B&T and the New York State Thruway Authority, there will be approximately one million E-ZPASS tags in circulation at the time of the inception of ETC service by the Port Authority. The Port Authority will award a Purchase Order for 150,000 tags and ancillary equipment for both private and commercial use under this authorization which will meet the Port Authority's inception of service needs.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, O'Neill, Philibosian, Schweitzer, and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to procure interim Customer Service Center services necessary for the Port Authority's Electronic Toll Collection Program; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to award a Purchase Order to Mark IV Industries - IVHS Division, for the furnishing of vehicle transponders (tags) and associated equipment necessary for the inception of electronic toll collection services by the Port Authority at an estimated cost of \$3.9 million, and it is further

RESOLVED, that the form of all agreements shall be subject to the approval of General Counsel or his authorized representative.

(Board - 2/7/97)

**JOHN F. KENNEDY INTERNATIONAL AIRPORT - SOUTHWEST QUADRANT
RESTRICTED SERVICE ROAD AND BRIDGE - PROJECT AUTHORIZATION**

The John F. Kennedy International Airport (JFK) Aeronautical Operations Area eight mile network of restricted service roads provides a secure all-airside route and transportation link between various aeronautical facilities for large fueling tankers, cargo handlers, catering trucks, aircraft tugs and other airport service vehicles. However, there is currently no restricted all-airside route connecting JFK's southwest quadrant, including the Bulk Fuel Farm, with the northwest quadrant. As a result, heavy fuel tankers and a number of other types of large, slow moving airport vehicles that service the southwest quadrant must use the public roadway system, including 130th Place and the Van Wyck Expressway, to connect to the northwest quadrant, thereby contributing to congestion and other undesirable public roadway conditions. Further, a new cost efficient aircraft tug which is too wide for public roadway use and more appropriately suited to an airside operations route has been tested for service at JFK.

The proposed project, through the two and one-third mile expansion of the restricted service road network in the southwest quadrant including the construction of a bridge over the Van Wyck Expressway, will provide an all-airside route and transportation link from the southwest quadrant to the northwest quadrant, thereby reducing congestion and improving safety conditions on public roads, deferring the need to widen 130th Place, and facilitating the movement of widebody aircraft tugs and the contemplated relocation of the Satellite Fuel Farm maintenance operations to an area adjacent to the Bulk Fuel Farm.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer, and Talley voting in favor; none against:

RESOLVED, that a project for the expansion of the restricted service road network in the southwest quadrant of John F. Kennedy International Airport to connect to the existing restricted service road in the northwest quadrant, including the construction of a bridge over the Van Wyck Expressway, at an estimated total project cost of \$23.03 million, including payments to contractors, allowances for extra work (if necessary) and net cost work, planning, engineering, administrative and financial expenses, and a project contingency (if necessary), be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to a) take action with respect to purchases and construction contracts and contracts for professional and advisory services related to the foregoing project as he deems in the best interest of the Port Authority, including, without limitation, award to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable; rejection of all bids, solicitation of new bids on revised or the same requirements, or

negotiation with one or more bidders or other contractors; b) execute contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work (if necessary) and net cost work in connection with each contract, including supplemental agreements thereto; and c) enter into such other agreements as may be necessary to effectuate the project; and it is further

RESOLVED, that the form of the contracts and agreements required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

**JOHN F. KENNEDY INTERNATIONAL AIRPORT - CENTRAL TERMINAL AREA
PARKING STRUCTURE, AREA ONE (TERMINAL ONE/DELTA) -
PLANNING/PROJECT AUTHORIZATION AND AWARD OF CONTRACTS**

In the fall of last year, the Port Authority undertook an analysis of projected parking supply and demand as a result of several changes that have or will occur within the Central Terminal Area (CTA) at John F. Kennedy International Airport. There has been a marked increase in air passenger traffic, particularly originating and terminating traffic (the users of parking), at the Delta Airlines Terminal. Further the construction of the new Terminal One in Area One, which shares parking with Delta, is scheduled for completion in May 1998 and will increase the demand by approximately 400 parking spaces in Area One. Concurrently, there will be a permanent loss in parking supply associated with the closure of the Delta rooftop Public Parking Lot #6 for security reasons (400 spaces), which has accelerated the need for this project. Current plans are to complete the Area One parking structure to coincide with the scheduled opening of the new Terminal One. As a result, in order to achieve this goal, the construction is currently being fast-tracked using in-house forces for the design. Also, in order to meet parking needs during construction, it will be necessary to re-open Parking Lot #6 for a period of time. This will incur increased operation and maintenance expenses in order to satisfy security requirements. When the three-level 1,430 space structure is completed, Area One will have approximately 1,850 spaces available for public use.

A number of operational alternatives have been examined and rejected because of the poor level of service afforded to the air passenger. These options included providing shuttle buses to remote parking lots outside the CTA, the introduction of valet parking, and new pricing strategies aimed at reducing the demand on the CTA lots. Utilization of the planned Light Rail System as a parking lot management tool to distribute parkers around the CTA and the long-term lots is a future strategy which can be pursued when the system is scheduled to come into service in the year 2001. However, even with the Light Rail System on line, the demand for parking in the CTA will necessitate construction of this facility.

Pursuant to the foregoing report, the following resolution was with Commissioners Donovan, Eisenberg, Gargano, Haley, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer, and Talley voting in favor; none against:

RESOLVED, that a project for the planning, design and construction of a parking structure in Area One of the Central Terminal Area of John F. Kennedy International Airport (JFK) at a total estimated project cost of \$46 million including payments to contractors, allowances for extra work (if necessary), and net cost work, administrative, engineering, and financial expenses and a project contingency be and the same is hereby authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to (a) take action with respect to purchase and construction contracts and agreements for professional and advisory services for the foregoing project as he deems in

the best interest of the Port Authority, including without limitation, award to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable, rejection of all bids, solicitation of new bids on revised or same requirements, or negotiation with one or more contractors; (b) execute Contracts and Supplemental Agreements with such bidders or contractors as he deems in the best interest of the Port Authority and to order extra work and net cost work in connection with each Contract, including Supplemental Agreements thereto; (c) enter into a Supplemental Agreement with Slattery Associates, Inc., the contractor for the ongoing Area One Roadway Contract Package #6, JFK-584.004, for construction of the foundations for the Area One Parking Structure, utilities verification and relocation in the foot print of the proposed parking structure, and for other modifications to allow the integration of the parking structure into Area One; and d) award Contract JFK-114.001 - "John F. Kennedy Airport - Central Terminal Area - Area One Parking Structure" to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable, reject all bids, solicit new bids on revised or same requirements, or negotiate with one or more contractors; and it is further

RESOLVED, that the form of the contracts and agreements required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

**JOHN F. KENNEDY INTERNATIONAL AIRPORT - DHL AIRWAYS, INC. -
AUTHORIZATION TO LEASE SPACE IN BUILDING NO. 141**

It was recommended that the Board authorize the Executive Director, for and on behalf of the Port Authority, to enter into a lease agreement with DHL Airways, Inc. (DHL) covering approximately 23,600 square feet of warehouse and approximately 16,500 square feet of related outside area of Building No. 141 at John F. Kennedy International Airport (the premises), for the expansion of DHL's international air cargo operations.

The lease will provide for a term of approximately seven years commencing on or about May 1, 1997. Payment of rent will commence on the earliest to occur of (a) the 120th day following the signing of the lease; (b) the date DHL's renovation work is substantially completed; or (c) the date the premises or any portion thereof is occupied by DHL for cargo purposes.

The rentals would be subject to escalation on a prescribed basis at periodic intervals throughout the term of the lease.

DHL will be obligated to renovate and improve the premises at a cost of approximately \$750,000. This work will be completed on or about September 1, 1997.

The Port Authority will perform a subsurface environmental assessment of the premises prior to the execution of the lease. The cost of remediation of subsurface ground contamination to the legally required clean-up level and removal of underground fuel tanks, if any, for which the Port Authority may be responsible is estimated at \$500,000. DHL will be responsible for environmental conditions not described in the lease as well as removal and disposition of asbestos in the premises.

The Port Authority will be responsible for the roof and structural maintenance of the premises. DHL will be responsible for non-structural maintenance and repairs of the premises as well as all utilities consumed at the premises.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer, and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with DHL Airways, Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**JOHN F. KENNEDY INTERNATIONAL AIRPORT - NORTHWEST AIRLINES, INC. -
SUPPLEMENT TO LEASE AYA-850 FOR REDEVELOPMENT OF CARGO
SITE**

It was recommended that the Board authorize the Executive Director to enter into an agreement with Northwest Airlines, Inc. (Northwest) to supplement and amend its lease for cargo facilities at John F. Kennedy International Airport (the Airport) to provide for, among other things, (1) Northwest's demolition of its existing cargo facility, construction of a new, state-of-the-art cargo facility at an estimated cost of \$31 million and surrender of approximately ten acres of land (the date of such surrender, DBO), (2) an option and right of first refusal to Northwest, for a ten-year period, to reacquire the surrendered ten-acre parcel, (3) the extension of the lease term through November 30, 2015 or, if the City lease for the Airport is renewed, up to 25 years following DBO and (4) the Port Authority's remediation, at a cost not to exceed \$500,000, of such subsurface contamination as Northwest can demonstrate was not caused by its operations, Northwest being responsible for all other environmental remediation. Northwest expects to obtain New York City Industrial Development Agency construction financing.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer, and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Northwest Airlines, Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

NEWARK INTERNATIONAL AIRPORT - EXTENSION OF RUNWAY 4L-22R AND RECONFIGURATION OF PARKING LOTS F AND G - PROJECT AUTHORIZATION

The extension of inboard Runway 4L-22R at Newark International Airport (EWR) has been identified by the FAA/Industry Capacity Enhancement Task Force as a measure to reduce aircraft takeoff and landing delays. It would eliminate pilot preference for using the longer arrivals runway for departures, thereby reducing aircraft delays and airline operating costs. The runway extension would also provide the added benefit of reducing aircraft noise exposure from departures for residents north and south of EWR. In addition, it would provide greater payload-range capabilities of certain aircraft, particularly heavy jet aircraft serving the international market.

The proposed project provides for the extension of Runway 4L-22R by 1,000 feet to the north and 1,800 feet to the south, resulting in an 11,000 foot runway compared to the existing 8,200 feet. Related work in the area north of the runway will include: embedding the approach light system for Runway 4L in the runway pavement; relocating the localizer for Runway 4L; reconfiguration of Public Parking Lot G and the restricted service road adjacent to it; drainage improvements, and associated taxiway work including a taxiway extension. Related work in the area south of the runway will include: implementation of a Bird Hazard Control Plan including appropriate mitigation measures for affected and nearby wetlands, such mitigation measures to include payments to offset the filling of such wetlands; construction of a new storm water outfall into the peripheral ditch; reconfiguration of Employee Parking Lot F and the restricted service road and patrol road adjacent to it; installation of a localizer for Runway 22R, and associated taxiway work including a taxiway extension. Provisions for the future installation of a medium-intensity approach lighting system with runway indicator lights on Runway 22R will also be included.

Pursuant to the foregoing report presented by staff, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer, and Talley voting in favor; none against:

RESOLVED, that a project for the extension of Runway 4L-22R at Newark International Airport from 8,200 to 11,000 feet and the implementation of a Bird Hazard Control Plan including appropriate mitigation measures for affected and other nearby wetlands at an estimated total project cost of \$92.4 million, including payments to contractors, allowances for extra work (if necessary) and net cost work, payments to obtain wetland mitigation credits to offset the filling of such wetlands, planning, engineering, administrative and financial expenses and a project contingency (if necessary) be and it hereby is authorized; and it is further

RESOLVED, that a project for the reconfiguration of Employee Parking Lot F and Public Parking Lot G at a total estimated project cost of \$7.5 million, including payments to contractors, allowances for extra work (if necessary) and net cost work, planning, engineering, administrative and

) financial expenses and a project contingency (if necessary) be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to a) take action with respect to purchase and construction contracts and contracts for professional and advisory services related to the foregoing projects as he deems in the best interest of the Port Authority, including, without limitation, award to the lowest bidder, who, in his opinion is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable; rejection of all bids, solicitation of new bids on revised or the same requirements, or negotiation with one or more bidders or other contractors; b) execute contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work (if necessary) and net cost work in connection with each contract, including supplemental agreements thereto; and c) enter into such other agreements as may be necessary to effectuate the projects; and it is further

) **RESOLVED**, that the form of the contracts and agreements required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

**NEWARK INTERNATIONAL AIRPORT - AVIS RENT A CAR SYSTEM, INC., THE
HERTZ CORPORATION, NATIONAL CAR RENTAL SYSTEM, INC., -
REVISIONS**

It was recommended that the Board authorize the Executive Director, for and on behalf of the Port Authority, to enter into agreements amending leases with Avis Rent A Car System, Inc. (Avis), The Hertz Corporation (Hertz) and National Car Rental System, Inc. (National) at Newark International Airport (EWR) to increase the amount of investment that would be recognized under each lease for the purpose of calculating unamortized investment in each company's newly constructed customer service facilities and to enter into agreements supplementing each company's privilege permit at EWR to increase the amount of investment recognized in calculating construction fee credits. The amount of Avis' investment would be increased from \$8 million to \$10 million, Hertz's investment would be increased from \$6 million to \$11 million, and National's investment would be increased from \$3 million to \$8 million.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer, and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into supplemental agreements to leases and permits with Avis Rent A Car System, Inc., The Hertz Corporation and National Car Rental System, Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreements shall be subject to the approval of the General Counsel or his authorized representative.

GEORGE WASHINGTON BRIDGE - INTELLIGENT TRANSPORTATION SYSTEM - TRAFFIC MANAGEMENT SYSTEM-PROJECT AUTHORIZATION, AUTHORITY TO AWARD CONTRACTS GWB-244.085 AND GWB-244.085M AND AUTHORITY TO ACCEPT FEDERAL FUNDING UNDER A CONGESTION MITIGATION AIR QUALITY GRANT

The proposed project for development and implementation of an Intelligent Transportation System (ITS) at the George Washington Bridge (GWB) will improve the quality of service for customers. This will be accomplished through faster detection and clearance of accidents and/or otherwise disabled vehicles and by providing the public with timely, accurate, real time information regarding traffic flow at the facility and on adjoining roadways.

The State of New Jersey is currently installing an ITS on its roadways which adjoin the GWB. The State of New York is in the planning stages of implementing a similar system on its roadways. The GWB, which is a major link in the I-80/I-95 corridor, must have a compatible ITS to achieve a seamless ITS boundary in that section of the corridor. Given this need and the expected positive effect on air pollution through the reduction of emissions during congested periods, the federal government has selected the project to receive a \$1.2 million Congestion Mitigation Air Quality grant to cover a portion of the project costs. This project is the first phase of the agency's ITS program for all river crossings.

Pursuant to the foregoing report presented by staff, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Kalikow, O'Neill, Philiposian, Schweitzer, and Talley voting in favor; Commissioner Henderson abstaining; none against:

RESOLVED, that a project for the development and implementation of an Intelligent Transportation System (ITS) at the George Washington Bridge (GWB) at an estimated project cost of \$24.3 million net of federal funding and including administrative, engineering, planning and financial expenses, and allowances for net cost and extra work (if necessary) and a project contingency (if necessary), be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to (a) solicit proposals for and to award Contract GWB-244.085, a contract to design, furnish and install the GWB ITS system at an estimated cost of \$14.9 million, and Contract GWB-244.085M, a contract for four year maintenance of such system at an estimated cost of \$1.1 million, to the proposer whose proposals are rated highest based on evaluation of cost, quality and such other criteria as are established prior to solicitation of proposals; (b) execute such other contracts and supplemental agreements for the project with such bidders or contractors as he deems in the best interest of the Port Authority; and (c) order extra work (if necessary) and net cost work, in connection with each contract including supplemental agreements thereto; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to accept and expend federal funds in connection with the project under a Congestion Mitigation Air Quality grant in the amount of \$1.2 million.

**THE WORLD TRADE CENTER - HVAC DISTRIBUTION SYSTEM REHABILITATION -
PROJECT AUTHORIZATION**

A condition survey of components of the World Trade Center HVAC distribution system determined that certain base building cooling equipment is at the end of its useful life and in need of rehabilitation or replacement in order to restore system operations to design capacity. This work will also enable the air conditioning system to offset the heat generated by the additional electrical capacity required to meet existing and prospective tenant demand.

The proposed project will be the third component of the four-phase HVAC Upgrade. Since 1993, HVAC capacity has been increased by the construction of a new chiller plant, and by a new river water line which enables year round cooling and provides system back-up. This project will increase chiller plant efficiency through piping and pumping modifications, extend the useful life of the base building cooling system by rehabilitating or replacing components and provide an additional and more economical means of furnishing supplemental cooling to tenants.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer, and Talley voting in favor; none against:

RESOLVED, that a project for the rehabilitation of The World Trade Center HVAC Distribution System at an estimated total project cost of \$24.4 million including administrative, engineering, planning and financial expense, payments to vendors, consultants and contractors, and allowances for extra work (if necessary) and net cost work, and a project contingency (if necessary) be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to a) take such actions with respect to the award of purchase and construction contracts and contracts for professional and advisory services as he deems in the best interest of the Port Authority including, without limitation, award to the contractor who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose proposal price the Executive Director deems reasonable; rejection of all proposals, solicitation of new proposals on revised or the same requirements from one or more contractors, or negotiation with one or more proposers or other contractors; b) execute contracts and supplemental agreements with such contractors as he deems in the best interest of the Port Authority and to order extra work (if necessary) and net cost work in connection with each contract, including supplemental agreements thereto; and c) enter into such other agreements as may be necessary to effectuate the project; and it is further

RESOLVED, that the terms of the construction or purchase contracts required to effectuate the foregoing be subject to the approval of the Committee on Construction; and it is further

RESOLVED, that the form of the contracts and agreements required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

PORT NEWARK - SWIFT FUEL STOPS, INC. - AUTHORIZATION TO LEASE BUILDING 151

It was recommended that the Board authorize the Executive Director, for and on behalf of the Port Authority, to enter into an agreement of lease with Swift Fuel Stops, Inc. (Swift Fuel) to lease Building 151 and adjacent open area at Port Newark for the renovation and operation of an automobile service station.

Swift Fuel will upgrade the station to ensure that the fuel storage and delivery system meet new and more stringent environmental standards to be effective in 1998.

The lease would be for a term of twenty years commencing on or about March 1, 1997. Rentals would commence at the earlier of (i) 150 days from the commencement date or (ii) the date upon which public operations may be commenced in the premises. Annual rentals over the term of the lease would be fixed initially and subject to escalation equivalent to two and one-half percent (2.5 percent) per year.

A subsurface environmental assessment of the site indicates that existing underground fuel storage tanks and associated lines must be removed and subsurface ground contamination remediated. The cost of the remediation of subsurface ground contamination for which the Port Authority will be responsible is estimated at \$500,000. Swift Fuel would not be responsible for the remediation of any pre-existing ground contamination which may be discovered and described in the lease. The Port Authority would also be responsible for the removal of existing tanks, lines and pumps at an estimated cost to the Port Authority of \$50,000.

Pursuant to the forgoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer, and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement of lease with Swift Fuel Stops, Inc., at Port Newark, substantially in accordance with the terms and conditions set forth above; the form of the agreement shall to be subject to the approval of the General Counsel or his authorized representative.

**PORT AUTHORITY BUS TERMINAL - H&R BLOCK EASTERN TAX SERVICES, INC.
- LEASE AGREEMENT**

It was recommended that the Board authorize the Executive Director to enter into a lease agreement (the Lease) with H&R Block Eastern Tax Services, Inc. (H&R Block) covering the construction and operation of an office to be used for the conduct of a commercial tax preparation service on the Main Concourse of the South Wing of the Port Authority Bus Terminal and to enter into a brokerage agreement with Augie Hasho & Associates, Inc., the broker involved in the letting, each agreement to be substantially in accordance with the terms and conditions outlined below.

H&R Block's parent company is publicly traded on the New York Stock Exchange and has been in business for over forty years. It has over 4,000 offices located in all 50 states, and provides services in fifteen other countries. Its 1996 revenues are expected to exceed \$1.2 Billion.

The Lease would be for a term commencing on or about March 1, 1997 and expiring on the day preceding the tenth anniversary of the date payment of rental commences under the Lease. H&R Block will pay a graduated basic rental for the premises aggregating approximately \$777,000 over the term of the lease. Payment of rental under the Lease will commence 300 days from the commencement date of the term of the letting under the Lease or 90 days after the commencement of business operations in the premises, whichever occurs first. H&R Block will install all improvements, fixtures and equipment required for its operations in the premises at its expense. The term of the letting will be subject to termination by the Port Authority, at any time, without cause, on thirty days' notice, in which event H&R Block would be reimbursed for the unamortized portion of its initial capital investment in the premises to the extent that such initial capital investment does not exceed \$250,000. H&R Block will have the right to terminate the term of the letting at any time following the commencement of the third annual period upon payment to the Port Authority of a sum specified in the Lease.

The Port Authority will pay a brokerage commission to Augie Hasho & Associates, Inc. in connection with the letting.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer, and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with H&R Block Eastern Tax Services, Inc., at the Port Authority Bus Terminal and a brokerage agreement with Augie Hasho & Associates, Inc., substantially in accordance with the terms and conditions outlined above; the form of the agreement in each instance shall be subject to the approval of General Counsel or his authorized representative.

SETTLEMENT OF CLAIM - HUDSON REFRIGERATING COMPANY V. THE PORT AUTHORITY OF NEW YORK AND NEW JERSEY

It was recommended that the Board authorize General Counsel to settle the Port Authority's pre- and post-petition bankruptcy claims of approximately \$2.475 million as of September 13, 1995 and \$877,650 thereafter to date, respectively and the lawsuit of Debtor Hudson Refrigerating Company (Hudson) arising out of a lease (Lease L-NS-561) between the Port Authority and Hudson for premises at Port Newark.

Hudson filed a Chapter 11 Bankruptcy Petition on September 14, 1995 and also commenced a lawsuit against the Port Authority questioning the nature of the agreement between the parties.

The Port Authority will receive from this settlement (1) approximately \$750,000 currently being held for escrow for use and occupancy; (2) approximately \$1.6 million over time in satisfaction of past arrearages (with an immediate payment of \$250,000); and (3) 89 percent of the rental called for under the lease without the escalation currently provided for in the lease.

Among the other terms of settlement, Hudson will also agree to dismiss its lawsuit against the Port Authority with prejudice, in which it claims that the lease is not a "true lease" but rather a disguised financing arrangement and to the entry of an Order by the Bankruptcy Court stating that the lease is a true lease as a matter of law, and if not so ordered by the Court, the Port Authority may terminate the Settlement Agreement. Additionally, if any further default occurs by Hudson under this settlement or the lease and is not promptly cured, Hudson will agree that the lease is deemed terminated and a judgment for possession of the premises can be entered.

As part of the settlement, Hudson's parent will also agree that it will be responsible for reasonable costs incurred if Hudson terminates its business and fails to timely deliver-out its inventory to its customers. The Port Authority's environmental and repair claims, if any, with respect to Lease L-NS-561 will also be preserved. The settlement will also contain various provisions to protect the Port Authority's interests, to the extent permitted by law, from any further subsequent bankruptcy of Hudson.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer, and Talley voting in favor; none against:

RESOLVED, that General Counsel be and he is hereby authorized, for and on behalf of the Port Authority, to settle the Port Authority's bankruptcy claims against Hudson Refrigerating Company (Hudson) and the adversary proceeding in bankruptcy filed by Hudson against the Port Authority, substantially in accordance with the terms and conditions set forth above.

SETTLEMENT OF CLAIM - ANNA DEFESI, AS EXECUTRIX OF THE ESTATE OF JOSEPH DEFESI, DECEASED V. THE PORT AUTHORITY OF NEW YORK AND NEW JERSEY

It is recommended that General Counsel be authorized to enter into settlement with Anna DeFesi, as Executrix of the Estate of Joseph DeFesi, deceased, and their attorney in the amount of \$150,000, representing the Port Authority's proportionate share of a total settlement of \$500,000, inclusive of all liens, attorney fees, interest, costs, and disbursements, in exchange for a general release and stipulation of discontinuance with prejudice. The Port Authority has expressly reserved its right to seek reimbursement and recovery of this proportional share of the settlement from Hilton International and its insurers.

This settlement will fully resolve the claim of the estate of plaintiff's decedent and his widow for damages arising out of an incident in June 1, 1990 on the B-1 Level of 3 World Trade Center when there was an explosion in the steam system pipes. As a result, plaintiff's decedent sustained second and third degree burns over 90 percent of his body, and survived for a period of approximately 24 hours, in and out of consciousness, prior to his demise due to these injuries.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer, and Talley voting in favor; none against:

RESOLVED, that General Counsel be and hereby is authorized to settle the pending action entitled Anna DeFesi, as Executrix of the Estate of Joseph DeFesi, deceased v. The Port Authority of New York and New Jersey, et al., for the total amount of \$150,000 inclusive of all liens, attorney fees, interest, costs and disbursements, by paying said amount to the plaintiffs and their attorney in exchange for a general release and stipulation of discontinuance with prejudice, in full settlement of claim.

**SETTLEMENT OF CLAIM - NEW YORK STATE DEPARTMENT OF
TRANSPORTATION - W. 30TH STREET HELIPORT**

It was recommended that the Board authorize General Counsel to settle all claims New York State may have arising out of a Use and Occupancy Permit between the Port Authority, as permittee, and the New York State Department of Transportation (NYSDOT) for the W. 30th Street Heliport, by paying \$1.1 million to New York State in exchange for a general release of all claims, including those relating to environmental remediation.

In 1981, as part of the Westway Program, NYSDOT by eminent domain acquired the W. 30th Street Heliport and all rights to the lease between New York City and the Port Authority. In May 1996, NYSDOT terminated the Port Authority's Use and Occupancy Permit and demanded the Port Authority return the facility in the same condition as received. The total cost of repairs is estimated at approximately \$2,000,000. The Port Authority and NYSDOT disagree as to which party is responsible for repairs to the facility. NYSDOT has offered to settle the claim for \$1.1 million.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Henderson, Kalikow, O'Neill, Philibosian, Schweitzer, and Talley voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to settle all claims New York State may have against the Port Authority arising out of a Use and Occupancy Permit between the Port Authority, as permittee, and the New York State Department of Transportation for the W. 30th Street Heliport for \$1.1 million in exchange for a general release of all claims, including those relating to environmental remediation, and to do all other things necessary and appropriate in implementation or furtherance of the foregoing; and it is further

RESOLVED, that all documents which may be required to effectuate the foregoing be subject to the approval of General Counsel or his authorized representative.

TRIBUTE TO COMMISSIONER FRANK J. WILSON

The following resolution was unanimously adopted expressing the appreciation of the Board of Commissioners to Frank J. Wilson.

WHEREAS, during the years since his 1994 appointment by Governor Christine Todd Whitman as a Commissioner of The Port Authority of New York and New Jersey, the Honorable Frank J. Wilson has been a loyal and dedicated member of the Board; and

WHEREAS, during that time Commissioner Wilson served with distinction as Vice-Chairman of the Committee on Construction and as a member of the Committee on Capital Programs/Construction; and

WHEREAS, Commissioner Wilson brought to the Port Authority the benefits of his many years of experience in the field of mass transit.

Now, therefore, be it

RESOLVED, that the Commissioners of The Port Authority of New York and New Jersey do hereby express their appreciation to Frank J. Wilson for his service to the agency and the region it serves; and it is further

RESOLVED, that the Commissioners hereby direct that this resolution be suitably engraved and presented to Commissioner Frank Wilson as a token of their thanks.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period November 1, 1996 to November 30, 1996.

 Hon. Madelon DeVoe Talley
 Hon. Melvin L. Schweitzer

The public meeting was called to order by Chairman Eisenberg at 2:29 p.m. and ended at 2:35 p.m. The Board also met in executive session on February 27, 1997 and prior to today's public meeting.

Action on Minutes

The Secretary submitted for approval Minutes of the meeting of February 6, 1997. He reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. He reported further that the time for action by the Governors of New York and New Jersey has expired.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

The Secretary reported that the Minutes of February 6, 1997 contained a typographical error on page 9. In the second paragraph, first line, the reference to the Intermodal Surface Transportation Efficiency Act should have reflected its enactment in 1991.

Report of Committee on Operations

The Committee on Operations submitted a report, for information, of matters discussed in executive session at its meeting on February 27, 1997, which included a discussion of lease matters, and the report was received.

Report of Committee on Construction

The Committee on Construction submitted a report, for information, of matters discussed in executive session at its meeting on February 27, 1997, which included a discussion of contract matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Finance

The Committee on Finance submitted a report, for information, of matters discussed in executive session at its meeting on February 27, 1997, which included a discussion of matters related to, or which could impact upon, the issuance, sale, resale, or redemption of Port Authority bonds, notes or other obligations, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Capital Programs and Port Planning

The Committee on Capital Programs and Port Planning submitted a report, for information, of matters discussed at its meeting in executive session on February 27, 1997, which included a discussion of contract matters and matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with whom we deal, and the report was received.

Report of Audit Committee

The Audit Committee submitted a report, for information, of matters discussed in executive session at its meetings on February 27, 1997 and March 20, 1997, which included discussion of internal audit matters, and the report was received.

Chairman Eisenberg welcomed Executive Director, Robert E. Boyle, to his first board meeting.

**NEWARK INTERNATIONAL AIRPORT - CONTINENTAL AIRLINES, INC. -
EXTENSION OF LEASE ANA-040 AND AUTHORIZATION OF NEW LEASE
ANA-957 - HANGAR 55 REDEVELOPMENT**

It was recommended that the Board authorize the Executive Director, for and on behalf of the Port Authority, to: 1) enter into a supplemental agreement to Lease ANA-040 with Continental Airlines, Inc. at Newark International Airport (EWR) to provide for the surrender of a portion of the Hangar 55 leasehold and an extension of the remaining portion of the leasehold for a term to be coterminous with a new Lease ANA-957, with an option in Continental to extend the term for an additional period of up to five years if certain criteria are met; 2) enter into a new Lease ANA-957 with Continental for a term of twenty-five years covering the letting of the said surrendered portion of the Hangar 55 leasehold upon which a new wide-body aircraft hangar of approximately 80,000 square feet for aircraft maintenance operations would be constructed at an estimated cost of \$16 million; and 3) reimburse Continental an amount not to exceed \$3 million for the design and installation of a pump station which is part of a Port Authority project to serve the entire north side development at EWR. Continental would be obligated to demolish Parcels B and C of Hangar 55 within five years, the Port Authority having the option to demolish said parcels if Continental fails to demolish them, with Continental being obligated to pay the Port Authority's costs, and, in either case, the building rental being abated.

New Lease ANA-957 would provide for a land rental, consisting of a constant factor annually escalated via CPI adjustments not to exceed four percent, effective every third year, and an airport services factor adjusted annually per Schedule A of the lease. Lease ANA-040, as extended, would provide for an increased land and building rental, consisting of a constant factor annually escalated via CPI adjustments not to exceed four percent, effective every third year, and an airport services factor adjusted annually per Schedule A of the lease.

Pursuant to the foregoing report presented by staff, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Henderson, Janiszewski, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a supplemental agreement to Lease ANA-040 with Continental Airlines, Inc. and enter into a new Lease ANA-957 with Continental Airlines, Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreement in each instance shall be subject to the approval of General Counsel or his authorized representative.

(Board - 3/20/97)

**JOHN F. KENNEDY INTERNATIONAL AIRPORT - BRITISH AIRWAYS, PLC -
PAYMENT FOR ROADWAY/PARKING/TERMINAL IMPROVEMENTS -
LEASE AYB-876**

It was recommended that the Board authorize the Executive Director to enter into a supplemental agreement to the unit terminal lease with British Airways, PLC (BA) at John F. Kennedy International Airport (JFK) covering the construction by BA of an alternate Roadway Package 5 - Quadrant 4 - Project which would include, among other things, new roadways utility work, grade level parking, elevated parking and expansion of the BA terminal frontage, for which the Port Authority would reimburse BA in an amount up to \$43 million for a portion of the total project costs.

The supplemental agreement would also cover the leasing to BA of additional acreage of approximately one and one-half acres of terminal frontage area upon which BA would construct an expansion to its unit terminal building.

The term of the letting of the additional premises would expire on November 30, 2015 concurrently with the expiration of the lease. The Supplement will set forth the additional ground rental applicable to the added premises.

The Port Authority's plan for the roadway redevelopment of these areas of the Central Terminal Area at JFK, known as Roadway Construction Package #5, was scheduled to be completed by the Port Authority as part of the Redevelopment program authorized by the Board at its June 10, 1993 meeting. The BA plan, including the completion of design and construction, would now be used in lieu of completion of the Port Authority's plan. Under the Supplement BA would be required to complete the design and construction and to perform all components of the BA plan, and such components will now include, among other things, new roadways replacing the existing road system in front of Terminals 5, 6 and 7, separate circulation routes, ground level parking areas at the Terminals, an elevated parking structure, an expanded departures roadway at the BA Terminal, as well as an expansion of approximately one and one-half acres of frontage and the construction of approximately 8,000 square feet of building space at the BA Terminal No. 7. BA will be required to complete the design and to perform construction in a manner consistent with other on-going roadway, frontage and utility improvements at JFK as well as to maintain a high degree of coordination with the plan and schedule for the proposed Light Rail System.

Port Authority reimbursement payments to BA of up to \$43 million would be made on a regular basis for completed work. The BA plan costs more than the Port Authority's plan and BA would be responsible for the costs beyond the approved Port Authority reimbursement payments.

BA will be required to commit to good faith efforts to achieve stated goals for participation by Minority Business Enterprises and Women-owned Business Enterprises and labor force goals in its contracts, subcontracts and procurements.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Henderson, Janiszewski, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with British Airways, PLC, amendatory and supplementary to its unit terminal lease at John F. Kennedy International Airport, substantially in accordance with the terms and conditions set forth above; the form of the said agreement shall be subject to the approval of General Counsel or his authorized representative.

**THE WORLD TRADE CENTER - AON RISK SERVICES, INC. OF NEW YORK -
LEASE AGREEMENT**

It was recommended that the Board (1) authorize the Executive Director to enter into (a) a lease agreement with AON Risk Services, Inc. of New York (ARS) for a term of approximately fifteen years commencing on or about April 1, 1997 covering the letting of approximately 75,000 square feet of space and, commencing on or about September 1, 2002, covering the letting of approximately 221,000 square feet of additional space and (b) enter into a brokerage agreement with Edward S. Gordon Company, Incorporated; and (2) delegate to the Committee on Operations the authority to approve the final terms of the lease agreement in the event they are not substantially in accordance with those outlined below.

ARS (formerly known as Rollins Hudig Hall of New York, Inc.) is currently a subtenant of Lehman Brothers, Inc. occupying approximately 221,000 square feet of space on part of the 104th floor and the entire 101st, 102nd, 103rd, and 105th floors of Two World Trade Center (WTC). Under the proposed lease agreement, ARS will: (1) lease the entire 100th floor and part of the 83rd floor of Two WTC commencing on or about April 1, 1997; and (2) commencing on or about September 1, 2002, lease the same space it currently sublets, to be coterminous with the letting of the 100th-floor and 83rd-floor spaces. In order to accommodate ARS's desire to commence business operations in its initial space on April 1, 1997, the Port Authority and ARS have entered into a letter agreement granting ARS prior entry into the space for performance of construction and finishing work, it being the obligation of ARS to restore the premises to its original condition in the event a lease agreement is not entered into by the parties.

The proposed lease agreement will provide for an approximately fifteen-year term to commence on or about April 1, 1997, with a later commencement date for the space currently sublet by ARS.

The total aggregate basic rental during the fifteen-year term will be approximately \$88 million. ARS will have assignment, subleasing, expansion and extension rights. A brokerage commission will be paid to Edward S. Gordon Company, Incorporated in connection with this transaction calculated in accordance with the rates authorized by the Board at its meeting of August 11, 1977.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Henderson, Janiszewski, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into (1) a lease agreement with AON Risk Services, Inc. of New York covering the letting of space at Two World Trade Center, and (2) a brokerage agreement with Edward S. Gordon Company, Incorporated, in connection with such letting; the form of the agreements in each instance shall be subject to the approval of General Counsel or his authorized representative; and it is further

RESOLVED, that the Committee on Operations be and it hereby is authorized to approve the final terms and conditions of the agreements in the event said terms and conditions are not substantially in accordance with the terms and conditions outlined above.

**TETERBORO AIRPORT - THE BOROUGH OF MOONACHIE - SUPPLEMENT TO
SPACE PERMIT AX-228**

It was recommended that the Board authorize the Executive Director, for and on behalf of the Port Authority, to enter into a supplemental agreement to Space Permit AX-228 with the Borough of Moonachie covering the utilization for a ten-year period of a fifteen-acre parcel of land used for ballfields upon which the Borough would construct a field house to accommodate its athletic activities, and to provide for Port Authority payment of the Borough's unamortized investment in this improvement calculated on a straight line basis over the ten-year term of the Permit in an amount not to exceed \$150,000 if the Permit is revoked without cause. The Borough of Moonachie would be responsible for any environmental remediation necessary in connection with the construction.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Henderson, Janiszewski, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a supplemental agreement to Space Permit AX-228 with the Borough of Moonachie, substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

RED HOOK CONTAINER TERMINAL - AUTHORIZATION TO CONTINUE THE BARGE PROGRAM

The Red Hook Barge Program has been supported in part by the Port Authority since the Gowanus Expressway Reconstruction Program began in 1991. It was designed to maintain the current levels of service and to mitigate adverse impacts of the Gowanus reconstruction to roadside access at the Red Hook Container Terminal by transporting containers between the Red Hook Container Terminal and the New Jersey Marine Terminal via barge. The Barge Program was supported in 1991 by the Board's authorization to expend \$3.1 million in Port Authority funds for operation of the Program. In September 1993, the Board authorized the Port Authority's continued participation in the Program and the Board has continued to authorize expenditures to support the ongoing operations of the Program.

The barge is operated by American Import-Export Trucking Company, a subsidiary of American Stevedoring, Inc. (ASI), the lessee of the Red Hook Container Terminal, under an agreement with the Port Authority. ASI has the right to terminate its lease for the Red Hook Container Terminal if the Barge Program is discontinued.

Slightly over \$4 million was expended to operate the barge in 1996. Container traffic is expected to increase over the next five years. However, expenses are expected to stabilize as the cost per container decreases with the implementation of the new barge system in early 1998. Staff recommends capping the operating subsidy for the barge at an annual flat rate of \$4 million. The remaining cost to operate the barge will become the responsibility of the operator. Since the Board has already authorized \$1.5 million for 1997, an additional amount of up to \$18.5 million is needed to continue the subsidy through the year 2001.

To date, the Port Authority has authorized \$11.9 million in operating assistance, including New York State Bank I funds of \$2.1 million. In addition, the Port Authority has received New York State Congestion Mitigation and Air Quality Management (CMAQ) funds in the amount of \$2.3 million and New Jersey State CMAQ funds in the amount of \$849,000. The authorization for an additional \$18.5 million will bring Port Authority operating assistance to \$30.4 million.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Gargano, Henderson, Janiszewski, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to 1) expend up to \$18.5 million of Port Authority funds for the continued operation of the Red Hook Barge service through 2001, with the understanding that a separate Board authorization will be required for each year's expenditure in years 1998 through 2001, and 2) enter into an agreement with American Import-Export Trucking Company to operate the Red Hook Barge, the agreement to provide the Port Authority with the right of termination for cause at any time and without cause beginning in 1998 upon ninety days written notice; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**RED HOOK CONTAINER TERMINAL TRANS-HARBOR FREIGHT SERVICE -
REQUEST FOR ADDITIONAL FUNDING**

Plans for reconstruction on the Gowanus Expressway were expected to deteriorate landside transportation access to the Red Hook Container Terminal. Barge service between the Red Hook Container Terminal and the Port Newark/Elizabeth marine terminal began in October 1991 as an effort to arrest volume declines at the terminal. Since 1991, the Board has authorized operating funds totaling \$11.9 million, including Regional Economic Development Program funds. New York and New Jersey State CMAQ funds have contributed an additional \$3.2 million.

It is anticipated that the current system will incur operating expenses of \$4.2 million for moving approximately 29,000 containers in 1996. With operating costs increasing, it could cost nearly \$6 million to transport the 45,000 containers projected for 1997. The recommended Mafi trailer system, which rolls containers on and off a barge as opposed to utilizing gantry cranes, is anticipated to be fully operational in mid-1998. Based on anticipated activity growth and the introduction of the new system in mid-1998, the barge operation could cost approximately \$6.2 million for 1998, \$4.9 million for 1999 and \$5.1 million in 2000.

In 1993, based on a preliminary project estimate of \$6.445 million, New York and New Jersey CMAQ management funds totaling \$5.156 million (80 percent) were allocated toward this project. Current estimates put project costs at \$8.6 million. To date, the Board has authorized \$620,000 of Port Authority funds and \$1.1 million of capital funds from the Regional Economic Development Program as part of the Port Authority's 20 percent local match requirement. Although positive feedback has been received concerning CMAQ funding, such funding is not guaranteed. Therefore, Port Authority funds are sought to assure the project is able to be completed if CMAQ funds are not obtained.

The 1993 funding was approved contingent on the Port Authority providing a study to determine the market potential for a trans-harbor freight service, the extent to which user fees could be charged for the service and the optimal configuration for any such freight service given market demand. Booz-Allen & Hamilton, a Port Authority consultant, has recently completed this study and has recommended the Mafi roll trailer barge system. Both states have reviewed and concur with the results of this study.

The barge is presently operated by American Import-Export Trucking Company, a subsidiary of American Stevedoring, Inc. (ASI), the lessee of the Red Hook Container Terminal, under an agreement with the Port Authority. ASI has the right to terminate its lease for the Red Hook Container Terminal if the barge service is discontinued.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Henderson, Janiszewski, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to authorize the expenditure of an additional \$1.723 million in Port Authority funds necessary to replace the current Red Hook Barge service with a permanent barge system, the Port

Authority's expenditure to be subject to reimbursement by United States Department of Transportation Congestion Mitigation and Air Quality (CMAQ) grant funds in an amount to be determined; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to award the following contracts at a total amount estimated at \$6.8 million, including extra work, if necessary, and net cost work:

a) Contract MFP-234.823A for the Red Hook Trans-Harbor Freight Service Barge construction, estimated at \$3.2 million;

b) Contract MFP-234.823B for the Red Hook Trans-Harbor Freight Service ramp construction and pier modifications, estimated at \$1.5 million; and

c) A Purchase Order contract for roll trailer and miscellaneous cargo handling equipment, estimated at \$2.1 million;

the form of the above contracts shall be subject to the approval of General Counsel or his authorized representative.

PORT NEWARK/RED HOOK TRANS-HARBOR FREIGHT SERVICE - AWARD OF CONSTRUCTION CONTRACTS AND LEASE AGREEMENT

The Red Hook Barge has been in continuous operation since late 1991 to mitigate the impact of the Gowanus Expressway reconstruction project on the Red Hook Container Terminal. Since January 1994, the New Jersey Terminus of the barge service has been located at the Bay Avenue Terminal at the Elizabeth-Port Authority Marine Terminal. This site was selected at the time for operational efficiencies, financial considerations and because the area was not leased at that time.

Negotiations are underway with Hanjin Shipping Co., Ltd. (Hanjin) and Maher Terminals, Inc. (Maher) to reconfigure the Elizabeth peninsula and construct a new terminal for Hanjin. In order to accommodate this terminal development, the Red Hook Barge terminal must be relocated to a site that will allow for a permanent location and more efficient and cost-effective operation of the barge service.

The site selected at Berth 22, Port Newark, requires the demolition of Buildings 141, 152 and 153 and site preparation for the twenty-acre terminal. In order to meet the requirements of the Hanjin/Maher negotiations, the new terminal must be operational by March 1, 1998.

The project will consist of three distinct and separate phases.

Phase 1: Current work order contracts already authorized under the Major Work Program for abating asbestos, freon and PCB's will be utilized to abate Buildings 141, 152 and 153. The abatement work is estimated to cost \$250,000.

Phase 2: A supplemental agreement contract to demolish Buildings 141, 152 and 153 will be the second phase of work to relocate the Red Hook Barge operation. Demolition of Buildings 141, 152 and 153 will be limited to the footprint of the buildings. All utilities will be disconnected. The buildings will be removed down to the floor slab and the remaining substructure pile caps and pile tops will be removed in the next phase of the project. The contract will be awarded as a Supplemental Agreement to Contract EP-383.003 to M.J. Paquet, Inc. the lowest bidder of a select list of five contractors that are currently working at the Port Newark/Elizabeth-Port Authority Marine Terminal and are qualified for the type of demolition work required. The demolition cost is estimated at \$574,475.

Phase 3: This phase will provide for completion of the terminal, allowing for the upland storage of containers. The scope encompasses paving and the installation of utilities necessary to accommodate container storage adjacent to Berth 22 on approximately twenty acres. This contract, Contract PN-354.021, would be awarded to the lowest bidder from a select list of qualified bidders. The preliminary construction cost for Contract PN-354.021 is estimated at \$6.8 million, which includes allowances for extra work and net cost work.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Henderson, Janiszewski, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that a project to construct a twenty-acre container transfer terminal adjacent to Berth 22 in Port Newark, New Jersey, at a total project cost estimated at \$10.7 million, including payments to contractors, allowances for extra work (if necessary) and net cost work, payments to consultants for the preparation of contract documents, planning and engineering, administrative and financial expenses, and a project contingency (if necessary) be and the same hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into Supplemental Agreement No. 1 to Contract EP-383.003 with M.J. Paquet, Inc. for the demolition of Buildings 141, 152 and 153, at the estimated amount of \$574,475; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized to award Contract PN-354.021 for the paving and utilities adjacent to Berth 22, at the estimated amount \$6.8 million to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience and capacity; and whose bid price the Executive Director deems reasonable; and to order extra work (if necessary) up to 6 percent of the amount of the bid accepted; and to order net cost work; or to reject all bids, solicit bids on revised or the same requirements, or negotiate with one or more bidders or other contractors as he deems in the best interest of the Port Authority; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to take action with respect to purchase and construction contracts and agreements for professional and advisory services for the foregoing project as he deems in the best interest of the Port Authority, including without limitation, award to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the Work and whose bid price the Executive Director deems reasonable, rejection of all bids, solicitation of new bids on revised or the same requirements, or negotiation with one or more bidders, contractors or consultants; and it is further

RESOLVED, that the form of the foregoing contracts and agreements shall be subject to the approval of General Counsel or his authorized representative.

HOWLAND HOOK MARINE TERMINAL - AGREEMENTS WITH NEW YORK CITY, THE ECONOMIC DEVELOPMENT CORP. AND HOWLAND HOOK CONTAINER TERMINAL, INC. FOR THE CONSTRUCTION OF A TEMPERATURE-CONTROLLED BUILDING

It was recommended that the Board authorize the Executive Director to enter into an agreement or agreements with the City of New York (the City), the New York City Economic Development Corporation (EDC), and Howland Hook Container Terminal, Inc. (HHCT) to effect the following: (1) the cancellation of the obligation of the City to expend up to \$4 million on off-site infrastructure and utility improvements in the vicinity of the Howland Hook Marine Terminal (the Terminal) as now required under the agreement under which the Port Authority leases the Terminal from the City (the City Lease); (2) the cancellation of the obligation of the Port Authority under the City Lease to reimburse the City for 50 percent of the cost of the above described work up to a maximum of \$2 million; (3) the funding of a temperature-controlled building (the Building) at the Terminal, with the Port Authority to provide up to \$2 million of the cost of the Building, and EDC and/or the City to provide up to \$3 million of the cost of the Building; and (4) the construction, but not necessarily the funding, of the Building by HHCT.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Henderson, Janiszewski, Philiposian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement or agreements with the City of New York, the New York City Economic Development Corporation, and Howland Hook Container Terminal, Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreement or agreements shall be subject to the approval of General Counsel or his authorized representative.

**JOHN F. KENNEDY INTERNATIONAL AIRPORT - ROADWAY CONSTRUCTION
PACKAGE NO. 3 - CONTRACT JFK-584.001 - TULLY CONSTRUCTION CO.,
INC. - SETTLEMENT OF CLAIM**

At its meeting on March 9, 1989, the Board authorized a project for the redevelopment of the Central Terminal Area (CTA) at John F. Kennedy International Airport (JFK).

On September 24, 1992, the Executive Director authorized the award of publicly advertised Contract JFK-584.001 to Tully Construction Co., Inc., (Tully), the low bidder, at its bid price in the estimated total amount of \$13,730,000, an authorization for Extra Work in the amount of \$1,374,000 and an allowance for Net Cost Work roughly estimated at \$2,000,000. The Contract provided for the construction of the third phase of the Central Terminal Area redeveloped roadway network in Area 4 around the Cogeneration Facility at JFK.

On August 16, 1994, the Director of Aviation authorized an increase in Extra Work from \$1,374,000 to \$1,624,000, an increase of \$250,000.

On September 25, 1995, the Executive Director authorized an increase in the Extra Work authorization from \$1,624,000 to \$1,732,000, an increase of \$108,000, and an increase in Classified Work authorization from \$481,891 to the estimated amount of \$555,264, an increase of \$73,373. The present total authorized contract amount is \$17,535,373.

Tully has submitted a claim against the Port Authority in connection with Contract JFK-584.001 in the amount of \$3,648,106. This claim is for additional costs allegedly incurred primarily because of a denial by the Port Authority of site access to Tully to perform the work as contemplated in the contract documents.

Thorough staff review of the claim followed, and various discussions, reviews and negotiations ensued with Tully. In November 1996, it was tentatively agreed that Tully would be paid the sum of \$350,000 in settlement of the claim subject to approval of the Board.

Total payments to Tully for all contract work, extra work and net cost work (excluding the proposed claim settlement of \$350,000) is forecast to be approximately \$16,699,449.

Although the Law Department has advised that there are legal defenses to this claim, the settlement nevertheless appears equitable under the circumstances.

Tully will sign a release of all claims against the Port Authority under the contract prior to receiving the \$350,000 payment.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Henderson, Janiszewski, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to 1) make a payment of \$350,000 to Tully Construction Co., Inc., in full settlement of all claims against the Port Authority in connection with Contract JFK-584.001; and 2) enter into an appropriate agreement to effectuate such settlement; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

SETTLEMENT OF CLAIM - PORT AUTHORITY v. HOLLAND TERMINAL COLD STORAGE, INC.

It was recommended that the Board authorize General Counsel to settle the Port Authority's claim against Holland Terminal Cold Storage, Inc. (Holland Terminal), a cold storage warehouse located in Jersey City, New Jersey, for \$15,000.

During July and August 1992, certain ammonia discharges occurred at Holland Terminal's facility located next to the Holland Tunnel Toll Plaza which resulted in damages to the Port Authority of approximately \$109,400. The Port Authority commenced a lawsuit to recover this amount. This case was consolidated with four other cases and cross-claims for contribution and indemnity for approximately \$11 million dollars were asserted by Public Service Electric and Gas Co. (PSE&G) and The Hartford Steam Boiler Inspection and Insurance Company (Hartford) against the Port Authority.

The Port Authority will receive the sum of \$15,000 in one payment from this settlement. The Port Authority and Holland Terminal will also exchange mutual releases as part of the settlement. Third-party claims filed against the Port Authority by PSE&G and Hartford for contribution and indemnity will also be dismissed with prejudice at no cost to the Port Authority.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Henderson, Janiszewski, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to settle the Port Authority's claim against Holland Terminal Cold Storage, Inc., substantially in accordance with the terms set forth above.

Investments & Deposits

The Committee on Finance reported, for information only, that in accordance with authority granted by the Committee, the Executive Director had authorized the following security transactions, time accounts, interest rate exchange contracts and variable rate master note agreements during the period January 1, 1997 to January 31, 1997.

Purchase of Port Authority Bonds

(Unless otherwise noted, all Port Authority Bonds are callable at par).

Guest

Karen Kennedy, Office of the Governor of New Jersey

NEW YORK

Hon. Charles A. Gargano, Vice-Chairman
 Hon. James G. Hellmuth
 Hon. Peter S. Kalikow
 Hon. George D. O'Neill
 Hon. Melvin L. Schweitzer

The public meeting was called to order by Chairman Eisenberg at 2:36 p.m. and ended at 2:56 p.m. The Board also met in executive session prior to the public meeting. Vice-Chairman Gargano was present for the executive session portion of the Board meeting.

Action on Minutes

The Secretary submitted for approval Minutes of the meeting of March 20, 1997. He reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. He reported further that the time for action by the Governors of New York and New Jersey has expired.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Audit Committee

The Audit Committee reported, for information, on matters discussed in executive session at its meeting on April 24, 1997, which included discussion of internal audit matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Capital Programs and Port Planning

The Committee on Capital Programs and Port Planning reported, for information, on matters discussed at its meeting in executive session on April 24, 1997, which included a discussion of contract matters and matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with whom we deal, and the report was received.

Report of Committee on Construction

The Committee on Construction reported, for information, on matters discussed at its meeting on April 24, 1997, which included a discussion of the project authorization for a Newark Bay Confined Disposal Facility and the construction results for the first quarter of 1997, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Operations

The Committee on Operations reported, for information, on matters discussed in executive session at its meeting on April 24, 1997, which included a discussion of lease matters and matters which could affect the competitive economic position of the Port Authority, the Port District, and businesses with whom we deal, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Nominating Committee

During the course of the meeting, the Nominating Committee submitted its report, and the report was received and is included with these minutes.

Report of Committee on Finance

The Committee on Finance reported, for information, and the report was received and is included with these minutes.

Chairman Eisenberg welcomed Aubrey C. Lewis as a Commissioner of the Port Authority and expressed the Board's pleasure in having Commissioner Lewis participate in the work of the Board.

Chairman Eisenberg also welcomed Deputy Executive Director Richard J. Lobron to his first Board meeting.

RETENTION OF INDEPENDENT AUDITORS

Under the By-Laws, the Audit Committee has the responsibility to recommend retention of independent auditors for designation by the Board to audit the accounts and financial statements of the Port Authority and its subsidiaries. The Audit Committee monitors the independent auditing function and decides annually the question of which firm to recommend to the Board for retention by the Port Authority and for what period of time in light of then-current circumstances.

Consistent with long-standing policy and after a full review and discussion of the performance of Deloitte & Touche LLP, the Audit Committee recommended that the Board designate Deloitte & Touche LLP as independent auditors to audit the accounts and financial statements of the Port Authority and its wholly-owned subsidiaries for the year ending December 31, 1997, to perform an evaluation of the system of internal accounting controls, to perform a review of the Passenger Facility Charge Program, to provide other audit services, and to provide services requested in the disclosure process in connection with the issuance from time to time of Port Authority obligations.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Gargano, Haley, Hellmuth, Kalikow, Lewis, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that Deloitte & Touche LLP be and it hereby is designated as independent auditors to audit the accounts and financial statements of The Port Authority of New York and New Jersey and its wholly-owned subsidiaries for the year ending December 31, 1997; and it is further

RESOLVED, that, for the year ending December 31, 1997, Deloitte & Touche LLP be and it hereby is designated to perform an evaluation of the system of internal accounting controls, and to provide other audit services, including a review of revenue and cost computations relating to and under the terms of the various lease agreements, such as those with the cities of New York and Newark, financial and statistical data reports submitted to the Federal Transit Administration, field work and financial disclosure requirements of the Single Audit Act of 1984 for recipients of Federal financial assistance, and to participate as requested in the disclosure process in connection with the issuance from time to time of Port Authority obligations; and it is further

RESOLVED, that, for the year ending December 31, 1997, Deloitte & Touche LLP be and it hereby is designated to perform a review of the Passenger Facility Charge Program pursuant to the Aviation Safety and Capacity Expansion Act of 1990; and it is further

RESOLVED, that, in accordance with the By-Laws of the Port Authority, the matters of arranging for such services by the above-designated auditors and for monitoring the auditors' performance be and each hereby is referred to the Audit Committee.

AUDIT COMMITTEE ANNUAL REPORT

Commissioner Hellmuth submitted the following report:

In accordance with the Port Authority by-laws, the Chair of the Audit Committee reports periodically on the activities of the Audit Committee.

Since the last report, the Audit Committee has met eight times. Our Committee meetings are regularly attended by the Chief Financial Officer, the Director of the Audit Department, the Comptroller, the Inspector General, General Counsel, the Chief Technology Officer, the Treasurer and the Director of the Information Services Department.

Representatives of Deloitte & Touche LLP, the Port Authority's independent auditors, have attended three of our meetings. At those meetings we held executive sessions with only the outside auditors present. This is consistent with our policy that the auditors and members of the Audit Committee have direct and unrestricted access to each other.

The Audit Committee keeps informed of relevant matters through quarterly reports prepared by the Treasurer, the Director of Audit and the Inspector General. In addition to these reports, Charles McClafferty, the Chief Financial Officer, and John Brill, the Director of Audit, have kept me informed of special situations, audits and investigations as appropriate. Robert Van Etten has done the same as Inspector General.

Each quarter the Audit Committee reviews the status of Port Authority accounts receivable and discusses the quarterly reports prepared by the Treasurer. The Committee monitors staff efforts to collect revenues due to the Authority, and also discusses problem accounts and reviews the trends in receivable collections. Over the past year, bad debts have continued to decline and the ratio of receivables to billings has improved and is well within target; staff has performed well in this regard.

Also on a quarterly basis, the Committee discusses the detailed reports of audit findings prepared by the Audit Department. The Audit Department conducts audits in accordance with an Annual Plan submitted to the Audit Committee. The Annual Audit Plan is based on a schedule of specific audits established after performing a risk assessment. The assessment takes into consideration the potential of financial loss, major changes in operations or programs, and the dates and results of previous audits. The Audit Plan is developed with the Committee and also with the input of our independent auditors.

The Committee also discusses the quarterly report of the Inspector General with respect to investigations undertaken by that Office. The major function of the Inspector General's Office is to investigate situations or allegations of inappropriate, unethical or illegal activities of individuals within the Port Authority and of persons with whom the Port Authority has a business relationship.

Our Committee continued its practice of reviewing, in detail, the Authority's audited financial statements prior to their release. We are concerned not only with the control systems which assure the accuracy and completeness of the statements, but also with the

presentation, the format, and, in the context of full and fair disclosure, the substance and language of the footnotes.

In the opinion of the auditors, the 1996 financial statements present fairly, in all material respects, the combined financial position of the Port Authority and the combined results of its operations in conformity with generally accepted accounting principles. We were pleased to hear that the Government Finance Officers Association recognized the Port Authority's 1995 Comprehensive Annual Financial Report with its Certificate of Excellence in Financial Reporting, an award which the Port Authority has received for each of the past 12 years. This is a remarkable achievement for staff of the Comptroller's Department.

Finally, as the Chair of the Audit Committee, I review the expense reports of the Executive Director and of the members of the Board.

This annual report to the Board provides the Audit Committee the opportunity to acknowledge the dedication and professionalism of our staff. The Committee recognizes the strengths, talent and commitment of our financial professionals, all of whom make an important contribution to the Authority and also to the Region.

The Committee believes that reasonable controls and procedures are in place, and that there is a reasonable basis for this Board to have a high level of confidence in the professional and ethical conduct of our personnel.

ELECTION OF OFFICERS

Chairman Eisenberg announced that in accordance with the provisions of the By-Laws, the election of officers was in order.

Commissioner Hellmuth, as Chair of the Nominating Committee, submitted the following report:

"On behalf of the Nominating Committee, I desire to report that at its meeting held earlier today, in accordance with the provisions of Article XIa. of the By-Laws, the Committee, by unanimous action, submits the nomination for election to the offices of Chairman and Vice-Chairman of The Port Authority of New York and New Jersey of Commissioners Lewis M. Eisenberg and Charles A. Gargano, respectively. By unanimous action, the Committee also submits the nomination of Robert E. Boyle as Executive Director of the Port Authority and of Jeffrey S. Green as General Counsel of the Port Authority. By unanimous action, the Committee also submits the nominations of Daniel D. Bergstein as Secretary, Charles F. McClafferty as Director of Finance, Raymond P. Mannion as Comptroller, Bruce D. Bohlen as Treasurer and John D. Brill as Director of Audit."

Pursuant to the foregoing report, Commissioners Donovan, Eisenberg, Haley, Hellmuth, Kalikow, Lewis, O'Neill, Philibosian and Schweitzer, voting in favor, the following were unanimously elected as officers of the Port Authority: Commissioner Lewis M. Eisenberg as Chairman, Commissioner Charles A. Gargano as Vice-Chairman, Robert E. Boyle as Executive Director, Jeffrey S. Green as General Counsel, Daniel D. Bergstein as Secretary, Charles F. McClafferty as Director of Finance, Raymond P. Mannion as Comptroller, Bruce D. Bohlen as Treasurer and John D. Brill as Director of Audit.

LAGUARDIA AIRPORT TO MANHATTAN FERRY SERVICE - AUTHORIZATION TO ENTER INTO AGREEMENT WITH FERRY SERVICE OPERATOR

On September 12, 1996 the Board granted planning and project authorization for the establishment of a ferry service between Manhattan and LaGuardia Airport (LGA) at Flushing Bay at an estimated Port Authority project cost of \$35 million. The authorization provided for the issuance of a Request for Proposals (RFP) to select a private sector partner to provide, operate and maintain the ferry and LGA shuttle bus services and manage and maintain a ferry/bus terminal at LGA.

The RFP was issued on October 15, 1996 after being publicly advertised. One hundred and forty (140) inquiries from international and domestic firms were received. Four proposals were submitted on January 22, 1997. NY Waterway is recommended based upon its ability to minimize Port Authority operating and capital responsibilities and satisfy the ferry service requirements by delivering a comprehensive, well financed ferry program targeted to the region's transportation needs.

The proposed agreement with NY Waterway will create a public/private partnership with shared costs by the Port Authority and NY Waterway. The total project cost is estimated at \$45 million. The Port Authority's capital investment is estimated at \$35 million and NY Waterway will invest capital of approximately \$10 million. NY Waterway's investment will provide for the vessels and the shuttle bus service. The shuttle bus service will be provided through an extension of the existing on-airport service. NY Waterway will fund the cost of the additional busses required to accommodate the ferry service. The Port Authority will charge NY Waterway landing fees and per passenger fees, the timing and amount to be determined through negotiations.

NY Waterway will operate the Battery Park City to LGA ferry service as the primary route with an estimated trip time of 40 minutes. Intermediate stops will be made at City-owned landings at Pier 11, E. 34th, E. 62nd, E. 75th and E. 90th Streets. Aluminum hull catamarans, with a capacity of 149 passengers, will be utilized to provide peak period headways of approximately twenty minutes and off-peak headways of 60 minutes. Ferry and shuttle bus service will be provided on a schedule that ensures a level of service commensurate with the needs of the airport customers. Utilization of both Port Authority and NYC Department of Transportation landing sites will enable NY Waterway to integrate its ferry service with other regional ferry programs.

The Port Authority will be responsible for obtaining all necessary Federal, state and local environmental and regulatory permits and approvals required to construct the LGA ferry/bus terminal. The Port Authority will design and construct the new LGA ferry/bus terminal and be responsible for major alterations and expansion. NY Waterway will be responsible for obtaining all legally required operating and docking permits from New York City Department of Transportation and the US Coast Guard certifications for vessels. The agreement between the Port Authority and NY Waterway will extend through 2015 with NY Waterway to have one ten year renewal option subject to extension of the Port Authority's airport lease agreement with the City of New York. It is anticipated that the service will start in the spring of 1998. Initial service between LGA, East 62nd Street, East 34th Street and

Pier 11 will run five days per week. It is conservatively estimated that initial ridership will be approximately 1,200 to 1,500 passengers daily. On or about October, 1999, service will be expanded to Battery Park City and operate seven days per week.

The ferry service 1) advances the Port Authority's airport access initiative for improving ground transportation to LGA; and 2) meets its goal of providing direct access and relieving traffic congestion between Manhattan and LGA. This ferry service will establish a high quality, customer-oriented transportation mode that will provide a fast, direct, reliable and traffic-free alternative for travel between the airport and Manhattan.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Hellmuth, Kalikow, Lewis, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with NY Waterway to: 1) provide, operate and maintain a high speed ferry service between Manhattan and LaGuardia Airport (LGA); 2) provide, operate and maintain a shuttle bus service between an LGA ferry/bus terminal and the air terminals; and 3) manage, operate and maintain a ferry/bus terminal at LGA; and it is further

RESOLVED, that the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

NEWARK BAY CHANNELS MAINTENANCE DREDGING

The following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Hellmuth, Kalikow, Lewis, O'Neill, Philibosian and Schweitzer voting in favor; none against

WHEREAS, the maintenance dredging of the navigation channels is critical for the preservation of safe navigation in the Port of New York/New Jersey and to keep open the avenues of commerce that contribute to the economy and well being of the region; and

WHEREAS, the maintenance of navigation channels has been, and continues to be the responsibility of the Federal Government; and

WHEREAS, the Newark Bay Channels and Kill Van Kull Reach are vital to access by ocean shipping to the Port Newark/Port Elizabeth and Howland Hook Marine Terminals and the dredging of these areas has been identified as priority maintenance dredging projects; and

WHEREAS, we understand that the Army Corps of Engineers may have concluded that it has not budgeted sufficient funds to complete certain priority dredging projects critical to the Port's need,

NOW, THEREFORE, BE IT

RESOLVED, that The Port Authority of New York and New Jersey urges that the Army Corps of Engineers take all appropriate steps to allocate sufficient funds to complete the needed maintenance dredging of the Newark Bay Channels as well as other priority dredging projects in the region; and be it further

RESOLVED, that the Army Corps of Engineers take all actions necessary to maximize available capacity at the Mud Dump consistent with applicable law; and be it further

RESOLVED, that the Army Corps of Engineers take whatever additional steps are necessary to complete the maintenance dredging projects for the Port of New York and New Jersey in an expeditious and economical manner; and be it further

RESOLVED, that the region's Congressional delegation be urged to take all appropriate steps to assure that sufficient funds continue to be allocated for these vitally important dredging projects.

(Board - 4/24/97)

NEWARK BAY CONFINED DISPOSAL FACILITY - PROJECT AUTHORIZATION

The New York/New Jersey Harbor is naturally shallow, averaging about 18 feet in depth. It receives a heavy annual sediment load from the Hudson and Passaic Rivers and other tributaries, giving rise to a need for frequent maintenance dredging. Its navigation channels and marine facility berths vary in depth from 35 to 40 feet and require routine maintenance dredging to remain clear. Since the implementation of new federal sediment testing methodologies in December 1992, a significantly higher portion of the sediments dredged from the harbor have been determined by federal regulatory agencies to be unacceptable for unrestricted disposal in the ocean.

In 1994, in conjunction with the Dredged Material Management Forum and Harbor Estuary Program, Governor Christine Todd Whitman of New Jersey appointed a task force, the Dredged Material Management Team (DMMT), to explore short-term solutions to dredged material disposal. The creation of a Confined Disposal Facility (CDF) in Newark Bay was the DMMT's key recommendation. It was supported by all team members and was going to provide an alternative to ocean disposal within a one to three year time frame. At that time, the Port Authority was designated the sponsoring agency for the project with recognition that funding sources remained to be determined.

Following a preliminary environmental investigation, the two original large areas envisioned by the DMMT to provide a disposal capacity of 14 million cubic yards were redefined to three smaller areas estimated to provide a combined 3.1 million cubic yards capacity. The economic feasibility to construct the CDF on all three areas was contingent upon finding only minimal surficial sediment contamination in the redefined areas. However, the upper sediment layers on two of three areas were found to be Category III material suitable only for upland disposal at an uneconomical high cost. Material from the third area, Category II material in its upper layers, and Category I in the deeper layers, will be ocean-disposed at the Mud Dump Site, and will provide an estimated 1.5 million cubic yards disposal capacity for contaminated materials dredged from a designated portion of the Harbor. The construction of a subaqueous CDF in Newark Bay will be a one to three year short-term solution that will allow for the disposal of contaminated dredged material from waters of the New York/New Jersey Harbor contiguous to the State of New Jersey, including Newark Bay, the Arthur Kill, and Kill Van Kull.

The project will consist of three distinct and separate contracts:

- 1) Contract MF-234.173 will be for the construction of the CDF which will entail the underwater excavation of an approximate 31 acre surface area to a depth of 65 feet below the bottom of Newark Bay. Work under this contract will include dredging and disposal of the upper sediment layers (Category II material) at the Mud Dump Site (MDS); dredging and disposal of the deeper layers (Category I material) at the MDS without capping; and pre- and post-dredging soundings.
- 2) Contract MFP-198A will provide for the furnishing and placement of clean capping material to cover Category II material disposed of at the MDS from the CDF.

(Board - 4/24/97)

- 3) Once the CDF reaches its anticipated maximum dredged material storage capacity of 1.5 million cubic yards, a future contract will be implemented for its closure, final capping and post-closure monitoring.

The U.S. Army Corps of Engineers (COE) as the permitting agency, is preparing an Environmental Impact Statement (EIS) on the project. A Draft and final EIS has been published and a Public Notice for public review and comment on the final EIS was issued on April 11, 1997. Anticipating that the COE will publish a favorable Record Of Decision on the EIS in mid-May, construction is scheduled to start in mid-May immediately after the COE issues the dredging permit. If a CDF does not become available, the cost of routine disposal of dredged material unsuitable for ocean disposal at an upland site would be cost-prohibitive. Cargo losses that are already evident due to inadequate depths would be compounded.

Pursuant to the foregoing report presented by staff, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Hellmuth, Kalikow, Lewis, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that a project to construct, operate, close and monitor a subaqueous Confined Disposal Facility (CDF) in Newark Bay, New Jersey which will provide for the disposal of an estimated 1.5 million cubic yards of dredged materials deemed to be unsuitable for ocean disposal at a total estimated project cost of \$48.9 million, including payments to contractors, allowances for extra work (if necessary) and net cost work, payments to consultants for the preparation of an Environmental Impact Statement (EIS), planning, engineering, administrative and financial expenses and a project contingency (if necessary), be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to award Contract MF-234.173 at an estimated cost of \$14.6 million; and Contract MFP-198A at an estimated cost of \$10 million; and to award other Port Authority contracts required to complete the project to the lowest bidder(s) qualified by reason of responsibility, experience and capacity at a bid price the Executive Director deems reasonable, or to reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors; and to execute other project contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work (if necessary) and net cost work in connection with each contract including supplemental agreements thereto; and to enter into such other agreements, including a Management Agreement with the State of New Jersey, acting through the Tidelands Resource Council for an assignment of management rights over the tidelands where the facility would be constructed, as may be necessary to effectuate the project; the form of the agreements to be subject to the approval of General Counsel or his authorized representative; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to purchase environmental insurance for construction, operation, closure and monitoring, the insurance to name the Port Authority, the State of New Jersey, the members of the Tidelands Resource Council of the New Jersey Department of Environmental Protection, the New Jersey Fund for the Support of Free Public Schools, the New Jersey Department of Environmental Protection, the City of Newark and the City of Elizabeth as insureds.

PORT NEWARK - ECUADORIAN LINE, INC. - LEASE SURRENDER

It was recommended that the Board authorize the Executive Director to enter into an agreement with Ecuadorian Line, Inc. (Ecuadorian) to provide for the following: (1) the surrender of Ecuadorian's leasehold at Port Newark effective no earlier than May 31, 1997; (2) the payment by Ecuadorian to the Port Authority of the equivalent of 30 days' rent under the surrendered lease; and (3) the undertaking by Ecuadorian to discharge to and/or from the Howland Hook Marine Terminal no less than 150,000 tons of cargo during each year following the surrender of its leasehold through September 30, 2001, with Ecuadorian to make a one-time payment to the Port Authority of a predetermined amount upon the first instance of Ecuadorian's failure to meet the aforesaid undertaking.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Hellmuth, Kalikow, Lewis, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Ecuadorian Line, Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

INCENTIVE PROGRAM FOR CONTAINERIZED BANANA CARGO

Bananas and plantains are the only fresh fruit commodities currently moving through the Port of New York and New Jersey. Maintaining this cargo and further developing the fresh fruit trade through the Port is an important business goal for the Port Authority because it is a good source of labor hours and a potential growth market for our terminal operator tenants. The proposed incentive program for containerized bananas and plantains is key to the retention of current banana/plantain business and can potentially build new business of those commodities. The cost of the program could be offset by the collection of through put fees at certain Port Authority marine terminals. Currently, the banana trade produces 200,000 labor hours in the Port of New York and a payroll of \$5.5 million.

Under the proposed program carriers operating liner services to the Port of New York and New Jersey and calling at the Port Authority owned/operated terminals will be eligible. Carriers will enter into a contract with the Port Authority agreeing to the terms and conditions of the program and will be renewable annually. The program will be offered on a nonpreferential basis and will comply with federal regulatory requirements.

Carriers participating in the program must submit a copy of the Bill of Lading for each eligible container claiming an incentive fee with the Port Authority's designated representative within ninety (90) days of the arrival at the Port. Each submission must be accompanied by a signed statement by a duly authorized representative of the ocean carrier verifying the authenticity of the documentation.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Hellmuth, Kalikow, Lewis, O'Neill, Philibosian and Schweitzer voting in favor; none against.

RESOLVED, that incentive payments to steamship lines of \$25 per import container, in which cargo consists exclusively of bananas or plantains, and which crosses any Port Authority wharf within the Port of New York and New Jersey should be and hereby is authorized and the Executive Director is hereby authorized to provide for the administration of the program and to establish procedures for making authorized payments upon the presentation of appropriate supporting documentation and enter into appropriate agreements; the form of any agreements and the procedures adopted shall be subject to the approval of General Counsel or his authorized representative.

(Board - 4/24/97)

HOWLAND HOOK MARINE TERMINAL - NEW YORK STATE DEPARTMENT OF ENVIRONMENTAL CONSERVATION ADMINISTRATIVE CONSENT ORDER

It was reported that the New York State Department of Environmental Conservation (NYSDEC) and Port Authority staff have reached an agreement to settle an alleged wetlands violation at the Howland Hook Marine Terminal.

The Port Authority has operated the Howland Hook Marine Terminal since June 1985 under a lease agreement with the City of New York. In October 1992, the Port Authority was cited by the NYSDEC for violating state regulations covering tidal wetlands. The violation arose out of the unauthorized filling and grading of tidal wetlands without a permit.

The proposed Administrative Consent Order will resolve the Notice of Violation issued by NYSDEC by requiring the Port Authority to perform improvements in the wetlands area adjoining the existing marine cargo storage area. These improvements include the construction of a demarcating fence and the restoration of the wetlands by natural revegetation at an estimated cost of \$80,000. The demarcating fence will permit the storage of cargo in the area east of the fence. The cost of the fence will be counted as an environmental benefit project by NYSDEC. Hence, no cash payments will be required by the Port Authority.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Hellmuth, Kalikow, Lewis, O'Neill, Philiposian and Schweitzer voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a settlement agreement with the New York State Department of Environmental Conservation, to resolve alleged violations of New York State wetlands regulations, providing for: (1) the construction of a demarcating fence which will count as an environmental benefit project; and (2) the restoration by natural revegetation of impacted wetlands; and it is further

RESOLVED, that the form of all documents required to effectuate the aforesaid shall be subject to the approval of General Counsel or his authorized representative.

ENLARGEMENT OF FOREIGN-TRADE ZONE NO. 49 THROUGH THE ESTABLISHMENT OF A SUBZONE - HEWLETT-PACKARD COMPANY, LOCATED IN BRIDGEWATER AND WASHINGTON, NEW JERSEY

The Port Authority, as grantee of Foreign-Trade Zone No. 49, has been requested by Hewlett-Packard Company (Hewlett) to submit an application to the Foreign-Trade Zone Board of the United States Department of Commerce for the establishment of a subzone at Hewlett's facility in Bridgewater and Washington, New Jersey. Hewlett is a multinational corporation involved in the computer/office equipment and information technology field. Without subzone status, Hewlett would be at a competitive disadvantage, particularly with respect to foreign competitors. With subzone status, Hewlett would realize substantial savings through inverted tariffs (higher on imported raw materials, lower on unfinished products), cash flow savings through duty deferral and the elimination of duty on subsequently exported merchandise. Potential benefits to the New Jersey/New York region include the expansion of exports which should result in the retention of manufacturing and assembly jobs in this region.

The establishment of the subzone would not result in any cost, expense, or unusual risk of loss to the Port Authority. Upon securing subzone status, Hewlett has agreed to enter into an appropriate agreement with the Port Authority which will provide for a payment to the Port Authority of an annual fee and assurance that Hewlett will operate the site without unusual cost, expense or risk of loss to the Port Authority or other subzones authorized by the Port Authority.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Hellmuth, Kalikow, Lewis, O'Neill, Philiposian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to file an application with the Foreign-Trade Zones Board of the United States Department of Commerce for the establishment of a subzone at the Hewlett-Packard Company facility in Bridgewater and Washington, New Jersey, and to execute an appropriate agreement with Hewlett; the form of the agreement and documents involved in this application shall be subject to the approval of General Counsel or his authorized representative.

QUEENS WEST WATERFRONT DEVELOPMENT - QUEENS WEST DEVELOPMENT CORPORATION - APPROVAL FOR PROVISION OF PORT AUTHORITY FUNDS FOR ACQUISITION OF STAGE I DEVELOPMENT AREA - PARCELS 8, 9 AND 11 AND THE EASTERN PARCEL OF A FORMER RAILROAD RIGHT OF WAY

It was recommended that the Board authorize the Executive Director to arrange for the payment of costs, fees, expenses and liabilities, direct or indirect and of any nature whatsoever, in connection with the acquisition by the Queens West Development Corporation (QWDC), by condemnation or otherwise, of property in the Stage I development area of the Queens West Project for purposes of project development. These funds will be allocated against the \$25 million authorized for Stage I property acquisition by the Board on January 7, 1992 from the overall \$125 million commitment to the Queens West Waterfront Development.

This authorization will allow for the acquisition through condemnation or otherwise of the property comprising Parcels 8, 9 and 11 of the Queens West development plan and the acquisition of the Eastern Parcel of a former railroad right of way from the Metropolitan Transportation Authority (MTA) by negotiation.

By way of background, in November 1994, the QWDC Directors authorized QWDC to hold a public hearing pursuant to Article 2 of the Eminent Domain Procedure Law (EDPL) with respect to Stage I of the Project. On September 6, 1995, a duly noticed public hearing on the proposed condemnation was held in Long Island City. In October 1995, the Directors determined that it was appropriate for QWDC to acquire some or all of the property located within the Stage I area of the Project to facilitate and effectuate the Project and authorized QWDC to exercise its power of condemnation. The Determination and Findings were published in November 1995 in accordance with the EDPL. During 1996, condemnation and fee appraisals were conducted by independent consultants hired by QWDC. Appraisals have been accepted by QWDC, New York City Economic Development Corporation and Port Authority staff.

On February 13, 1997 the QWDC Board authorized QWDC, pursuant to the EDPL, to make offers for the purchase of properties comprising Parcels 8, 9, and 11 to the current owners. QWDC was also authorized to request funding for this transaction from the Port Authority's commitment to the Development and the Stage I property acquisition allocation of \$25 million, as embodied in the 1992 Municipal Agreement authorized by the Board at its meeting of January 7, 1992.

In accordance with EDPL procedures, the Public Authorities Control Board (PACB) has approved these transaction(s). The EDPL process will now continue with purchase offers to be made, in writing, to the owners of the properties.

Additionally, at its meeting on September 26, 1996, the Committee on Operations recommended that QWDC immediately initiate negotiations with the Metropolitan Transportation Authority to acquire the Eastern Parcel of the former railroad right of way when it authorized the use of Port Authority funds for the acquisition of the Western Parcel.

(Board - 4/24/97)

The Port Authority would provide funds to QWDC through the vehicle of a funding agreement which will contain provisions protecting the Port Authority's interest in the event that property acquired with Port Authority funds is not developed for the Project.

Based on negotiations with selected developers for these parcels, it is possible that the funds for these acquisitions will be provided by developers and, in such event, Port Authority funds would not be required.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Hellmuth, Kalikow, Lewis, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to arrange for the payment of any and all costs, fees, expenses and liabilities, direct or indirect and of any nature whatsoever, in connection with the acquisition by the Queens West Development Corporation, by condemnation or otherwise, of property in the Stage I development area of the Queens West Project for purposes of Queens West Project development, such payment to be arranged through the vehicle of a funding agreement to contain such provisions as he deems appropriate protecting the Port Authority's interest in the event that property acquired with Port Authority funds is not developed for the Project; the amount of the payments made pursuant to this authorization will be allocated against the \$25 million authorized for Stage I property acquisition by the Board on January 7, 1992 from the overall \$125 million commitment to the development; and it is further

RESOLVED, that the form of the aforesaid funding agreement shall be subject to the approval of General Counsel or his authorized representative.

(Board - 4/24/97)

THE WORLD TRADE CENTER - BANKERS TRUST COMPANY - LEASE AGREEMENT

It was recommended that the Board authorize the Executive Director to: 1) enter into a lease agreement with the Bankers Trust Company (BTC), covering the letting of approximately 237,350 rentable square feet of office space consisting of the entire fourth and sixth floors and a portion of the fifth floor of Four World Trade Center for a term of approximately twenty years; 2) enter into a brokerage agreement with Edward S. Gordon Company, Incorporated, in connection with the lease agreement providing for the payment of a commission not exceeding an amount calculated in accordance with the rates authorized by the Board at its meeting of August 11, 1977; 3) enter into an agreement with the Republic National Bank providing for the surrender of an approximate 10,000 rentable square foot space on the sixth floor of Four World Trade Center to be leased to BTC; and 4) take such actions with respect to the award of purchase and construction contracts, and contracts for professional and advisory services as he deems in the best interest of the Port Authority, including entering into supplemental agreements and agreements for net cost work and additional work and the award of contracts on a sole source basis if necessary to meet commitments in connection with the lease agreement. It was also recommended that the Board delegate to the Committee on Operations the authority to approve the final terms and conditions of the lease and brokerage agreements in the event that they are not substantially in accordance with the terms outlined herein.

The space is to be delivered to BTC in four portions over an approximate twenty-month period commencing on or about July 1, 1997. The Port Authority will be responsible for the performance of certain demolition, demising and heating, ventilating and air-cooling work in the premises prior to BTC's commencement of its operations in the space.

The aggregate basic rental payable by BTC for the office space over the term of the lease agreement is approximately \$116 million.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Hellmuth, Kalikow, Lewis, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Bankers Trust Company, a brokerage agreement with Edward S. Gordon Company, Incorporated, in connection with the lease agreement, and a surrender agreement with the Republic National Bank, each in accordance with the terms outlined above; and to take such actions with respect to the award of purchase and construction contracts, and contracts for professional and advisory services as he deems in the best interest of the Port Authority; the form of the agreement in each instance shall be subject to the approval of General Counsel or his authorized representative; and it is further

(Board - 4/24/97)

RESOLVED, that the Committee on Operations be and it hereby is authorized to approve the final terms and conditions of the lease and brokerage agreements in the event that they are not substantially in accordance with the terms outlined above.

BATHGATE INDUSTRIAL PARK - AVNE SYSTEMS, LTD. - LEASE AMENDMENT

It was recommended that the Board authorize the Executive Director to enter into an agreement with Avne Systems, Ltd. (Avne) amending Avne's existing lease (the Lease) with the Port Authority covering the letting of approximately 68,100 square feet of space at the Bathgate Industrial Park (Bathgate).

Avne, a packaging company, has been a tenant at Bathgate since 1987. As a result of difficulties experienced by a subsidiary corporation whose financial obligations it guaranteed, Avne filed a petition (the Petition) in Bankruptcy Court seeking reorganization under Chapter 11 of the Bankruptcy Code. Subsequent to the filing of the Petition, Avne agreed to assume the Lease if certain changes to the terms and conditions thereof are made. Avne employs approximately 400 employees, the vast majority of whom are local residents.

Pursuant to the proposed agreement the term of the letting under the Lease will expire on June 30, 2003, and Avne will have the right to extend the term for one additional six year period. Avne will pay an aggregate rental of approximately \$3 Million during the period from the effective date of the proposed agreement to the expiration date, and, if it exercises its right to extend the term of the Lease, Avne will pay an aggregate rental of approximately \$3.16 Million during the term of the extension. Avne will also pay (x) an additional rental of approximately \$150,000, to be paid in sixty (60) equal monthly installments, and (y) an amount for its use and occupancy of the premises during the period when the bankruptcy estate was being administered. The proposed amendment will become effective upon approval of the Bankruptcy Court.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Hellmuth, Kalikow, Lewis, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Avne Systems, Ltd. amending the terms of Avne Systems, Ltd.'s lease with the Port Authority covering the letting of space at the Bathgate Industrial Park, substantially in accordance with the terms and conditions outlined above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

SETTLEMENT OF CLAIM - WILLIE SMITH v. THE PORT AUTHORITY OF NEW YORK AND NEW JERSEY

It was recommended that the Board authorize General Counsel to settle the pending claim brought by Willie Smith by paying to him and his attorney the sum of \$250,000. In return, the Port Authority will receive a General Release and Stipulation of Discontinuance, with prejudice, and plaintiff agrees to hold the Port Authority harmless and indemnify it for a workers compensation lien of approximately \$90,000.

Plaintiff, an employee of Express Warehouse Corp., a Port Authority tenant, brought this action to recover for injuries to his head and neck including a most serious injury to his left eye resulting in a significant loss of vision, allegedly sustained on December 1, 1989 when a Port Authority owned and operated vehicle struck a pallet on a warehouse ramp at Pier 3, Brooklyn - Port Authority Marine Terminal causing a piece of wood to break off and strike plaintiff, then a pedestrian.

The Port Authority has reserved the right to seek partial reimbursement and recovery of the settlement from Express Warehouse Corp. and its insurer.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Hellmuth, Kalikow, Lewis, O'Neill, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that General Counsel be, and he hereby is authorized, for and on behalf of the Port Authority, to settle the pending civil action entitled Willie Smith v. The Port Authority of New York and New Jersey, by paying \$250,000 to plaintiff and his attorney in return for a General Release and Stipulation of Discontinuance with prejudice and an understanding that the plaintiff agrees to hold the Port Authority harmless and indemnify it for a workers compensation lien of approximately \$90,000.

TRIBUTE TO JOHN J. HALEY, JR.

The following resolution was unanimously adopted, expressing the appreciation of the Board of Commissioners to John J. Haley, Jr.

WHEREAS, John Haley brought to the Port Authority more than twenty years of experience in the transportation industry with expertise in the areas of management, policy development and strategic planning; and

WHEREAS, as Deputy Executive Director, John Haley was responsible for operations and policy development for the agency, directing its multi-billion dollar capital program, and ensuring that all agency activities were in support of its mission and goals; and

WHEREAS, John Haley worked tirelessly with staff to bring about the achievement of the agency's objectives while fostering a strong, cohesive management team; and

WHEREAS, John Haley brings this experience and skill to the next phase of his association with the Port Authority as a member of the Board of Commissioners;

Now, therefore, be it

RESOLVED, that the Commissioners of The Port Authority of New York and New Jersey do hereby express their appreciation to John J. Haley, Jr. for his service as a staff member of the Port Authority; and it is further

RESOLVED, that his colleagues on the Board wish him every success during his term as a member; and it is further

RESOLVED, that the Commissioners hereby direct that this resolution be suitably engraved and presented to John J. Haley, Jr. with their best wishes and thanks.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period February 1, 1997 to February 28, 1997.

- (A) Lump Sum
- (B) Classified Work
- (C) Net Cost - Amount in the "Total Authorized" column represents the estimated net cost amount. However, the amount in the "Total Payment" column is the authorized net cost amount.
- (D) Extra Work
- (E) Memorandum of Authorization dated 05/21/96, authorizing a Supplemental Agreement in the amount of \$100,000.
- (F) Premium for furnishing performance and payment bond as provided for in Contract.
- (G) Memorandum of Authorization dated 07/28/94, increasing extra work in the amount of \$250,000.
- (H) Memorandum of Justification dated 12/04/96, authorizing a Settlement of Claim in the amount of \$36,165.
- (I) The difference between the "Total Authorized" and the "Total Payment" represents a credit change order in the amount of \$1,602 for deleted work.
- (J) Per AP 45-1.01.05, classified work may exceed authorized amount limited to 10% or \$250,000 (whichever is less) without further authorization.
- (K) Memorandum of Justification dated 06/23/95, authorizing a Supplemental Agreement in the amount of \$127,330.
- (L) The difference between the "Total Authorized" and the "Total Payment" represents backcharges in the amount of \$34,986.
- (M) Memorandum of Justification dated 07/11/96, authorizing a Supplemental Agreement in the amount of \$30,000.
- (N) The difference between the "Total Authorized" and the "Total Payment" represents a credit in the amount of \$2,000 for deleted work.
- (O) Memorandum of Authorization dated 07/24/95, increasing extra work in the amount of \$67,000.
- (P) Memorandum of Justification dated 03/01/95, increasing net cost work in the amount of \$284,000.
- (Q) Memorandum of Justification dated 03/01/95, increasing extra work in the amount of \$300,000.
- (R) The difference between the "Total Authorized" and the "Total Payment" represents a credit change order in the amount of \$200.
- (S) Memorandum of Authorization dated 07/14/95, increasing extra work in the amount of \$200,000.
- (T) The difference between the "Total Authorized" and the "Total Payment" represents a credit change order in the amount of \$4,000.
- (U) The difference between the "Total Authorized" and the "Total Payment" represents a credit change order in the amount of \$1,093,549 for deleted work.

Investments & Deposits

The Committee on Finance reported, for information only, that in accordance with authority granted by the Committee, the Executive Director had authorized the following security transactions, time accounts, interest rate exchange contracts and variable rate master note agreements during the period February 1, 1997 to February 28, 1997.

Purchase of Port Authority Bonds

(Unless otherwise noted, all Port Authority Bonds are callable at par).

INVESTMENTS, DEPOSITS, INTEREST RATE EXCHANGE CONTRACTS AND VARIABLE RATE MASTER NOTE PLACEMENTS

REPORT B: In addition to the transactions described in Report A of this report, the Executive Director also reports the following transactions during the period February 1, 1997 through February 28, 1997, pertaining to investments in United States Treasury securities and interest rate options contracts with respect to United States Treasury securities pursuant to the guidelines established by the Board of Commissioners on August 25, 1988.

Options Transactions - Purchased

No new transactions this period.

Options Transactions - Sold

Transaction Date	Par Value	Description	Price	Exercise Price	Expirations/ Settlement	Dealer	Option Premium
-----------------------------	------------------	--------------------	--------------	---------------------------	------------------------------------	---------------	---------------------------

No new transactions this period.

INVESTMENTS, DEPOSITS, INTEREST RATE EXCHANGE CONTRACTS AND VARIABLE RATE MASTER NOTE PLACEMENTS

REPORT C: In addition to the transactions described in Report A and B, the Executive Director also reports the following transactions during the period February 1, 1997 and February 28, 1997 pertaining to the execution or cancellation of Interest Rate Exchange Contracts pursuant to the guidelines established by the Board of Commissioners on December 10, 1992.

Interest Rate Exchange Contracts

<u>Date</u>	<u>Counterparty</u>	<u>Notional Amount</u>	<u>Start Date</u>	<u>Termination Date</u>	<u>Fixed Interest Rate Paid</u>	<u>Variable Interest Rate Received</u>
-------------	---------------------	------------------------	-------------------	-------------------------	---------------------------------	--

No new transactions this period.

As of February 28, 1997, the Port Authority has interest rate exchange contracts in place on notional amounts totaling \$780.8 million, including \$385.8 million pertaining to refundings and \$110.00 million of reversals.

REPORT D: In addition to the transactions described in Report A, B and C, the Executive Director also reports the following transactions during the period February 1, 1997 and February 28, 1997 under the Variable Rate Master Note Program as amended and supplemented through October 13, 1994.

Variable Rate Master Note Placements

<u>Date of Issuance</u>	<u>Amount</u>	<u>Purchaser</u>	<u>Term</u>	<u>Variable Rate Index</u>
-------------------------	---------------	------------------	-------------	----------------------------

No new transactions this period.

**REPORT OF CONTRACT EXPENDITURES MADE UNDER THE 1996 BUDGET-
JANUARY 1, 1996 TO DECEMBER 31, 1996**

	<u>Amount Provided in the 1996 Budget</u>	<u>Amount Spent in 1996</u>
	(dollars, in millions)	
<u>Professional, Technical & Advisory Services</u>		
Architectural & Engineering	\$ 65	\$ 42
Job Shoppers	37	30
Consultants	72	39
Advertising	<u>7</u>	<u>4</u>
Professional Technical & Advisory Services Total	\$ 181	\$ 115
<u>Contracts</u>		
Purchase of Commodities	\$ 78	\$ 68
Maintenance & Services	373	417 *
Construction	<u>462</u>	<u>361</u>
Contracts Total	\$ 913	\$ 846
<u>Total:</u>	<u>\$ 1,094</u>	<u>\$ 961</u>

* Exceeds amounts provided primarily due to overruns for extra snow and ice removal, particularly at the airports, and for additional security and cleaning services due to the building cleaners strike. All contracts were, however, reviewed and authorized by the Commissioners or under appropriate delegated authority.

Whereupon, the meeting was adjourned.

 Margaret R. Zoch, Director, Budget

Guests

Henry F. Henderson, Jr., Honoree
 Mrs. Ethel Henderson

NEW YORK

Hon. James G. Hellmuth
 Hon. Peter S. Kalikow
 Hon. George D. O'Neill
 Hon. Melvin L. Schweitzer
 Hon. Madelon DeVoe Talley

The public meeting was called to order by Chairman Eisenberg at 2:49 p.m. and ended at 3:04 p.m. The Board also met in executive session prior to the public meeting.

Action on Minutes

The Secretary submitted for approval Minutes of the meeting of April 24, 1997. He reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. He reported further that the time for action by the Governors of New York and New Jersey has expired.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Audit Committee

The Audit Committee reported, for information, on matters discussed in executive session at its meeting on May 29, 1997, which included discussion of internal audit matters, and the report was received.

Report of Committee on Capital Programs and Port Planning

The Committee on Capital Programs and Port Planning reported, for information, on matters discussed in executive session at its meeting on May 29, 1997, which included a discussion of contract matters and matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with whom we deal, and the report was received.

Report of Committee on Operations

The Committee on Operations reported, for information, on action taken and matters discussed in executive session at its meeting on May 29, 1997, which included discussion of lease and contract matters and matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with whom we deal, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Construction

The Committee on Construction reported, for information, on matters discussed in public session at its meeting on May 29, 1997, which included a discussion of project authorizations at John F. Kennedy International Airport for Van Wyck Corridor Improvements and Taxiway "U" Relocation and Bypass. Following the public session, the Committee met in executive session to discuss contract matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Finance

The Committee on Finance reported, for information, on action taken and matters discussed in executive session at its meeting on April 24, 1997, which included a discussion of matters related to, or which could impact upon, the issuance, sale, resale, or redemption of Port Authority bonds, notes, or other obligations, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Staff Report

There was a presentation by staff on the rehabilitation of Runway 4R-22L at Newark International Airport.

**JOHN F. KENNEDY INTERNATIONAL AIRPORT - VAN WYCK CORRIDOR
IMPROVEMENTS PROGRAM - PHASE II - PROJECT AUTHORIZATION**

The Van Wyck Corridor, which last received major improvements in 1966, is utilized by approximately 5,000 vehicles per hour during summer peak periods. It begins before the intersection with the Belt Parkway and connects with the new roadway system in the John F. Kennedy International Airport (JFK) Central Terminal Area (CTA). Since the 1966 improvements, significant roadway construction has been undertaken at JFK, including the construction of the JFK Expressway and the construction of a new network of roads within the CTA. The reconstruction of the CTA roadways is ongoing.

The proposed project is the second phase of a two-phase program to improve the Van Wyck Corridor entranceway to JFK. Phase I (Contract JFK-134.075) included much needed repairs to the Van Wyck Corridor including concrete roadway joint repairs, concrete roadway slab replacements, asphalt concrete overlay, center Jersey barrier median with an electrical ductbank, improved drainage, new highway lighting and permanent international porcelain enamel banner standards. Construction is ongoing and scheduled to be completed in June 1997.

The second phase would provide vehicle pull-offs to improve motorist safety on the inbound Van Wyck Expressway between Federal Circle and Taxiway Bridges "A" and "B"; guiderail installation on inbound and outbound roadways; new airline directory signage lighting and structural supports; and enhanced landscaping treatment, including irrigation and landscape lighting.

Pursuant to the foregoing report presented by staff, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Hellmuth, Janiszewski, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that a project to improve the Van Wyck Expressway Corridor at John F. Kennedy International Airport (JFK) at a total estimated project cost of \$13.45 million, including payments to contractors, allowances for extra work (if necessary) and net cost work, planning, engineering, administrative and financial expense and a project contingency (if necessary), be and the same is hereby authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to award Port Authority Contract JFK-134.138 - Van Wyck Corridor Improvements Phase II, at an estimated cost of \$9 million to provide for the construction of vehicle pull-offs, installation of guiderails, illumination of directional signs and installation of landscape treatments, and any other contracts required to complete the project, to the lowest bidder(s) qualified by reason of responsibility, experience and capacity at a bid price the Executive Director deems reasonable, or to reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors; and to execute other contracts and supplemental agreements

with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work (if necessary) and net cost work in connection with each contract including supplemental agreements thereto; and to enter into such other agreements as may be necessary to effectuate the project; the form of the contracts and agreements shall be subject to the approval of General Counsel or his authorized representative.

JOHN F. KENNEDY INTERNATIONAL AIRPORT - TAXIWAY 'U' RELOCATION AND BYPASS - PROJECT AUTHORIZATION

Taxiway 'U' was built when Runway 13L-31R was extended by 1,000 feet during the early 1960s. The taxiway was continued from the terminus at Taxiway CB to connect with the new runway end. This offset dimension was 300 feet from runway centerline to taxiway centerline, in compliance with the Federal Aviation Administration (FAA) criteria at the time. However, with the advent of Group V aircraft, existing Taxiway 'U' does not conform to the FAA Group V (Large Aircraft) criteria of a 400 foot offset between the centerline of a runway and the centerline of its taxiway, and this substandard clearance has caused operational restrictions for departures when Runway 13L is the landing runway, especially during Instrument Flight Rules conditions. By relocating the taxiway to the 400 foot offset distance, all of the FAA safety clearance requirements are met and departing aircraft can now hold at the end of Runway 13L, significantly improving runway utilization.

The existing hold areas at Runways 13L and 22R can accommodate only Group IV aircraft or smaller. Group V aircraft therefore can block the taxiway. The expanded holding area to be located adjacent to Taxiway 'U' will enable aircraft to hold until such time as when cleared for takeoff. This area's turning radii will be increased to provide adequate turning movements for aircraft. Aircraft which are unable to takeoff and are holding in the number one position on Runway 22R create backups. The bypass provisions of the proposed project would significantly improve the utilization of these runways during daily departure pushes experienced at JFK.

Under the proposed project Taxiway 'U' would be relocated and modified and the holding area at existing Taxiway 'U' would be expanded, to meet FAA Group V requirements. A new bypass would also be constructed at Taxiway C with accommodation for new Large Aircraft. Related work would include pavement removal, grading, drainage, full depth construction of Portland cement concrete taxiway pavement and asphalt concrete taxiway pavements, shoulders, erosion pavement, electrical taxiway lighting, signage, relocation of FAA navigational equipment, extension of existing blast fence, pavement markings and grass and seed.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Hellmuth, Janiszewski, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that a project for the relocation and modification of Taxiway 'U', the expansion of the holding area of the existing Taxiway 'U' at Runway 13L and the construction of a new bypass area at Runway 22R Taxiway 'C', at John F. Kennedy International Airport (JFK), at a total estimated project cost of \$16.73 million, including payments to contractors, allowances for extra work (if necessary) and net cost work, planning, engineering, administrative and financial expenses and a project contingency (if necessary), be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to award Contract JFK-954.111, at an Engineering Construction Estimate of \$11 million, and any other contracts required to complete the project, to the lowest bidder(s) qualified by reason of responsibility, experience and capacity at a bid price the Executive Director deems reasonable, or to reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more bidders or other contractors; and to execute other contracts and supplemental agreements with such bidders or contractors as he deems in the best interest of the Port Authority, and to order extra work (if necessary) and net cost work in connection with each contract including supplemental agreements thereto; and to enter into such other agreements as may be necessary to effectuate the project; the form of the contracts and agreements shall be subject to the approval of General Counsel or his authorized representative.

**JOHN F. KENNEDY INTERNATIONAL, NEWARK INTERNATIONAL AND
LAGUARDIA AIRPORTS - TELE-TRIP COMPANY, INC. - AMENDMENTS
TO AGREEMENTS AND SETTLEMENT OF CLAIMS**

It was recommended that the Board authorize the Executive Director to (a) settle claims the Port Authority has against Tele-Trip Company, Inc. (Tele-Trip) for a lump sum of \$580,000, resulting from a December 1996 audit of eighteen Tele-Trip agreements, (b) waive all late charges and (c) amend said agreements to require Tele-Trip to pay the Port Authority, as of January 1, 1996, fifteen percent of gross receipts from initial purchases and any renewals of Travel Accident Insurance policies.

The Audit Department reviewed eighteen Tele-Trip agreements for various locations at John F. Kennedy International, Newark International and LaGuardia Airports and its financial records for the period from April 1, 1989 to December 31, 1995 and determined that Tele-Trip owed the Port Authority \$991,061 in additional percentage fees and \$665,366 in late charges, primarily because it failed to report proceeds from the sales of Annual Travel Accident Insurance renewal policies as part of its gross revenue.

Because of the uncertainty of the outcome of litigation in this case due to the long history of non-collection of the fees in question and the uncertainty as to the fees covered by the agreements, staff has recommended to settle the claims instead of pursuing the collection in court and risking an adverse verdict.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Hellmuth, Janiszewski, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a settlement agreement and to amend various agreements with Tele-Trip Company, Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreements shall be subject to the approval of General Counsel or his authorized representative.

SPECIAL PAYMENT TO THE CITY OF LINDEN ECONOMIC DEVELOPMENT CORPORATION TO EFFECT A REDUCTION IN AIRCRAFT/PASSENGER DELAY AT NEWARK INTERNATIONAL AIRPORT

Linden Airport (Linden), an airport located approximately five miles south of Newark International Airport (EWR), serves as a general aviation "reliever" facility by accommodating smaller propeller driven aircraft which would otherwise utilize EWR and contribute to airspace and ground congestion. However, aircraft approaching Linden during weather conditions of low cloud ceiling and limited visibility must utilize either of two published instrument approach procedures, which require the use of EWR airspace. Consequently, EWR operations must be altered to accommodate the Linden traffic and maintain acceptable distances between aircraft. As a result of this interaction, EWR airlines absorb an estimated \$1.2 million annually in aircraft delays and \$2.7 million in passenger delays, based on 1994 traffic levels. These costs could rise to \$1.3 million and \$3.6 million, respectively, by the year 2004.

The City of Linden, New Jersey (the City), as operator of Linden, signed a Memorandum of Agreement with the Federal Aviation Administration (FAA) in 1994 under which the City sold 92 acres on the north end of the airport, abutting Route 1, to developers for the construction of a hotel, restaurant and retail complex. The FAA, in turn, is requiring the City to relocate all displaced aeronautical facilities to the south side of the airport and has approved \$3.1 million in Airport Improvement Program (AIP) funds for this purpose. The acceptance of federal funding obligates the City to keep the airport open until at least the year 2016.

Under the proposed agreement among the City, Linden Economic Development Corporation (LEDC) and the Port Authority, the City will be required to petition the FAA to eliminate the existing approach procedures which cause the delay in EWR operations. The FAA would then have to solicit public comment on the City's request. The LEDC, using Port Authority funds, would equip approximately 70 Linden-based aircraft with new Global Positioning System (GPS) navigational receivers once the existing procedures were eliminated and the new GPS procedures were in place. Port Authority Aviation Department staff assisted FAA in developing GPS approach and missed approach procedures to Linden. These new GPS procedures, which utilize navigational signals from space based satellites, can be conducted without impacting EWR traffic, thus providing EWR air carriers with significant delay savings. The FAA plans to publish the Linden GPS procedures in July 1997.

Under the proposed Agreement, the Port Authority would provide a lump sum payment of \$3.0 million to LEDC following elimination of the existing delay causing procedures and publication by the FAA of a GPS instrument approach procedure to Linden that can be conducted independent of, and simultaneously with, approach and departure procedures to and from EWR. These monies will be used by LEDC in the following manner:

- 1) 0.7 million for the purchase and installation of GPS receivers, certified by the FAA for non-precision approaches, in eligible Linden-based aircraft. These funds will be disbursed within 45 days of the execution of the agreement or publication of the GPS procedure, whichever occurs later;

2) \$2.3 million for aeronautical area redevelopment at Linden. These funds will be disbursed within 45 days of the date of FAA's cancellation of the interfering approach procedures.

Under the Agreement the City will agree to a) immediately request the FAA to cancel the existing instrument approach procedures to Linden and b) act to prohibit the implementation of any new arrival, departure, or missed approach procedures to and from Linden which is determined by Port Authority to have a negative operational impact on EWR, for a period of twenty years from the execution date of the Agreement with the Port Authority.

The proposed special payment is intended to produce greater operational efficiency at EWR. Decreased queuing time for aircraft on the ground reduces emissions and improves air quality. The duration of community noise exposure would also be reduced to the extent that aircraft can arrive or depart closer to schedule. On-time landings and takeoffs can prevent the spillover of traffic from peak periods to nighttime/sleeping hours. Instrumentation of Linden approach, missed approach and departure procedures would have no significant environmental impact on the City or neighboring communities. The instrumented procedures would not produce additional demand but would simply enhance the safety and precision of existing visual approach paths. The FAA issued a Finding of No Significant Impact in 1995 on the City's Environmental Assessment of the Linden redevelopment plan.

Linden's proximity to Manhattan is an attractive feature for general aviation users. The redevelopment/improvement of the airport and its facilities would improve General Aviation access to the Port District and would have a positive impact on the local and regional economies.

The \$3.0 million payment would be recoverable through the flight fee component of the EWR Master Lease which requires airline approval. Such approval is a condition precedent to the making of the special payment. Continental Airlines and the Air Transport Association support the proposed action.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Hellmuth, Janiszewski, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an Agreement with the City of Linden and the City of Linden Economic Development Corporation (LEDC), under which the Port Authority would provide a lump sum payment of \$3 million to LEDC for the purpose of redeveloping Linden Municipal Airport (Linden) and equipping Linden-based Aircraft with Global Positioning System receivers; the form of the Agreement shall be subject to the approval of General Counsel or his authorized representative.

THE WORLD TRADE CENTER - PACE UNIVERSITY - AUTHORIZATION OF SALE OF WORLD TRADE INSTITUTE AND LEASE AGREEMENT

The World Trade Institute (WTI) was established in January 1970 to provide the world trade community with a highly respected education center for the interchange of ideas covering the many aspects of international commerce. In offering courses and programs, the WTI draws upon its own staff, employees in other Port Authority departments, scholars from various universities and institutions throughout the world and government and business practitioners. The WTI cooperates and maintains working relationships with many institutions and offers degree programs through affiliations with regional colleges and universities. The WTI currently is located on the 55th Floor of One World Trade Center (WTC). Classrooms with maximum flexibility and utility and capabilities for audio-visual equipment are an integral part of the WTI's complex.

A Request for Proposals to purchase and operate the WTI was publicly advertised in February 1996. A total of seven proposals were received. At its meeting of June 6, 1996, the Board authorized the Executive Director to enter into those agreements necessary to effectuate the sale of the WTI to the New York Corporate Conference & Seminar Center (NYCC&SC). However, after conducting its due diligence, NYCC&SC ultimately advised staff that it was unable to secure adequate operating capital and as such would not be able to complete the proposed transaction. Accordingly, staff terminated negotiations with NYCC&SC in December 1996.

Since then, five unsolicited proposals were received to acquire the WTI assets and lease space at the WTC. The proposals were evaluated on the basis of proven ability to continue the WTI operations as an educational entity at the WTC, financial capability to complete the transaction, and the financial return to the Port Authority. As a result, it was concluded that the Pace University (Pace) offer is most advantageous when measured against the established evaluation criteria, most importantly, with respect to their demonstrated academic credentials and reputation.

The Pace proposal provides for a total cash payment of \$500,000 plus one percent of gross revenues, net of base rental payment and applicable rental taxes, for a period of ten years. The \$500,000 is to be paid in the form of (a) a non-refundable deposit of \$50,000 which was received in March 1997; (b) a cash payment of \$200,000 at closing; and (c) \$250,000 in three installments -- \$50,000 on January 1, 1998 and \$100,000 on January 1, 1999 and January 1, 2000 respectively. The purchase price is for the acquisition of WTI assets which includes the present WTI furnishings, computer technology and the WTI service mark.

Pace will rent the entire 55th floor of One WTC, approximately 46,000 rentable square feet, in connection with its purchase of the assets of the WTI. The proposed lease agreement will provide for a term of approximately fifteen years and eight months to commence on or about June 15, 1997. The lease will also provide Pace with renewal and termination rights. The total aggregate base rental of the fifteen-year, eight-months term is approximately \$18 million. A brokerage commission will be paid to Julien J. Studley, Inc. in connection with this transaction.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Hellmuth, Janiszewski, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into such agreements and execute such instruments with Pace University (Pace) as are necessary to: (1) effectuate the sale of the World Trade Institute (WTI) to Pace; (2) lease space at the World Trade Center (WTC), substantially in accordance with the terms and conditions outlined above; and (3) enter into a brokerage agreement in accordance with Board-authorized rates with Julien J. Studley, Inc. in connection with the lease transaction; the form of the agreements shall be subject to the approval of General Counsel or his authorized representative.

THE WORLD TRADE CENTER - OPPENHEIMERFUNDS, INC. - LEASE RENEWAL AND EXPANSION

It was recommended that the Board authorize the Executive Director to enter into a lease agreement (the New Lease) with OppenheimerFunds, Inc (Oppenheimer) incorporating the premises currently leased by Oppenheimer under its existing lease (the Existing Lease) with the Port Authority, covering approximately 117,850 rentable square feet of space at The World Trade Center (WTC), consisting of the entire 33rd and 34th floors of Two WTC, and a portion of the 32nd floor thereof, and adding to the premises approximately 63,454 rentable square feet of space, consisting of the balance of the 32nd floor and the entire 31st floor of Two WTC. The Existing Lease provides that the letting of the major portion of the space thereunder expires December 31, 2001, with the letting as to other portions of the space thereunder expiring on later dates, but not beyond June 30, 2004. The letting of the space on the 32nd floor not currently occupied by Oppenheimer under the Existing Lease would commence under the New Lease on or about July 1, 1997, and as of such date the portion of the 32nd floor now occupied by Oppenheimer under the Existing Lease would be incorporated in the New Lease. The letting of the space on the 31st floor under the New Lease would commence on or about December 1, 1997. As of April 1, 1998 the balance of the space under the Existing Lease will be incorporated in the New Lease. The term of the letting of all of the premises under the New Lease will extend approximately sixteen years from April 1, 1998, expiring March 31, 2014.

Oppenheimer will pay an aggregate basic rental for the premises under the New Lease of approximately \$71 million. Oppenheimer will pay its proportionate share of any increases in direct operating and maintenance costs over the actual costs and expenses for the 1998 base year and will pay increases in payments in lieu of taxes as provided in the New Lease. Oppenheimer will be provided protection from all increases in real estate taxes due to any initial reassessment of the building resulting from a change in the ownership of Two WTC during the term of the letting under the New Lease, and will pay its proportionate share of increases after such initial reassessment. The Port Authority will provide Oppenheimer with a construction allowance, and will also grant Oppenheimer subletting, expansion, termination, and renewal rights, as specified in the Lease.

The Port Authority will be obligated to install an emergency generator of sufficient capacity to provide Oppenheimer with 350 KVA of emergency electrical power, at a cost of approximately \$4.5 million and to extend elevator service from the 33rd and 34th floors currently occupied by Oppenheimer to the 32nd and 31st floors, at a cost of approximately \$1.5 million. If Oppenheimer exercises its expansion rights with respect to space on the 30th floor of Two WTC, the Port Authority may be required to further extend elevator service to that floor at a cost of approximately \$1.2 million. If the Port Authority fails to perform the generator and elevator work within specified time frames, Oppenheimer will be granted rental abatements in accordance with the terms of the New Lease.

The final terms of the New Lease will be subject to the approval of the Committee on Operations in the event that they differ substantially from terms outlined herein.

The Port Authority will pay a brokerage commission to Julien J. Studley, Inc., the broker involved in the transaction.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Hellmuth, Janiszewski, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, (1) to enter into a lease agreement with OppenheimerFunds, Inc. covering the letting of space at the Port Authority World Trade Center substantially in accordance with the terms and conditions outlined above, (2) a brokerage agreement with Julien J. Studley, Inc. in connection with such letting, and (3) to take such actions with respect to the award of purchase and construction contracts, and contracts for professional and advisory services as he deems to be in the best interest of the Port Authority to meet the commitments undertaken by the Port Authority in the lease agreement, including entering into agreements for net cost work and additional work, entering into supplemental agreements, and the award of contracts on a sole source basis; the form of the agreements in each instance shall be subject to the approval of General Counsel or his authorized representative; and be it further

RESOLVED, that the Committee on Operations is hereby authorized to approve the final terms of the lease agreement with OppenheimerFunds, Inc. in the event that such final terms are not substantially in accordance with the terms and conditions outlined above.

THE WORLD TRADE CENTER - HOWARD PUBLICATIONS, INC. - LEASE RENEWAL

It was recommended that the Board authorize the Executive Director to enter into a supplemental lease agreement with Howard Publications, Inc. (Howard) providing for an extension of the term of the letting under a lease agreement covering approximately 1,200 rentable square feet of space in the Northeast Plaza Building at The World Trade Center substantially in accordance with the following terms and conditions.

At its meetings of December 14, 1989 and May 16, 1991, the Board authorized the Executive Director to enter into lease agreements with trade services tenants for periods of up to five years at fixed rentals without provision for escalation. The rentals would be at rates that would include an amount to cover projected annual increases in Payments in Lieu of Taxes (PILOT) and operating and maintenance expenses during the first five-year period of the term of the letting or extension. If the trade services tenant desired a longer term than five years, the tenant would be required to pay actual increases in PILOT and operating and maintenance expenses during the period in excess of five years. Howard's lease expires on May 17, 1997. Howard has proposed to extend the term of its lease for ten years at fixed rentals. The aggregate basic rental during this ten-year period would be \$265,500.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Hellmuth, Janiszewski, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a supplemental lease agreement with Howard Publications, Inc., extending its lease for a ten-year term, substantially in accordance with the terms and conditions outlined above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**HOWLAND HOOK MARINE TERMINAL - HOWLAND HOOK CONTAINER
TERMINAL, INC. - AMENDMENT OF LEASE**

It was recommended that the Board authorize the Executive Director to enter into an agreement amending the lease with Howland Hook Container Terminal, Inc. (HHCT) covering the Howland Hook Marine Terminal (the Terminal) to provide for the following: (1) the extension of the date for HHCT to complete the painting of IHI Crane No. 8852 and IHI Crane No. 8853 from March 31, 1996 to October 31, 1997; (2) the extension of the date for HHCT to complete the painting of Paceco Crane No. 1254 from December 31, 1999 to October 31, 2000; (3) the modification of HHCT's obligation to replace the boom hinge pin of IHI Crane No. 8852 to the obligation to repair the crane to enable lubrication of the hinge pin, and the extension of the date to complete the modified hinge pin work from May 13, 1996 to October 31, 1997; and (4) the reallocation of part of the reimbursement amount for the replacement of the hinge pin to the painting of cranes at the Terminal.

HHCT will be required to provide evidence satisfactory to the Port Authority that the boom hinge pin of IHI Crane No. 8852 need not be replaced at this time and that its lubrication will suffice for the crane's operation. If the Port Authority approves the modification of HHCT's work with respect to the hinge pin, then HHCT will be responsible, at its sole cost and expense, for any required replacement of the hinge pin during the term of the letting. Moreover, if the hinge pin work is modified, the amount not to exceed \$180,000 set forth in the lease for the reimbursement of HHCT for the cost of replacing the hinge pin will be reallocated as follows: any difference between \$180,000 and the cost of repairs to enable the hinge pin's lubrication will be applied in seven equal shares to reimburse HHCT for the required painting under the lease of the seven cranes at the Terminal.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Hellmuth, Janiszewski, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with Howland Hook Container Terminal, Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

BROOKLYN-PORT AUTHORITY MARINE TERMINAL - R. J. GROUX CORPORATION - NEW LEASE

It was recommended that the Board authorize the Executive Director, for and on behalf of the Port Authority, to enter into an agreement of lease with R. J. Groux Corporation (Groux) for the letting of Building 185 and associated open area at the Brooklyn -Port Authority Marine Terminal.

Groux will make certain leasehold improvements to suit its operation at its own expense.

The lease would be for a term of ten years commencing on August 1, 1997 with Groux having a one-time right to terminate the agreement, effective July 31, 2002, upon 180 days prior written notice to the Port Authority. Annual rental over the term of the lease is fixed initially and would be subject to escalation in the third, fifth, seventh and ninth year of the term. A brokerage commission in connection with the transaction is payable to Brown & Son Realty, Inc., a New York corporation, in three installments. The third installment, which is based on revenues from the last half of the lease term, will be not be payable by the Port Authority if Groux exercises its right of termination.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Hellmuth, Janiszewski, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement of lease with R.J.Groux Corporation at the Brooklyn-Port Authority Marine Terminal, substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**BROOKLYN-PORT AUTHORITY MARINE TERMINAL - AMERICAN
WAREHOUSING OF NEW YORK, INC. - LEASE AMENDMENT**

It was recommended that the Board authorize the Executive Director to enter into an agreement with American Warehousing of New York, Inc. (AW) to (1) add approximately 34,320 square feet to the premises under AW's lease of Pier 5 at the Brooklyn-Port Authority Marine Terminal (the Terminal); and (2) reimburse AW for repair work it performed on the valley gutters of the roof of the shed located at Pier 5. If AW can fully document its costs of the roofing work to the satisfaction of the Port Authority, AW will be reimbursed for this work in an amount not to exceed \$74,000, with the reimbursement to be in the form of two equal rental credits. For the remainder of the term of the lease, AW will be responsible for the maintenance of the valley gutter portions of the roof and for any damage to cargo located on the premises resulting from the condition of these portions of the roof. In addition, all rents payable under AW's lease for Pier 5 will be doubled for any period that AW uses more than the 30,000 square feet of space allowed it under its space permit with the Port Authority for the use of Pier 2 at the Terminal.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Hellmuth, Janiszewski, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with American Warehousing of New York, Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

**SETTLEMENT OF CLAIM - MARIA E. JOHNSON AND NEAL JOHNSON v. THE
PORT AUTHORITY OF NEW YORK AND NEW JERSEY**

It was recommended that General Counsel be authorized to settle the action entitled Maria Johnson and Neal Johnson v. The Port Authority of New York and New Jersey, by paying plaintiffs and their attorney, the sum of \$300,000, inclusive of attorney's fees, interest, costs and disbursements in return for a General Release and a Stipulation of Discontinuance of the action with prejudice.

On December 2, 1992, plaintiff, Maria Johnson arrived by a bus at the Port Authority Bus Terminal and while descending Stairway #205 caught her right foot on a raised step tread. She fell down the staircase sustaining several fractures to the right foot and three herniated discs in the cervical spine. The proposed settlement would fairly compensate the plaintiffs for their suffering, and would avoid exposing the Port Authority to a potentially larger jury verdict.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Haley, Hellmuth, Janiszewski, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for on behalf of the Port Authority, to settle the pending civil action entitled Maria E. Johnson and Neal Johnson v. The Port Authority of New York and New Jersey by paying the sum of \$300,000 to Maria E. Johnson and Neal Johnson and their attorney in return for a General Release from liability and a dismissal of the action with prejudice.

TRIBUTE TO COMMISSIONER HENRY F. HENDERSON, JR.

The following resolution was unanimously adopted, expressing the appreciation of the Board of Commissioners to Henry F. Henderson, Jr.

WHEREAS, Henry F. Henderson, Jr. brought to the Board a lifetime of experience as a distinguished business and community leader in the region; and

WHEREAS, in the years since Commissioner Henderson's 1983 appointment by Governor Kean, he has been a dedicated and conscientious member of many of the standing and special committees of the Board. He served as a member and Chair of the Committee on Capital Programs/Port Planning; as a member of the Construction Committee; as a member, Vice Chair and Chair of the Audit Committee; and, as a member and Vice Chair of the Operations Committee. Commissioner Henderson was also a member of the Business Opportunities Committee and has served as the Chair of the Board of Governors of the World Trade Center Club;

WHEREAS, over the past fourteen years Commissioner Henderson has worked closely with staff on the development and promotion of the agency's affirmative action policies and the innovative programs which helped advance them;

Now, therefore, be it

RESOLVED, that the Commissioners of The Port Authority of New York and New Jersey do hereby express their appreciation to Henry F. Henderson, Jr. for his many years of dedicated service to the agency and the region it serves; and it is further

RESOLVED, that his colleagues on the Board of Commissioners hereby direct that this resolution be suitably engraved and presented to Commissioner Henry F. Henderson, Jr. as a token of their thanks and friendship.

Final Contracts Payments

The Comptroller's Department reported, for information only, that the contracts set forth hereafter have been completed satisfactorily by the contractors. Final payments have been made in the period March 1, 1997 to March 31, 1997.

 Margaret R. Zoch, Director, Budget

(Board - 6/26/97)

The public meeting was called to order by Chairman Eisenberg at 3:36 p.m. and ended at 3:43 p.m. The Board also met in executive session prior to the public meeting.

Action on Minutes

The Secretary submitted for approval Minutes of the meeting of May 29, 1997. He reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. He reported further that the time for action by the Governors of New York and New Jersey has expired.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Committee on Operations

The Committee on Operations reported, for information, on matters discussed in executive session at its meeting on June 26, 1997, which included a discussion of contract matters, and the report was received.

Report of Committee on Construction

The Committee on Construction reported, for information, on matters discussed in public session at its meeting on June 26, 1997, which included a discussion of a project authorization for the protection and preservation of the runway deck at LaGuardia Airport. Following the public session, the Committee met in executive session to discuss contract matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

Report of Committee on Finance

The Committee on Finance reported, for information, on action taken in executive session at its meeting on May 29, 1997, and the report was received.

1997 BUDGET

The 1997 Budget for The Port Authority of New York and New Jersey, including the anticipated expenditures of subsidiary corporations, provides for capital and operating expenditures necessary to achieve the Port Authority's goals and objectives, and to support the capital program endorsed by the Governors of New York and New Jersey.

The Commissioners have set forth a revised Port Authority mission: to identify and meet the critical transportation infrastructure needs of the bistate region's businesses, residents and visitors by providing the highest quality, most efficient transportation and port commerce facilities and services that move people and goods within the region, provide access to the rest of the nation and to the world, and strengthen the economic competitiveness of the New York-New Jersey metropolitan region.

This mission is supported by goals and objectives that include: improving service quality, implementing new technologies, maintaining and enhancing infrastructure, improving management and delivery of capital programs, increasing agency cost effectiveness, enhancing safety and security, promoting entrepreneurial initiatives, pursuing improvements in regional mobility, and advancing regional economic competitiveness.

The Budget serves as a financial planning tool which outlines the estimated expenditures for fulfilling these objectives through programs already authorized or to be considered by the Board.

The 1997 Budget, as reflected in the financial plan previously presented to the Commissioners (not reflective of experience thus far in 1997), totals approximately \$2.9 billion. It consists of approximately \$1 billion in gross capital expenditures, \$1.4 billion of operating expenses, \$429 million of debt service charged to operations, and \$39 million of other expenditures, mostly related to future years.

The 1997 Budget reflects a number of cost reduction and productivity measures implemented during the Budget year. It also incorporates continued management delayering and process streamlining measures following the most significant restructuring effort in the agency's history. These steps will serve to maintain the financial capacity needed to achieve the Port Authority's capital and operational objectives. At the same time, the 1997 Budget provides for customer service improvements affecting aviation, tunnel, bridge, terminal, PATH, port commerce and world trade facilities.

1997 capital expenditures will be devoted primarily to projects related to the Port Authority's facilities. The Capital Plan for the 1997-2001 period supports the agency's mission and contributes to achieving the agency's goals and objectives. Significant projects include implementation of electronic toll collection; runways, taxiways, access and terminal improvements at the airports; dredging and port development projects; ventilation and infrastructure improvements on PATH; and circulation and additional security improvements at The World Trade Center.

The Executive Director would be authorized to take action with respect to the retention of professional, technical, or advisory services; contracts for maintenance and services, construction, commodities (materials, equipment, and supplies) purchases; the purchase of insurance; the settlement of employee and patron claims; and other actions including classification range and procedural adjustments, all as provided for in the Budget and in accordance with appropriate procedures filed with the Committees of the Board. The 1997 Budget includes, in addition to amounts otherwise authorized from time to time, \$187 million for professional, technical, or advisory services; \$385 million for maintenance and services contracts; \$692 million for construction contracts; and \$73 million for commodities (material, equipment, and supplies) purchases.

A provision of \$500,000 is also included to reimburse the States of New York and New Jersey for expenses incurred by both States, including staff costs, in reviewing the Port Authority's annual Budget and any amendments thereto.

Circumstances arose during the year 1996 which were not foreseeable or determinable on December 14, 1995, when the Board adopted the 1996 Budget that have affected the 1996 Budget. Together with all other expenditures for the Port Authority and its subsidiary corporations for the year 1996, actual expenditures exceeded the total amount set forth in the 1996 Budget by \$110 million.

In connection with the effectuation of portions of the Port Authority's capital program from time to time and consistent with the 1997 Budget and capital program projections, it is desirable to establish a maximum amount for 1997 in connection with the Executive Director's authority to apply monies in the Consolidated Bond Reserve Fund to the Capital Fund, subject to statutory, contractual, and other commitments and financial policies of the Port Authority, of up to \$350 million (after reimbursements for temporary applications) in addition to other capital funds carried into 1997 and the proceeds of Port Authority obligations to be issued.

The Executive Director's authority, pending final adoption and approval of the annual Budget, to make operating expenditures and undertake contractual commitments for continuing operations and services as contained in the financial plan presented to the Commissioners would also be confirmed.

Pursuant to the foregoing report presented by staff, the following resolution was adopted with Commissioners Eisenberg, Gargano, Haley, Hellmuth, Janiszewski, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the 1997 Budget of The Port Authority of New York and New Jersey as set forth below be and the same hereby is approved and adopted, including authority for the Executive Director to (a) take action, in accordance with appropriate procedures, with respect to the retention of professional, technical, or advisory services, contracts for maintenance and services, construction, and commodity purchases, purchase of insurance, settlement of claims, and other actions including classification,

range, and procedural adjustments as well as renewal, extension, amendment, or modification of an existing authorization on terms and conditions at least as favorable to the Port Authority and under with the Port Authority will incur no additional expenditures or obligations; and (b) pending final adoption of the annual Budget, make operating expenditures and undertake contractual commitments for continuing operations and services:

Total Port Authority Budget	\$ 2,589,968	\$ 2,699,984	\$ 110,016

and it is further

RESOLVED, that, based upon a requisition of the Governor of the State of New York or the Governor of the State of New Jersey, or the duly authorized designee of each, the Port Authority shall pay to the State of New York or the State of New Jersey, or both, upon receipt of an appropriate expenditure plan from said State, an amount not in excess of \$250,000 to each said State to reimburse said State or States for expenses incurred by said State or States, including staff costs, in reviewing the annual Budget of the Port Authority and any amendments thereto; and it is further

RESOLVED, that the provision by the Executive Director of portions of the Port Authority's capital program from time to time, consistent with the 1997 Budget and capital program projections (including the continuing application of the Capital Fund on a temporary basis, subject to reimbursements), by application of monies in the Consolidated Bond Reserve Fund, including investment earnings attributable to the General Reserve Fund not required for the maintenance of that Fund, to the Capital Fund for capital expenditures for the year 1997 in connection with the Port Authority's facilities shall not, subject to statutory, contractual, and other commitments and financial policies of the Port Authority, exceed \$350 million (after any such reimbursements and in addition to other capital funds carried into 1997 and the proceeds of obligations to be issued).

JOHN F. KENNEDY INTERNATIONAL AIRPORT - WATER SUPPLY SYSTEM IMPROVEMENTS - PROJECT AUTHORIZATION AND AWARD OF CONTRACTS

The water supply distribution system for John F. Kennedy International Airport (JFK) is presently supplied by connections to three New York City (NYC) water mains. A greater potential for high water consumption in the airport's low pressure zone has been brought about by the increased demand of the new cogeneration power plant and other airport tenants. This, coupled with high NYC summer demands, may create a drop in the water pressure at JFK. This situation could also impact the available supply to the high pressure Fire Pump Station which supplies the high pressure zone. Future terminal, hangar and air cargo growth will further burden the low pressure water system.

The construction of two booster pump stations will increase system pressure and supply from NYC's water distribution system to the airport. The installation of an 800,000 gallon storage tank adjacent to the high pressure Fire Pump Station will increase the available back-up water supply for the high pressure system thus expanding hangar fire protection systems for use in the event of an emergency.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Haley, Hellmuth, Janiszewski, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that a project to construct two booster pump stations and a water storage tank at John F. Kennedy International Airport at a total estimated project cost of \$11.1 million including administrative, engineering and financing expenses, payments to contractors and allowances for extra work (if necessary), net cost work and a project contingency (if necessary) be, and the same is, hereby authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to (a) award Contracts JFK-134.110 - "High Pressure Water Supply System - Storage Tank" and JFK-134.111-"Low Pressure Water Pump Stations" to the lowest bidder who is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable, reject all bids, solicit new bids on revised or the same requirements, or negotiate with one or more contractors and (b) take such action with respect to award of purchase and construction contracts and agreements for professional and advisory services for the foregoing project as he deems in the best interest of the Port Authority including, without limitation, award to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable, rejection of all bids, solicitation of new bids on revised or the same requirements, or negotiation with one or more contractors; and (c) execute contracts and supplemental agreements with such bidders or contractors as he deems in the

best interests of the Port Authority and to order extra work (if necessary) and net cost work in connection with each contract, including supplemental agreements thereto; and it is further

RESOLVED, that the form of the contracts and agreements required to effectuate the foregoing shall be subject to the approval of General Counsel or his authorized representative.

**JOHN F. KENNEDY INTERNATIONAL AIRPORT - LEASE AGREEMENT WITH
LEFFERTS OIL TERMINAL, INC. FOR THE OPERATION OF AN OIL
DEPOT**

It was recommended that the Board authorize the Executive Director for and on behalf of the Port Authority to enter into a lease agreement with Lefferts Oil Terminal, Inc. (Lefferts) for a term of approximately seven and one-half years, commencing on or about July 1, 1997, to operate an existing oil depot at Building No. 140 at John F. Kennedy International Airport.

Lefferts will pay an annual fixed rental throughout the term of the Lease and will assume all responsibility for operation and maintenance of the premises. Lefferts will assume full responsibility for environmental contamination above that which is identified in a baseline survey.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Haley, Hellmuth, Janiszewski, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a Lease Agreement with Lefferts Oil Terminal, Inc., substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

(Board - 6/26/97)

**JOHN F. KENNEDY INTERNATIONAL AIRPORT - AIR EXPRESS
INTERNATIONAL CORPORATION - AMENDMENT TO PRIOR
AUTHORIZATION FOR LEASE OF BUILDINGS NO. 88 AND 89**

It was recommended that the Board amend a resolution dated July 11, 1996 in which the Executive Director was authorized to enter into an agreement of lease with Air Express International Corporation (AEI) covering a site of approximately 7.2 acres at John F. Kennedy International Airport, upon which AEI will construct a new air cargo facility consisting of approximately 90,000 square feet.

AEI will continue to be obligated to design, construct, operate, maintain and repair the new air cargo facility, however, the Port Authority will have the option to remove and dispose of all asbestos material at the site or reimburse AEI for the costs associated with the removal and disposal work at an estimated cost of approximately \$400,000.

The lease will now be for a term of approximately eighteen years commencing upon the execution of the agreement and expiring on December 30, 2015, which would be subject to extension up to July 31, 2024 in the event of the extension of the Airport Lease with the City of New York.

AEI shall have the right under certain circumstances to terminate the agreement after December 30, 2015 in which event the Port Authority would be obligated to reimburse AEI for the unamortized portion of its initial investment in the premises to the extent that such initial investment does not exceed \$19 million.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Haley, Hellmuth, Janiszewski, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement of lease with Air Express International Corporation at John F. Kennedy International Airport and such other agreements as may be appropriate in connection therewith, substantially in accordance with the terms and conditions set forth above; the form of the agreements shall be subject to the approval of General Counsel or his authorized representative.

LAGUARDIA AIRPORT - RUNWAY DECK PROTECTION AND PRESERVATION PROJECT - PLANNING AUTHORIZATION

LaGuardia Airport (LGA) utilizes two intersecting runways for arrivals and departures. As part of a major expansion program undertaken by the Port Authority in 1964 and 1965, these two runways were extended outward into Rikers Island Channel and Flushing Bay. The 4-22 extension is 1,800 feet long and the 13-31 extension is 1,000 feet long. Both runways are 150 feet wide. The deck structure used large individual panels separated by expansion joints. Each panel consists of precast, prestressed concrete longitudinal girders spaced each 25 or 30 feet. The total area of the structural deck is two million square feet.

The expected useful life of marine structures is generally accepted to be twenty to thirty years. The thirty year old runway deck is exhibiting normal signs of deterioration. Deck maintenance and rehabilitation has been budgeted and paid through each year's approved Capital Plan on a contract by contract basis. These programs include: the rehabilitation of deck expansion joint plates; rehabilitation and repairs to the concrete decking; repair and modification of pile caps, girders and other structural deck elements; installation and maintenance of protective wrapping and cathodic protection on the support pilings; and the repair of the bulkhead and resupport of the runway deck approach slabs. However, without any additional measures taken, deterioration is anticipated to continue at an accelerating rate, requiring significant expenditures in future years.

The current construction cost estimate to extend the life of the runway deck over the next twenty years, is \$390 million in 1997 dollars. This includes \$42 million in the current five year Capital Plan. The intent of the proposed protection and preservation project would be to reduce the cost of the twenty year projection and to ensure that the integrity of the deck is maintained beyond the twenty year horizon. This project would develop the means to inhibit the deterioration of the deck structure, while maintaining the deck capacity in the future. Replacement of the deck in-kind has been studied and its cost would be prohibitive and would necessitate the closing of the airport.

Planning activities will consist of two phases which are expected to be completed in approximately one year. Phase I is primarily designed to provide the engineers with data of the symptoms and the extent to which the deterioration has progressed. Phase II will be to use the data to match the symptoms to cost-effective protection systems. Phase I will include a static load test on a substantial area of deck, hammer tests on the deck to determine delaminated areas, half-cell tests to determine corrosion potential, and linear polarization tests on girders and pile caps. Phase II will include evaluation, through design development, of alternative systems to inhibit further deterioration such that expected future expenditures will be reduced, in response to the results of the tests conducted in Phase I. A final report will be prepared and, if appropriate, project authorization would then be sought from the Board.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Haley, Hellmuth, Janiszewski, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that funding for the development of a methodology for a project to protect and preserve the runway deck at LaGuardia Airport at an estimated cost of \$2.8 million be and the same is hereby authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to take such actions with respect to the award of contracts and the execution of agreements for professional and technical services related to planning activities for the foregoing project as he deems in the best interest of the Port Authority; the form of the agreements shall be subject to the approval of General Counsel or his authorized representative.

**SETTLEMENT OF CLAIM - AROXY K. PARIGIAN v. THE PORT AUTHORITY OF
NEW YORK AND NEW JERSEY**

It was recommended that the Board authorize General Counsel to settle the pending claim brought by Aroxy K. Parigian by paying to her and her attorney the sum of \$150,000. In return, the Port Authority will receive a General Release and Stipulation of Dismissal of this action with prejudice.

Plaintiff Aroxy K. Parigian brought this action to recover for injuries she sustained as a result of a slip-and-fall accident which occurred on February 12, 1994 at Newark International Airport.

The plaintiff alleged and it was confirmed that the Port Authority was responsible for the maintenance of the area and that the place where she fell was covered with a thin coating of ice that was difficult to detect. The 70-year-old plaintiff received emergency treatment at Elizabeth General Medical Center following the incident and thereafter came under the care of an orthopedic specialist who performed surgery on the plaintiff's knee. Two-thirds of the plaintiff's kneecap was removed. Continuing problems with her leg resulting from this incident led to her falling again and fracturing her right wrist and right ankle.

The plaintiff incurred medical expenses of approximately \$15,000.00 for the treatment of her injuries and she alleges that her resulting disability has dramatically diminished the quality of her life. There was no claim for lost wages or other income.

It was likely that were the matter tried to a conclusion before a jury, the verdict would exceed the amount of the proposed settlement.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Haley, Hellmuth, Janiszewski, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to settle the pending civil action entitled Aroxy K. Parigian v. The Port Authority of New York and New Jersey, by paying \$150,000 to the plaintiffs and their attorney in return for a General Release and Stipulation of Dismissal of this action with prejudice.

**SETTLEMENT OF CLAIM - MICHAEL IMPARATO V. THE PORT AUTHORITY OF
NEW YORK AND NEW JERSEY**

It was recommended that the Board authorize General Counsel to settle the pending claim brought by Michael Imparato by paying to him and his attorney the sum of \$320,000. In return, the Port Authority will receive a General Release and Stipulation of Discontinuance, with prejudice, and plaintiff agrees to hold the Port Authority harmless and indemnify it for a workers' compensation lien of approximately \$79,000.

Plaintiff, a security guard for Security Link, Incorporated, a security company at John F. Kennedy International Airport, brought this action to recover for a herniated disc to his lower back requiring surgery, which resulted from an accident that occurred on September 9, 1991, when a chair, provided by the Port Authority, unexpectedly broke and collapsed. Despite the surgery, plaintiff's condition did not improve.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Haley, Hellmuth, Janiszewski, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to settle the pending civil action entitled Michael Imparato v. The Port Authority of New York and New Jersey, by paying \$320,000 to plaintiff and his attorney in return for a General Release and Stipulation of Discontinuance with prejudice and representation by plaintiff that he agrees to hold the Port Authority harmless and indemnify it for a workers' compensation lien of approximately \$79,000.

SETTLEMENT OF CLAIM - KEVIN NEELY v. THE PORT AUTHORITY OF NEW YORK AND NEW JERSEY

It was recommended that the Board authorize General Counsel to settle the pending claim brought by Kevin Neely by paying to him and his attorney the sum of \$350,000. In return the Port Authority will receive a General Release and Stipulation of Discontinuance with prejudice.

Plaintiff, an employee of Shearson Lehman Company, brought this action to recover for injuries to his back and shoulder allegedly sustained on December 19, 1988, when Mr. Neely tripped and fell on a raised floor tile on the B-4 level of Two World Trade Center. As a result of the fall, he herniated a disc in the lower back and exacerbated a pre-existing disc herniation, which required surgery. Despite the surgery and physical therapy, plaintiff's condition has deteriorated and further surgery will be necessary.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Haley, Hellmuth, Janiszewski, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to settle the pending civil action, entitled Kevin Neely v. The Port Authority of New York and New Jersey by paying the sum of \$350,000 to plaintiff and his attorney, in return for a General Release and Stipulation of Discontinuance with prejudice.

SETTLEMENT OF CONSOLIDATED CLAIMS - MICHAEL WILLIAMS, JUNEANN LEACOCK AND JOYCE LEACOCK v. THE PORT AUTHORITY OF NEW YORK AND NEW JERSEY et al.

It was recommended that the Board authorize General Counsel to settle the pending consolidated claims brought by Michael Williams, Juneann Leacock and Joyce Leacock by paying them and their attorneys the combined amount of \$240,000, inclusive of attorneys' fees, interest costs and disbursements in return for a General Release and Stipulation of Discontinuance with prejudice from each plaintiff.

Plaintiffs were the operator and passengers in a motor vehicle which was struck in the rear by a Port Authority vehicle operated by a Port Authority employee. The use of the Port Authority vehicle was unauthorized and the employee was suspended for two days. Plaintiffs' vehicle was a total loss and the plaintiffs suffered the following injuries: Michael Williams, loss of consciousness, two disc herniations, as well as an additional two bulging discs. He also claimed hearing loss, kidney trauma and the possibility of knee surgery in the future. Juneanne Leacock suffered loss of consciousness, disc herniation, concussion of the brain and severe post concussion syndrome. Joyce Leacock complained of loss of consciousness, concussion, post concussion syndrome and cervical and lumbo-sacral strain and sprain. The settlement will compensate Michael Williams the sum of \$100,000, Juneann Leacock, the sum of \$110,000 and Joyce Leacock, the sum of \$30,000 for the total sum of \$240,000.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Eisenberg, Gargano, Haley, Hellmuth, Janiszewski, Kalikow, Lewis, O'Neill, Philibosian, Schweitzer and Talley voting in favor; none against:

RESOLVED, that General Counsel be and he hereby is authorized, for and on behalf of the Port Authority, to settle the pending combined civil actions brought by Michael Williams, Juneann Leacock and Joyce Leacock by paying the total sum of \$240,000 to plaintiffs and their attorneys in return for a General Release and Stipulation of Discontinuance, with prejudice; the settlement amount to be paid as follows: to Michael Williams, \$100,000; to Juneann Leacock, \$110,000; and to Joyce Leacock, \$30,000.

CONFIDENTIAL ITEMS

These three items shall not be available for public inspection until otherwise agreed to by the parties involved.

- (A) Lump Sum
- (B) Classified Work
- (C) Net Cost - Amount in the "Total Authorized" column represents the estimated net cost amount. However, the amount in the "Total Payment" column is the authorized net cost amount.
- (D) Extra Work
- (E) The difference between the "Total Authorized" and the Total Payment" represents a credit change order in the amount of \$15,701 for deleted work and a credit of \$3,467 for unpaid electricity invoices.
- (F) Memorandum of Authorization dated 06/26/96, authorizing a Supplemental Agreement in the amount of \$100,000.
- (G) The difference between the "Total Authorized" and the "Total Payment" represents a credit change order in the amount of \$75,000 for deleted work.
- (H) Premium for furnishing performance and payment bond as provided for in the Contract.
- (I) Memorandum of Authorization dated 10/10/95, increasing extra work in the amount of \$250,000.
- (J) Memorandum of Authorization dated 02/21/92, increasing extra work in the amount of \$250,000.
- (K) Memorandum of Justification dated 09/03/92, increasing extra work in the amount of \$260,000.
- (L) Memorandum of Justification dated 02/12/93, increasing extra work in the amount of \$400,000.
- (M) Memorandum of Justification dated 05/07/96, increasing classified work in the amount of \$1,000,000.
- (N) Memorandum of Authorization dated 06/06/95, increasing extra work in the amount of \$250,000.
- (O) Memorandum of Justification dated 06/23/95, increasing extra work in the amount of \$340,000.
- (P) Per AP 45-1.01.5, classified work may exceed authorized amount limited to 10% or \$250,000 (whichever is less) without further authorization.

- (Q) Per AP 45-1.01.5, uncommitted funds in extra work are permitted to be utilized against additional costs in classified work not covered under (P).
- (R) The difference between the "Total Authorized" and the "Total Payment" represents credit change orders in the amount of \$74,500 for deleted work.
- (S) The difference between the "Total Authorized" and the "Total Payment" represents backcharges in the amount of \$12,089 for asphalt deficiencies as provided for in the Contract.
- (T) Memorandum of Authorization dated 07/29/96, authorizing a Supplemental Agreement in the amount of \$15,000.
- (U) The difference between the "Total Authorized" and the "Total Payment" represents a credit change order in the amount of \$5,312 for deleted work.
- (V) Memorandum of Authorization dated 06/11/96, increasing extra work in the amount of \$250,000.
- (W) Memorandum of Justification dated 05/08/95, increasing extra work in the amount of \$65,403.
- (X) The difference between the "Total Authorized" and the "Total Payment" represents backcharges in the amount of \$26,347.
- (Y) Board Minutes dated 11/14/91, authorized a payment in the amount of \$936,936 in full settlement of all claims which the contractor had against the Port Authority.
- (Z) Memorandum of Justification dated 02/18/93, increasing extra work in the amount of \$500,000.
- (AA) Memorandum of Justification dated 09/14/93, increasing extra work in the amount of \$475,000.
- (AB) The difference between the "Total Authorized" and the "Total Payment" represents credit change orders in the amount of \$41,273 for deleted work.
- (AC) The difference between the "Total Authorized" and the "Total Payment" represents backcharges in the amount \$28,758.

Whereupon, the meeting was adjourned.

Secretary

MINUTES of the Meeting of The Port Authority of New York and New Jersey held Thursday, July 31, 1997,
at One World Trade Center, City, County and State of New York.

PRESENT:

NEW JERSEY

Hon. Lewis M. Eisenberg, Chairman
 Hon. Kathleen A. Donovan
 Hon. John J. Haley, Jr.
 ✓ Hon. Robert C. Janiszewski
 Hon. Aubrey C. Lewis
 Hon. Alan G. Philibosian

Robert E. Boyle, Executive Director
 Richard J. Lobron, Deputy Executive Director
 Jeffrey S. Green, General Counsel
 Daniel D. Bergstein, Secretary

Karen A. Antion, Chief Technology Officer
 A. Paul Blanco, Chief Administrative Officer
 Bruce D. Bohlen, Treasurer
 Lillian C. Borrone, Director, Port Commerce
 John D. Brill, Director, Audit
 Ernesto L. Butcher, Director, Tunnels, Bridges and Terminals
 Robert E. Catlin, Acting Director, World Trade
 Karen E. Eastman, Assistant Secretary
 Linda C. Handel, Staff Administrator, Office of the Secretary
 Mark O. Hatfield, Jr., Director, Office of Corporate Communications
 Gita Kalra, Attorney, Law
 Patricia Keough, Senior Administrator, Port Commerce
 Louis J. LaCapra, Director, Human Resources
 Francis J. Lombardi, Chief Engineer
 Raymond P. Mannion, Comptroller
 Christopher W. Mansfield, Executive Assistant to the Deputy Executive Director
 Michael G. Massiah, Director, Office of Business and Job Opportunity
 Charles F. McClafferty, Chief Financial Officer
 Fred V. Morrone, Director, Public Safety
 James C. Reinish, Manager, Policy Analysis and Communication, Office of the Secretary
 Michael J. Rienzi, Director, Procurement
 Cruz C. Russell, Director, Office of Corporate Policy and Planning
 Angela F. Wood, Special Assistant to the Executive Director
 Peter B. Yunis, Executive Assistant to the Chairman
 Margaret R. Zoch, Director, Budget

NEW YORK

Hon. Charles A. Gargano, Vice-Chairman
 Hon. James G. Hellmuth
 Hon. Melvin L. Schweitzer

(Board - 7/31/97)

The public meeting was called to order by Chairman Eisenberg at 2:09 p.m. and ended at 2:21 p.m. The Board also met in executive session prior to the public meeting.

Action on Minutes

The Secretary submitted for approval Minutes of the meeting of June 26, 1997. He reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. He reported further that the time for action by the Governors of New York and New Jersey has expired.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Report of Audit Committee

The Audit Committee reported, for information, on matters discussed in executive session at its meeting on July 31, 1997, which included discussion of internal audit matters, and the report was received.

Report of Committee on Capital Programs and Port Planning

The Committee on Capital Programs and Port Planning reported, for information, on matters discussed in public session at its meeting on July 31, 1997, which included a discussion of a Harbor Navigation Feasibility Study and planning authorization for an analysis of comparative Port development and investment options, and an agreement for maintenance and dredging of the New Jersey channels, as well as its meeting in executive session to discuss contract matters and matters which could affect the competitive economic position of the Port Authority, the Port District and businesses with whom we deal, and the report was received.

Report of Committee on Operations

The Committee on Operations reported, for information, on matters discussed in executive session at its meeting on July 31, 1997, which included a discussion of personnel and lease matters, and the report was received.

Report of Committee on Construction

The Committee on Construction reported, for information, on matters discussed in public session at its meeting on July 31, 1997, which included a discussion of construction contracts awarded and authorization of a project for the removal of paint and repainting of the New York and New Jersey viaducts of the Goethals Bridge, as well as its meeting in executive session to discuss contract matters, in addition to matters filed with the Committee pursuant to Board action or separately reported to the Board of Commissioners at this meeting of the Board, and the report was received and is included with these minutes.

(Board - 7/31/97)

Staff Report

A presentation was made by staff on the status of Port dredging.

✓
Chairman Eisenberg congratulated Raymond P. Mannion on being awarded the Robert F. Wagner Distinguished Public Service Medal.

(Board - 7/31/97)

TRIBUTE TO COMMISSIONER MADELON DeVOE TALLEY

It is with profound sadness that we mark the passing of our cherished colleague, Madelon DeVoe Talley, on July 18, 1997.

WHEREAS, Madelon DeVoe Talley, an accomplished author and financier, was appointed to the Board of Commissioners as the first woman from New York State by Governor George E. Pataki in December 1995 and, as Commissioner, was a member of the Committees on Operations and Finance and, as a supporter of the arts in industry, served as a member of the *ad hoc* Committee on Art; and

WHEREAS, during her long and successful career in the world of finance, Commissioner Talley was a champion of the entrepreneurial endeavors of women and small businesses, a pioneer in the world of finance who brought to her many ventures a unique and refreshing perspective; and

WHEREAS, during her tenure on our Board, Commissioner Talley never lost sight of the impact her actions had on the agency's staff and on the people and environment of the region.

NOW, THEREFORE, BE IT

RESOLVED, that the Commissioners and the staff of The Port Authority of New York and New Jersey extend their most heartfelt sympathy to the family of Madelon DeVoe Talley and do hereby express their appreciation for her dedicated service to the agency and the region it serves; and be it further

RESOLVED, that her colleagues on the Board of Commissioners hereby direct that this resolution be suitably engraved and presented to the Talley family as a symbol of the high esteem in which Commissioner Madelon DeVoe Talley was held by her colleagues on the Board and by the staff of The Port Authority of New York and New Jersey.

(Board - 7/31/97)

**GOETHALS BRIDGE - NEW YORK & NEW JERSEY VIADUCTS - REMOVAL OF
PAINT AND REPAINTING - PROJECT AUTHORIZATION & AWARD OF
CONTRACT AKG-274.022 AND AGREEMENT 410-98-001C**

The Goethals Bridge was originally opened for vehicular traffic in June 1928. The two approaches to the Goethals Bridge (the "Bridge") are known as the New Jersey Viaduct and the New York Viaduct. A standard alkyd paint system, which included an aluminum topcoat over a primer containing lead, was the primary painting system which has been applied to the Bridge since its original construction.

In 1995 the Port Authority hired a paint coating consultant to perform a paint coating evaluation of the Bridge. The consultant was hired to evaluate the coatings due to an increasing number of areas of paint failure (peeling and disbonding down to the primer or base metal) caused by the large number of coats of paint applied over the 69 year life of the Bridge. This consultant recommended a complete replacement of the paint system rather than continued ineffective spot painting or overcoating of the entire steel surface.

The painting on the underside of the New York & New Jersey Viaducts is currently considered the most deteriorated of all Port Authority painted bridge surfaces, with the exception of the main span of the Outerbridge Crossing, the underside of the Upper Level of the George Washington Bridge ("GWB"), and the lower half of the GWB New York tower, for which contract work is underway to remedy the problems. All four projects are identified in a twenty-year Master Plan for painting removal and re-coating of all bridge structures.

Contract AKG-274.022 will provide for the removal of lead-based paint by abrasive means from 950,000 square feet of steel at the New York and New Jersey Viaducts and recoating the bare steel surfaces with a three-coat zinc, epoxy and urethane paint system having an expected life of 25 years.

Agreement 410-98-001C will provide for professional engineering services in connection with bridge painting inspection. Internal staff resources are not available to perform this work. The consultant performing such services will be chosen from a list developed after a publicly advertised Request For Proposals.

Abrasive blasting will be accomplished within containment systems consisting of enclosures with ventilation and dust collection equipment to both protect the health of workers and prevent emissions into the environment. Air monitoring stations will be situated near the work site to verify the effectiveness of the containment system and trained inspectors will be utilized to ensure conformance to the strict containment specifications. All waste will be collected, tested, stored and removed in accordance with environmental regulations. OSHA lead standards will be followed, including respiratory and other protection, for workers performing paint removal.

(Board - 7/31/97)

Pursuant to the foregoing report presented by staff, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Hellmuth, Janiszewski, Lewis, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that a project for the implementation of the Goethals Bridge New York & New Jersey Viaducts Removal of Paint and Repainting, at a total estimated project cost of \$21.5 million, including payments to contractors, allowances for extra work (if necessary), engineering, administrative and financial expenses, and project contingency (if necessary), be and the same hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to award Contract AKG-274.022 at an estimated cost of \$13.0 million for the removal of paint and repainting of the New York & New Jersey Viaducts at the Goethals Bridge to the lowest bidder qualified by reason of responsibility, experience and capacity and whose bid price the Executive Director deems reasonable; and to order extra work up to 6 percent of the amount of the bid accepted (if necessary) and to order net cost work; or to reject all bids, solicit bids on revised or the same requirements, or negotiate with one or more bidders or other contractors as he deems in the best interest of the Port Authority; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into agreement 410-98-001C at an estimated cost of \$1.0 million to provide professional engineering services in connection with bridge painting inspection at the Goethals Bridge to the consultant firm which in the Chief Engineer's opinion is most qualified to perform such services, chosen from a list developed after a publicly advertised Request for Proposals, and based on the best proposal in terms of scoping, staffing, ability to meet the schedule, experience specifically related to the project, manpower analysis, technical approach and price; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to take action with respect to purchase and other construction contracts and other agreements for professional and advisory services for the foregoing project as he deems in the best interest of the Port Authority, including without limitation, award to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable, rejection of all bids, solicitation of new bids on revised or the same requirements, or negotiation with one or more bidders or other contractors; and to execute contracts and Supplemental Agreements with such bidders or contractors as he deems in the best interest of the Port Authority and to order extra work (if necessary)

and net cost work in connection with each contract, including supplemental agreements thereto; and to obtain permits and licenses and to enter into other such agreements with municipal and other entities as may be appropriate and required to effectuate the project; and it is further

RESOLVED, that the form of the foregoing contracts and agreements shall be subject to the approval of General Counsel or his authorized representative.

(Board - 7/31/97)

**NEWARK INTERNATIONAL AIRPORT - ACQUISITION OF NEW JERSEY
TURNPIKE AUTHORITY PARCEL AT THE 13A INTERCHANGE,
ELIZABETH, NEW JERSEY**

It was reported that the New Jersey Turnpike Authority ("NJTA") has made available for purchase approximately 12 acres of unimproved land lying generally between the NJTA Interchange 13A toll plaza and North Avenue in Elizabeth, New Jersey, the site being immediately south of Newark International Airport ("EWR"). It has been determined that the location would be ideal for certain airport purposes, including vehicular parking, being convenient to EWR, readily accessible to the New Jersey Turnpike and U.S. Routes 1 and 9 and necessary particularly in light of the planned extension of EWR's Runway 4L-22R and other aeronautical improvements which will require displacement of parking spaces from the airport, and that the continued growth of EWR would be negatively impacted if the parcel is not acquired by the Port Authority.

The purchase agreement with NJTA and deed of conveyance and other appropriate implementing documents would provide for appropriate environmental protections and indemnifications for the benefit of the Port Authority and also for a perpetual assumption by NJTA of sole responsibility for the structural maintenance, including repair and replacement when necessary, of a new road contemplated to be built on and over the parcel as mentioned below.

It was also reported that the parcel's ultimate number of acres actually usable for the purpose(s) envisioned by the Port Authority may be adversely affected because a road (the "new road") contemplated to be built over the New Jersey Turnpike to Turnpike Interchange 13A (described and provided for in a proposed "MetroMall Road Improvement Agreement" (the "Road Agreement") which is the subject of another action being considered by the Board today, is expected to traverse the parcel. The extent of the impact will depend significantly upon a number of factors including its alignment and design. The Road Agreement does not address the impact of the new road on the number of usable acres of the parcel the Port Authority would like to purchase. As a result, it may be necessary for the Port Authority to attempt to obtain an agreement with various affected parties to the Road Agreement, including the developer of the contemplated Mall project who is to construct the new road, in order to effect a change in the new road's alignment and/or design to maximize the acreage available for use. Among the issues that may arise in such a negotiation is the subject of Port Authority funding of any net incremental, direct costs of the developer for the redesign and construction of the new road as so redesigned at the specific and sole request of the Port Authority in order to yield additional acreage for the Port Authority's use.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Janiszewski, Lewis, Philibosian and Schweitzer voting in favor; Commissioner Haley abstaining; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority: (1) to enter into an agreement with the New Jersey Turnpike Authority ("NJTA") for the purchase of between approximately 8 to 12 acres of usable land lying within

(Board - 7/31/97)

an area located between the NJTA Interchange 13A toll plaza and North Avenue in Elizabeth, New Jersey, on such terms, which, in his discretion, he deems appropriate and are consistent with the foregoing report, and to effectuate the purchase of such parcel in accordance therewith; and (2) in his discretion, to attempt to obtain and enter into an agreement by and among OENJ Corporation, Elizabeth MetroMall LLC (Elizabeth MetroMall), N.J. MetroMall Urban Renewal, Inc., NJTA, the City of Elizabeth, the State of New Jersey Department of Transportation and the Port Authority to allow for, at the option of the Port Authority, a redesign and/or alignment of the new road toward maximization of the use of the land the Port Authority seeks to buy as authorized in clause (1) above, which agreement may include, in his discretion, provision for payment by the Port Authority to Elizabeth MetroMall of an amount not to exceed the net incremental, direct cost to Elizabeth MetroMall, the contemplated builder of the new road and New Jersey MetroMall developer, of such redesign as hereafter may be specifically requested solely by the Port Authority and of the new road's construction in accordance with such redesign (vis-a-vis the superseded design); and it is further

RESOLVED, that all documents required to effectuate the aforesaid shall be subject to approval as to form by General Counsel or his authorized representative.

(Board - 7/31/97)

**ALL AIRPORTS - AIRCRAFT NOISE ABATEMENT PROJECT - SCHOOL
SOUNDPROOFING PROGRAM AT FIVE SCHOOLS - 1997**

The Port Authority's School Soundproofing Program has been in existence since 1983 when the Federal Aviation Administration ("FAA") began its program. The 1997 initiative would bring the total number of individual schools in the Port Authority's program to 57 (36 in New York and 21 in New Jersey). The total estimated project cost, including the amount requested in this authorization, is \$96 million, of which an estimated \$76 million is the federal share provided through Airport Improvement Program ("AIP") grants and an estimated \$20 million is the Port Authority share. Based on FAA guidelines, the eligibility for school soundproofing under AIP is limited to schools located within the 65Ldn contour of the most current noise exposure map. Soundproofing has been completed at 28 schools.

This authorization will provide funds for soundproofing at the following schools: P.S. 124 - Phase I (Queens, NY) estimated at \$1.4 million; Hebrew Academy of Five Towns and Rockaway - Phase I (Cedarhurst, NY) estimated at \$1.4 million; Msgr. McClancy Memorial High School - Phase I (Queens, NY) estimated at \$2.8 million; East Side High School - Phase IV (Newark, NJ) estimated at \$1.0 million; and Harrison High school - Phase II (Harrison, NJ) estimated at \$1.0 million. Work at the larger schools is broken into phases because of their size and yearly funding limitations.

The agreements with the responsible school entities will stipulate that the project is premised upon the expectation that both federal grant funds and Port Authority appropriated funds will be available. In the event the Port Authority fails to obtain sufficient funds to complete all of the proposed soundproofing, it may terminate the agreement entirely before construction starts or agree to complete only a Port Authority-defined portion of work for which Port Authority and federal funds are made available.

Although the Port Authority provides the funds to soundproof a school, the responsible school entity assumes all liabilities, retains the consultant and contractor, and assumes responsibility for the supervision of construction. Approximately 80 percent of the costs are recovered through federal grants under the AIP and the remaining 20 percent is recoverable through the Flight Fee Formula. Since the work to be performed is eligible for AIP grant money and is subject to U.S. Department of Transportation regulations, the consultants and contractors retained must make a good faith effort to meet a 17 percent goal for participation by Disadvantaged Business Enterprises.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Hellmuth, Janiszewski, Lewis, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the 1997 School Soundproofing Program, consisting of five schools located in the proximity of the Port Authority airports, at a total estimated cost of \$7.6 million, of which an estimated \$6.08 million will be provided by Federal Aviation Administration funding

(Board - 7/31/97)

and \$1.52 million by the Port Authority, be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into agreements with the responsible school entities to provide funds to reduce the impact of aircraft noise levels within those schools, the form of the agreements required to effectuate the above shall be subject to the approval of General Counsel or his authorized representative.

(Board - 7/31/97)

**SUPPLEMENTAL LOCAL COOPERATION AGREEMENT BETWEEN THE PORT
AUTHORITY AND THE UNITED STATES ARMY CORPS OF ENGINEERS
FOR MAINTENANCE DREDGING OF THE KILL VAN KULL, NEWARK BAY
AND ELIZABETH CHANNELS**

A recent condition survey performed by the United States Army Corps of Engineers ("the Corps") indicates that approximately 390,000 cubic yards of sediment requires maintenance dredging from the Port Elizabeth Reaches of the Federal channels to restore Federally authorized 40-foot depths. The sediment to be dredged is Category II, which is acceptable for ocean disposal, with capping.

In the short-term, this maintenance work is necessary to ensure safe navigation of vessels transiting the region. In the long-term, this work lays the foundation to enable final design and construction of a 45-foot deep Federal Channel in the Kill Van Kull and Newark Bay to allow modern deep draft containerships access to Port Newark and the Elizabeth-Port Authority Marine Terminal. Approximately 90,000 containers were diverted to ports with greater depths such as Halifax, Baltimore and Virginia in 1996. It is estimated that over approximately 125,000 containers will be diverted elsewhere in 1997 due to inadequate channel depths.

The original Kill Van Kull, Newark Bay and Elizabeth Channels Project Agreement, executed by the Port Authority and the Corps in 1987, does not contain an expiration date. The Agreement anticipated that ocean disposal of dredged material would be available but if disposal sites were required, that the Port Authority would provide the alternate disposal areas. Under the proposed supplemental agreement to the original Project Agreement, the dredged sediment will be upland disposed at a permitted upland disposal site within the region due to a lack of capacity and the September 1, 1997 closing of the Mud Dump Site.

On May 28, 1997, the Corps issued a Public Notice (which expired June 27, 1997) for upland disposal for the project as well as an advertisement to contractors to solicit proposals. Bids were received on July 3, 1997, and it is estimated that a contract will be awarded by August 1997. The Corps is responsible for dredging Federal channels and is responsible for cost-sharing the project with the non-Federal sponsor. At the current estimated ocean disposal with capping rate (\$26 per cubic for 390,000 cubic yards) the Federal share of the work totals an estimated \$10.14 million. When the Corps' cost of an estimated \$10.1 million is subtracted from the total project cost of an estimated \$22.8 million, a balance of \$12.7 million remains as the total local sponsor share. All costs outlined above are preliminary estimates and do not contain allowances for unexpected contingencies, such as volume variations due to additional shoaling, debris removal and/or insurance.

Although the estimated cost for this project totals \$22.8 million, the Corps' fiscal year 1997 funds available to perform this project totaled \$300,000. A Federal supplemental appropriations request was made by the Chair of the House Appropriations Committee in the amount of \$22.1 million, which includes this project. The bill moved successfully through both Houses and was signed by the President on June 12, 1997.

(Board - 7/31/97)

Appropriation of the Federal funds to the Corps is pending resolution of cost sharing responsibilities.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Hellmuth, Janiszewski, Lewis, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to 1) enter into a supplemental Project Cooperation Agreement with the United States Army Corps of Engineers for performance of maintenance dredging to restore Federally authorized depths at the Kill Van Kull, Newark Bay and Elizabeth Channels; and 2) provide funding for the approximately \$12.7 million cost differential between upland disposal of resulting dredged sediment and the cost attributable to ocean disposal, with capping; and it was further

RESOLVED, that the form of the supplemental Project Cooperation Agreement shall be subject to the approval of General Counsel or his authorized representative.

(Board - 7/31/97)

NEW YORK - NEW JERSEY HARBOR NAVIGATION FEASIBILITY STUDY - COST-SHARING AGREEMENT WITH THE DEPARTMENT OF ARMY

The Federal Water Resource Development Act of 1996, Section 435, authorized the United States Army Corps of Engineers ("the Corps") to conduct, "a comprehensive study of navigation needs at the Port of New York and New Jersey (including the South Brooklyn Marine Terminal and Red Hook Container Terminal, Staten Island, and adjacent areas) to address improvements, including deepening of existing channels to depths of 50 feet or greater that are required to provide economically efficient and environmentally sound navigation to meet current and future requirements".

Congress authorized the Corps to spend \$100,000 in fiscal year 1997 to conduct the initial "reconnaissance" phase of the study and \$100,000 to initiate the feasibility phase.

The recently completed initial "reconnaissance" phase concluded that there is a Federal interest in conducting the Feasibility Study of navigation improvements for the Port of New York and New Jersey. The term of the Feasibility Study will be from August 1997 to approximately December 1999, with interim findings and recommendations to be presented as available. In addition to examining navigation improvements, the Feasibility Study will also examine environmental impacts and opportunities for ecosystem restoration, if mitigation is needed, and accompanying landside infrastructure development requirements.

To keep the Port competitive and attain Hub-Port status, it will be necessary to accommodate the new generation of containerships (post-Panamax II vessels) that are being built. These ships are capable of carrying 6,000 to 8,000 twenty-foot equivalent units (TEUs) and have drafts in excess of 45-feet. Additionally, because these vessels create economies of scale for ship owners due to savings on fuel costs (20 percent), port and canal dues (15 percent) and insurance (10 percent), only those ports capable of ensuring safe navigational entry will be able to capture the increased trade activity, associated with these new vessels forecasted to expand approximately 3 percent per year for the foreseeable future.

The Feasibility Study is critical to the Port's future because if channel depths are not increased to enable access of the post-Panamax II class vessels, the Port of New York and New Jersey could become a regional Feeder-Port instead of a Hub-Port vis-a-vis Baltimore, Norfolk and Halifax on the Atlantic coast. This, in turn, could result in reduced economic benefits to the region (i.e., jobs, sales, tax revenues, etc.) and result in higher costs for consumers in the region to purchase goods.

The Port of New York and New Jersey is the largest on the east coast, providing more than 166,500 Port-related jobs, \$20 billion in economic activity and serving more than 17 million consumers in the States of New York and New Jersey. Through its intermodal links, the Port provides second-day access to another 80 million consumers in the northeast and mid-west.

In 1996, the Port received and shipped more than 116.7 million metric tons of water-borne general cargo to all parts of the United States and throughout the world, and

(Board - 7/31/97)

received petroleum and related products from ports on the Atlantic and Gulf Coasts, the Caribbean, Africa and the Persian Gulf (71.1 million metric tons came from domestic ports and 45.6 million metric tons came from foreign ports). These volumes are expected to continue to increase 3 to 4 percent per year if channel depths are deepened to facilitate access of post-Panamax vessels being built and deployed to conduct international trade. The economies of deploying these vessels result in regional and national economic benefits.

The cost for the Feasibility Study is expected to be approximately \$18 million, of which the local sponsors -- the States of New York and New Jersey and the Port Authority -- are required to pay 50 percent. The 50 percent local share will be split equally among the three local sponsors. The States' shares are expected to be paid by the Port Authority and credited against the \$130 million the Port Authority allocated in May 1996 for dredging projects. Up to 25 percent of the local sponsors' share may be paid by providing qualifying "in-kind" services, as determined to be acceptable by the Corps.

Furthermore, a preliminary Project Study Plan, detailing the specific scope of work and costs for each task in the Feasibility Study, has been prepared. The Project Study Plan was developed by representatives from the Corps, the States of New York and New Jersey and the Port Authority to ensure that the Feasibility Study results would provide the information necessary to accomplish its goals as stated in the Project Study Plan.

A large portion of the Public Involvement Campaign associated with the Feasibility Study is expected to be handled by the local sponsors, with credit given for "in-kind" services. The detailed engineering designs necessary for channel deepening construction would be performed primarily by the Corps.

Accordingly, a cost-sharing agreement is being negotiated. The standard form of cost-sharing agreement with the Department of the Army, represented by the Corps' District Engineer, contemplates that excess study costs may arise beyond initial estimates. In the event that the Government and the sponsors are unable to agree on funding these excess costs, the cost-sharing agreement will be suspended for a period not to exceed six months. If upon the expiration of such period, the parties have not agreed to proceed, the cost-sharing agreement is subject to termination. In the event the local share of excess study costs exceeds by more than 10 percent the estimated \$9 million local share, further Board authorization may be sought to fund the local share of such excess costs.

Entry into the Feasibility Study does not obligate any party to implement a 50-foot deepening project. However, the Feasibility Study must be completed before the Federal Government can commit resources and funding for the deepening of any Federal channels in the Port of New York and New Jersey.

The outcome of the Feasibility Study is expected to provide the overall framework for future Port related development and investment within the region. The study will also determine the costs and benefits of deepening any or all of the thirteen channels throughout the New York-New Jersey Harbor and determine whether the benefits of deepening these channels -- Ambrose, Anchorage, Bay Ridge, Buttermilk, Claremont, Hudson River,

(Board - 7/31/97)

New York and New Jersey Channels; the Newark Bay, Port Jersey, Raritan Bay, Red Hook and Sandy Hook Channels -- would exceed the associated costs and justify the federal subsidy for construction.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Hellmuth, Janiszewski, Lewis, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority: (a) to enter into an agreement or agreements, among other matters, to allocate costs along with the Department of the Army and the States of New York and New Jersey, for the conduct of a Feasibility Study to assess the Federal interest in participating in navigation improvements, including but not limited to the deepening of Federal Channels within the Port of New York and New Jersey (the NY-NJ Harbor Navigation Feasibility Study), estimated to cost \$18 million, the local share, i.e., 50 percent, or \$9 million, to be split equally among the Port Authority, New Jersey and New York State; and (b) in order to fund the local share of the NY-NJ Harbor Navigation Feasibility Study pay the Port Authority's estimated local share of \$3 million and additionally pay New York State's and New Jersey's estimated local share of \$6 million and credit such payments of New York State and New Jersey's local shares, as the payments are made in the future, against the up to \$130 million for dredging projects which the Board allocated in May 1996; and it is further

RESOLVED, that the form of all agreements necessary to effectuate the NY-NJ Harbor Navigation Feasibility Study shall be subject to approval by General Counsel or his authorized representative.

(Board - 7/31/97)

PLANNING AUTHORIZATION FOR AN ANALYSIS OF COMPARATIVE PORT DEVELOPMENT AND INVESTMENT OPTIONS FOR THE PORT OF NEW YORK AND NEW JERSEY

A Port Authority analysis of comparative Port development and investment options is needed to enable the Board to determine what capital investment decisions should be made to provide for the Port of New York and New Jersey's ("the Port") long-term future. It is also needed to facilitate the development of a regional consensus on port development issues. The Port Authority's regional Port development and investment analysis plan will be considered together with the United States Army Corps of Engineers ("the Corps") Navigation Feasibility Study in developing a Regional Master Plan for Port Development and Investment. The findings of the Corps' NY-NJ Harbor Navigation Feasibility Study ("Feasibility Study") will be the predicate for the Federal government's commitment to the Regional Master Plan. The Port Authority and the States of New York and New Jersey are the local sponsors of this Corps project. As such, they are responsible, among other things, for the planning and implementation of proposed development and investment of Port projects, including landside infrastructure, to be undertaken in conjunction with the Corps' work.

The Corps' Feasibility Study will make recommendations as to channel deepening and other maritime related infrastructure improvements. The Port Authority's comparative development and investment analysis will:

- 1) verify forecasts of likely cargo volumes, upland origin and destination, vessel size(s) and calling patterns for 40, 45 and 50 foot channel depths; and determine the terminal, landside and transportation infrastructure (based on truck and rail modal split) required to handle projected volumes with 45 and 50 foot channels;
- 2) conduct an in-depth comparative analysis of the costs, benefits, risks and potential returns for various Port Authority development and investment alternatives and channel deepenings as compared with current conditions;
- 3) develop a comparative analysis that maximizes the rate of return on port investment and seeks to enhance regional maritime activities by providing cost-efficient services, portside and landside capacity expansion and increased cargo volume (consistent with hub-port status);
- 4) identify and investigate the opportunities and costs associated with incorporating public access areas at the Port's waterfront facilities; and
- 5) provide a mechanism for assuring public input/outreach.

Consultant(s) will be selected through a Request for Qualification/Request for Proposal process, and possibly supplemented by selections from the Port Authority's list of call-in consultants to provide policy and planning advisory services to supplement the work of

(Board - 7/31/97)

the Port staff. Approximately \$1.2 million will be budgeted for this study in 1998, and compensation for each firm will not be subject to normal authorization limits.

It has long been recognized that greater channel depth to enable access of deeper draft vessels is necessary, but not in itself sufficient, to attract and accommodate projected cargo increases. Several major carriers using the Port that have recently merged or formed alliances are beginning to consider where they will concentrate their future operations/investments. The development of a comparative development and investment options analysis is essential to the Port Authority's ability to undertake rational planning that can lead to the consensus required for implementation of a Regional Master Plan for Port Development and Investment that will provide for future growth, cost efficiency and regional economic benefit. Failure to fully articulate the Port's future plans and develop a necessary consensus to assure their implementation could result in the Port becoming a regional feeder-port instead of a hub-port. A comparative analysis of development and investment options will further the region's intent to keep the Port of New York and New Jersey a the premier point of entry on the Atlantic coast. In recognition of the States' goals to provide greater public use of waterfront the analysis will also describe opportunities for public port access areas which can be incorporated into (re)development initiatives.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Hellmuth, Janiszewski, Lewis, Philibosjan and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to conduct a comparative analysis of development and investment options for regional policymakers and the public which will be designed to assess and describe the cost benefit implications of alternative Port development proposals, enter into the necessary contracts and/or agreements totaling approximately \$1.2 million with consultant(s) who will assist Port staff by providing policy and planning advisory services as selected from a Request for Qualification/Request for Proposal process and/or from the Port Authority's list of call-in consultants; and it is further

RESOLVED, that the form of the contracts and agreements shall be subject to the approval of General Counsel or his authorized representative.

(Board - 7/31/97)

**ELIZABETH-PORT AUTHORITY MARINE TERMINAL - PLANNING
AUTHORIZATION FOR HANJIN SHIPPING COMPANY, LTD. AND MAHER
TERMINALS, INC. TERMINAL DEVELOPMENT**

As a result of forecasted increases in container throughput, staff has undertaken extensive planning on how to improve the efficiency and productivity of the existing container terminal space in Elizabeth and Port Newark to accommodate some of this growth. At the same time, Hanjin, a Korean shipping line currently served by several operators in the port, approached the Port Authority and expressed an interest in having a stand alone terminal to service its own vessels as well as those of others.

As a result of this request and the Maher Terminal Corporation's desire to consolidate the two Maher terminal operations in Elizabeth, conceptual plans have been developed for the creation of a new terminal in Elizabeth for Hanjin by relocating that part of Maher's Fleet Street leasehold, presently occupying the space, into an area in the Bay Avenue Terminal. In connection with any surrender of the Fleet Street space, Maher would like a renegotiation of the lease it has on the Fleet Street Terminal and an extension of that lease and its Tripoli Street Terminal lease. It is anticipated that the renegotiated leases will provide for a substantial increase in rates, as well as a complete rehabilitation of both terminals.

Port Authority planning activities would include Stage I and II design for the new container terminal, berth improvements, replacement space for Maher in the Bay Avenue Terminal, demolition of sheds, relocation of railroad track and railroad grade separation at Bay Avenue and McLester Street and design of new cranes required by Hanjin.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Hellmuth, Janiszewski, Lewis, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that an estimated \$3.0 million for the planning and design efforts necessary for the development of a new container terminal at the Elizabeth-Port Authority Marine Terminal, and the reconfiguration of certain neighboring terminals that is necessary for the creation of the new terminal, be and it hereby is authorized; and it is further

RESOLVED, that the Executive Director, be and he hereby is authorized, for and on behalf of the Port Authority, to take such actions with respect to agreements for professional and technical services related to planning and design activities for the foregoing project and the award of necessary contracts to commence engineering field work such as geotechnical and environmental testing as he deems in the best interest of the Port Authority; the form of such contracts and agreements shall be subject to the approval of General Counsel or his authorized representative.

(Board - 7/31/97)

PORT AUTHORITY BUS TERMINAL - METROGOLF NEW YORK L.L.C. - LEASE AGREEMENT

It was recommended that the Board authorize the Executive Director to enter into a lease agreement (the Lease) with MetroGolf New York L.L.C. (MetroGolf) covering the construction and operation of a golf driving range including a pro shop, restaurant, sports bar, and locker room facilities on the roof level and a portion of the sixth floor of the South Wing of the Port Authority Bus Terminal substantially in accordance with the terms and conditions outlined below.

The corporation which controls the corporate general partner of MetroGolf is a publicly traded company which acquires, develops, and operates golf centers in major metropolitan areas across the United States. The company currently owns or operates eight facilities.

The Lease would be for a term commencing on or about August 19, 1997 and expiring on the day preceding the twentieth anniversary of the date payment of rental commences under the Lease. MetroGolf will pay a graduated basic rental for the premises aggregating approximately \$7 million over the term of the Lease, plus a percentage rental as provided in the Lease. Payment of rental under the Lease will commence two years from the commencement date of the term of the letting under the Lease or upon the commencement of business operations in the premises, whichever occurs first, with MetroGolf to have the right to defer payment of up to six months rental under certain circumstances. The deferred rental will be repaid over a twelve month period immediately following the expiration of the six month deferral period, with interest. MetroGolf will install all improvements, fixtures and equipment required for its operations in the premises at its sole cost and expense. The term of the letting will be subject to termination by the Port Authority, at any time, without cause, on ninety days' notice, in which event MetroGolf would be reimbursed for the unamortized portion of its initial capital investment in the premises to the extent that such initial capital investment does not exceed \$7 million. The Port Authority will invest approximately \$775,000 to bring utilities to the leasehold area, and will also contribute an amount not to exceed \$30,000 for pre-opening promotional activities.

The proposed roof top driving range may be inconsistent with New York City zoning resolutions currently in effect but, it is expected that the facility will contribute to the revitalization of 42nd Street and the Times Square area. Briefings on the proposed facility were held with the local Community Board and with staff of the 42nd Street Development Project, the Times Square Business Improvement District, and the Fashion Center Business Improvement District. Reaction to the proposed facility was favorable, and it is recommended that the Board authorize the construction of the facility notwithstanding that its contemplated use may be inconsistent with New York City zoning resolutions currently in effect.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Hellmuth, Janiszewski, Lewis, Philibosian and Schweitzer voting in favor; none against:

(Board - 7/31/97)

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with MetroGolf New York L.L.C. at the Port Authority Bus Terminal, substantially in accordance with the terms and conditions outlined above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative; and it is further

RESOLVED, that the use of the Port Authority Bus Terminal for the purpose described in the lease agreement with MetroGolf New York L.L.C. be authorized notwithstanding that such use may be inconsistent with New York City zoning resolutions currently in effect.

(Board - 7/31/97)

PORT AUTHORITY BUS TERMINAL - FIVE BROTHERS AND SISTER FARMER'S MARKET, INC. - NEW LEASE AGREEMENT

It was recommended that the Board authorize the Executive Director to enter into a lease agreement (the "Lease") with Five Brothers and Sister Farmer's Market, Inc. (the "Amish Market") covering the construction and operation of a fruit, vegetable, and gourmet food market in approximately 1,200 square feet of space on the Second Floor of the South Wing of the Port Authority Bus Terminal, and to enter into a brokerage agreement with The Alfred Group, Inc., the broker involved in the letting, each agreement to be substantially in accordance with the terms and conditions outlined below. It was further recommended that the Board authorize the Executive Director to amend the Lease, if required, in accordance with the terms and conditions outlined below.

The Amish Market has served the Manhattan community for over five years, has developed an excellent reputation, and has received favorable reviews in the community and citywide newspapers.

The Lease would be for a term commencing on or about September 1, 1997 and expiring on the day preceding the fifteenth anniversary of the date payment of rental commences under the Lease. The Amish Market will pay a graduated basic rental for the premises. The Amish Market will install all improvements, fixtures and equipment required for its operations in the premises at its sole cost and expense. The term of the letting will be subject to termination by the Port Authority, at any time, without cause, on thirty days' notice, in which event the Amish Market would be reimbursed for the unamortized portion of its initial capital investment in the premises to the extent that such initial capital investment does not exceed \$300,000. The Lease provides that the space will be taken "as is", and does not provide for the performance by the Port Authority of any space preparation work. If it is determined that the performance of base building work such as fireproofing or other work required to place the premises in conformance with the substantive provisions of the New York City Building Code is required, the Lease will be amended to provide for the performance of such work by the Port Authority at an approximate cost of \$40,000.

The Port Authority will pay a brokerage commission to The Alfred Group, Inc. in connection with the letting.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Hellmuth, Janiszewski, Lewis, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be, and he hereby is, authorized, for and on behalf of the Port Authority, (i) to enter into a lease agreement with Five Brothers and Sister Farmer's Market, Inc. at the Port Authority Bus Terminal, and a brokerage agreement with The Alfred Group, Inc. substantially in accordance with the terms and conditions outlined above; and (ii) to amend the lease agreement with Five Brothers and Sister Farmer's Market, Inc. if required as outlined above; the form of

(Board - 7/31/97)

)
the agreement in each instance shall be subject to the approval of General
Counsel or his authorized representative.

**METROMALL ROAD IMPROVEMENT AGREEMENT - AUTHORIZATION TO
ENTER INTO MULTI-PARTY AGREEMENT WITH GOVERNMENT
ENTITIES AND PRIVATE PARTIES**

It was reported that greatly increased traffic demand forecasted in connection with imminent and proposed development projects east of the New Jersey Turnpike in the vicinity of Port Elizabeth, Elizabeth, New Jersey would, in the absence of certain roadway improvements, result in serious traffic congestion on local roads and threaten critically important access to the Elizabeth/Port Newark Marine Terminal and Newark International Airport.

It was also reported that an opportunity exists to ameliorate such conditions, relieve pressure on the present local roadway network and so protect access to these Port Authority facilities by the Port Authority entering into, together with other interested governmental bodies and agencies, an agreement with certain private parties, including the owner and developer of an approximately 145-acre site on Newark Bay adjacent to the Elizabeth-Port Authority Marine Terminal contemplated for immediate commercial development, including retail, entertainment and ancillary uses, promoted as "New Jersey MetroMall" and "MetroCenter". Such agreement as proposed would be a means of assuring certain limits and requirements with respect to that project including provision for the construction by the developer of a new road bridging the New Jersey Turnpike and linking the development site with Turnpike Interchange 13A and other roads as well as improvements to Kapkowski Road east of the Turnpike.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Janiszewski, Lewis, Philibosian and Schweitzer voting in favor; Commissioner Haley abstaining; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a Road Improvement Agreement with the New Jersey Turnpike Authority, the New Jersey Department of Transportation, the City of Elizabeth, the County of Union, OENJ Corporation, Elizabeth MetroMall LLC and N.J. MetroMall Urban Renewal, Inc., on terms consistent with the objectives expressed in the foregoing report and to do all other things necessary or appropriate to implement the foregoing; and it is further

RESOLVED, that all documents required to effectuate the aforesaid shall be subject to the approval as to form by General Counsel or his authorized representative.

QUEENS WEST WATERFRONT DEVELOPMENT - QUEENS WEST DEVELOPMENT CORPORATION - APPROVAL FOR SPACE PERMIT FOR THE FRIENDS OF QUEEN CATHERINE, INC. AND THE POTENTIAL USE OF PORT AUTHORITY FUNDS

It was recommended that the Board authorize the Executive Director to enter into a space permit with the Friends of Queen Catherine, Inc. ("FOQC") covering the use and occupancy without fee of an area of approximately 2,800 rentable square feet of Port Authority property at the East River Wharf portion of the Queens West Waterfront Development site for a period of approximately ten years and an agreement with the Queens West Development Corporation ("QWDC") stipulating that any annual costs for operations, maintenance, insurance, security and other related responsibilities, estimated at \$5,000 - \$10,000, incurred by the Port Authority in the event FOQC fails to perform its obligations under the permit will be chargeable against the Port Authority's existing \$125 million commitment to the Queens West Waterfront Development Project.

The space permit shall be irrevocable unless: 1) the space is withdrawn from the Queens West Development Project; 2) the space is sold to QWDC; 3) FOQC fails to build a statue of Catherine of Braganza on the space; or 4) FOQC fails to deposit the security required by the permit. The terms of the space permit require FOQC or its designated successor to provide the funds for operations, maintenance, insurance, security and other related costs of the statue. Port Authority funds would not be required unless FOQC defaults and the Port Authority is required to assume ownership responsibilities and such costs. Should the Port Authority withdraw the space from the project, it would be responsible for the relocation of the statue to an alternate site acceptable to both FOQC and QWDC. In the event that the \$125 million commitment has then been depleted by other Queens West project costs, an additional Board Authorization for Port Authority funds to operate, maintain, insure, secure, remove and/or relocate the statue and base will be required.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Hellmuth, Janiszewski, Lewis, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be, and he hereby is, authorized, for and on behalf of the Port Authority, to enter into a space permit with the Friends of Queen Catherine, Inc. and an agreement with the Queens West Development Corporation stipulating that certain costs incurred by the Port Authority under the permit may be chargeable against the Port Authority's commitment to the Queens West Waterfront Development Project, each in accordance with the terms outlined above; the form of the agreement in each instance shall be subject to the approval of General Counsel or his authorized representative.

REGIONAL ECONOMIC DEVELOPMENT PROGRAM - REALLOCATION OF FUNDS FROM HIGHWAY PROJECT TO PARK RELOCATION

It was recommended that the Board authorize the reallocation of up to \$325,000 in funds previously authorized under the Regional Economic Development Program for the New Jersey Department of Transportation's Route 169 Section 1(g) and 2(h) Project. Governor Whitman has requested that this amount be reallocated to effectuate the relocation of a playground currently located between the on and off ramps of Route 78 near the Newark South Ward Industrial Park to a nearby location. Relocation of this Park is a matter of great community concern since the current location was the site of a tragic accident this spring when a child was struck and killed.

The New Jersey Department of Transportation has advised the Port Authority that it concurs in the Governor's request for this reallocation and that the amount being reallocated is not required for the Route 169 Section 1(g) and 2(h) Project. The ramps where the Park is currently located provide access for trucks which will be using the Newark South Ward Industrial Park which is to begin construction shortly. The Port Authority shall have no responsibility for any aspect of the relocation project other than to provide the funds being reallocated by this action.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Hellmuth, Janiszewski, Lewis, Philibosian and Schweitzer voting in favor; Commissioner Haley abstaining; none against:

RESOLVED, that \$325,000 of the amount previously allocated to the New Jersey Department of Transportation ("NJDOT") for Route 169 construction is hereby reallocated for use by the NJDOT in a joint project with the City of Newark to relocate an existing playground from a site between the Clinton Street on and off ramps for Route 78 to a safer location several blocks away, as a public safety measure and in anticipation of increased truck traffic associated with the nearby Newark South Ward Industrial Park; and; it is further

RESOLVED that the Executive Director be and he is hereby authorized, for and on behalf of the Port Authority, to enter into an appropriate agreement with NJDOT and/or other appropriate public entity to provide monies for the effectuation of such relocation; the form of such agreement shall be subject to the approval of General Counsel or his authorized representative.

(Board - 7/31/97)

REGIONAL ALLIANCE FOR SMALL CONTRACTORS, INC. - RENEWAL OF PARTICIPATION AND EMERGENCY FUNDING

It was recommended that the Board authorize the Port Authority to continue its support of the Regional Alliance for Small Contractors, Inc. ("Regional Alliance") by:

- 1) entering into an agreement with the Regional Alliance for a period not to exceed three years whereby the Port Authority would provide a financial contribution to the Regional Alliance in the amount of \$250,000 per year for fiscal years 1998 through 2000, of which \$51,000 may be used to meet 1997 cash flow problems; and
- 2) providing in-kind services in an amount not to exceed \$20,000 per year (office space at the World Trade Center) in fiscal years 1998 through 2000.

The Regional Alliance has proven to be an effective way to pool public and private resources to provide training programs, access to financial institutions, and assistance and advice to help the growth of minority, women-owned and small business (M/W/SBE) firms in the region. The Port Authority uses this program to support the M/W/SBE portion of its annual capital and maintenance programs.

Participation in the Regional Alliance was initially authorized by the Board in November 1990, and renewed in February 1992, in June 1993 and 1994, in February 1995 and in November 1995. In October 1996, the Board authorized \$250,000 in financial assistance and \$20,000 for in-kind services for the Regional Alliance's 1997 fiscal year. The Regional Alliance's fiscal year begins October 1 and ends September 30. The recommended 1998 fiscal year contribution will represent approximately 27 percent of the Regional Alliance's total projected 1998 revenues.

The Regional Alliance will continue to provide business support to Port Authority-certified M/W/SBE firms through its Managing Growth classroom series, expert advice on construction management through its Loaned Executive Assistance Program, assist in publicizing upcoming contract opportunities through announcements in various newsletters and through organized events and assist contractors referred by the Port Authority in packaging loan and bond applications.

Cash contributions totaling \$909,500 were received from the following organizations for the Regional Alliance's 1997 fiscal year programs:

(Board - 7/31/97)

<u>Organization</u>	<u>Contribution</u>	<u>Percentage of Total</u>
The Port Authority of NY & NJ	\$ 250,000	27%
Federal Highway Administration/New Jersey	200,000	22%
New York State Department of Transportation	212,500	23%
Managing Growth Classes	40,000	4%
New Jersey Economic Development Authority	50,000	6%
Dormitory Authority of the State of New York	50,000	6%
Partnership Dues	50,000	6%
Empire State Development	20,000	2%
Annual Luncheon (Net Proceeds)	35,000	4%
City of Elizabeth, New Jersey	2,000	0%
TOTAL	\$ 909,500	100%

Cash contributions equal to fiscal year 1997 funding levels are anticipated for fiscal year 1998.

Port Authority staff will continue to monitor contract performance, budget and evaluate the contributions from other participants, on a quarterly basis.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Hellmuth, Janiszewski, Lewis, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into an agreement with the Regional Alliance for Small Contractors, Inc. to provide continued support to the Regional Alliance for a period not to exceed three years with a financial contribution in the amount of \$250,000 per year for fiscal years 1998 through 2000, of which \$51,000 may be used to meet 1997 cash flow problems; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to provide in-kind services in an amount not to exceed \$20,000 per year for fiscal years 1998 through 2000 by furnishing office space at the World Trade Center; and it is further

RESOLVED, that the form of the agreements necessary to effectuate the above shall be subject to the approval of General Counsel or his authorized representative.

NEW YORK STATE AND LOCAL EMPLOYEES' RETIREMENT SYSTEM -
CHAPTER 41 OF THE LAWS OF NEW YORK, 1997 - ADOPTION OF THE
1997 RETIREMENT INCENTIVE PROGRAM

In April, legislation was adopted in New York (Chapter 41, Laws of New York, 1997, (the "Legislation") enabling employers participating in the New York State and Local Employees' Retirement System (the "Retirement System"), including the Port Authority, to adopt at their discretion a Retirement Incentive Program intended to enable the State of New York and these agencies to achieve economies, consolidation or abolition of functions, or curtailment of activities, by inducing eligible employees to retire at this time. Under the Legislation, a retirement incentive can be made available to non-police employees continuously employed since February 1, 1997, who are at least 50 years of age and have ten years of credited service (or 70 years of age with five years of service) or who are otherwise currently eligible to retire. This incentive is similar to those authorized and implemented by the Port Authority during 1995 and 1996. While the additional pension benefits are subject to reductions for those under 55 and to certain tax law restrictions and reductions, eligible employees who voluntarily choose to retire at this time would, generally, receive an additional one month of Retirement System credited service for each year of service up to a maximum additional Retirement System credit of three years. Employees eligible for any other lump sum retirement incentive payments (such as severance allowances) from the Port Authority would not be eligible for this Retirement System incentive unless they waive their eligibility for such lump sum payments.

The Legislation requires either the elimination of a number of positions within eligible titles equal to the number of eligible employees retiring with the incentive or a Port Authority plan showing savings over a two-year period of at least 50 percent of the base salary of each person retiring with the incentive. The Legislation provides that the period in which individual employees may elect to retire with the retirement incentive must be of no less than 30 and no more than 90 days' duration, and must not extend beyond December 31, 1997. Under the Legislation the employer may elect to pay for the costs of this incentive in one installment or in five annual installments to be set by the Retirement System commencing during the Retirement System's fiscal year ending March 31, 1999.

Under the Legislation, targeted positions are those for which the abolition of a specified number of positions in the title would not, in the determination of the chief executive officer (here, the Executive Director),

- a. Directly result in a reduction of the level of service required or mandated to protect and care for clients of the state or a participating employer or to assure public health and safety;
- b. Endanger the health or safety of employees of the state or a participating employer; or
- c. Clearly result in a loss of significant revenue to the state or a participating employer or result in substantially increased overtime or contractual costs."

(Board - 7/31/97)

Titles may also be considered eligible if employees subject to layoff may be placed therein. Finally, the Executive Director would also have staff prepare a list of eligible titles and positions and a plan of savings, as described above, which might avoid some job eliminations. Staff will seek to identify eligible job titles and positions meeting the requirements of the Legislation and the Port Authority's goals.

In the interim, the Executive Director recommended that the Port Authority take the formal steps necessary to participate in the 1997 Retirement Incentive Program and that he be authorized to implement such a program, contingent on his determination following compilation of information by staff that such a program would be in the best interests of the Port Authority and achieve appropriate staff reductions, reorganization or economies. To provide for administrative procedures and planning in a timely fashion, the implementation of this program, should the Executive Director decide to pursue it, would be scheduled during the period from December 1, 1997, through December 31, 1997, inclusive. Under the Legislation, an agency's chief executive officer must advise the Retirement System prior to September 3, 1997, of the adoption of a resolution authorizing implementation of the program.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Hellmuth, Janiszewski, Lewis, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to perform all acts and to make any and all determinations necessary or appropriate in connection with the implementation, effectuation, administration, or any other aspect of a targeted retirement incentive program under Chapter 41 of the Laws of New York, 1997, including without limitation, determining eligible titles (and the number of positions therein) to be covered by such program and the development of any compensation savings plan in connection therewith and, in this connection, and subject to approval as to form by General Counsel, to file any necessary or appropriate documents, affidavits, certifications and forms; and it is further

RESOLVED, that The Port Authority of New York and New Jersey does hereby elect to provide the benefits of Chapter 41 of the Laws of New York, 1997 commencing on December 1, 1997, for all eligible employees who retire with an effective date of retirement set during the thirty-one day period beginning with and immediately following the commencement date and who are otherwise eligible as specified by Chapter 41.

(Board - 7/31/97)

**THE PORT AUTHORITY OF NEW YORK AND NEW JERSEY AND PATH v.
ALLIED - SETTLEMENT WITH ROBERTSON - CECO CORPORATION,
ALSO KNOWN AS H.H. ROBERTSON COMPANY**

This item shall not be available for public inspection until otherwise agreed to by the parties involved.

(Board - 7/31/97)

**SETTLEMENT OF CLAIM - MIGUEL RUIZ v. THE CITY OF NEW YORK AND THE
PORT AUTHORITY OF NEW YORK AND NEW JERSEY**

It was recommended that the Board authorize General Counsel to settle the pending action entitled Miguel Ruiz v. The City of New York and The Port Authority of New York and New Jersey by paying to plaintiff and his attorneys the sum of \$375,000 in exchange for a general release from liability and a discontinuance of the action with prejudice. This amount represents the Port Authority's portion of the total settlement of \$500,000.

Miguel Ruiz was injured when he tripped in a hole on 40th Street between 8th and 9th Avenue on December 21, 1990. He instituted a lawsuit against the City of New York and the Port Authority to recover damages for personal injuries which included a rupture of the deltoid ligament and a fracture of his left ankle, requiring an open reduction and internal fixation. Thereafter, Mr. Ruiz developed venous insufficiency, which required by-pass surgery pursuant to which a vein was removed from his left arm and transplanted into his left leg. Mr. Ruiz has been unable to return to work since his accident.

It is believed that this settlement would fairly compensate plaintiff for his injuries and avoid exposing the Port Authority to a potentially greater jury verdict.

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Hellmuth, Janiszewski, Lewis, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that General Counsel be, and he hereby is authorized, for and on behalf of the Port Authority, to settle the pending civil action entitled Miguel Ruiz v. The City of New York and The Port Authority of New York and New Jersey, by paying \$375,000, the Port Authority's portion of the total settlement of \$500,000, to plaintiff and his attorneys in return for a General Release and Stipulation of Discontinuance with prejudice and a representation that plaintiff agrees to hold the Port Authority harmless and indemnify it for any outstanding liens concerning this incident.

(Board - 7/31/97)

AWARD OF MEDAL OF HONOR TO POLICE OFFICER JOHN P. MAHER

The Port Authority Medal of Honor, under Board Resolution of March 2, 1944, as amended, is to be awarded to an individual who, in performing a specific act, demonstrated extraordinary bravery in the face of circumstances which would surely to have led to grave personal injury or his own death should the slightest miscalculation have occurred.

It was recommended that the Medal of Honor be awarded to Police Officer John P. Maher.

Whereupon, the following resolution was unanimously adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Hellmuth, Janiszewski, Lewis, Philibosian and Schweitzer voting in favor; none against:

WHEREAS, by resolution adopted by the Board on March 2, 1944 as amended, the Port Authority Medal of Honor award was established, which award is to be given to a Port Authority employee for the performance of outstanding service; and

WHEREAS, in the case of Police Officer John P. Maher, it is recommended that the Port Authority Medal of Honor be given for his heroic actions.

NOW, THEREFORE, BE IT

RESOLVED, that the Executive Director be and he hereby is authorized to award the Medal of Honor to Police Officer John P. Maher for the performance of outstanding service.

(Board - 7/31/97)

PRESENTATION OF THE ROBERT F. WAGNER DISTINGUISHED PUBLIC SERVICE MEDAL

The Robert F. Wagner Distinguished Public Service Medal, by resolution adopted by the Board on March 2, 1944 and amended on May 14, 1992, is awarded to those individuals who have rendered outstanding distinguished public service in their fields of endeavor or in the community, demonstrating an exceptional degree of dedication, good judgment, initiative and competence, and who have sustained this record of service over a number of years. Normally, it is awarded to those who have at least fifteen years of Port Authority service.

It was reported that the Executive Director is to present the Robert F. Wagner Distinguished Public Service Medal to ten individuals. Through their dedication and commitment to public service and the Port Authority, they have brought credit to themselves and the agency.

John Castaldo
Leo M. Cintron
Robert C. DiChiara
Police Sergeant John L. Escobar
Thomas P. Hennessy
Francis Hines
Raymond P. Mannion
Ennala Ramabhushanam
Charles A. Surrusco
Earle J. Walker

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Hellmuth, Janiszewski, Lewis, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Robert F. Wagner Distinguished Public Service Medal be awarded to ten individuals who have given truly outstanding service to the Port Authority and the public over many years.

(Board - 7/31/97)

**PRESENTATION OF THE MERITORIOUS SERVICE AWARD OF COMMENDATION
MEDAL**

The Commendation Medal, by resolution adopted by the Board on March 2, 1944, as amended, is to be awarded only for outstanding service or exceptionally meritorious performance.

It was reported that the Executive Director is to present the Commendation Medal to nine individuals who participated with dedication and bravery in five incidents:

James Bohan
David Burke
Anthony Cusumano
Robert Dudajek
Kenneth Hicks
Kevin Higgins
Louis Mastria
Guillermo Santos
Shawn Tucker

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Hellmuth, Janiszewski, Lewis, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Commendation Medal be awarded to nine individuals who have performed outstanding service for the Port Authority and the public.

(Board - 7/31/97)

**PRESENTATION OF THE MERITORIOUS SERVICE AWARD OF POLICE
COMMENDATION MEDAL**

The Police Commendation Medal, by resolution adopted by the Board on March 2, 1944, as amended, is to be awarded to a police officer only in those cases where the officer has performed outstanding service or has shown exceptionally meritorious performance in the duty assigned to him or her.

It was reported that the Executive Director is to present the Police Commendation Medal to eleven individuals who participated in seven incidents. These individuals demonstrated heroism, dedication and bravery in the performance of their duties.

Police Officer Reginald L. Bates
Detective Matthew Besheer
Police Officer Kevin W. Cottrell
Police Officer Lawrence R. Gregg
Special Agent Francis Pellegrino (FBI)
Police Officer Joseph J. Petrullo
Police Officer Salvatore G. Piro
Police Sergeant Mark K. Potepa
Police Sergeant John F. Ryan
Police Officer Brian A. Settle
Police Officer Kenneth F. Tietjen

Pursuant to the foregoing report, the following resolution was adopted with Commissioners Donovan, Eisenberg, Gargano, Haley, Hellmuth, Janiszewski, Lewis, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Police Commendation Medal be awarded to eleven individuals who have performed outstanding service or exceptionally meritorious performance of their duties.

(Board - 7/31/97)

PRESENTATION OF THE EXECUTIVE DIRECTOR'S AWARD OF ACHIEVEMENT

The Executive Director's Award of Achievement, established in 1961, is given to individuals who, in the course of carrying out a project or extended assignment as part of the normal work of their positions, extend themselves beyond required limits and achieve results which are of such a nature that they clearly deserve special recognition. Characteristics of performance which are considered in determining the award include ingenuity, resourcefulness, risk taking in decision making and job performance, unusual insight into problems, exceptional diligence and thoroughness in producing completed staff work, and above-standard degrees of proficiency, craftsmanship or professional competence. Among the kinds of results recognized by the award are improved revenues, better service to or relations with tenants, patrons or the community in general; and actions taken on behalf of the Port Authority which are clearly beyond the usual limitations of job responsibility.

It was reported that the Executive Director is to present the Executive Director's Award of Achievement to two individuals.

Barbara M. Iannacone-Ramos
Pamela Walden-Phillips

(Board - 7/31/97)

PRESENTATION OF THE EXECUTIVE DIRECTOR'S UNIT CITATION AWARD

The Executive Director's Unit Citation was established in 1966 and is to be awarded to the members of a unit, section, division or special task force whose performance in carrying out a project, extended assignment, or during an unusual operating situation was so outstanding as to warrant special recognition.

It was reported that the Executive Director is to present the Executive Director's Unit Citation to 40 individuals for their work on two teams.

Cruz C. Russell, Director, Office of Corporate Policy and Planning
Angela F. Wood, Special Assistant to the Executive Director
Peter B. Yunis, Executive Assistant to the Chairman

(Board - 8/28/97)

The meeting was called to order in executive session by Chairman Eisenberg at 12:50 p.m. and ended at 1:11 p.m.

Action on Minutes

The Secretary submitted for approval Minutes of the meeting of July 31, 1997. He reported that copies of these Minutes were sent to all of the Commissioners and to the Governors of New York and New Jersey. He reported further that the time for action by the Governors of New York and New Jersey has expired.

Whereupon, the Board of Commissioners unanimously approved the Minutes.

Chairman Eisenberg welcomed David S. Mack as Commissioner of the Port Authority and expressed the Board's pleasure in having Commissioner Mack participate in the work of the Board.

JOHN F. KENNEDY INTERNATIONAL AIRPORT - SINGAPORE AIRLINES LIMITED - AUTHORIZATION TO LEASE SPACE IN HANGAR NO. 15 AND OUTSIDE AREA AT HANGARS NOS. 15 & 16

It was recommended that the Board authorize the Executive Director to enter into an approximately fifteen-year lease with Singapore Airlines Limited covering approximately 73,000 square feet of warehouse and office area in Hangar No. 15 (leasing 52,000 square feet initially and, beginning in the sixth year, leasing an additional 21,000 square feet of building area) and approximately 127,000 square feet of related outside area at Hangars Nos. 15 and 16. The rental will be a fixed amount which increases annually.

The lease would provide a right for the Port Authority to terminate the lease at the end of the tenth year under certain circumstances, whereupon the Port Authority would be obligated to either (1) offer to lease to the lessee alternative space at the rental rates stated in the lease for the remaining lease term and reimburse the lessee for relocation and fit out expenses for the alternative premises or (2) pay the lessee its straight line unamortized initial investment upon the lessee vacating the premises. In either of the above instances, the amount of the reimbursement or payment made to the lessee would be limited to the unamortized portion of its initial investment not exceeding \$5.5 million.

The rent commencement date shall be the earlier of (1) the 90th day following the signing of the lease, (2) the date the lessee's renovation work is substantially completed and (3) the date the premises or any portion thereof is occupied by the lessee for cargo purposes.

The lessee will be responsible for any remediation above the baseline condition of the premises, including without limitation removal and disposition of debris and materials resulting from construction at the premises, except that the Port Authority shall be responsible for any required removal and disposition of asbestos arising out of the lessee's initial construction.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to enter into a lease agreement with Singapore Airlines Limited, substantially in accordance with the terms and conditions set forth above; the form of the agreement shall be subject to the approval of General Counsel or his authorized representative.

(Board - 8/28/97)

NEW YORK/NEW JERSEY - EXPANSION OF FOREIGN-TRADE ZONE NO. 49 - GENERAL PURPOSE ZONE TO INCLUDE THE BULK FUEL FARM AT NEWARK INTERNATIONAL AIRPORT AND THE BUCKEYE PETROLEUM TERMINAL IN LINDEN, NEW JERSEY

The Port Authority, as grantee of Foreign-Trade Zone No. 49 (the "Zone"), has been requested by several tenant airlines at Newark International Airport to submit an application to the Foreign-Trade Zone ("FTZ") Board of the United States Department of Commerce for the expansion of the Zone to include in a subzone the Bulk Fuel Farm at Newark International Airport and the Buckeye Petroleum Terminal ("Buckeye") in Linden, New Jersey. If the Zone is expanded to include the Fuel Farm and Buckeye, airlines using jet fuel produced at a FTZ refinery will be able to purchase fuel at a lower cost. If the Fuel Farm and Buckeye are not included in the Zone, the duty free status of FTZ refined jet fuel will be lost and the cost of fuel to the airlines will be increased.

The establishment of the subzone would not result in any cost, expense, or unusual risk of loss to the Port Authority. Upon expansion of the Zone, the operators of Buckeye and the Fuel Farm will each enter into an agreement with the Port Authority which will provide for a payment to the Port Authority of an annual fee and appropriate assurance that the new sites in the expanded Zone will be operated without unusual cost, expense or risk of loss to the Port Authority or subzones authorized by the Port Authority.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to file an application with the Foreign-Trade Zone Board of the United States Department of Commerce for the expansion of Foreign Trade Zone No. 49 to include the Buckeye Petroleum Terminal in Linden, New Jersey, and the Bulk Fuel Farm at Newark International Airport and to execute appropriate agreements in connection therewith; the form of the agreements and documents involved in this application shall be subject to the approval of General Counsel or his authorized representative.

(Board - 8/28/97)

**THE WORLD TRADE CENTER - SUBGRADE SLAB REHABILITATION PROGRAM
- PHASE 1 - PROJECT AUTHORIZATION**

Due to corrosion from de-icing salts and general wear and tear over 25 years, there is extensive concrete deterioration of the subgrade slabs in the World Trade Center. Preliminary engineering analysis has projected that all of the subgrade slabs will require rehabilitation within the next several years to maintain their capacity to support vehicular traffic and parking in the subgrade.

Phase 1 of the planned rehabilitation program estimated at \$30.75 million provides for rehabilitation of up to 160,000 square feet on the B-1 Truck Dock, as well as approximately 33,000 square feet in a portion of the B-3 parking area. Deterioration of the underside of the B-1 slab required the closure of the United States Secret Service parking area earlier this year. The remaining subgrade parking lot slab areas, which are approximately 700,000 square feet of space on levels B-2, B-3 and B-4, would be addressed in Phase 2, currently estimated at an additional cost of \$40-50 million. Authorization of Phase 1 work does not obligate authorization of Phase 2.

Pursuant to the foregoing report, the following resolution was adopted in executive session with Commissioners Donovan, Eisenberg, Gargano, Kalikow, Lewis, Mack, Philibosian and Schweitzer voting in favor; none against:

RESOLVED, that a project for the first phase of a program to rehabilitate The World Trade Center's subgrade slabs, at an estimated total project cost of \$30.75 million including administrative, engineering, planning and financial expense, payments to vendors, consultants and contractors, and allowances for net cost work, extra work (if necessary), and a project contingency (if necessary), be and the same is hereby authorized; and it is further

RESOLVED, that the Executive Director be and he hereby is authorized, for and on behalf of the Port Authority, to: a) take such action with respect to the award of purchase and construction contracts and contracts for professional and advisory services for the foregoing project as he deems in the best interest of the Port Authority, including, without limitation, award to the lowest bidder who, in his opinion, is qualified by reason of responsibility, experience and capacity to perform the work and whose bid price the Executive Director deems reasonable; rejection of all bids; solicitation of new bids on revised or the same requirements; or negotiation with one or more contractors; b) execute contracts and supplemental agreements with such contractors as he deems in the best interests of the Port Authority and to order extra work (if necessary) and net cost work in connection with each such contract, including supplemental agreements; and c) enter into such other agreements as may be necessary to effectuate the project; and it is further

)
RESOLVED, that the form of the contracts and agreements shall be subject to the approval of General Counsel or his authorized representative.
