January 10, 2014

Daniel Duffy
FOI Administrator
Port Authority of NY and NJ
225 Park Avenue South, 17th Floor
New York, NY 10003

Dear Mr. Duffy:

Under the New York State Freedom of Information Law, Article 6 of the Public Officer Law and, the Port Authority of New York and New Jersey policy on Freedom of Information, I am requesting an opportunity to inspect or obtain copies of public records that detail the following:

1. Listing of the dates, times and durations of lane closures at the George Washington Bridge between January 1, 2011 and December 01, 2013. Aside from the listing of closures I would also like any supporting documentation that reveals and explanation for the closures and who requested them. My request is for "non-accident" and "non-construction" lane closures BUT please include "emergency construction" closure information.

If there are any fees for searching or copying these records, please inform me if the cost will exceed \$200. However, I would also like to request a waiver of all fees in that the disclosure of the requested information is in the public interest and will contribute significantly to the public's understanding of the unfolding bridge closure scandal. This information is not being sought for commercial purposes.

If you deny any or all of this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law.

Thank you for considering my request.

Sincerely,

Don Champion

Re: Freedom of Information Reference No. 14532

Dear Mr. Champion:

This is a response to your January 10, 2014 request, which has been processed under the Port Authority's Freedom of Information Code, (the "Code"), for a copy of a "listing of the dates, times and durations of lane closures at the George Washington Bridge between January 1, 2011 and December 1, 2013 and any supporting documentation that reveals an explanation for the closures and who requested them. The request is for 'non-accident' and non-construction lane closures but should include emergency construction closure information."

Material responsive to your request and available under the Code can be found on the Port Authority's website at <http://www.panynj.gov/corporate-information/foi/14532-0.pdf>. Paper copies of the available records are available upon request.

Very truly yours,

Daniel D. Duffy
FOI Administrator
