**Subject:** Public Record Request (Sensity and Blip Systems/Lockheed Martin)

To whom it may concern,

I am emailing to request public records for contracts done with Newark Liberty Airport and John F. Kennedy International Airport for queue management systems offered by Sensity and Blip Systems. More detail below.

**Blip Systems (JFK):** Blip Systems deployed the BlipTrack solution in JFK Terminal 4, operated by JFKIAT. This system was implemented in mid to late 2015 and would have been out for bid and response early to mid 2015. I am interested to see the details of the solicitation, who bid on the the solicitation, and any information about the awarded proposal (including the scope of work, the contract length, and the cost of the contract).

**Sensity (Newark):** Sensity deployed their smart lighting solution at the Newark Liberty Airport in Terminal B in 2013 to early 2014. I am interested to see the details of the solicitation, who bid on the the solicitation, and any information about the awarded proposal (including the scope of work, the contract length, and the cost of the contract).

If you have any questions regarding my request please feel free to reach out to me via email or phone (number in my signature line) and I would be happy to help you better understand my request. Thank you for your time.

Kind regards,

*Scott Thatcher*
